FIGHT IN CAUCASUS

Another Strong Point Taken From Germans by Russians—On Smolensk Front

LONDON, April 16 (CP)—Red Army troops have captured another German strong point in renewal of active land fighting in the Kuban Delta of the Caucasus, a Russian communique said today. Both the Russians and Germans have reported resumption of a spirited battle in the area north of the German foothold at Novorossiisk on the Black Sea. The Russians said that the Germans tried to recapture a position taken Thursday night by the Soviet but the Nazis suffered great losses. On the Smolensk front the Russians are continuing to improve their positions.

STRIKE IS HELD OVER

American Federation of Labor Agrees to Further Negotiations With Aluminum Company

ARVIDA, Quebec, April 16 (CP)—A threatened strike in the vital plant of the Aluminum Company of Canada Limited was averted Thursday night when the International Union of Aluminum Workers (American Federation of Labor) acceded to a request of a federal mediator to defer the strike ultimatum pending further negotiation.

The Union announcement that it had agreed to the suggestion of a conciliator came an hour after the deadline for a strike the union had set if the company did not agree to vote to determine which of two unions should act as sole bargaining agency for the plant's eleven thousand workers. The company claims that the National Syndicate of Aluminum Workers, with which it has a collective bargaining agreement, still represents most of the workers.

Woman's Body Is Found In Water

Badly Decomposed Remains Washed Up at Vancouver

VANCOUVER, April 16—The badly decomposed body of a woman, so far unidentified, was found in the water off the Indian reserve at the foot of Crown Street last evening. It is believed to have been in the water five or six months.

WATER

Any person drawing water from any connection in the city between 4:30 p.m. Saturday, April 17th, and 8:30 a.m., Sunday, April 18th, will be committing a serious offence against the safety of the whole community. There will be water in the mains but it is absolutely essential to retain this for fire protection. A sufficient reserve of water to carry over this period must be drawn off in containers and if this instruction is not honestly carried out by everybody, the period of shut-off, due to alterations in the water system, may have to be extended at least twelve hours.

SABOTAGE ADMITTED

American Workmen Built Ships Defectively Merely for Reason Of Earning Wages More Quickly

WASHINGTON, April 16 (CP)—J. Edgar Hoover, Federal Bureau of Investigation chief, announced today the arrest of seven men formerly employed as welders on a charge of sabotaging liberty ships being built at the Bethlehem Fairfield (Maryland) Shipyards.

Hoover said that the men "have admitted performing faulty welding in order to finish the work in a hurry and earn more money." He added: "There was no evidence of any Axis direction or sympathy on the part of the welders."

Hoover said that the full extent of the damage was not yet known but many structurally weak ships would have gone to sea if the defective welding had not been discovered.

Many improper welds were in vital parts of the ship and were only discernible through the use of x-ray.

Axis Peace Offer Made

WASHINGTON, D.C., April 16—What was believed to be an Axis-inspired peace offer came from the foreign secretary of Spain today. He offered his services as mediator to end the war. Secretary of State Cordell Hull said there could be no peace without the unconditional surrender of Germany and her junior Axis powers.

ULTIMATUM FROM GOV'T

Premier Godbout of Quebec Demands That Newsprint Company Settle Strike in Its Plants

QUEBEC, April 16 (CP)—Charging Price Brothers and Company Limited with attempting to "starve" the population of Quebec's Lake St. John district, Premier Adelard Godbout on Thursday night issued an ultimatum to the firm to meet the government today to reach a settlement of the strike in three of the company's newsprint mills in that area. Otherwise, Godbout said, the government would introduce legislation to settle the dispute arising from union troubles.

The Premier did not say how the government would settle the dispute but, during a statement in the Legislature, Godbout waved a copy of legislation which he said he would ask the Legislature to pass if the company did not heed the government's invitation.

BIG RAID ON KISKA

All Records Broken for Intensity Of Attack

WASHINGTON, April 16 (CP)—The Aleutians Air Force Command broke all previous records or number of attacks on Kiska in a single day, the United States Navy reported yesterday, when the enemy-held island was raided ten times on Tuesday by both heavy and medium bombers.

The raids exceeded even the total number of attacks in the entire month of February. On Wednesday there were eight more raids on Kiska and considerable damage was done to the enemy installations, fires being left burning in barracks and elsewhere.

British Armies Still Advancing in Tunisia

LONDON, April 16 (CP)—The British First Army has captured the town of Haidis, twenty-six miles west of Tunis, although the enemy are still holding out in the hills. The Eighth Army has made further advances fifty miles south around Enfidaville.

An Allied communique today announced that a series of violent all-day battles raged on heights north of Medjaz el Bab, thirty miles from Tunis, as the Germans lashed out in vain counter-attacks to regain ground won by the British First Army. Dispatches said that First Army infantry had driven to within fifteen miles of Tebourka, key road junction only eighteen miles west of Tunis, in some of the fiercest fighting of the campaign.

