## Congress Overrides Veto President's Cautious Anti-Strike Measure in Law

### Stunning Reversal of President Roosevelt's Wishes May Have Serious Reactions—Coal Walk-out Is Immediate Problem

WASHINGTON, June 26 (CP)—The American Congress, in a stunning reversal of President Roosevelt's wishes, put American war production today under the whiplash of an anti-strike law so stringent that union leaders declared it a "major disaster." The Republicans saw in the new law a blow at the administration and resentful coal miners exploded in new revolt.

## VICTORIA IS CONTACTED

### But Nothing Can Be Done There In Regard to Local Dispute

Through Hon. H. G. Perry, minister of education, who is a visitor in the city, there were telegraphic exchanges yesterday with Hon. G. S. Pearson, minister of labor at Victoria, in regard to the situation at the local dry dock in regard to matter of standard of meals being served at the commissaries. The matter had been taken up with Mr. Perry by the local Boiler-makers' Union.

Mr. Perry's message to Mr. Pearson was as follows:

"H. S. Harrison, president, Boiler-makers' Union, officially requested me advise you of serious situation among shipyard workers only which threatens immediate strike vote owing to unsatisfactory food in both quality and quantity served in commissary under operation of War-time Housing. He urges you send investigator here immediately, believing such action will strengthen recommendations to Humphrey Mitchell and probably avert strike. Above followed my questioning as to provincial power and responsibility. Understand no difficulties with management who, it is said, concur. I recommend you send man in quickly and wire me accordingly re such advice to convey to union."

Mr. Pearson's reply was as follows:

"Replying your telegram British Columbia labor department has no jurisdiction whatsoever over employees in shipyard industry in Prince Rupert. In my judgment it would be improper for me to interfere in this when it is already being handled by the federal labor department. Under circumstances cannot agree to send a representative in."

## REICH IS HIT HARD

### Bochum and Gelsenkirchen Are Principal Targets

LONDON, June 26 (CP)—Heavy Royal Air Force and Royal Canadian Air Force bombers spread new destruction last night in the German Ruhr, hitting targets at Bochum and Gelsenkirchen and one military observer declared that neutralizing of this area was nearing completion. This observer estimated that nearly 30,000 tons of bombs, many of them blockbusters, had been cast upon this compact Nazi industrial region since the massive bombing began three weeks ago.

The normal industrial haze over the Ruhr is said to have thinned out and is reported to have actually disappeared in some places.

Thirty big aircraft, three of them Canadian, failed to return from last night's raid.

## MESSINA IS OBJECTIVE

### Allied Headquarters in North Africa, June 26 (CP)

—More than 100 United States heavy bombers, striking in the greatest raid of the Mediterranean war, hit the vital Straits city of Messina in eastern Sicily yesterday and kicked up such a huge cloud of fire and smoke that the entire target area was obscured at the end of the 18 minute attack.

Rivalling the attack on Messina, which is essential in the Italian and ferry links with the Italian mainland, Royal Air Force Wellingtons roared over Obbia in northern Sardinia the preceding night, Thursday, and started at least seven fires and a big explosion in the port area, near the railway station, and among military installations and ammunition dumps.

Describing the Messina attack officially the report said: "The port area and marshalling yards were thoroughly smothered by bomb bursts and, when the last raider attacked, there was so much smoke and dust that further observation of damage was impossible."

Despite desperate opposition only three planes were lost.

## NO WORD IS HEARD YET

No word has yet been received in Prince Rupert as to what W. R. Devenish, general manager of the western region for the Canadian National Railways, may have accomplished or is doing in Montreal in connection with demands of war workers at the local dry dock for improved eating conditions at the local commissaries.

Mr. Devenish has been in Montreal for the last couple of days, it is understood, having gone east from here to take up this and other matters. It is expected a satisfactory answer will soon be received.

## DEAD FROM BOAT FIRE

### John Barseth Dies in Fire on Fishing Boat at Cow Bay

A fire, the second in the Cow Bay area in less than 24 hours, broke out in a boat at the rear of the Bytown Machine Works at 5:50 this morning, and brought death to John Barseth, a fisherman. Barseth died of suffocation when trapped aboard the Domino II, which was moored at the rear of the repair shop, in a fire caused apparently when he tried to light a faulty oil stove in the cabin of the boat.

The burning boat also ignited the rear of the Bytown Machine Works itself but this was soon put out by firemen.

When the fire aboard the Domino II was put out, the cabin had been destroyed, and the body of Barseth, who is about 45, was found on the floor under the table with the head under water. It had been slightly blistered by the heat but had not been touched by the flames.

The Domino II is owned by Bert Sheppard, local fisherman, who is in hospital in Vancouver.

