## Murder-Suicide Tragedy Near Prince George

**Forty-Four Hour Week**  
Fifteen-cent Wage Increase Also Recommended

**VICTORIA**—Chief Justice Sloan today announced recommendations with a view to settlement of the strike involving 15,000 loggers and mill workers following hearings with loggers and operators across the board. The recommendations include a wage increase of 15 cents per hour and an average 44-hour week.

The Lordship recommended a temporary revocable check-off which has had legislative sanction in British Columbia for 44 years.

The average 44-hour week in the logging industry would be a 48-hour week during April, May, June, July, August and September with time-and-a-half for hours worked in excess of 44 hours during the remaining months of the year. He urged a 44-hour week in sawmills.

He does not recommend that any changes respecting union security be written into the 1946 contract, said Mr. Sloan, "except in relation to a voluntary revocable check-off."

The employers' request for a change in any agreement reading "in the event of a strike taking place in operations covered by this agreement, this contract shall immediately become null and void" the chief justice does not recommend.

Monday evening is set as the deadline for the acceptance or rejection of the recommendations.

The Woodworkers' Union will hold a meeting of the executive on Monday to decide their position.

Neither side will comment on the recommendations.

**Employment Survey Will Start Monday**

The survey of employment and labor information, which will be conducted by the Dominion Bureau of Statistics in the British Columbia areas, including Prince Rupert, will start on Monday. It will cover households selected at random in Prince Rupert, Vancouver, Victoria, Kamloops, Okanagan, Cranbrook, Kimberley and Fernie. Statistical data to be obtained will include estimates of employment in different industries, weekly hours of work, regional distribution of unemployment and number of students and non-workers.

**THE WEATHER**  
Synopsis  
Cloudy weather has prevailed over British Columbia for the past 24 hours except for the Stenay region which remained clear, widely scattered rain showers were reported along the coast with no precipitation recorded over the interior. Pressure is high over northern Canada. A marked low pressure area 700 miles west of Vancouver Island and will move eastward to the vicinity of the Queen Charlotte Islands this evening. The associated weather system will give increasing cloudiness with intermittent rain over the coast tonight and Monday. Little change is expected today over the interior. Temperature continues slightly above normal.

**Forecast**  
Prince Rupert, Queen Charlottes and North Coast—Intermittent rain today becoming cloudy with rain showers in afternoon and Sunday. Southeast winds, 15 miles per hour, increasing to 25 by noon and to 35 in exposed areas. Little change in temperature. Minimum today about Hardy 61, Massett 54, Prince Rupert 59.

**TRIPLETS FOR RENT**—Dr. and Mrs. Van Ellis, of Shoto, Wis., are going to rent their triplets to a foster-home. Facing eviction, the Van Ells offered their four-month-old trio for temporary guardianship until they could find a new home. With their parents here are two other boys, James, left, and David.

### Bulletins

**CRASH IN MEDITERRANEAN**  
**NAPLES**—The American military reported today that a four-engined plane, with 39 passengers, bound from India to United States, fell into the sea near here today. Five persons were killed and 30 injured. Four persons were rescued by Italian fishermen. It was not immediately determined whether the plane was an army machine.

**TEXTILE WORKERS STRIKE**  
**MONTREAL**—A strike in six plants of the Dominion Textile Co. here and at Valleyfield, Quebec, started today and is expected to involve 6,000 workers. The union demands a union contract, wage increase and 40-hour five-day week.

**FAVOR STRIKE CONTROL**  
**WASHINGTON**—The Senate yesterday approved President Truman's modified strike control bill. The bill now goes to the House which is expected to accept it.

**NO SENSE TO IT**  
**CALGARY**—The Calgary Trades and Labor Council sees no sense to Canada deporting native-born Japanese and then importing Poles to work in the sugar beet fields.

**POWELL RIVER WORKING**  
**POWELL RIVER**—The Powell River paper plant is operating again after a settlement of the dispute over classification of logs which the I.W.A. had labelled as "hot." By agreement between the I.W.A. and paper workers' union they were declared "fair."

**MASS MARCH POSTPONED**  
**VICTORIA**—The mass march of the I.W.A. on Parliament buildings has been postponed until June 7.

**FRASER RIVER FLOODS**  
**MISSION**—Flood waters of the Fraser River are up another inch but the situation is said to be under control.

**TO OPEN STAMPEDE**  
**CALGARY**—Lord Alexander, the Governor-General, will open the Calgary Stampede on July 8.

**AUTOMATIC PAGE-TURNER**  
A motor-driven device has been developed to turn book pages for crippled veterans.

**LONDON**—Appreciative passengers have been presenting flowers almost daily to Elizabeth Williams, bus conductor. They call her "North London's most courteous clipper."

**WAS NOT SABOTAGE**  
**NEW WESTMINSTER**—The management of an oil plant near here which was destroyed by fire this week says the fire could not have been the result of sabotage.

**BEAU JACK WINS**  
**NEW YORK**—Beau Jack won a clean-cut 10-round decision at Madison Square Garden last night over John Pringle of Montreal in a title bout.

**GETS SEVEN YEARS**  
**EDMONTON**—C. J. Madison, who slipped out of a theatre recently and set an apartment block on fire has been sentenced to seven years.

**CHINA WANTS SHIPS**  
**VICTORIA**—Chinese officials have been inspecting Yarrow's shipyard here in connection with the possibilities of letting contracts for new ship construction.

**JAP DEPORTEES SAIL**  
**VANCOUVER**—The steamer Marine Angel sailed last night for Japan with 670 Japanese deportees on board. They are the first of 10,000 such deportees who will leave.

### TWO EDMONTON PAPERS JOIN

To Meet Strike—Ottawa Citizen Fails to Publish Again

**OTTAWA**—The Ottawa Citizen failed to publish either morning or afternoon editions today, the second day of a work stoppage by 45 composing room workers called by the International Typographical Union in an effort to obtain a master agreement with five newspapers owned by the Southam Co.

