## Today's Weather Summary

(By Canao.)

### Gandhi Threatens General Strike...

LONDON—Mohandas K. Gandhi, demanding immediate freedom for India under the threat of a general strike, appealed to the United States for help today as the All-India Congress Party moved to authorize the mass civil disobedience campaign against British rule. Gandhi asserted repetition of the disasters at Malaya and Singapore could not be averted in India "unless Britain trusts the people of India to use their liberty in favor of the Allied cause." The Nationalist leader made his appeal in a letter to Americans urging them to act "while there is yet time." As crisis neared a climax threatening to short-circuit the Allied war effort from China to the Middle East, Australia's Army Minister Francis Forde warned Japan would attempt to invade Australia.

### Jap Invasion Base Bombed

ALLIED HEADQUARTERS, Australia—Allied warplanes struck their mightiest blow at the Japanese held Rabaul, dropping fifteen tons of bombs on New Britain invasion base north of Australia, and battering nearby enemy base at Lae, New Guinea, with 2,000 pound demolition bombs.

### Britain Bombed in Daylight Raid...

LONDON—Enemy aircraft bombed nearby home counties and drew gunfire from London suburbs in a daylight raid today while the city itself was under a half-hour air raid alert.

### U.S. Executes Six Nazi Saboteurs...

WASHINGTON—The White House announced today that six of eight Nazi saboteurs had been executed today in the electric chair. Two spared were Ernest P. Burger, who was given life sentence, and George John Dasch, sentenced to thirty years "because of their assistance to the Government of the United States in the apprehension and conviction of the others." The six who paid the death penalty for coming to the United States in Nazi U-boats to destroy vital war installations were executed exactly one month after the Military Commission began trying them on espionage and sabotage charges.

### Twelve Found Guilty Hoarding

Eleven Sugar Hoarders Fined \$40 And Costs

VANCOUVER, Aug. 8—Twelve persons were found guilty of sugar hoarding at Trail on August 3, and eleven were fined \$40 and costs. Prosecutions were instituted by the Wartime Prices and Trade Board's Regional Office in Vancouver, and were heard before Magistrate Parker Williams. Donald MacDonald appeared for the Board in the Trail court.

For "purchasing or otherwise acquiring a greater amount of sugar for personal or household consumption than two weeks' ration for himself and each person in his household" the following were each fined \$40 and costs or in default 60 days in jail: Egisto Decembrini, 620 Rossland Ave., Trail; James Smith, 1106 Second Ave., Trail; Denholm Kirkpatrick, 2190 Second Ave., Trail; W. Farmer, 920 Milligan Ave., Trail; Alfonso D'Andrea, Castlegar Road, Trail.

Arthur H. Woolf, 1581 Fourth Ave., Trail, was fined \$7.50. For "acquiring and accumulating goods, namely sugar, beyond an amount which is reasonably required for the use of consumption of himself or household," the following were each fined \$40 and costs or 60 days in jail: Vittorio Ius, 786 Hendry Street, Trail; N. Cutillo, 948 Byers Lane, Trail; Goffredo Del Buccia, 695 Rossland Ave., Trail; Antonio "Tony" Ferraro, Maple Leaf Tourist Camp, Annable; A. Guidoni, 251 Railway Street, Trail; and Joseph Jankola, 720 Railway Street, Trail.

**Deadline For Beer Orders**

The Pacific Brewers' Agency announced today that in order to conform to war-time necessity delivery orders for beer would be accepted only between the hours of 10:00 a.m. and 2 p.m. After 2 p.m. no orders will be taken for delivery that day or the next.

### Baseball Scores

#### National League

New York 6, Philadelphia 4.  
St. Louis 6, Pittsburgh 13.

Boston 2, Brooklyn 1.

Chicago at Cincinnati postponed.

#### American League

Detroit 2, St. Louis 3.

Cleveland at Chicago and Boston at Washington postponed.

#### BATH TO THE LINE

LONDON, Aug. 8 (O)—Britons have been advised to mark a "Plimsoll line" in their baths, keep water at this five inch level and save 1,000,000 tons of coal a year.

