MacArthur Is Moved To Australia

Hero of Philippines In Supreme Command Of Southern Pacific

Considerable Numbers of More American Forces Have Reached Commonwealth for United Nations Campaign.

WASHINGTON, March 17: (CP)—General Douglas MacArthur, hero of the Philippines, has arrived in Australia to take over supreme command of the United Nations forces in the Far Pacific. The United States War Department said that MacArthur's assignment to the critical Australian theatre was requested by the Australian government. His command will include the Philippines where Bataan Peninsula is still being defended successfully against superior Japanese forces. It was also announced by the War Department that United States troops and air corps units in considerable numbers have reached Australia.

Arrives From Eire—

CHASED BY SUBMARINE; HERE SAFE

Father William Doherty's Ship Fell Out of Convoy in Storm—Tells of Voyage Across.

Having crossed the Atlantic Ocean recently in a convoy one vessel of which was sunk by torpedo attack while the ship on which he himself travelled was chased by U-boats, Father William Doherty from County Donegal, Ireland, has arrived in Prince Rupert to be stationed in this diocese of the Catholic Church. Father James Carroll, who crossed with him, has been delayed in Vancouver to undergo an operation but will be here later.

Father Doherty crossed the Atlantic in a freighter aboard which there were eight passengers—the two priests, one ecclesiastic student for Regina and five others. Five days after embarkation, rough weather broke up the convoy and the rest of the voyage was made without escort. The ship immediately behind that in which Father Doherty travelled was torpedoed and sunk one night. Twenty-two on board were reported saved and thirteen lost.

With submarines known to be in the vicinity, passengers on Father Doherty's ship were awakened one night at 3 a.m. and assembled in the saloon with their lifebelts. They were prepared for any emergency. Later they were allowed to retire again, no attack having developed.

Before reaching port on this side, Father Doherty's ship was chased a couple of times by submarines. The U-boats were known to be nearby but, actually, none were seen by the passengers.

