Conference Sees War—Not Peace

Delegates' Poll Fears Failure of Conference

PARIS (CP)—A poll of delegates to the peace conference here shows the majority of them to be inclined to the opinion that the conference is doomed to failure on account of the impossibility of reconciling Russian attitude with that of the western powers. The third world war, many feel, is already in sight. It may not be this year or next year but it will come.

Ross Munro, Canadian Press correspondent, is slightly more hopeful. He thinks there is a possibility of the Big Four foreign ministers pulling the conference together.

VETO POWER IS EXERCISED

Eire, Transjordan and Portugal Kept Out of U.N. by Russia—Mongolia and Albania by U.S.

LAKE SUCCESS, New York—Veto power was exercised for the first time by Great Britain and United States in the United Nations security council late yesterday in opposing the admission of Outer Mongolia and Albania to membership. By similar means Russia blocked the admission of Transjordan, Eire and Portugal, Afghanistan, Iceland and Sweden were the only nations to win admission.

Wants New Ships Here

Sir Walter Carpenter to Operate Two Fine Vessels to South Sea Islands

VANCOUVER (CP)—President of W. R. Carpenter Limited of Canada, Sir Walter Carpenter announced yesterday that his firm is planning a shipbuilding program which may bring \$5,000,000 in orders to Vancouver.

Striking Steel Veterans Parade

HAMILTON (CP)—Some 240 striking war veterans held a parade and meeting today before the gates of the picketed Steel Company of Canada plant, and were joined by 150 strike pickets on duty at the gate. The veterans wired the national director of the C.I.O. United Steel Workers of America to stand firm in the present settlement negotiations at Ottawa.

Another Australia Plan Is Defeated

PARIS (CP)—An Australian proposal to establish a sub-committee to collect factual data on the Italian-French frontier was beaten in the peace conference commission hearing yesterday after another heated Australian-Russian debate. The four principal powers and nine other countries voted against the Australian plan while five powers supported the Australians. New Zealand abstained from voting.

Orange Ceiling In Canada Raised

OTTAWA (CP)—Canadians will have to pay more for oranges as a result of an order last night of the Wartime Prices and Trade Board bringing the ceiling price up to the level of the Office of Price Administration in the United States. The increase was authorized so that Canada might be insured a supply of oranges.

Molotov Hits 'Interference'

Criticizes Presence of American Navy and British Army

PARIS (CP)—Russia accused the United States and Britain today of "interference" in next Sunday's Greek election and charged that the little Balkan country is paving the way for the return of exiled King George II. Foreign Commissar Molotov said the present government of Greece was very unpopular with the people as a whole.

Greek request to discuss the Greek-Albanian border dispute, Molotov of Russia said "We know British troops are there and American warships are on their way there."

Molotov said it was high time outside interference is stopped and the Greeks given a chance to select their own form of government.

Bulletins

HAD RESTLESS NIGHT
MOVILLE, Eire—Lady Montgomery, 82, mother of Field Marshal Montgomery, passed a restless night.

CHANGTEH TAKEN
PEIPING—Government troops were reported today to have captured Changteh, capital of Jehol province, without opposition as peace hopes rose anew over the formation of a five-man committee to tackle China's political strife.

CIVILIAN RIGHTS
WINNIPEG—The Canadian Bar Association is expected to take a definite stand on alleged infringement of civilian rights in Canada when report of its civil liberties committee is made today at the closing session of the annual convention.

CROPS THREATENED
LADNER—Fires in peat beds east of here are threatening crops of lower Fraser Valley farmers.

MOUNTAIN ASCENDED
VANCOUVER—Mount Inlet, 10,000 feet, in Bute Inlet, 150 miles north of here, has been successfully scaled for the first time by Mr. and Mrs. Don Munday and Henry Hall, secretary of the American Mountaineering Association.

WHOOPIING COUGH WORST
TORONTO—Whooping cough is more deadly than polio, say health authorities here. There are more deaths from it than from polio, diphtheria and scarlet fever combined.

ELECTION DISORDERS
ATHENS—There have already been pre-election disorders in Greece between monarchists and republicans. Twenty-one persons have been killed and houses have been burned. The election takes place Sunday.

LEFTIST LABOR CANDIDATE WINS GLASGOW SEAT

GLASGOW (CP)—The far left independent Labor Party today retained its parliamentary seat for the Bridgetown division of Glasgow in a by-election caused by the death of James Maxton, leader of the party and one of its three members in Commons. Independent Labor Party candidate James Carmichael polled 6,351 votes to 5,180 for John Wheatley, government supported Labor candidate. The Conservative candidate ran a poor third.

LAKES STRIKE IS CALLED OFF

DETROIT (CP)—Strike headquarters of the National Maritime Union announced yesterday that a "general" walkout on the Great Lakes was called off. The men are returning to their boats at noon today. Headquarters said the walkout was cancelled so that the union could "concentrate" on individual shippers.

CALL OFF TEST

WASHINGTON—The third atomic bomb test may be called off because scientists want to get back to their work on atomic fission, technical men have been discharged from the Army and President Truman has cut \$650,000,000 off the budget.

VETERANS PARADE
HAMILTON—There was a smaller parade of veterans to the Steelco plant today but no disorders occurred. The veterans were warned against carrying knives of other weapons.

RAIN HOLDS UP HARVEST

However, It Has Now Resumed Again—Yields About Average

WINNIPEG—A general rain over most of the prairie area on August 24 and 25 had delayed the harvest for two or three days but it now seems to be in full swing again, according to the weekly crop report of the Department of Agriculture of the Canadian National Railways.

Southern Manitoba reports cutting nearly completed and this percentage decreases west and north across the prairie till central Alberta is reached. There cutting will not be general for another week.

Results of the harvest are above average in southern Manitoba and the grades are good. Saskatchewan yields are just about the long time average with the grades being a bit low. In Alberta the harvest is not far enough advanced to make any accurate estimates. Labor supplies appear adequate at all points.

Northwest Salvage Seeking Tax Concessions on Warehouse, Dock

A request for taxation concessions on the former American overseas warehouse and ocean dock was placed before a special meeting of city council last night by Charles and Kenneth Meek, partners of Northwest Salvage Co. of Calgary which has an option to take over the waterfront installations from War Assets Corporation.

The company was advised by council that, if it presents a concrete proposal for its planned use of the installations, backed up by evidence of financial responsibility, civic taxation concessions would be "considered."

Specific information concerning the proposed use of the dock and warehouse were not given to council but the general implication was that they would be used as terminal facilities in a trans-oceanic shipping project.