### BRITISH AIRMEN SAY THIS NEW PLANE IS PRETTY GOOD

Here is a head-on view of the P-51 Mustang fighter plane which has won the lavish praise of the British Royal Air Force for speed, maneuverability and endurance. An all-metal, low-wing monoplane, the Mustang has a liquid-cooled engine, a wingspan of about 37 feet and a length of 32 feet. The ship was put into operational service in Britain recently and assigned to the army co-operation command.

### Carpenters' Union Official States Protests Treatment

#### Treatment Fair

Youths Are Now All Employed On Other Projects

Editor, Daily News:  
With reference to the alleged unfair treatment of certain young workmen who were hired at Saskatoon for Ryan Construction Co. Ltd.

The Unemployment Insurance Commission, Employment & Claims office, is interested to the extent that these youths were engaged through our office at Saskatoon. I had made an investigation of this case previous to publication of Mr. Black's letter. It has been ascertained that scores of these young men, varying in age from seventeen to twenty years, have been engaged for this work, and with very few exceptions, they have been satisfied, and are still at work. The terms upon which they were engaged are by no means ungenerous. The low rate of pay is advanced and if they remain upon the job for sixty days they are not charged with it. If they work four months, they are given a free return ticket back to their homes. They are paid at the rate of sixty cents an hour, they work fifty-eight hours in the week and are paid for sixty-five hours.

In the present crisis, in which our very existence is involved, it is up to everyone, young or old, male and female, to do their utmost to make whatever contribution they can towards our war effort. This project is a most important piece of work. As far as the boys are concerned, at the present time, they are all employed, and do not appear to have been subjected to any hardship whatsoever. They have been re-engaged on a project of a similar kind, and have shaken down to work satisfactorily.

The Ryan Construction Co. Ltd. Public opinion here (in a high standard) stands a considerable financial loss in this transaction, and it is not reasonable to suppose that

with the present scarcity of labor, that they would dispense with satisfactory employees.

### Perform Surgery During Bombing

CAIRO, August 8: (O)—A delicate operation was carried out at an R.A.F. field hospital in Libya while fighting went on around the air-drome. An inch-long bomb splinter was successfully removed from the heart of an aircraftman wounded during an air raid.

#### SENDING THEM EARLY

LONDON, August 8: (O)—Christmas carols formed part of a large consignment of music sent by the Red Cross to prisoner of war camps in Germany and Italy.

are of unanimous opinion that immediate retraction is vital to the cause of freedom."

J. S. BLACK,  
Secretary.

## Germans Throw Four New Armies Into Final Drive

Situation Tense Soviets Report as Germans Make Final Drive For Caucasus

MOSCOW, Aug. 8 (CP)—Hitler's drive for the Caucasus oil neared its first major goal today as the Germans smashed at approaches of Maikop oil fields 170 miles south of Rostov while in the north the invaders edged closer to the great steel city of Stalingrad. "The situation is very tense" Soviet dispatches said referring to the

### Party Supports Gandhi Resolution

Civil Disobedience Campaign Is Backed by All-India Congress Party—"Britain Must Quit India" Says Gandhi

BOMBAY, August 8 (O)—Almost solidly backed by the All-India Congress Party Gandhi won authorization today to lead a wartime civil disobedience campaign for national independence. With only thirteen dissidents, the convention of 360 committee voted to adopt Gandhi's "Britain must quit India" resolutions after he appealed to the United States to act and align the Indian people on the Allied side. All amendments to the Gandhi resolution were rejected including one declaring that mass civil disobedience campaign now was untimely and impracticable.

### Draft Dodgers Fewer This War

Survey Reveals General Co-operation—Hoover Lists Rules To Avoid Trouble

NEW YORK, August 8:—Only a fraction of one percent of Selective Service registrants have attempted to dodge the draft, compared with more than four percent in the first World War, according to a survey by The American Magazine, based on official business of the Federal Bureau of Investigation.

