WAR IN TUNISIA—

AXIS IS BACKING UP FAST

Shows Elements of Haste and Panic Although Another Stand Expected

ITALIAN DIVISION TAKEN
LONDON, April 13 (CP)—Algiers radio said today that the British Eighth Army had reached Enfidaville, twenty-seven miles north of Sousse and fifty miles south of Tunis, and nearly the whole of the Italian Vittoria Division had been captured. London sources said Axis armies withdrawing into the Tunisian tip totalled about 210,000 men, 150,000 of them Germans.

ALLIED HEADQUARTERS, April 13 — There are all signs of haste and panic on the part of Axis forces in their headlong retreat before the Allied armies in Tunisia. However, large portions of the enemy armies in southern Tunisia are not as yet completely cut off. Marshal Erwin Rommel is still organized and is expected to put up a stiff fight before being driven out of North Africa.

Superintendent Of Dry Dock

A. M. Kerr Succeeds Allan Cormack Who Was Transferred South Recently

A. M. Kerr has been promoted to the position of general superintendent of the local dry dock in succession to Allan Cormack who left recently for Vancouver. Bernard Allen continues in charge of the yard as assistant to the vice-president of the Canadian National Railways.

PROMOTED IN ARMY

Major General Roberts Placed in Command of All Reinforcements Overseas — B.C. Men Move Up

OTTAWA, April 13 — Department of National Defence headquarters Monday night announced the appointment of Major General J. H. Roberts, who commanded the Canadian forces in the Dieppe raid last August, to command all Canadian reinforcement units in the United Kingdom. Brigadier J. F. A. Lister of Victoria is promoted from the rank of colonel and becomes deputy adjutant and quarter master general of the Canadian Corps overseas. Brigadier J. E. Sager, aged 45, Vancouver, is promoted from the rank of lieutenant-colonel and placed in command of a Canadian infantry brigade.

MAKES MICRO-MICROSCOPE
LONDON, April 13 — Prof. L. C. Martin has designed a new kind of microscope so powerful it shows particles too small to be seen by optical methods. Known as the electron microscope even the shape of particles of smoke can be clearly seen.

Holding Own Against Subs

LONDON, April 13 — Prime Minister Winston Churchill reiterated in the House of Commons today that "we are more than holding our own in the Atlantic battle against German U-boats."

ON THE WATCH FOR THE ENEMY IN TUNISIA

A constant alert at the anti-aircraft guns is maintained at this advance U.S. air and fighter base near the German lines in Tunisia. The air base and some of the aircraft, are shown in the photo, just received.

PRINCESS IS BUSY

Royal Chatelaine at Dominion Capital Active in Essential Work

By MARGARET ECKER
Canadian Press Staff Writer
OTTAWA, April 13 — The fairy tale picture of a princess, sitting in an ivory tower with folded hands, waited on by a bevy of servants, doesn't fit Princess Alice. The wartime days of the wife of Canada's Governor-general, the Earl of Athlone, are crammed as full of activity as those of almost any woman in Canada. She doesn't sit down on the job, either.

Princess Alice walks mile after mile inspecting war industries, military establishments and other elements of the war effort with her husband. Reporters in Ottawa, Montreal, Toronto — in fact, from coast to coast — know she has intelligent and interesting comments to make about virtually everything she sees.

Princess Alice is a tall, slender English woman with white hair and blue eyes. She is quite an early riser — the hour depending on the morning's program. By 11 a.m. she has always had her breakfast, a walk through the grounds of Rideau Hall if the weather is reasonable, and has read her mail.

Meets Many People
Appointments start at 11. It may be the head of a war service or of a large women's organization, or it may be someone who has rendered a particular service to Canada. Princess Alice doesn't relax after her morning. Most days there are guests for lunch — always official guests now, because there is no purely social entertainment at Government House. Two afternoons a week she makes no appointments, Tuesday and Thursday, because she's up to her eyes in other work.

