BRITAIN STANDS PAT IN PALESTINE

Armed Services Are Instructed To Take Any Steps Necessary

Tension Mounts With Wild Disorders As Zion Resists Move to Halt Illegal Migration of Jews

LONDON (CP)—The British government will maintain its present policy in Palestine however much the situation may deteriorate, it was officially announced today. The three armed services have been instructed to take whatever measures are necessary to implement the government decision to end unauthorized entry of Jewish refugees into the Holy Land. All of the Holy Land seethed with mounting disorder and conflict as the British cabinet met in special session to consider the situation. It was reported that the United States government had sent a message to the British government offering haven in America to 50,000 Jews from Europe but no such message had been received up to late today.

The cabinet today heard reports from armed services chiefs of the tense situation in the

and at the port of Haifa. Three Jews were killed at Haifa.

Zionist spokesmen today loudly condemned British measures to halt illegal immigration into Palestine. One Jewish spokesman said the deportation of illegal immigrants to Cyprus had "aroused anger throughout the Jewish community" and the British government's efforts to justify the action only "added fuel to the flames."

Two shiploads of persons, reported the most desperate of those arrested in the recent Palestine round-ups, anchored in Gamagusta Harbor, Cyprus, today under escort of the British cruiser Ajax.

The Cyprus government issued a decree formally authorizing the detention here of Jews intercepted while trying to enter Palestine illegally and providing a penalty of one year in prison for those who escaped. A similar penalty was provided for persons convicted of aiding any refugees to escape.

STRIKE HITS STOCK MART

Trading on New York Exchange Disrupted as Vote Is Taken

NEW YORK (AP)—Virtually all members of the United Financial Employees' Union of the New York Stock Exchange today walked out temporarily to take a strike vote and proceedings on the floor of the world's largest stock market were disrupted.

The Exchange continued to function by using supervisors and non-union workers. The Union said that the action was taken because one firm refused to accept mediation.

WAGE FREEZING TO BE DISCUSSED

VANCOUVER (AP)—A special meeting of American Federation of Labor council has been called for Friday to discuss the British Columbia Regional Labor Board's new interim freeze policy of wage increases. Hon. G. S. Pearson, provincial minister of labor, said, after meeting the board on Monday, that it was awaiting further clarification following the announcement of federal opposition to 15c per hour increases.

TRIES TO SEE PREMIER KING

Premier of Italy Finds Dominion Unwilling to Enter Into Private Discussion

PARIS (AP)—Premier De Gasperi of Italy has been trying unsuccessfully to see Prime Minister Mackenzie King of Canada to explain in detail Italy's stand on peace terms for that country.

So far Canadian policy has been to refrain from private discussions with enemy power representatives. Canadian representatives feel that negotiations for peace treaties should be confined to open conference sessions with no private lobbies.

NAIL-STUDED STREETS GIVE DRIVERS WOE

Motorists in Prince Rupert report—usually profanely—an unusual number of nails and spikes covering city streets in recent weeks and garage attendants tell of a soaring business in repairing punctured tires.

Cause of this phenomenon, all are agreed, is the demolition of the large number of wooden wartime buildings in all parts of the city. Trucks carrying lumber torn from these buildings, sprinkle nails as they bounce along the roads.

A particularly nail-studded section of the city is Second Avenue where several buildings were torn down. Seventh Avenue East, too, has been responsible for woe for motorists with mangled tires.

"It's the aftermath of war," one driver sighed resignedly as he ruefully surveyed his second punctured tire in a week.

ABOLITION OF REGISTRATION

OTTAWA (AP)—Abolition of national registration is likely to be announced within a few days. The government is understood to have had this action under consideration for some time and it is likely Minister of Labor Humphrey Mitchell will announce decision when his estimates come before Parliament.

HIROSHIMA ONE YEAR AFTER ATOMIC BLAST—Here is a view of the city of Hiroshima, first target for the atomic bomb, as it looks nearly a year after the cosmic blast that shook the world. Little attempt has been made at reconstruction, because there is little building material available. Some cleaning up has been done, in the course of which hundreds of bodies were recovered from the debris. It is estimated that between six and 10,000 corpses still lie under the ruins of the city that was 60 per cent destroyed by the atomic bomb. It is one year ago today since Japan surrendered.

Bulletins

FARMERS' STRIKE

EDMONTON—Farmers of Alberta are voting heavily in favor of a delivery strike by which they would withhold produce from market until they get prices "representing a fairer share of the national income." They are endeavoring to enlist farmers of other prairie provinces and those of the British Columbia Peace River in the strike which may commence August 24.

OPPOSING TRUMAN

WASHINGTON—Senator Claude Pepper of Florida says he will oppose President Truman for the Democratic presidential renomination.

POLIO IN SOUTH

SEATTLE—There have been seventeen more cases of infantile paralysis in Washington State during the past week.