Option which the Calgary company is said to have on the installations expires late in October, it was learned. In the meantime, Messrs. Meek and J. J. Kelly, solicitor for the company, left on the Prince Rupert last night for Vancouver, intimating that they would consult their backers and return with information on the intended use of the warehouse and dock and proof of financial responsibility of the company.

Fleet Movement U.S. Business, Not Russia

WASHINGTON—Provincial Govt. Halsey delivered a lecture to the Provincial Library on "The Movement of American Warships in the Mediterranean."

"It's nobody's damn business where we go. We will go where we please," he commented about a report that the United States aircraft carrier Franklin D. Roosevelt and escorting warships will visit Greek ports.

LAND ARMIES STILL NEEDED

OTTAWA—Field Marshal Viscount Bernard Montgomery said here yesterday that there was no evidence that atomic warfare would eliminate the necessity of land armies. There would always be a place for the fighting man, declared Montgomery.

FISHING GEAR IS DESTROYED

Complaint Heard of Sabotage On Fishing Grounds Off Nova Scotia

OTTAWA—Charges that Canadian fishing gear had been destroyed by foreign trawlers operating in Teuro fishing banks off Nova Scotia were heard yesterday during discussion in the House of Commons on fishing affairs. Several other nations which had fishing vessels there were named but it was not stated which nation had destroyed the Canadian gear.

Minister of Fisheries Bridges said that no foreign governments had yet been approached on the question of such Canadian fishing gear having been destroyed by the foreign trawlers. Five Canadian schooners were said to have suffered losses of \$1350 worth of gear. The skipper had not been able to identify definitely the trawlers which had caused the damage. At the time Canadian, United States, Newfoundland, Spanish, Portuguese and French trawlers were operating.

CONVERSION OF MINE SWEEPERS

Union Steamship Co. to Give \$800,000 of Work

Four minesweepers of the Bangor class purchased from the War Assets Corporation by Union Steamships Co. Ltd. are at the Courtenay, Chignecto, Miramichi and Bellechasse. They are 180 feet in length, 28 foot beam and have a speed of 16 knots per hour.

Plans are now being developed for their use in connection with the Union Steamships program of expansion and when these are completed tenders will be called from local shipyards.

"The conversion work will easily involve an expenditure of over \$300,000," said Carl Halterman, vice-president of Union Steamships. "This work will be given to local shipyards and can provide work for hundreds of men for the next eight months depending, of course, upon availability of conversion materials and the attitude of labor."

"The time when we can put them to service to replace and augment our local service is also dependent upon these two vital factors."

Mr. Halterman said that conversion plans would call for accommodation for 500 day passengers.

The four minesweepers, now at Bidwell Bay, were built in B.C.—the Bellechasse and Miramichi at the Burrard Drydock yards, the Chignecto at another Vancouver yard the Courtenay at Prince Rupert.

RECEPTION IS UNSATISFACTORY

Farmers' Representatives Not Pleased With Results at Ottawa

OTTAWA—Alberta and Saskatchewan farmers' representatives, who came here to present to the federal government demand for the establishment of a fact-finding commission with a view to establishing parity prices for farm products, are not satisfied with the reception they received. They met yesterday with Rt. Hon. C. D. Howe, minister of reconstruction, and Hon. J. A. McKinnon, minister of trade and commerce, as well as departmental officials. The delegation came to the capital after farmers' organizations had decided on a delivery strike if their demands were not met. The abolition of the Winnipeg Grain Exchange is also sought.

PARLEY IS BOYCOTTED

JERUSALEM—The Arab League executive here announces there will be no Arab delegates from Palestine to the proposed conference in London to discuss the future of Palestine. The boycott of the conference is, apparently, in view of the British government's refusal to invite the Grand Mufti of Jerusalem to the conference.

Bombshell By Russia

Asks For Report Within Two Weeks of Armed Forces of United Nations

LAKE SUCCESS, New York—Andrei Gromyko, chief Russian delegate, threw a bombshell in the United Nations security council late yesterday when, suddenly and without even the formality of writing, he demanded that all united nations report within two weeks the strength of their armed forces together with their bases and garrisons. The demand came so suddenly that reactions were not immediately apparent. The move is believed aimed principally at Great Britain and the United States.

THE WEATHER

Synopsis

Cloudy skies which developed during the night over the lower mainland are expected to clear slowly during the day. However, cloudiness over the immediate coastal areas is expected to persist through the period. Thunder was reported early this morning off the west coast of Vancouver Island and isolated thunderstorms are expected to continue during the morning off the coast.

Prince Rupert, Queen Charlottes and North Coast—Clear with fog patches during morning northern mainland areas becoming overcast this afternoon and Saturday. Elsewhere overcast today and tomorrow.

Widely scattered rain showers this afternoon, tonight and tomorrow mainly in northern districts. Light winds. Little change in temperature southern districts and cooled in northern regions. Lows tonight—Port Hardy, 53; Massett, 52; Prince Rupert, 52. Highs Saturday—Port Hardy, 65; Massett, 62; Prince Rupert, 65.

ANTI-BOLSHEVIK LEADER TO DIE

MOSCOW (CP)—The Moscow radio said early today that the Cossack counter-revolutionary leader General Gregorie Semenov has been sentenced to death by hanging for bearing arms and spying against the Soviet Union. Five co-defendants out of seven charged were ordered shot. The other two were sentenced to from 15 to 20 years in prison.

SERVICE OF TELEPHONES

Local Member Tells Minister of Public Works of Needs of Frontier Folk of District

Needs of the people in frontier parts of his riding were discussed by H. G. Archibald, M.P. for Skeena, with Hon. Alphonse Fournier, minister of public works, recently when telephone and telegraph service operation and maintenance estimates were under discussion. Mr. Archibald told how the telephone line between Massett and Port Clements failed to work at high tide, how the people of the Kispiox Valley were allegedly overcharged and how the telephone service from Burns Lake might be improved.

Hansard records the discussion as follows:

Mr. ARCHIBALD: I have two or three points to bring up under this item. First of all, I should like to bring to the attention of the minister the fact that the telephone line between Massett and Port Clements does not work at high tide. Therefore, in a crisis or anything like that, the thing would be a complete washout. During the war there was a D.O.T. station operated out of Massett. Has the government or the department considered taking over that installation and operating a radio telephone up there?

Mr. FOURNIER: I am informed that we have put in the best system known. The hon. gentleman says it does not operate?

Mr. ARCHIBALD: That is the information I received from a reliable source. They say it does not work at high tide.