Tuesday a group of women who sew comforts for the Navy gathers at Rideau Hall and the hostess's needle is one of the busiest. Thursday Princess Alice gets herself tangled up in splints and bandages. With members of her staff, her lady-in-waiting, Vera Grenfell, some of the Government House servants and a few women from Rockcliffe suburb she studies first aid under instruction of the St. John Ambulance Association.

When her afternoon engagements permit she likes to walk, not in the gardens of Rideau Hall but along the corridors of hospitals, or war factories. Recently she has been visiting Ottawa barracks of the R. C. A. F. Women's Division, the Canadian Women's Army Corps or the Royal Canadian Women's Naval Service.

"Her Royal Highness is very interested in the welfare of women in the services," said Miss Grenfell. Princess Alice and the governor-general seldom have a quite dinner

Big Attack On Moresby; Japs Downed

ALLIED HEADQUARTERS IN AUSTRALIA, April 13 — The Japanese flung one hundred planes at Port Moresby Monday in the heaviest aerial attack of the war in this theatre but thirty-seven of them were shot out of the skies or badly damaged. An Allied communiqué said that in two days the Japanese have lost seventy-six planes, adding "it is believed the air offensive of the enemy has been blunted and his immediate plans dislocated." The Port Moresby battle lasted 40 minutes. The Japs had lost 22 planes at Oro Bay on Sunday.

SITUATION IN AFRICA

Prime Minister Sees General Election Likely This Year—Other News Highlights

CAPE TOWN, April 13 — Prime Minister Smuts' announcement in parliament that, unless something quite unusual happens to prevent it, the general election will be held this year, has directed the thoughts of the nation to politics and political campaigning. General Smuts also told parliament that nothing could be said at the moment about South Africa's policy at post-war council tables of the peace conference; that negotiations for South African lease-lend agreements would start soon; that, as far as any recommendation for mercy was concerned, the appeal case of Robey Leibbrandt, condemned traitor, would be considered on its merits and that opposition attacks on Russia and America were simply asking for trouble.

SHRINKAGE OF LABOR

Fishing and Farms Are Drawing Men Away From Local Dry Dock Employ

The local dry dock reports a shrinkage in the labor supply with men becoming increasingly scarce at a time when it would be desirable to have a ready supply of labor. The cause of the exodus of men from the yard is believed to be the seasonal movement to the fishing and farming industries. The situation is not serious as yet.

IODINE FROM OIL WELLS

The Soviet Union's main source of iodine is now the water from Baku oil wells.

alone. Usually they are guests for dinner at one of the foreign legations here or they entertain themselves.

Evenings Busy
Princess Alice doesn't get many free evenings, either. When she isn't entertaining officially or being entertained, she likes to go to the art gallery or listen to good music.

Trips away from Ottawa don't mean relaxation for they are not pleasure jaunts. She went to Montreal one day recently. The party arrived in time to attend a symphony concert. By 10 o'clock next morning she was at the Neurological Hospital and spent two hours walking about the buildings, talking to patients and hearing about equipment. She entertained guests at lunch and in the afternoon attended a meeting of the Junior Red Cross. In the evening she attended another musicale and returned to Ottawa.

BUILDING QUARTER MILLION

Permit for Two Hundred Wartime Housing Residences Taken Out During March

During the month of March Wartime Housing took out a building permit for two hundred houses in Section Six, the aggregate value being placed at \$250,000. This, together with a few small permits issued during the month, brought building value for March up to an aggregate of \$259,975. So far this year permits have totalled \$252,160 as compared with \$13,250 in the first three months of 1942.

The small permits in March were:
Thor Selvig, Frederick Street, addition to porch, \$425.
J. Kargol, porch, Ninth Avenue West, \$100.
George Thain, small addition, Ninth Avenue West, \$450.

Income Tax Of Farmers

Agricultural Members Would Give Them Same Exemptions as Wage Earners

OTTAWA, April 13 — Agricultural members of the House of Commons urged that farmers and their wives should have the same income tax exemptions as wage earners — \$1,200 for married men and \$660 for married women. Hon. J. L. Hilsley, minister of finance, was not in favor of the proposal. He took the ground that farmers were actually in business for themselves and that to meet the request would be discriminatory against shopkeepers and others in business.

