

Russians Are Keeping Up Advance

MARSHAL REPORTS

Fire Protection Conditions Reviewed by Chief H. T. Lock for School Board

The Booth Memorial School is the only one of the city schools that presents any serious problem as far as fire precautions are concerned, according to a report of the local fire marshal, H. T. Lock. This is principally due to outside conditions such as the appalling condition of the grounds which have made it impossible to have fire drills since last October and the difficulty of evacuation in case of air raids owing to it being a target area and rather far away from any possible bush shelter. The chief expresses the hope that some way might be found of cleaning up outside conditions at that school.

The fire marshal's report deals with construction, housekeeping conditions, fire escapes, fire drills and evacuation possibilities of each school.

The average times for clearing the school in fire drills are given as follows: Borden Street, 1.03 minutes; King Edward, 1.23 minutes; Seal Cove, 17 seconds; Booth, 1.48 minutes; Annunciation, 19 seconds.

Except for Booth Memorial School, there are convenient wooded areas closely adjacent to the various schools in the event of air raids. It is suggested that the trail from King Edward School to the McClymont Creek might be improved.

The fire chief reports that he found the principals and janitors excellent people to work with—very fire-conscious and very cooperative.

The School Board is awaiting a report from City Engineer F. N. Good in regard to the structural condition of the schools.

Dr. R. J. MacDonald, medical health officer, being away from the city, there is no report from him yet in city school conditions.

Preparing For Emergency In Prince Rupert

Thirty-one cases of emergency clothing for women and children for use in disaster relief have arrived in Prince Rupert, it is announced by W. R. McAfee, president of the local branch of the Canadian Red Cross Society. Arrangements have been made for storage in Gordon's Hardware premises. It is the first shipment of this kind that has been received here.

IS GIVEN NEW POST

J. P. Johnson Becomes Chief of Transportation of Canadian National

OTTAWA, Jan. 15.—J. P. Johnson has been appointed chief of transportation for the Canadian National Railways system with headquarters at general, according to an announcement made yesterday by N. B. Walton, executive vice-president in charge of operations throughout the system.

Johnson succeeds J. F. Pringle whose appointment as general manager of the Atlantic region of the National Railways, has been announced by W. U. Appleton, vice-president in charge of the Atlantic region. Previously Mr. Johnson was general superintendent of the Southern Ontario district with headquarters at Toronto.

James Parnell Johnson commenced his railway service as a telegrapher on the Portland division of the former Grand Trunk Railway on November 1, 1905 and his first promotion found him as train despatcher at Island Pond, Va., in 1908. Mr. Johnson left the Grand Trunk service and in May, 1915, became chief despatcher and trainmaster at Grant, Ontario, for the Transcontinental Railway, now part of the Canadian National Railways. Two years later he became assistant to the general superintendent at Cochrane, afterwards becoming inspector of transportation at Winnipeg. During a period of seventeen years Mr. Johnson occupied various supervisory positions on the prairies, being variously stationed at Melfort, Prince Albert, Saskatoon, Dauphin and Calgary. Then in December 1936 he was promoted general superintendent at North Bay, Ontario, and in September 1941, he was appointed general superintendent of the important southern Ontario district with headquarters at Toronto.

Mr. Johnson is a native of Castlegar, Quebec. His activities include a keen interest in the Boy Scout movement. He is a member of the Ontario provincial executive and has been awarded the medal of merit.

QUITS POST WITH GOV'T

Prominent Canadian Timber Man Has No Comment to Make in Resigning

OTTAWA, Jan. 15.—Allan S. Nicholson last night told the Canadian Press that he had resigned his post in the timber controller's branch of the Department of Munitions and Supply.

"I have nothing more to say about it," Nicholson commented. Mr. Nicholson is vice-president of the Crow's Nest Pass Lumber Co. of British Columbia as well as head of Ontario firms bearing his name.

DRIVING NAZIS OUT

Russian troops defend farmlands on western front.

NEW FIGHT IN GUINEA

First Land Hostilities in Two Months in Salamaua Area

ALLIED HEADQUARTERS IN AUSTRALIA, Jan. 15.—Allied jungle fighters counted 116 Japanese dead today and beat the bushes for more bodies after a surprise two-day foray in the Mudo area inland from Salamaua, New Guinea. It was the first reported land clash in that area in two months.

Meanwhile the American and Australian forces are continuing to close in on the encircled Japanese at Sanananda near Buna.

Allied aircraft again pounded Lae and Salamaua with bombs yesterday, the Japanese making no attempt to resist.

Gasmata on New Britain, objectives in the Solomons and Timor were also bombed again.

Enlistments are Mounting

Sixty-Seven More Men Join Up in Local Machine Gun Battalion

There was another gratifying evening of enlistments last night in the Prince Rupert Reserve Machine Gun Battalion, no less than sixty-seven more enlistments being received. It was another busy evening at battalion headquarters with officers receiving the recruits and issuing equipment. The total enlistments are now well on towards the two hundred mark.

The following were last night's new enlistments:

- L. C. Anderson, R. Berg, P. A. Berg, O. J. Bezaire, R. Bury, R. K. Cameron, D. A. Careless, W. J. Carey, E. J. Carlson, A. R. Covey, E. F. Denning, J. K. Dopson, H. B. Eastman, R. W. Evans, R. R. Glasier, W. Graham, R. A. G-anley, P. B. Guyan, D. Healy, J. C. Heatherington, N. R. Hebb, T. R. Hodgson, L. G. Howarth, H. P. Innis, J. Innis, T. G. Jones, W. B. Kerr, J. Klassen, J. Kromhoff, C. E. Love, H. J. Lund, G. W. McAfee, F. G. McLean, K. McCrimmon, W. K. McLeod, N. F. MacDonald, J. T. McKay, J. P. Mairs, W. J. Manson, W. M. Murray, E. W. Parkhouse, H. Parsons, T. R. Parsons, R. S. Paulis, H. G. Paulson, R. M. Ramey, J. E. Reil, A. H. Ross, L. G. Sanderson, R. J. Schaeffer, K. J. Schneider, E. C. Shier, A. G. Simundson, E. Slat-ta, A. C. Small, W. R. Smith, R. C. Strachan, E. W. Swift, J. A. Teng, M. A. Teng, C. J. O. Toombs, W. A. Turner, J. E. Urwin, R. G. Wagner, C. H. Wanamaker, L. G. Wanamaker and D. W. Wilson.