IRANIAN TENSION

TEHRAN—Renewed tension has arisen in Iran as Russian forces by thousands are massing on the northern border with British troops standing to the southwest.

QUESTION OF BULGARIA

PARIS—Bulgaria asked the peace conference today for "more indulgent" peace terms in view of her help to the Allied cause in latter days of war. Poland and White Ukraine supported the Bulgarian presentation. Bulgaria asks for a piece of Thrace from Greece in order to give her a corridor to the Aegean Sea.

City Celebrated Japan's Defeat Year Ago Today

A year ago this afternoon Prince Rupert was in the grip of wild excitement as townspeople and servicemen received the formal announcement of Japan's surrender. Word of the Japanese defeat came at 4 o'clock, sparking a celebration which continued on downtown streets for most of the night, and began again on August 15, with the observance of official V-J day.

The anniversary of V-J day will pass without any official observance in Canada, but in the United States it has been proclaimed "Victory Day" by President Truman. However, while no official recognition has been accorded the anniversary by the Canadian Government, thousands will observe the day privately.

FIRST WHEAT OF SEASON LOADED

WINNIPEG—First cars of this season's wheat to be loaded by Canadian National Railways originated yesterday at Roland, Manitoba, and Zealandia, Sask. The Roland car contained more than 2,000 bushels consigned to United Grain Growers at the Lakehead; the Zealandia car was consigned to Saskatchewan Pool Elevators.

Fish Sales

Zapora, 65,000. Storage.
Gulvik, 12,000, black cod. Co-op.

Keep Busy On Industries

Development Committee Meets—Outside Contacts Maintained and New Ones Anticipated

When the Prince Rupert Industrial Development Committee was in session last evening with Mayor H. M. Daggett in the chair, the chairman and J. S. Wilson, delegates to the recent annual convention of the Associated Boards of Trade of Central B. C. at Terrace, gave reports on the convention. They were sure that the results would be tangible and beneficial to the whole district. Contacts with delegates from Alaska would be fruitful. The whole atmosphere of aggressive, co-operative planning and action was most encouraging. There was a feeling of confidence in the ability and determination of the members to get things done by their own initiative. The thanks of the committee will be conveyed to the Prince Rupert Chamber of Commerce for the invitation to attend.

Following up earlier activities the committee heard correspondence from R. S. O'Meara, trade commissioner of the Department of Trade and Industry for B.C. The development of timber resources in this area with special reference to its use for furniture, plywood and pulp possibilities was considered. Various leads are being followed up.

It was decided to advertise in certain pulp and paper magazines in Canada and U.S.A. and supply articles outlining local resources such as timber, water and power as well as the installations and housing available.

Information has been supplied to the deputy director Chinese Government Supply Agency, Ottawa, regarding availability of railway ties and asking for further particulars as to quantity and terms.

The annual meeting of the Prince Rupert Industrial Development Association was set for September 17 in the City Hall. Report of year's activities will be presented and the election of officers will be held.

COFFEE PRICE UP

NEW YORK—An increase of 10c to 13c per pound in the price of coffee in the United States is authorized by the O.P.A. Wholesale price level has dropped slightly for the first time in three months.

UNANIMITY ON AIR PROBLEMS

Nations Able to Agree on at Least One Matter

WINNIPEG—While nations find it difficult to agree around the peace table their airlines have achieved remarkable unanimity of common problems. This is the opinion of J. T. Dymont, director of engineering, Trans-Canada Air Lines, who returned today from the recent conference at Stockholm of the International Air Transport Association, world wide organization of airline operators.

A very heavy agenda awaited the delegates at Stockholm and, in spite of the controversial nature of some items, decisions were reached acceptable to all. Some 14 airlines were represented, most of whom were European and the North American lines with trans-Atlantic services.

Two important items for Canada were the finalization of communications procedures on North Atlantic routes and the pooling of terminal facilities to avoid costly duplication. Decisions that were reached at Stockholm now go to PICAQ in the form of recommendations from the operators. Dymont was accompanied by two other T.C.A. officers—Charles Proudfoot, airways engineer, and S. S. Stevens, director of communications. All chair-manned committees at the conference.

"HEIL HITLER!" FINAL WORDS

STRASBOURG, France (AP)—Robert Wagner, former Nazi Gauleiter of Alsace, and three of his aides were shot to death at dawn today for wartime atrocities. As the firing squad aimed, Wagner shouted: "Heil Adolf Hitler! Heil National Socialism!" Wagner was accused of the massacre of thirty thousand anti-Nazis.

ESSENTIAL PART

The telephone instrument represents only six per cent of all the plant and equipment needed to provide a customer with telephone service.

