Apparently, there is need for some attention being paid to the venereal disease situation in the city. Otherwise it would not have been brought before the city council with a view to taking a line of action to lessen its further spread.

At one time, venereal disease was one of those things which we were shocked to even hear mentioned. It just wasn't decent to talk about it. The result was that there was no intelligent discussion of the subject there was no intelligent discussion of the subject them well the reliable knowledge about it. subject, there was little reliable knowledge about it The soccer game between Air on the part of people generally and the principal aim Force and Ontarios scheduled Women as Well as Men Will already begun a building pro- Watermelon seemed to be to conceal its presence rather than com- last night at the Acropolis bat it.

The fact of the matter is that public dicussion of Trucks venereal disease like other unpleasant matters can Americans often be of the utmost value.

There is no discretion in trying to cover up or ignore such things. The old saying that "Where ignorance is bliss, 'tis folly to be wise" does not go with venereal disease for instance.

Fall of Sicily . . .

It was not so very many weeks ago that Rome the women's tennis world, was war. The problems connected was saying a million Allied soldiers would be required to take Sicily. Now Sicily has been taken by a force known to be less than one-third of that number and, while there have been some casualties, that force is still largely intact. Large quantities of Axis equipment have been captured and, doubtful asset that they are, more than 140,000 enemy prisoners have been taken.

The record of Sicily is a good heartening one for our side. A few months ago some of us could hardly to Mickey Walker December 3 even picture being in possession and control of all North Africa, to say nothing of Sicily as well.

The next thing we may well anticipate is further territorial gain in Europe-in Italy proper, in the cross is dark blue threaded McCorquodale, parliamentary Balkans, in Norway, in France or even Germany it- through a bar adorned with secretary for the Ministry of self. Who knows in this war of surprises?

Possibly the Sicilian campaign has been getting an undue portion of the limelight these days. Possibly we have been inclined to lose sight of the great victories of our Allies in Russia and the corresponding reverses of our enemy.

The successful operations under direction of the Americans in the South Pacific area may be of greater importance than the most of us have attached to them.

There are many things for us to feel pleased about in the way the war has been going for our side these past few months. We have definitely started to win, even though a lot of us have not come to a full realization of the fact as yet.
