Fatal Blast At Open Air Party on Ranch In Brandon District

One Man Killed and Four Others Injured as Practice Missile Fell From Training Plane

BRANDON, Manitoba, July 17 (CP)—One man was killed, and four other persons seriously injured shortly after midnight last night when a target bomb exploded in the centre of an open air dance floor on a farm about seven miles southwest of Brandon. A Red Cross was in progress when the training plane flew over. A few seconds later a small practice bomb fell, scattering the merry-makers in all directions, and killing a man named Lloyd Shields. Officials of the Royal Canadian Air Force are investigating.

PATTULLO AROUSED

Expresses Surprise at Gasoline Appeal to London

Former Premier T. D. Pattullo, who is visiting his constituency of Prince Rupert, has sent a message to Premier John Hart expressing surprise that application has been made to appeal to the Privy Council in London the gasoline case which was the subject of much attention during his (Mr. Pattullo's) regime as Premier. Mr. Pattullo has told Mr. Hart that he understood the matter had been closed and that he had no knowledge of any governmental undertaking that the subject might be reopened after the war. Mr. Pattullo expressed pleasure to note that the government proposed to oppose the application.

Mr. Pattullo's message to Premier Hart arises from a special dispatch from Victoria published on Wednesday in the Vancouver Sun as follows:

"British Columbia's war with the gasoline companies which started a gas strike in 1940 and resulted in the then Premier T. D. Pattullo calling a special session of the Legislature, came up once more today when Attorney General R. L. Maitland was unexpectedly advised by cable from London that the oil companies have made application to appeal to the Privy Council.

"Mr. Maitland said he had been under the impression that arrangements were made three years ago to hold up any such appeal until the war ends.

"In the meantime, in view of this cable, instruction will go forward from this department to oppose any such application," Mr. Maitland said. "The application to appeal seeks to take away the provincial right to fix the price of gasoline—this will be opposed by the government.

"Should the appeal itself reach the privy council it will also be opposed by British Columbia, Mr. Maitland said.

"The legal agents of the Attorney-General's department in London will make preliminary opposition to the application and if the case reaches the Privy Council there is a possibility Mr. Maitland will go himself to London to oppose it if travel arrangements can be made during the war.

"In 1937 the government passed an act setting up the Coal and Petroleum Products Board, which later brought in to effect an order reducing the price of gasoline. The oil companies took the whole matter before the B.C. Court of Appeal which declared the act invalid. The Supreme Court of Canada later upheld the B.C. Court of Appeal's decision.

"The Pattullo government immediately ordered the board's reduction brought into effect. The gas companies refused to sell gas. The board's reduction was three cents a gallon. However, there was a compromise and the reduction per gallon was made two cents. Mr. Pattullo then called the special session which approved the arrangements."

RUSSIANS' INITIATIVE

Tide of Battle Running Against Nazis All Along Soviet Front

NAZIS HARD PRESSED

MOSCOW, July 17 (CP)—The German High Command has thrown new divisions against the Russian spearhead now threatening Orel, front line dispatches said today, but the Red Army was ported repulsing eleven Nazi thrusts and continuing to advance. One wing of the Red Army's smashing counter attack was reported to be within 25 miles of the heavily fortified Nazi base as the Germans rallied all available manpower and equipment in a desperate effort to stave off a major break-through.

MOSCOW, July 17—The Russians continue on the offensive on all sections of the long front with gains of 6 to 10 miles since yesterday. In some places the Nazis are reported in disorderly retreat. Five more enemy divisions have been routed. Marshal Simeon Timoshenko's army is already on the outskirts of Orel with the main body only fifteen miles away.

Around Kursk the Red Army is also on the move. A new Soviet offensive is reported to have commenced in the vicinity of Leningrad.

Even Berlin admits that the Nazis are now on the defensive.

Yesterday 129 more enemy tanks were destroyed and 76 planes brought down for a total of 3181 tanks and 1762 planes in this campaign. Nazi casualties to date are placed at 62,000.

NEW POSTAL STATION TO OPEN MONDAY

The new east end postal station just across Hays Creek will be opened on Monday morning next, it is announced. Residents of the area who wish their mail handled through that office will have it addressed Postal Station B, Prince Rupert. G. I. Goddard will be in charge as postmaster with staff including Mrs. Goddard, Mrs. I. McTavish and Mrs. F. Campbell.