At Hamilton, the Spectator published a 20-page issue today.

In Edmonton, the Journal and the non-Southam Bulletin planned to publish a joint edition.

**TRUE PEACE IS NOT NEAR**  
**VATICAN CITY**—Pope Pius today said in a world-wide broadcast that true peace seems farther away today than a year ago when hostilities were suspended. The Pontiff said that the way to peace is "long and arduous" and the first resolute step toward attainment of true peace has not yet been taken.

**EXTREMES OF CAREERS**  
Sir John Popham, a highwayman in his youth, became chief justice of England in 1592.

### VIOLENCE IN LAKE STRIKE

**TORONTO**—Seven men are in hospital as a result of flare-ups at Montreal and Cornwall in connection with the lake shipping strike. Nine are seriously hurt. Two hundred pickets boarded the freighter Meadcliffe Hall at Montreal and a general melee ensued until police broke it up.

At Cornwall, a restaurant fight between strike breakers, police and unionists sent six to hospital today.

Police lined the banks of the Welland Canal as the Noronic, with a non-union crew aboard, sailed through the locks to a coal dock for re-fueling.

**AREA TWO WILL CLOSE JUNE 11**  
Closing date for the Area Two halibut fishing has been set for June 11, it was announced last night by the International Fisheries Commission. This makes the 1946 Area Two season the shortest on record—42 days. The 1945 season was 46 days. Quota for Area Two this year was 24,500,000 pounds.

### RUSSIA WILL STAB CANADA

So Says Igor Gouzenko in Trial of Fred Rose at Montreal

**MONTREAL**—At the trial today of Fred Rose, M.P. for Montreal-Cartier, Igor Gouzenko, former cipher clerk in the Russian embassy, said he had given information leading up to the espionage arrests and trials because he was opposed to the "two-faced policy of the Soviet government. Yesterday Russia had been an ally of Canada, today she was a neighbor, tomorrow she would be an enemy." Russia has organized to stab Canada in the back, said Gouzenko.

### BRITISH INVENTION

**LONDON**—A British invention that attracted much attention recently was a thrust borer to facilitate underground pipe and cable installation without road-disturbance. This machine can be operated by one or two men and guarantees accurate alignment of each thrust tube.

### School Teacher and Logger Are Victims

Former Is Stabbed Through Heart—Latter Is Dead of Gunshot Wounds—Frustration Believed Motive

**PRINCE GEORGE (Special to Daily News)**—An inquest is being held today into what B.C. Police believe to be a murder and suicide at Ferndale, 18 miles east of Prince George. Bodies of Mrs. Grace A. Waters, Ferndale school teacher, and Josef Polak, Slovakian logger, were found 350 yards apart early Friday morning.

**COMING HERE**—Louis Antonio, 10-year old Portuguese East African boy, who reached Vancouver recently from his native land as a stowaway. He is making a tour of Canada under the auspices of the Pentecostal missions and will arrive here tonight on sight on the Catala, accompanied by Rev. and Mrs. Earley King. The party will proceed from here to Terrace.

The woman's body, stabbed through the heart with what police assume to have been a narrow, long-bladed jack knife, was found on the doorstep of the teacherage. Her 8-year-old son, Charlie, was asleep in a bedroom only 15 feet away. He had heard nothing, he told police. The body was lying on a small hatchet but the death knife was missing.

Polak's body, with the face shattered from three rifle bullets lay just outside the ranch house of Conrad Stussi, east of the school. Stussi told police that Polak had awakened him with shouts at one a.m. Friday, then told him to go see the teacher. Half awake Stussi was unable to determine whether Polak said he had killed the woman or that she was dead. Polak then walked out to the road. A shot was fired, followed by two others, and Stussi saw Polak reeling toward the house again. The man stumbled twice and crawled on all fours for the last 25 yards.

Frightened by the pain-crazed cries of Polak, Stussi ushered his wife, 30-month-old son, Conrad, and step-daughter, Hazel Gerlitzki, through a back window of the upper floor and down the roof of a lean-to shed and sent them to neighbors for help. Polak pounded on the front door, then dragged himself around to a shed. In the early morning light Stussi saw Polak's face had been practically shot away, and rushed to a neighboring residence. Polak died as police arrived. The rifle Polak had used was lying in pools of blood outside the Stussi gate.

Police are investigating the theory that Polak had become enamored of the pleasant-mannered teacher, who had come up from New Westminster after Christmas. Mrs. Waters had apparently discouraged his attentions.

Mrs. Waters' husband, Joseph H. Waters, and their two other sons live near New Westminster.

### CONFERENCE NEXT WEEK

Move Made to Avert Strike Affecting Mines of British Columbia

**VANCOUVER**—Vancouver and Union operator representatives in the British Columbia mining industry have been invited to a conference here next Wednesday in a move to avert a possible strike affecting some 2500 employees, it was announced yesterday by Hon. R. C. MacDonald, provincial minister of mines, following a conference with the operators. The International Union of Mine, Mill and Smelter Workers Union is seeking increased wages and stabilized hours of work.

### Prince Rupert Is Featured In Vancouver Paper

Prince Rupert received a first class publicity spread in the Sunday supplement to the Vancouver Province this week-end with an illustrated story by Richard L. Neuberger, Portland Oregonian feature writer whose interest in northwestern Canada has inspired a fact-filled story. On the front page of the supplement, the story is set off with pictures of the port and a foreword by B. A. McKelvie, Province staff writer.

### BLDG. PERMITS \$14,000 IN MAY

Repair work still dominated Prince Rupert's \$14,353 list of building permits issued during May, although some construction work was in progress. New construction accounted for about \$4,000 of the permits issued.

May's total brings to \$104,175 the value of permits issued so far this year. During the corresponding period last year building permits valued at \$37,145 were issued. In May last year permits were issued to a value of \$15,025.