Other reports said that the Eighth Army was bringing up big guns to blast through Marshal Erwin Rommel's main defence bulwarks at Enfidaville.

A French communique said that French troops captured over one thousand prisoners and killed nearly one thousand more in attacking the western flank.

Declares Sicily as Military Area Against Possibility of Invasion And Sabotage

CATANIA, PALERMO BOMBED CAIRO, April 16 (CP)—A Cairo communique today said that American heavy bombers successfully raided the Sicilian harbors of Catania and Palermo by daylight yesterday.

LONDON, April 16 (CP)—Premier Benito Mussolini is reported by the Berlin radio to have declared Sicily an area of military operations in an apparent move to throw up defences hastily against expected Allied attack.

This action was preceded by a shake-up of the Italian police which some observers saw as an attempt to deal with potential slackers and saboteurs who might impair the defence of Italy.

Naval Clash Off Sicily

SOCIALLY CHANGED

Judy O'Grades and Colonel's Lady "All Out" in War in Britain

By LEO BRANHAM (Associated Press Staff Writer) LONDON, April 16 (CP)—War has brought about some remarkable changes in the social delineations of Britain, Aristocrat or plebeian, no one over here now is too good to work.

The eligible men of noble birth are in the armed forces or various government war services. Their ladies are doing their bit, too.

Some of them went so far as to get jobs in munitions factories. The high-born peeress and the girl from the East Side—London's "wrong side of the tracks"—are working side by side in the women's uniformed services, the Red Cross or other service agencies.

Probably the most outstanding example of a titled woman forsaking the whirl of society—such as it is in wartime—is Lady Sarah Churchill, 22, eldest daughter of the Duke of Marlborough and a cousin of Prime Minister Winston Churchill.

Known familiarly to her co-workers as Sally, Lady Churchill labored for a year in a munitions factory before taking a job as an inspector for a firm which manu-

LONDON, April 16 (CP)—Allied planes crossed the southeast coast of England this morning and headed for France to continue the daylight air offensive against the Continent. IS HEADING FOR ORIENT

Capt. Albert Mah Has Joined Up With United States Air Force

Captain Albert Mah, well known Prince Rupert born Chinese boy, son of a pioneer merchant, founder of the present Sunrise Grocery Co. Ltd., has joined up with the United States Air Force and is hoping to see service soon in China and Burma with the famous "Flying Tigers."

Capt. Mah, after graduating from a United States aeronautics training centre at Los Angeles, had a succession of splendid records in his flying career, leading up to his becoming an instructor in air observer school in Quebec for the past two years.

Transfer of Capt. Mah to the war theatre of the Far East would be of great value to his fellow Chinese airmen as he speaks Chinese fluently and has high knowledge as a flying instructor.

Capt. Mah's youngest brother, Cedric, is also a flying instructor now stationed at Winnipeg.

Dim-outs and Burglaries . . .

Relaxation of dim-out regulations might make conditions here less conducive to burglaries and nocturnal law-breaking, it has been suggested. Certainly if the old night lights could be restored, it would not be so easy for the safe crackers who, the way things are right now, have pretty clear going for their nefarious operations.

Another suggestion is that business people particularly should see to it that their premises are adequately barred against entry.

Increase in the police force, it is admitted, would help some but the police, no matter how many there are, cannot be everywhere all the time.

R.C.A.F. Active in Europe . . .

The Royal Canadian Air Force is playing an increasingly important part in the bombing of Germany and the Nazi-occupied countries. This is one of the Dominion's most important and spectacular contributions to the business of the war. And a glorious record is being built up by our men in their skill and courage. Stuttgart was one of the most important air raids of the war, evidently, and the fact that ten Canadian planes were lost and Canadians were in some of the Royal Air Force planes is an indication of the important part our men played.

Anti-Hitler Youth Movement . . .

Perhaps as significant a news item as has come out of Germany in the last year is the despatch from Stockholm which reports the public hanging of three university students in Munich. These were the ringleaders in an anti-Nazi faction among the students which, with some boldness, had come into the open. The despatch says:

"By having the ringleaders hanged, the Gestapo deliberately chose the most ignominious method provided by German law to put a condemned person to death. Hanging usually is reserved for the lowest civilian criminals. Even a soldier caught stealing can insist on the firing squad."

The execution, the despatch says, has caused much uneasy comment in Munich, where the people's morale is very low, and where the clenched-fist salute of the Communists can be seen with increasing frequency on the streets. If this spirit is abroad, it will be strengthened in place of being checked by the barbarous murder of these youths and the social humiliation that accompanied it. When the youth of Germany begin to break away from Hitler-worship in considerable numbers, a stage considerably beyond "the end of the beginning" will be reached.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARBUTT
The Hostess

The Service Wives Club met yesterday afternoon for their regular weekly meeting in the ladies' lounge at the "Y." Although the weather was not so promising a goodly number turned out. There was an attendance of fourteen women and nine babies. Mrs. Valen did her good deed for the day by sewing the stripes on a navy collar for one of the sailors. Mrs. Strand donated the raffle which was won by Mrs. Abrams for the second week in succession. Mrs. Duke and Mrs. Abrams served lunch. A box of mended linen was sent to the military hospital.

