

PEACE RIVER OIL FIELD IS OFFERED TO DOMINION TO ASSIST WAR PROGRAM

Announcement Made By PROVINCIAL GOVT.
PROVINCIAL LIBRARY
PARLIAMENT, MARCH 31, 1942
to Private Interests.

VICTORIA, April 2:—The entire oil and natural gas resources of British Columbia's Peace River block have been offered to the federal government free of royalties, taxes or any other charges for the duration of the war and for one year thereafter as a further measure of provincial assistance in the nation's war program, it was announced today by Premier John Hart. This offer was made in an air mail letter to Prime Minister Mackenzie King after the provincial government had been approached by private interests seeking an opportunity to explore the area, which has now been reserved, with the object of drilling. It was decided by the government to make this offer to the federal authorities before considering the proposals from the private interests, it was explained by Premier Hart.

LONDON, April 2:—The Royal Air Force bombed industrial objectives and communications in west and northwest Germany and environs of Paris last night in far-reaching raids, the Air Ministry said. Fifteen bombers are missing. Mines were laid in enemy waters.

Widespread Air Raids

One year after the cessation of hostilities the province would expect to collect the usual royalties and other fees on oil and gas from any wells continuing in production or drilling at that time and which would be brought into production at a later date, the premier further explained. "The province," Mr. Hart said, "is not desirous of receiving one cent in return from the federal authorities during the war, the desire being to make this a forthright gift of British Columbians to Canada's war effort in order to meet the existing shortage of oil and gasoline."

In his letter to Prime Minister King, the premier gave detailed information regarding geological findings in the areas affected and pointed out the importance of the new Alaska highway in facilitating the development of this territory. The proposal submitted to the federal authorities is in conformity with the policy enunciated by the government within a few hours after Canada had made its declaration of war in the fall of 1939. At that time, the entire resources of British Columbia, both as to material and manpower, were pledged to the nation's cause. Since then, every step has been taken to implement that pledge.

It will be remembered that British Columbia has consistently supported the federal government in its war effort by taking over the entire cost of the Dominion share of unemployment relief, vacating the income and corporation tax field for the duration of the war, supporting the various war loans to the utmost of its ability, assisting in the transfer of Japanese from vulnerable areas, helping in air raid precaution problems, and placing at the disposal of the Department of National Defence all provincial facilities that lent themselves to the work of the three fighting forces.

An Air Raid Precaution practice of first aid workers, nurses, fire wardens, police wardens, demolition squad workers etc. was held in District B from headquarters at the Canadian National general offices last night. The practice was a real success.

The nurses under the direction of Mrs. Colin McCarthy had a very busy time attending to the casualties which were brought in by the first aiders. The first aid teams were in charge of Frank Derry. The Sea Cadets, who acted as runners, were in charge of Sidney Alexander and did good service. Fire watchers numbering forty-two were at their posts in various places. After the fire watchers were called in, they were given a lecture on fire fighting and a demonstration on extinguishing fire bombs by Fire Chief H. T. Lock.

The police wardens acted as casuaries. Red Cross Service Corps girls, under the direction of Mrs. Floyd Smith, were on hand and did good work. The demolition squad under Harry Long was on hand to do its part but, fortunately, no buildings required their service.

This being the first practice held in this district, it was remarkably successful and all workers did a good job.

The practice was in general charge of the district warden, J. A. Teng.

FIGHTING IN BURMA

Warfare Is Fierce With Defenders Having Difficult Time Owing To Lack of Air Control

NO CHANGE TODAY

NEW DELHI, April 2:—A British headquarters communiqué on the Battle of Burma said today there was no substantial change since yesterday on the western or Irrawaddy front where main British forces are now holding their line south of Prome.

LONDON, April 2:—Fierce land fighting continues on both fronts in Burma although there is gradual withdrawal by the defenders, due largely to the fact that air control has been lost to the Japanese and that the native population is going over to the enemy. The Burma situation is worrying both London and Washington.

British forces in the Irrawaddy Valley have broken out of a trap and fallen back on Prome.

Around Tangon the Chinese have been equally successful in extricating themselves from the Nipponese encirclement.

Without such recognition, the Free French and their supporters in France itself could hardly be expected to carry on the battle.