Building permits were issued in May to the following:

- M. Lockwood, Seventh Avenue East, \$400; alterations.
- W. J. Alder, \$400; repairs.
- C. H. Orme, Fulton Street, \$600; repairs.
- N. Pawlucik, \$3,500, Second Avenue; repairs.
- L. Halcrow, \$125, Eighth Avenue E.; repairs.
- J. A. Rutherford, \$200; basement.
- J. Storseth, \$300, Eighth Avenue East; repairs.
- H. G. Helgerson Ltd., \$500, Sixth Street; repairs.
- R. R. Strachan, \$160, Atlin Avenue; repairs.
- F. J. Fuller, \$75, Seventh Avenue East; construction.
- J. H. Schriaberg, \$50; repairs.
- Ole Skog, \$200, Seal Cove Circle; construction.
- Edward Lipsett, \$600, waterfront; construction.
- Edward Lipsett, \$600, Summit Avenue; repairs.
- J. G. Anderson, \$150, Fourth Avenue East; repairs.
- B.C. Packers, \$2,000, Seal Cove; construction.
- A. Ferguson, \$500, Fraser Street; construction.
- J. L. Blain, \$75, Sixth Avenue East; construction.
- Wartime Housing Ltd., \$75; moving.
- Mrs. A. Pavlikis, Park Avenue; construction.
- E. Lindseth, \$1,200, Eighth Avenue East; repairs.
- B.C. Clothiers, \$2,000, Third Avenue; repairs.
- Fred Scadden, \$200, Seventh Street; poster panel.
- Fred Scadden, \$200, Second Avenue; poster panel.

## Fine Weather Records Here Smashed

### TEN THOUSAND FROM OVERSEAS

**Lady Nelson, Ile de France and Aquitania Due During Week at Halifax**

**MONTREAL**—More than 10,000 persons will arrive from overseas in the next eight days when three liners dock at Halifax. To handle the big movement of 8,067 service personnel, 1,398 dependents and 700 civilians a total of 27 special trains will have to be operated out of the Atlantic port over Canadian National lines, as well as 13 cars attached to regular trains.

The hospital and dependent ship Lady Rodney, former C.N.S. S. flagship, is due to arrive tomorrow with 220 dependents and 119 servicemen; the Ile de France which because of minor damage was delayed while repairs were being made, is sailing from an English port, is scheduled to dock on Saturday June 8, with 7,858 service personnel, 94 dependents and 290 civilians; and the Aquitania is expected on Sunday June 9 with 1,084 dependents and 410 civilians.

### Never Was There So Much Sunshine as in Month of May

All-time fine weather records were shattered in Prince Rupert during the zesty and balmy month of May, it is confirmed from a compilation of official records by S. G. Mellor of Digby Island Dominion meteorologist. The sun beamed brightly on twenty-eight days for a total of 207.2 hours, the nearest previous approach to this having been the same month last year when there was 206.8 hours of bright sunshine. So far this year Prince Rupert boasts an aggregate of 376.9 hours of sunshine compared with 367.6 hours in the same period of 1945 when previous fine weather history had been made here. Incidentally, the weather was warmer in Prince Rupert this May than last with a maximum reading of 77 and a minimum of 37 where in May 1945 the maximum was 75 and the minimum, 33.

Consistent with the increased sunshine was a small measure of spattering rain amounting to but 1.04 inches as compared with 1.71 inches in the same month last year. So far this year there has been 40.43 inches

### FRANCO SPAIN IS CONDEMNED

**NEW YORK**—It was reliably learned today that the United Nations sub-committee investigating Franco Spain expressed moral condemnation of the Falangist government and recommended that the security council pass the Spanish question to the United Nation's highest body.

### PROTESTS ARE SENT RUMANIA

**LONDON**—Great Britain and the United States have sent vigorous protests to Bucharest charging that the Rumanian government has found means to circumvent the political freedoms, it was announced tonight.

### SENTENCE OF FOUR YEARS

**Impressed on Former National Research Engineer for Violating Official Secrets**

**OTTAWA**—Ontario Supreme Court Chief Justice McRuer today sentenced Edward Mazerall, 30, former National Research Council engineer, to penitentiary for four years on a charge of conspiring to break the Official Secrets Act of 1939. Mazerall betrayed no emotion as the sentence was passed. He was the third to be sentenced among the 14 Canadians detained in connection with the activities of the Russian espionage ring.

It was shown in evidence that Mazerall had given two radar documents for the use of Russia, taken from the Research Council.

**TALKING OF WEATHER**

**NOT ONLY** Prince Rupert and Vancouver bicker about the weather but so have Victoria and the former. Victoria has proudly proclaimed its roses at Christmas (which Prince Rupert also has). Vancouver, when hard pressed, will stoutly contend that, unlike its rival, its rain does not really wet you.

So it can be imagined with what anger, dismay and a sense of inexcusable impropriety, Victoria realized recently that a heedless Ottawa government had all but dismantled Victoria's own meteorological station on Gonzales Hill, wherefrom its weather forecasts had been issued for many years, and—offence imposed upon hurt—had handed over the business of wind-and-wet prognostication to Vancouver exclusively. (Prince Rupert also suffers from this arrangement).

Worse still, the monopoly station on the lower mainland manages grossly to misrepresent the Victoria and Prince Rupert climate and slander the Japan current.

Comes a serene and lovely spring day in Victoria and Prince Rupert with light fleecy of cloud in a sky all compact of azure, and the grim forecast of rain, persistent, gloomy and all-pervading, goes out from Van-

couver across the other—to the impotent fury of the Victorians and the Prince Rupertites. Like the character in H. M. S. Pinafore, they "shake an energetic fist" ever "ready to resist a dictatorial word." But so far the fist has been shaken in vain.