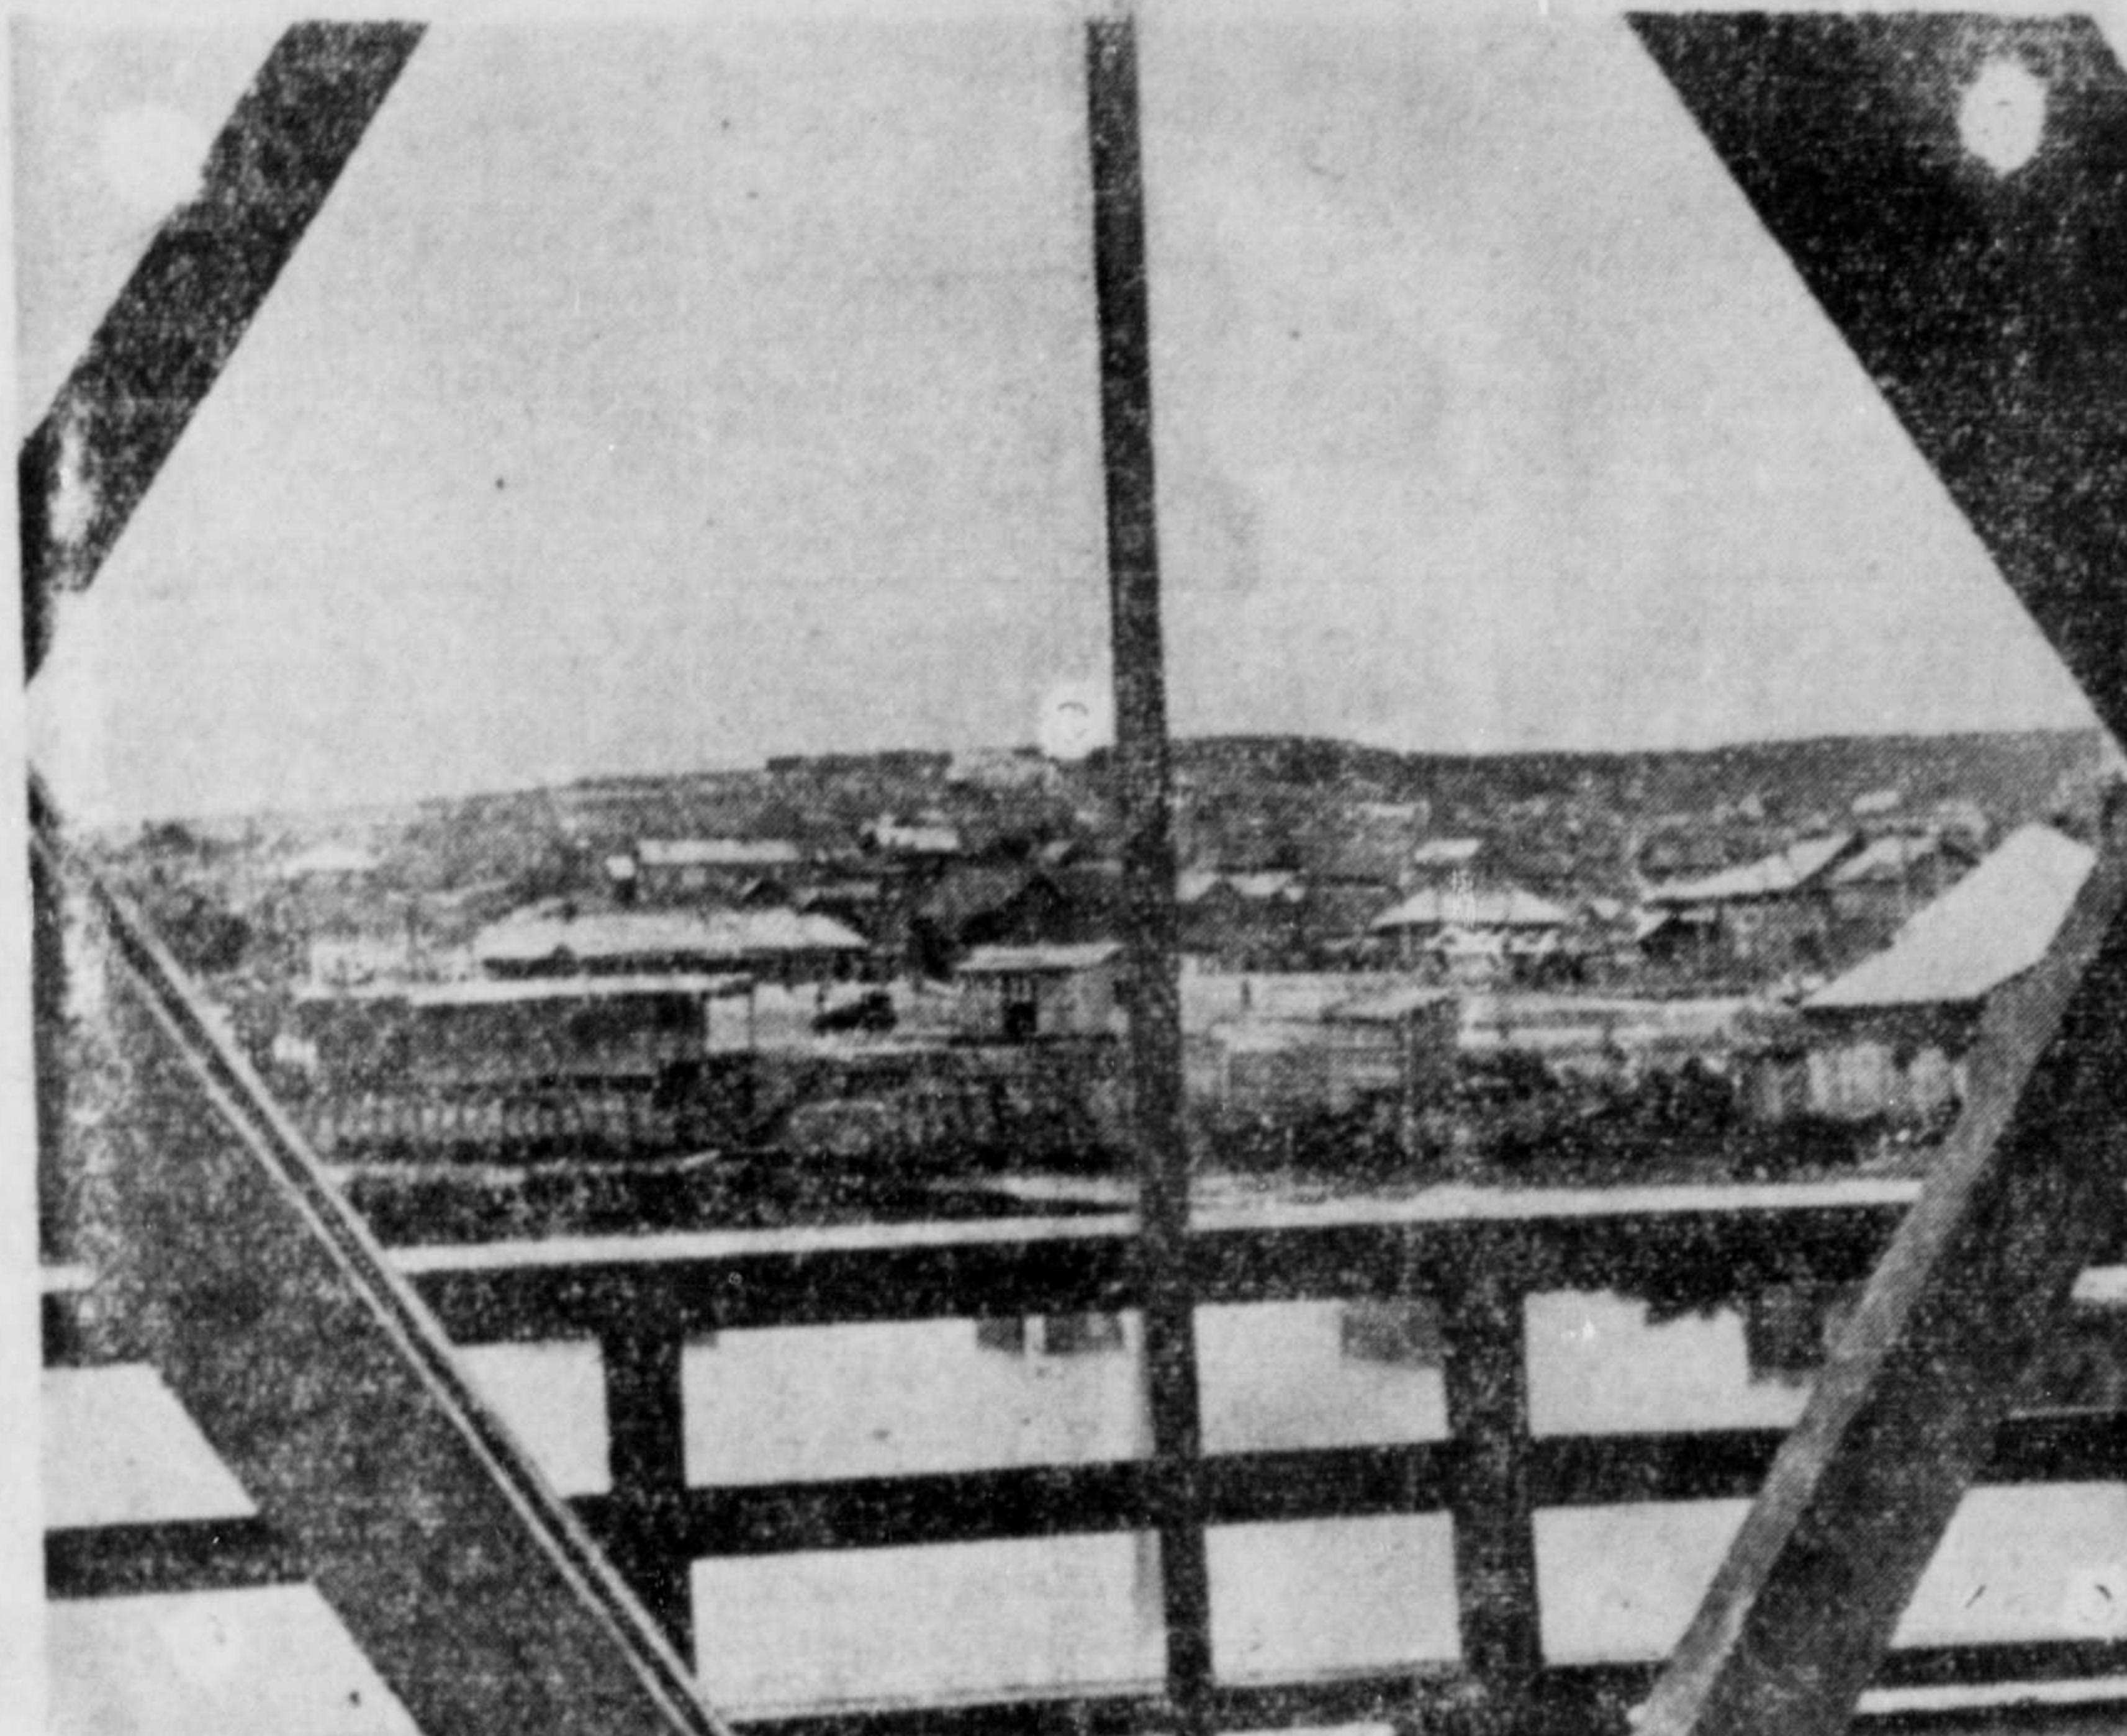

Close In On German Army

MOSCOW, March 17: (CP)—The Sixteenth German Army, entrapped at Staraya Russa, south of Leningrad, has lost one of its most important points of resistance in heavy fighting, the Moscow radio says. Dispatches identified the point only as "N."

DIDN'T KNOW WAR ON
WESTON FAVEILL, Eng., March 17: (CP)—Mrs. Sarah Adcock, who died in this Northants village, never had been told Britain was at war.

New Nazi Move In North Europe Seen

WHERE SOVIET-JAP BLOW-OFF MAY OCCUR

A view of the town of Alexandrovsk on the Russian-held portion of Sakhalin Island which, according to broadcasts from Moscow, is becoming the scene of bitter differences between the Soviet and Japan. The island would make an excellent base for operations from the air against Vladivostok, and it is reported that Russia has massed troops along the coast opposite it. The government has also ordered that all Jap holdings there be sequestered and placed under control of a commissar for alien property. It is possible that they hope to tie up oil production, the exploitation of which was ceded to the Japs in 1926.

BRITONS INTERRED

Action of Vichy Government In Tangiers Taken As Reprisal For R.A.F. Bombing Attack of France

LONDON, March 17: (CP)—Reuters reported from Tangiers today that Vichy authorities in Morocco have ordered the internment of all British subjects between eighteen and fifty residing in coast towns. About two thousand persons are believed involved in the step which reliable sources said was taken in reprisal for Royal Air Force bombing attacks on occupied France.

KING'S STURGEON
The sturgeon is called the royal fish in England because the King can claim any sturgeon caught.

WAR NEWS

REDS STILL WINNING

MOSCOW—Further successes are claimed by the Soviet in the great campaign to drive the Nazi invaders out of Russia and break up the anticipated German summer offensive. The Russian air force claims an advantage of almost four to one over the Germans, having brought down 200 enemy planes during the past month while losing 67 themselves. Marshal Timoshenko is now threatening to wipe out the base the Nazis have established at Kharkov.