DeGaulle condemned any spirit

Part of Big Picture . . .

The impression of some who interviewed the minister of national defence, Col. J. L. Ralston, during his visit here this week, was that there might be a tendency to overestimate the immediate danger in Prince Rupert. Of course, the minister was aware that a real danger existed and there should be no letting up in organizing for defence and protection in case of surprise. It must be remembered that the minister of national defence, if anybody, would look at the situation in a broad way, Prince Rupert just being one point in a large war picture.

How to Make a Million . . .

Here's the way to make a million dollars, told in fifteen words:

Sell industriously a mechanically-made product, of the "repeater" kind, and having large general consumption.

Examples of such products are cigarettes, newspapers and magazines, shoes, soap, motor cars and tires, packaged foods, toiletries, razor blades, electric light bulbs. Many retailers have become millionaires. A retailer who sells to 800-900 customers daily, making an averaged net profit of 10 cents on each sales transaction, would make for himself a million dollars in 40 years, and in 20 years when the averaged net profit is 20 cents.

A retailer can make for himself \$100,000 in 20 years by selling to 80-90 customers daily, if his averaged net profit on each sales transaction is 20 cents.

It should be clear that the retailer, "out" to make \$100,000 or \$1,000,000, must advertise continuously in his local newspaper. He cannot hope to get into his store, daily, the essential number of customers apart from informative advertising—advertising which will attract buyers to his store.

A retailer can make, in a calculable period of time, the fortune of his desire.

A Trip to Stewart . . .

Visitors from Stewart say that the people there are very anxious, if a trip can be arranged, to welcome an excursion from here to the Portland Canal mining camp. Providing a ship can be obtained, it would be very well to have such a trip. It is one of things, of course, that will depend upon what the activities of the war will permit. Prince Rupert people would be as glad to make the trip as Stewart people would be to receive them.

CURTAILING LIQUOR

Editor, Daily News:
On returning from my occupation at sea to my home at Prince Rupert, my wife showed me the correspondence in the local newspapers in connection with the liquor situation.

I would like to express my agreement with the views of Dr. and Mrs. Mandy. It seems to me highly desirable that some restrictions should be placed on the sale of liquor. During the last war, the hours of sale in England were noon to 2 p.m. and 6 p.m. to 9 p.m., if I remember aright. Perhaps some such curtailment of the hours in which beer parlors may sell beer would be a step in the right direction.

The problem is not entirely one of beer parlors, of course, and I hope that the publicity given to the matter by the letter of Dr. and Mrs. Mandy may lead to steps being taken to greatly lessen the consumption of liquor whether obtained in beer parlors, liquor stores, canteens, officer's messes or other places.

GRAND OLD
LOVE TALE

"Smilin' Through," With Jeanette MacDonald, Showing at Capitol This Week-End.

The famous love story of "Smilin' Through," in another edition, this time in technicolor and starring Jeanette MacDonald, Brian Aherne and Gene Raymond, comes to the screen of the Capitol Theatre here as an outstanding offering for the end of this week.

Singing some of the most delightful music ever to reach the screen, the lovely Miss MacDonald has the dual part of the old-fashioned heroine, Mooneyan, and her modern niece, Kathleen. As all know from the story and previous picturizations, it is the death of Mooneyan on her wedding day to Aherne, who enacts the role of Sir John Carteret, which forms the basis of a story of love that endured for fifty years and conquered death. For the first time in their screen careers, Miss MacDonald and Gene Raymond, who are her husband in real life, appear together. Raymond plays the part of the passionate Jeremy Wayne and his young son, Kenneth. The love scenes between the two are stirring indeed.

Heading the supporting cast is Ian Hunter, who has the arduous task of aging fifty years; Frances Robinson, who goes through the half century cycle with Aherne and Hunter, Patrick O'More and seven-year-old Jackie Horne, who plays Miss MacDonald as child.

On Good Friday wickets at the post office will be open from 10 a.m. until 12 noon, the lobby being opened from 6 a.m. until 6 p.m. On Easter Monday the wickets will be open from 8 a.m. until 12 noon and the lobby from 6 a.m. to 6 p.m.

Tomorrow

A picture you'll treasure in your heart always. . . . The unforgettable romance of loves parted . . . set to music . . . and filmed in gorgeous Technicolor.
