Question of Etiquette . . .

Early irthe war, the newspapers were kind enough to give the eading public explanations of the rank badges of the figting services. It would be too much to say 1922—Toronto Granites. that they ave all been remembered, but the average lay- 1924 Sault St. Marie. man at last knows that some slight difference in rank 1925-Port Arthur. exists beween a group captain and a pilot officer.

It is uggested that the press might now perform a milar service in explaining the gradations of the Ot- 1929 Port Arthur. hierarchy. We have controllers, administrators, 1930-Montreal A.A.A. ors and co-ordinators, but how they are to be re-

garded by the lay public is a mystery. Does a director's wife precede the wife of a controller in going into din- 1935—Halifax Wolverines. ner? Are there gradations of rank among the officials, 1936-Kimberly Dynamiters. so that the co-ordinator of tin cans is senior (or junior) 1937—Sudbury Tigers. to the co-ordinator of cat food?

Official documents give no clue towards solving these mysteries of etiquette. For example, the recent order A-546 respecting office machinery is called an administrator's order. It provides for certain reports to be made to the director of office and accounting machines and it is signed by the co-ordinator of metals.

It was pleasing for the editor, strolling along Third Avenue early one morning this week, to notice the courtesy in which the soldiers on a United States army truck handled lady passengers on their way to work at the defence project offices. A set of stairs was lowered from the rear of the truck and, as each young lady ascended, a smart soldier offered his hand and assisted her up. Just an amenity that makes a favorable impression and too seldom is seen these days!

Shipbuilding as Permanent Industry...

This paper has argued that shipbuilding should be a peace time industry of large proportions in Canada and we have also urged that our shipbuilding plants should be kept busy after this war is over. To this policy some industrialists agree, others seem uncertain, occasionally we find a man who ridicules the idea. Here, however, is the opinion of a man who should really know something about it. Henry S. Ratcliffe of the British Ministry of Labor said on a visit to this coast:

"Shipbuilding should be fostered as a post-war development on this coast-not viewed merely as an emergency wartime program.

"There is no reason, geographically or otherwise, to prevent the continued development of shipbuilding here

as a post-war industry."

He stressed that after the war there would still be a great demand for tonnage and the facilities are here to supply it. Even when the demand for deepsea tonnage slackened, he said, there would still be a demand for coastwise vessels."

"Less Peeping," who persists in declining to have his name published, has sent to the Daily News editor another of his masterpieces on the present liquor situation. Unfortunately, the letter does not contribute anything of value to the main issue but endeavours to justify the correspondent's unwillingness to permit his name to be published. He also presumes to instruct the editor in "press etiquette."

Triple Funeral On Winter Day

Local Business Man and His Brother and Sister Laid to Rest in Multiple Rites

BRAMPTON, Ont., March 18-It was a bleak, icy day in the depth of the most severe cold spell Onario has had this winter when the triple funeral took place in his "Home of the Flowers City" Jack Woods, well known Prince Rupert business man, and his younger brother, James Woods, and sister, Miss Sadie Woods. Jack voods had passed away in Prince Mrs. Annette Woods, who has of water supply. since returned to Prince Rupert.

Anyox Bride and Terrace Groom

Here Monday Night

race-born groom were the princinals in an interesting wedding with a real northern angle which took place quietly on Monday evening at the deanery of St. Andrew's Anglican Cathedral, Very Rev. James B. Gibson, the dean,

dating Miss Shirley Inez Hague ly daughter of Mr. and Mrs. eorge Hague of Prince Rupert, beame the bride of Able Seaman mil Tmith third son of Mr. and Mrs. E. M. Smith.

The bride, who was given in marriage by her father, was charming in a floor-length gown of Wedgewood blue sheer. Her finger tip veil of matching color was held in place with a spray of pink carnations. The colonial bouquet was of pink and white carnations.

The bridesmaid. Miss Pearl Menzies, was pretty in a floorlength gown of maize sheer. Her s and aches usually start to veil, extending to the shoulder, 1 48 hours. Continue for 30 was held in place by a spray of yellow flowers. She had a colonial bouquet of iris and pink carna-

At a reception which followed at he home of the bride's parents riends gathered to extend congratulations and best wishes to the couple. A toast to the bride was proposed by Chief Petty Officer Percy Sweatman and was responded to by the groom. A beautiful wedding cake was duly cut.

