Young Mother, Babe in Arms, In Second Storey Leap From Blazing Room

Crowded Apartment Structure Largely Destroyed by Spectacular Fire Early This Morning—Many People Lose Living Quarters and Effects

Thirty persons left homeless and damage estimated at between \$6,000 and \$8,000 was the result of a fire which completely gutted the premises of the Victory Rooms, corner of Third Avenue and Eighth Street, early this morning. The fire, origin of which is so far unknown, started at the rear of the building near the lane, and was burning fiercely when the first alarm was turned in at 1:45 a.m. by policemen. Efforts of the fire department brought the blaze under control before the shell of the building was completely destroyed. Dwellers in the building were awakened from their sleep and some escaped only with their night attire. Two women and an infant child sustained face cuts and other minor injuries in leaping from a second storey window and were taken to hospital for treatment.

FARMERS' PROBLEMS

Must be Careful in View of Shortage of Manpower and Equipment

PRINCE GEORGE, June 3—With the harvesting of the hay crop near at hand, many farmers are concerned as to how they are going to manage with such a shortage of available manpower.

Before starting haying operations mowers, rakes, tedders, wagons, hayloaders, sweeps, slings and forks should be carefully inspected and all broken or worn parts renewed or repaired. Careful attention must be given to ropes, cables and pulleys in order that there will be no stoppage or breakdown when operations get under way. There is only a limited amount of new equipment available and those in need of new equipment should shop early and avoid disappointment, points out R. G. Newton, superintendent, Dominion Experimental Station, Prince George.

It may be necessary to revise some of the present practices, such as curing the hay in the cock and follow windrow-curing. Where weather is tricky it may be advisable to utilize tripods for the early haying operations. Early cutting means the hay will be higher in protein though it may lack a little in bulk. By commencing haying operations early it will compensate to some extent for the manpower shortage. Where large lots are available it may be possible to spread out and salt the hay. Full advantage of the long days should be taken and the work arranged accordingly. Daylight saving hours do not work to the farmers' advantage as it is usually well on towards noon before the dews are off. By co-operating with neighbors a program that will be mutually beneficial to all concerned can be worked out.

WATCHING SITUATION

United States and Great Britain May Act in DeGaulle-Giraud Crisis

LONDON, June 3—British and American authorities may find it necessary to take some action in the event of General Charles DeGaulle achieving a coup in connection with the future government of France outside of Nazi control. They might go so far as to withdraw financial support from DeGaulle.

Meantime reports from Algiers are to the effect that further conversations yesterday between DeGaulle and Giraud resulted on agreement to issue a joint declaration today in regard to a future governing body of France. DeGaulle and Giraud had had a sharp disagreement and were last reported in deadlock.

Jewish Passover Feast Observed in Pr. George

PRINCE GEORGE, June 3—An unusual ceremony took place in Prince George, for the first time in the history of that town when a considerable number of Jewish servicemen stationed in the vicinity gathered to perform the traditional Jewish Passover ceremony of the Seder. The Seder is a religious dinner in the course of which the participants narrate the story of the exodus of the Jews from Egypt with the aid of many selections from the liturgy and the literature of the Jews in regard to that event and special symbolism. A specially baked unleavened flat cake which is used for bread throughout the eight day festival is a symbolic reminder of the hurry with which the Jews left Egypt (Exodus 12:39). A brown mixture of wine and crushed nuts is a reminder of the mortar with which the Jews were forced to build great structures for the Egyptians. Horse radish is symbolic of the bitterness which marred the lives of the Jewish people in their enslavement. The military authorities gave the Jewish men in their services leave on the more sacred of the days of the holiday and the Jewish chaplains together with the Religious Welfare Committee of the Canadian Jewish Congress arranged for services and hospitality for the men on leave and for those who were forced to remain in camp because of the exigence of service. In addition to this Seder pictured above, which was the first in the history of Prince George, other Seder ceremonies took place in military centres throughout the province of British Columbia, including Prince Rupert.