Nevertheless, Victoria, at least, does not intend to allow Ottawa thus to wreck their meteorological traditions. They insist that their weather station be restored so that they need "not woo foul weather all too soon," or "nurse November in the lap of June," and Prince Rupert seconds the motion.

**GETTING MUSEUM GOING**

**FUTURE POLICY** of the Prince Rupert Museum, which has been in storage for the war years, should be definitely decided upon next Monday evening when a meeting of the Museum Board is called for reorganization purposes. It is to be hoped there will be a large attendance so that not only interest will be shown but some action taken. A good museum is always an interesting attraction in any city and Prince Rupert has, or did have, an outstanding collection of fascinating historical interest. As has been said before, we are short enough of attractions and centres of interest for the tourists in large numbers which will start coming this way again this year. The importance, therefore, of getting the museum open and organized again is important for that reason, to say nothing of the round the year interest it could well be to the citizens and those who casually call this way the year about.

It is to be hoped Monday night's meeting will be able to make some definite headway towards straightening out the various difficulties which may lie in the way of getting the museum going again.

**CITY COULD HAVE TOURIST "GOLD MINE" IF HIGHWAY WAS SURFACED**

If the Prince Rupert Highway were given a paved surface, this city would experience an influx of American automobile tourists that would be a "gold mine." This is the asserted opinion of a man who arrived in the city Friday afternoon after driving 2,500 miles from Los Angeles to Prince Rupert in a jeep.

He is Walter Hanson, son of Mrs. M. Lundstrom, local business woman, and a veteran of the air war over southern Europe. He is confident that American tourists would flock here if there were good highway access.

Purchasing a post-war model jeep in Los Angeles several weeks ago he made a leisurely trip as far as Vancouver, then drove the 1,000 miles of road to Prince Rupert in less than two days. With his mother he is going to Stewart, his former home, to look after business interests during the summer.

"The United States is having the greatest tourist boom in history," he said. "Everybody seems to be on the move and all the resorts are crowded. The people down there would go crazy about the attractions that exist up here."

However, he added, in order to get the tourists, this country must have a good highway and tourist services to offer.

"This is a wonderful country," he declared. "All it needs is a little plugging, but you can't plug it the way it is now. You have to have a paved highway, tourist cabins and good hotels."

During his drive from Prince George to Prince Rupert, Mr. Hanson said, he passed not more than 15 cars in the 500-mile stretch. In a similar distance on American highways there would be thousands of cars.

Driving the asphalt surface from Vancouver to Ashcroft was

not too bad, Mr. Hanson said, but the gravel surface from Ashcroft to Prince Rupert would hold no attractions for American drivers who are used to hard surfaced roads, he indicated.

He believes himself to be among the first to have driven the highway from Vancouver in a jeep and looks on himself as the fore-runner of what could develop into a multitude of American drivers.

A bomber pilot with the American army air force, he flew A-26 attack bombers in Italy for nine months and was heading for the Pacific when the war ended. Born and brought up in Stewart, he left there early in the war and went to California where he worked for Douglas Aircraft Co. before enlisting. He was discharged last December. He plans to attend university in the United States this fall.

**THIS WATCH WINDS ITSELF**

On my trip to the East recently I took one of these self-winding watches to see for myself how they perform. I was away a month and found the watch only half a minute slow. That was quite satisfactory as it keeps really good time now after a small adjustment. I had not wound or set the watch in that time.

The small motion of one's arm in walking or working keeps the watch wound by means of a small weight inside the case. If laid aside it has enough reserve power to run 18 hours. Of course you can always wind it like an ordinary watch if desirable.

**JOHN BULGER**

**TO THE PEOPLE OF PRINCE RUPERT Who Suffer With Their Feet**

You will be interested to know that there is a man in town who has had a wide experience in the correction of fallen arches, and can make Arch Supports that will relieve that painful and tired feeling that only foot sufferers can explain.

Mr. Bill Terry, with many years of study of foot ailments, is at Hill's Shoe Store, and will be pleased to take an impression of your feet and let you know what can be done in your individual case.

Mr. Bill Terry is also in charge of the Shoe Repairing Dept. where your repairs are executed neatly and promptly. Call around and see him for either reason.

**AUSTRALIA HAS CIVIC HOTELS**

Residents of Rich Farming Area Proud of Project

ADELAIDE, Australia. (C)—A number of South Australian towns have gone into the hotel business and citizens are proud of their project, profits of which go toward civic benefits.

Five hotels, ranging from a club to a three-storey residential hotel, have been set up in towns along the River Murray in the northern part of the state. All are owned and controlled by the community, which annually elects a committee of seven to administer hotel affairs. The committee appoints a hotel manager.

The hotels are each in a separate town, and serve the rich fruit-growing and irrigation areas just off the border between South Australia and Victoria. The biggest is at Ren-

mark, and its supporters claim it has been a success in every way.

A bill liberalizing the liquor laws of New South Wales, which has just been passed by the state parliament, provides for the establishment of community hotels and sports and other bodies.

Accounts show that it has distributed more than \$400,000 in civic funds and amenities in the town. Annual donations are made to local hospitals, schools and community benefits.

Profits are devoted to hotel maintenance and improvement, by local government bodies. And there are suggestions that similar provisions be included in the liquor laws of other states.

Flower gardens surround the building and there are tennis courts, a bowling green, and a pleasure launch for the use of guests.

**HEIGHT FOR SONG**  
Most birds sing only while on the wing or when perched on some elevated object.

**HIGH SCHOOL COUNSELLORS**

Play Important Part in Employing of School Graduates

The important place played by the counsellors of the local High School in the matter of employment of young men and women graduating from the school was the subject of discussion last evening at the regular meeting of the local advisory committee of the National Employment Service.

