## Spanish Are Massing On Frontier

### United States, Britain And France Agreed on Franco Denunciation

PARIS (CP)—Francisco Franco, Spanish dictator, has massed 200,000 troops along the Franco-Spanish border, a correspondent of the French newspaper Le Soir reported today. He said that the forces included regular Army troops and Moroccans.

Meanwhile at Washington it was learned that Great Britain, France and the United States are pressing for final agreement on a joint declaration encouraging the Spaniards to overthrow Franco. The State Department has confirmed that Britain and France have approved in principle the American proposed declaration reliably reported as spurring the Spaniards to set up a broadly representative interim government.

France has charged Franco with hostile acts on the frontier and with trying to discredit Spain in international councils whereas he asserts Spain has been a good neighbor.

The Franco government declared yesterday that the closing of the Spanish frontier by France and anti-Spanish demonstrations abroad are part of an international communist plot designed to drag Spain "down into disorder and chaos."

There are reported to have been anti-Franco disturbances, declared by the Spanish government to be inspired by French guerrillas, in central Spain.

### ROAD REPAIR TO START "ABOUT WEEK'S TIME"

Information that grader work will begin on the Galloway Rapids section of the Prince Rupert Highway in about a week was received this morning by the Prince Rupert Automobile Association, President J. Harry Black from Hon. E. T. Kennedy, Minister of Lands and Forests, who passed on information received from Public Works Minister Herbert Anscomb.

Text of the telegram received by Mr. Black this afternoon follows:

"Minister (Hon. Mr. Anscomb) now advises that road to Galloway Rapids has been open all winter and never impassable at any time. Further states consistent speed of 20 miles an hour can be maintained. Chuck holes and washboard will be graded out when weather permits which is anticipated about a week's time."

Commenting on the telegram Mr. Black told the Daily News: "The telegram hasn't told us anything we don't know at the present time. I think, however, that they ought to be able to use the grader right away since the city has been able to use its grader on the streets all winter."

### PERON STILL HOLDS LEAD

But Count in Argentina Election is Still Close

BUENOS AIRES—With about four per cent of the ballots cast in last Sunday's Argentine election, "Strong Man" Peron holds a two-to-one lead in the indicated electoral vote. Peron has slightly more than 62,000 votes to nearly 57,900 for his Democratic Union opponent for the presidency, Dr. Jose Tamborini. ### PICKETING RESUMED

Members of the "Jobs for All" Association last night enthusiastically supported the idea of continued picketing of the local C.N.R. offices. Picketers who have become a familiar sight on the streets of Prince Rupert during the past few weeks, are on the job again this afternoon between 2 and 4 o'clock with their placards drawing attention to the dry dock situation. A leaflet, headed "The C.N.R. guilty" and, charging cynical disregard of the interests of this community, the company and the country, is featured.

President Bill Greenwood, in a stirring appeal for picketers, declared: "The grand results obtained by the flood of wires sent to Ottawa about the Civic Centre show what can be achieved when the whole city unites to demand action. Mass picketing and a deluge of protests to the C.N.R. and responsible government officials at Ottawa by the citizens of this city can produce similar action on the dry dock question."

The meeting also held a lengthy discussion of the brief which the association has presented to the Industrial Development Council. In the brief it is pointed out that "Many of us had hopes that the prosperity of the war years might continue into the peace since our city has proven its ability to handle efficiently the numerous tasks it has been called upon to perform. We now realize, however, that this prosperity will not continue unless tremendous pressure is exerted by the people of this city for the implementation of a number of specific plans."

Proposals made call for the maintenance of the dry dock, maximum utilization of the grain elevator, full implementation of the Cameron Report and development by the B.C. Power Commission of the hydro-electric power potentialities of Northern B.C.

LIVERPOOL, (CP)—The German prize ship Empire Waveney, fifth vessel to catch fire in Liverpool harbor in 35 hours heeled over against the quay-side Saturday, abandoned to flames which the police hinted might have been the work of saboteurs. Other ship fires in the port were on the Drottingholm, Tudor Star, Sandak and Ayrshire Coast.

Five special trains are needed to take the servicemen's dependents to almost every section of the Dominion. These trains will leave Halifax over C.N.R. lines on Monday morning. Two will go to western Canada, two to Ontario points, and one to Montreal.

To bring the civilians to Montreal, the C.N.R. will operate a "boat special."

