Allies Continuing Sicilian Advance

IMPORTANT DAMAGE IS INFLICTED

Rome is Reported to Have Made Protest—Details of Havoc Released

LONDON, July 20 (CP)—Allied headquarters described Monday's aerial assault on Rome as an "outstandingly successful operation" and disclosed officially that more than five hundred bombers carried out the raid with loss of five planes. Aerial reconnaissance showed heavy damage to all targets and an American communiqué from Cairo said that the Littorio railroad yards were destroyed. Severe damage was caused to vital San Lorenzo rail yards while parked aircraft and hangars were destroyed at the Rome air-drome.

Berlin radio said today that the Pope had protested to Prime Minister Winston Churchill and President Franklin D. Roosevelt against the Allied attacks on Rome.

Berlin also said that an air raid alarm sounded in Rome Monday night but the city was not attacked.

Rome radio claimed that buildings sacred to faith and science were damaged in Monday's raid and 166 persons were killed with 1650 injured.

Allied headquarters in North Africa said that more than five hundred American bombers participated in Monday's raid on Rome and freight yards at San Lorenzo and Littorio railroads were heavily bombed. Aerial photographs indicated that Littorio yards were completely destroyed. Five American planes were lost. The Tabonelli steel plant and a large chemical works were damaged.

According to a report from Stockholm today fires were still burning in Rome early Tuesday following the Allied raid on military objectives there and all the population of the Italian capital not essential to its activity has been urged to evacuate the city. Rome dispatches to the Swedish press gave this information. At the same time a Nation Broadcasting Company broadcast from New York said that five hundred planes took part in the Rome raid and that all returned safely from the raid. The famous General James Doolittle was said to have been in command of the raid.

Ultimatum Is Before Council

Communication Threatening Stoppage of Motor Vehicle Transportation Is Filed

With passing comment, the city council last night received and filed an ultimatum from local motor transportation concerns that, unless improvements to the conditions of city streets are affected, transfer and delivery trucks will be tied up as from September 1.

Ald. Brett suggested that Mayor Watts might take the communication along to Ottawa with him.

On motion of Ald. Sorensen, seconded by Ald. Daggett, the communication was filed for future reference.

RED ATTACK IN NORWAY?

LONDON, July 20 (CP)—The Berlin radio claimed today that a Russian amphibious force has attacked the coast of Varanger Fjord in the extreme north of Norway. The attack was beaten off, Berlin claimed.

EISENHOWER VISITS CANADIAN TROOPS IN SICILY

General Dwight D. Eisenhower, Commander-in-Chief of Allied Forces in North Africa, pays his respects to the Canadian officers and welcomes them to his command. (Signal Corps radio telephoto through W. I. B. and Canadian Army Public Relations).

Sick Leave For Civic Employee

Policy Decided Upon by City Council at Meeting Last Night

The city council, at last night's meeting, adopted a policy, retroactive to June 1, whereby civic employees will be entitled to 12 days' sick leave each year, the leave not to be cumulative from one year into another.

The matter was brought up through consideration of the case of Thomas Harvey, garbage truck driver, who had been ill and who had served notice that, unless he was given sick leave pay, he would leave the service of the city.

The question, Mayor W. M. Watts said, was over and above annual holidays. A matter of policy was involved which might as well be settled upon.

After considerable discussion, the decision to allow 12 days' sick leave per year was made to be retroactive to June 1 to cover the case of Mr. Harvey.

Brief to Ottawa On City Streets

Reports of City and Federal Engineers Provide Basis

The co-ordinating committee reported to the city council last night that a report had been received from the City Engineer outlining necessary repairs to roads, sewers and water system. A brief has been compiled for submission to Ottawa by Mayor W. M. Watts embodying the engineer's report and the report of W. G. McKay, engineer for the Department of Pensions and National Health.

The civic co-ordinating committee met recently with Lieut. Smetzer of the United States real estate department and it was agreed that all leases, with the exception of the Acropolis Hill area, be consumed at an annual rental of six percent of assessed value. It was not possible to arrive at an amicable settlement on the cantonment area and this has been temporarily left in abeyance.

KURILES BOMBED

Big Japanese Base at Paramushiro Attacked by U.S. Planes

WASHINGTON, D. C., July 20 (CP)—The Navy Department announced today that heavy bombers, winged over the Japanese side of the North Pacific, had bombed the enemy base of Paramushiro on the northernmost tip of the Kurile Islands, starting fires and scoring hits on shipping.

The announcement did not say how many planes had made the attack. They, apparently, operated from the American base at Amchitka.

Chlorinating Equipment Is On Way Here

Equipment to be used in connection with the project of chlorination of the city water supply is now on the way here with the suggestion that the city should take early steps to install same. This was revealed at last night's meeting of the city council and the matter was referred to the co-ordinating committee. The chlorinating equipment was ordered by a previous administration.

Doctors Arrange Attendance At Eventide Home

Following a discussion held with Dr. Hankinson, representing local doctors, the health committee recommended to the city council last night that the city enter into an arrangement with the doctors to care for relief recipients and inmates of the Eventide Home on the basis of rates allowed under the Workmen's Compensation Board the doctors to care for this work in rotation. The report was adopted by the council.

In some species of shark, the eggs are hatched within the mother's body.

Fined Under Excise Act

An element of variety in the charges at the city police court yesterday relieved the monotony of the usual routine procession of drunks arraigned there daily, although there was one of them on the docket too.

Two soldiers, Joseph Shumaker and Herbert Clifford Redfern, apprehended in the enterprise of operating an illicit still, were so charged under the Dominion Excise Act and each fined \$100. The locale of their operations was a house on Ninth Avenue.

A taxi driver, who in the best Dick Whittington manner, made a U-turn at an intersection where such manoeuvres are forbidden, was warned by Magistrate Vance and the charge against him dismissed.

A fine of \$25, or seven days in jail, was levied against Svan- to Johnson, charged with being intoxicated.

GETS NEW RAIL JOB

Alan Beardshaw General Superintendent of Motive Power At Winnipeg

WINNIPEG, July 20 — Alan Beardshaw of Toronto has been appointed general superintendent, motive power and car equipment, western region, Canadian National Railways, according to announcement by W. R. Devenish, vice-president and general manager. Mr. Beardshaw succeeds John Kyle, retired after a railway career of half a century.

Born in London, England, Mr. Beardshaw entered Canadian National service at Toronto in 1912, going to Sarnia, a few months later. He went to Regina in June 1913 where he remained nearly a year. After several months at Transcona, he went to Mimico, Ontario, and then to Richmond, Quebec, where in January 1915 he became locomotive foreman.