Five Hundred Machines Used in Mass Attack On Important Russian City

Germans Lose Two Thousand Men Killed in Suffering Defeat at Kalinin—More Losses in Kuban Peninsula Area

MOSCOW, June 3—Five hundred Nazi bombing planes made a mass raid on Kursk, important city on the central front, yesterday and 123 of them were shot down with a loss of 30 Russian machines. The number of casualties of the extent of damage in Kursk was not stated. The attacking planes came over Kursk in five waves. From the Kalinin sector of the front came word today of the defeat of a German land force with killing of two thousand Nazis.

Thirty-seven more German planes have been brought down in the Kuban area in the Caucasus.

CHURCHILL THEIR AIM

This Suggested as Object of Attack on Missing British Commercial Aircraft

LONDON, June 3—There is no further word today in regard to a British overseas transport plane with Actor Leslie Howard reported among thirteen passengers, which was officially declared overdue and presumed lost Wednesday after reporting in a final message Tuesday that it was being attacked by enemy aircraft while enroute from Lisbon to England.

There is belief here that the plane may have been attacked in an attempt to kill Prime Minister Winston Churchill on his way home from a conference at Washington D. C. with President Franklin D. Roosevelt. It is the first attack to have been made on a British Lisbon to London commercial plane which the Germans knew have been operating since the first of the war. In fact British and German planes use the same air field at Lisbon.

Rome radio reported today that a Spanish fishing boat had picked up seven survivors of the missing flying boat.

King's Birthday . . .

The June day, celebrated in the Empire as the King's birthday, has this year none of the holiday atmosphere accorded it in the easier days of peace. In keeping with the busy trend of the times not even the school children of Prince Rupert were given a day off. It is doubtful if the King himself relaxed from his duties on this official celebration of his birth.

While for purposes of celebration this is recognized as the King's birthday the actual anniversary of his birth is December 14. He was born at Sandringham in 1895, on the anniversary of the death of his grandfather, Prince Albert, a fact which disturbed Queen Victoria who was still unconsolated forty years after her husband's death. She was made somewhat happier when it was agreed to call him Albert after his grandfather. His full name is Albert Frederick Arthur George.

The King is well qualified to be a wartime ruler, having a naval and air force background of great merit. In 1916 he saw action in a naval gun turret at Jutland and in 1917 he transferred to the newly formed Royal Air Force. After learning to fly he achieved the succeeding ranks of Squadron Leader, Wing Commander, and Group Captain. These were earned promotions and not honorary titles given out of benefit for his royal position.

It can be said of George VI that he is a real and sincere inspiration for all his peoples.

The Liquor Ration . . .

Of course, the latest liquor ration scheme—whereby the allowance of hard liquor is cut in half while that of beer is doubled—is designed to regulate the proportion of consumption of the former in relation to the latter. Weeks ago the chairman of the Liquor Board intimated that British Columbians were buying the hard liquor in such a heavy proportion that it would be necessary to stiffen the ration. Now this has happened and, instead of twenty-six ounces a month, only thirteen ounces is allowed.

In some ways, it would seem that prohibition is gradually being imposed upon us whether we like it or not. So far, we have heard of no one that has really suffered and, after the rather vociferous protestations at the start, the public, by and large, is accepting the restrictions in a commonsense way.

MILITARY LUNCHEON

Prince Rupert Regiment Featured In Demonstration for Gyro Club

The regular weekly luncheon of the Prince Rupert Gyro Club had a distinctly military aspect as several members of the club who are in the Prince Rupert Machine Gun Regiment, local reserve unit, made their appearance in uniform with the program consisting of a talk by Captain J. R. Hall, instructional officer, on equipment and instruction procedure and a machine gun demonstration under the direction of Company Sergeant Major Mac-

Donald with three Gyros—Lieut. G. D. Bryant and Privates W. J. Scott and W. F. Stone—proving proficient members of the demonstration squad. Lieut. A. Dieldal gave a brief speech, emphasizing the need of further recruits in the reserve and welcoming any such to the company of which he is commander.