HIT HARD AT BURMA

Royal Air Force is Continuing Its Activity in That Area

NEW DELHI, April 13 — The Royal Air Force delivered a bombing attack yesterday on Malu Peninsula of Burma, hitting railway communications and ammunition dumps of the Japanese. Details have been announced of the big raid of Sunday at Tangoo where installations which had taken coolies weeks to put in were completely destroyed.

Railway Station Is Being Closed

The Canadian National Railways is closing the station at South Hazelton which has been operated since the railway opened in 1914. Station Agent W. A. Gow, who has been in charge since the first, will take a vacation.

Transvaal, the United Party in provincial council has put forward a motion, now through second reading, for a scheme costing \$2,250,000 for widespread extension of existing hospital services.

Major Frederick Harry Bradley, who won the Victoria Cross in the South African War when as a member of the Royal Field Artillery he rescued guns during an action in Natal, died in Gwelo, at the age of 66.

New African types of roofs for modern homes containing no timber have been designed as a result of a national competition held by the building controller.

Chemists throughout the South African Union are now producing their own face creams, tooth powders, headache tablets, as the result of import restrictions.

Fighter Field on Kiska And Attu Bombing Base Are Nearing Completion

Speculation Voiced on What Enemy's Plans May be in North Pacific After Foothold Has Been Completed

AT A UNITED STATES BASE IN THE ANDREANOF ISLANDS, April 13 (CP)—Despite repeated bombing the Japanese are pushing to completion a long fighter field on Kiska Island and a long bomber field on Attu. Eleventh Bomber Command headquarters reports. The Kiska runway, which within two weeks may have zeros booming from it to meet American bombers, has been bombed and Attu has been attacked by four-engined bombers. After the bombings, the Japanese, apparently, crawled from trenches in surrounding fields and used loosened stone.

The runways made indicate the enemy is preparing:
1—To repel naval bombardment with zeros.
2—To repel any landing on the few existing beaches.
3—To harass advances United States bases if possible.
4—To hit United States shipping lines.

Australia Is on Spot

Japan Concentrating Great Forces To North of Commonwealth

ALLIED HEADQUARTERS IN AUSTRALIA, April 13 (CP) — Japan has concentrated 200,000 first line troops and a great air force above Australia and may be expected to undertake an offensive at any time. Sir Thomas A. Blaney told a special press conference today. General Blaney who is commander-in-chief of Allied ground forces in this area, said heavy Japanese air assaults in recent days marked the opening phase of the enemy's struggle to regain parity in the air. "The result of this struggle in the next few weeks will have great importance for us," General Blaney said.

WEATHER IMPROVED

Much More Sunshine This Year in Prince Rupert Than Last—March Pleasant Month

There has been a great deal more sunshine in Prince Rupert so far this year than there was in the first three months of 1942 and precipitation is also up slightly. So far this year the sunshine has aggregated 256.7 hours compared with 186.9 hours in the corresponding period of last year. The precipitation this year so far has amounted to 24.99 inches as against 23.6 inches in the first quarter of 1942.

This March was a much more pleasant month than last. The sunshine amounted to 122 hours as compared with 59.2 hours while the precipitation was only 4.85 inches as against 13.89 inches in March 1942.

No Fire Loss Here in March

Department Was Called Out Fourteen Times, Making 42 to Date So Far This Year

There were fourteen fire alarms in Prince Rupert during the month of March this year as compared with nine in the same month last year. Alarms so far this year have totalled forty-two as against twenty-six in the first quarter of 1942. Fire caused no damage in Prince Rupert this March.

LISTEN GIRLS —

Amboina, that Dutch East Indies island in the war news these days is properly pronounced "AM-BOY-na."

Jap People Are Warned

TOKYO, April 13 — The Japanese government is endeavoring to prepare the people for direct air blows on the Kingdom including this capital city itself. There have been warnings from Allied quarters that such attacks may be expected in the near future.