Mr. FOURNIER: I am informed that we cannot understand why it would not operate at high tide. I am no expert—

Mr. ARCHIBALD: I suggest that the minister check with the residents of Massett, because the latest word I received is that it does not work at high tide. They are vitally interested in radio telephones, and I shall give the reasons. There is now an aeroplane service—

Mr. FOURNIER: I know there is a radio telephone service up there.

SHIP SUBSIDY GOOD NEWS

IT IS GOOD NEWS from Ottawa that the subsidy for a steamship service from Prince Rupert to the United Kingdom is being restored with the placing in the estimates for a sum of \$60,000, the division of which will, it is speculated, be \$15,000 for each of four trips or something of that kind. For some time, the Prince Rupert Chamber of Commerce and its friends have been making representations to the Minister of Trade and Commerce for the resumption of the subsidy and this is the gratifying result.

The next step will be to get some steamship line interested in availing itself of the subsidy and instituting sailings from here to the United Kingdom. That had been in process of accomplishment back in 1939 and the sailings had just about been arranged when the war intervened, nothing more being done then and the subsidy lapsing.

Now it will be possible to start where the matter was left off.

It is reasonable to expect that here may be the humble beginning of the real development of the port of Prince Rupert as a factor in the world's shipping lanes.

* * *

WHY NO GRAIN EXPORT?

COINCIDENT with the announcement of the restoration of the shipping bonus come continued reports of Vancouver's expectations of handling a new record wheat export movement this fall and winter. We are led, of course, to again wonder why Prince Rupert, with its big elevator, should never seemingly be considered in connection with the movement, what obstacles there might be that are too insurmountable to once again use this port, particularly when there is a bumper harvest in portions of the western prairies quite, if not more, contiguous to Prince Rupert than Vancouver. This is another matter in which Prince Rupert has possibly been too content to take "No" for an answer.

With the subsidy, shipments of grain may also be resumed from here although it would be desirable if other commodities such as timber and fishery products also might form part of the export cargoes.

Then there is the matter of import cargoes and we have to suggest that, if cargoes of liquor and other commodities from Britain can be landed through Churchill on Hudson Bay, the same could be done here and, in time, as business in that direction is restored, shipments of goods might be brought here from the Orient.

* * *

JOB FOR DRY DOCK?

UNION STEAMSHIPS LTD. announces that another \$800,000 is to be spent on reconversion of four

Bangor class minesweepers for use as coastal passenger and freight vessels—this in addition to the million dollars involved in the conversion of three Castle class corvettes which is now in progress at Vancouver yards.

Since the Prince Rupert shipyard is to be used as a repair and overhaul yard rather than for new shipbuilding, according to the announcement of both the minister of transport and the president of the railway, it is quite logical to assume that reconversion work such as this would be quite interesting to the management of the dock.

When the tenders were called for the corvette reconversion, an executive of the Union Steamship Co. is reported to have said that, if the local yard were interested in such work, it would have, undoubtedly, submitted a tender. Possibly, we hope, more active interest may be shown on this occasion.

* * *

PR. RUPERT AND ALASKA

THE Prince Rupert Daily News, quick to note the unity of thinking and of interest between Alaska and central B.C., suggests that Prince Rupert again "may be projected strongly into the north Pacific strategic picture" as it was during the war. It says the Alaska highway and the northwest staging route might become the main routes to the north in an over-all defense scheme "but the coastal water route would at least be an important subsidiary."