## FIRE AT COW BAY

### Chief Lock Turns in Alarm and Damage Light Due to Prompt Action

Alertness and good luck on the part of Fire Chief H. T. Lock were the probable factors in saving a burning building from complete destruction and its occupants from fire loss yesterday afternoon.

While driving in the vicinity of Cow Bay shortly after 2 o'clock Chief Lock noticed smoke pouring from a dwelling just off Third Avenue. He investigated, and then turned in an alarm to the men of his department. The blaze, which started when newly laid wallpaper caught fire from a kitchen stovepipe, had gained a good hold in the short time before the fire department arrived.

The building, which was owned by Joseph Kilby, was occupied by Mr. and Mrs. Willis, Mr. Wier and Mr. Goodmanson, none of whom were home at the time.

From the kitchen the fire broke into the Will's apartment and then swept through Goodmanson's room into the attic, where it was confined by the fire department until it was put out. The flames and smoke reached considerable proportions before being overcome.

The building was partly covered by insurance but none of the occupants' effects, which suffered mostly water damage, were insured. Estimates of the damage were not available this morning but the building was said to be repairable.

In this fire the city's new multiple-pump fire engine went into action for the first time, and firemen's comments on its qualities were very favorable.

LONDON, June 26 (CP)—Britain's Parachute Regiment has been given a new cap badge to substitute for the badge of the Army Air Corps of which the Parachute Regiment forms a part. The design is a parachute on spread wings with the Royal Crest above.

## Invasion of Europe . . .

There has been so much propaganda and talk from our side about the impending invasion of Europe that we can hardly believe that a move along this line is not the real intention and that it will not come at an early date. True it is a war of nerves but even in a war of nerves threats can be carried to a point where they must be implemented unless prestige and face is to be lost. That seems to be the position now in regard to the talk of Allied invasion of Europe.

One of these days very soon, we again venture to suggest, we will be hearing the stirring news of this great phase of the war being on. Then we will be having the second front. It may be a costly business but we may have confidence that the outcome will be favorable to our side.

## Federal Political Situation . . .

In these days of unrest, diverse movements, and changing conditions, the major political parties in Canada must offer vigorous policies to keep pace with the times and to reflect all phases of public opinion. In other words, no longer can the major political parties travel ahead on familiar roads even if it may seem to "old school politicians" that the new elements are trying wild-cat theories or to use, as it has been said, "deceptive short-cuts to paradise, across flowery meads that may turn out to be bottomless morasses" instead of so-called stable, steady and strong alternative monopoly of governmental power by these major political parties.

In tests of public opinion since the last general election of 1940 both major parties have suffered serious blows to their prestige in federal by-elections. The Liberals have not forgotten that in Winnipeg North Centre by-election in December, 1942, their official candidate was not only badly defeated by a 34-year-old opponent but he lost his deposit, though three federal ministers, Howe, Crerar and Macdonald, supported him in the campaign. The Conservatives have not forgotten that an almost unknown candidate was able to administer a crushing defeat in Toronto South York by-election to a former Prime Minister, Rt. Hon. Arthur Meighen.

Four forthcoming by-elections will be extremely serious tests of public opinion which may influence the King government's decision for or against a general election, even if there is now an outward pretense that there is no immediate prospect of it.

## ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARBUTT  
The Hostess

I have a new map for the Hut, this time it's a world map. Mr. Scadden has mounted it and varnished the surface in the same manner as he fixed up the map of Canada and the map of the United States. The boys and girls get a great deal of pleasure out of these maps and there are nearly always one or two in front of them comparing notes as to where their respective homes are. Mr. Scadden said he had quite a job getting enough three-ply to mount it. Every day something else seems to be gone off the market and yet we get along just the same. It's not that hard times are coming but that easy times are going.

And tonight it's a thank you to Mrs. Johnson for a table lamp she gave us. And a box full of playing cards, and did we need them! I think the boys must eat them they disappear at such a rate.

The dances are over for June and I'd like to thank the Women of the Moose who took over the duties of chaperones for the month. It was a very heavy month, contrary to expectations, and they served us very faithfully. July is taken over by the Queen Mary Chapter of the Imperial Order, Daughters of the Empire.

Bob Gibson is back with us again. He looks brown and the better for his trip east. Now with Breen home in a week we'll have the whole family together once again.

Well it seems as how the C.W.A.C.'s are settling down nicely and my spies tell me they all seem to have their own particular boy friends. Contrary to popular opinion they aren't all Navy, the Army seems to have done right well for itself.

Summer is here, calendar or no calendar. The Navy boys are wearing their white dickeres.