Canada Steps Up 1943 Production For Heights

Small Arms at Rate of One a Minute, Millions of Cartridges, Flocks of Combat Planes From Dominion This Year

By JACK WILLIAMS (Canadian Press Staff Writer)

OTTAWA, Jan. 15 (CP)—Canada's war industrial program overcame most of its growing pains during 1942 and is headed toward peak production in 1943. Vast factories built in the previous year-and-a-half, part of the country's \$1,000,000,000 spent in plants and defence projects since the war began, came into efficient production

last year and from their doors has come a constantly growing stream of munitions and materials that has given new fighting power to forces of the Allied Nations.

Construction of new plants slowed down in 1942 except in branches of war industry where new needs had to be met. There was some expansion in the chemicals and explosives field and work was started on a synthetic rubber plant which will be in production by the end of 1943.

Production planned at present is almost entirely under way. In aircraft, for example, where there has been a change-over from training to combat planes, two of the four most important types, the Mosquito and Catalina, are already in production. The Curtiss dive-bomber will be turned out early in 1943, and the big four-motored Lancasters about the middle of the year.

Big Business
Business on the books of Canadian aircraft plants, from Jan. 1, 1942, to the end of the present program, totals more than Canada's First Great War expenditures for all purposes, including maintaining troops overseas and in Canada. Output of Canadian shipyards during the past year has been more than double, in value, that of 1941. Merchant shipping alone totalled 900,000 tons, compared with 450,000 tons in 1939, and in addition an extensive naval program is being carried on. Development of chemicals and

Royal Air Force Busy Over Burma

Further Attacks Have Been Made in Vicinity of Akyab

NEW DELHI, Jan. 15.—More bombing attacks have been made by the Royal Air Force on the Bay of Bengal coast of Burma in the vicinity of Akyab.

ITALY IS NOW HIT

Three More Axis Supply Ships Sunk And Benito's Domain Shelled

LONDON, Jan. 15. (CP)—British submarines, ranging the Mediterranean, have destroyed three more Axis supply ships and a small naval vessel, probably sunk three other supply ships and have again brought the sea war to Italy's doorstep by shelling targets on the southern Italian coast, the Admiralty announced today.

After torpedoing a large enemy supply ship near Naples and leaving it in a sinking condition, one British submarine came to the surface to bombard a railway bridge and demolish electric installations, the Admiralty said.

PROGRESS IS MADE BY REDS

Soviets Take Back What It Took Nazis Months to Capture

MOSCOW, Jan. 15.—The rapid pace of Russian vanguards in the drive northwestward from the Caucasus brought up the problem of reinforcement and supply today but dispatches said the winter offensive continued to make progress on both the Caucasus and Don fronts.

Red Army men occupied several more strong points in the Caucasus and Lower Don region, overriding strong German resistance, field observers reported.

Having blanketed in three days a vast triangle which the Germans took three months to conquer—the area between Mozdok, Nalchik and Mineralnye Vody—the Red Army now has the job of moving up its main forces to support men consolidating newly-won positions for further thrusts toward Rostov, forty-five miles distant. During recent days the Russians have covered another 26 miles.

A particularly vigorous counter-attack of the Germans on the central front was repulsed with the enemy losing men in dead, injured and prisoners while much booty was taken by the Reds.

Marshal Simeon Timoshenko is reported to be personally launching a new offensive to drive the Nazis out of the Leningrad area. This would be a large undertaking as the Germans have had a year and a half to entrench themselves there.

The Berlin radio admitted last night that the Red Army, at great cost, had made "small territorial gains" in Russia and said that the heavy winter fight was demanding greatest exertions from German troops.

CONFERENCE ON STRIKE

Minister of Labor Calls Representatives of Steel Companies and Workers Together

UNION COMMITTEE

SYDNEY, Nova Scotia, Jan. 15.—Striking workers in Nova Scotia steel mills decided today to allow national office of the United Steel Workers of America to negotiate on their behalf with the government and companies. A three-man committee has been named for this purpose by President Phillip Murray.

OTTAWA, Jan. 15.—Hon. Humphrey Mitchell, minister of labor, has called a conference of representatives of the Dominion Steel and Coal Co. and the Algoma Steel Corporation together with representatives of the United Steel Workers of America and Canadian Congress of Labor to consider the situation arising out of the strike which has tied up 13,500 workers in important steel plants in Nova Scotia and Ontario.

Invitations to the conference were telegraphed late yesterday to the parties concerned. The Algoma Corporation is sending representatives, it is already known.

MARSEILLES TROUBLOUS

Clashes Between French and Nazis—Former Premier and Foreign Minister in Prison

BERNE, Switzerland, Jan. 15.—Clashes between the French and Nazis at Marseilles are reported. It is believed the Germans are strongly fortifying the important French Mediterranean port against the possibility of an Allied invasion.

The Gestapo is continuing a campaign against those opposed to collaboration with the Reich.

Former Premier Paul Reynaud and former Foreign Minister Georges Mandell are reported being held prisoners. One story is that they have been taken from France to Germany and another that they are being held in a fortress in the Pyrenees.

BIG "CROC"

A crocodile skull more than six feet long has been unearthed in Texas.

LIKE PEANUT BUTTER

Abroad, peanut butter is popular not only with Canadian and U. S. troops, but with British and Russians.

Grounds Are For Schools

Board of School Trustees Advised Of Status of Hays Cove Circle

The report of a special committee of C. G. Ham and E. J. Smith on school and school ground property has advised the school board that all property reserved for school purposes in Prince Rupert was intact and not otherwise used except for that portion of Hays Cove Circle, side of Booth Memorial School, which is occupied by the staff house buildings of Wartime Housing. This is actually a reserve for school purposes, the board was advised. In addition to property already occupied by schools, there are blocks reserved for school purposes in Sections Two and Six.

