DR. MANDY IS MOVING

Resident Mining Engineer for Provincial Government Transferred to Vancouver

Announcement is made of the transfer of Dr. Joseph T. Mandy, resident mining engineer here for the provincial department of mines, to Vancouver to take charge of the Vancouver office of the department. Dr. Mandy will be leaving here the early part of May, accompanied by Mrs. Mandy and son. Dr. Mandy will continue to supervise outside field work in the northern and central part of the province from Vancouver while T. Norton Youngs, formerly located here and for the past year at Victoria, is returning to Prince Rupert to take charge of the assay office and ore sampling plant.

Dr. Mandy has been located here as resident mining engineer since 1929. At first he was in charge of the northwestern mineral survey district but later this was extended to take in the north central portion of the province. He has been a trusted and efficient official whose expert advice and assistance has been widely sought by prospectors, mining companies and others interested in the mining industry.

Long before becoming resident engineer, Dr. Mandy was identified with the mining industry in the northern and coastal portion of the province. Among other organizations he was field engineer for the United States Mining, Smelting and Exploration Co. Prior to coming west he was in Northern Ontario in the Bobalt boom days with the Nipissing Mining Co.

Among Dr. Mandy's achievements in connection with the development of the north has been the recognition by him of several important mineral deposits which has led to their development into producing mines. Included in these are the Surf Point gold mine on Porcher Island near Prince Rupert, the Polarix Taku gold mine on Taku River and several placer-gold properties in the Atlin section.

An important contribution to the war effort by Dr. Mandy was the immediate recognition for the original stakers by him of the important mercury deposits of Pinchi Lake and the existence of a continuous mercury belt in that area. Dr. Mandy's diagnosis in this regard has resulted in several additional important discoveries of mercury deposits and the development of the most important mercury producer in the British Empire at the time of a critical need for this metal.

Dr. Mandy's advice in connection with mining matters is continuously sought and valued by prospectors and mining operators and he has earned a reputation for sound judgment, technical skill and integrity that is a by-word in the north.

Dr. and Mrs. Mandy will both be greatly missed in Prince Rupert where they have made themselves valuable members of the community in various ways. Their activities have included work among the children, in the church, as lecturers and elocutionists and in horticulture.

Mr. and Mrs. Young, on arrival here early in May, will reside on Market Square in the residence connected with the assay office.

Indications are That Axis is Planning to Make General Evacuation—Headquarters Moved to Sicily

ALLIED HEADQUARTERS IN NORTH AFRICA, April 24 (CP)—The British First Army has taken Long Stop Hill, 28 miles west of Tunis, dispatches from the front said today, and it was also stated that United States troops have advanced six miles toward Mateur, 18 miles southwest of Bizerte. Armored units of the First Army hammered out a gain of six or seven miles on the Goubellat-Bou Arada sector, it was announced while a United States unit hacked its way for seven miles through stiff enemy fire northeast of Beja and north of the Beja-Mateur road.

Although Allied aerial sorties yesterday numbered 1,500, only six Allied aircraft were lost against diminishing Axis opposition.

It was announced that important convoys had reached Malta and Tripoli, bearing vital supplies and war materials for Allied forces.

There are continued signs that the Axis is making hurried plans for a general evacuation. Make-shift embarkation points are being prepared under incessant aerial attack by the Allies.

The enemy's military headquarters are reported to have been already moved to Sicily.

An entire fleet of twenty large Axis transport planes and ten escorting fighters was shot down over the Gulf of Tunis yesterday. Each of the transports was capable of carrying 120 soldiers or ten tons of cargo.

Easter Greetings...

Easter brings us hard-boiled eggs, rabbits, flowers, hot cross buns and Easter cards. Strangely enough, most of these present-day objects and customs had their birth so far back in antiquity that digging into records for origins and birthplaces is like trying to dig a well in quick-sand.

The name Easter itself comes from the name of the pagan Saxon goddess of spring Ostara, or Eostre. In their springtime celebrations each year, the early Saxons deified the lowly rabbit which, because of its conjugal habits, was considered to be the symbol of fecundity. Thus the little chocolate rabbits one sees in the candy store windows at Easter.

The egg goes much further back in the annals of human history. Ancient Egyptians first started the custom of painting eggs at Easter. In China, the egg has always been the symbol of life eternal. Even today, the Chinese venerate the egg, and the older the egg the more they venerate it—which might be considered as carrying ancestor-worship a little too far.

