Coming To Prince Rupert

Prince Rupert is to be honored with a visit from His Excellency, the Governor-General, and Lady Margaret Alexander on August 21, according to official notification received at the City Hall today. The vice-regal party will arrive by steamer from Vancouver that morning and will proceed East by the evening train. In view of the shortness of the stay, the Governor-General has suggested that this be not considered an official visit. In the future he hopes to pay a longer visit, the communication hints.

Bulletins

Results of Atomic Bomb

Goats are still munching hay on the old battleship Pennsylvania following the Bikini Atoll atomic bomb experiment Sunday. Minnows are still playing in the lagoon. Of the target ships at least one-half were sunk or damaged. Five of 73 guinea pig ships went to the bottom. Many others were set afire. The bomb fell half a mile from the central target shipthe Nevada-but her bright red paint was scorched to black by the intense heat. The B29, bomb dropping plane, returned safely to its base although its radio equipment, as well as that of observation planes, was put out of commission by the concussion of the terrific blast. On the dropping of the bomb, there was a great explosion followed by a spectacular mushrooming of smoke and variegated colored flame which ascended as high as 50,000 feet. The bomb was dropped from an altitude of 30,000 feet. Admiral Blandy says damage was not as great as at Nagaski.

Statement On Palestine

Premier Clement Attlee, in a statement yesterday on the Palestine situation which is becoming increasingly tense, declared that the government would not tolerate any interference with force in its policy there. The British government had been forced to act because it could not countenance the growing challenge to its authority. The Jews have called mass arrests which the British have been making as the British repetition of "Pearl Harbor." Meantime the British are continuing to fill prison stockades in Palestine with Jews, more than two thousand having been arrested. According to a BBC broadcast, the curfew has been taken off all but an area surrounding the Jewish Agency building in Jerusalem.

Price Control Crisis

Former Mayor LaGuardia of New York urges American people not to buy a thing for the next few days except bare necessities until they see what happens in the price control question following the removal of controls. The Governor of Ohio has similarly advised the people of his state. The governors of Massachussetts and New Jersey have already issued a decree pegging rents. One instance is reported of a newspaperman who had his rent of one room over a garage increased from \$35 a month to \$10 a day. The House has approved extension of O.P.A. for 20 days but there may be delay in the Senate.

Trieste Situation Bad

The United States commander at Trieste says the rioting situation there has become the worst yet. Italians are attacking Slovenes and vice versa. British and American forces are already in action putting down the disturbances and martial law may be declared. At Paris foreign ministers of the Big Four have agreed on an internationalization plan.

Fifty-Seven Killed

A survey show, that fifty-seven persons lost their lives across Canada on inion Day holiday week-end, one more than the total of farali es in the same holiday last year. The in killed when a capacity-filled bus total includes three collided with a truck at woodlands near Montreal.

Bad Vancouver Weather

Vancouver had its worst June in forty years from a weather standpoint. There were 135 hours of sunshine, as compared with the June average of 225, and rainfall was twice as much as usual.

Victoria's Float Best

Victoria had the first prize-winning float in the great pageant parade under billiant sunshiny weather which marked the opening of Vancouver's Diamond Jubilee celebration. There were 200 colorful floats in the parade and twenty-four bands. It is estimated that 250,000 people crowded the streets to witness the procession.

Ask For Chairman

C. C. Delbridge, Vancouver Province nominee to the board of conciliation in the Vancouver Province-I.T.U. dispute, and Ald. R. K. Girvin, nominee of the printers, have asked the Minister of Labor, Hon. George Pearson, to name a chairman.

JARVIS McLEOD HONORED BY KING; MADE MEMBER OF BRITISH EMPIRE

Announcement was made today of the award of a Membership of the British Empire to Jarvis H. McLeod, pioneer collector of customs at Prince Rupert, and he was in receipt of a telegram from David Sim, deputy minister of national revenue, offering congratulations.

Mr. McLeod's name is contained in the Dominion Day Honors List.

Mr. McLeod has been collector of customs in Prince Ruper't for nearly thirty-five years. He came here from the

Yukon in 1909 and has been here continuously since. Local friends, and they are many, will recognize that the honor for meritorious public service is well deserved and will

hasten to offer their congratulations. of the mid-west United States.

reedom of the Press hat precisely is meant by that familiar phrase, 'freedom

undamentally it is not a special privilege reserved for newspaper publishers. It is rather a phase of a much larger freedom—the freedom of all men to speak their minds openly and without fear. The press claims no right which should not belong to every citizen in a democracy, but freedom of the press is an all-important part of this larger freedom; because, under modern conditions, the press is the principal agency by which the ordinary man receives the information he needs to judge the actions of his rulers and make up his mind on public issues. Without newspapers, or with only gagged and blindfolded ones, he is in the dark, and helpless. An unfettered press is therefore one of the essential bulwarks of a democratic world.

f any proof be needed, it is provided by the record of the Fascist and Nazi dictatorships. Rigid control of all sources of public information, and especially of newspapers, was the corner-stone upon which those regimes were founded. Without it, they could never have held power. With it, they could do as they pleased, to the eventual ruin of their own peoples as well as much of the rest of the world.

his disastrous chapter of history should provide a warning against any attempt, by governments or by private interests, to restrict the essential freedom of the press. A free people must stand on guard not only against direct censorship, but also against more insidious encroachments. Nominal freedom is not enough. The only truly free press is one which can record the news faithfully and comment on it frankly, without fear of direct or indirect punishment. Neither the press nor the public is safe with anything less than this.