The magazine states that to date 100,000 cases of attempted evasion have been handled by the FBI and new cases are being reported at the rate of 7,000 a month. More than half the would-be evaders have settled their difficulties by joining up, 1,200 have been sent to federal prison and about 40,000 cases are still pending.

"Ominous as these figures appear," the magazine states, "they are really heartening for they represent only about three tenths of one percent of the total draft registration. In the last war, four and one-half percent of the eligibles were delinquent."

Federal policy in handling of draft dodgers is explained by J. Edgar Hoover, chief of the FBI, who is quoted as saying "our first goal is to get men into the army rather than into jail."

"Any man," he promises, "who has made a simple mistake and is conscientiously willing to rectify it, will first get a chance to make himself available for military service."

Pointing out that many cases are based on ignorance of the law or misunderstanding and are not deliberate attempts at evasion, the FBI chief lists eight simple rules which he says "constitute each registrant's obligations under the Selective Service Act." They are:

1. Always carry your registration card.

2. Promptly fill out and return your questionnaire.

3. When ordered to report for examination, induction, or conference, do so promptly.

4. Always keep your board informed of your mail address.

5. Notify your board of any change in family status or occupation that might affect your classification.

6. Promptly carry out instructions your board may give you.

7. Don't advise anyone to try to avoid the draft.

8. If you have made an honest mistake in judgment or principle, talk it over frankly with your draft board or your local FBI officials.

### Second Cup Now Illegal

Restaurants Can Serve Only One Cup of Tea or Coffee at One Meal

VANCOUVER, Aug. 8—The position of hotels and restaurants under the new tea and coffee rationing orders is now clarified, according to Mr. W. R. Dowrey, Prices and Supply Representative for British Columbia.

It is now illegal for any hotel or restaurant to serve more than one cup of tea or coffee to a person with a meal at one sitting.

Under the voluntary rationing system some hotels have been serving an extra cup of tea or coffee and charging for it while others served the extra beverage without charge. This practice is now definitely stopped. Patrons of restaurants and hotels must now understand that they are only entitled to one cup at a sitting.

"Loyal citizens will not ask for more," comments Mr. Dowrey. "Reasons for the shortage of tea and coffee are now widely understood. The pre-Pearl Harbor sources of tea supply are cut off by enemy action, while Ceylon and India, the major sources of supply, are in a theatre of war more than 8,000 miles from Canada."

"The Wartime Prices and Trade Board appeals to citizens to help the situation by not asking for more than one cup of tea or coffee. The operators of dining rooms are not allowed to serve more, and the cheerful general acceptance of this fact by the public will help everybody to shoulder this new burden caused by the war."

### Is Rescued From Jungles

LONDON, August 8: (O)—Sgt. Pilot R. K. Thompson, a 21-year-old Rhodesian, is serving with an R.A.F. fighter squadron in this country after having been posted as dead. He was lost in the jungles of Rhodesia for three weeks and when natives found him they effected his rescue.

### MOBILIZES WOMEN

STOCKHOLM, August 8: (O)—Finland has ordered a compulsory labor scheme to raise 10,000 women needed for agricultural work.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

### Donald Gordon's Pin Blitz . . .

There will be a loud and unanimous hosanna for Donald Gordon, boss of the Wartime Prices and Trade Board, for this edict against excess pins in shirts.

Mr. Gordon has explored his shirts and found there were 12 to 18 pins in them when they came from the shop. He has decreed there shall be no more than two. Now, if he will only go a step further and remove the two, we shall have finally turned the tide and be on the road, not only of victory, but to the fruits of victory.

Just why there should be 12 to 18 pins in a shirt forms one of the major mysteries. For you can wander to your heart's content through a ladies' ready-to-wear and you won't find enough pins to pick your teeth. The women don't use 'em. They hang their displays on a revolving turret.

But when a man, in his awkward simplicity, goes to buy a shirt, he submits to the inevitability of a garment folded into an ugly and unnatural rectangle, pinned here, there, everywhere, and emerging from its tortured confinement with such a myriad of wrinkles that in nine cases out of ten his wife has to wash it before he even dare wear it.