Germany Already Defeated

OTTAWA, July 17—General Henri Giraud stated here yesterday that Germany is already defeated. All that remains is for the Nazis to be brought to realize their defeat.

Seattle Fresh Fish Shortage Predicted Because Voyage There Is Unprofitable

SEATTLE, July 17—Predicting a fresh fish shortage here, H. E. Lokken, manager of the Seattle Fishing Vessel Owners' Association, said today that fishermen are selling their catches in Prince Rupert and Alaskan ports because of Office of Price Administration price ceilings. He said that vessel owners would find it unprofitable to bring their catches to Seattle, because no differential is provided to compensate for the trip from the fishing banks.

SMASHING FROM AIR

Royal Air Force Keeps Up Pounding of Italy, Germany and France

LONDON, July 17 (CP)—British Royal Air Force bombers smashed at Italy's transportation system with the second straight night assault across the Alps last night by blasting power facilities which feed Mussolini's electrified railways while mosquito bombers battered Munich on the German-Italian Brenner line.

Last night's targets in Italy, as was the case the night before, were transformer and switching stations through which flow current to keep Italian rail supplies moving.

The offensive against the continent was kept up in daylight raids today by fleets of twin-engined bombers which started shuttling across the Channel with the rising sun. Abbeville, important French railway centre, was the target for medium bombers in a dusk raid yesterday.

ONE FIFTH OF FORMER SELF

LONDON, July 17—British newspapers are using less than 20 percent of their pre-war consumption of newsprint, Col. J. J. Astor, M.P., chairman of The Times, said. Newsprint allocations were carried out by the press itself.

Fractures His Spine as Truck Goes Into Hole

Hugh R. Ross, local truck driver, suffered a fracture of the base of the spine a few days ago when he had to give special attention to a delicate instrument which he was handling and the truck lurched into a pot hole in a downtown street, throwing him against the engine housing. Ross has been removed from the crowded hospital to his home. He will be laid up at least six weeks.

TO DRIVE OUT JAPS

That is the Sole Purpose of Shelling Kiska, Says Knox

WASHINGTON, July 17—Secretary of the Navy, Frank Knox, said yesterday in commenting on the naval bombardments on the Japanese base at Kiska "we propose to drive the Japanese out of the Aleutians." Knox made the statement at a press conference when asked about the significance of the shelling of the Japanese base. A small American warship shelled the Japanese defences on Kiska on Thursday in the fifth attack in ten days.

CANADIANS MAN SHIPS

Seamen of Cargo Boats Are Canadian, But Officers From United Kingdom

OTTAWA, July 17—Minister of Transport said in the House of Commons yesterday that Canada will be manning 75 merchant ships on the high seas by August. Seamen are being provided by Canada, and officers, masters and other specialists by the United Kingdom. The minister reported great difficulty in obtaining merchant officers for Canadian ships, as few had been trained for such posts.

DETAILS OF BUILDING

New Postal Station on Sixth Avenue is Substantial Structure

The new postal station on Sixth Avenue East measures 40 by 70 by 50 feet, with living quarters for the postmaster consisting of three rooms and bath, office, basement with separate boiler room and coal bin for a supply of forty tons of coal. The building is heated by a hot water system. The building is owned by C. Poulsen, who is also putting up the adjoining building for a store. The Post Office was built by Mr. Poulsen and, when the postal department decided to rent it, the contract was given to Smith Bros. and Wilson. The hot water boiler was installed by Barr and Anderson, the electrical work was done by the Northern B.C. Power Co. and the painting by Fred Scadden.

BATTLE OF SICILY IS RAGING ON

Desperate Fighting Within Thirteen Miles of Flaming Catania

NO LET-UP

ALLIED HEADQUARTERS IN NORTH AFRICA, July 17 (CP)—The Canadians have captured Caltagirone and Gramiccia, strategic towns in the centre of the Allied line in Sicily, it was announced today. Further to the north-east, the Eighth Army is believed to be approaching the outskirts of Catania after smashing back German armored divisions in the biggest battle yet fought for the Italian island. Going forward with a powerful Allied war fleet on the seaward flank general enemy positions. General Sir Bernard Montgomery has captured both Lentini and Scordia at the entrance to the Catania plain, headquarters announced, while on all other parts of the Allied front the advance continues. Lentini is about 15 miles below Catania, prize seaport and air base half way up the east Sicilian coast, and Scordia is nine miles inland from Lentini, the main Axis supply artery into Sicily by way of Messina.