As a result of the report of the committee, the chairman of the board was instructed to get in touch with the city council to see what can be done about the placing of lumber by contractors and the running of trucks over Booth Memorial School grounds. The members of the board were agreed that the state of affairs on these grounds was deplorable and that something should be done at once to get them in better condition.

The committee was asked to continue its work by reporting on the valuation and insurance of school buildings.

MEXICAN PYRAMID

A ruined pyramid has been discovered by archeologists in what is believed to be the ancient city of Tula, in northern Mexico.

EDITORIAL

Booth School Grounds . . .

Undoubtedly an intolerable condition exists in regard to the present condition of the grounds of Booth Memorial School. The board of school trustees is well justified in its discontent over this situation and in its anxiety to have it cleared up with the least delay possible.

The Steel Strike . . .

The Canadian steel strike would appear to be unpardonable at this critical war time. Probably there is no more important war industry than the making of steel upon which so many other phases of the war's prosecution depends.

Meanwhile, it is a most serious thing to have the present state of affairs continue and grave responsibility for some one is to be implied. Certainly to have such a strike going on as that in the Canadian steel industry indicates that in some quarters there is not a proper realization of the seriousness of hampering the war effort.

First Things . . .

At a meeting of a public organization on Monday night we heard the interesting suggestion put forward that public conveniences should be one of the first things that the new city council should provide in Prince Rupert.

The measuring stick of primary importance of projects considered should, of course, be health and well-being of the people rather than mere comfort or convenience. Perhaps looking at things from this standpoint might simplify the decisions as to which are the most important.

SPORT CHAT DETROIT GOES UP

Red Wings Now in Second Place in National Hockey League

There's probably a boxing future in Britain for Arnold Hayes and Tony Roberts of the Canadian Army if they want to stick around after the war. If not, they'll probably go just as well in a ring back home. Cpl. Hayes, big Negro heavyweight from Montreal, and Roberts, clever Winnipeg bantamweight, have bounced many opponents around since arriving overseas but they gave their best displays in recent matches at Bristol. The boys, fighting on a charity card, took the spotlight away from Britain's newest boxing sensation, Freddie Mills, British and Empire lightweight king. Mills boxed a three-round exhibition with the veteran Don McCorkindale. Roberts, punching in non-stop fashion, took a furious eight-round decision from Eddie Liddle of Weston-Super-Mare, West of England champion. Ring critics classed it as the hardest fight seen in Bristol for many months and tremendous applause greeted the battles at the finish. Hayes, Canadian Army heavyweight champion, took a one-round decision over Jack Morgan of London leveling Morgan three times for counts. The referee stopped the fight when a thump to the jaw floored Morgan for the third time.

Rangers Beat Blue Birds In Ladies' Bowls

Rangers won a clean sweep victory over Blue Birds in a postponed game of the Ladies' Bowling League. The individual scoring was as follows: Rangers—1 2 3 Peterson 182 157 178 McKoren 148 182 148 Montgomery 149 214 239 Ballinger 246 214 284 Totals 771 823 895 Blue Birds—1 2 3 Pierce 160 123 152 McDonald 134 125 163 Harris 145 212 223 Kerón 119 178 229 Totals 558 638 758

Lieut. Lyudmilla Pavlichenko, Russian woman sniper just returned from a Canadian and American tour, went to Stamford Bridge to watch a football game between Chelsea and Brighton. A total of 225 goals were scored in 38 of the 39 league matches but Lyudmilla didn't see one of them. She attended the only scoreless tilt. Needless to say, Lyudmilla, who has killed 305 Germans, had no comment on the marksmanship.

R.A.F. pilots undergoing rehabilitation training to offset effect of injuries now play "Balmoral," a new name for an old game. It is "foot and hand netball" which was played in the King's camps for boys when he was Duke of York. The King, hearing that equipment for exercise was needed at the rehabilitation centre, provided apparatus for the game from the camp store at Balmoral. Hence, it was dubbed "Balmoral."

CAMPAIGN DEVELOPS

Aid to Russia, Effort Getting Under Way in Prince Rupert

The central committee on the campaign for Canadian Aid to Russia which is now getting under way in Prince Rupert met last night and received encouraging and optimistic reports from all committee chairmen. The canvass

is now getting under way and, so far, the public has been glad to give. The objective for Prince Rupert is \$3,500.

The publicity committee, through G. A. Hunter, reported on measures which were being taken to bring the campaign to the fore and encourage generous giving thereto.

Plans of the special events committee, Charles Viser, chairman, are for a couple of dances, one at the dry dock staff house dining hall for dry dock employees, and another at the Parish Hall of

St. Peter's Church. A Sunday evening concert in the Capitol Theatre is also under consideration.

Ray Allen, chairman, and others reported on the plans for canvass by the special names committee. Every canvasser is to be armed with credentials.

A tag day is planned for January 30, the ladies' committee of which Mrs. J. A. Teng is chairman, being left in charge of this.

Rev. A. F. MacSween, local campaign chairman, presided.

COUNTRY TEACHING

of Encouraging High Standard of Profession Advocated

Teaching problems were the monthly meeting of Prince Rupert and District Teachers' Association which was held Wednesday evening in Borland School. Nineteen members were present. Bruce Mickieburgh was elected president in place of T. L. Davies who was the city.

Hill, vice-president, conducted the routine business and reports from the British Columbia Teachers' Association's present situation of the province.

Mickieburgh, who was at an executive meeting of the Federation held in Vancouver recently, gave a full report on the situation of rural education in the province. The rural teacher must be as nearly as possible a specialist in all subjects and able to be a guide, philosopher and friend to young and old. It is expected that men of this calibre would be able to handle the rural districts and endure the hardships of the remuneration received? New Zealand has paid higher salaries to rural teachers.