HARROWING EXPERIENCE

Colored Prospector Wanders 41 Days in Wilds After Fire Destroys Camp

Frank Coady, colored prospector, had a very harrowing experience during the past few weeks. He left here by plane on June 16, landing on McKay Lake in the Unuk River country and from there proceeding to the Iskut region where he intended prospecting. Arriving there he set up his tent and prepared for a long stay.

About the third day he left camp to look around when suddenly he heard rifle shots. Not knowing of anyone in the district or having seen anyone, he proceeded to investigate. He soon realized that the shots were coming from the approximate location of his camp and, sure enough, when he arrived there, there was very little left to salvage. All his equipment and supplies, including his rifle, had gone up in smoke with the exception of 10 pounds of rice which he managed to save from the fire.

Realizing that he could not continue work without further supplies Coady started out for the Unuk. After 41 days of wandering he arrived in McQuillan's Camp on the Unuk and caught a plague to Stewart. Subsisting for 41 days on 10 pounds of rice and the berries he could gather, is an experience he is not anxious to try again.

As soon as he is rested up and gets a new outfit he will be back on the job again. The spirit of the old time prospector still exists.

THE WEATHER

Synopsis

Overcast skies are persisting over British Columbia with little change in general weather conditions expected today and tomorrow. The highest temperature in B.C. yesterday was 81 at Kamloops with the remainder of the interior stations reporting maximums in the seventies and the coastal stations in the sixties. Minimum temperatures remained high during the night with most stations reporting in the fifties.

Forecast

Prince Rupert, Queen Charlottes and North Coast—Overcast today and Thursday. Intermittent rain showers. Winds northwest. Little change in temperature. Temperatures tonight and Thursday: Port Hardy—minimum 53, Maximum 63. Massett—Minimum 52, Maximum 60. Prince Rupert—Minimum 52, maximum 63.

Business As Usual On Victory Day

OTTAWA (AP)—The first anniversary of Japan's unconditional surrender is just another working day for Canadians. Although proclaimed "Victory Day" in the United States, no official recognition has been accorded the anniversary ending the Second Great War by the Canadian government. However, thousands are observing the day privately.

ONE YEAR AFTER

ONE YEAR AGO TODAY Japan surrendered and World War II came to an end as far as the fighting was concerned. The defeat of the Axis powers—first Italy, then Germany and last Japan—had been completed. Their threat for the time being at least had been removed.

Unfortunately in the year that has passed other issues have arisen which today find the world in what seems almost as great a state of unrest and antagonism as existed even during the war. The settlement of the peace—and it must be remembered that the world still is only in state of truce—seems as obscure and difficult as was winning the war. Certainly the difficulties that beset it are more complex.

The hope lies in the elimination of excessive imperialisms and the adoption of goodwill nation between nation and individual between individual, each satisfied with the assurance of comfortable security without position of domination and aggression.

WHO WANTS TO FIGHT?

THE WORLD is still fraught with the threats of war but possibly a lot of it is merely shadow boxing. Russia is playing a bold game as she continues to be the one nation which the most of us with inferiority complex fear to be a danger to us. Undoubtedly Russia wants war no more than we do but she is playing a bolder game than the western nations. She knows that we do not want war and would do almost anything to avoid it. Therefore, the Soviet sets her aims high and insists upon them obstinately. She knows she will get no more than she asks for. So unpleasantly and without any pretence about being diplomatic, she insists on this and demands that. She is playing a great poker game and we are timid about calling her. Some fine day she will be called. Possibly, the sooner our side gets its back up and does some real calling, the sooner will we be able to get down to the serious business of settling the problems which beset the way

to world peace along which we now seem to be floundering with such timidity and uncertainty.

H. G. WELLS

ONE OF THE MOST prolific and versatile of modern British authors, the late Herbert George Wells, dead in London after suffering with diabetes for years, was credited with having influenced the thought of his country as much as any writer of his generation.

He was once described as a writer with "a rare combination of mathematical accuracy of mind and imaginative genius." During his career he ran an interesting literary gamut of sociology, political economy and romance, as well as the wildest flights of fancy. His works often precipitated animated discussion and involved the author in controversy.

Early in life, Mr. Wells showed a particular aptitude for science, was educated along those lines and won high honors when he was graduated with his bachelor's degree from the Royal College of Science. His passion for science and his belief that in it, and in the methods of thought which it induces, lay the salvation of the world never left him and colored a great deal of his work.

It was, indeed, as a writer of scientific romances that Mr. Wells first made his name as a novelist, his "The Time Machine," published in 1895, having been hailed as a masterpiece of its kind. From that year new books from his pen appeared with amazing rapidity. He wrote other scientific works, but it became gradually more and more apparent that his future fame would rest upon talents of quite a different nature—his ability in portraying the incidents, humor and intrinsic romance of English middle-class life.

That gift of the author's was foreshadowed in his "Love and Mr. Lewisham," in 1900 and displayed to a pronounced degree in "Kipps" five years later.

