India Can Be Independent But Are Warned of Course

Prime Minister Attlee Makes Definite Statement of Government's Policy
LONDON (CP)—Prime Minister Clement Attlee told the House of Commons today that, if India chooses full independence from Britain, "in our view she has the right to do so." During debate on the mission of three cabinet members who will go to India shortly to again take up the problem of self-government for India, Attlee said "it will be for us to help to make the transition as free and easy as possible," adding that "I hope the Indian people may elect to remain with the British Commonwealth. If she does so, it must be by her own free will for the British Commonwealth and Empire is not bound together by chains of external compulsion."

LETTER BOX

BOUQUET TO AID. ARNOLD
Editor,
Daily News.—
May I have the use of a small portion of your paper to congratulate the people of this city in having a humanitarian councillor?

The proposal by Mrs. Arnold concerning a hostel for native women is one of the grandest ideas I have heard of. Let's hope it does not end in just a suggestion but becomes an actual fact.

There are a lot of good Indian girls but what chance do they have when they come to Prince Rupert for dental work or shopping? There is always a gang of vultures waiting for them at the depot and wharf every time a train or a boat arrives.

I am not a native of Canada myself and do not know any of the Indians in this section of the country, but this world needs more love shown to its down-trodden neopoles. More power to such officials as Mrs. Arnold.

A PRINCE RUPERT BOOSTER.

SINO-SOVIET REPORT ROUSES ANGRY SHOUTS

CHUNGKING—A report on Sino-Soviet discussions on economic co-operation in Manchuria roused heated shouts of "sit down" at the Kuimintang (National party) congress here today as withdrawing Russian troops moved toward Siberia.

China's special commissioner for economic affairs to Manchuria said that President Chiang Kai Shek had told him last December not to recognize Russian claims to Japanese industrial equipment there as war booty.

He said that he was instructed further to refuse to discuss Sino-Soviet economic co-operation before the withdrawal of the Soviet forces. He emphasized that no agreement on economic co-operation had been reached but several times angry shouts interrupted his report.

Prince Rupert Needs

(The Sixth of a series of suggestions by readers of the Daily News for the betterment of this city)

If I were given supreme authority to improve and develop Prince Rupert, the first thing I would do would be to make the physical appearance of the city attractive. All the brush, jack-pine and cedar which seems to envelop the town everywhere one goes would be cleared away and all vacant property in the residential areas re-subdivided to allow at least a 50-foot frontage on building lots. There is plenty of room for it.

All the streets would be put in perfect condition with concrete sidewalks on both sides. On Second and Third Avenues the old buildings and ancient shops would come down and be replaced by smart, modern ones decorated with pleasing colors and illuminated with fluorescent lighting. This would stimulate a feeling of well-being in the downtown shopping district and entirely dispel the gloom that abundant rainfall brings upon a person.

The open sewer that winds its way and emits its ugly smell from the corner of Third Avenue and McBride Street to Cow Bay merits dishonorable mention here. It would, of course, be promptly culverted and taken right out to deep water.

To attract tourists the Prince Rupert Highway would be hard surfaced and the branch road from Galloway Rapids to Port Edward be extended through Inverness Passage, where most of the large salmon canneries of the district are located, and on through to join the main highway at Tye. The salmon canning operations of the lower Skeena would be a major attraction to the tourists. Also the road would enable the merchants of Prince Rupert to cap-

ture more of the business that these cannery communities provide.

A really up-to-date hotel and a large auditorium would be very much in order.

Finally and very important would be a little more interest in things eternal on the part of the citizenry.

If all the aforementioned were done people and new industries would flock to the city and even Mount Oldfield would have to be dynamited away to make room for the expansion that would follow.

BEATINGS IN INTERNMENT

Salvation Army Adjutant Says No Japanese to Be Trusted

MONTREAL—Margaret Burns, Montreal Salvation Army Adjutant who spent three years in a Japanese internment camp at Singapore, said in an interview here following her arrival from overseas, "Never trust a Jap—not a single one of them is decent."

Miss Burns, who suffered a spinal injury eight months after her internment, spent the rest of the three years on an iron cot, her body encased in a plaster cast—the same one because the Japanese refused to give British doctors any more plaster.

