Normal School Fees Reduced

Will Be \$50 Instead of \$135 It Is Announced

Starting next September Normal School fees will be reduced from \$135 to \$50, it is announced by Hon. H. G. Perry.

This is being done to secure more students at the Normal School and increase the number of teachers so that the public schools of the province may be fully staffed.

There will also be a large number of bursaries available, the minister said, especially to those living in outlying districts who wish to attend Normal School next September.

MOBILIZING OF WORKERS

Regulations On Compulsory Employment Are Clarified

OTTAWA, May 17—Under an Order-in-Council announced by the Minister of Labor concerning the compulsory transfer of men designated under the mobilization regulations from less essential industries the Minister may make an order applicable to any age class liable to military training, forbidding employers in specified industries to continue these persons in their employ after a set date unless a special permit has been obtained.

For the present persons who have their discharge from the armed forces will not be affected by this order but, if they are now engaged in low priority work, they will be encouraged to change to a job of higher priority.

Where applicants are found eligible for high priority work they will be referred to any vacancies available and will not be granted permits to continue in low priority work. In all cases those in the classes liable under the mobilization regulations will have to apply to the nearest Selective Service office and learn if they may continue at their present jobs without special authorization.

One important point of the new regulations is the specification that the selective service officer shall not direct any person to employment which is made available by a work stoppage through a labor dispute.

The penalties for non-compliance with a direction to transfer given by a Selective Service officer provide that such a person will be reported to an Alternate service officer and become liable to service in an alternate work camp on much the same basis as a conscientious objector, except that restrictions as to maximum wages payable to him will not apply as in the case of the conscientious objector.

In commenting on the new regulations Labor Minister Mitchell said: "These regulations will bring about some parity of service between those required to take military duty and those unsuited for that purpose. It will also relieve threatened labor shortages in essential industries."

AIR RAIDS EXTENSIVE

Berlin is Struck Again by Royal Air Force—Industrial Areas Flooded—Rome Close to Fire

LONDON, May 17 (CP) — British bombers attacked Berlin, the environs of Rome, the Ruhr and Rhineland last night and burst two of the largest dams in Germany, flooding the valleys of the Ruhr and Eder. Air Secretary Sir Archibald Sinclair said that walls of Mohne and Eder dams were broken. One had backed up 134,000,000 tons of water and the other 202,000,000. Their destruction constituted a powerful blow to industrial Germany, he said, and described the operation as one of extraordinary difficulty and hazard in which eight big Lancasters were lost. The Germans themselves reported on the Berlin radio that the flood tide took a heavy toll of casualties.

Wellington bombers, roaring in from North African bases and Malta, carried the war close to Rome, battering the seaplane base of Liko di Roma at the mouth of the Tiber, only 15 miles from the Italian capital.

Mr. Selvin was born in Sweden and came to this country as a young man. He followed his trade throughout Canada and the United States for many years before coming to Prince Rupert. He worked on Canadian Pacific Railway stations following completion of their lines and in the Pullman construction shops in Chicago. He came to Prince Rupert from the Yukon.

**EDITORIAL**

DAILY EDITION  Monday, May 17, 1943

**The War Comes Closer . . .**

With American and Japanese ground forces joined in battle on lonely Attu Island of the Aleutian group, the actual fighting of the world war is now brought within fairly close range of Prince Rupert. Major military combat was never closer to us than it is today and it is no wonder that all of us are very keenly interested in the progress of events there. The result of the present operations may have a very direct bearing upon our own degree of safety or danger. Removal of the enemy from that area would, no doubt, reduce the menace here although, as we have remarked before, Prince Rupert cannot and should not feel completely safe until after the last gun in the whole war has been fired and peace has been restored.

No matter what designs the enemy have on us here, and it is very reasonable to assume that we are being taken into account in his plans, we may be satisfied that our defences are vastly stronger than they were not so many months ago and every day are getting stronger and better organized. If Mr. Jap does decide to pay us a visit he will be assured of a hot welcome.

And we might as well—all of us—reconcile ourselves to the fact of a very definite possibility he may come here and govern ourselves accordingly. If we are not all doing something about getting ready for him we should be.

**The Water Situation . . .**

Installation and operation of new booster pumps, it is already intimated, will greatly improve the city's water supply and, what is very important, ensure a more adequate measure of fire protection. For some time now Prince Rupert has been skating on thin ice as far as water for fire fighting emergency has been concerned. It was just fortunate that during that time something serious in this regard did not happen.

Although a considerable improvement has been or is about to be brought about in the local water situation, it will still be necessary for the city to be careful about making arrangements for the dispensation of water and to take precautions against recurrences of a dangerous situation. And in these war days there are extraordinary possibilities that should also be taken into consideration.

**Importance of Roads . . .**

In a cheerful address before the Prince Rupert Rotary Club Thursday, Chief Justice Wendell Farris, who before his accession to the bench was both a prominent lawyer and lumberman, declared that a good road system might be the backbone of the future industrial development of Northern British Columbia. Such a road system, he believed, would bring a great tourist traffic to these parts and would also be a factor in opening up great mining and timbering potentialities. The roads would open up the means of livelihood to the people and be a source of delight, through the beautiful countries they would traverse, to visitors and residents alike.

It was encouraging to hear His Lordship speak hopefully of the war situation and urge at the same time the advisability of commencing to prepare for the post-war era which, he suggested, might have some very real and difficult problems.

The "Y" movies are on a new schedule now and a much better one. There are now three shows each Tuesday, Thursday and Saturday at the following times 2.30, 6.30, 8.30. Later on it is hoped to have a Saturday morning show for the children in town.

The shows listed for this week are:

Tuesday, "Skylark" with Claudette Colbert, Ray Milland and Brian Aherne.

Thursday, "You'll Never Get Rich" with Fred Astaire, Rita Hayworth and Robert Benchley.

Saturday, "Mexican Spitfire Sees a Ghost" with Lupe Velez and Leon Errol.

Pretty good program isn't it?

**SPY FILM ON SCREEN**

A swift and furious spy drama, "Lucky Jordan," with a novel theme, comes to the Capitol Theatre next Monday and Tuesday. "Lucky Jordan," is Alan Ladd's first starring picture. He was previously featured with Veronica Lake in "This Gun for Hire" and "The Glass Key," both smash hits. In "Lucky Jordan," Ladd is supported by a brilliant young newcomer, blonde and gorgeous Helen Walker. Others in the picture are Sheldon Leonard, Mabel Paige and Lloyd Corrigan.

Ladd plays a gangster who tries to put the "fix" on the army when his draft number comes up. When he finally lands in uniform he promptly goes absent without leave, kidnaps a canteen hostess, steals an automobile and heads for the big city. What he doesn't know is that a brief case in the stolen car contains vital military secrets, secrets that his old gang is after for sale to Axis agents. How Ladd at first plays along with the crooks and then suddenly turns patriotic and rounds up the spies for the Federal Bureau of Investigation is the story of an exciting and unusual film.
