Destroyer is Badly Damaged

OTTAWA, Nov. 6 — Since the Navy's practice is to announce sinkings rapidly, it can be taken for granted that a Canadian destroyer which was damaged in a recent attack by twenty German bombers off the Spanish coast was not sunk. Vatican Bombed?

LONDON, Nov. 6 (CP)—The German-controlled Rome radio, in a special broadcast early today, claimed that the Vatican City had been bombed Friday night and that "considerable damage" had been caused by four bombs which fell among historic buildings. In a re-broadcast, the German TransOcean Agency said the raid had been carried out by Allied aircraft. No details of British or American air activity over Italy Friday night was available in London nor were any comments forthcoming from official sources. Some time ago it had been forecast by British officials that the Germans would probably bomb the Vatican and try to blame it on the Allies.

Time for Something Better . . .

It has been hard for a good many citizens to understand how a condition can exist whereby, as happened Thursday night, a vandal or vandals can go down the main street in the very centre of the business section and hurl rocks to shatter the plate glass windows of several business places and get away with it. We must agree it is an unsatisfactory state of affairs which simply cannot be tolerated. It is not one of those things to shrug one's shoulders over and say it cannot be helped. If vandals can get away with this sort of thing, they can also get away with worse and it is just about time that some adequate measure of protection was given against such actions of lawlessness. A condition where such incidents can go on is simply not good enough and the public would be right in demanding that something be done about it. The people are not so much interested in blaming any one but in having the necessary action taken to ensure that such things as this cannot happen, particularly in the very centre of the city. It is time to say, with due consideration of all, that something better must be done in the enforcement of law and order in Prince Rupert. Arguments and excuses cannot go any longer. The reason must be found by those who know and the necessary action taken.

Certainly, we have reason to insist that the person or persons responsible for this latest vandalism should be apprehended and adequately dealt with. We have ever greater justification to demand that we are given protection against such or even more serious acts.

This comment may hurt and offend certain persons but we consider it our duty in the public interest to voice it.

Call the chips where they may, it is time to curb lawlessness which is becoming too general and flagrant in Prince Rupert. We have been patient long enough.

Young Men War's Need . . .

The age limit for voluntary enlistment in the Canadian armed forces has been reduced from forty-five to thirty-seven years. The importance of having good fighting men on hand is probably none the less, favorable war developments notwithstanding. However, in making this new order, the government has no doubt been advised by the military authorities, that men over thirty-seven do not make the kind of fighting men we need. They are too old and simply do not have the physical goods it takes.

The government has evidently come to the conclusion that, in the pursuit of the war effort, men over thirty-seven years of age can be used to better advantage other than in the army.

Premier King's Warning . . .

It is probably as well that Prime Minister King should issue a warning against relaxation of the A.R.P. organization and activity on the Pacific Coast. We are keeping the Jap busy thousands of miles away to be sure and he will probably not essay any further territorial campaigns very far afield. We should not assume, however, that he will not attempt diversions or forays and these might, as we have said before, conceivably be in our direction. The warning of Mr. King is timely and we would do well here in Prince Rupert to heed it. The Jap could and might come here. We should by no means overlook the possibility.

Here to Alaska . . .

The Prince Rupert Chamber of Commerce has decided to institute an all-out campaign in support of the route from Alaska northward for a road to connect British Columbia with the Alaska Highway. Already, due to the efforts and representations of Messrs. Wilson and Taylor of Burns Lake, the support of all Chambers of Commerce and such organizations from here to and including Vanderhoof has been won. Now the Prince Rupert Chamber of Commerce has decided to take the lead in carrying advocacy of the route to Victoria and to Seattle where important members of the international highway commission dwell. The support of other local organizations is being sought and, no doubt, will be spontaneously accorded.

After all, the route north from Hazelton is not new in a general way. What is new about the Wilson plan is that it eliminates the snow-laden Yukon Telegraph trail, veering off to the west by way of the Kispiox, Naas and Irving Rivers in the lee to the east of the Coast Range, thus escaping the snows which had previously been the principal objection to the Hazelton route. There will also be strong, if not valid, opposition to it from certain other quarters.