Il liberty, of course, involves obligations. The obligation of a free press is to be truly free. It must be thorough, accurate and unbiased in its reporting. sincere and thoughtful in its editorials, and resistant to all outside pressure. It must be both cautious and bold - cautious until it knows all the facts, bold when it is sure of its ground. It must, above all, be inspired by devotion to the public welfare as its staff understands it.

uch a newspaper is worthy of the privileges which the English-speaking peoples have traditionally granted to their press. Such a newspaper is also the best guardian of the liberties of the people.

NEGLECTING TOURISTS

ALTHOUGH the taxi people are, no doubt, doing the best they can to furnish some measure of service, Prince Rupert entinues to overlook a bet in the matter of providing organized reception and transportation to the tourists who are coming here in increasingly large numbers almost every day of the week. The expectation of the tourists, when . they arrive here, is to find some sort of a personally conducted bus tour service at reasonable rates which vious at every turn and, unfortunately, nobody seems to be very interested in doing anything about it.

There was talk some time ago about having an information and service headquarters for tourists but the idea does not seem to have got very far in the way of actual implementation. With the tourist business increasing by leaps and bounds and becoming a major industry, the sooner Prince Rupert realizes that it would pay off to do something about taking care of the visitors when they come here the better. The problem now is not getting the tourists to come here but to take care of them when they come. It may be a little late now to do very much more as far as this season is concerned. Certainly, however, we should be making our plans for next year and taking active steps to see that we are organized better in another year.

THE GREAT EXPERIMENT

THE BINIKI ATOLL atom bomb experiment on Sunday was not as terrifying as might have been anticipated. The experiment was largely for the purpose of studying the effect of the atomic bomb on naval fighting equipment. Although the destruction to the ships might have been less than expected, it may be a little time yet before the full effects of the radioactivity will become known.

Nevertheless, Biniki was enough to prove forcibly that atomic power has the capability of bringing about the complete disorganization if not ultimate destruction of civilization with a few well-placed blasts. The necessity of ensuring effective atomic control through complete and full international agreement is just the more obviously the vital problem which faces the world today.

MUST DEVELOP RUPERT

"DOSTWAR construction programs as outlined by Ottawa number hundreds and will cost millions of dollars, many of them are of real value to Canada's postwar progress, but the failure to include the project of completing the third transcontinetal railway (Fort Churchill to Prince Rupert) will prove a real economic loss to Canada," says an article published by Editor F. S. Wright, foremrly of Prince Rupert and now of Edmonton in the current issue of his "Nor' West Miner."

"The time has gone when it is possible for established interests such as Vancouver, Montreal, the Great Lakes to insist that nothing shall interfere with the present layout of carrying grain and other products from the Pacific to the Atlantic. Canada is too large today to see development stayed. The Fort Churchill-Prince Rupert Railway is the answer to many a reconstruction problem in Canada and is cheap at the cost of \$18,000,000."

The article, well illustrated with timely local views and pointing out the strategic position of Prince Rupert in the Pacific theatre in providing, with the new transcontinental line a shorter route by 1,000 miles in connecting Hong Kong and Liverpool as well a sopening up an entirely new country with vast natural resources, is another interesting contribution to the great amount of publicity this port is receiving these days and which, no doubt, will result in the not too far distant future in new and large scale industrial and commercity development in this part of the world.

roast of beef is for Sunday's eating enjoyment. A sharp knife supplementing the skill of the carver should enable your week's ration expenditure to take care of a couple of other dinners, either one of which might include a guest or two. On Monday creamed new potatoes and a toss of salad greens would be good companions for the cold meat. Eggs florentine are suggested for meatless Tuesday—soft cooked eggs nestling in cooked spinach, fresh from your garden or market, the whole covered with a mellow cheese sauce. And for dessert, the season's strawberries in shortcake form. On Wednesday the roast remnants can go into a stew, succulent and tasteful and highlighted with vegetables. Braised liver or kidney wing give you a ration free nutritional boost on Thursday. Friday's fish purchase can do double duty if you plan a left-over for Saturday's use. It can be flaked and combined with hard cooked eggs and your best cream sauce and served either casserole fashion or in toast cases made from that stale bread you're not wasting.

HOW CAN 1 ? ?

By ANNE ASHLEY

Q. How can I sew buttons on

A. When sewing buttons on

children's garments a good idea

is to sew each one over a pin.

easier for the child to fasten.

a garment so that it is easy for

a child to fasten?

Vegetable Plates Can Be Most Attractive Dinner

serving a vegetable plate dinner home economists: colorless, soggy and unappetiz- baby beets. ing. A vegetable plate may be Baked stuffed potatoes, broiled generally acceptable meals ever squash. set before an epicure. More Creamed new potatoes and

more often.

When planning a vegetable plate, the homemaker should think of three things-color, texture and flavor. The vegetables should be chosen with the idea of creating a picture. Colors should complement each other. Texture also must be considered. crisp, tender and mealy vegetables give variety to the plate. Flavors should also blend, strong and mild, only one of very pro-

nounced flavor. The successful homemaker preparing a vegetable plate meal will not serve a combination of mashed potatoes, turnips, lima beans and onions, this would not be welcome by the family, nor would a plate full of various a heavy pan, add beans and salt, green-colored vegetables.