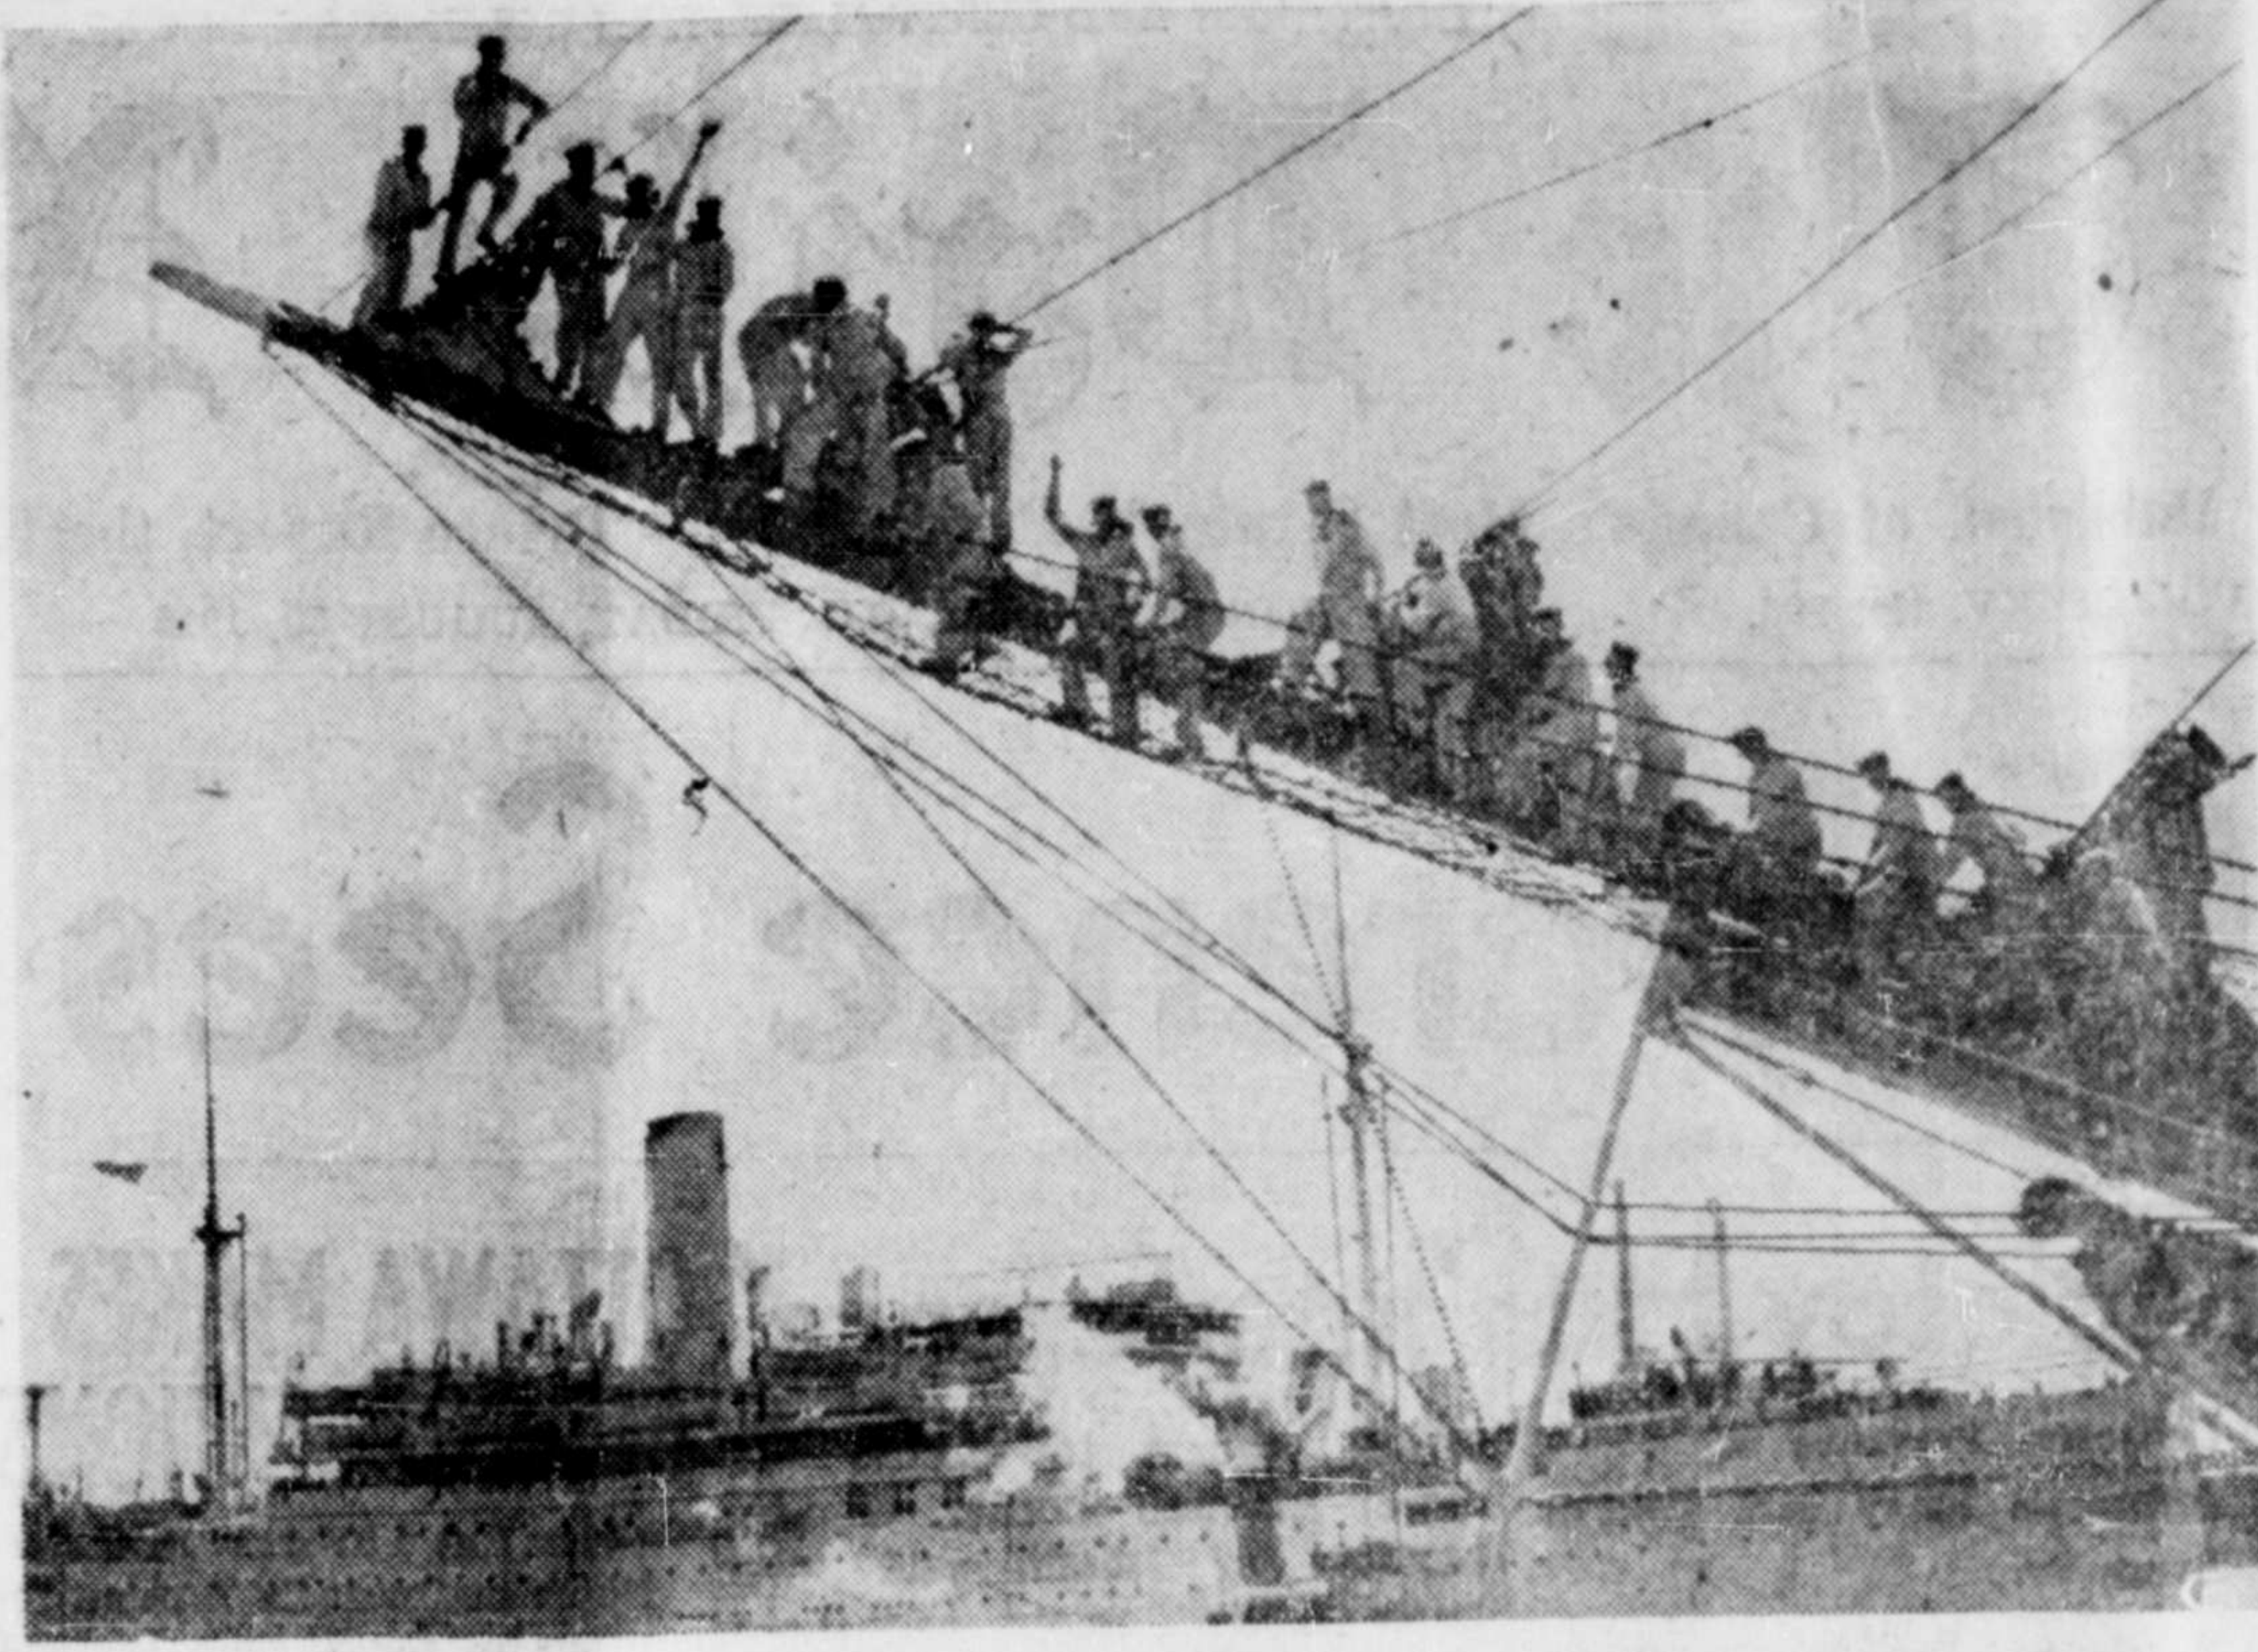

We had reached similar conclusions after visiting in central B.C. earlier this month and hearing of some preparedness steps being taken there jointly by the U.S. and Canada. We had that belief strengthened when Secretary Krug listened to suggestions that the sub-port built in Rupert should not be destroyed but should be maintained for possible future action.

The sub-port installations in Rupert, built at great cost, are being torn down and all equipment moved out. If this process has gone too far, the U.S. armed forces might well consider replacing them on American soil along the Portland canal, connected with the Canadian National railroad by spur railroad and highway. Then there would be no question of their permanence.

Mr. Krug mentioned, too, that a railroad link might be necessary to Alaska. We suggested in return that the C.N. be connected with the Alaska railroad. What is needed, of course, is both a railroad and a highway link from the northwest to mainland Alaska, for troops and heavy equipment cannot be moved north over the Alcan road at any speed. The combined needs of an expanding Alaska and "the strategic nerve centre of American defense" (Krug's term) should make the highway and railroad number one projects for the next congress.

We are convinced that Mr. Krug will impress on Canada the need to maintain the Skeena and Haines highways. We think there is a good chance of the Territory of Alaska operating, probably through a private contract, the proposed auto and car ferry link to Rupert with Haines. Then both peacetime and wartime transportation links will be under maintenance and there will not need to be any more frantic and expensive Alcan highway projects in the middle of a new emergency.

—Ketchikan Chronicle.

PAST AND PRESENT IN SEA CRAFT—Polish naval cadets are silhouetted against the sky as they lean over the bowsprit of their ancient vessel, the Dar Pomorza, in contrast to the modern ship in background, the S.S. Empire Trooper, at Southampton docks, England. The training ship of the Polish merchant navy arrived here on her first training cruise. During the war the vessel was interned in Sweden and returned to Poland last October.

Letters to the Editor

FUTURE OF ISLANDS

Editor, Daily News:
Just today I ran across an old clipping apparently from some newspaper in the southwest corner of the province.

It seems some Ontario paper suggested European Jews be sent to the Queen Charlotte Islands. Commenting, our British Columbia paper objects and advances the argument that the Queen Charlottes are submarginal agriculturally at least and that they cost the province for schools much more than they are worth.

