"No cause, no country, can be great unless its women work for it"

Madame Chiang Kai-shek

The women of China have risen to the challenge. Leaving their traditional place in the home, they are working and fighting to defend those homes, side by side with their men.

Canadian women have the same duty. They are not being asked to man the guns, but there are thousands of jobs just as essential which they canand should be doing behind the lines.

The fighting men of Canada expect - and have a right to expect - that Canadian women will be just as ready to give up their comfortable way of life for the sterner duties of war.

You don't require special qualifications to enlist in Canada's Armed Forces. If you are between the ages of 18 and 45 (50 in some cases) and are in good health, there's a place waiting for you. Go to any Recruiting Centre and talk it over.

AIR RAID ALARMS

Editor, Daily News: I read in the Daily News Monday an editorial entitled 'Air Raid Alarms." Normally would have passed this without further comment but reference to the A.R.P. authorities compels a reply.

The statement that "the A.R.P. authorities some time ago said that henceforth air raid alarms would only be sounded when it was the real thing" is correct.

Any irregular sounding alarms, for that matter, whether home of Mrs. J. Sikler, Summit regular or irregular, cannot un-

winners were Miss Graham and their significance appears to be Members of the local branch Mrs. Brooks. Occasion was taken in people's minds as to what Controller C.P.C. (A.R.P.), of the Graduate Nurses' Associ- to make a presentation to Miss constitutes an alarm, whether "Imminent Danger" or "Precautionary" or "Return to Precautionary" and "All Clear." These signals have been advertised in the daily papers and pin-ups have been distributed by the wardens at different periods which should leave . no doubt whether an accidental short cir-

cuit was the real alarm or not. The only time the sirens are Friday tested is at midday. The last High sounding of the alarm which asted for about one minute and

vith the "Imminent Danger" the "Precautionary" which in the first case is a rising and falling note for five minutes and in the case of the latter a steady or continuous note for the same period of five minutes. The reason for this false signal was entirely accidental as it was in the previous irregular sounding of the alarm and was not instigated either by the A.R.P. authorities or those who are responsible for initiating these signals.

It is rather too bad that the public and the forces on leave should be disturbed by an unforeseen short circuit in a cable creating, a signal but, if the real thing does come along they should forget the old story of "Wolf, Wolf," as recently used Apartments, in farewell honor to der any circumstaces, be insti- in this editorial and remember