ATTACK ON DARWIN

CANBERRA—Three persons were killed and twelve wounded in the Japanese air raid of yesterday on Port Darwin. The attack was directed against the air base which suffered some damage, no planes, however being lost.

YANKS IN AUSTRALIA

WASHINGTON—American forces, in considerable more numbers, have landed in Australia, it was announced today. Both ground and air forces were included.

SANK ELEVEN ALLIED SHIPS?

TOKYO—Japanese submarines have sunk eleven Allied tankers and freighters in Indian and Burmese waters, it is claimed here.

CHILEAN SHIP SUNK

SANTIAGO—The Chilean government, following a cabinet meeting, today called diplomatic representatives of Germany, Italy and Japan into conference as a result of the torpedoing of a Chilean freighter.

KING'S CABINET OF FREE GREECE HOUSED IN MAYFAIR DISTRICT

With Prime Minister and Five Ministries It Carries on While Army and Navy Units Fight With British.

By DOUGLAS AMARON
Canadian Press Staff Writer

LONDON, March 17: (CP)—Greece, last of the European nations to fall before the Nazi onslaught, is re-marching its forces in the Middle East and keeping its government organizations alive in London, home of free allies. From headquarters in Mayfair, the government under Prime Minister Emmanuel Tsouderos, a Cretan, organizes the propaganda campaign it conducts by radio and carries on its normal administrative functions. Five ministers are in London, while service ministers are with the forces in the Middle East and the shipping minister, responsible for Greece's merchant navy, is in the United States. The Greek organization was set up in London last September when King George, other members of the Royal Family, Tsouderos and most of his cabinet arrived here from South Africa after a stormy escape from Crete where they moved after the fall of Greece.

The cabinet, which includes as permanent under-secretary of state for foreign affairs Charalambos Simopoulos, Greek representative in London since 1935, is recognized by Britain and consulted by the British government on matters pertaining to Greece such as arrangements for a food shipment to the starving kingdom, recently announced.

Because of insufficient transport facilities, both in Greece and incessant German dive-bombing, the Greeks were unable to withdraw only a portion of their army,

BACK TO 300 B.C.

The word telegraph dates back to 300 B.C. It is a combination of two Greek words: Tele, "afar off," and graph, "to write," or literally, to write afar off.

Former Minister of Finance.

JAPS DUE IN SPRING

Almost Sure to Head This Way, Regardless of Australia Outcome.

If the Japanese are defeated there (in Australia), says the Vancouver Sun, they will probably switch to Vladivostok and Alaska and so on to Prince Rupert and Vancouver. In high official circles at Chukking the belief is held that, win or lose in Australia, Japan will invade Siberia through Manchukuo by April 15. A few weeks later, if not simultaneously, they will smash their way to this coast in a great surprise attack.

The Vancouver Sun presents, under these circumstances, three alternatives:

To jump in ears and run.
To stay home and hope for the best.

To fight back and throw out the invader.

War Babies . . .

Should parents fear to have more children now because of the danger and insecurity caused by the greatest of history's wars?

From coast to coast they are raising that query. The question was aid before two well known authorities.

First was Mrs. Sidonie Gruenberg, head of the Child Study Association and author of "We, the Parents," which won the 1940 Parents Magazine award for outstanding service to parents and the home.

Second was Mrs. Margaret Sanger, head of the American Federation of Birth Control, who has battled for years—and even been in jail—for her beliefs that women should have freedom to control the size of their families.

They swung to bat on the question, with answers diametrically opposed.

Build For Future . . .

"There are more reasons than ever for having children now," said Mrs. Gruenberg, who is the mother of four (two sons are physicians) and the grandmother of two. "Children are going to build the future—and it must be good. The world is ill now, but that does not mean that it cannot recover. Much of the recovery depends on a strong youth, which will help build a better world."

"Hitler never could have come to power if it had not been for the restlessness and despair of the youth of Germany over the bleak outlook it faced following the last war. Hitler has taught us that the earth cannot have sick spots and remain well. If we don't have children and build up a strong youth for the future, we shall be a sick spot ourselves."

