It was the general understanding when the Corporation took over the local station some seven or eight months ago it was here to stay and intended this is his first Y post although to extend and improve the service very materially. he used to help a great deal If that plan should be departed from, we are sure with Y work in his spare time. there would be disappointment among the public Frank Ryan, our movie supergenerally and possibly more particularly among the visor, is ill in the hospital in Terrace where he went to inarmed forces to improve the services for whom was spect some movie equipment. supposed to have been one of the prime intentions of Mr. and Mrs. Arnold Ducklin, the Corporation entering the local field in the first who were to have come in for place.

The Corporation is in a position to give good service from Prince Rupert-having facilities that are not available to any private interests, Canadian at C. We had originally been led to expect that CFPR, following the taking over by the Corporation, might was so hot the frigidaire had have been directly hooked up with the nation network by this time.

We may not be very happy in Prince Rupert about the way the Weather Man is treating us these days but, at any rate, the merchants have not yet started advertising appeals to Old Sol to favor us with his presence like they are doing in Vancouver.