Mr. Beardshaw was with the Royal Navy from January 1916 to March 1919 and on his return became assistant foreman at Turcott, Quebec. Shortly afterwards he was promoted to locomotive foreman. In 1935 he went to Toronto as superintendent of motive power and car equipment, holding this position until his present appointment.

THEATRE ENDORSED

Paul Aivazoff Gets Approval From City Council for Project

The city council last night went on record as supporting the application of Paul Aivazoff for a federal permit to establish a new theatre in Prince Rupert providing there is an undertaking that the project does not become part of a local theatre monopoly. Mr. Aivazoff, who appeared in person before the council in support of his application for endorsement, gave assurance that it was his intention to operate the theatre personally and independently—indeed he was returning to Prince Rupert to assume the management himself.

Mr. Aivazoff, in his application, stated it was proposed to erect the theatre in Block 34, section 1, on the south side of Third Avenue between McBride and First Streets. There would be no connection with other theatre interests. Mr. Aivazoff spoke of his plan to use in the erection of the theatre a building material which would require only ten per cent of essential war materials and would cut the labor requirement by 50 per cent. He sought from the council a letter declaring the essentiality of a new theatre here.

Ald. Thomas Elliott, favoring the building of a new theatre here, regardless of who was responsible for its erection, moved that Mr. Aivazoff's project be supported. Ald. T. H. Sorensen seconded.

Ald. W. H. Brett wanted to know what would be the hook-up of the new theatre. He did not think the council would like to see a monopoly. He agreed, however, in the need for a second theatre.

Mr. Aivazoff gave assurance that it would be an independently conducted theatre which he was returning to Prince Rupert to operate himself. It would not be a Famous Players-Canadian Corporation house.

There would be full compliance with the city building by-laws, Mr. Aivazoff said in answer to Ald. George Hills.

Ald. H. M. Daggett felt that there should be a proviso that the new theatre would not be controlled by monopolistic interests. Ald. Brett seconded Ald. Daggett's amendment to "this effect."

The amendment was carried with Ald. Elliott, Ald. Sorensen and Ald. McKay voting against it.

A further application from Mr. Aivazoff for permission to lease twenty-five feet of property to the rear in case three lots on Third Avenue between McBride and First Streets are used as the site was referred to the finance committee. If five lots are obtained and the theatre built longitudinally to Third Avenue this extra twenty-five feet will not be required.

Public Liability Insurance Being Taken On By City

In view of the risks of increased traffic and population as well as the present condition of city streets, the city council last night decided to protect itself against possible claims for death, bodily injury or property damage by taking on public liability insurance.

A policy will be taken on at an annual premium of \$487.20 providing for payment of up to \$5000 to one person and \$10,000 for two or more.

The insurance is being purchased from S. D. Johnston Co. Ltd.

QUININE CINCHONA

Quinine is extracted from the bark of the cinchona tree.

MAY FIGHT JAPS FOR SIX YEARS

American Admiral Sees Long Struggle Ahead

WASHINGTON, July 20 (CP)—Vice Admiral Frederick Horne said today that the American Navy is planning for the war against Japan to last at least until 1949. Horne said that the Allies still have "tremendous distances to go in the Pacific and we have to build bases from the ground up as we advance."

REFERS TO CANADIANS

"At Earliest Possible Date" Will Give Official Word on Canucks in Sicily

LONDON, July 20 (CP)—Prime Minister Winston Churchill told the House of Commons today that, despite some possible security objections, General Eisenhower has agreed to a Canadian request that "at the earliest possible date" official reference would be made to the Canadian forces taking part in the invasion of Sicily. Since then, the Prime Minister said, "fullest tribute has been paid in all public statements here and elsewhere to the valiant and successful part that the Canadian First Division is taking in the enterprise."

ADVANCING ON MUNDA

United States Forces Are Still Making Headway

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, July 20 (CP)—United States forces have made a limited advance in their attack on the Japanese air base at Munda, New Guinea. Allied headquarters announced today.

Allied progress in the Salamaua area of New Guinea was also achieved after sharp fighting. More than 225 Japanese are dead.

PLAN WORK ON STREETS

City to Undertake Limited Improvements on Second and Third Avenue Surfaces

The city council last night decided to proceed with the carrying out of some improvements in the way of patching up holes on second and Third Avenues pending some settlement of the issue with the federal government over responsibilities for the damage which has been done to the streets by excessive use of military and contracting vehicles.

The matter was brought up by Ald. Elliott who, after some discussion, moved that the city itself carry out some work on these two streets. It was emphasized that it would be impossible for the city to undertake a program of any other streets. It would be useless to throw rock into holes without some binding. Ald. McKay, chairman of the board of works, pointed out. There was also the question of where the crushed rock was to come from in view of the fact that the city now had no crusher.

ANCIENT GLACIER

Remains of the ancient glacier age can still be found in Glacier National Park, Montana.

Canadians Encounter Stiff Resistance But Move Ahead Steadily

Many Evidences of Mutinies by Italian Troops Commanded by German Officers in Western Sector

ALLIED HEADQUARTERS IN NORTH AFRICA, July 20 (CP)—Allied headquarters announced today that Canadian and American troops continued to advance in the central and western sectors of the Sicilian front. General Gulo Porcinari, commander of the Fifty Fourth Naples Division, was captured in Sicily, the fourth Italian general there to fall into Allied hands. The Canadian First Division in the central sector encountered strong opposition during its advance but the Canadians continue to fight their way forward, a communiqué said.

In Eastern Sicily the British Eighth Army battled against desperate efforts of the enemy to save Catania.

Allied headquarters said "there are many indications of mutinies by Italian troops commanded by German officers" in the western sector.

American troops reported little resistance in the west where hundreds of the enemy have been giving themselves up.

Milk Ration In Britain Is Reduced

LONDON, July 20 (CP)—The weekly liquid milk ration will be reduced from three to two-and-a-half pints beginning August 4, the Ministry of Food announced today.

Contracts For Wood Are Made

Deliveries of Fuel are About To Be Made to City, Council Hears

Ald. Daggett, chairman of the special fuel committee of the city council, reported to the council last night that two contracts were being entered for the delivery of wood to the city which will in turn become available to the public. Supplies of this wood would soon be available through the city yard. "After some months of work, the committee now seems to be meeting with success," Mayor W. M. Watts remarked.