Miss Eva Cavalier and J. M. Clark, counsellors at the Booth Memorial High School, were present at the invitation of the committee. They explained the procedure followed in counselling the pupils of the schools. The complete records of the children as they passed through the schools were available and, when a student wished to interview a counsellor, these records were consulted. When the pupil expressed a desire to follow up some line of industry or learn a trade his abilities and skills were considered. Literature from various governmental and educational sources was available and the child's aptitudes and achievements were evaluated and compared with the requirements of the desired position. The possibilities of the present trend towards extending vocational opportunities in the local schools were reviewed. It was also hoped to get the employers of the city, whether in electricity, machine shop practice, boat building, stores or office work, to make direct contact with the schools or through the employment office with the students. A modern practical step was the training of employees on the job for part time work while attending school also for part time. This feature will develop very quickly in the near future, for educational as well as industrial leaders recognize the practical value of such combined training.

Colonel Hamilton Grant of the Department of Veterans' Affairs referred to the valuable pamphlets issued by his department. They were very up to date and of great practical value.

A. M. Crawley pointed out that there were various firms in the city training apprentices. These firms were assuring themselves of skilled workmen and the youths taking the training were starting on a career that would ensure their having employment in work that they were fully qualified to do.

As a result of previous action by the local committee there were 11 forms received through

**VETERAN SCORES DOUBLE WIN**—When 30-year-old Herb Holland, Los Angeles war veteran, made his way to Yellowknife, he had a two-fold purpose. First, to find gold which second, would net him a \$1,000 radio prize. The stipulation was that he find gold and be back in Hollywood within two weeks. Above: Herb cracks open a rock with a sledge hammer. After many trials Herb completed the assignment and, below: prepares for the trip back home.

the co-operation of the High School from students who wish to obtain work this summer. There was a strong indication at the meeting that two vacancies would be filled in the immediate future.

The counsellors expressed their thanks at having had the opportunity to meet the committee and felt that the exchange of information would be beneficial to the students and employers alike.

Those attending were Miss E. A. Cavalier and J. M. Clark, A. M. Crawley, E. V. Whiting, R. H. Whiffen, James Nicoll, Colonel Hamilton Grant and J. S. Wilson who presided.

**HONOR EARL OF HAREWOOD SHEFFIELD, Eng.**—The Earl of Harewood will be installed as president of Sheffield University on June 25. Nine other national and international personalities will receive honorary degrees.

## Home Recipe

Here is gnochi, an Italian delicacy, which was popular with the boys overseas. With a green vegetable or salad it makes a delicious and nourishing main meal. Here is the recipe, in quantities sufficient for four people:  
1/2 pint milk and 1/2 pint water  
OR  
1 pint milk  
5 1/2 level tablespoons semolina  
2 1/2 oz. grated cheese  
1 1/2 oz. butter  
1 level teaspoon salt  
1/2 teaspoon nutmeg  
Pinch of cayenne pepper  
Bring the milk to the boil with half the butter; remove from heat and stir in the semolina slowly, return and cook for 15 minutes very gently, stirring all the time to prevent it from sticking to the pan. Take the pan off the fire and add the salt and nutmeg with half the grated cheese. Beat well. The mixture ought now to be a smooth thick paste. Spread it out on a shallow dish or baking tin, flattening it with a wooden spoon to a thickness of 1/2 to 3/4 of an inch. Let it cool and when cold cut it into small rounds or squares. Arrange these in a greased fireproof dish, sprinkle the remainder of the grated cheese over them and dot the remaining 1/2 oz. of butter over the top. Brown well under the grill.

## SOUND LESSON IS INTRIGUING

Radio Men Entertain and Instruct Pupils of Borden Street School

A lesson and practical demonstration on sound was given to the pupils of Borden Street School yesterday by C. E. Insulander and Lloyd Morris of CFPR was one of the most interesting that they have had.

Bringing with them equipment needed for making recordings and then playing back the recordings to the children, Mr. Insulander and Mr. Morris explained and demonstrated how electrical sound was recorded and then played back. All the children from Grade I to Grade VI were given the opportunity, through speaking a few sentences, to hear their voices recorded. Then they heard their own speeches played back to them. In addition, the senior choir sang two selections and these were also played back to the pupils. It was a memorable event.

On behalf of the children, his staff and himself, J. S. Wilson, principal, expressed the thanks

## Assault Due For Another Crown

Sensational Finish in Belmont Cup Race Today—Natchez Second and Hampden Third

NEW YORK (AP)—Triple crown of the American turf, a purse of close to \$80,000 and a spot among racing's top dozen money winners was taken by Assault at the finish of the Belmont Cup Stakes today.

The clubfoot comet, in Jockey Warren Merton's usual style, came sensationally up from behind with a last dash of great speed to win by three lengths over Natchez, Cable nosing out Hampden for third place in a photographic finish. Hampden led by two lengths at the halfway mark but was overtaken by Natchez and then by Assault.

Seven horses ran and the time for the mile-and-a-half was 2 minutes 30 4-5 seconds compared with Bolingbroke's record of 2 minus 27 3-5 seconds.

## HIGH SCHOOL BEATS NAVY

In a hastily arranged basketball game at 6:30 last night, Booth Memorial High School team defeated a team of university students from H.M.C.S. Charlottetown by a score of 43-24 before a small number of fans in the Civic Centre gym. A softball game, scheduled to be played between Charlottetown and Prince Rupert All-Stars at Gyro Park did not materialize because of the failure of the Navy team to turn up. Instead, the fans watched a pick-up game which ran into 11 innings. Gyro and Kin softball players failed to field sufficient players and that game was also postponed.

## SHORT SPORT

The "scalpers" and black-market boys made a killing on tickets for the Gus Lesnevitch-Freddie Mills light-heavyweight boxing championship at Harringay Stadium, London, recently. Police stood by helpless outside the stadium as tickets were sold at fabulous prices. A 20-guinea (\$9) ringside seat exchanged hands for £75 (\$335)—and everything was legal. Weeks before the fight, black marketeers bought up blocks of tickets and their fight-night returns were enormous. One newspaperman went into the booking office and was told that six 10-guinea tickets were left but within minutes the reporter was surrounded by fight fans. They hadn't thought to ask the booking office—they were convinced the black market was the only way to obtain tickets.

