STILL PLENTY OF TIME

Spring opened unusually early this year but, as generally happens after a warm spell, the weather turned cold again and some enthusiasts who rushed their gardening operations probably regretted it later.

Admittedly, there is a thrill in Ham getting the garden planted weeks earlier than usual and, if all goes well, there is also a thrill in picking the first flowers or sampling the first vegetables weeks ahead of the neighbors. But, as the ex- George Howe. perts point out, there is solid satisfaction at least in having the garden harvest last weeks longer than is possible when everything is planted on a single afternoon.

The beginner almost invariably suffers from an overdose of spring fever and plants too soon. There is no harm in planting a portion of the garden very early. T. Kasper vs. Mrs. W. W. Wrathall but for maximum results al plantings, and this especially applies to vegetables, should be spread out. This prolongs the harvesting season of really 7resh vegetables, eases the work of cultivation and planting, and makes for more even results,

There is still plenty of time to plant all vegetables and, of the tender and semi-tender sorts, it ! advisable to consider the