Mr. Gordon has the thanks of the masses for his major surgery on body aesthetic. We can only hope that in some manner yet unguessed, the pinless shirt will find its way into the Atlantic Charter, and so become one of the major objectives of the peace.—Vancouver Sun.

### Fashion Notes For Autumn

NEW YORK, Aug. 8.—Wool knitted details in hand interpretations as well as machine are more and more popular as fall fashions are revealed.

Knitted backs and fronts, sleeves and backs, yokes, vests, plastrons, collars and cuffs unexpectedly appear to give the simple straight lines of the new fall dresses and suits a more decorative look. The backs and vests are also utilitarian for we are all facing a nice cool winter with all room temperature considerably lowered.

We have seen recently the smartest mitten it has been our good fortune to encounter. Fitting as snugly as a glove with interesting side and back details they are exactly like the little pill boxes, tricornes, stocking caps and Brittany nursemaid coifs, which they complement. How wonderful they will be if we walk or bicycle to and from work this fall and winter, and a very smart ensemble to both.

Sweaters are important though imports are a little more difficult to pick up than formerly. American-made sweaters and cardigans are available for fall consumption.

Almost all wool knitted fabrics are 100 per cent wool. Cotton and rayon are used in conjunction with wool and some of the new aralac milk fibres.

However, we shall all be glad when our hands again tell us that 100 per cent virgin wool is the fabric they are fingerling. In the wool knitted fabrics of which there are not only jersey, but many worsted, tweed and basket weave types we

find interesting surfaces that priorities are forcing out of some woven fabrics. The general use of

knitted fabrics by Clare McCardell, Vera Maxwell, Josette de Lima as well as the suit and coat sources is unprecedented.

The smartest hand knitted garments are at their best in tailor-made knits and the lines and colors of these garments make them an enviable unit in any smart woman's fall wardrobe.

Rich reds, vital greens, a large range of blue, beige and grey are to be found in both knitted fabrics and machine knits. It seems to me a little thoughtless to try to force beige and natural undyed fabrics now while dye is still available. The time for this fashion is later when, if actually the necessity for undyed grey goods, grey and a string beige is mandatory. What we need now is all the color we can get—or am I wrong? Black, good browns, navy, royal and soft blues for the basic colors of our wardrobe with red and green for variety—then we can with a dash of red pepper, a souchon of maise, a little mustard and some good dregs of wine cook up quite a suitable wardrobe and let the greys and beiges come in a little later. Remember our job is to look happy no matter how we feel.

Moral is the undaunted spirit that is so occupied with others that it forgets its own tragedy and heartache. So in selecting clothes for all—get practical, comfortable, colorful, well-made service guaranteed garments, that will be able to stand the gaff of the winter we are facing. It is a winter that holds grave potentialities and to treat it lightly is as unforgivable as it is stupid.

### TIME LOST BY SICKNESS

Yearly Wage Loss 50 Million Adequate Measures Can Cut In Half

TORONTO, August 8.—Chief cause of absenteeism in wartime industry is neither strike nor accidents but sickness, the Health League states, noting that the average wage earner loses nine and a half day's work and wages per year—nine days through sickness and non-industrial accidents—a half day through occupational accidents. This estimated yearly wage loss in Canada is over \$5 million dollars.

In terms of production the value of the work lost is considerably higher. It is shown that the employers' loss is one and a half times the wages lost through this same illness. The estimated figure in Canada approximates 75 million dollars annually.

Many factories today using adequate health measures, are reducing by up to 50 percent the average yearly loss of nine and a half days' work and wages per worker.

What, exactly, are adequate health measures in industry? What prompted you to make this plea?

To ascertain, by examination of the physical and mental condition of the prospective employee—and by so doing to place men and women in the type of work best suited to them.

To maintain and improve the health and efficiency of those already employed.

To educate the worker in accident prevention and personal hygiene.

To reduce lost time and absenteeism because of illness or injury.

To improve working conditions.