President W. J. Scott was in the chair for the early part of the luncheon with Past President G. L. Rorie taking over for the latter part and thanking all those who had taken part in the program for the arrangement of which Lieut. Bryant was in charge.

Guests, besides Capt. Hall and Lieut. Dieldal, were Regimental Quartermaster Sergeant William Broadley and Norman Morrow, the latter of Vancouver.

 The Hostess

I am trying to contact the heads of all the women's clubs, auxiliaries and organizations in town in order that they may meet Major Leona McIlvena, who is staff officer of the Canadian Women's Army Corps of the Headquarters Pacific Command. Major McIlvena would like to meet as many of these ladies as possible, mothers of enlisted girls and those who are interested in the work the women are doing in the Army. If there are any I have been unable to contact I should like them to accept this as an invitation to attend. The meeting will be at the Y hut on Friday afternoon. Major McIlvena will be here some days and while here is the guest of an old friend of hers, Mrs. George Mead, Fourth Avenue West.

The Support Company of the New Regiment at the "Cy Peck Camp" is holding a dance tonight at the camp. Transportation will be at the Y hut to pick up the junior hostesses and chaperones. Mrs. Helen Speirs and Mrs. Linda Varfeldt, members of the Women of the Moose, will act as chaperones.

Another naval ratings dance is coming up next Monday. More details later. Just try and keep the girls away!

So successful was my drive for wringers for the units that an American unit has asked me if I can appeal for the loan—on hire—a sewing machine for one month. It seems they have a lot of curtains and fixings and they have tried

HERE WE GO AGAIN!

A new month has brought with it a new flow, or perhaps trickle is a more suitable word, of liquor, and these June days find the thirsty, like the faithful at a mosque, lined before the liquor vendor's to receive their few drams or pints of potable spirits. The well-worn pavement on Third Avenue is burdened with a line four abreast extending the width of the building for a while at least each day. It is not as long a line-up, however, as many previous ones.

Considering the one-purchase-a-month ruling those who buy now will have to care for their mickey or gallon with good husbandry to make it last to the turn of another calendar page. But those who rashly buy a 26 or a 40 ounce bottle are letting themselves in for a respective two and three month wait. A 40-ounce flagon has become a sort of quarterly dividend.

It is doubtful, from the appearance of the crowd in front of the liquor store, that they are a solid representation of the desperately thirsty. In dress and appearance they seem to be a general cross-section of population, civilian and

around at the used furniture places and can't locate one. They only need it for the month and promise to return it in good condition.

Do you remember the Navy steward, Jimmy Dumeah, who played Santa for us at a women's notice last Christmas? Well it seems that he is quite a star in Navy baseball circles down South. What do you know!

Lou Gehrig, then 22, Columbia University's gift to baseball, 18 years ago yesterday took over first base for the New York Yankees to start an iron man stunt unequalled in modern baseball. In 14 years Lou played 2,180 consecutive games for the Yankees. Gehrig died in 1941 and his baseball prowess has been immortalized on stage, screen and radio.

Seven years ago today the Babe Ruth-Boston Braves feud came to a head and the "King of Swat" was given his unconditional release thus terminating a spectacular baseball career of 22 years. He put in 15 years with the New York Yankees before a brief but torrid period with the Braves.

MIDLANDS

A potatoless week-end appeared in prospect for Cobourg households as local stores reported inability to secure new stocks to replace those sold in limited quantities last week. Potatoes are not coming through from further east and supplies from local sources are practically unavailable. Meanwhile citizens are buying more bread and other substitutes to accompany their still ample meals.

10 WAYS TO MAKE MEAT GO FARTHER!

HERE are ten ways to make meat go as much as 40% farther. Ten ways to give extra rich flavour and goodness to meat dishes. Ten ways to use Quaker Oats . . . the food which replaces so many health elements ordinarily found in meat.

For Quaker Oats is high in proteins. As high, ounce for ounce, as pork chops! or eggs! Higher than any other natural cereal, whole-grain or otherwise.