SERIOUS SITUATION

Editor, Daily News:

May I have some of your valuable space for the purpose of bringing to the attention of the general public a serious situation which has developed in regard to our ambulance. I doubt if the public generally realize that at the present moment they are without any ambulance facilities. In a town of this size, this is a real catastrophe. It means that no industrial accident can be properly transported to the hospital. It means that during the night when taxis are no longer available, maternity cases will have to walk to the hospital. It means that a patient suffering from acute appendicitis or pneumonia or half a dozen other major illnesses will have to be carried out to a taxi or in some cases they will have to walk to the car. It should not be necessary for me to point out the serious consequences of this state of affairs.

So far as one can find out, nothing has been done to supply a new ambulance for the city. It is easy enough to say

to supply one but that is not going to save the injured and sick while the argument is being settled. One thing we do know, the city Fire Department operated the ambulance during the past year in an exceptionally efficient manner. There is reason to suppose they will continue to do so if they are supplied with the car. The problem is where to get a new ambulance. Perhaps if we victimize the general public long enough, someone will come to the rescue but I am going to suggest Mr. Editor, that we get busy and help ourselves. I suggest to you that a public subscription be opened in your paper and that everyone be asked to send in a contribution. To start the ball rolling, I will contribute \$25. We will probably need at least \$2,000 to purchase a first-class ambulance. It should be very easy to do this if everyone will get behind the proposition.

Thanking you for this space in your paper, I am
R. G. LARGE, M.D.

(The Daily News will be glad to receive and acknowledge donations to an ambulance fund.—Editor.)

The Experts Say . . .

POTATOES—Nutrition services point out that choice, mealy potatoes—the kind which taste so good when baked—are on the market. They bring with them the opportunity to step up the family's score on vitamins and minerals.

Most of the minerals lie just under the skin of the potato, and when a potato is peeled, no matter how thinly, these minerals go into the garbage pail with the skins. Skins also act as a life preserver for vitamin C. When potatoes are cooked and served in their jackets, they make important contributions to the diet.

APPLES USEFUL—Apples simplify the planning of desserts at this time of year, for an almost endless variety of desserts can be made with them—and they are easy on the sugar ration too.

Tests made by the consumer section of the agriculture department show that one teaspoon of sugar per apple provides enough sweetening for most tastes. As with other fruits, a dash of salt will reduce the amount of sugar required.

When sugar is cooked with fruit—as in making apple sauce—it is changed chemically into another, less sweet form of sugar, and for this reason less sugar is required to sweeten fruit if it is added only after the fruit has been cooked.

SAVING WOOL—Have you been in the habit of discarding a needful of wool? It may seem only a short length, the consumer branch of the prices board says, but it can be put to a variety of uses—the day may come when you'll want to eke out enough of that color for a reinforcement job or to sew up seams.

Sometimes several tiny balls of wool may be left over from

knitting multi-color socks, two-toned sweaters. A practical way to use these bits of wool is to make gloves with each finger a different color, knitting into a plain dark base.

PICKLE VINEGAR—Pickle vinegar can be used over and over again in cooking. It should not be discarded. Its spice adds extra flavor to dishes. It should be used in "sharp" sauces and salad dressings.

When using vinegar for sweet pickles for salad dressings, omit sugar from the recipe and use half pickle and half fresh vinegar. Vinegar pickled beets can be used them many times if a dash of fresh vinegar is added each time.

COAL SAVERS—Experts have estimated that the amount of coal saved by installing light fitting storm windows is more than 300 pounds per window which means that by installing them more than a ton of coal can be saved each year in home with six windows.

SMITHERS

Lieut. Pat Downey, son of J. P. Downey of the Hudson Hotel, who has been overseas with the Canadian Scottish, has been returned to Canada for a short time and will proceed to one of the large training camps to be an instructor for the next six months after he has had his furlough at home. Pat is looking real well after his experiences in Britain.