For the war there will be a large influx of people from the industrial countries of Europe to the Canadian rural areas. These people and their children must be taught in Canadian ways of life and citizenship. This does not require the best of teachers.

The Federation is urging the government to take full charge of the rural schools and by a uniform millage of taxation make it possible to have good schools and pay teachers, to have the best of the rural districts, as well as to have the best of the rural districts.

The next meeting will be held at the school on February 3.

Age Has Lights Off

Elimination of Blackout at Kitkatla Generator of Power Here For Evacuees

Due to the burning out of a lamp in the village of Kitkatla at present without electricity for either streets or homes, the village has had to resort to the use of kerosene lamps.

Arriving in the generator Joseph chief councillor of Kitkatla yesterday with his boat No. 14, being accompanied by Frank Ryan, Alfred and Ernest Bolton.

The generator is being carried out here by the village so that the generator may be hauled back to the village with a view to getting the village again with a minimum of expense.

Despite the weather notwithstanding, a very enjoyable native dance was held for the village folk on Tuesday night at the Agnes in Kitkatla. Music was by the Nelson's Orchestra.

CHINA CAN BREATHE AGAIN!

PHIL JORDAN, correspondent for the London News-Chronicle, has seen more of the war than any other newspaperman in the world. In October, 1939, he went to France, then to the Middle East, returning to England to cover the Battle of Britain. Two weeks after the German army crossed the Russian frontier, Jordan flew to Moscow. Sent to Burma, he arrived in Rangoon one week ahead of the Japs, and was then called to India to cover the mission of Sir Stafford Cripps.

Mr. Jordan is a contributor to the New York Times, Life, Collier's and author of a book: "Russia at War".

BY PHILIP JORDAN

London (By cable)—In this war I've visited 17 countries and the commodity I found common to them all is the General Motors mechanized transport. I paid my first visit to No-Man's-Land beyond the famous Maginot Line in a Chevrolet. I drove to the Russian Front in one, and watched it taking back the wounded. In another I escaped from Rangoon just one step ahead of the Japs.

I was the first war correspondent to set foot in the western desert of Egypt, and again it was a Chevrolet that laughed at the worst roads in the world outside of Russia, where they rely for victory, let me tell you, as much on the factories of their allies as on their own production. They need trucks that will stand up under road conditions you've never imagined.