Wahl Boat Yard at Dodge Cove  
Busy Establishment — Sawmill Is Being Started

Perhaps the busiest marine establishment in the Prince Rupert district at the present time is the boat building shop of Edward Wahl at Dodge Cove on Digby Island where, so far this season, 12 gillnetters have been built in addition to one halibut boat and part of another, as well as sundry repair work.

Mr. Wahl anticipates that this year his construction work will equal that of last year when he built 43 boats.

In addition to his boat building work at his covered plant, Mr. Wahl is constructing a sawmill, which, he expects, will be completed in June or July. This, he feels, will assure him of a more constant supply of materials than he has been able to get in the past.

The greater part of the boat building work done in his shop is the construction of gillnetters for the cannery companies on the Skeena River but he is also able to build larger boats for the halibut fishermen and packers and the odd troller.

In addition to the more than 30 gillnetters planned for this year, 12 of which have already been built, Mr. Wahl has completed a 45-foot halibut boat and a 40-foot troller, while a second 45-foot halibut is now building. Work also will soon start on a 45-foot packer for the Canadian Fishing Co.

The 45-foot halibut boat has just been completed for Chris Viklin, who at present is installing a 100 h.p. Acadia gasoline engine in it. It will be ready for the opening of the halibut season this spring. The 40-foot troller has been completed for John Johansen, and he is at present installing a 77 Chrysler gasoline engine. The halibut boat now building is for Elmer Anderson who plans to power it with a 110 h.p. Chrysler Crown gasoline engine.

Repair work at present going on includes the rebuilding of the veteran halibutter Selma H. owned by Jack Strand. Mr. Wahl is lengthening the vessel by seven feet, and has torn away the old hull aft of the main break. The re-built vessel will be 48 feet long and have an inside beam of 11 feet 10 inches. Inside depth of the hold will be 6 feet 7 inches.

The well known halibutter Anker A, owned by Otto Jerstad, is also at the Wahl boat yard getting a new wheel house. There will be no hull changes. Mr. Wahl says that he builds his gillnetters in three sizes, the basic moulds of each being similar. The 30-foot model is the standard boat used on the Skeena River fishery, while the 31-footer is designed for the rougher waters off the river mouth. The 32-foot model is

popular among fishermen who fish in the inlets and in the rougher coastal waters. Mr. Wahl's shop has capacity for building five of these small vessels at a time, in addition to other work. The covered shop will accommodate a vessel of 65-foot length on the marine ways. The sawmill which he is building will have a capacity of 8,000 board feet of planed lumber daily, and when it goes into action in June or July it will be a great asset in that it will allow the boat works freedom from outside sources of finished lumber which, during the last few years has been unsatisfactory. The supply of logs suitable for boat lumber will be ample, Mr. Wahl feels.

## Saturday Sermon

(Rev. A. F. MacSween, First Presbyterian Church)

Matt. 12:35—A good man, out of the good treasure of his heart bringeth forth good things.

The Atlantic Charter set out plainly the conditions which its designers considered were essential for the establishment of a satisfactory relationship among nations. The eighth point states: "they believe that all nations, for realistic as well as spiritual reasons must come to the abandonment of the use of force."

With that, of course, we agreed, but note the condition that is made—"realistic as well as spiritual reasons."

Our friend the editor, in a recent article, declares his belief that "more emphasis should be placed on things spiritual and realistic at this time when there is a tendency but to accentuate the material and realistic."

In each case the phrases used suggest a distinction between the realistic and the spiritual. They intimate that the realistic things are not spiritual and spiritual things are not realistic. In other words, if we want realistic, we shall do well to seek it in some realm other than the spiritual.

However, such an implication is clearly not intended. The designers of the Atlantic Charter had no secret of their dependence upon the things of the spirit to inspire and sustain them during the dark days of the war.

itself strengthened in the conflict. If poverty were the cause of evil and sorrow, then wealthy persons should be both happy and righteous but this is not always true. The roots of this evil lie deeper. They are in such things as jealousy, meanness, selfishness, greed and bestiality. These too are of the spirit and, alas, they too are very real.

We are anxious to banish war and all its accompanying evils and we place the blame for its existence on economic conditions, political manoeuvrings, social inequalities and so on ad nauseam. But who doubts that behind all these shameful conditions lie the spirit of hatred, of greed, of conquest and of revenge. The real causes are spiritual and these evils will be banished only when that evil spirit is replaced by the spirit of love, of righteousness, of unselfishness and co-operation. Any attempt to solve the problem of war that fails to get to the causes underlying these conditions is simply missing the mark. It is unrealistic. It cannot succeed.