The Victory Loan committee at Smithers put on a picture showing of the war in France and in Italy on Monday night to

stimulate sales of the Fifth Victory Loan. The theatre was well filled and in between films the time was occupied by local speakers.

Capt. S. Gillespie of the Pacific Coast Militia Rangers, stationed at Prince George, visited No. 52 Company at Smithers during Tuesday and Wednesday.

The principal reason of his visit was to hold an inquiry into the loss of some equipment which was in possession of a Telkwa Ranger and which had been destroyed by fire. Capt. Gillespie has a brother who is a passenger on the Swedish liner Gripsholm on her present trip bringing internees from Japan back to their home countries and which has just arrived at Port Elizabeth, South Africa.

Many Vessels of Halibut Fleet Still Busy on Cod and Other Lines—Winter Activity Expected

The halibut fishing season has long since ended in North Pacific waters but many of Prince Rupert's fishing vessels are still quite busy. Cod fishing is the main activity and, with excellent prices prevailing, many boats are out and are making good financial returns. Others are busy on shark and dogfishing.

There is reason to expect that there will be a substantial volume of various types of fishing on this coast throughout the winter.

N. M. McLean, Seal Cove boat-builder, and son, Wilfrid, are leaving this afternoon on a business trip to Vancouver.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.
 By DOROTHY GARBUTT

Mrs. Keilback phoned me to say that the whole of that Guy Fawkes lyric is:

"Oh, please to remember, The Fifth of November, The gunpowder treason and plot, For I see no reason Why gunpowder treason Should ever be forgot."

Touching, isn't it? And talking about plots we hatched up a nice little one yesterday against Frank Armitage when we held a birthday party for him at the Cafeteria. We had pink candles on the cake'n everything.

The rooms registry came to life today with three registries. The Coast Battery dance on Monday at the Empress is held in aid of the Overseas Cigarette Fund. As the majority of the men are overseas and their wives have left Prince Rupert it remains for the handful of ladies left in the auxiliary to carry on this ambitious donation. Junior hostesses are invited.

The kittens are coming along splendidly, nicely trained, well behaved and do everything but ask for a serviette with their meals. We have named them "Salt" and "Pepper" but, of course, they quickly got "Salty" and "Peppy." "Salty," who is somewhat slow and given to large doses of sleep, managed to fall neatly and with dispatch into a bucket of water Mrs. Ronald was using the other day. He was very indignant and yowled unmercifully. "Peppy" is just as his name suggests, full of pep and into everything. The WD's and CWAC's love them.

Briefs From Britain

Mrs. G. V. Riley has not used a clothes ration coupon since the start of the war as part of her "little war effort to mend and make do."

Owner of 24,000 rose trees, Charles Henry Rigg has died at Steeple Morden, Herts. He won the National Rose Society's amateur championship three years in succession.

It is stated that 10,000 Norwegians have escaped to Britain since their country was occupied by the Germans. Seventy-five per cent of the Norwegian air force consists of escapees.

Two boys aged 10 and a girl of 11 appeared at a Southend Juvenile Court charged with breaking into a Food Ministry emergency store and it was said they had eaten 22 pounds of sugar, 40 tins of milk, 47 tins of beans and 30 pounds of biscuits.

Correct title for girls who collect tickets on London buses is "women conductors" said a transport official testifying in a court case. Persons who called them "lady bus conductors," "bus conductresses" or "conductor-ettes" were wrong, he added.

Timely Recipes

PUMPKIN CUSTARD

1 cup cooked sieved pumpkin
 1/4 cup brown sugar
 1/4 teaspoon salt
 1/2 teaspoon cinnamon
 1/2 teaspoon ginger
 1/4 teaspoon nutmeg
 1 egg
 1 cup milk.

Mix sugar, salt and spices with pumpkin. Beat egg, add milk and combine the two mixtures. Pour into greased custard cups, set in a pan of hot water and oven-poach in a moderately hot oven, 375 degrees F until set, about one hour. Six servings. The mixture may be poured into an unbaked pie shell and makes one medium pie.