It is to "Kipps" and two other books in somewhat similar vein, "Tono Bungay," 1908, and "The History of Mr. Polly," 1910, that the majority of English critics agree in looking for the finest flowering of Mr. Wells' talent; and it is on those, they believe, that his chances of passing into the national literature of the country must rest.

As late as a month ago Wells was last in the limelight when he unleashed an attack on the British monarch in a question as to whether the Royal House was involved in large sums of money which Mussolini paid to Sir Oswald Mosley, British Fascist.

**Stewart's Comeback—
Hundreds of Men at Work**

Will Be One of Busiest Towns in B. C. Next Year

Rapidly emerging now from the depths of the war depression which reduced the area to a low level of activity, the Portland Canal mining district is daily depicting increased activity and the town of Stewart will be one of the busiest in British Columbia next year, it is predicted by Oliver Smith, secretary of the Stewart Board of Trade, who is in the city for a few days after attending the annual convention of the Associated Boards of Trade of Central British Columbia at Terrace.

Mr. Smith estimates that there are at present 120 men employed on development of various properties in the district and the number is being steadily increased as further mining properties institute or resume operations. This is in addition to the 250 men at the Premier mine who have been idle since the hard rock miners' strike started July 10 but who are remaining in the camp pending settlement of the dispute.

After the spectacular operation of delivering machinery, equipment and supplies over the Salmon Glacier by tractor, 20 men are now employed on the Salmon Gold property, beyond Big Missouri, and have started tunnel driving, being in 40 feet after the first week. Boyle Bros. have started a program of diamond drilling. The development of the property is under the direction of Evan Harris, Welsh mining engineer.

Near Stewart and just across the Bear River driving of a tunnel on John Haahti's Stewart Canal property is nearing completion, Pete Sveberg being in charge of the work. This is a gold property which is showing up well under development.

A new operation of outstanding interest at Stewart is that of the Big Four, a merger involving the famous Silverado, Porter-Idaho and Prosperity properties, in which the objective is to drive a tunnel clear through a mountain from Silverado on the Stewart side to Prosperity on the river slope. This is silver ground. Ewart Langelle is engineer in charge and was joined this week as consultant by Dr. Joseph T. Manoy, former resident mining engineer for the northwestern mineral survey district with headquarters in Prince Rupert. Twenty men are employed and, building of a road having been completed, driving of the tunnel is now starting. The Victor Spencer interests of Vancouver are back of the venture.

Close to the Salmon Gold, 12 men are now employed on the Letta gold property where Dr. Kidd is engineer in charge. The program includes diamond drilling.

Mr. and Mrs. W. B. George recently arrived on the George Enterprise property on Bear River opposite the George Copper and four or five men are engaged in surface work at the present time.

Hollinger interests are reported to have become interested in the L. L. & H. property on Bitter Creek where J. C. LeFrancis has

**NATIVE CHILD
PASSES AWAY**

Mary Innes, five-months-old daughter of Mr. and Mrs. Weston Innes of Metlakatla, passed away in Prince Rupert General Hospital this morning. Burial will take place at Metlakatla.

**Totem Pole Work
Nearly Finished**

Having done a fine job in re-carving, repairing and repainting of eleven totem poles in downtown city parks, Charles Dudoward is now working on the last pole and expects to be leaving the city soon. Speaking to the Daily News today, Mr. Dudoward, while not particularly seeking extra work, expressed the opinion that it was too bad that the Canadian National Railways did not take advantage of his presence here to have similar work carried out on the poles in their park.

Every child should have one quart of milk every day—every adult one pint.

had six men engaged in trail work.

On the Alaska side of the Salmon River but still tributary to Stewart, 30 men are now working again on the famous Riverside tungsten mine which for years has been active under the direct management of J. B. Scott of San Francisco.

CHRONIC BRONCHITIS

Does a stubborn bronchial cough, (either phlegmy or dry and hacking) make you choke, gasp, wheeze, keep you awake nights? Relieve it—now! Do as thousands have done—get Templeton's RAZ-MAH—and stop that cough! RAZ-MAH has helped others—let it help you. 50c, \$1—at druggists everywhere. R-14

WHO... IS CANADA'S No. 1 CITIZEN?

IT IS YOU... OR SHOULD BE.

If you are a No. 1 citizen, you will be doing your share to ward off the menace of inflation* facing Canada today.

How? . . . By conservation in your personal finances . . .

Here are five ways you can fight inflation:

- Hold on to your Victory Bonds
- Buy only those goods which are in fair supply and save your money for the day when goods now in short supply will be readily available
- Avoid black market purchases
- Keep up your insurance
- Build up your savings account

This is conservation—the first requisite for personal security—the first attribute of good citizenship.

If we all help in all five ways, the threat of inflation—rampant in some other countries and now menacing us—can be beaten and stamped out.