NAZIS ARE HELD BACK

Five Heavy Attacks in Leningrad Area Repulsed—No Gains in Donets

LONDON, April 13 — The Germans launched five heavy attacks on Monday at the Soviet line before Volkovo, southeast of Leningrad, but were beaten back after losing more than two thousand men in hand to hand fighting, Moscow reported. The fifth attack drove a wedge into the Russians' lines but a Red counter attack restored the former positions. In the Donets Valley the Germans continued the attacks but made no gains. Volkovo is eighty-five miles southeast of Leningrad. This is where the most activity at present prevails on the Russo-German front although the Nazis are making a stiff fight in the Donets area in the effort to get through.

Plastic Resin Building Faces

LONDON, April 13 — Far-reaching and important discoveries in plastic resin has now made it possible for war-injured and civilian raid casualties who lost ears and noses to have natural appearances restored without multiple operations.

Tests of facial features from plastic resin have convinced experts the material may lead to radical changes in reconstructive surgery. One synthetic resin, known as "Portex" can be made to produce either a very hard "ivory" or "bone," a soft, resilient, rubber-like substance or a liquid. It has been used to build noses, cheeks, ears and to replace skin tissues. The substance has the same resilience as healthy flesh and cannot become indented by pressure.

EDITORIAL

DAILY EDITION Friday, April 9, 1943

In North Africa . . .

The battle picture in Tunisia looks better every day for our side. Indeed, it is surprisingly good, particularly the last few days. We and our American and French Allies continue to keep moving forward, narrowing the area in which the Nazis and their Italian stooges are becoming bottled up and improving our own position all the while.

It is reasonable to expect a hard fight somewhere before the enemy are finally driven out of North Africa, as it appears certain they will be soon. However, we had expected and predicted harder fights than we have had before we came this far in North Africa.

Possibly some of the other undertakings which we have come to look upon with such trepidation but which we know we must carry out before we win may come easier than we have been anticipating. Of course it is no time to indulge in wishful thinking. So far we have come along very well preparing for the worst instead of hoping too much for the best.

Acknowledging Good Service . . .

Now that he has retired as a member of the board of directors of the Prince Rupert General Hospital to which he has given active and valuable service for many years, it is appropriate to say a few words of acknowledgement in appreciation of our good friend, Frank Dibb. As far as his work for the hospital is concerned, and he has expended a great deal of energy in effectively forwarding the interests of the institution in many ways, the fine new hospital building, which was erected a few years ago, was the outstanding accomplishment with which he had much to do. Had the building not been erected when it was, one can imagine what the situation would be today as far as hospital facilities are concerned. Mr. Dibb's decision to withdraw from the board will mark a distinct loss thereto and it is to be hoped that his business interests and health will permit of his resuming activity thereon in the not too far distant future.

LETTERBOX

APPEAL FOR "STRANDED"

Editor, Daily News:
 There is a matter of grave importance I feel urged to bring to your attention. It has been discovered during my short stay here in this town and brought to my attention by numerous other people. That is the need of official improvements for the good of all concerned—particularly as regards to social problems of respectable citizens earnest working civilian citizens from other parts of the Dominion and this province who, from one circumstance and another over which they have no control, become stranded—some with and others without funds and afflicted with ill health and unable to get medical attentions as well as hospital space, living accommodations, and assurance of steady employment and the right vocation to meet their abilities, to meet up with their expenses and transportation searches for other employment—if such searches be enforced upon them; also climatic disabilities, and inconvenience of railway time. In some cases they are even afflicted with all these difficulties together in one.

What therefore can and are such people to do, I ask? Must they be left to perish and die without care from influenza, pneumonia, and pleurisy, having no place to lay their heads and rest in safety from the elements as well as thieves and annoyance from drunkards or are they to be salvaged from the wreck of their illnesses and brought back to good health and usefulness again and so continue to become worthwhile citizens that will in turn be looked upon to do the same for you should you yourselves meet with similar affliction and misfortune?

