Tens of Thousands of **VOLUNTEER WORKERS** make your **Red Cross Dollars Stretch Farther** 

Toiling daily in selfless devotion, Canadian women labor to make YOUR Red Cross dollars stretch They sew and knit garments, pack 'food and supplies, fill precious boxes for our boys in enemy Since the war began, Red Cross "Blue Smock" workers have made millions of articles from approved patterns, packed millions of cases, for fighter and civilian comfort and relief. Other volunteer women, specially trained, drive cars, trucks, ambulances, help as nurses and nursing aides, office workers and dietitians. Hundreds of doctors, too, give their time freely to help The 857,000 members of the Junior Red Cross also, are doing work of untold value. These volunteers make YOUR Red Cross dollars go farther for material, food, medical supplies, preparation of blood serum, for our fighters and war victims on the world's war fronts. This must go on. As the war expands, intensifies, the need grows. Never was the need for YOUR dollars HEADQUARTERS: 324 SECOND AVE. P.O. Box 203, Prince Rupert, B.C. PHONE 88

# WARNING

### CANADA FACES A WOOD-FUEL FAMINE NEXT WINTER

ARE YOU one of the Canadian householders who burned tences, doors and even flooring to keep warm in this winter's sub-zero weather?

Or perhaps you are one of the lucky ones who just managed to scrape through?

In either case, you will want to be prepared for next winter when greater hardships loom unless you take immediate action.

The shortage already has affected many communities . . . total stocks of dry wood are nearly exhausted . . . in some places the small supply of green wood cut for next winter is being used *now* to meet the present emergency.

• Throughout most of Canada, fuel-wood is obtained not far from where it is consumed. Its production and distribution are the business of local citizens.

The Dominion Government recognizes that the wood-fuel shortage is so serious that even with the full co-operation of everyone in affected communities an adequate supply is not assured. Accordingly, it has been decided to stimulate the output of wood-fuel by assisting those normally engaged in its production and distribution. To this end, the following measures will be adopted:

A subsidy of \$1.00 per cord will be paid to dealers on all commercial fuel-wood contracted for and cut on or before June 30, 1943, and held to dealers' account on that date.

costs as he considers proper in respect of fuel-wood, particularly in cases where dealers, to procure supplies, find it necessary to contract for fuel-wood at locations outside the area from which they normally derive their supplies. In order to obtain any such reimbursement, dealers must obtain a permit from the Coal Controller before contracting for such supplies.

- 3 The Coal Controller will repurchase from dealers at dealer's cost all commercial grades of fuel-wood on which a subsidy of \$1 per cord has been paid and which are still in dealers' hands as at May 31, 1944.
- Assistance will be given in providing priorities for necessary equipment.
- **5** Farmers now on the farm, and who leave the farm temporarily in response to this appeal to engage in fuel-wood cutting, will be deemed by National Selective Service to be carrying out their regular occupation as farmers and will be given all the rights of deferment of military service which such an occupation now carries. Such temporary absence should not, however, interfere with agricultural production.

Municipal councils, farmers, fuel dealers, individual citizens, service clubs, and all other groups in communities where wood-fuel is burned, are urged to begin at once a rapid survey of their local situation, and to take immediate action to relieve the shortage.

The Governor of Alaska sent word that no expense need be spared in the search but there was difficulty in getting aircraft which might have helped. The missing man had planned on leaving that part of Alaska this spring and moving south, possibly back to Prince Rupert. He went to school here in the early days and, after having been engaged in plumbing for a time, finally went fishing and for the last twenty years he had been a fisherman.

understanding, aid was not imme -

the whole affair is that there was

a good deal of jammed slush ice.

Commercial fishing of herring closed at the middle of this week in this area after the worst season on record. The only catch made was some 1,000 tons around Laredo Inlet which was divided between the B.C. Packers, Canadian Fishing Co. and Nelson Bros. which had packers on the job. The herring was now in spawn but it is still permissible to take them for bait purposes and it is hoped that this may be obtained in a run which usually develops in the vicinity of Butler's Cove or Jap Inlet around the end of this month.