Visiting Outfit Must Pay \$1000 Fee In Licence

If the Crescent Canadian Shows come to Prince Rupert this year they will be required to pay a licence fee of \$1,000 for a week. The city council last night reaffirmed a previous decision to this effect after receiving a wire from the manager of the show, Henry Meyerhoof, who considered that such a fee was exorbitant and would make it impossible to show here.

The census of the council was that a previous fee of \$20 was not adequate in view of the type of entertainment provided and the large amount of money that was taken out of town.

On motion of Ald. McKay, seconded by Ald. Arnold, it was decided to insist on the \$1,000 licence fee.

Tonight's train, due from the east at 10:45, was reported this afternoon to be six hours late.

SUPPLIES PURCHASES

Notice of Motion of Ald. Daggett Deferred by City Council

A notice of motion of Ald. H. M. Daggett in regard to the regulation of purchases exceeding \$50 in value of materials, supplies or equipment for use of civic departments came up at last night's meeting of the city council and, after some discussion, was withdrawn by the mover for another two weeks for redrafting including some modifications suggested by other members of the council.

In the making of purchases of some standard commodities the sources of supply of which were restricted it was felt that it should not be necessary to advertise for tenders on each purchase over \$50.

Ald. Daggett's notice of motion was as follows:

That, in the purchase of any material, supplies or equipment for the use of any department of the Corporation of the City of Prince Rupert or in the awarding of any contract for any work required by the Corporation which shall entail an expenditure in excess of \$50 tenders shall be called for the supplying of such materials, supplies or equipment and for the performance of said work by advertising in the local press for at least one week and the posting of a notice to this effect on the bulletin board in the City Hall and, if deemed necessary, by also advertising in the press of other cities or any other method that may be required.

"And further, that all tenders received shall be submitted to the city council at a regular or special meeting duly called, said tenders to be opened at such meeting and immediately referred to the proper committee and department head for recommendation.

"And further, that, if at any time an emergency shall arise, whereby materials, supplies or equipment is required, or if the immediate carrying on of some work is considered absolutely necessary the council may, by a two-thirds vote of all its members at a regular or special meeting duly called to consider the emergency, authorize the committee and department head concerned to proceed with the immediate purchase of materials, supplies or equipment required or enter into a contract for the performance of such work as an emergency measure without complying with the above requirements as to advertising."

To Manitoba For Burial

The body of the late William Church, who was killed at the dry dock last week, is being forwarded today to Swan River, Manitoba, for burial. Members of Mr. Church's family who are in Prince Rupert are accompanying the body on its return.

DAILY EDITION Tuesday, July 20, 1943

Allied Teamwork . . .

Brilliant teamwork in both tactical and strategic fields is the key to the good news flooding in from Sicily and Russia—from every front. The co-ordination of Allied sea, land and aid forces in Sicily is only the most spectacular feature of an unfolding pattern.

Add the co-operation of British, American and Canadian armies. General Montgomery's desert-hardened Eighth Army is spearheading the drive up the east coast in record time. The Canadians, long eager for action, are pushing ahead in the centre of the Allied line. General Patton's specially trained Seventh Army forms the left flank.

Too apt to be underrated is Russia's mighty army, grinding up German strength along a 1,500-mile front. It is worth noting that the attack on Sicily began just four days after the Orel-Kursk-Belgorod line flamed into what must be one of the greatest battles of the war.

The Axis hope has been to divide and conquer. The United Nations have appeared divided and condemned to operate on outside lines. But now they are strong enough to attack from all sides at once. The effect is to divide Axis strength, particularly the German, which is spread from Norway to Greece, Russia to Spain. And in the Mediterranean, especially, sea transport may afford the Allies greater mobility than the Axis. They could, for instance, move forces from Tunisia into Greece or southern France quicker than the Nazis could from Sicily or southern Italy. A right purpose has given the United Nations moral unity and developed military teamwork which is turning physical divisions into a positive advantage.

Possibly the people of Italy are at last beginning to realize who their real enemies are.

Permanent Forest Industry . . .

A publication in Eastern Canada is taking a poll of representative Canadians with a view to receiving suggestions as to what steps the provincial and federal governments should take now to maintain a permanent forest industry.

From a long range viewpoint, the ultimate crisis in the forest industry which it might be considered necessary to guard against will not be one of obtaining markets for lumber and other forest products. Demand for these products will always exist, it may safely be assumed. The crisis, if one ever does develop, might be expected to be one of supply of the desirable natural product—that is suitable timber.

Forestry experts have already warned us that the end of the supply of Douglas fir is already in sight. The islands and coastline of British Columbia are being likewise stripped of their Sitka spruce. In other words the timber is being used up without making of due provision for perpetuation of supply.

The answer is simple enough—the utmost conservation of existing supply and a policy of reforestation to ensure future supply.

Prince Rupert people are not so much interested in who provides the new theatre as they are in having one provided by somebody.

Why Worry? . . .

Our forefathers existed without—
Sugar till the 13th century.
Coal fires till the 14th.
Buttered bread till the 15th.
Potatoes and tobacco till the 16th.
Coffee, tea or soap till the 17th.
Puddings till the 18th.
Gas, matches, or electricity till the 19th.
Automobiles and tinned goods till the 20th.

