A recommendation that greater supervision and more adequate fire fighting aparatus be provided in homes for aged people and that bedridden patients not be accepted unless special attention is also provided was contained in a rider to the verdict of a coroner's jury which Thursday completed its investigation of the death of Wilhelm Bert Johansen.

# Bulletins

Official confirmation came last night from the Chinese central government that Changchun, capital of Manchuria, is now entirely in the hands of Chinese communists. It fell late Thursday. Communications with Changchun, as far as Nationalist China is concerned, have been cut off and there is no word of the fate of the garrison of seven thousand which was defending the city as well as five American newspaper correspondents and five American soldiers who were there. Chinese government officials have fled to Mukden from Harben which may be the next city to fall.

### 1900 Germans Poisoned

United States Army occupation authorities are investigating the poisoning by arsenic of 1900 German prisoners of war in a camp near Nuernberg. The arsenic was contained in bread supplied by a local German bakery. It may have been spread on the bread when being used as cockroach exterminator. None are dead although all are quite seriously ill.

### Moscow Attacks Spain

The Moscow radio has sharply attacked Franco Spain insisting on United Nations action. Franco Spain, says a Moscow broadcast, is poisoning the whole political atmosphere of Europe. Conductng research and other war-making activities, Nazi Germans are preparing in Spain for a "war of retaliation." German capital is influencing every phase of Spanish life.

### Loan Conference Proposed

The United States Department of State has invited Soviet Russia to begin negotiations for a billion dollar loan to stabilize trade relations between the two countries. Russia would also be encouraged to join the international bank. However, Secretary of State James Byrnes insists on an economic conference before any loan is made to Russia.

### Censorship Denied

The propaganda minister of Iran denies that a censorship has been imposed on foreign correspondents. On the contrary, it is declared they may send out what they want. Nevertheless, it is announced that "rumors" are "illegal" and they will be suppressed as has already been done.

# hree of the Many Reasons

THERE ARE a lot of good reasons why Carnation is so widely recommended for bottle-fed babies. Here are just three of the very important ones . . . digestibility, fine food values, and

Easier digestibility because of heat-treatment and homogenization; all the fine food value of good, pasteurized milk plus an extra supply of "sunshine" vitamin D; and the complete safety of sterilization.

No matter where you buy Carnation Milk, no matter how long you keep it in the unopened can, even without refrigeration . . . it is always the same, always one of the finest foods for bottlefed babies (and their brothers and sisters and parents, too).

As a result the army has won a recruit. While his father and pals were rejoicing over they \$4,500 they won on bets on the race, George received his Army call-up, sent by the National Service for absenting himself from work for the event.

The crowd cheered but there were groans from the ring when two heavyweight boxers-Reg Andrews and Charlie Collettbatled it out over eight rounds at Epsom. As they sparred for the opening round a board in the ring cracked under the strain and three men, armed with beer kegs (empty) dived underneath to make repairs. To the accompaniment of hammering the boxers carried on. All went well until the last round when another board gave way; and again men dived underneath to make repairs. Andrews won the dicision.

# FOOD WON THE WAR, FOOD WILL KEEP THE PEACE

THE world is tragically short of food today! Millions, in Europe, face not only hungerbut death, through starvation.

During the war, Canadian farmers worked night and day to feed our fighting forces. The results amply repaid their splendid efforts.

Now an emergency of equal proportions is confronting us here in Canada. With most of Europe's countries facing famine, and its attendant implications, we cannot stand idly by and permit our fellow humans to starve without, at least, first doing all in our power to alleviate their distressing, serious condition.

Freedom from Want-one of the Four Freedoms-is surely within our power to fulfill. This is an appeal to you—an appeal seriously recognized by the British Columbia Government - to help the unfortunate, starving millions of people in Europe.

WILL YOU HELP?

### Here Is What You're Asked To \Do!

- 1. Produce a maximum of substantial foodstuffs-pork, beef, poultry meat, eggs, milk, vegetables, fruits, legume seeds, etc.
- 2. Use commercial fertilizers, lime, manure and the best possible farming techniques.
- 3. Use good British Columbia-grown seed.
- 4. Plant a garden for your own use.
- 5. Conserve food, feed and equipment as much as possible.