Easter lilies were originally Egyptian and had a major part in all springtime religious celebrations. It is known that in the excavations at Herculaneum in Rome two fossilised hot cross buns were found complete and intact in a buried oven. Their remarkable state of preservation is not very flattering to the skill of the Roman housewife who baked them.

Even the Easter greeting card, which might justly have been called an English invention, is found to have its origin in the multi-colored eggs which the Russian peasants passed around at Easter. Each egg had painted on it a few words of greeting and good wishes.

Truly, there is nothing new under the sun. Perhaps even the astounding hats worn by the modern Miss at Easter had their counterpart in Ancient Rome or far Cathay!

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARbutt
The Hostess

The Service Wives held their weekly meeting Thursday afternoon in the ladies' lounge at the "Y." They reported that another parcel and letter had gone off to Geordie French, their "adopted" British tar now in Tranquille. It was decided to set aside a small amount for the purchase of fruit for the Seal Cove Hospital patients. Mrs. Girardet won the raffle do-

nated by Mrs. Garbutt. Refreshments were served by Mrs. Girardet and Mrs. Kimmel. While the club was in session they were visited for a brief moment by Olof Hansen, M.P., who expressed great interest in their activities.

Thanks to all the junior hostesses who turned out in full strength for the meeting called for Thursday evening! The girls were given a talk on the value of "zipping their lips" by a member of the field security staff.

Wednesday evening a quiz program was held at the Hut with Ivan Mallett as quiz master. Two teams of three men each competed. The winning team consisting of O. D. Mke Johnson, Cpl. Walt Cooper and LAC. Jack Un-

derwood scored 274 points against Pte. Joe Tremblay, Cpl. Stan Murphy and Supply Assistant Gordon Redhead whose score was 215 points. This quiz will be a weekly Wednesday feature at the Hut.

To everyone, a Happy Easter! And because Easter directs our thoughts to new life and spring and gardens I can do no better than to offer you this charming

old Elizabethan poem called—
"MY GARDEN"
A garden is a lovelome thing, God wot!
Rose plot,
Fringed pool,
Ferne grot,
The veriest school
Of peas; and yet the fool
Contends that God is not—
Not God! in gardens! when the
Nay, but I have a sign;
eve is cool
'Tis very sure God walks in
mine.
—Thomas Edward Brown.

They Help

They Earn
Money for You

They Provide

They Will Buy
Post-War Goods

Victory Bonds are just like money. They are issued by your Government to you in exchange for a loan. When you buy a Victory Bond you are simply exchanging one form of money for another. Ordinary money is the kind you get when you sell things you raise on your farm, and pay out when you buy things you need. Victory Bonds are a form of bills intended to be saved. And a Victory Bond earns money for you every day you have it. A \$100.00 Bond earns \$3.00 for you every year. Money invested in Victory Bonds will provide the money we need to buy the things we need when the war is over.

IT'S CANADA'S GREATEST EFFORT

\$1,100,000,000

BACK THE ATTACK

TODAY, as the war gets well into its fourth year, Canadians are again asked to lend their savings to their country.

This is a costly war. Each year, as our armed forces increase in might, and our output of machines and munitions of war continues to expand, our war costs are multiplied, too. This year, our country will require one billion dollars more to wage the battle of freedom than in 1942. This year, Canada must raise the staggering total of five and one-half billions of dollars.

Never in all history have Canadians faltered in the face of the enemy. Never has the price of freedom been too great a load to bear. And so, with unflinching courage and endurance, Canadians now will continue to put forth an increasing effort until their enemies lay down their arms in complete surrender.

This year, our armed forces will be ready to strike damaging blows against the enemy. Canadians must stand shoulder to shoulder behind the men who face the foe. Every man, woman and child must do his or her utmost. Make your dollars fighting dollars. Back the attack—buy Victory Bonds.

A COMMUNITY GARDEN

Apparently a lot of people are
discussing the community garden
idea and what it means. Maybe it
would be a good idea to give out
some suggestion of what it really
stands for.
In the first place this is no new
thought that is being introduced.
On other occasions when the
country and its people were in
distress this kind of a co-opera-
tive effort made it possible for
those that joined it to take care
of their dependents in a much
better way than would have been
otherwise possible.

