## A.R.P. HAS PRACTICE

Workers at Westview Acquaint Themselves Well.

On Thursday evening all sections of the Westview A.R.P. turned out in full strength for a work-out which proved very realistic.

A series of incendiary bombs dropped between the residences of Alex Turnbull and Frank Dobb's on Graham Avenue. Sixteen bombs in all fell. One dropped on the walk of Thomas Priest's residence. Before the fire wardens could get there Mrs. Priest had put it out expeditiously with sand. Several of the bombs fell in dangerous spots and could not be handled with sand. One fell in the bush near Dr. Mandy's residence with danger to the house. Fire wardens quickly connected hose to the fire hydrant there and the situation was soon well in hand. Another which fell near the porch of J. Christensen's residence had to be carried away with a special A.R.P. shovel to a point where it was less dangerous.

Telephones being out of commission, the police were stationed at every half block and passed the message to the station when a person was injured. The ambulance, with first aid equipment and men, quickly eased the injured and got them back to the station where they were given further attention.

An explosive bomb fell in front of Frank Dobb's house. The police kept all persons a safe distance from bomb. Still there were two casualties when it exploded. The police, having been busy preventing the people from getting near the bomb, were not in a position to pass a message so a runner with a bicycle was sent to the station. The result was very satisfactory, the ambulances was there in a short time and the injured taken care of.

A bomb fell in thick bush near J. Christensen's house and started a bush fire which at first looked as if it would burn the house. The water main being broken, the pump was quickly in action at the water hole and the situation was very satisfactorily taken care of in a short time.

The first aiders worked very well.

Al Moser sailed on the Cardena today for Bella Bella.

## R.A.F. BLASTS FRENCH FACTORIES WORKING FOR NAZIS

Clouds of smoke pour from the Matford motor truck factory at Poissy, 17 miles northwest of Paris, France, as British Royal Air Force bombers rip it apart in low-level bombing raid in broad daylight. The factory was turning out war equipment for the Nazis. The raid was made without enemy opposition, and was one of the heaviest to date of those staged on occupied France by the R.A.F. The same factory was again bombed this Thursday night.

Situation For Allies Is Becoming Increasingly Serious Near Frontier of India

NEW DELHI, April 4:—Grave news reverses marked the Allied defence of Burma yesterday as British headquarters acknowledged that the Japanese had cracked the right wing anchor at Prome, the key to Burma's vital oil fields, which has been abandoned.

The enemy has made a new landing on Burma only seventy-five miles from the frontier of India proper and 325 miles from Calcutta. ## NEW AIR SERVICE

Trans Canada Extends Its Operations To Newfoundland

MONTREAL, April 4:—Looking toward the commencement of scheduled, commercial service to Newfoundland on May 1, Trans-Canada Air Lines started familiarization flights to St. John's Friday, it was announced by H. J. Symington K. C., president of the Trans-Canada Air Lines.

Moncton will be the Canadian terminal of the new service and connections will be made with T. C. A. service throughout Canada. Enroute to Newfoundland, a stop will be made at Sydney, Nova Scotia, thus bringing this industrial centre at the most easterly tip of the Dominion into the domestic airline network.

Two stops will be made in Newfoundland. The important air base at Gandor Lake will be one and St. John's, the Island Capital, the other.

Flight crews assigned to the service have already reported for duty at Atlantic division headquarters at Moncton and ground staffs are now on duty at Sydney and in Newfoundland.

April will be a shakedown month during which arrangements for regular air mail, passenger and air express services will be completed.

"The extensive developments being undertaken in relation to hemispheric defence by Great Britain, the United States and Canada lend considerable importance to this new service," said Mr. Symington.

"By rail and boat transportation the trip from Moncton to St. John's is now 54 hours. It will be about four hours by air.

"Canada is interested in trans-Atlantic air service and Newfoundland is the North American gateway in such service. We are very happy to further this service and also further the war effort of the allied nations."

#### Peace River Oil . . .

The offer of the provincial government to turn over the Peace River oil resources to the Dominion for the duration and one year after is an admirable gesture. Incidentally, if the offer is accepted, it will relieve the provincial administration of the responsibility of deciding whether or not private interests shall become identified with the development of the resource.

Of course, no oil is as yet available in the Peace River, the ground being so far only in the drill testing stage. Conceivably, however, and the former premier, T. D. Pattullo, has always been very emphatic about his confidence to this effect, it may become one of Canada's most important oil producing areas. Whether or not it will be in time for the war is, of course, problematical. No doubt, the operations of testing out could be greatly speeded up.

Turning over of Peace River oil to the federal government would just be another of many other important contributions British Columbia, first through the Pattullo government and later through the coalition, has been making to Ottawa in furtherance of the war effort.