Let us all be No. 1 citizens. Remember, if you are a No. 1 citizen, you will look after No. 1 . . . Save for yourself and you save for Canada.

Buying a Watch . . .

May not be the most important thing in the world—but its important enough to justify some thought.

Wise watch buying means future satisfaction.

It's up to us to tell you what is best for your particular use.

These things we gladly talk over with you when showing you the watches.

And we can show you how the watches perform on our new Electronic watch tester.

Prices are the same as elsewhere by W.T.P.B. ceiling.

*** Inflation, to the citizen, means simply less and less value for his dollar . . . his living costs soar as free and careless spending drives up the price of goods still in short supply. Inflation is no respecter of persons . . . like the rain, its evil falls on the just and the unjust alike. Thus, Canada's fight against the menace of inflation is your fight . . . the fight of each of our citizens —12,000,000 strong.**

KINSMEN CAMP IS POPULAR

People of Lakelse and Terrace Help to Make Boys Happy

The Kinsmen boys' summer camp at Lake Lakelse, now in the third session of its initial summer, is fast approaching its climax and reports emanating from the lakeshore indicate that, because of its popularity, it will be repeated next year.

"The boys are really enjoying themselves and every one that I have spoken to is eager to attend again next summer," Kin President R. E. Montador said today. "It looks as though we will have to prepare ourselves to sponsor another one."

This year's camp has given 60 boys a two-week outing at Lake Lakelse near Terrace. Groups of 20 boys have attended each of the three sessions. The camp is due to close August 25.

Among the activities of the latest group have been a trip around the lake in a boat operated by District Forest Ranger W. A. Antilla, who took the boys on an eight-mile circuit including a visit to the provincial fish hatchery.

Two Terrace men, Harry Lloyd and Ernest Hipp, brought 40 fresh trout to the camp, providing a fish dinner that was really a feast.

Anglican and Pentecostal young people's groups at Terrace came out to the camp, bringing hot dogs, cake and other picnic fare which was the centre of enjoyable camp-fire evenings in which there also was community singing.

Church services at the camp are conducted by Rev. Mr. Graham, Pentecostal pastor at Terrace.

Generally, according to Mr. Montador, the boys have improved the camp considerably since it was first opened five weeks ago.

Readying For Big Carnival

As the opening day for the annual Civic Centre Carnival nears activity is reaching a feverish pitch in the Civic Centre grounds. Workmen have nearly completed the dozens of buildings which will house the various midway attractions.

Interest is likewise increasing in the Port and Carnival Queen contest and carnival officials hope individual candidate standings will be available for publication this week. Sponsoring groups, state officials, have been reluctant in registering votes for their respective candidates.

The seven big days of fun and festival, August 17-24, coupled with the revival of Port Day, former annual regatta, is expected to attract hundreds of visitors to Prince Rupert.

This year local citizens realized the object of past carnivals when the Y.M.C.A. building was purchased as the Prince Rupert Civic Centre and it is for this reason that the carnival is being staged in, and in the immediate vicinity of the building.

"Inconveniences suffered by people attending the carnival in previous years," declared directing Don Forward, "will be eliminated this year as many activities are scheduled to take place within the building. Inclement weather will not work a hardship on anyone."

To illustrate this, Mr. Forward pointed out that the stage shows and coronation ball would be held in the main auditorium, dancing in the gym, and the flower show in the second floor lounge. Additional chairs and chesterfields would be moved to the main lounge for those wishing to rest.

Ramps, facing the building on Second Avenue, have been constructed to allow the serving of refreshments from the tea room through windows directly to the carnival grounds. Inside and outside parcel checking facilities will be available. Women of the Legion and I.O.D.E. are handling refreshments.

The carnival itself promises to be bigger and better than ever with many games, new and old, providing fun for all. The merry-go-round will be back in operation as well as many additional games and surprises for the youngsters. New games, such as archery and bowling, are being introduced for the first time. Prizes will be given for the highest score each day and a grand prize for the highest score of the week.

in the building. Inclement weather will not work a hardship on anyone."

Dancing to the music of Bobby Woods and his "Esquires" will be held nightly. The grand Coronation Ball is scheduled to take place on Friday evening.

Two nightly stage shows by an imported troupe of top-notch entertainers from Canadian and American floor shows will be held in the main auditorium.

Arrangements are now being completed regarding the annual flower show, sponsored each year by the Prince Rupert Horticultural Society.

On the last night of the carnival the Port and Carnival Queen will draw the fifty \$25 war savings certificate winners.

"There is still a tremendous amount of work to be done," said Bill Bremner, in charge of carnival personnel, "to make the 1946 carnival a big success. I would appreciate it if anyone interested in helping us would contact me as soon as possible."