The San Giovanni ferry line was again hit by crushing round-the-clock attacks from powerful formations of Allied bombers yesterday. Wellingtons and Flying Fortresses planted devastating loads of explosives on docks and sidings of the ferry line itself and photographs showed direct hits were scored.

ALLIED HEADQUARTERS IN NORTH AFRICA, July 17—The desperate Battle of Sicily rages with heavy fighting today on the east thirteen miles from the important city of Catania which is now in flames and on the west in the approaches to Agrigento. Further gains have been made all along the front by the British, Canadian and American forces. In the extreme west Guntah has now fallen.

Huge quantities of enemy armor transportation have been destroyed by fierce Allied bombing attacks.

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, July 17—More than 100 American planes dropped 82 tons of bombs yesterday on the Japanese air base of Munda. Allied headquarters announced today. The aerial onslaught was intended to soften the Japanese whole and log bunker defences by being approached cautiously by Allied jungle fighters. Allied planes also bombed enemy positions at Bob Dubi, only 10 miles from Salamaua. Munda is in flames following the latest heavy bombing attacks. Heavy rains have started to slow up land activities in the central Solomons.

On to Ottawa . . .

The city council has been wise in taking the opportunity at negligible expense, considering the importance of the matter to be taken up, of sending the mayor to Ottawa for the purpose, in collaboration with the federal member, of appealing to the Dominion to assume what is unanimously considered here its responsibility for the making of repairs and extensions to municipal public works and services which have reached a critical condition due to prosecution of the war effort which is a national undertaking.

We consider that the mayor has a strong case to present to Ottawa. He goes armed with a complete and detailed memorandum. Some considerable good should undoubtedly accrue from the representations that he, with the support of Mr. Hanson, will make.

As was rightly enough said by the mayor at Thursday night's meeting of the council that the most important accomplishment which the city has to achieve this year is to relieve the emergency which has almost been reached due to its works and services having arrived at a critical position.

A Socialist's Tribute . . .

A prominent Socialist who has been opposed to Mr. Pattullo in season and out and has never ceased to campaign against him actively was heard to say in public Thursday night that there was something that he always admired Mr. Pattullo for—that was his forthrightness and candor in expressing his views so there was no mistaking where he stood.

A bonny fighter and possibly a lone one these days is Mr. Pattullo and the most of us cannot help but affectionately admire him for it.

Looking Better For Us . . .

The campaign in Sicily goes on surprisingly well. As a matter of fact, we may say the whole war against Italy appears to be moving on with great success if the weight and destructiveness of our attack is to be accepted as any measure.

Maybe we have become so used to taking the hard knocks of war, blue prospects and grim forebodings that we find it difficult to realize just how strong our side has become or that the enemy may not be so impregnable as we had believed.

Certainly we have not fared so badly thus far in 1943 which as it wears on, nearly into fall now, appears definitely to have been the year of our turning point.

In any case we have every right to believe that the worst is now over and that we will soon be swinging up the slopes of victory—an uphill pull that will still require our continued will and effort.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARBUTT The Hostess

Your visitors from Terrace this week are Mr. and Mrs. Arnold Ducklin. I wonder what sort of weather they've been having in Terrace?

Two sergeants' wives have kindly consented to act as chaperones for the sergeants' dance at the highway camp tonight. They are Mrs. Wilson and Mrs. Carr. I would like to thank them very much for this courtesy.

Our little service wife with two kiddies and no go-cart has been looked after now—thanks to the offers of the good ladies who 'phoned in.

On Monday night next there will be an army unit dance at the Empress to which the junior hostesses are invited. Y.W.C.A. chaperones from the Queen Mary Chapter of the I. O. D. E. will be in attendance.

Come wind, come weather, come storms and electric light wires down—we're prepared with two nice new Coleman lamps—one for the Y.W.C.A. ladies lounge and the other for our office. We already had one for the canteen and recreation room but now we'll be able to see anywhere and everywhere next time the lights misbehave.

We were in a panic the other day because we couldn't find our Union Jack but we found out it had been on a party. Doug knew about it but had forgotten to tell Breen and me.