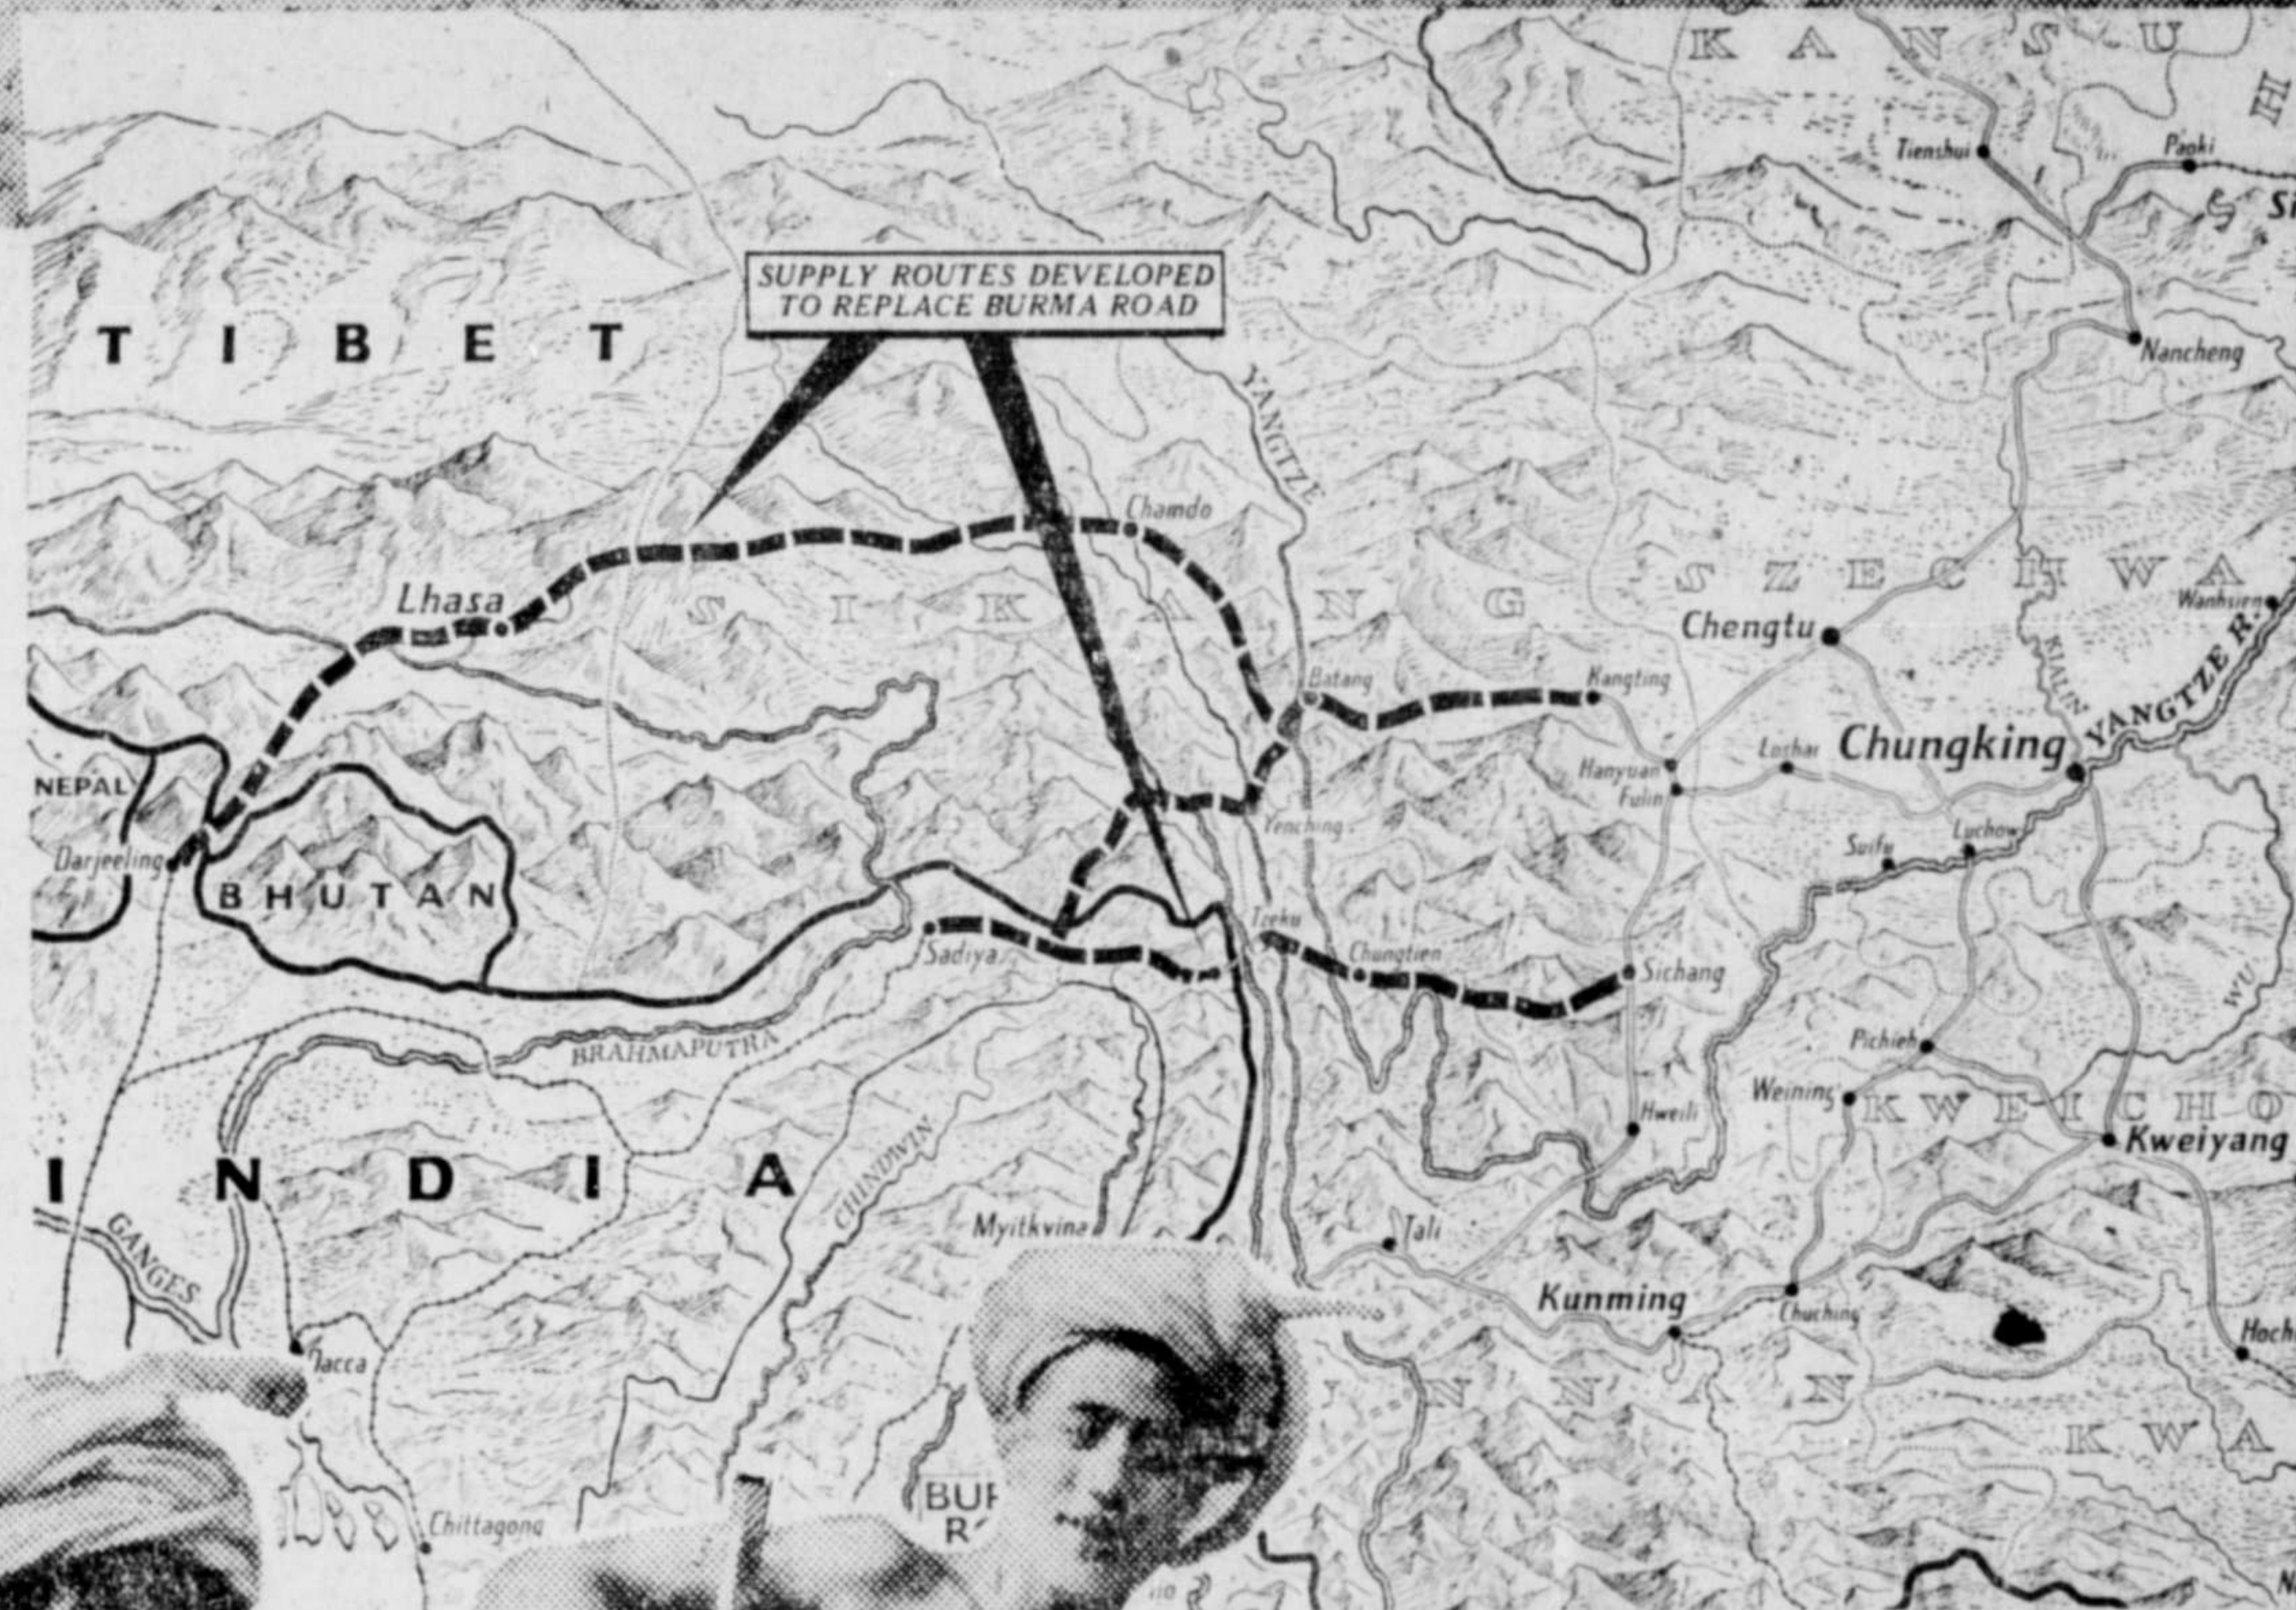

In the mountains of Persia the new Polish legions from Russia use them to make the long trek to the railhead that takes them toward the Middle East.

In the great port of Basra, on the Persian Gulf, through which urgently needed Allied supplies flow to Russia, I've seen camouflaged trucks as thick as cornstalks in the fields at harvest time. You see them from one end of the Iraq desert to the other. You find them in the heart of the Belgian Congo. At this moment there is a stream of them taking supplies along the new road from India to China. More than 100,000 labourers have built that secret road in a few months, so that absolutely vital supplies can be sent to our Chinese allies as regularly as before the Japs cut the Burma Road.

I saw this miracle road being hacked through jungle, and slashed through malarial forests, like a conjuror eating coloured ribbons. Each morning a flock of Chevrolets brought up labour and materials, and later they carried guns, shells, airplane parts, gas, grenades and medical supplies. *Because of these trucks China can breathe again. And what is saving China will help to save the whole world of decent men.*

This direct, personal cable from one of the most widely-travelled correspondents covering the many war fronts, pays a great tribute to the workers in Canada who are so energetically supporting their fighting brothers overseas. In General Motors plants the morale of thousands

of workers has been kept at battle-intensity by the knowledge that mechanized equipment not only wins engagements but saves lives. They are as proud as we are when Canadian-made vehicles get mention in dispatches as being an essential of victory.

Men in factories are as important as men in the front lines. That is the first lesson I learned in this war. Transport means as much as guns, for this is a war of Machines. Without trucks to supply the fighting men in never-ending streams, the war would be lost. —Jordan

 Attention!**
 During these dark evenings
 and dim-out times when win-
 dow display is virtually ruled
 out and even in the daytime
 people are too busy to wan-
 der around the streets
 searching for values, we
 would recommend to Prince
 Rupert merchants the greater
 importance than ever of ad-
 vertising in the newspapers
 which are so much in demand
 on account of the war news.