TRAPPERS

Can't you see plain enough there's a trap laid for you at the waterfront? They are paying a man \$50.00 a week and a big commission to keep you from coming up town.

Come up town and I'll advance you the money to send your furs to Little Bros., Vancouver. I'll always pay more than you can get at the waterfront. I'm in the market for everything.

full of nourishment.

Most for the Money

Vegetables are easily the biggest yielding crop one can grow. Not only can most lines be grown close

Small vegetables like lettuce and radish require rows only 15 inches apart. Beets, beans, carrots, peas and spinach need a little more space between, while potatoes, corn and staked tomatoes must have a couple of feet to thirty inches. Space may be saved with the latter type if something quick-maturing such as lettuce and spinach are planted in between. The bigger things will not need the full room at first, and by the time time they do the early crops will be out of the way.

If room is extremely limited, then experts advise confining vegetables to such heavy yielders as beans, lettuce, carrots, beets, enions, etc. A 20-foot row of any of these will supply many meals for a small family. The expert who appreciates garden freshness will also include peas and corn. These things take up more room, and at least 25 feet of row is needed for a worthwhile crop, but only from the garden right at the door can really fresh corn and peas be obtained.

Hot Beds A hot bed for starting garden seeds early is usually prepared in ting shoes muddy, then the rake March. In consists of a bed of can be brought into play. manure, which supplies the heat, In both new lawns or in patchabout 18 inches deep. On this, two ing, the soil should be raked fine or three inches of fine soil is and level. Authorities advise sowplaced and after the bed has heat- ing only the highest quality ed up and then cooled down again seed mixtures, as thick as direc-(a matter of three or four days) tions specify and, of course, when the seed is sown in rows a few there is no wind blowing. To get inches apart. The bed is protected even results it is best to make by rough boarding along the side double sowing, one across and one and on top, and sloping towards lengthwise. Small patches can be the south about 10 to 18 inches protected from the birds by brush. above the bed is placed a window Both new and old lawns benefit plants are wanted, these may be from rolling while the ground is sash well glassed. If only a few still soft. Grass, like any other started from seeds sewn in flat plant, needs good soil and an anboxes indoors and placed in sunny nual application of fertilizer is windows.

Lawn Work Early

Any work with lawns should be started just as quickly in the "What's that building?" asked spring as possible. This does not the stranger. mean that the soil should be work- "That's the asylum for the The Pribilof islands in the Ber- ed while it is still wet. That sort blind," said the native. no Sea, famed for their seals, of thing never helps in any kind "Go on, you can't fool me," said were named for a Russian who of gardening. But once one can the stranger, "What's all them walk over the ground without get- windows for?"

advisable. This pushes growth so that many weeds are crowded out. Grass is a cool-weather plant. Color, too, benefits from fertilizer.

"CASABLANCA" IS SHOWING

Humphrey Bogart and Ingrid Bergman in Film of Action, Drama and Intrigue

Replete with action, drama and intrigues, "Carablanca," taking together but with some things like its title from the Algerian city radish, spinach, lettuce and car- which has been so much in the rots, for instance, a second crop war news of late, comes as the feacan be harvested in a single sea- ture picture to the screen of the Capitol Theatre here this Friday and Saturday. The story has to do with refugees from war-torn Europe and their attempts to secure exit visas to the Americas. Starred in the film are Humphrey Bogart, Ingrid Bergman, Paul Henreid, Claude Rains, Conrad Veidt, Sydney Greenstreet and Peter

Although the film deals generally with illicit trade in visas, the love story of Bogart and Miss Bergman figures prominently and is responsible for much of the swift pace of the picture. Opening in then Vichy-controlled Casablanca, the picture goes back, in retrospect, to Paris just prior to the Nazi occupation where the principals meet and fall in love. Later they meet again in Cacainnea. It is a tender love story tragic overtones played regainst a background of chaos and conflict but ending on a new | note of hope. .

La Medina, the mysterious viceinfested section of Casablanca and criminal headquarters of Algiers, is one of the principal locales of the picture.

> Mother: "Johnnie, dear, I was while for herself." hoping you would be unselfish enough to give your little sister the nen for a while): "Well, mo largest piece of candy. Why, even that old hen will give all the nicest dainties to her little chicks and take only a tiny one