BURNS LAKE LOSES OUT

Defeated by Smithers in Senior Baseball

SMITHERS — Burns Lake Senior ball team drove 100 miles to Smithers on Sunday for a return game here, the Smithers team coming out on the long end of a 12 to 3 score. C. Anderson and Forbes shared mound honors for Burns Lake and Spicer did the hurling for Smithers. Seven hits by the Smithers team aided by eleven errors by Burns Lake gave Smithers an easy win. Spicer gave up four hits to the Burns Lake nine and his team-mates contributed three errors to give Burns Lake team their three runs. Had the Burns Lake team not committed so many blunders it would have been a much closer score. The Burns Lake moundsman was in no way to blame for the defeat which is chalked up against him.

Line-ups were:
Smithers—Aida 2b.; Leach lf.; Hetherington 3b.; Spicer p.; Delage ss.; Wilf Watson 1b.; Fletcher and Walter rf.; Palls c.; Mayer and Joe Watson cf.; Strynk, spare.
Burns Lake—Williams 3b.; A. Gerow cf.; B. Lord lf.; G. An-

FASTBALL SEMI-FINALS TONIGHT

The first game of the best two-out-of-three series in the men's fastball to decide who will meet the League champion General Motors will bring together 99 Taxi and the Grotto nine tonight. While 99 Taxi has the better record during the season the tobacco men are confident that in this play-off series they can take the taximen. It is true that Art Murray and his experts are even surer that they can take the Grotto team for a fall. That is why there should be a good game and a big crowd to see which team wins the first of the series. There will be lots of action.

Fastball Playoffs Starting Tonight

Tonight's fastball game at the Gyro Ball Park starts the semi-final play-off series. 99 Taxi meets Grotto in this the first game of their two out of three series to decide which team will meet the league winning General Motors in the final. Both teams claim to be in top form and promise a lively competition.

SMITHERS JR. BEAT HAZELTON

Clean Sweep Is Made of Inter-town Baseball Series

SMITHERS — Smithers baseballers made a clean sweep in all games Sunday when the Smithers Juniors trimmed the Hazelton Juniors 19-3 in Hazelton Sunday. The Smithers boys fattened their batting averages when they got to Hazelton pitchers for 20 hits. This, coupled with four errors by the Hazelton nine, gave them their total of 19 runs. Smithers pitchers held the Hazelton boys to five hits and contributed one error giving Hazelton three runs.

Reynolds and Halversen shared the mound honors for Hazelton; Smithers used Bannister, Fowler and Anderson. Bannister turned in a stellar performance with nine strikeouts in six innings and gave up only one hit. Had it not been for his age he would have been allowed to continue as he had the Hazelton team eating out of his hand all the way through. Winning pitcher was Bannister and losing pitcher, Reynolds.

The line-ups were:
Hazelton — Reynolds p.; R. Martin 3b.; Halversen c. and p.; Sargent 1b.; Myros 2b.; Wood cf.; Senden ss.; M. Martin rf.; Blackstone lf.; Spooner and Falconer as spares.
Smithers — Rand 3b.; Fowler cf. and p.; Flockhart and Hann 2b.; Goodacre c.; Arnold 1b.; Watson rf.; Kilpatrick lf.; Bannister p. and cf.; Anderson ss.; Davidson, spare.

Negotiations are under way to take the Smithers Juniors to Prince Rupert for a series of games there on August 23 and 24.

Owing to wet grounds the bowling matches arranged for last evening at the C.N.R. bowling greens were cancelled. The committee is taking every opportunity to play off the remaining games in the singles, novice singles and doubles, and a full slate of games is planned just as soon as the greens are playable.

Modern Etiquette
By ROBERTA LEE

Q. Who are the only persons one can ask to fill in for a dinner party at the last minute?
A. Ask only a very intimate friend, as it is a favor you are asking. The true friend will accept, as he never knows when he may want to ask you to do the same thing.
Q. When one is introducing Mr. Jones to Mr. Smith, is it proper to say, "Mr. Jones, my friend Mr. Smith?"
A. Not if Mr. Jones is also a friend. This expression implies that Mr. Smith only is your friend.
Q. How should a divorced man and woman act if they should by chance meet in public?
A. A courteous bow is all that's necessary.

The limitless ingenuity to which the British newspapers resorted to enable them to give continuous service to their readers was exemplified by the daily newspapers of one large centre that set up emergency facilities in a deserted mine pithead.

New "Underground" Emerges in Poland

WARSA, Poland (AP)—The war is over, but nearly a quarter of a million Poles still live in dugouts and bunkers. That is the picture one finds around Warzawa, about 50 miles south of Warsaw, and in the district of Klele, on the main Warsaw-Krakow highway.
In the Klele district alone, 146,000 people live in dirt-topped, brick-walled dugouts and hovels. Despite that, most Polish peasants appear to be glad to be back on their own soil, for many of them spent long years in Nazi concentration camps.
In this little town, not a roof was left and a few walls are standing. Peasants live in cellars or little holes dug in the ruins, sometimes two families to a dug-out.
The United Nations Relief and Rehabilitation Administration, the Polish ministries of health and food, the American Red Cross and Polish Red Cross are trying to bring aid to the poor families in the worst devastated areas, but the people have little to eat.