If you people of Prince Rupert fail to help other deserving men and women citizens so stranded from other cities who came out to do their bit in the war effort, then how can you expect them to help you when you need help? The problem works both ways. Are we all exploitative bleeders and takers who can not find a spot in our souls and hearts to be givers and so live the life we really believe in and claim to be fighting, working and receiving value for? No citizen can prosper for long who takes all and allows nothing for seed, food, health, for the up-keep of their country, their land, and their national citizenry one to another.

Come let's reason sanely together without sensitive jealousy, evasive buck-passing and the in-

feriority complexities of thin skinned sarcasm upon this matter men and women! in earnest responsible official conference. Let us show the world we are worthwhile people and are capable of taking the lead and setting the better example one to another. This thing of firing people and railroading them with framed dishonor—on flimsy pretexis in prejudice because decent conscientious men and women dare to progressively complain, showing the need for improvement and dare to stand up for that which is right won't make responsibilities any better but worse and will not get you very far.

All things—misdeeds and misjudgments—have their ending, and will have to be answered and accounted for some day sooner or later for it is law of science that it shall be so! The question now is, who's side are we on the common enemy or the Canadian people in general? Too, it's all very well for some sections taking a stand for prohibition but, if we haven't anything progressive to provide to take the place of liquor in the way of rescue stations or hostels for unfortunates, and adequate district nursing, medical and hospital service. Also reading and writing rooms, and recreation halls and comfort stations and lockers

for the safe keeping of their belongings, caretakers and instructors, then of what good and use are we as citizens? We are thus no better than the drunkard and show ourselves to be neglectful and saboteurs of the first order working against our country's interest and well being. As ye sow so shall ye reap!

If the fighting military can jealously look after their members surely the same can be done for the working citizenry.

How about it folks! what do you say? Let's all get together and do something progressive, definite and immediately about this tragic matter of moment that I speak of and that Alderman Black gave voice to in the last issues of your local papers. The way matters are now, it obviously is necessary to get suicidally drunk—not only for the sake of finding accommodation in jail, safe from the elements but also to shut one's eyes to the blues and the impossibility of officialdom, and appalling disrespect and don't care inefficiency of those that should be responsible and who are not. Elaborate buildings are not necessary to meet this very pressing need so long as they are habitable and those who cannot afford to pay or have not sufficient funds to meet their other needs should not

be charged. But those who can should.

We are all guilty of this oversight and neglect, there is no denying this fact. Some are not worth helping I am ready to admit but there are a lot that are deserving and when people are sick it is not for us to question the reason why's and wherefor's or to say it serves them right! No one is perfect. They are in need of help! Especially when they ask for it and appeal for it. Not merciless, cowardly, unprincipled condemnation.

Yours truly,

HAROLD H. THORNTON

VICTORY IS IN *Your* HANDS

MAKE NO DOUBT OF IT. We're on the offensive this year. The goal of Victory today is nearer than ever before. But it won't be won alone by soldierly courage or good generalship or even good luck. It will be won only if these qualities are backed with every dollar of financial strength Canadians can muster.

Can't you realize this? Can't you see that, if it took so many millions of dollars before just to maintain a stout defence, it's going to take more...millions and millions more...to fight offensive warfare. And that means money from you...loaned on your own country's guarantee that you'll get every cent of it back.

Soon you'll be asked to buy Victory Bonds...to buy as you've never bought before. Make your plans NOW. Pledge yourself that you'll hold nothing back. Determine to buy and buy...to the point of self-denial. Victory is in your hands.

LETTERBOX

LOCAL CENSORSHIP

Editor, Daily News:
I have had the pleasure on more than one occasion in reading your editorials about the criminal folly of repeating rumors tending to the discredit of other members of the United Nations and of their efforts in the prosecution of the war. I find the paragraph regarding the inaccuracy of United States bombers prominently displayed in your War News column of April 10 sadly at variance with these. Might I suggest that even if such items are telegraphed by some correspondent more rabid for sensationalism than for unity it would be good practice for you to follow

Local Tides

Wednesday, April 14		
High	9:05	16.1 feet
	22:06	16.7 feet
Low	2:46	10.5 feet
	15:30	7.1 feet
Thursday, April 15		
High	10:06	16.9 feet
	22:49	17.4 feet
Low	4:05	9.8 feet
	16:26	6.8 feet

your own precepts and to exercise local censorship. The item may be true, although it savors more of the work of an Axis propagandist but the repetition of it can serve no good purpose and can only be classified as both mischievous and dangerous. D. McN. LOWE.