A report issued by the Division of Industrial Hygiene, Department of Pensions and National Health Ottawa, points out that in Canada about 80 percent of all establishments and 50 percent of establishments with more than 500 employees have no formal arrangements for the services of a physician that the services of a nurse are only available in 668 establish-

ments.

Dr. Victor G. Heiser, medical consultant to the National Association of Manufacturers in the United States reports that the average 500-employee factory saves over \$5,000 annually with a program of health conservation. The

Industrial Division of the Health League of Canada offers data to show that health promotion in the factory means improved efficiency and reductions in such categories as accidents, occupational disease, absenteeism and labor turnover.

There is an incident boom in building: this would develop into a real boom if the embargo on material could be lifted, but at the present time the requirements of war industries are using building materials under the protection of war time priorities and the ordinary civilian builders must wait until this embargo is lifted. Nevertheless there is considerable building going on in an effort to meet the increased demand for living accommodation for the many war workers and others who have been dwelling the population figures of Terrace.

There is an incident boom in building: this would develop into a real boom if the embargo on material could be lifted, but at the present time the requirements of war industries are using building materials under the protection of war time priorities and the ordinary civilian builders must wait until this embargo is lifted. Nevertheless there is considerable building going on in an effort to meet the increased demand for living accommodation for the many war workers and others who have been dwelling the population figures of Terrace.

Mrs. M. Medlen, R.C.E., expect to be going south in the near future; in anticipation of this Mrs. LaSalle entertained a number of friends, this affair being held at the home of Mrs. Dudley G. Little, on Tuesday last.

Mrs. M. Medlen was hostess to a tea at the new Cafe recently opened by Mrs. Moren, and to which she had invited a number of the Terrace ladies.

Mrs. C. J. Norrington of Seal Cove, Prince Rupert, arrived on Friday to spend a short holiday in her summer home on Park Avenue.

Mr. and Mrs. C. W. Michiel have returned to Terrace after an extended visit to Toronto and Ottawa.

Mrs. M. A. Greig will be leaving on Saturday for Vancouver for a visit with relatives.

**NOW IS THE TIME--**

Give us an order right away for the amount of coal you expect to need next season. This will enable us to meet your requirements now or as supplies arrive.

It is important that you should lay in your coal supply this summer as it is almost certain that the dealers will not be able to cope satisfactorily with the demand next winter.

**IT IS NOT HOARDING TO BUY YOUR COAL EARLY**  
(It is also necessary to place your order a day ahead of delivery)

**Crofton House  
Pioneer School**

Has Many Distinguished Graduates; Founded 1898

Crofton House School, Vancouver, founded in 1898 by the Misses Gordon, became under their direction the leading private school for girls in British Columbia, and for several generations graduates have distinguished themselves not only in university life but also on the many other fields of activity open to women. In 1937 the school was reincorporated as an Educational Trust and three years later it was accredited by the Department of Education, thus enabling girls to pass from other schools into Crofton House School without loss of time. This also means that girls may be recommended for admission to the University of British Columbia, and to similar institutions in Canada and the United States, without examination.

The new principal, Miss Ellen K. Bryan, M.A., a distinguished graduate of Trinity College, Dublin, has had wide teaching experience in Haigdale College, Toronto, and in Trafalgar School, Montreal, and it is confidently expected that under her leadership the school will go forward and thus keep faith with its fine heritage of the past.

**Make Films  
Over Germany**

LONDON, Aug. 8 (P)—The moving picture public soon will see a film of a real bombing raid over Germany. The cameraman, Flt-Lt. E. P. Moynihan, went on three R.A.F. raids on Bremen to get the pictures.

