These things are needed in vast quantities. The wounded in Russia are piling up. The refugees are increasing as the Nazis in their fury burn more and more homes and destroy family possessions.

A million dollars for supplies to Russia is not enough when measured by their great deeds and mountainous losses. The hope is that more will be subscribed by Canadians.

But at least this much help should be given to those who are dying and suffering in our stead. Their great drive on the Nazi armies is hewing a pathway toward early victory. An early victory will save many sons for Canadian mothers.

A donation to the Aid to Russia Fund is an investment in victory. It is a way to save Canadian lives. It is a way of letting the hard-pressed Russian people know that we are with them in the fight against a common foe. It is a way of building a firm bridge toward international amity.

Don't delay this message of sympathy! The quicker contributions come in, the quicker will relief supplies be dispatched to Russia.

TUESDAY, JANUARY 19, 194 THE DAILY NEWS PAGE-FOUR Help Our Brave Allies We Commend---"LET'S The Canadian Aid to Russia Fund ALL FIGHT!" to your most generous support ********** HELP TO SEND SAYS WATTS & NICKERSON Reddy Kilowatt AID TO RUSSIA

Though the campaign for a million dollars is only about half over, the officers of the Canadian Aid to Russia Fund are already completing arrangements for a shipment of supplies to Russia.

The Canadian Aid to Russia Fund is already carrying out its aim to dispatch to Russia swiftly, the warm clothing, bedding and medical supplies so urgently needed there. The aim is to send ship after ship laden with necessaries for the Russian people.

It is hard to have inward peace when the visions arise of Russia's women and children. Those thinly clad, unfed people as they stand before their ruined homes, with the wind-swept, snow-laden forests and steppes to engulf them. Many have fallen and more will be lost, if we do not help.

In the hospitals over there lie children, wounded and tortured. They need medicines, blankets, food. Men and women in Russian cities work long hours turning out munitions, planes, tanks, in unheated factories. One woman wrote: "It is so cold, the metal burns our fingers." Yet they keep on working for our front. They wrap newspapers about their chests and backs to keep the wind from cutting into them. Through deep snows and over icy roads, women on active service march smartly, cheerfully, to their posts-their feet clad in running shoes.

To those in Canada who have already subscribed to the Aid to Russia Fund, what a relief it is to know that at this minute, their money is speeding life-saving materials to our brave Russian comrades.