The roots of the evils that plague us and of the good life to which we aspire are found in the spiritual realm. If we are going to "get down to brass tacks," to face things realistically, then we must get to the spiritual things which men treasure in their hearts, whether good or evil. Our reasons for wanting peace and justice and goodwill among men are not realistic as well as spiritual, they are realistic only when they are spiritual. Let no one think that reality and spirituality are different. Let no man deceive himself into believing that by being unreligious or anti-religious he is being realistic. If we are religious in the Christian sense, then we are approaching the only true realism, for God is real, the only true and ultimate reality. Without Him man is incomplete, and without the spirit of God the heart of man is deceitful and desperately wicked.

G. K. Chesterton once said: "If you are going to rent a room and engage board, the first question you ought to ask your landlady is not the price of the room or what kind of food does she serve or what sort of sheets she uses on the bed but 'Madame

what is your ultimate view of the universe?"  
A good man, out of the good treasure of his heart, bringeth forth good things.

### ARE WEDDED IN SWIFT CURRENT

Recently discharged from the Royal Canadian Navy with which he served four years on the West Coast, attaining the rank of petty officer, Percy J. Knutsen, son of Mr. and Mrs. Knutsen of Ninth Ave. E., has arrived in Prince Rupert, accompanied by his bride, the former Margaret Elsie Wall of Leinam, Saskatchewan. They were married at the Swift Current United Church with Rev. D. M. Burns officiating.

The bride was attired in a white satin gown with embroidered finger tip veil. She carried a bouquet of pink and white carnations. Miss Mildred Lynnes of Swift Current was the bridesmaid and she wore a pale green floor-length gown with corsage of pink carnations. Clarence Wall, brother of the bride, acted as groomsmen.

Following the ceremony, a reception was held in the Pica-dilly at Swift Current where the occasion was duly celebrated. The bride's table was centred with a three-tiered wedding cake which was cut by the bride in the time-honored manner. A toast to the bride was proposed by Trooper Ernest Wall, brother of the bride, who had just returned from overseas. The groom responded.

Prior to arriving in Prince Rupert to make their home, the couple spent a honeymoon in Vancouver and Victoria, the bride travelling in a light blue suit with black accessories.

**YANKS BEAT PANAMA AGAIN**

BALBOA Canal Zone — The New York Yankees staged a three-run rally in the ninth inning yesterday to defeat the Panama Professional League All-Stars eight to seven. The win was the Yanks' eighth in nine outings against picked Panama teams.

Veteran Joe Gordon drove in the winning run for the Yankees while Charley Keller collected his fifth home run of the training season.

**BASKETBALL POT SHOTS**

According to reports from Ketchikan the All-Star team which will play here next week has been playing exhibition games with other teams in the Alaskan city and have been the victors in their last three encounters by a very comfortable margin. Johnny Mills, the all-Alaska centre with the team, has been setting up an average of 18 points per game in their last four starts so there is no doubt that the local boys will find him tough to handle. They are practicing nightly to overcome the handicap of not having a regular league to keep them in condition.

Arrangements are being made to have the games aired over CFPR so that those that are unfortunate enough to find it impossible to attend in person will be in the know as to what the boys are doing.

Enthusiasm has been shown generally throughout the city through the many enquiries regarding tickets etc. And there is little doubt that these games will draw capacity houses on both nights.

There will be no danger of anyone having to stand at the door as, through the efforts of those in charge of seating, an efficient band of ushers has been appointed to handle all those with tickets.

A dance in honor of the visitors will be held at the Oddfellows' Hall Friday evening and a generous entertainment program is being drawn up by Bud Timmermeister, secretary of the Basketball Association.

The ski carnival at Smithers is an annual event which was postponed for the war years and this year's held at the end of last week, was the first held in six years. It was a grand success from beginning to end. The Dr. Green Cup winner was Gordon Williams of Burns Lake. Chris Dahlie, Smithers skier of note, trained all Smithers and district participants but he did not participate in any events. A presentation was made to Mr. Dahlie at the grand ski tournament dance.

There was only one game played in the National Hockey League Thursday night. It was played at Detroit between the Red Wings and New York Rangers with the home team coming out on top by a score of four to one. The victory was the Red Wings' sixth without a defeat. Ab Demarco of the Rangers opened the scoring in the first period but, after that frame they never seriously threatened. The Red Wings rapped in three of their goals in the second period. Joe Carveth, Adam Brown and Ted Lindsay were the scorers. Their final goal was bagged in the third period by Fernand Gauthier.