 The medium of the news-
 paper is more effective than
 ever in drawing attention to
 stocks, particularly between
 now and Christmas. Get in
 touch with the Daily News
 now.

BIRTHS IN SWEDEN
 STOCKHOLM Jan. 15 — The
 Swedish Statistical Bureau reports
 the birth rate during 1942 as 17
 per thousand, highest since 1925,
 and deaths for the year ending
 September 30, the lowest compara-
 tively since 1845.

**IS NAMED
 DIRECTOR**

**Prominent Railwayman Takes Im-
 portant Post With Selective
 Service**
 OTTAWA, Jan. 15 — Appoint-
 ment of Charles Frederick Need-
 ham, Canadian National Railways
 executive, as associate director of
 National Selective Service, (civ-
 ilian), was announced Tuesday by
 Hon. Humphrey Mitchell, minister
 of labor.

Mr. Needham, formerly assistant
 to the vice-president and general
 manager of the central region,
 Canadian National Railways and
 during his many years in this po-
 sition, was brought into close touch
 with various phases of labor mat-
 ters as affecting railway manage-
 ment and operation.

For the past 20 years, either as
 assistant to the regional general
 manager, Mr. Needham was one of
 the Canadian National officers
 who represented the National sys-
 tem in the negotiation of agree-
 ments with the various railway
 brotherhoods, both in regard to
 wages and working conditions. He
 also was in frequent consultation
 with the general chairmen and
 other senior officers of the bro-
 therhoods upon numerous other
 questions that arose from time to
 time.

A close student of labor problems
 for more than two decades, Mr.
 Needham had a keen appreciation
 of the position of labor from prac-
 tical experience, as his long rail-
 way career was confined to the
 motive power and, operating de-
 partments.

Born in London, Ont., 1877, he
 commenced work as a clerk in
 1899 with the motive power de-
 partment of the old Grand Trunk at
 Toronto. He was moved to Mont-
 real in a similar capacity seven
 years later and, in 1913, was made
 chief clerk. He became secretary
 to the superintendent of motive
 power in 1917, and assistant to the
 vice-president of motive power and
 equipment a year later. In 1923,
 he was appointed acting assistant
 to the operating manager and, in
 the same year, was moved to Tor-
 onto to become assistant to the
 general manager of the newly-
 formed central region of the Cana-
 dian National.