LETTERBOX

JAPANESE QUESTION

Editor, Daily News George Cameron, Vancouver barrister and provincial grand master of the Loyal Orange Lodge, advocates the shipping back to Japan after the war all persons of Japanese extraction now in Canada and, in your editorial of July 3, you imply assent. This move, if carried out, would greatly help in paying the way to World War III.

These people did not start the war. Acts of sabotage committed by them, if in truth any were, have been minute. We need in Canada good-living, industrious citizens. I believe the majority of Japanese in Canada have proved themselves good-living and industrious and that practically all, if given half a chance, would become good citizens. With regard to that part of them, and of other nationalities as well, who do not come up to the required standards, it is chiefly a matter of education and of equal opportunity. Canadians who have any real regard for their country's welfare should be willing to go more than half-way towards bringing all the various nationalities and races we have here now towards full Canadian citizenship.

However, if we embark on a policy of Japan for the Japanese and the Orient for the Orientals, then why not Africa for the negroes, Europe for the whites, and America for the Indians? Transplanting whole peoples sounds very much like the Assyrian and Hittarian way. In Canada we have laws under which all aliens, if convicted of certain misdemeanours, may be deported. To condemn a whole race or nationality for the wrongs committed by a few is against the first principles of justice and Mr. Cameron should know better.

Let us rather utilize all our resources (manpower included) towards making Canada and the world a much happier realm for the sons of men, of no matter what race, color, or creed. Let us lead the way in showing that different peoples can live together in harmony, each contributing in its own way to the national welfare, by insuring equal opportunities and standards for all.

Three big hockey moguls met in Victoria last week to discuss the possible entrance of Buffalo and Cleveland to the National Hockey League next year. They were Eddie Shore, Lester Patrick and Al Sutherland. They all claim prospects are very good for the inclusion of the two teams.

Gunner Haegg, after easily winning his event in Los Angeles and after being royally treated by the Hollywood elite, is on his way to San Francisco where he again meets Gil Dodds. They are scheduled to meet in the two mile on Saturday and Dodds vows to make it much tougher for Haegg.

It is rumored that Mike Caruk, manager of the Dry Dock All Stars team in the local Softball League, may resign his position for reasons not yet made known. If he does it will leave the Dry Dock with a powerful team but no manager.

Looks like Chet Laabs, the St. Louis man with the mighty bat, is off on another hitting spurge. Last year the outfielder hit seven home runs in eight games. Now he has walloped five in the last six games and is tied with Keller and York for home runs.

Mickey Shane, Manitoba lightweight boxing champion, was cast as a hero when he dived into the Red River in Winnipeg to rescue a 15-year old girl who had fallen in. Mickey fought in international bouts and retired from boxing in 1937. He is 27 years old.

BOMBS FLOAT DOWN ON LAE

Dozens of heavy bombs float lazily down on Jap installations at Lae, in New Guinea. White spots at MIDDLE RIGHT and UPPER LEFT of the picture show still more bombs, which will explode a few feet off the ground, or on contact, with terrific and devastating effect.

Effect of American Price Ceiling is To Increase Halibut Landings Here — Sockeye Catch is Still Light

The effect of the United States Office of Price Administration halibut price ceiling order equalizing the prices at Seattle and Prince Rupert has been to boost the volume of fish landed at Prince Rupert during the past week to almost one million pounds from American vessels. The boats landed at Prince Rupert, it is believed, because they would have found it unprofitable to take their catches the additional five hundred miles to Seattle with no differential provided to compensate for the extra long haul from the fishing banks. The actual total of American halibut landed at Prince Rupert during the week was 993,500 pounds which, added to 161,000 pounds from Canadian boats, brought the aggregate of both American and Canadian fish for the week up to 1,064,500 pounds. For the 1943 season up to and including yesterday the grand aggregate was 8,845,400 pounds as compared with 9,738,019 pounds at a corresponding date last year. The American total for this year had reached 4,781,700 pounds in comparison with 6,377,800 pounds a year ago while the Canadian aggregate was 4,063,700 pounds compared with 3,360,219 pounds. With a few exceptions the American selling price of 17.5c and 16c was maintained throughout the week. Canadian fish for export fresh was paid 18.2c and 17c, the difference being due to exchange between American and Canadian funds.