However much is and has been spent on schools or other services or improvements to advantage of settlers, there must be a vast amount more revenue taken directly from the Islands in timber stumpage alone than has ever been spent on the Islands for those purposes.

Indirectly vastly more has been derived from the Islands through the processing of our natural products in the south. If the Islands had an export tax on logs going to the mainland, we might develop a timber industry that would carry our logs through to the finished consumer product. We, undoubtedly, should have some means of en-

forcing all our various natural products to be finished here. We have a climate quite as agreeable as that of the lower Fraser and for most of Graham Island at least, a soil equally as good. I will not say it is better but then there are some pretty poor soils both on the lower Fraser and on the Islands as well as some that is superlative.

Most people can remember, if they have been long in the province, when it was necessary to place an export tax on logs to keep the United States mills from getting their raw material in the province and even remember when owners of land on the lower Fraser were pleading for admission of Asiatics as otherwise they could not afford to clear their land.

On these Islands, the settlers are all working men. Give us a local market for our logs, give us roads to get them to market up rapidly enough to justify and other markets will be built settlement but, unless and until such times the Islands will continue to be exploited for the gentleman from the south of the province.

Our only hope for the future appears to be, when all the logs

are gone and the commercial fishing exhausted, that the Islands become a vast game reserve and mayhap, as licensed guides, we can serve those sportsmen grown rich marketing or processing our natural bounties.
W. N. GIEGERICH,
Tiel.

Fred Hiffou is leaving on tonight's train for a visit with his brothers and sisters in his native Gaspé in Quebec. He expects to be away until about Christmas.

TO ORGANIZE ROTARY CLUB AT SMITHERS

An application for the creation of a Rotary Club at Smithers has been sent to Rotary International headquarters at Chicago by the Prince Rupert club, which is acting as sponsor for the Smithers application. Dr. L. W. Kergin, president of the local Rotary Club, told the weekly meeting Thursday afternoon that guidance for the proposed organization would fall on the Prince Rupert club, which would start proceedings as soon as approval was received from headquarters.

Incidentally, the new club at Smithers will have the distinction of being the only Rotary group between Prince Rupert and Prince George.

Welcomed back after a holiday visit to Vancouver was G. R. S. Blackaby, who told of meeting R. M. Winslow at Rotary Club meetings in Vancouver.

Guests at the meeting were Dr. Gordon Kinkade, Vancouver; Ted McEwen, Vancouver; and William Redcote, Smithers.