Naturally the only beneficiaries
will be those that have actually
helped to produce the final results

and distributions will be made ac-
cording to the amount of hours
they have put into this effort.

People who have their own gar-
dens can and should by all means
make the best of the home lots
but they in no way be excluded
from the benefits of the Commu-
nity Garden as long as they could
manage to work at this as others
would do. There is no reason to
expect that the average home lot
should be sufficiently large to pro-
duce everything in the vegetable
line that is necessary for their
needs throughout the following
year but there might well be a
great many things that could not
be handled under the community
effort whereas they might be able
to give these plants the extra
care needed in their own home lot.

A community garden meeting
will be held Wednesday evening.

VANCOUVER, April 24 — "Hot
Cross buns, please."
"Toasted or just slightly warmed
sir?"

"I'll have mine toasted with mar-
malade and a pat of butter."

This is the breakfast-time repar-
tee on dining and buffet cars
of the Canadian National Railways
these Easter days. Following an old
British custom Hot Cross buns were
featured during Good Friday.

BUN SALE
SUCCESS

Sum of \$70 Raised by Parent-
Teachers' Association

Nearly three thousand hot cross
buns covered the tables in the class
rooms, the corridors and the play
rooms of the city schools on Thurs-
day morning prior to a sale in the
afternoon. The Prince Rupert Par-
ent-Teachers' Association realized
over \$70.

Their tantalizing, fragrant aroma
drifted through the building
and hundreds of little noses sniffed
the air as their voices rose excitedly
at the prospect of enjoying the
delicacies.

The Borden Street School re-
ceived so many donations they were
able to send 250 buns to one of the
other schools where the demand
exceeded the supply. The ceiling
price of two buns for a nickel was

strictly maintained and, from the
four city schools, over \$670 was
taken in.

Conveners of the bun sale were
Mrs. M. Braun for King Edward,
Mrs. Haines for Borden Street, Mrs.
Eastwood for Booth School and
Miss E. Gibson for Seal Cove. They
were assisted by Mrs. George Hill,
Mrs. Weber, Mrs. George Howe,
Mrs. G. R. S. Blackaby, Mrs. T.
Boulter and Miss Norma Smith.

Women of Moose
Are In Session

The Prince Rupert Chapter No.
211, Women of the Moose, held
their regular meeting Wednesday
evening in the Oddfellows' Hall. In
the absence of the senior regent,
Mrs. W. H. Tolin, Mrs. Amv Kasper
took the chair. A class of candi-
dates was initiated, this class being
called the publicity class. The in-
itiation ceremony was followed by
a round of whist and the serving of
refreshments.

Industry is helping win the war...
industry must help build a peacetime world

Today, all industries must produce as never before—
must speed the output of food, tanks, planes, guns, ships
and other instruments of war—must conserve vital sup-
plies—that we may win quickly a decisive victory.

Tomorrow, all industries must continue to produce—
beating swords into plowshares—to prevent world-wide
unemployment leading to ultimate economic collapse.

If the world is to prosper, there must be the same cohe-
sion among the United Nations during the transition
period and thereafter as now exists during the world-
wide conflict. Internal stability here and in other
nations can be gained and maintained only by sus-
tained industrial production and by interdependence.

The people of this country, in common with the people
of other lands, will prosper materially and spiritually
when this war is ended but only if plans world-wide
in scope are formulated promptly for A JUST AND
DURABLE PEACE.

Big Money in Halibut These Days —
 Prices Drop Off Somewhat Today—
 Spring Salmon Dribbling In

Fourteen Canadian halibut boats have landed catches at Prince Rupert during the ten days following the opening of the 1943 fishing season on April 15. Prices went up to the highest level in the history of the port reaching a peak of 30.5c and 25 on Thursday. The previous record high price had been 27c some fifteen years ago. The prices showed a falling off today. These high prices meant heavy shares for the fishermen, running in some cases to well over \$200 for trips of a week or ten days. Up to today no American vessels had been in with catches but the coming week, it is expected, will see their arrivals with heavy landings all around.

A few fresh spring salmon are continuing to find their way into Prince Rupert from the early trollers now operating on the close-in fishing grounds. Packing and camp services are now being arranged and gradually more trollers will be moving out. May, it is to be expected, will, as usual, see quite a number of boats going out, particularly in view of attractive market conditions.