VICKS VA-TRO-NOL

CANADA STEPS UP
 (Continued from Page One)
 explosives plants for war needs
 considerably exceeds the total
 commercial capacity of the Domini-
 on before the war. Output for
 war purposes last year will total
 \$111,000,000, double that of 1941.
 Small arms, such as Lee-Enfield
 rifles, Bren and other automatic
 guns, bomb throwers and anti-
 tank rifles, are being turned out
 by Canadian workers at the rate
 of one a minute and early this
 year it is expected there will be
 three every two minutes. With 40-
 000 finished rounds of ammuni-
 tion for these guns completed
 every minute, production will be
 even further stepped up early in
 1943 when it is estimated twice as
 much small arm ammunition will
 be produced in a single month as
 was made in the peak year of the
 First Great War.

For Mobile Armies
 British forces all over the world
 are depending almost entirely on
 Canada for automotive vehicles.
 From the outbreak of war to the
 end of last year close to 500,000
 units were turned out, 215,000 of
 them in 1942, including all types
 of trucks, universal carriers and
 scout cars.
 Paralleling this increased pro-
 duction has been a vast expansion
 in basic materials. Compared with
 pre-war years, Canada's produc-
 tion of steel has been stepped up
 110 per cent, pig from 150 per
 cent, malleable castings 500 per
 cent and aluminum 600 per cent.
 Canada is producing 40 per cent
 of all the aluminum used by the
 United Nations.
 Taking part in this gigantic in-
 dustrial effort are close to 1,000-
 000 Canadian war workers. It is
 estimated another 100,000 will join
 them by the time peak production
 is reached this year. They have
 had a part not only in speeding
 production but in introducing
 economies and efficiencies that
 have given Canada new import-
 ance as an industrial nation.

Bishop and Mrs. G. A. Rix were
 passengers leaving for Vancouver
 last night.

Allan Cormack of the Prince
 Rupert dry dock, left last night for
 Vancouver.

▲ A meeting of all A. R. P. Auxili-
 ary firemen will be held at A.R.P.
 Headquarters, Court House Gar-
 dens, greenhouse entrance, at 2:30
 p.m. Sunday, January 17, 1943. (13)

Tonight's train, due to arrive
 from the East at 11 o'clock, was re-
 ported this morning to be one hour
 and forty minutes late.

D. McMeekin and R. McKay, af-
 ter spending leave at their homes
 here, left last night for Vancouver
 on return to their naval duties.

Charles Shields was removed yester-
 day from the Royal Hotel to the
 Prince Rupert General Hospital
 where he was admitted as a pa-
 tient.

 Fighting in North Africa**
 ALLIED HEADQUARTERS IN
 NORTH AFRICA, Jan. 15 —Four-
 engine bombers attacked the east-
 ern Tunisian supply ports of Soussa
 and Sfax yesterday, leaving harbor
 areas aflame from a destructive
 downpour of explosives, it was an-
 nounced today.
 Aerial activity was widespread
 elsewhere but a communique said
 there was no change in the ground
 situation.
 In the Allied bombings of Soussa
 and Sfax four Axis planes were
 shot down while eight Allied mach-
 ines were lost. At Soussa a cargo
 ship was hit.
 While the air attacks on western
 Libyan and eastern Tunisian ob-
 jectives continue, the Fighting
 French are reported to be making
 further gains on their drive up
 from southern Libya.

THE EXPERTS SAY . . .

BUTTERLESS COOKIES — If your cookie jars are empty because of butter rationing, Laura Pepper, chief of the consumer section in the Department of Agriculture offers this recipe—Cream one-third cup of clarified beef or pork fat or lipping or a mixture of the two with one-half cup of brown sugar and one-half cup of honey. Add one egg and beat well. Dissolve one-half teaspoon of baking soda in three-quarters of a cup of thick, unsweetened applesauce and add to it the first mixture. Sift two cups of pastry flour with one-half teaspoon baking powder, one-half teaspoon of cinnamon, one-quarter teaspoon of nutmeg and one-quarter teaspoon of salt, and add this, too, to the first mixture, together with one cup of chopped raisins. Drop on a greased baking sheet and bake about 20 minutes at 375 degrees.

CUTLERY — Take the advice of the Prices Board's consumer section and banish dull and inefficient knives from your drawers. Knives are more easily kept sharp and in good condition if stored properly when not in use. Don't toss knives into a drawer with other kitchen utensils, since edges become blunted from chafing against each other. Use knives only for the purposes for which they are designed. For instance, the edge of a carving knife may be blunted by cutting bread. Wash knives immediately after use and sharpen them frequently, without applying too much pressure.

VEGETABLES — Preparing vegetables beforehand saves time for the busy housewife but Marian Harlow of the Pensions Department nutrition services says it destroys vitamins and dissolves some of the minerals at a time when vitamin-rich diets are necessary to help maintain the war effort. Vitamin "C" is particularly vulnerable to air or soaking in water, she says.

LAMP SHADES — To clean a parchment shade, the experts advise washing it with a solution of soap in methylated spirits. Prepare the solution by dissolving a quarter of an ounce of soap flakes in four

MORE STOCK BEING RAISED
Ten Per Cent Increase Per Year in Interior—1942 Was Good Year

District Agriculturist S. G. Preston, of Smithers, in a report on agricultural conditions in Central British Columbia, states that there was an excellent growing season in 1942 with harvesting of abundant crops of all farm commodities except potatoes, a crop which proved below normal due to excessive cold rains in the spring.

The chief cash crop in and around the Bulkley Valley was timothy seed, of which there was an increase again in tonnage over the previous year. The current price, however, was substantially lower.

Mr. Preston's reports for the past six years indicate that livestock raising is increasing at a rate of 10 per cent each year. This would appear to be a very healthy trend and the additional cash brought into the district through the sale of livestock and milk should eventually bring stability and prosperity to the farmers of the area. The war, however, may retard this development as there is a serious shortage of farm labor.