DWARFED BY NEWEST SKYGIANT—The sleek, silvered XB-36, U.S. newest and the world's largest land-based bomber, completely dwarfs a war-veteran B-29 Superfortress on the Convair, Fort Worth, Texas, division ramp. The giant plane completed its first test flight of 38 minutes as approving army air forces and air material command officers looked on. Wingspan of the XB-36 is 230 feet compared with 141 feet for the B-29; length of the new bomber is 163 feet, the B-29 99 feet; XB-36 has a maximum range with bomb load of 10,000 miles, the Superfort's is 4,100 miles with bomb load. The new plane's take-off power is 18,000 horsepower as compared to the B-29's 8,800.

SALVATION CHIEF IS HERE

Second in command of the Salvation Army in Canada, Archibald Layman, arrived in Prince Rupert on last night's train. Layman and Brigadier Gillingham, divisional commander, he had made a visit to Hazelton on the divisional congress today and will continue the week-end. Colonel Layman will leave on the train for Vancouver.

MALARIA REPORTED SYDNEY, Australia (C)—Ten malaria cases among children have been reported in New South Wales since the start of the year. The Anopheles Annulipes mosquito, common in the state, is a malaria carrier. However, it must first absorb the disease from a human sufferer before it can transmit it.

SHORT SPORT

If an artist ever designs a coat of arms for Winnipeg's W. J. Field family, he'd better be sure to include a large hockey stick. The Fields have been in the game off and on for nearly half a century. Father Billy Field remembers years of hockey with the famed Winnipeg Victorias, twice winners of both the Allan and Stanley Cups, and with several other western teams. His son Wilf still is in the midst of a hockey career which has included duty with Winnipeg Monarchs, Brooklyn Americans and Montreal Canadiens.

Billy Field just couldn't help but get the hockey bug. Among his Montreal schoolmates were Art Ross, now manager of Boston Bruins, and Frank Patrick, brother of Ranger boss Lester. "We used to watch some great games back around the turn of the century," Billy recalls. "Those were the days of the battles between Winnipeg Vics and Montreal Victorias. We'd see men like Don Bain, Carlie Johnston and Tony Gingras. With 14 men on the ice, there was always plenty of action. Often the defencemen would flick the puck up into the rafters and smash what lights there were. Then the game would stop while repairs were made." The players probably welcomed the interludes. They played two 30-minute periods and there were no substitutions except by mutual agreement.

Field and Ross played intermediate hockey together in Montreal until 1902, when Billy came west and joined the Winnipeg Vics. Later he transferred to the Winnipeg Rowing Club

20 YEARS AGO RUPERT SPORT

In the Elks Flag Day in the girls' three-legged races Hilda Murray and Anne Kirkendall were first, Margaret Fritz and Kate Chenoski second and Mary Evans and Winnie Cameron third. In the boys' three-legged race, Bishop Thurber and Jack MacRae were first, John Erickson and Roy Fong second, and Tommy McMeekin and Ian Murray third.

The Prince Rupert Football Association has been thanked by the Boys' Band through secretary J. J. Dore for a donation of \$41.50, being the proceeds of a football game arranged for the benefit of the band.

squad where he played on the "Four Billies" line: Bawif, Keene, Breen and Field. Field quit active hockey in 1907 and became a referee. He handled official's duties at the 1913 east-west professional playoffs between Vancouver and Quebec and then left the game altogether in 1917.

Along about 1931, Billy's son Wilf showed signs of taking hockey seriously. Billy tried to dissuade him, but Wilf sneaked out to a Winnipeg Monarch practice one night. Coach Harry Neil took one look, and the Fields were back in the game again. Wilf went east with the Monarchs when they won the Memorial Cup in 1935, and later graduated to the N.H.L. and Red Dutton's Americans.

Billy likes the new style of hockey—the kind his son plays. "It's faster and a lot better all round—except for the stick-handling. In the days when there were seven men to a team, you had to be good with your stick just to get through the mob. Of course, the goal-tending is better nowadays. The scores aren't as big as they used to be." Field says the advent of big-time professional leagues has made a great difference to the game. "The minute one of these amateurs makes good, he gets a contract waded in his face. Often he doesn't know what he's getting into. I wish there were some way of making sure these kids don't get a raw deal."

SMITHERS FAIR IS UNDER WAY

All Central Interior Trails Leading to Big Affair—Many Attractions

Special to the Daily News SMITHERS—Opening of the nineteenth annual Bulkley Valley Fall Fair took place today following the judging of exhibits and final preparations and will continue tomorrow. Visitors have crowded into town from all directions for the Fair proceedings and the week-end will bring many more from east and west to this railway and administrative hub of the Bulkley Valley.

At the Fair a wide range of exhibits covers agricultural, home cooking, needle-work, handicraft, flower show and native exhibits. In spite of the fact that this is a very busy time of the year, farmers of the central interior have co-operated in making the show a success, something of which the Fair Association is not unmindful.

At the moment this appears in print an event of outstanding interest is in progress—the Baby Show for which Dr. J. B. Snyder of Vancouver was brave enough to accept the task of judge.

With a view to reviving district interest in the art of woolcraft, a demonstration of this work is being sponsored by the Glentanna Women's Institute.

Arranged especially by R. Walker, Hudson's Bay Co. manager at Hazelton, is an Indian exhibit, the judges of which are two well known experts in northern British Columbia native lore, W. J. O'Neill and J. M. Collison.

Horse racing is another of the big features, being climaxed by the Bulkley Valley Derby, a mile race. The baseball program gets under way this afternoon with Telkwa meeting Smithers, the winner to meet Hazelton tomorrow. With Prince Rupert, Terrace and Usk also participating the series will continue over the week-end, culminating with the Bulkley Valley championship final at Telkwa on Monday in connection with the Barbecue.

PORTSMOUTH, England (C)—When fire broke out in the paint store of H.M.S. Victory, Nelson's famous flagship was saved undamaged.

Baseball—Clothiers Down Savoy

Ted Arney Secures Only Home Run of Season

Ted Arney achieved the city baseball league's only home run this season by swatting one several fathoms deep into centre field last night but, in spite of his virtuosity in behalf of Savoy, the innkeepers were held down for a 6-4 defeat by the buoyant Watts and Nickerson in the evening dusk at Roosevelt Park.

But even a home run could not raise the spirits of the Savoy players, who spent many of the precious minutes of daylight in the not-so-gentle practice of "beefing." Everlasting Mount Oldfield might merely have been tinged purple by the setting sun but, on the other hand, it might have been attempting to blush at the scenes of near-violence that were going on at its very feet. Savoy, it can be repeated, did not take their defeat with humility.

