BLACKOUTS

Lights in War Industries No Excuse for Others

During the last blackout, many persons living in the vicinity of large plants and war industries, even defense areas, were not prompt in blacking out their homes as the lights in these plants were still operating, using this as an excuse for their not obeying the regulations.

Speculating About Hepburn...

When Mitchell Hepburn resigned last week as Premier of Ontario, the Daily News suggested that more would be heard from him in public life. The most of Canadian newspapers in their editorial comment have expressed a similar view that this fiery and youthful figure will bob up again in some prominent place. The Winnipeg regular left-half on Fulham's big Free Press speculates that Mr. Hepburn will figure prom- my joined as a private and fought the Mixed Bowling League Sav- nuk so far, having lost their inently in a federal national government move. It com- his way up all over again. Now Mors and Stones took three games first two starts. ments as follows:

We have become accustomed in Canada to Mr. Hepburn providing us with sensations, and the resignation footballer to have attained this three games by default from Midof the Ontario premier provides us with the latest in the long series of spectacular doings that is associated with his name. There can be only one certainty in the situa- Swansea Town soccer match with were Rose LaBelle with 276 and bunior college mentor from the tion, which is that the country, despite Mr. Hepburn's pro- a bucket of disinfectant. His record, his abilities and his animosities com-shoes of the men who retrieved bine to suggest that final retirement, at his age, is not! to be expected.

Although reasonable presumptions do not always provide a safe foundation upon which to build judgments regarding Mr. Hepburn, it is today reasonable to believe that he has found his position as a premier of Ontario, whose chief policy is one of bitted opposition to Mr. Mackensie King, an increasingly difficult one. The growing strength of the C.C.F. must also have been causing him a good deal of anxety.

He has deliberately chosen his successor-Gordon Conant—and himself retains "for a short time" a seat in the cabinet. Obviously some strategy is here in play. Had there not been, Mr. Hepburn would either have called upon his logical successor, Mr. Harry Nixon, toj form a government, or he would have left it to the members of the Liberal legislative group to choose a premier, a procedure for which ample democratic precedent exists, notably in Manitoba at the turn in the century and! in Saskatchewan in 1926 when Mr. Dunning went to Gt-1 tawa. In either case a stable government could have been formed, for there are only 21 Conservative members in a house of 90. Mr. Nixon could have found a substantiall following. An elected successor would obviously have had. no difficulty.

Instead of recommending Mr. Nixon, however, and in spite of that member's long and valued service since 1919 in the Legislature, Mr. Hepburn chose Mr. Conant. who has been a member of the Government only since 1937, has never revealed any special qualities of leadership or worthy distinction, and whose sole qualification. so far as can be judged at this distance, is an identity of interest and belief with Mr. Hepburn himself.

The announcement has already brought Mr. Nixon's resignation from the cabinet. Undoubtedly the likelihood of defection was taken into account by Mr. Hepburn in planning his move and it may be permitted to ask a few questions as to the immediate probabilities of the future. Is the arrangement deliberately designed to destroy the coherence of the original Hepburn following, and thereby to force a coalition between those members over whom Mr. Hepburn retains absolute control and the Conservative opposition under Col. George Drew on some such program as "Total War Now" (Globe and Mail model)?

But there are other possibilities. There may well be some relationship between the tactics chosen by Mr. Hepburn and the forthcoming Conservative convention to be held here in December. When Mr. Meighen issued! the first call to the convention he made it clear that he regarded it as an opportunity to form a national government. Anyone interested in that cause and duly accredited was to attend. That invitation has since been sharply modified, but Mr. Meighen remains the Conservative leader and his influence will be powerful in the convention planning. Is it not therefore possible that Mr. Hepburn's resignation is designed as a bridge over which he can more easily pass from the Ontario premiership to a prominent place in the ranks of a national government dominated by the Meighen-Drew-Globe and Mail wing of the Conservative party? This, in spite of Mr. Hepburn's avowed determination to seek ease and leisure. is not to be forgotten.

The Canadian public, in the light of all the circum-1 stances and possibilities of the present, would be well advised to keep its fingers crossed and wait upon events | BAVE THE BOTTLE! Glass is sorely which are not likely to be long in unfolding. Certainly it will appeal to many people as reasonable that Mr. Hepburn will not be satisfied with the humdrum routine of This advertisement is not pubhis onion farm until he has made at least one more attempt to unhorse Mr. Mackenzie King.

· Yes, all Canada's great resources . . . her wheat fields, her forests, her factories . . . could be put to wonderful use by the ruthless bully-boys from Germany, by the polite little savages from Japan.

And Canada's boundless acres would provide plenty of living room . . . for the Germans and the Japs.

But what of the Canadians? The answer is simple when you think what happened and is still happening to the Poles, the Greeks, the Yugo-Slavs-and all the others . In terms of slow starvation, slave labor, mass executions.

Every time a hard-working Canadian man or woman buys a Victory Bond, the plans of Hitler and Hirohito receive a set-back. The more you save and lend . . . the more certain you help make it that our enemies shall never put their greedy claws on Canada.

"THEY DON'T WANT SWAMPS AND JUNGLES" THEY WANT YOUR HOME!

"Do not be confused by this war, Canada. When the Nazi chiefs howl of 'lebensraum' (living room) do you think they are talking of Britain? No! There's no living room in Britain-that tiny island now overcrowded by its forty-four million people! When the paranoiacs of Berlin scream about colonies, do you think they are talking about some strip of banana land, or some unholy spot in a malaria-ridden jungle?

"Let us not be idiotic . . . Germany and Japan don't want swamps and jungles. They want you-great, rich, sprawling Canada, rich with her endless wheat-bearing acres where a 'Herrenvolk' could lord it over a slave population; Canada with its great and untold wealth of unexploited raw material. Those are the goals of Nazi war-Canada, Brazil, Russia, the United States-the vast lands that lie amid untold resources, the lands with 'living room' for the 'super-race' that will allow YOU to become a new sort of white native

"Do you not see that wealth is not money . . . but a way of living?"

to carry out their orders.

CANADA NEEDS \$750,000,000 NOW

What's your share of the savings job? Well, the average Canadian would have to lend to Canada to meet Canada's need \$1 in every \$5 of income left after taxes and compulsory savings have been collected. But the average may not fit your case. Your own circumstances are distinctly your own. You may be able to do better both out of your current income and out of your accumulated savings in the bank - or you may not be able to reach the average. Your share of voluntary savings is every dollar you can possibly spare.

A training officer will accompany the show when it goes on the road and all members of the troupe will go through the regular course of army training. It may take them a little longer to complete certain phases of training by reason of their work with the show, but they will keep at the job of training so they will be ready for combatant posts should it become necessary to assign them to units.

Capt. Jack Reid of London and Toronto has been appointed liaison officer and is the main talentscout. One of his aims is to make the show representative of all Canada and to select men from all military districts.

If three trombone players are required and three good players' are found in Montreal they will not be automatically signed up. Reid will take a look around for two equally good trombone players in two other centres and thus get three men from three different localities.