"Besides I don't believe there is a valid reason for swinging away from normal. My children were born about the time of the first World War when we believed the world was being made safe for democracy. Twenty-five years have shown that we were wrong in that assumption. It's just as reasonable to assume that the black outlook which many people see now is not a correct calculation either. So I see no valid reason for fearing to have children now."

Mental Hazards . . .

Mrs. Sanger, child of a large family, the mother of two physician sons and a daughter who died at five, gave her views on the question as follows:

"It is a very bad time to have children," she said. "There are three reasons. First, people worried about the future—the tendency is to have a serious attitude about the insecurity of the future. Such a feeling creates a wrong condition under which to have children. It's a known fact that many of the children born in the United States after their parents' arrival from Europe as immigrants have had mental retardation because of the mental insecurity of the parents upon their arrival."

"Second, glandular upsets of the mothers during the period of worry and anxiety affect the unborn child."

"And finally, in case the children should be born healthy, we have the nutrition question, to say nothing of the mental atmosphere of deprivation in the home."

"Every mother in this country who wants to have a healthy normal child should wait until there is assurance of security for the child and parents too."

Dr. Gruenberg has an answer to the question of adequate nutrition for wartime babies:

"I believe that it is part of national defence," she said, "to establish milk stations and school lunches to make sure that children born in wartime should have adequate food."

New Montreal Munitions Plant
Will Be Used For That Purpose
After War

Montreal, March 17: — The extensive plant of National Railways Munitions Limited, now in production, is situated on the Canadian National Railways at the foot of Congregation Street at Point St. Charles and adjoins the large locomotive shops and car shops of the national Railways. The building is so designed that when the war is over, it can immediately become, without alteration, the car repair shop for the railway, replacing the present group of structures.

The new shop measures 505 feet by 513 feet and is laid out in eight longitudinal bays. Foundation walls and walls to a height of five feet above the ground are of reinforced concrete with brick walls above. The frame is of structural steel and the roof of laminated timber construction. Ample natural light is provided from wall windows, skylights and monitor sash. The total area of glass in the walls is 33,000 square feet and in the skylight 64,000 square feet amounting to approximately 25 percent of the whole area.

The construction of the foundations were begun December 26, 1940, and the plant was in actual production at the beginning of this year.

On the occasion of Saturday's official inspection, Hon. C. D. Howe and other ministers were welcomed to the plant by R. C. Vaughan, president of the Canadian National Railways, who was accompanied by R. N. Walton vice-president of Trans-Canada Air Lines; John Roberts, managing director, National Railways Munitions, Limited and L. H. Bexon, superintendent of the plant.

SPORT CHAT

Whatever it takes to gain recognition as the National Hockey League's outstanding rookie seems difficult to find among first-year defencemen. Sports writers have been voting for prize freshmen for nine years but not once have they favored a rearguard with first honors.

The scribes will make their current choices known in The Canadian Press poll shortly and chances of a defenceman earning the nod appear slim unless the brilliant late-season efforts of Toronto's Bob Goldham have made sufficient impression. Goldham, a Georgetown, Ont., boy, was called up from the minors by the Maple Leafs recently. His work has been outstanding but he has yet to prove his worth over a long haul as have other youngsters this season.

Forwards have taken rookie honors seven times while goaltenders have earned the distinction twice. Sugar Jim Henry of New York Rangers is the only netminder in the hunt this season and the odds point to another forward to succeed Johnny Quilty. Montreal Canadiens centre, as holder of the Calder trophy. In hopes of keeping the award within their camp, the Canadiens have a complete front line to offer as contestants for Quilty's crown—Buddy O'Connor, Peter Morris and Gerry Heffernan. The trio was moved up as a unit from Montreal amateur ranks when the Canadiens were plagued with injuries.