Quaker Oats is the richest, natural source of Vitamin B1. Actually, Quaker Oats provides 70 International Units of Vitamin B1 per ounce! (lean round beef steak, contains an average of only 12 I.U.'s of B1 per ounce). And Quaker Oats contains generous amounts of Phosphorus, Iron and other B Vitamins, that are ordinarily obtained from meat.

Serve full-flavoured Quaker Oats regularly for breakfast! Use these delicious Quaker Oats meat-extender recipes, to stretch your meat ration . . . help family health . . . save your money!

Smithers Man Loses Fingers

SMITHERS, June 3—Hilton Morris met with a serious accident on Saturday morning while operating a planing mill at Evelyn. His right hand came in contact with the knives of the mill and the four fingers were severed at the middle joints. He was taken to the Smithers Hospital where he was given immediate attention and is now recovering from the accident.

For the past two years Mr. Morris has been operating a transfer business in Smithers but, when he received his call-up for the army, he disposed of this business and proceeded to Vancouver for medical examination. Not being accepted by the army, he returned home and was for the time being employed at the small sawmill and planing mill at Evelyn when he met with the unfortunate accident.

Rheumatic Pains! Backache

Try This For Quick Relief From Nagging Pain and Aches

When you've tried almost everything you can think of and nothing seems to even relieve the pain and soreness, don't give up hope. Just go to Ormes Limited or any good druggist and get a bottle of Allenru. Take as directed and in about 24 hours you should see real improvement. Allenru acts in three ways—1) to relieve the pain 2) to regulate the bowel action 3) as a gentle diuretic for the Kidneys—flushing out excess acids.

So don't be discouraged — start today.

Allenru Must Help or Money Back.

I'M FREED OF CONSTIPATION!

I Found the "Better Way" to Correct the Cause!

I was a slave to harsh purgatives that gave me only temporary relief until I discovered that my constipation was the common type caused by lack of "bulk" in my diet. Then I tried eating KELLOGG'S ALL-BRAN regularly... drinking plenty of water... and my troubles were over.

This delicious, crispy cereal (grand in muffins, too) supplies "bulk" many people need to keep regular—naturally. Why don't you try this "better way" to prevent this type of constipation? Your grocer has ALL-BRAN in two convenient sizes. Made by Kellogg's in London, Canada.

THRILLING, DRAMATIC
 "Flight Lieutenant" is Week-end
 Feature at Capitol Theatre
 An exciting war drama of the
 air with a poignant father-and-
 son motif and a pretty romance,
 "Flight Lieutenant," starring Pat
 O'Brien, Glenn Ford and Evelyn
 Keyes, comes to the Capitol Theatre
 this Friday and Saturday.
 O'Brien is seen as a daredevil
 pilot and ace of the last war who
 is regarded as a hero until one
 night, when intoxicated, he crashes
 on a commercial flight and is re-
 sponsible for the death of his cop-
 iot. Unable to adjust himself to
 ordinary civilian life after he is
 permanently grounded, he leaves
 his young son in America and joins
 a wildcat air line in the tropics.
 Growing up, the son at last learns
 of his father's guilty past, the dis-
 covery being made sharper because
 he is in love with the daughter of
 the man whose death his father
 was responsible for. The picture
 comes to a thrilling climax with
 the son in action at Pearl Harbor.

**Warmer Weather
 Now Needed in
 Bulkley Valley**
 SMITHERS, June 3—The Bulkley
 Valley has not yet experienced any
 summery weather to speak of. Cold
 and showery weather has prevailed
 all through the spring and, while
 the grass appears to be growing
 very well, the other crops have not
 been greatly encouraged by this
 brand of weather.
 There is now a lot of moisture in
 the ground, sufficient perhaps to
 guarantee a good hay crop already,
 but warm weather is now needed to
 bring all crops along rapidly.
 Anthracite reserves at Shant
 are estimated at more than 500,
 000,000,000 tons, half the coal in
 China.