**TWIN COLTS—AN EQUINE RARITY**—Bonny, a mare at San Anselmo, Cal., is shown with her colts, Regina and Rex, which she foaled in a twin birth, a rarity in horse-breeding. The mare is owned by Ella and Dick Gianinni, the latter partly hidden by the horse's head. According to a veterinarian, this was the second time in his 40 years practice that he has seen twin colts foaled. The sire of the twins is a stallion owned by a San Anselmo breeder.

## THE BIBLE TRUTH

(By THE CARPENTER)

As children our faith was so "simple" that we actually believed that God created the earth and everything on it in six literal days. Later we "learned" from higher criticism that the universal evidence of the strata on the earth's surface quite forbade any such belief and that its story quite agreed with that of biology, with its ascending scale of forms rising from the simplest single-cell to the most complex and intelligent, man, indicating a long period of evolution. So we came to the conclusion that the "days" referred to in the first chapter of Genesis were in fact long periods of time. Did not the Bible plainly state that, "A thousand years are as a day in the sight of the Lord"? Later we noticed that each of the six days of the "Genesis" creation was designated "the evening and the morning," clearly a twenty-four hour day so it would seem that the "claims of science" and the scripture could not be harmonized. We must either admit that the "claims" of science were in part false and therefore not dependable, or else what we had believed to be "the Word of God" was, at best, in part fantastic and so could not be depended upon whatsoever.

Here, however, "fundamental" Christian theology came to rescue, once more to harmonize the Word and the Theory. They told us that, from Genesis 1:1 "In the beginning God created the Heavens and the Earth" to the next verse was an enormous period, and that during that time the original creation had been destroyed by Satan so that our Genesis record was in fact a re-creation. This explained the finding of the various fossils in the earth strata, also the presence of coal, etc.

But we were not to be allowed to rest easy with this explanation always for one day we discovered that the Bible in Exodus 20:11 (that part expressly stated to have been written by The Finger of God plainly states "in six days the Lord made the Heaven and the earth, the sea and all that in them is," so that the coal in its present or some previous form must be included in "all that in them is"; and we remembered that they were twenty-four hour days according to the Bible. Once more everything was at sixes and sevens.

Then we noticed that Timothy 6:20 referred to "vain babblings and oppositions of Science falsely so called." Could it be that the representations of geology and the theory of biological evolution were not consistent with the facts? Again we noted in II Peter 3:5 to 7, and, referring to the "last days" before the "Day of the Lord." "For this they willingly are ignorant of, that by the word of the Lord the Heavens were of old, and the earth standing out of the water and in the water; whereby the world that then was, being overflowed with water, perished: but the Heavens and earth which are now, by the same word are kept in store, reserved unto fire against the day of judgment of ungodly men."

## THE BIBLE TRUTH

(By THE CARPENTER)

Why, then, has the science of geology, as to theory, not been revised for decades on end in accordance with the facts uncovered? Why do the powers that we continue to teach as facts, even in elementary science in Grade 7 those theories that have been discredited by later discoveries? Or, on the other hand, what difference does it make to us whether the Bible is right, or the evolutionary critics? The Word says "Come let us reason together," so, if your readers are interested, we will, God willing, set forth the facts revealed by Mother Earth, as you provide us space and also the far reaching importance of knowing the truth re these things.

## WANT TO BE AN ANGEL?

**IF I'D CHECKED MY DRIVING, AND CHECKED MY CAR, I WOULDN'T BE PLUNKING THIS STREAM-LINED GUITAR!**

In 1945 28,500 persons became "stream-lined guitar plunkers" because of automobile accidents. The toll will be much greater in 1946 unless motorists pledge themselves to drive safely in safe cars. On May 15, the police of the United States and Canada, under the sponsorship of the International Association of Chiefs of Police, launch their Traffic Safety Check Program. They urge the driving public to cooperate by living up to the police slogan, "Check your Driving—Check your Car—Check Accidents."

## JOAN FONTAINE IS WELCOMED

Hearty Reception Given Movie Star—Crosby Coming Later

JASPER PARK, Alta. — Not since the visit of Their Majesties King George and Queen Elizabeth during the royal tour of Canada and the United States seven years ago has Jasper given such a welcome as was accorded Joan Fontaine and a Paramount location party of 135 when they arrived here by special train Friday afternoon to film technicolor scenes for the "Emperor Waltz."

The entire population of Jasper turned out at the station to greet the Hollywood party and to witness welcoming ceremonies highlighted by the presentation of a bouquet of roses to Miss Fontaine. Mrs. John Stark, wife of the manager of Jasper Park Lodge, presented the flowers to the star on behalf of R. C. Vaughan, president of the Canadian National Railways system.

"Canada is highly pleased that Jasper National Park should have been chosen for the location of 'The Emperor Waltz' and that the film should be the means of bringing you to our mountains. I am delighted to welcome you personally to Jasper and hope that your visit will be a happy one." A telegram from Mr. Vaughan said in part.

Also in the crowd welcoming the special train were Charles Brackett, producer, and Billy Wilder, director, who arrived a week in advance of the main party to conclude final arrangements for location filming at the Canadian Rockies site.

Meanwhile, Jasper is preparing a similar welcome for Bing Crosby, co-star with Miss Fontaine, who will drive to the park from his Elko, Nevada, ranch, arriving early this month.

Thirteen members of the cast aboard the special train included...