Goldham's chances face opposition in his own ranks, the much-travelled Johnny McCreedy having proved himself a capable right winger for the Leafs over a season's play. Henry's hopes appear to be shadowed by one of his New York mates, Grant Warwick, scrappy little winger who is well ahead of all other N.H.L. freshmen in the scoring chase. Henry and Warwick came to the Rangers together from Regina Rangers, Allan cup champions. Alan Kuntz, a linemate with Warwick, also demands consideration.

A graduate from Lethbridge, Alta., amateur ranks, young Alex Kaleda of Chicago Black Hawks, has proved himself among the most effective of first-year marksmen. His Chicago team-mate, Bill Mosienko, is more colorful but he is handicapped by a late start in the big time. Coach Red Dutton of Brooklyn Americans had produced one of the most promising freshmen in years—Harry Watson, still of junior age. Watson was plucked direct from Saskatoon Quakers. Young Ken Modell of the Amerks also made the jump from junior ranks. He started last season with Montreal Royals, eastern champions.

Newcomers to Detroit Red Wings shuffle so fast between the majors and minors that it is difficult to keep track of them, but on recent performances Jerry Brown rates voting consideration. The world champion Boston Bruins recently drafted two amateurs from Boston Olympics, Jack McGill and Clare Martin, but some of the circuit scribes have yet to see them perform.

TUNEFUL COMEDY

"Kiss the Boys Goodbye" Coming To Capitol Theatre at Middle Of This Week

Starring Don Ameche and Mary Martin with an outstanding supporting cast and featuring several song hits, a lively comedy "Kiss the Boys Goodbye" comes as the feature offering to the screen of the Capitol Theatre here on Wednesday and Thursday of this week.

The story concerns a beautiful southern girl with stage aspirations who unsuccessfully tries to get a job on Broadway but rushes back to the south when she learns that a Broadway stage director is on his way down below the Mason-Dixon Line to search for a girl to take the lead in his new show.

How she permits him to "discover" her, an "innocent" southern girl unversed by northern exposure, makes it an hilariously funny story.

The supporting cast includes Oscar Levant, well known as the musical expert in "Information Please;" Virginia Dale, comely singer and dancer; Connie Boswell, radio singing star; Rochester, Barbara Allen, Raymond Walburn, Elizabeth Patterson and Jerome Cowan.

FRASER STREET

PRINCE RUPERT

IN THE SUPREME COURT OF BRITISH COLUMBIA
In the Matter of the "Administration Act"

And in the Matter of Jens Jacob Anderson otherwise known as Jens P. Anderson and Jack Anderson, Deceased.

TAKE NOTICE that by Order of His Honor Judge Fisher dated the 13th day of March 1942 I was appointed Administrator of the Estate of the late Jens Jacob Anderson otherwise known as Jens P. Anderson and Jack Anderson, Deceased.

They show where it would, upon completion of the Blue River road, be shorter for Vancouver shippers to route their supplies up the Cariboo Highway, then straight through the Blue River Highway to Edmonton, than to ship them direct to Prince George, then east to Edmonton on the way to the north.

The distance from Prince George to Edmonton is approximately the same as Blue River to the Alberta capital, but it is shorter from Van-

PRINCE GEORGE, March 17:—Fear has been expressed here that Prince George will be the forgotten entity in the great Alaska Highway project unless the men and organizations of this district join in a strong effort to have an early start made in connecting this city with the Peace River district by way of the Monkman Pass route.

Peace River residents for years have clamored for this outlet to the Pacific—an outlet that is roughly complete, all but some 50 miles.

The people of Prince George district, 30,000 in number, endorsed the appeal for a road from Blue River to Jasper.

Shorter Route.

To some local men this route is now seen as an economic threat to this part of the province, if Prince George does not soon have a direct connection with the Peace River.

They show where it would, upon completion of the Blue River road, be shorter for Vancouver shippers to route their supplies up the Cariboo Highway, then straight through the Blue River Highway to Edmonton, than to ship them direct to Prince George, then east to Edmonton on the way to the north.