GIRLS' GAME POSTPONED

The regularly scheduled fast-ball game between Macey's and Kinettes was called off last evening on account of rain. The next game is scheduled for tomorrow, Thursday, evening, when Kinettes will play the Moose team.

So great was the air raid damage to buildings and equipment of the newspapers in the British Isles, that former "museum pieces" were utilized in order to keep the daily newspapers coming out regularly.

Newspapers bulk large in recreation according to a survey by the National Opinion Research Centre which found that 41 per cent of the population prefer reading in their leisure time to other forms of entertainment.

STEWART NEWS
Latest from Portland Canal Mining Centre

MINING MEN CONVERGE ON CAMP; BEARS COMING RIGHT INTO TOWN

STEWART—The interest being taken in the mining possibilities of the Portland Canal District is evidenced by the presence of such a number of mining engineers and geologists, in many cases representing Eastern interests. During the past week O. B. Bush arrived in camp after an absence of nearly twenty years. He was the vendor of the B.C. Silver and Sebakwe mines, adjoining Premier, and now a part of the Silbak Premier Mines Limited. Mr. Bush is interested in the Bush Cobalt, a property with possibilities, which adjoins the Premier Border. The latter property was until recently being operated by the Silbak Premier.
R. B. Lamb, eastern mining engineer, is also in town looking over the Red Cliff Mine near American Creek. Mr. Lamb was here in 1924 and examined the Indian Mine on behalf of eastern interests.
Frank O'Grady, a veteran of the First World War, who has been ill for some time, left on the Catala for Vancouver where he will enter Shaughnessy Military Hospital for treatment.

Mrs. Rothnie of Vancouver is visiting with her son and daughter-in-law, Mr. and Mrs. Gordon C. Rothnie.
Tommy McKay was in from the Unuk Monday. Work is proceeding satisfactorily on his property.
Bears are quite numerous of late, coming right into town. Pete Shanouse shot one near the Empress Hotel on Fourth Avenue.
Oliver Smith, Board of Trade secretary, has been attending

the Terrace convention of Associated Boards of Trade of Central B.C.

HOW CAN I ???
By ANNE ASHLEY

Q. How can I make the hair glossy?
A. When shampooing the hair, add a few drops of olive oil to the last rinsing water. It will give the hair a nice gloss without making it appear waxy.
Q. How can I improve the flavor of iced tea?
A. Try adding a few drops of lemon juice and a sprig of mint to each glass of iced tea.
Q. How can I make linen window shades look like new?
A. Apply brickdust with a clean, soft cloth.

COOK ELECTRICALLY
and enjoy the difference!
We're not saying that with an electric range an inexperienced cook will turn out pies and cakes like "mother used to bake", but even the most unsuccessful can learn faster, while the expert will find an improvement in her cooking. Cooking electrically eliminates guess-work and constant watching, for temperatures are automatically controlled. Truly an electric range is "a thing of beauty and a joy forever!"

Will Renew Fish Floats

Old Moorings East of Dry Dock to Receive Attention — New Floats Still Delayed

Plans and specifications are now being prepared for renewal of the fishermen's floats and breakwater just east of the dry dock on the local waterfront, it is stated by C. F. P. Faulkner, assistant district engineer for the federal department of public works, who is in the city on official business, having arrived from Vancouver at the end of the week. The work is expected to cost approximately \$35,000.

Work on the new \$96,000 fishermen's floats off Westview on the west end of the waterfront is still being held up for lack of materials in the way of logs for floats and breakwater. All piling is now in but it has been necessary to pick in additional fill for the support of mooring piles and this is now about finished.

Mr. Faulkner will leave tomorrow for Port Simpson and the Naas River and will later visit the Skeena River.

Other Public Works Projects

Prince Rupert waterfront floatwork is only a portion of numerous federal public works projects planned or in process of being carried out in Prince Rupert district.

Another big improvement is that contemplated for the wharf at Bella Coola which may also run into about \$96,000. Tenders are now being called for the widening of the wharf approach and new superstructure with a view to further extension of the wharf 300 feet outward at an angle for a new wharfhead in deeper water.

Tenders are now being called for wharf enlargement at Bella

Bella Indian village which may cost \$35,000, the project being to extend the wharf 40 feet further out with a larger wharfhead behind the "L" of which a float is to be installed, primarily for the purpose of more comfortable landing of stretcher patients going to hospital there.

Stewart is also to have an estimated \$36,000 spent on rather extensive wharf repairs, plans for which are now being gotten out with a view to getting the contract let this fall and the work started early next year. This job will consist principally of new superstructure and replacement of present untreated with creosote piles.