## SATURDAY SERMON

### AN ASTONISHING INVITATION

By REV. A. F. MACSWEEN, First Presbyterian Church

Many years ago a shepherd poet watched the glory of the sunset fade into the wonders of the starry night and he took up his crude lyre and composed a song: "The heavens declare the glory of God, the firmament showeth His handiwork." In our own time a leading man of science puts the same thought in his own way—"It is impossible to be an astronomer and an atheist at the same time."

The whole structure of modern science rests upon a presupposition. That presupposition, well founded, of course, is simply that law and order does prevail, everywhere and at all times. That two plus two equal four, that the law of gravitation holds

Mon., 8:00 p.m.—Rev. and Mrs. Earley King, Missionaries, will speak and show pictures of their work in Africa.  
Fri., 8 p.m.—Young People. Come and enjoy good congregational singing.

## DESIGNER INSPIRED

**JOHANNESBURG** — The grace of the silver tree, the dignity of the protea, the greenery of the Cape Peninsula have caught the imagination of the dress designer, Yanni Evangelidi of Athens. Inspired by shapes and coloring, Evangelidi, who came to South Africa with the Greek royal family, has designed his own materials and made some lovely clothes.

Victory Day last year stirred Evangelidi's imagination. He created a special Victory gown, the material patterned with springbok, native huts and trees. His gowns have been shown in Capetown and Johannesburg. From here they will be taken to New York.

Evangelidi is of the opinion that South Africa is a country that is "coming on top." South African women, he says, dress well for the day time and for sport, but that grace and glamor are lacking at night.

**LONDON** — Thirty thousand R.A.F. and Dominion airmen are still reported missing over Europe and four mobile units of the R.A.F.'s Missing, Research and Inquiry Service still are combing the continent for clues as to their fate.

maketh himself equal with God" and they were quite right. "He that hath seen Me hath seen the Father." No man cometh unto the Father but by Me." These and many other declarations leave no doubt as to the nature of the claims. He made and, because of His claims, they crucified Him.

However, there were some who accepted the challenge. Most of these were quite ordinary people. Some were poor and unlearned. Others, like Nicodemus, were important personages. Saul of Tarsus was an intellectual giant of fireless energy. That little group was the nucleus of the glorious company which now extends through almost every nation on earth and shares a common faith, which is stated most simply in the words of the Ukrainian Christians: "Jesus is Lord."

And what difference that company of believers has made in this world, because of their faith! There is scarcely a spot on earth where the influence of the Man of Nazareth is not felt, is not felt. It is only where men and nations have deliberately turned their backs on Him that we see the sort of world that would prevail apart from Christianity. It is painted in the blood and flame of Bataan and Belsen and Buchenwald.

Ye believe in God. "Ye do well," said James the apostle, "so do the devils and they tremble." So did the Pharisee! So does the Mohammedan! So did the Nazi, according to his own declaration. But that sort of belief did not and cannot save them or the world from a cold legalism, from moral degeneration, or from brutal passions. And the respectful acquiescence of our average citizen in the proposition that somehow, somewhere, there must be a Supreme Being, is not to be confused with the Christian faith.

Pious phrases, respectful liturgies and an amiable indifference to the demands of God are simply not enough. And they will never suffice to establish that condition which we profess to desire and which we loosely term a "Christian world." Jesus calls men to go beyond these things, and follow Him. If you have any doubts as to what that means, recall the names of Simon Peter and Paul the Apostle, of Augustine and Luther, Calvin and Knox, and in our time, Berrigra and Niemoller. These men knew what it cost to accept the challenge of Jesus. But these are the men who have transformed the spirit of the world. Through them and their kind we enjoy today some measure of liberty and decency and brotherhood. By their loyalty they have preserved for us the message of Jesus which brings hope for a better world in this life and in that which is to come.

The service of Jesus Christ is no flight of fancy to be indulged at Christmas, Easter and other favorable occasions. It is no academic thing, but a matter of consecrating our lives to His leadership 24 hours a day, seven days a week, and making all our actions and decisions stand the test of His Presence. "Ye believe in God, believe also in Me."

## FINE TEA BY EASTERN STAR

Prince Rupert Hotel Scene of Delightful Affair Yesterday Afternoon

The dining room and lobby of the Prince Rupert Hotel, tastefully decorated with spring flowers in colors appropriate to the order, was the attractive scene yesterday afternoon of a highly successful tea and sale of home cooking by Belist Chapter, Order of the Eastern Star.

Many ladies who called during the afternoon to lend their patronage to the affair were received by Mrs. J. L. McIntosh, the worthy matron, and Mrs. H. B. Rochester.

Presiding at the attractive tea table, decorations of which featured Eastern Star motifs and early summer flowers, were Mrs. W. F. Eve, Mrs. F. S. Walton, Mrs. Thomas Boulter and Miss Muriel Vance. The serveurs were Mrs. J. A. Frew, Mrs. Frank Dibb, Mrs. Robert Gordon, Mrs. L. Alexander, Mrs. C. A. Brind, Mrs. W. M. Watts, Miss Helen Brown and Miss Dorothy O'Neill.

Mrs. Jean Rivett was cashier for the afternoon. The tea room was under the general convenship of Mrs. S. R. Donaldson assisted by Mrs. W. D. Lambie, Mrs. I. Martin and Mrs. A. D. Ritchie.

In charge of the home cooking table were Mrs. T. Martin and Mrs. George Peters.

Drawings, of which Mrs. Alex Mitchell and Mrs. S. F. Kempton were in charge, resulted as follows:

Dessert, donated by Mrs. Alex Mitchell, won by Mrs. Alf Rivett. Crocheted doily, donated by Mrs. T. Wilford, won by Mr. Green of Vancouver. Butter, donated by Mrs. H. Mork, won by P. M. Ray. Ovenware double boiler, donated by Mrs. Robert Gordon, won by Mrs. R. R. Mutrie. Sugar, donated by Mrs. H. F. Robins, won by F. Hodgekinson. Leg of Lamb, donated by Mrs. Alf Rivett, won by Mrs. Frank Dibb.

