Here is the latest word in aerial evacuation equipment. Fitted to accommodate 18 stretcher cases, this huge transport plane was recently used to transport eleven R.C.A.F. casualties from the hospital ship which brought them to an eastern Canadian port to the hospital at the R.C.A.F. station at Rockliffe, near Ottawa. Stretchers can be seen, ranged along each side, and Nursing Sister Isobel Hardwick of Armada, Alta., who accompanied the patients on their flight is seen talking to her charges. The aircraft, used for other duties as well, can be fitted for this work in a very short time.

Conditions May Not Be Entirely Desirable But Corrections Are Being Made Conditions from a sanitary standpoint in eating houses of the city were referred to by C. R. Stonehouse, sanitary inspec- tor, at the meeting last night of the union board of health There were faults owing to lack of adequate equipment in some restaurants, Mr. Stonehouse said but there was willingness on the part of the proprietors to co-operate and some of the faults had been corrected. CORNED BEFF RESERVED LONDON, Sept. 18 (P)—Canned corned beef is being removed from the meat ration Sept. 18. A Food Ministry official s a id Food Minister Lord Woolton at- taches great importance to can- ned corned beef as a reserve to m e et future emergencies and dos not feel justified in reducing	ling an incinerator use of which would be available to the city.