Well, members of the Navy Communications bowling team, composed of Jack Regular, Don Smith, B. Harkness, Rene Jeannotte and Mike Leir, are going around with their chests out today as they are the Service League champs, winning the final victory over the R.C.A.F. Communications team. The members of the R.C.A.F. team were Adrian, Heryet, Johnston, LaCroix and Keegan. The semi-finals leading up to final play-off were Navy Communications vs. Petty Officers and R.C.A.F. Communications vs. R.C.A.F. Composites. The winning score for the Navy was 2,921, the Air Force score being 2,839.

Sorry to see Cliff Humford, telegraphist in the navy, on his way south. Remember the time he tried to grow a bushy red beard but somehow got discouraged? I think he must have heard about the drowning of that other famous

Boilermakers in Vancouver Choose Him for Third Time Within Five Months

VANCOUVER, April 16 (C)—William Stewart was elected president of the Boilermakers' and Iron Shipbuilders' Union last night for the third time in less than five months. In December he had been chosen but that election was declared unconstitutional by the Canadian Congress of Labor. He headed the poll again in February but that ruling was ruled invalid in Supreme Court on application of the executive which was defeated in December.

Stewart said in a statement that the new vote should settle definitely any question as to the right of the Boilermakers' Union to hold an election.

DUTY FOR MEN HERE

The need for further recruits in the reserve army at Prince Rupert was emphasized by Lieut. Col. G. C. Oswell in speaking before the Prince Rupert Rotary Club at luncheon yesterday.

A. S. Nickerson was in the chair at yesterday's luncheon in the absence of President George C. Mitchell. He thanked Col. Oswell for his address.

Guests included Dan Bock, Mr. Otto, Col. F. W. Adams, Col. W. C. Koenig, Dr. John A. Macdonald (who was congratulated on the birth of a son), G. A. Hunter and T. W. Brown.

Winner in the weekly raffle of a war savings certificate for the Queen's Fund was Alex McRae.

A. C. Small was named delegate to a district conference to be held shortly in Victoria.

Sally insisted on being just one of the hired hands. She labored eight hours a day and took her turn on the night shifts. Once her hand became caught in some machinery but the injury kept her from work only a few days.

Organized Factory

Countess Wharncliffe, mother of five children, helped turn out shells in her father's munitions plant during the First Great War. From her experience of 1914-18 she planned and equipped her own workshop when the Second Great War broke out, turning an unused garage into another cog in her country's war effort.

A sub-contractor, the countess now employs ten part-time workers in her tiny factory where, working side by side with the wife of a retired policeman, she is on duty eight to ten hours a day turning out nosecaps for bombs.

The Marchioness of Queensberry, descendent of the old Marquis who drew up the boxing rules, is one of the woman drivers of trucks and ambulances. Others are Lady Jowitt, wife of Sir William, paymaster of all Britain's armed forces; Lady Diana Tiarke—she's a dispatch driver—Lady Diana Stuart Wortley, Countess Manton De Rabie and Lady Waldgrave.

Lady Dill, wife of Field Marshal Sir John Dill, British military adviser in Washington, drove for the MTC in France in the early stages of the war. She now is lecturing in the United States.

Lady Louise Mountbatten, wife of the British Commando chief, works daily as a supervisor of nursing in St. John Ambulance Brigade.

A few gasboat trollers are now operating on the Flats of Hecate Straits but there is not a great deal of luck yet in the catching of springs. The same may be said for hand trollers off Port Simpson and a few gillnetters in the Skeena River. The few fish that come in meet with ready disposal on the local fresh fish market.

CONGOLEUM
 GOLD SEAL Rugs

HOW TO HELP MR. GOLD SEAL MAKE GOOD
 You can get added wear out of your Congoleum floors with very little effort. Brush and mop them regularly and renew the brightness of their surface with an occasional waxing. Make sure too, that the floor underneath is smooth and free from crevices or knobs. If it's a rug, move it every few months to "spread" the traffic. Yes, a little care will pay big dividends.

"I've got a war job in my own quiet way, and it's for the duration," says Mr. Gold Seal, famous emblem of Congoleum Rugs and Congoleum by-the-yard. "It's to stand up under punishment as never before so that in spite of everything, your floors will continue to look bright and beautiful. You'll find it hard to replace them in a hurry: that's why the care we put into the making of Congoleum means extra value today. It's value that will show up quickly—if you give it a chance—in added wear and service. For years, as you know, I've stood for the highest in home furnishing values and today, my aim is higher than ever."