#### Advertising Is a Great Teacher . . .

What is your view concerning advertising? Whatever it may be—for, against, or unformed—the fact is that advertising is a truly wonderful factor in shaping for the better the habits and practices of most men and women. Beyond all question advertisements show us how to lessen daily drudgery, how to economize time, labor and money, how to increase our social acceptance, how to care for our bodies so that we shall have less illness, less suffering, and more strength for the doing of our daily work. Advertisements tell us what science, invention and discovery have done and are doing to increase the variety of products and services which singly and in sum provide markets for raw materials, for machines and for human labor.

Advertising is not just a selfish urging of us to buy particular products. It is that, of course, but it is also a beneficent influence, a great teacher, a great inspirator, a great civilizer. So when you read the advertisements try to see in them more than the self-interest of the advertiser. See them as distributors of information about things designed for the common good.

Our life would be a very dreary and hollow experience if we had not the innumerable good things which advertising makes us know about.

 Local Halibut Fleet Lining Up Its Own Curtailment Plan—Fishing for Black Cod Out of Here.

While nothing has yet been done in the way of negotiating an agreement on the matter with the Puget Sound fleet which has shown no disposition to take the question up, the Prince Rupert halibut fleet is considering a plan of its own for the regulation of catches and landings in the interest of market stabilization. Details of the plan, providing for staggered departure of the fleet and lay-overs between trips, are now being perfected and will be put into effect, it is hoped, as the fishing season opens April 15 or less than two weeks hence. Members of the Canadian Halibut Marketing Board—W. H. Brett, Joseph Kilby and Anton Dybbavn—will be leaving Monday afternoon on the Princess Norah to discuss curtailment measures with Vancouver fleet. An endeavor is being made to have Seattle fleet representatives there also to discuss a general plan.

On Tuesday evening Mrs. Ole Anderson and Mrs. John Carpenter were joint hostesses at the home of the former at a delightful miscellaneous shower in honor of Miss Josephine Gay who is to be married shortly.  TOO MUCH BOOZE

Editor, Daily News: I have been in Prince Rupert at different times for many years. It used to be a fine place in which to live and it could still be a grand place to live if the booze and hoodlums and slugging etc. etc. could be stopped. This should have been done long ago and this city made a safe place for women and girls and also men who want to be sober and decent. I think the Rotary Club resolution is just right and should be signed by every decent thinking citizen in Prince Rupert. Too much booze is all the trouble.  
 FOR LESS BOOZE.

**MOUNTAINS TO BLAME**

Regional Engineer of Broadcasting Corporation Suggests This May Be Reason for Bad Reception Here. Mountain ranges in the vicinity of Prince Rupert are now being blamed for the poor radio reception in this city. N. R. Olding, regional engineer of the Canadian Broadcasting Corporation for British Columbia, so writes to D. C. McRae, chairman of the radio committee of the Prince Rupert Chamber of Commerce. Tests made during the past winter, Mr. Olding writes, have led to the belief that the location of these ranges are a contributing factor to the poor reception here. Mr. Olding says that he has never lost sight of radio reception problems at Prince Rupert and states that considerable progress has been made although "admittedly inadequate."

**STORY OF BAD MEN**  
 Thrilling Saga of Bandit Heroes Of Old West Coming To Capitol Theatre Next Week

"Bad Men of Missouri," colorful story of the daring escapades of the Younger brothers, one of the toughest trio of bandits in America's turbulent history, is the feature picture for the screen of the Capitol Theatre here at the first of next week. Dennis Morgan, Wayne Morris and Arthur Kennedy play the parts of notorious gang of bank and train robbers who terrorized Missouri, Iowa and Kansas with their bank and train robberies. Returning from the Civil War in which they served with the defeated Confederate army, the brothers find their father murdered and their homes and most of their neighbors in the hands of the local banker, Jane Wyman, one of the brother's girl friends, tries to dissuade them from becoming criminals but they are determined to avenge their father's death. One of the brothers is killed and another is charged with the murder of the sheriff. Crime after crime follows but, finally, the career of lawlessness comes to an end in a completely surprising manner. Other members of the cast in the actionful picture are Mary Hathaway, Victory Jory and Sam McDaniel.

**RED CROSS News Notes**

Rusty, the small Burns Lake dog who has collected so many dollars for the Red Cross through his appeals to patriotic dogs, goes poetical this week. He isn't much of a poet, but he evidently feels that verse might attract attention of more dogs to this week's appeal. The list of dog's names on the roll of Red Cross contributors has steadily grown longer. So far, Quebec dogs head the list in number of contributors to Rusty's Fund for the Red Cross, care of the Royal Bank, Burns Lake, British Columbia.

Bow wow! Come on, you dogs. And send your dollars in. You eat square meals each day. You neither toil nor spin. By giving to the Red Cross, You'll help our soldiers win.

If we don't help our country, Then we'll just be classed as drones.

Our dollars will buy dressings To relieve our hurt boys' groans. Many things are rationed, But they haven't rationed bones!

We can't nip the Nipples, Or sink our teeth in Hitler's pants.

We can't cross the ocean, And try to rescue poor, dear France.

But, dogs who want to help, Give to the Red Cross—there's your chance!