The five-inning contest got really going when Benny Windle slugged a high fly in the general vicinity of centre field. This bounced off fielder Minor Simundson's glove. It was the Clothiers' first score. Savoy more than equalled it by bringing in two runs in the first inning—off a single by Minor Simundson and a double by Don Arney. Incidentally, the first argument of the evening started over who Don Arney was to play for. He played for Savoy.

In the second inning, Watts and Nickerson added three more runs to their score which then remained static until the fifth. Meanwhile Savoy tallied two runs in the fourth as a result of a decision at second base which the Clothiers protested with loud agony. With two away, runner Pete Postuk was called safe on a close decision at second which paved the way for Ted Arney's homer, also scoring Postuk.

In the crucial fifth, Savoy's Simundson and Kerr went down on two successive Dahl-to-Forbes plays and then Manager Scoop Bury stepped in to pinch-hit. He got on base on a single, but was tagged at third by Lambie-to-Dahl.

Manager Joe Beruschi pinch hit for Watts and Nickerson in the fifth inning, too, getting on base with a single. He, too, failed to score, being tagged at home plate by a Vukovich-Postuk play.

However, Windle and Sparks both scored in the fifth, giving their team its two-run win. Lambie hurled for the Clothiers, striking out six batters, walking two and allowing four hits. McDonald pitched four and a half innings for Savoy, allowing four hits, two walks and striking out nine batters. Alex Bill, who relieved McDonald midway in the fifth inning, retired two batters struck by the ball, walked another and allowed one hit.

Table with columns: Name, AB, R, H. Rows include Watts & Nickerson, Pierce, 2b., Hartwig, c.f., Windle, s.s., Sparks, c., Lambie, p., Dahl, 3b., Forbes, 1b., Dumas, l.f., Antone, r.f., Beruschi.

Table with columns: Name, AB, R, H. Rows include Savoy, Simundson, c.f., Kerr, 2b., D. Arney, s.s., Lindsay, 1b., Postuk, c., T. Arney, 3b., McDonald, p., Forman, r.f., Gurvich, l.f., xBill, 1b., xxVukovich, 3b., Bury.

x—In for Lindsay in first inning, for McDonald in fifth. xx—Went to third base in fifth, D. Arney to first, T. Arney to shortstop. W. & N. 130 02 Savoy 200 20

Service of Telephones—

(Continued from Page 1)

Mr. ARCHIBALD: If the minister has a radio telephone service there he must have installed it since I came down.

Mr. FOURNIER: The hon. member has been here a long time.

Mr. ARCHIBALD: I do not think you have a radio telephone service.

Mr. FOURNIER: Perhaps not; I shall have to inquire and I shall let my hon. friend know.

Would Help Plan Service

Mr. ARCHIBALD: I should like to inform the minister that they now have an aeroplane service. If they had a radio telephone service in the event of a crisis they could get in touch with the plane at Rupert or Massett or at Queen Charlotte city, as the case may be. They have no doctor there; therefore it is vital to have this service. Inasmuch as the machinery is there, we cannot see why the government cannot operate the service in the interests of the people.

There is one other question.

Telephone

To Kispix

Mr. ARCHIBALD: There is another point I want to bring up in connection with the telephone service running from the Yukon down through Hazelton. The people of the Kispix valley, which runs forty miles out of Hazelton, are hooked up with that system. They have been paying \$2.50 a month or \$30 a year for that service; that is the charge for each individual phone. As I understand it, only five families live up in that valley, and you are going to charge them anywhere from 10 cents to 20 cents a call in addition to the \$2.50 a month. This is in a frontier area, but you are going to put the whole load on them. Quite often when the service breaks down those people go out and spend days working on the line, but they have never charged the department for fixing it. The line is practically hanging on the branches of the trees at the present time, as I get the picture, and they would like to be allowed to call through the exchange at Hazelton to their local store without being soaked that additional 10 to 25 cents per call.

Mr. FOURNIER: Who gave you that information?

Mr. ARCHIBALD: I do not want to give the source of my information in public, but I am getting it straight and I can assure you it is reliable.

Mr. FOURNIER: I have not that information.

Mr. ARCHIBALD: That is what I get, that they are being charged for each call, and I have it from absolutely reliable sources which I shall give the minister later. There is an Indian mission up in that valley in addition to these ranches, and this telephone line is their only way of communications with the outside. Part of the year they are absolutely sewn up because of muddy roads, and must depend upon this telephone service. Then up in Hazelton you have two telephone operators in the office who are paid \$720 per annum or about \$60 per month. They cannot make a go of it at that rate, with the present cost of living.

Mr. FOURNIER: They are appointed by the civil service commission.

Mr. ARCHIBALD: They are hired by you, are they not?

NEW RATION BOOKS YELLOW

The new Ration Book No. 6 has a yellow cover. The coupon design is smaller than previously used. In the new book are two sheets of sugar coupons, two sheets of butter coupons; two sheets of meat coupons and three spare sheets, in designing and producing the new ration book precautions have been taken to make counterfeiting highly dangerous, if not impossible.

Timely TERRACE Topics

On Wednesday the Commissioners held a short meeting to choose a delegate to the convention at Burns Lake of the Central B.C. Municipal Association. N. Sherwood, municipal clerk, was delegated to go to Burns Lake taking with him two resolutions.

Wednesday night saw the Odd-fellows' Hall filled by a special meeting of the Lodge. The occasion was the annual visit of Grand Master Brady, whose address was interesting and inspiring. Letters of regret from those unable to be present were read by Secretary Lambly, including one from District Deputy Grand Master J. A. Barman.

Terrace is sweltering in a heat wave. For the past several days temperatures have been creeping up in the eighties. Yesterday at 2 p.m. Weather Observer Sherwood reported 89.

Hazelton Getting Public Building

Appropriations of \$21,400 for a public building at Hazelton is included in estimates of the Department of Public Works passed in committee recently in the House of Commons at Ottawa.

Francois Lake News

Annual Fair Is Opened—Rain Would Be Welcome After Long Hot Spell

FRANCOIS LAKE—The Farmers' Institute Hall is the scene today of the annual Francois Lake Fair. On Sunday there was much hammering, sawing and moving of benches in preparation. The ladies served coffee and sandwiches, followed by birthday cakes to celebrate the birthdays of R. E. Lord, Neil Kelly and Hugh Neave. The stalls on the grounds were altered and another cookstove installed. By the time the work was completed a ball game between Burns Lake and Francois Lake was well under way. Result was 12 to 5 in favor of Francois Lake. The winning team then played Palling, losing 6-9. Earl Deeder hit a home run, causing quite a bit of excitement.