From The Waterfront
Halibut Fleet Completes Arrangements for Departure to Grounds—Herring Bait Situation

The Prince Rupert halibut fleet will start moving out to the Area No. 2 grounds on Wednesday of this week, the day before the official opening of the fishing season. Boats with names starting with the letters M to Z of the alphabet will be the first to go out. Eight days later the A to L boats will depart. This was decided upon at a meeting yesterday of the Canadian Fishing Vessel Owners' Association under the chairmanship of Capt. Carl Giske. There will be a lay-over of five days between trips. The fishing quota for Area No. 2 has been increased from 2800 to 3500 pounds per man per trip and for Area No. 3 from 3500 to 4500 pounds. This will tend to speed up the fishing and, with more boats expected to be engaged in the fishing this year than last, the Area No. 2 season may well end even earlier than last year when it was finished on June 29. Nothing has yet been settled definitely as far as the manner in which halibut is to be bought and marketed this season.

Fresh herring having been reported in Alaska, the Canadian Fish & Cold Storage Co. sent a racker north in quest of the fish but it returned with none. If a normal supply of fresh herring is found this year, there will be sufficient to meet the bait requirements of the year, it is stated by Col. J. W. Nicholls, general manager of the Canadian Fish & Cold Storage Co.

"The appointment of George W. Nickerson of Prince Rupert to the International Fisheries Commission to replace L. W. Patmore is one of the most popular appointments that has been made in a long time by the Federal government," writes a correspondent on the Queen Charlotte Islands. "He is well known on the Islands and has done much to further their development. He is very popular and has a host of friends. All will wish George the best of everything in his new position."

THREE NATION CO-OPERATION
LONDON, April 13 (C.N.Z. Army dispatch)—After a big raid on Dunkerque, American bombers were escorted to bases by Norwegian fighter planes led by a New Zealander, Wind Cmdr. P. G. Jameson, D.F.C. and bar. It was in a deep Norwegian fjord that he earned his D.F.C.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

The family is all home again and back at work. But try to make anyone think we were on anything but a holiday at Victoria. We really did work for three days, going into session at nine in the morning and, but for our meals, sitting through session after session clear through to midnight. How those men can talk! And believe it or not I just sat and listened the whole time! However I made up for it the rest of the trip. Everyone was so nice to me on the trip. Going down south I complained bitterly because there was no late supper served so the chief steward presented me with a half a loaf of stale bread tastefully wrapped in what they wrap bread tastefully in. Well, I asked for it.

We had quite a bit of trouble with Breen though. After all it's asking a lot for a chap to keep his mind on a conference when a brand new fiancée is in the same town and practically on the same street. Nevertheless he made a good show of intelligent interest at times—I say at times.

While I was away Mrs. Keilback took over the reins of office and presided so capably that I just had to step in and take over from the day of my return. And Mrs. Hill-Tout was faithful in her hospital visiting, reporting the following arrivals—to Mr. and Mrs. N. B. Winsby of the Army a baby boy named Brian Kenneth on March 30. Brian Kenneth weighed 8 1/4 pounds when born. To Mr. and Mrs. A. H. Gibson, a baby girl was born on April 2. No date and no unit was given for this young lady.

Dutch has not turned up since our return and we fear he may be sick. Mrs. Pullen tells Breen she saw Dutch drinking frequently from the stream in her garden—we are afraid he may have eaten something to poison him. Poor old Dutch!

THESE TWO ARE DYNAMITE TOGETHER!
The screen's most exciting lovers! The love sparks they kindled in "Woman of the Year" are really blazing now! Every fiery moment of the best-selling novel!