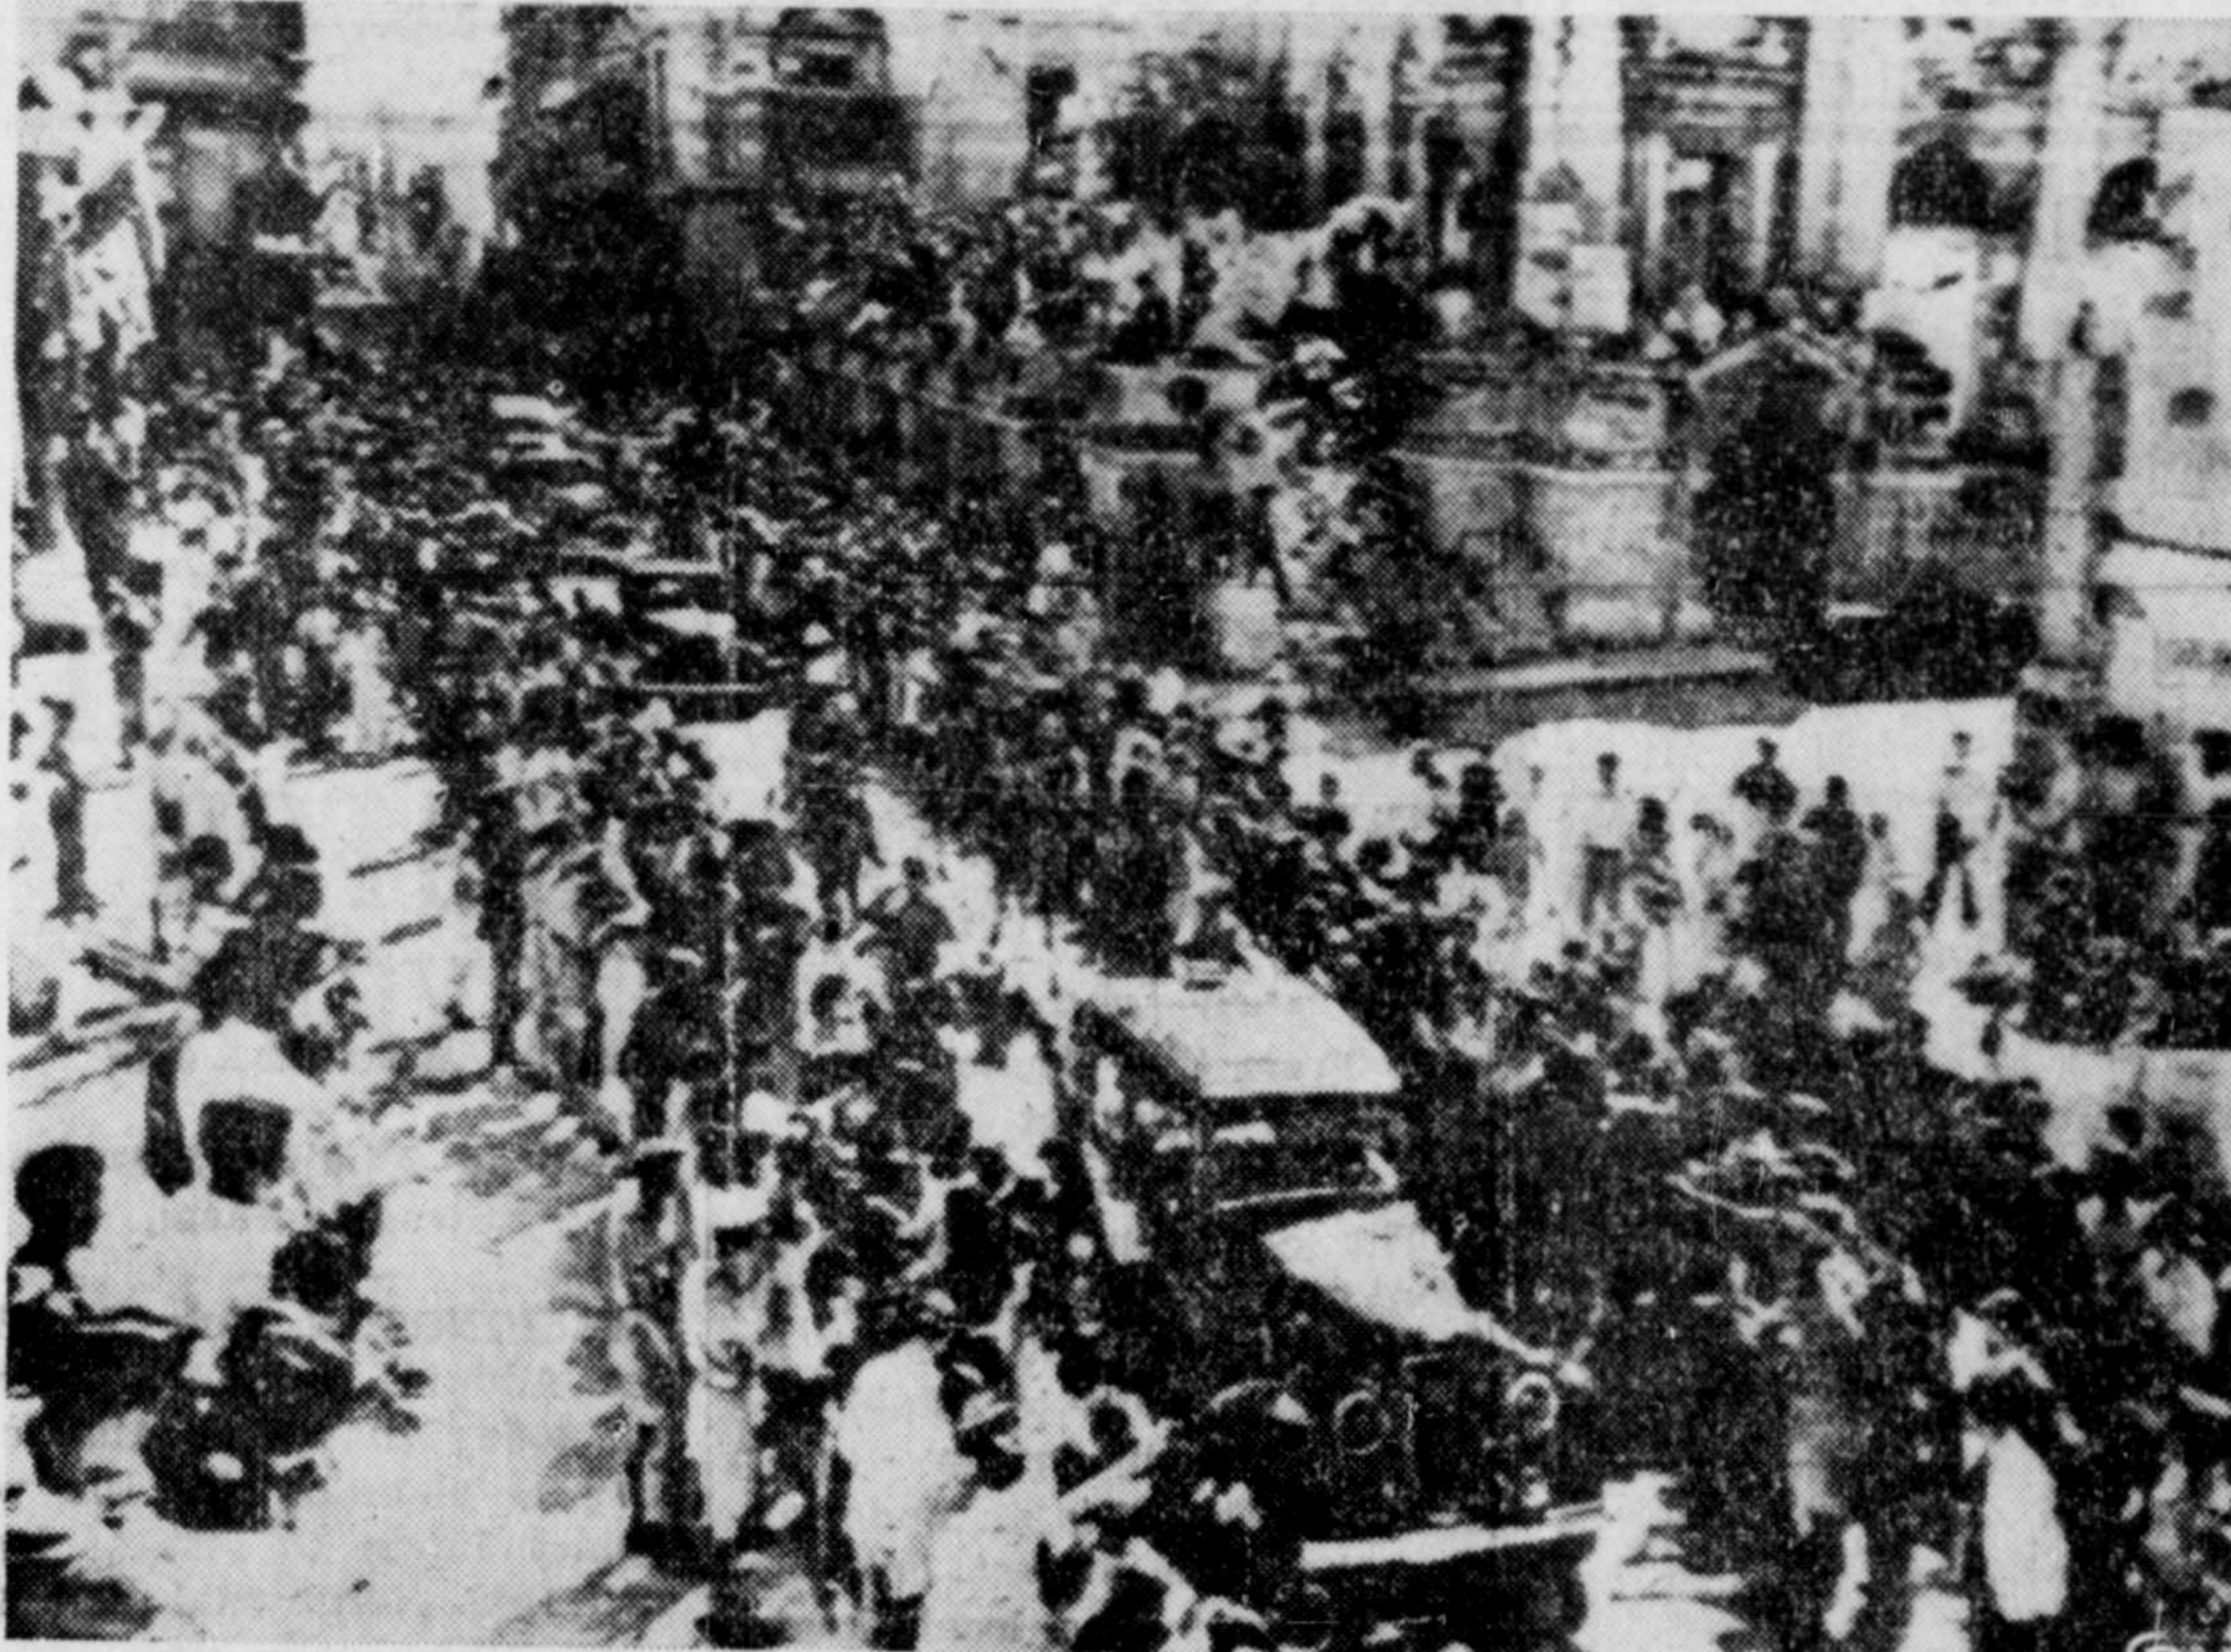

So why worry over rationing or shortages? The old boys managed to get along fairly well.

CROWDS CHEER WILDLY AS KING VISITS MALTA

Cheering crowds of the gallant defenders of Britain's "unsinkable aircraft carrier." The island of Malta cheer wildly as King George of England drives down Kingsway, at Valetta, during his visit to the island which he previously honored with presentations of the George Cross. The King is now back in England.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARBUTT
The Hostess

Another call for wringers has come in—a real distress signal this time. I have mislaid the earlier list of those who have wringers for the boys but I think most of them were taken the last time and I can use a few more names. They were so much appreciated.

I was reminded of that popular song "I Came Here to Talk for Joe" when a young airman was making, or trying to make, a date for himself over the phone. It seems his pal couldn't get off for the date he had and our airman was talking for Joe

and talking fast but it didn't do him any good I'm afraid.

Can't say there isn't plenty of entertainment in town for the service boys now. We notice the difference at our Hut on movie nights and especially Sunday afternoons. Here is what is offered and I think it really is something. There are five shows a week at the Navy drill hall. These are all very recent releases and are 35 millimeter films. The Famous Players give a free Sunday afternoon show for all service personnel and the "Y" puts on movies three times a day, three times a week. Besides that there are now three regular weekly dances, so that is quite a program, nicht wahr? My mistake, there's a war on, n'est-ce pas?