Mrs. T. Stanton and daughters of Prince George have been visiting Mr. and Mrs. G. E. Stanton.

Mickey Tait has been here for a month's holiday with her parents, returning by plane to Vancouver early this week. She is a stenographer in the Institute of the Blind.

Evan Nobles has returned by car from Vancouver after leaving his wife and two sons there. Little Douglas is to have medical care.

Marion and John Keefe spent a few days in Prince George last week.

There has been a month of hot sunshine and, although some hay is still out, a good rain would be welcome.

Neighbors gathered at the Log Cottage on Friday evening before Mr. and Mrs. Kempton returned to Prince Rupert, for an old-fashioned surprise party. After card games lunch was served, then community singing until midnight.

Rive Bowman has left for North Hollywood, travelling with the Andy Anderson family by car as far as Vancouver.

Ray Long of Palling is helping at the Lee-Cooper Ranch. Gerald is away herding at the sheep ranch.

John Walker is improving in health in the Burns Lake Hospital. Ernie Howard is looking after the ranch at Tehesinkut Lake.

Fred Wiggling, well known postmaster and storekeeper at Southbank, was taken to the hospital on Tuesday morning seriously ill.

Mrs. J. Roberts' sister, Miss Johnson, is visiting here from the United States. She is a nurse.

Mrs. Laura Watt is cooking at the Nicholson Sawmills.

W. Bickle has a crew at the Sam Long Farm putting up the hay. There is a fine crop all through the district this year. The wheat is not quite ripe yet.

Peter Peebles was taken to Vancouver on Tuesday's train. Mrs. Peebles going with him. He expects to go through the clinic there.

RACE WANTS MY BUILDINGS

The Village Commissioners called a ratepayers' meeting Tuesday evening at 7 p.m. to consider ways and means to acquire some of the buildings, chief of which is the hall which is desired for a community centre for Terrace district.

The meeting was held in the Village Hall and presided over by Chairman of Commissioners E. Haugland, who outlined the objects and asked the ratepayers present for their expressions of opinion. He explained that to get these buildings would be necessary to a sum which might be \$30,000 to \$40,000.

Some discussion and questioning followed and the committee decided to try to get a definite offer from War Assets Corporation to how much they require. A letter will go to them to get these prices, if possible.

VANDERHOOF

Vanderhoof was honored as the only point in central Columbia where the Governor, Field Marshal Sir Harold Alexander, filled his engagement while en route back to after holidaying on the coast of British Columbia, named by Stephen Hoies and Harry V. Taylor. His Excellency presided at a parade of local regiments with each of whom he was accompanied. The Vanderhoof Corps was also on parade. The parade was presided over by the chairman of the board of commissioners, pre-arranged address. Denna Finnie, wife of the late Andrew Vanderhoof, who gave his life while serving in the army, was landing on D-Day, pre-arranged by Lady Margaret with a banquet.

Mrs. Henry Stangebye, president of Vanderhoof, was here last Saturday from Prince Rupert where they now spend a vacation as the guests of Mr. and Mrs. T. P. Stanton.

Wa Aids Dawson With Sewer

A sum of \$20,000 to the village of Peace Creek in the Peace River for the construction of a sewage disposal system has been authorized by Parliament.

EVERYTHING ON LABOR DAY AT PRINCE RUPERT; BUSY WEEK-END

With a great array of feature events, Prince Rupert is assured this coming Saturday, Sunday and Monday of one of the most active and interesting Labor Day week-ends in its history. Arrival in port tomorrow morning of the United States Navy light cruiser Tucson will mark the start of a round of unexpected activities which are now in process of organization following short notice of the warship's coming. The two-day visit of Tucson will be reminiscent of the war years when so many Americans were in Prince Rupert's midst. It will be the first time in many years that so many American naval men have been here and will recall the visit back some twelve years ago of a squadron of eight destroyers.

Baseball will feature the sports calendar marking the visit of Tucson and efforts are now being made to arrange games for both Saturday evening and Sunday. For Labor Day proper on Monday, such a variety of events is scheduled that there will be something of interest for every taste.

The list, in review, is as follows:
11 a.m.—Children's sports.
1:30 p.m.—Dedication of Roosevelt Park.
2:30 p.m.—Field sports.
3 p.m.—Baseball.

U.S.S. TUCSON VETERAN OF PACIFIC WAR

Veteran of the sea war against Japan, the American light anti-aircraft cruiser U.S.S. Tucson is due to arrive here at 7:30 tomorrow morning on a three-day visit which will keep her in port over the Labor Day week-end, and for the dedication of Roosevelt Park on Monday.

Under command of Capt. Harry Sanders, Tucson is flagship of the United States Navy Pacific training command, and is now attached to the First Fleet, which conducted the atom bomb tests at Bikini atoll in July.

Commissioned February 3, 1945, Tucson served with the American Third Fleet in actions against Japan from July 10 to August 14, 1945 and entered Tokyo Bay as part of the covering force on

September 5 last year. In October she returned to the United States to become flagship of the Pacific training command.

On her visit here she will carry a complement of approximately 25 officers and 350 enlisted personnel.

Acetylene Torch Blows; Three Die

MEMPHIS, Tennessee — Three workers were killed in the explosion of an acetylene torch at the plant of the Trumbull Asphalt Co. here yesterday. The explosion tore the bodies to bits. They were operating near an asphalt still on the plant grounds.

Whifflets From The Waterfront

Carrying 230 passengers, C.P.R. steamer Princess Louise, Capt. P. L. Leslie, arrived here this morning, northbound for the Alaska ports. Among the passengers were a number of school teachers going to Alaska for the opening of the new school term, and Alaska residents returning north for the winter. About half the passengers were round-trip tourists.

Northland Transport Co.'s steamer North Sea was in port overnight unloading eight carloads of frozen fish for rail transport to the eastern United States. The vessel docked here at 11 o'clock, sailing at 10 o'clock this morning for Seattle.

Union Steamships Island vessel Cassiar, Capt. Lorne Godfrey, arrived in port this morning from the south Islands, sailing this afternoon for Massett and Port Clements.

Better English

By D. C. WILLIAMS

1. What is wrong with this sentence "They blamed the defeat on James?"
2. What is the correct pronunciation of "forehead"?
3. Which one of these words is misspelled? Denunciate, delinicate, delegate.
4. What does the word "inadequate" mean?
5. What is a word beginning with der that means "ridicule; mockery"?

Answers

1. Say, "They blamed James for the defeat." 2. Pronounce for-ed, o as in of (not as in fore, nor as in for); the h is silent.
3. Delegate. 4. Insufficient. "The money they received was inadequate for their daily needs." 5. Derision.