The distance from Prince George to Edmonton is approximately the same as Blue River to the Alberta capital, but it is shorter from Van-

BATAVIA'S CIVIL GUARD WHICH MET INVADER

Driving from three beachheads, Japanese troops took Subank and cut the main northern coastal railway linking Batavia with cities to the east on the island of Java. Here we see members of Batavia's city guard in armored cars, ready to meet the imminent attack on the capital city. The Dutch and native troops had long been preparing for this invasion but their defence was ineffectual.

couver to Edmonton, via Blue River, than by way of Prince George.

Total of 738 Miles.

From Vancouver to Prince George the distance by road is approximately 526 miles; from Prince George to McBride by C.N.R. is some 146 miles, and by road from there to Red Pass Junction, near the Alberta border, it is some 66 miles. A total of 738 miles.

The distance from Vancouver to Red Pass Junction, over the Blue River route, will be approximately 568 miles, or 230 miles shorter.

However, these men point out, that from Vancouver to Prince George, then to Grande Prairie, Alta., the distance is 776 miles, while the Vancouver to Grande Prairie route, via Jasper and Edmonton totals 1189 miles, or 413 miles more.

To Boost Project.

Declaring the completion of the Monkman Pass Highway to be a vital necessity to central British Columbia, several men in this city are strongly advocating the revival of the Monkman Pass Association to boost the project.

Completion of the Monkman Pass is expected to take on particular importance for Vancouver, for with this route open that city could successfully compete for the northern trade with Edmonton.

The round trip from Vancouver to Peace River via Prince George would be some 825 miles shorter than the trip by way of Edmonton. In days it would mean a saving of three, and the wear and tear of machinery and tires would be lessened.

HOPE OF INDIA

The family name of the Marquis of Linlithgow, Viceroy of India, is Hope.

AN ANEMIC BLOODHOUND**"DEPTH DEFENCE" FOR AUSTRALIA IS PLANNED**

By RAY PEACOCK
Canadian Press Staff Writer

CANBECKRA, March 17: (CP)—Australians for generations have expected war with Japan. Now that it's here the island continent is readier than ever—with a new lifeline road through its lifeless interior, a new sea base, and a greatly strengthened army, navy and air force. Example of Australia's drive to prepare for war is Port

Darwin. Two years ago only a drowsy pearl station, it has become a bustling north coast sea base, already the target of Japanese bombers. It depends upon and is the reason for the new overland highway which links Darwin to the rail spurs extending from Alice Springs to Southern

Adelaide, Melbourne, Sydney and Brisbane.

Straight through the continent 650 monotonous miles, the main section of the road was built by 1,400 men in 93 days late in 1940. Later it was extended to the northern coast. Only bored wells at 50-mile intervals, break the straight-away monotony. Alice Springs, great inland arsenal where truck convoys form, is built around an oasis. Not far north is Tea-tree Well, geographical heart of the continent.

VITAL OFFENSIVE BASE.

Darwin's military importance leaped with the fall of Singapore. Less than four air hours from Surabaya, Java, it became a vital offensive factor although as a defensive post it could be circled by Japanese sea-borne invaders.

Australian strategy has allowed for attack, even for invasion. Dar-

win's real strength is scattered

ces (men in compulsory training) planes.

FIGHTING NATION.

Australian army strength, put at 170,000 in November, 1941, now is presumably around 200,000 despite 6,000 killed or imprisoned in Greece, Crete and Syria, and add-

ed losses at Singapore. In addition the Australian military force greatly multiplied number of

planes.

number 250,000 and the Volunteer Defence Corps (veterans) 50,000. Total would be near 500,000 from a population (as of a year ago) of 7,068,889.

Navy personnel is about 20,000, five times that of the last war.

Nearly every unit of the navy has seen action in the war. The Sydney main naval base, capable of

holding the combined fleets of the world, is the best base between Pearl Harbor and Alexandria.

The Royal Australian Air Force in six years has built up from a

force of 30 first line planes and 822 men to 80,000 pilots and a

greatly multiplied number of

planes.