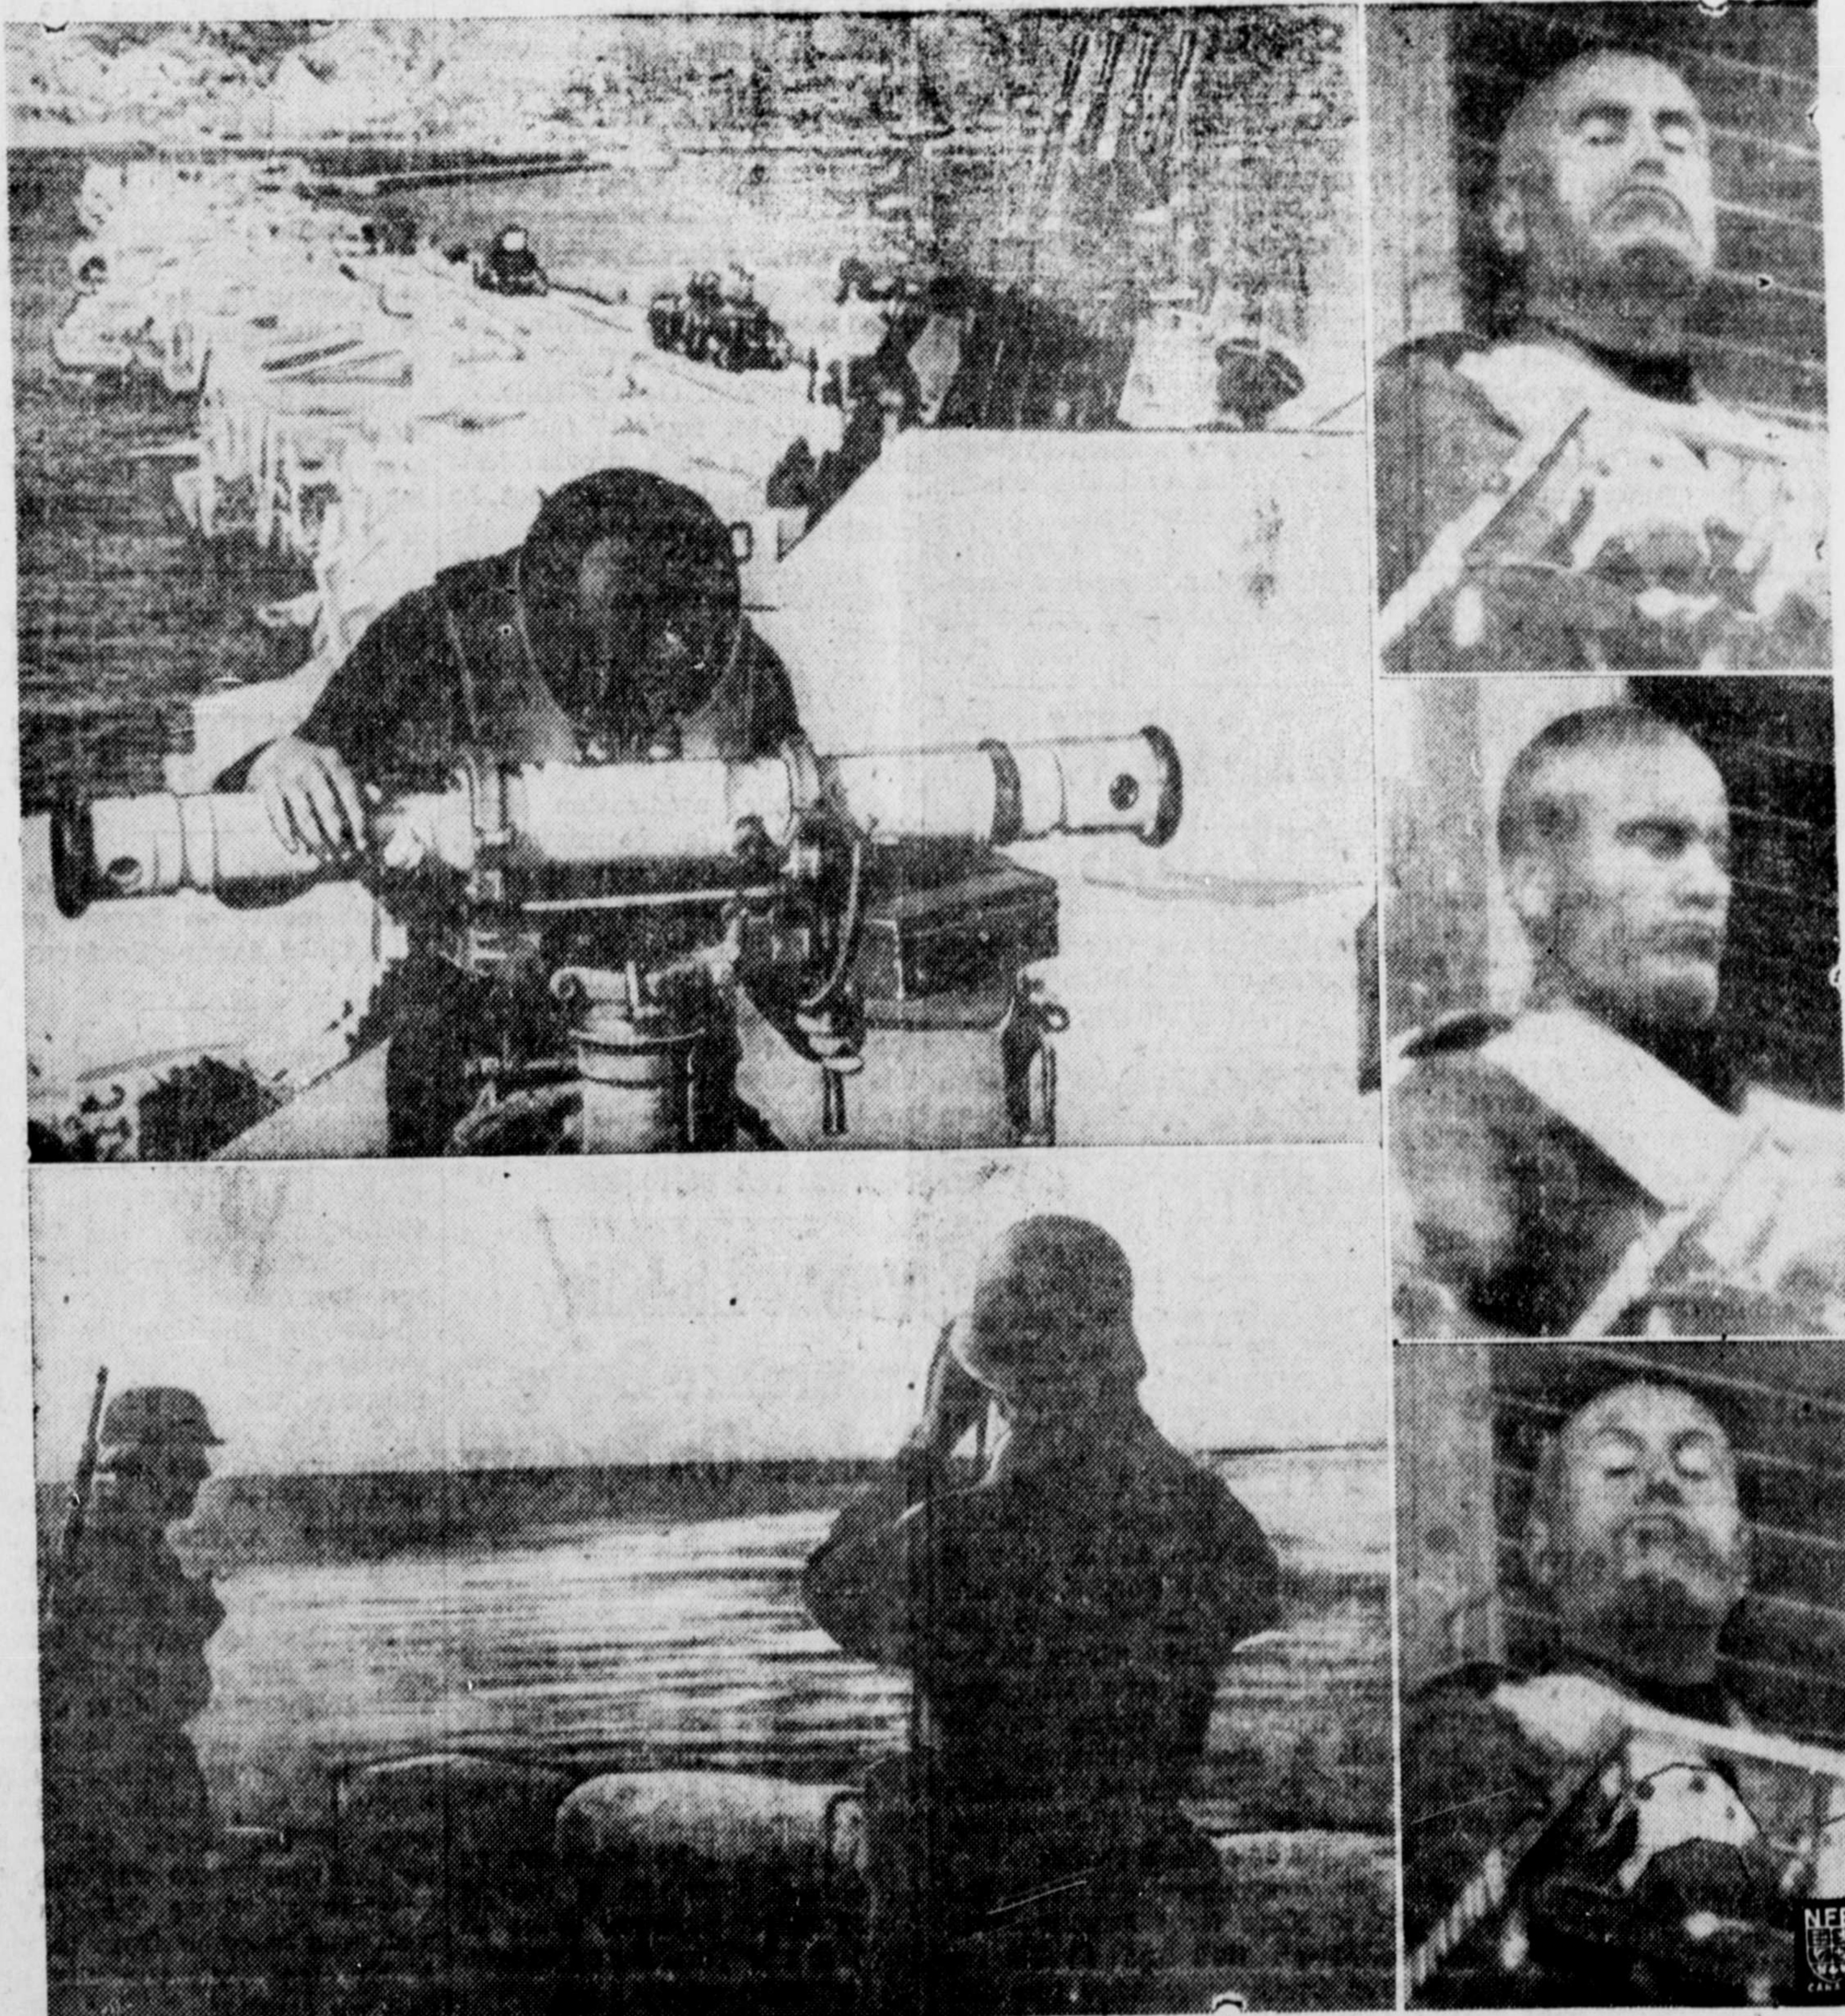

Now what this town needs besides a good five cent cigar and a couple more restaurants is a little more entertainment for

the civilian war workers. These boys work hard and there is only the one show in town for them. I suppose I shall be drafted south for saying it but I do know that in the Old Country they have concert party troops entertaining the war workers in their rest periods, and noon hours. Fun for all workers and then all work will be fun.

A nice long letter from Clifford "Red" Humford arrived today. Shall quote tomorrow.

Film Heralds Attack on Italy

Forecasting the exact assault coast for the invasion of Europe by the Allied forces, the current National Film Board release "Gates of Italy" has treated historically and militarily the potential power of Italian resistance. From enemy film (top) "Gates of Italy" shows a portion of the defences of the Italian coast. Uncertain of Italy's fighting resistance in case of invasion, her cohort, Germany, had sent Nazi troops into Italian territories to bolster the defence strength against inevitable attack.

Above, from a shot in the National Film Board production, Germans are seen looking outward to the Mediterranean horizon, watching, waiting for the Allied invasion move that came a few days ago. Benito Mussolini (right strip) hasn't time for balcony speeches today. With the impact of the war having finally struck the boundaries of his Fascist Italy, he is feeling the effect of the boot this time on the Allied foot.

The Experts Say - - -

Summer season pointers for busy housewives:

GOOD DESSERT — Here's a recipe which Laura Pepper, of the Department of Agriculture, considers of the easiest and best she has run across in a long time. It's for a strawberry whip. To make it, put one egg white and 1 1/4 cups of hulled strawberries into a bowl and whip them up with a rotary egg beater. When the mixture begins to thicken, beat in one-quarter of a cup of sugar, adding it gradually and continuing to beat until the mixture will hold a peak. Five minutes should do the trick. Then add a few drops of lemon juice, chill, and pile into sherbet glasses. If kept in a refrigerator the whip will hold its shape for as long as three hours. If housewives use this mixture as a finish to their strawberry shortcakes, says Miss Pepper, there'll never be a sigh for the whipped cream topping of former years.