**Brigadier Stein****Sapper in 1914**

Wide Experience Specially Fits Officer For Command Of Armored Division

Brigadier Charles Ramsey Stirling Stein of Quebec City officer commanding a formation in a Canadian armored division, has had extensive experience as an officer of the Royal Canadian Engineers which he has turned to good use in the modern method of waging war by machines. His first connection with military life was as a sapper in the 8th Field Company, R.C.E. in the Non-Permanent Active Militia in 1914 but on graduation from the Royal Military College he was commissioned as a lieutenant in the R.C.E. in 1915. He saw overseas service in the engineers in France and Belgium from 1917 to 1919 and joined the Permanent Force after World War One. Promoted to Captain in 1921, he studied at the School of Military Engineering, Chatham, England, in 1921-22 then served as First District Engineer in Military District No. 10 from 1924 to 1926. This post was followed by a term as instructor at the Royal Military Academy, England, from 1926 to 1928 and after service as Engineer Officer in Military District No. 5 he attended the staff College at Quetta, India, in 1931-32. Promoted to Major in 1931 he was assistant director of engineer services at National Defence Headquarters from 1933 to 1936 when he was promoted to brevet Lieutenant-Colonel and became Staff Adjutant at the Royal Military College of Canada until 1939. Confirmed in his Lieutenant-Colonelcy in 1939, he commanded the Engineer Training Centre in 1940 until he went overseas in September of that year as Assistant Adjutant-General (Personal Services) and Assistant Adjutant General (Organization) at Canadian Military Headquarters in London. He returned to Canada in October, 1941 to become Assistant Adjutant-General and Quartermaster General of a Canadian armored division and was promoted to Brigadier and to his present position February 4, 1942. Born in Vancouver, January 5, 1897, he was educated in England and at R.M.C. His wife now lives at Quebec City and they have one son, William Frederick Ramsay Stein, aged 13.

**A.R.P. Wardens****Hear A. M. Davies**

Gives Report on U. B. C. Lectures  
—Awarded Proficiency Certificate

The meeting of the A.R.P. wardens held last evening in the Canadian Legion rooms was addressed by A. M. Davies, secretary of the local Civilian Protection Committee who had attended the recent series of lectures and demonstrations at the University of B.C. under the auspices of the Provincial Civilian Protection Advisory Council. On completing the course Mr. Davies was given the certificate of proficiency.

Among those speaking or lecturing at the school were Mr. Mainwaring, chairman of the advisory council for the province; Professor Clark, professor of chemistry at U.B.C.; Lieutenant Atkin of the Vancouver Fire Department, Captain Lefien, Lt.-Col. Shrum, Mr. J. A. Clou, Captain Nixon, New Westminster Fire Department, Mr. Oswald of the Vancouver Fire Marshal's office, Corporal Taylor, B.C. Provincial Police and Inspector Moodie.

Lectures dealt with gases, modern bombing, forms for use by wardens, gas masks and gas casualties, sabotage, provincial organization, and moving pictures were used to demonstrate incidents and methods of dealing with them. Among the most important things is the need for sustained interest and continued practices. "Tomorrow's time enough" is playing into the hands of the enemy. Incidentally Inspector Moodie paid tribute to the efficiency of the organization in Prince Rupert. In his talk last evening Mr. Davies was able to suggest that in certain respects other centres were ahead of us. We must not rest on our laurels, especially as they have not been gained through actual experience of air raids.

Arrangements were made for the mimeographing of certain notes of lectures. These copies will be distributed to the various districts for use in their districts. At suitable dates Mr. Davies will visit the different districts and full discussions will take place on the material in the lectures.

Mr. Davies also spoke particularly on the position of "Incident Officer." This is an appointment favored by many authorities. A lively discussion followed the presentation of this paper with the final verdict being that such an appointment or appointments here would be of no advantage. If the other papers presented by Mr. Davies provoke as much discussion there is an assurance of sustained and worthwhile interest in local A.R.P. activities. A very hearty vote of thanks was accorded Mr. Davies for his informative and interesting talk.

**DUE TO WAR CONDITIONS**

Canada will now on, have to depend as never before on the output of her mines to fill the ever increasing demands for coal. Much of this will have to be from Alberta mines, but this will be difficult if not impossible if consumers wait, as in the past, for cold weather before taking delivery.

Do your part in helping to avoid a serious situation, by filling your bin NOW and keeping it FULL.

Stocks of Foothills Alberta, Bulkley Valley and Comox now on hand.
