The Civic Centre . . .

The first annual general meeting of the Civic Centre Association of Prince Rupert has been called for tonight. The meeting will mark another important step towards what it is still hoped will be the early consummation of this long desired local project. Today the need appears to be even greater than ever before. Backers of the project feel that, from the standpoint of financing, there never was a more favorable time than this to proceed. There are some difficulties, however, and, so that all aspects of the situation may be discussed and all ideas considered, there should be a large turn-out tonight of interested persons. The attendance at this meeting may also be considered a gauge to the interest and desire for the civic centre that actually exists. Some ideas have been expressed as to the civic centre. Now is the time to bring them all forward.

Incidentally, it is timely enough that the finished plans for the project as now contemplated have just been received in the city from the provincial architect's department at Victoria and will be presented at tonight's meeting.

For some time a central committee has been working assiduously on various phases of the civic centre project. It has brought the Association into being, has had the plans prepared, has built up a liquid fund of several thousand dollars as well as taken care of other important matters in connection with building up the ground work. Now is the time for the public to get in, lend a hand and become represented in an active way in bringing the thing to a successful culmination with a minimum of further delay.

PREPARE

If Canada had an air raid,
 What protection have we here?
 We have no air raid shelters;
 We think there is no fear.

Of enemy planes and submarines
 Attacking our safe shore;
 We go unprotected,
 We keep an open door.

We pity other countries,
 "So unprepared", we said;
 But what have we to boast of
 In guns and ready lead?

Our country needs protection
 With military rules,
 And on our inland coasts we need
 Its manufactured tools.

We've lived so peacefully all these
 years
 By our sister country States,
 Now enemies are at our throats
 They're full of lust and hate.

So rise, ye dear old Canada,
 Prepare to meet thy foe
 For Japs and Germans you can't
 trust,
 They care not where they go.

 NEXT SEASON'S COAL
 AT ONCE!**

The immediate co-operation of the public is necessary if coal is to be available to heat and fuel Canadian homes and factories next winter.

Military needs are putting unusual burdens on our production and transportation facilities. If mining is allowed to slacken off during the summer months, as in the past, the railroads will not be able to move the coal required this fall.

If You Want to be Warm Next Winter

Give your dealer an order right away for the approximate amount of coal you will require next season. This will enable him to order his requirements, keep the miners working and the coal moving. Let him fill your bin as soon as he can make delivery. Provide extra storage space if necessary and possible.

Dealers' yards can only hold so much. Unless consumers order early and take delivery, new supplies cannot be brought in.

ELSIE, the Borden Cow, says:

HERE IS AN IMPORTANT ANNOUNCEMENT

BORDEN'S PREMIUM PLAN will be discontinued AUGUST 1st, 1942

Under ordinary circumstances, this would be bad news. But today all available resources in materials and labour are being directed towards winning the war.

And so The Borden Company Limited finds it necessary to withdraw its premium wrapper plan. After Saturday, August 1, 1942, premiums will no longer be given in exchange for wrappers from Borden's "Silver Cow" Evaporated Milk or Borden's "Eagle Brand" Sweetened Condensed Milk.

New wrappers are now being printed without the premium offer on them. These new wrappers will not be exchangeable for premiums.

There may still be Borden's "Silver Cow" milk or Borden's "Eagle Brand" milk in wrappers with the premium offer on them at your retailer's after August 1, 1942, but such wrappers will not be accepted in exchange for premiums after that date.

Wrappers must be mailed before August 1, 1942, to:

"On the warpath? You bet I am! So's my boy overseas!"

"It's not a bigger house for ourselves I'm
wanting," I said. "It's bigger tanks for our
boys overseas."

"Three eggs in a cake?" I said. "Not while my sister
in England gets one egg a week!"

"Maybe you think there can't be another
depression! Well, I'm not taking chances."

"When my girl wanted a new out-
fit, I said to her, 'If you were in the
Navy, I suppose you'd say to the
Captain, please can I have another
ship? This one's out of style!'"

Mrs. WATKINS has the right idea. She's saving money in
every way she can even though the family is earning big
wages now. But she says as long as Canadian boys are fighting
overseas she's going to fight on the home front—fight to help
keep prices down, to keep the boys equipped, and to have some-
thing put away against any difficult times ahead. She's buying
War Savings Stamps with every cent she can save . . . buying
them every week. Are you?