District Agriculturist S. G. Preston has been active in organizing and expanding the formation of boys' and girls' farm clubs. This club work is sponsored by the federal and provincial governments as a means of giving the farm youth valuable knowledge of and interest in farm life.

IS NAMED MANAGER

Chief of Transportation of Canadian National Takes Over Atlantic Region Control

MONCTON, N.B., Jan. 15—J. F. Pringle has been appointed general manager of the Atlantic region of the Canadian National Railways, according to an announcement made here Tuesday by H. W. U. Appleton, vice-president in charge of the region.

The increase of traffic throughout the eastern lines of the system has made necessary an enlargement of the supervisory administration, particularly in the Maritimes, and this appointment will relieve Mr. Appleton from much of the direct work concerning the operation of freight and passenger services within that large and important district.

Hitherto Mr. Pringle has been chief of transportation for the system with headquarters at Montreal. He will now establish his office at Moncton.

Mr. Pringle, a native of Cornwall, Ontario, began his service with the Canadian National Railways in November, 1919, as an assistant engineer in the engineering department at Montreal. In 1936 he was appointed general superintendent of southern Ontario district and in September, 1941, was appointed chief of transportation for the system.

Mr. Pringle was one of the Canadian National officers loaned to the National Railways of Mexico during the winters of 1929-30 and 1930-31 to assist in modernizing and reorganizing traffic methods on the Mexican lines.

The earth's surface totals 196,940,000 square miles, almost four-fifths of it covered by water.

William Brand Laid At Rest
Many Friends Attended Funeral Service Yesterday Afternoon From Grenville Court Chapel

Numerous friends gathered at the Grenville Court Chapel of the B. C. Undertakers yesterday afternoon for the funeral of the late William Brand, well known fuel dealer and transferman, whose death occurred at the first of the week.

Rev. C. A. Wright, pastor of First Baptist Church, officiated and Miss M. A. Way presided at the organ to accompany the hymns which were "Abide With Me" and "Lead Kindly Light."

Interment in the family plot in Fairview Cemetery followed. Pallbearers were J. A. Lindsay, Victor McZies, William Miller, Norman McLeod, George Weightman and Aid. Robert McKay.

GOOD YEAR IN CHURCH

Baptists in Satisfactory Condition, Annual Meeting Hears

The annual meeting of First Baptist Church was held in the church parlor Wednesday evening when the various organizations of the church reported on a good year's work. The church clerk, Miss Kay Watson, reviewed the general progress of the affairs of the church during 1942. This showed a healthy condition in all departments but with challenging opportunities facing the present year. Mrs. P. H. Linzey, the church treasurer, reported that all bills had been paid and a small balance was on hand.

C. H. Elkins, for the finance committee, reported on the renovation and redecoration of the church which had been done during the year at a cost of about \$700. There was need of more to be done on the exterior.

Ald. H. M. Daggett paid a tribute to the work and leadership of the pastor, Rev. C. A. Wright, who came to Prince Rupert a year ago and whose untiring efforts have been crowned with success.

Rev. C. A. Wright urged upon the members to seriously consider the great opportunities facing the church and the need for each member to endeavour to enlist the interest of the citizens in the great work of Christ and the Church.

Mrs. James Greer reported as Envelope steward, Mrs. P. H. Linzey for the Ladies' Aid, Miss M. Armstrong for the Sunday School, Mrs. R. Walker for the Mission Circle, Miss Vivian Wrathall for the Baptist Young People's Union, and Miss K. Watson for the C.G.I.T.

The following officers were elected for 1943:
Deacons—P. H. Linzey, H. M. Daggett, A. D. Ritchie and P. Kelly.

Treasurer—Mrs. P. H. Linzey.
Church Clerk—Miss K. Watson.
Envelope Steward — Mrs. J. Greer.

Organists—Mrs. J. C. Gilker and Miss K. Watson.
Finance Committee — C. H. Elkins, A. D. Ritchie, P. H. Linzey, H. M. Daggett and P. Kelly.

Local Girl Is Airman's Bride

Miss Beatrice Thompson and Corp. Guy Mayhew Are United

A pretty wedding of local interest was solemnized last evening at the home of Mr. and Mrs. C. K. Ytreberg, Second Avenue West, when Miss Beatrice Flora Thompson became the bride of Corporal Guy Kenneth Mayhew, Royal Canadian Air Force, Adjutant E. A. Brunson officiated.

Miss Marjorie Woodgate was bridesmaid while Bernard E. Curry, R.C.A.F., attended the groom. The bride wore a frock of medium blue triple sheer crepe with corsage of pink roses. The bridesmaid wore Air Force blue crepe with corsage of pink carnations.

During the signing of the register Mrs. Brunson and Mrs. C. K. Ytreberg sang, "The Lord Is My Shepherd."

Some fifty guests were gathered later at a reception to extend the happy couple the best for the future.

Corporal and Mrs. Mayhew will reside at 619 Sixth Avenue West.

MANGABEIRA RUBBER?

RIO DE JANEIRO, Jan. 15 (AP)—United Nations need for rubber has led to research in the field of elastic producing plant hitherto virtually untouched in Brazil—the mangabeira.

BONFIRE GREETING

HALSINGBERG, Sweden, Jan. 15 (AP)—Citizens of this Swedish west coast area lit huge bonfires on the shore in the recent holiday season to mark their greetings to German occupied Denmark, across the waters of Oresund.

EARLY STABLE
Digging through 50 feet of Russian scientists uncovered stable dating from the Bronze containing the well-preserved bodies of 10 horses, saddled and bridled.

SHADOWS OF SMOKE DEPICT JAP DISASTER

U.S. plane is silhouetted against the morning sun while four Japanese transports burn briskly on the beach below. Of a huge force of auxiliary and combat vessels the enemy tried to bring down from the north to reinforce the garrison on Guadalcanal only these four reached the island, and they became the target for American guns and aircraft.