# Sea Cadets Go to Sea

Initiated Into Mysteries of Navy on Cruise to Chatham Sound Aboard Frigate

Prince Rupert's Royal Canadian Sea Cadets, who are ardent sailors in spirit, got a chance to satisfy their love for naval life yesterday afternoon when over 70 of Captain Cook Corps were taken on a three-hour cruise aboard H.M.C.S. Charlottetown which is stopping here while on a training cruise with university cadets from the University of Western Ontario.

The cruise was made through courtesy of Lieut. John Wolfenden, R.C.N. (R), captain of the frigate, which made a run into Chatham Sound as far as Lucy Island while the local Sea Cadets kept close watch on the way the sailors ran the ship and handled the fighting equipment.

The corps fell in at the Navy Drill Hall under Lieut. Commander Alex Mitchell, their commanding officer and, headed by their bugle band, marched to the dockside to go aboard. The vessel sailed at 1:15.

The band played the ship out of the harbor and soon the cadets were being initiated into the mysteries of how a ship is engaged, handled and manned,

**54-CARAT DIAMOND**  
CAPE TOWN — A fine quality diamond weighing 54 carats, found in the Windsorton areas, Cape Province, on proclaimed alluvial diggings, has been sold for about £10,000 (\$45,000). The amount paid is a record per carat for an alluvial stone.

while at sea. From the depths of the engine room to the bridge, from the rapid aiming and firing of the deadly Oerlikon and Bren gun to the modern miracles of asdic and radar the lads were shown everything. That uncanny accuracy with which modern range-finding instruments determine distances and identity of targets impressed the boys tremendously. When the guns were fired, the noise of exploding shells and cartridges, the tracks of the tracer bullets and the smashing of the target gave the young sailors the thrill of their lives.

In charge of the local corps were Lieutenant Commander A. S. Mitchell, Lieutenant E. J. Wilson, Midshipmen F. James, L. Youngman, Mel Thompson, with C.P.O. J. K. Kennedy acting also as divisional officer.

The future holds the prospect of whaler races with the Charlottetown on her next visit. The local corps will try their luck in pulling and sailing races with the next contingent that will be aboard. The races should be worth seeing.

# Waterfront Whiffs

Reported That Area Two Halibut Season Will Close June 11; 42-Day Season — Landings Here Greater Than Last Year.

Although there has been no announcement here yet as to when the Area Two halibut season will close, it was reported last night that the closing date will be June 11. This would make the 1946 season the shortest Area Two season on record—42 days. The 1945 season lasted 46 days, opening on May 1 and closing on June 16. Indications are that the 1946 season probably may be shorter than the 1945 season as borne out in halibut landings at Prince Rupert since the season's start. The totals listed are those compiled from regular halibut boats which sold catches through the fish exchange. They do not include halibut brought in by packers or private sales not reported on the exchange. Landings from regular halibut vessels at Prince Rupert total 5,559,000 pounds up to Friday, of which 4,505,500 were from Canadian bottoms, and 1,053,500 were brought in by American vessels. Comparison with last year's landings reveals that for the same period, the 1946 season has a slight edge—almost 500,000 pounds. Landings to the end of May last year totalled 5,250,000 pounds, of which 3,865,500 came from Canadian ships, and 1,384,500 from American.

Salmon trollers are reporting increased average catches in the outside waters and gillnetters on the Skeena have also observed some increase in their landings of springs. Dark weather has been hampering the industry during the last few days but the fishermen hope that the next few days will see the season reach its peak.

Prince Rupert Corps of Sea Cadets, under Lieut. Commander Alex Mitchell, had a memorable experience Friday afternoon when they went to sea on a Canadian fighting ship. The lads engaged a two-and-a-half-hour cruise aboard the frigate H.M.C.S. Charlottetown, inspecting the myriad of technical devices which make up a modern naval vessel and witnessing and taking part in gunnery demonstrations with the ship's lighter weapons.

While the Charlottetown cruised as far as Lucy Island and back the cadets swarmed through the compartments which housed the radar, asdic, navigation, signal and other equipment, being informed of the rudimentary functions of it by crewmen who seemed to enjoy the experience as much as the cadets.

Released from school by Principal W. W. C. O'Neill of Booth Memorial High School, the cadets assembled at the naval drill hall and marched to the ship's side led by the corps bugle band. As the ship traversed the harbor both on its outward and inward runs, the bugle band played from the after gun deck, causing waterfront workers to swarm to the wharves to witness the ship's passage.

Supreme moments of the cruise were the gunnery demonstrations. The boys watched a twin-barrelled 20 mm. Oerlikon anti-aircraft gun, manned by Chief Gunner Petty Officer William Osborne fire tracer shells from the bridge. There was a mad scramble for the cartridge cases for souvenir pur-

# 13 FIRE CALLS DURING MAY

Prince Rupert fire department answered 13 fire calls during May, according to the records of Fire Chief H. T. Lock. Two of the calls were false alarms. Fire damage during the month totalled \$247, the greatest fire being a blaze at the Inlander rooms causing damage of \$132. Total fire damage so far this year is \$4,974.

# King's Birthday Is Statutory Holiday

OTTAWA — The King's birthday, which this year will be celebrated in Canada June 10, is a statutory holiday, Secretary of State Paul Martin said last night. Banks and government offices must close but the declaration does not cover the general public.

to Vancouver and waypoints. The vessel had a number of passengers and considerable freight cargo for here.

Halibut landings at Prince Rupert sold over the exchange last week totalled 1,474,000 pounds, of which 1,196,500 were American and 1,277,500 Canadian.

Members of the crew of the China coaster, Ottawa Palette, which has been purchased for service on the China coast, arrived in the city on the Cardena this morning from Vancouver to take over the ship and sail her to Vancouver. Earlier in the week Capt. H. E. Nedden, the master, arrived from Vancouver.