**NOW IS THE TIME TO STRIKE**

It's time to strike! For over three long years the Army has been training . . . impatient . . . straining for action . . . now we're ready to fight like all-hell-broke loose. There's nothing "phony" about the Army's role . . . **THE ARMY MUST FINISH THE JOB!**

Don't fool yourself that the enemy will simply fold up . . . we expect heavy casualties . . . we'll need reinforcements. It takes a year to train a soldier. That's why your active help is needed—not next year—

**BUT RIGHT NOW! Men and women, if you are of military age and physically fit, volunteer now! Be ready to play your part in order to hasten the glorious final showdown.**

For information regarding enlistment in the Canadian Active Army, apply to any Army Recruiting Office or your local Civilian Recruiting Adviser. In Vancouver, apply to Recruiting Offices at Vancouver Barracks, Granville St. (Old Hotel Vancouver).

**THE ARMY NEEDS . . .**

**MEN**, 18 to 45 years of age, and physically fit, for the Canadian Active Army.

**YOUNG MEN** of 17, with Grade VIII schooling, for special trade-training courses.

**WOMEN** from 18 and under 50 years of age, without dependents, for the CWAC.

**VETERANS** of the last war, under 55 years of age, for the Veterans' Guard.

**CANADIAN ACTIVE ARMY**

The younger generation probably won't know much about Max Beer, who died in London, but to those old in the Socialist faith he was ranked among the greatest historians ever produced by the movement. Among his works is "History of British Socialism."

The war is saving money for a man in southwest England who has high blood pressure. He used to pay \$50 to a surgeon to be bled, but nowadays he follows the mobile blood collecting teams of the Army Blood Supply Dept. and has it done for nothing.

Salmon Canning Season Commences  
 Tomorrow Night—Heavy Week  
 Of Halibut Landings

Sockeye fishing opens on the Skeena River tomorrow evening and the canneries and fishermen are now in readiness to start work immediately. Evidently, such difficulties as may have existed have been removed and a smooth opening is expected. Dispatches from Ottawa during the week told of a settlement by the fishermen at the ceiling. As far as the run itself is concerned, the expectation is that it will be of only medium volume on the Skeena. There have been some signs of sockeyes in the spring nets already.

Halibut landings at Prince Rupert for the 1943 season up to and including yesterday totalled 7,189,400 pounds as compared with 7,480,019 pounds last year at the corresponding date. The Canadian landings for this year now amounted to 3,854,200 pounds in comparison with 2,894,719 pounds while the American landings are 3,335,200 pounds as against 4,585,300 pounds. Landings during the past week, when smaller vessels of the Canadian fleet were landing with the closing of Area No. 2 to fishing, have been heavy at an aggregate of 886,600 pounds of which 371,000 pounds was from American vessels and 515,600 from Canadian. Prices held at good level during the week with 23c and 17c and 16c, the high for Canadian, received by the Svalbard for 7,000 pounds and the low 20c, 17c and 16c which many boats were paid. For American fish the top price of the week was 24c and 18c paid the Atlas for 40,000 pounds and the low 20c and 18c which the Kanaga, Eileen and Bonanza received for catches of 47,000, 46,000 and 39,000 pounds respectively.

General Sir Harold Alexander, commander of the Allied ground forces in the Battle of Tunisia, is shown, CENTRE, in flying jacket, watching a phase of the battle in the last big drive that culminated in the capture of Tunis and Bizerte and the complete collapse of Axis forces.  SHOWING**

Galaxy of Stars Excel in Tune-  
 ful "Cabin in the Sky"

Boasting a galaxy of stars, the film version of the famed Broadway musical, "Cabin in the Sky" comes to the screen of the Capitol Theatre next Monday and Tuesday.

Once again scoring in the role she created on the New York stage, Ethel Waters, as the faithful and loving Petunia, struggles to save the soul of her well-meaning but weak-willed husband, Little Joe, played by Eddie (Rochester) Anderson. Kenneth Spencer, noted concert singer, portrays a "General" of the forces of good who battles for her against the forces of evil represented by Lucifer, Jr., Rex Ingram.

Lucifer tries to achieve Little Joe's downfall by throwing temptation in his path in the person of glamorous Lena Horne, newest Hollywood singing sensation. But Petunia's love and faith is stronger, and, with the aid of the forces of good, Little Joe is saved.

**Litling Melodies**  
 Ethel Waters sings the litling tunes, "Happiness Is Just a Thing Called Joe," "Cabin in the Sky" and "Taking a Chance in Love." Lena Horne sings "Honey in the Honeycomb." Rochester and Miss Horne sing the mirthful "Consequences" in duet.

Others in the cast are Louis Armstrong of the hot trumpet, the comedy teams of Moke and Poke and Buck and Bubbles.