At Port Simpson Armour Salvage Co. is still on the job of renewing superstructure on the 860-foot approach to the wharf but the work is being delayed by lack of materials.

Over on the Queen Charlotte Islands repairs estimated at \$18,000 are to be made to the wharf at Queen Charlotte City and tenders are now being called.

Closer to Prince Rupert tenders have been called for a new float at Jap Inlet, Porcher Island, a comparatively small job.

During his present visit here Mr. Faulkner will make preliminary inspection preparatory to institution of repairs to the long wharf at the northeast corner of Digby Island leading to the wireless station.

On the Skeena River it has been planned for some time to build a new float and ice shear at Haysport but this has been held up through the proposal to move the float to Tyee where the Prince Rupert Highway starts its course up the Skeena River.

Better English

By D. C. WILLIAMS

1. What is wrong with this sentence? "He was shot in the battle."
2. What is the correct pronunciation of "alias"?
3. Which one of these words is misspelled? Bikloride, biography, bivouac.
4. What does the word "idiograph" mean?
5. What is a word beginning with eso that means "secret, private"?

ANSWERS

1. Say, "During the battle he was shot." 2. Pronounce a-l-i-as, first a as in ate, i as in it, last a unstressed, accent first syllable. 3. Bichloride. 4. A mark or signature peculiar to an individual; a trademark. 5. Esoteric.

Briefs from Britain

OXFORD, Eng. (C) — Fifty French teachers of English are to have a two weeks' course at Oxford as guests of Great Britain. Fifty British teachers visited France in July.

LONDON (C) — A chapel in Westminster Abbey is to be furnished as a memorial to nurses, midwives and nursing auxiliaries killed in the Second Great War.

CAMBRIDGE, Eng. (C) — Answering his first call as driver of a fire engine, 25-year-old Roland Wheatley passed a car and a traffic island on the wrong side. He was fined £5 (\$20).

BATH, Eng. (C) — Although a double-decker bus, converted into a house, was considered by some to be healthier than many cottages, its occupants were forced to vacate by the corporation.

WINCHESTER, (C) — At an inspection of Winchester College Cadets, Field Marshal Montgomery passed his son, Lt. Cpl. David Montgomery.

MOOSE CALF BORN IN GARDEN PATCH OF DOUGHTY RANCHER

Alex Murray of Doughty has had the novel experience of having a moose calf born in his garden patch within sight of his farm home. Alex keeps his cow tethered out near the garden and the mother moose apparently was afraid that "Bossy" was trying to kidnap her offspring. She drove into her hard enough to break the tether and "Bossy" lost all interest in proceedings in that immediate vicinity. Alex's young son thought it might be a good idea to pick up the moose calf but Alex warned him that he might suffer the same fate as the cow. Alex Murray was at one time a resident of Prince Rupert. He used to work for Lindsay's Cartage here.

TERRACE

Mrs. W. S. Anderson left on Friday for a visit to Banff.

Mr. and Mrs. H. King left on Saturday for Kamloops and southern points for a vacation.

W. G. Fraser, city clerk of Prince George and Mrs. Fraser were in Terrace on Saturday,

vacationing on a motor trip.

Mrs. Leslie Skinner and Miss Edna Dobbie left on Saturday to drive to Vancouver for a short holiday.

ROMAN INDUSTRY

Soap-making on an industrial scale is believed to have originated in Italy at the time of the Roman Empire.

Young Swimmers Making Headway

In spite of the adverse weather recently, Miss Jackson, supervised playgrounds' swim instructor, reports favorable progress among her pupils. She is sure that there will be a good number of award winners at the end of the course. As a valuable aid to the course, a film compiled by the American Red Cross to further their Water Safety campaign, will be shown to the members of the Learn to Swim classes in the Civic Centre this evening. This film is a pictorial record of the course being taught at the local classes.

In any weight-reducing program it is essential that the diet be based on normal food habits, but that it be below normal requirements in energy-producing foods. Protein should not be reduced, however.

"SERVICE" CENTRE:

Wonderful what a difference a few step-savers make in your kitchen life! For instance, the primp-up shelf and mirror (so you won't have to go upstairs for a last reassuring look) . . . the conveniently low counter for dumping groceries and storing the family market wagon . . . the really big reminder board — are all housekeeper's helpers. But the greatest service lies in the color-bright Gold Seal Congoleum rug! Nothing can beat it for ease-of-cleaning . . . dollar-saving economy . . . and heavy traffic durability. For Gold Seal Congoleum is built to last! It has a wear-layer of heat-toughened paint and baked enamel equal in thickness to 8 coats of the best floor paint applied by hand. So, be sure to look for the familiar Gold Seal before you buy. You'll be surprised how much quality you can buy for so little money.