SALADS FOR SUMMER — With Victory Garden crops coming along, there'll be no lack of salad ingredients, and salads should be served daily during the summer months, says Marion Harlow of Nutrition Services. Spinach, peas and beans—when they are young and tender—all may be used raw in salads, and all kinds of other vegetables may be used in this form as well, thus contributing their full quota of vitamins and minerals.

DAILY DRIPPING — Canada's laundries are short-handed and suffering from a shortage of experienced help. In addition they are catering to the needs of the armed forces, and the fact that many laundries in congested areas is proof of the tight situation that exists. Byrne Hoep Sanders, director of the prices board's consumer branch, asks housewives to help by washing small things at home. Next time the family laundry bag is emptied, handkerchiefs, pot hold-

ers, face cloths, doilies, tea towels, small tray cloths, bureau covers and even pillow cases might well be pilled out and washed at home. Any measures the housewife can devise to lighten the laundries' load will do much to help keep the big tubs turning.

CANNING CORNER — If an air space is found at the top of a jar after sealers of fruit or vegetables have been processed, it will in no way affect the keeping quality of the contents. After sterilizing, a sealer should not be opened unless it is found to leak. If a leak is found, the sealer should be opened and the glass lid and rim examined for cracks or chips. If there is no fault in the sealer, replace the rubber ring with a new one, partially seal and re-sterilize, allowing one-quarter of the original processing time. Should a sealer be found faulty, it is better to use the contents immediately, as otherwise it would be necessary to re-pack them in another jar and re-process them for the full length of time; this would result in overcooking and an unattractive product.

ADMITS HE CAN COOK — WIMBLEDON, England, July 20 — Sgt. G. L. Waters was chef for the King when His Majesty visited the 8th Army in Africa. At her home here, his wife was pleased to hear of her husband's meeting with the King and said, "G. L. was such a good cook he hardly ever let me cook a meal at home before the war."

LAUREL AND
HARDY HERE

Star in New Hilarious Film as
"Air Raid Wardens"

Stan Laurel and Oliver Hardy return to the screen in a series of most comical adventures in "Air Raid Wardens," coming Wednesday and Thursday to the Capitol Theatre. Their mishaps enable them to poke fun at themselves, without detracting from the importance of the service they represent.

Turned down by the armed forces, the partners become wardens. Their blunders in first aid, in which they truss Howard Freeman up and almost kill him, don't help their situation any. Then they run afoul of Edgar Kennedy, who refuses to co-operate in a blackout, in a hilarious routine that gets them thrown out of service. But when they fall into the hands of a gang of saboteurs, headed by Henry O'Neill, they blunder for once into the correct thing to do and emerge as heroes.

Jacqueline White, new screen beauty, and Horace McNally provide young romance. Funmakers include Donald Meek and Nella Walker.

Trailers In
Prince Rupert

Missionary, Unable to Obtain
House, Asks for Permission
To Live in One

The question of permitting residence in automobile trailers came before the city council for the first time last night when an application from F. T. Balmer, pastor of the Seventh Day Adventist Church, that he be allowed to take up such residence in view of the fact that he was unable to obtain a house in which to live. Mr. Balmer would park his trailer on Eleventh Street if permission were granted. At present there is no provision in the city bylaws covering trailer residence. The matter was referred to the health committee.

Prince George

Prince George's new radio station CBRG will go on the air for the first time about August 15. The announcement was made by F. B. C. Hilton, chief operator for the Canadian Broadcasting Corporation, Vancouver. Mr. Hilton is now in Prince George to supervise the installation of the 730-kilocycle relay transmitter in the basement of the post office. Complete CBRG programs will be heard over CBRG from 8 a.m. to 11 p.m. when the station goes on the air a month from now.

The Prince George Rod and Gun Club is now feeding about 90,000 Kamloops trout fry at the hatchery located on C.N.R. property at the mouth of the Nechako River. The young fish arrived two weeks ago and are destined for distribution in the various nearby lakes where Prince George fishermen angle.

The fact that six people shared in the first prize of the Prince George Rotary Club's Fraser River Barrel Sweepstakes caused the winner of second prize to get more money than any of the first prize winners. The barrel took 47 hours 59½ minutes to travel from Dome Creek bridge to the steel bridge at Prince George. Six people guessed that it would take 48 hours and they shared equally in the \$300 first prize. They were H. Sarge, Prince George, Janet Newman, Prince George, E. Jaack, Penny, Mrs.

J. Reimer, Giscome, T. Tumbley, Prince George, and H. Hall, Prince George. Second prize of \$100 went to Mrs. H. Withiam, Prince George.

Cariboo Greyhound lines have purchased the I. T. Stages from Clarence Stephenson and Norman Glover, who have been active in interior highway transportation circles for 35 years.

Cash prizes amounting to nearly \$900 are offered to competitors at the 28th annual Prince George Fall Fair to be held in the Civic Arena, Tuesday and Wednesday, August 24 and 25. Printing of prize lists has been completed and they are now being distributed to intending competitors.

Mr. and Mrs. Elmer F. Little left last week for Vernon, where Mr. Little will take over the duties of provincial government agent.

ROYAL DUCKS STOP
TRAFFIC

LONDON, July 20 (C)—A mother duck and her family of ducklings stopped traffic when the mother escorted her youngsters from the grounds of Buckingham Palace to the lake in St. James Park for their first swim.

OMAR'S BOOK PURGE

The great library of Alexandria was burned in 640 by Amrou, on the orders of the Caliph Omar.

NOTICE TO LANDLORDS

Whenever you make a new lease, or renew a lease, whether in writing or an oral agreement, involving a change of tenant, a change in rental, or a change in the services or accommodation to be supplied,

You are required, at the same time, by Order No. 108 of The Wartime Prices and Trade Board, to give the tenant a signed statement, using a printed form (R.C. 40) supplied by the Wartime Prices and Trade Board. This statement must show the maximum rental for the accommodation concerned, and other information prescribed.

You are also required, within ten days, to forward a signed copy of this statement to the nearest Regional Rentals Administration Office.

Penalties are provided for failure to comply with this Order.

These forms are available at all offices of The Wartime Prices and Trade Board.

WOMEN PRAISE OUR EVERY DAY
LOW PRICES!

So many women are tired of the old scheme designed to lure them in to buy that they are unstinted in their praise of our policy of presenting every item in our store at Prices, instead of the customary few "bait" prices that are advertised again and again! In the long run you save more at THE VARIETY STORE because you save ALL THE TIME—not just occasionally. Come buy what you need from our stocks of notions, sewing supplies, moth preventatives, closet accessories, many other needfuls, and prove it!