She told of the indignities, the tortures, the daily beatings and slappings suffered by her friends. She also told how life was made bearable by the gallantry, kindness and cheerfulness of her fellow internees.

She said babies were born, but that nearly all of them died within a few days or weeks, their bodies buried with those of internees, who died with appalling regularity.

Meals consisted of three servings daily of ground rice and "sludge"—a kind of soup. Rice was served in the bottom of tin cups which the Japanese sold their prisoners who used the cups for eating, drinking, cleaning their teeth and a multitude of other purposes.

Miss Burns, who said the Japanese women and children were not too bad, added that the men, now they have been conquered, are planning ways and means of hitting back.

"If the Allies are not careful, the Japs will turn on them. They are not to be trusted," she said. Miss Burns, who went to Singapore in 1935 to open a home for unfortunate girls, was interned by the Japanese in February, 1942.

TWENTY-FIVE YEARS AGO

March 15, 1921

A fish car shortage at Prince Rupert became a political issue when William Duff, federal member for Lunenburg, Nova Scotia, described as "scandalous" in the House the way in which the government was treating the halibut industry in Prince Rupert.

Construction of a road between the wharf at Alice Arm and the town was begun. Described as Alice Arm's most badly needed improvement, its cost was estimated at \$34,000.

The steamer Princess Beatrice, damaged on Jeddiah Island was expected to be returned to service on the Prince Rupert run after receiving repairs costing \$30,000.

WHAT DOES RUPERT NEED? WILL YOU GIVE YOUR VIEWS?

There is much discussion these days of problems and difficulties which face Prince Rupert in its postwar development and prosperity and what solutions might be devised towards solving these problems.

Many of these problems have been discussed in the Daily News from time to time but this newspaper is anxious to obtain some new and constructive ideas and, therefore, we are inviting our readers to express their views on the subject of

WHAT PRINCE RUPERT NEEDS TODAY?

You are invited to enunciate what you consider Prince Rupert's needs and to write a concise answer as to how best that need might be solved.

The articles will be published (with or without the names of the authors, according to wish of the writers). They will be judged impartially on the primary basis of value of subject matter although conciseness, style and legibility will also count.

Mayor H. M. Daggett and W. M. Watts have consented to assist the Daily News in the judging.

There will be six prizes:

- First, \$10 in cash.
- Second, \$5 in cash.
- Third, \$2.50 in cash.
- And three six-month subscriptions to the Daily News.
- The contest will close March 15.
- Old and young alike are asked to submit articles.

The primary purpose is, of course, not to win prizes but to bring forward suggestions which may prove useful in forwarding the development of Prince Rupert.

Pentecostal Has Cottage Meeting

Under the supervision of Pastor John Lhney and with 23 members and friends present, the weekly "cottage prayer meeting" of the Full Gospel Tabernacle was held at the home of Mrs. A. M. The Speech From the Throne

The Speech from the Throne at the opening of the session of Parliament at Ottawa tells us nothing in the way of projected legislation which we might not logically have expected. Naturally world reconstruction and enduring peace will be basic subjects of consideration. Everything everywhere in the world depends upon what progress is made along these lines and every nation, large or small, has its responsibility.

As to the specific legislation which the government, through the formal document of the "Speech from the Throne," recommends to Parliament for enactment, the approval of the loan to the United Kingdom will, we suppose, be almost automatically given along the most generous of lines.

Redistribution of representation in the House of Commons is due and must be arranged although there may be some bickering about it.

Provision for armed forces may produce some wide differences of opinion but it is to be assumed that the differences will be based on to what extent such armed forces are deemed necessary and over the type they should be.

Completion of consideration of a "Veterans' Charter" pose the problem of seeing that the obligations to those who fought for us and saved us are fully lived up to without evasion or equivocation. Our legislators will, we trust, tolerate nothing less.

Dealing with the bill to clarify the definition of Canadian citizenship should be a fairly simple matter. About all the most of people want is to be able to legally call themselves "Canadians" with reasonable privileges as such under the precepts of liberty and democracy.

The intention of giving permanent legislative effect to a number of orders-in-council might cover a lot

Coal Bunker Need Shown

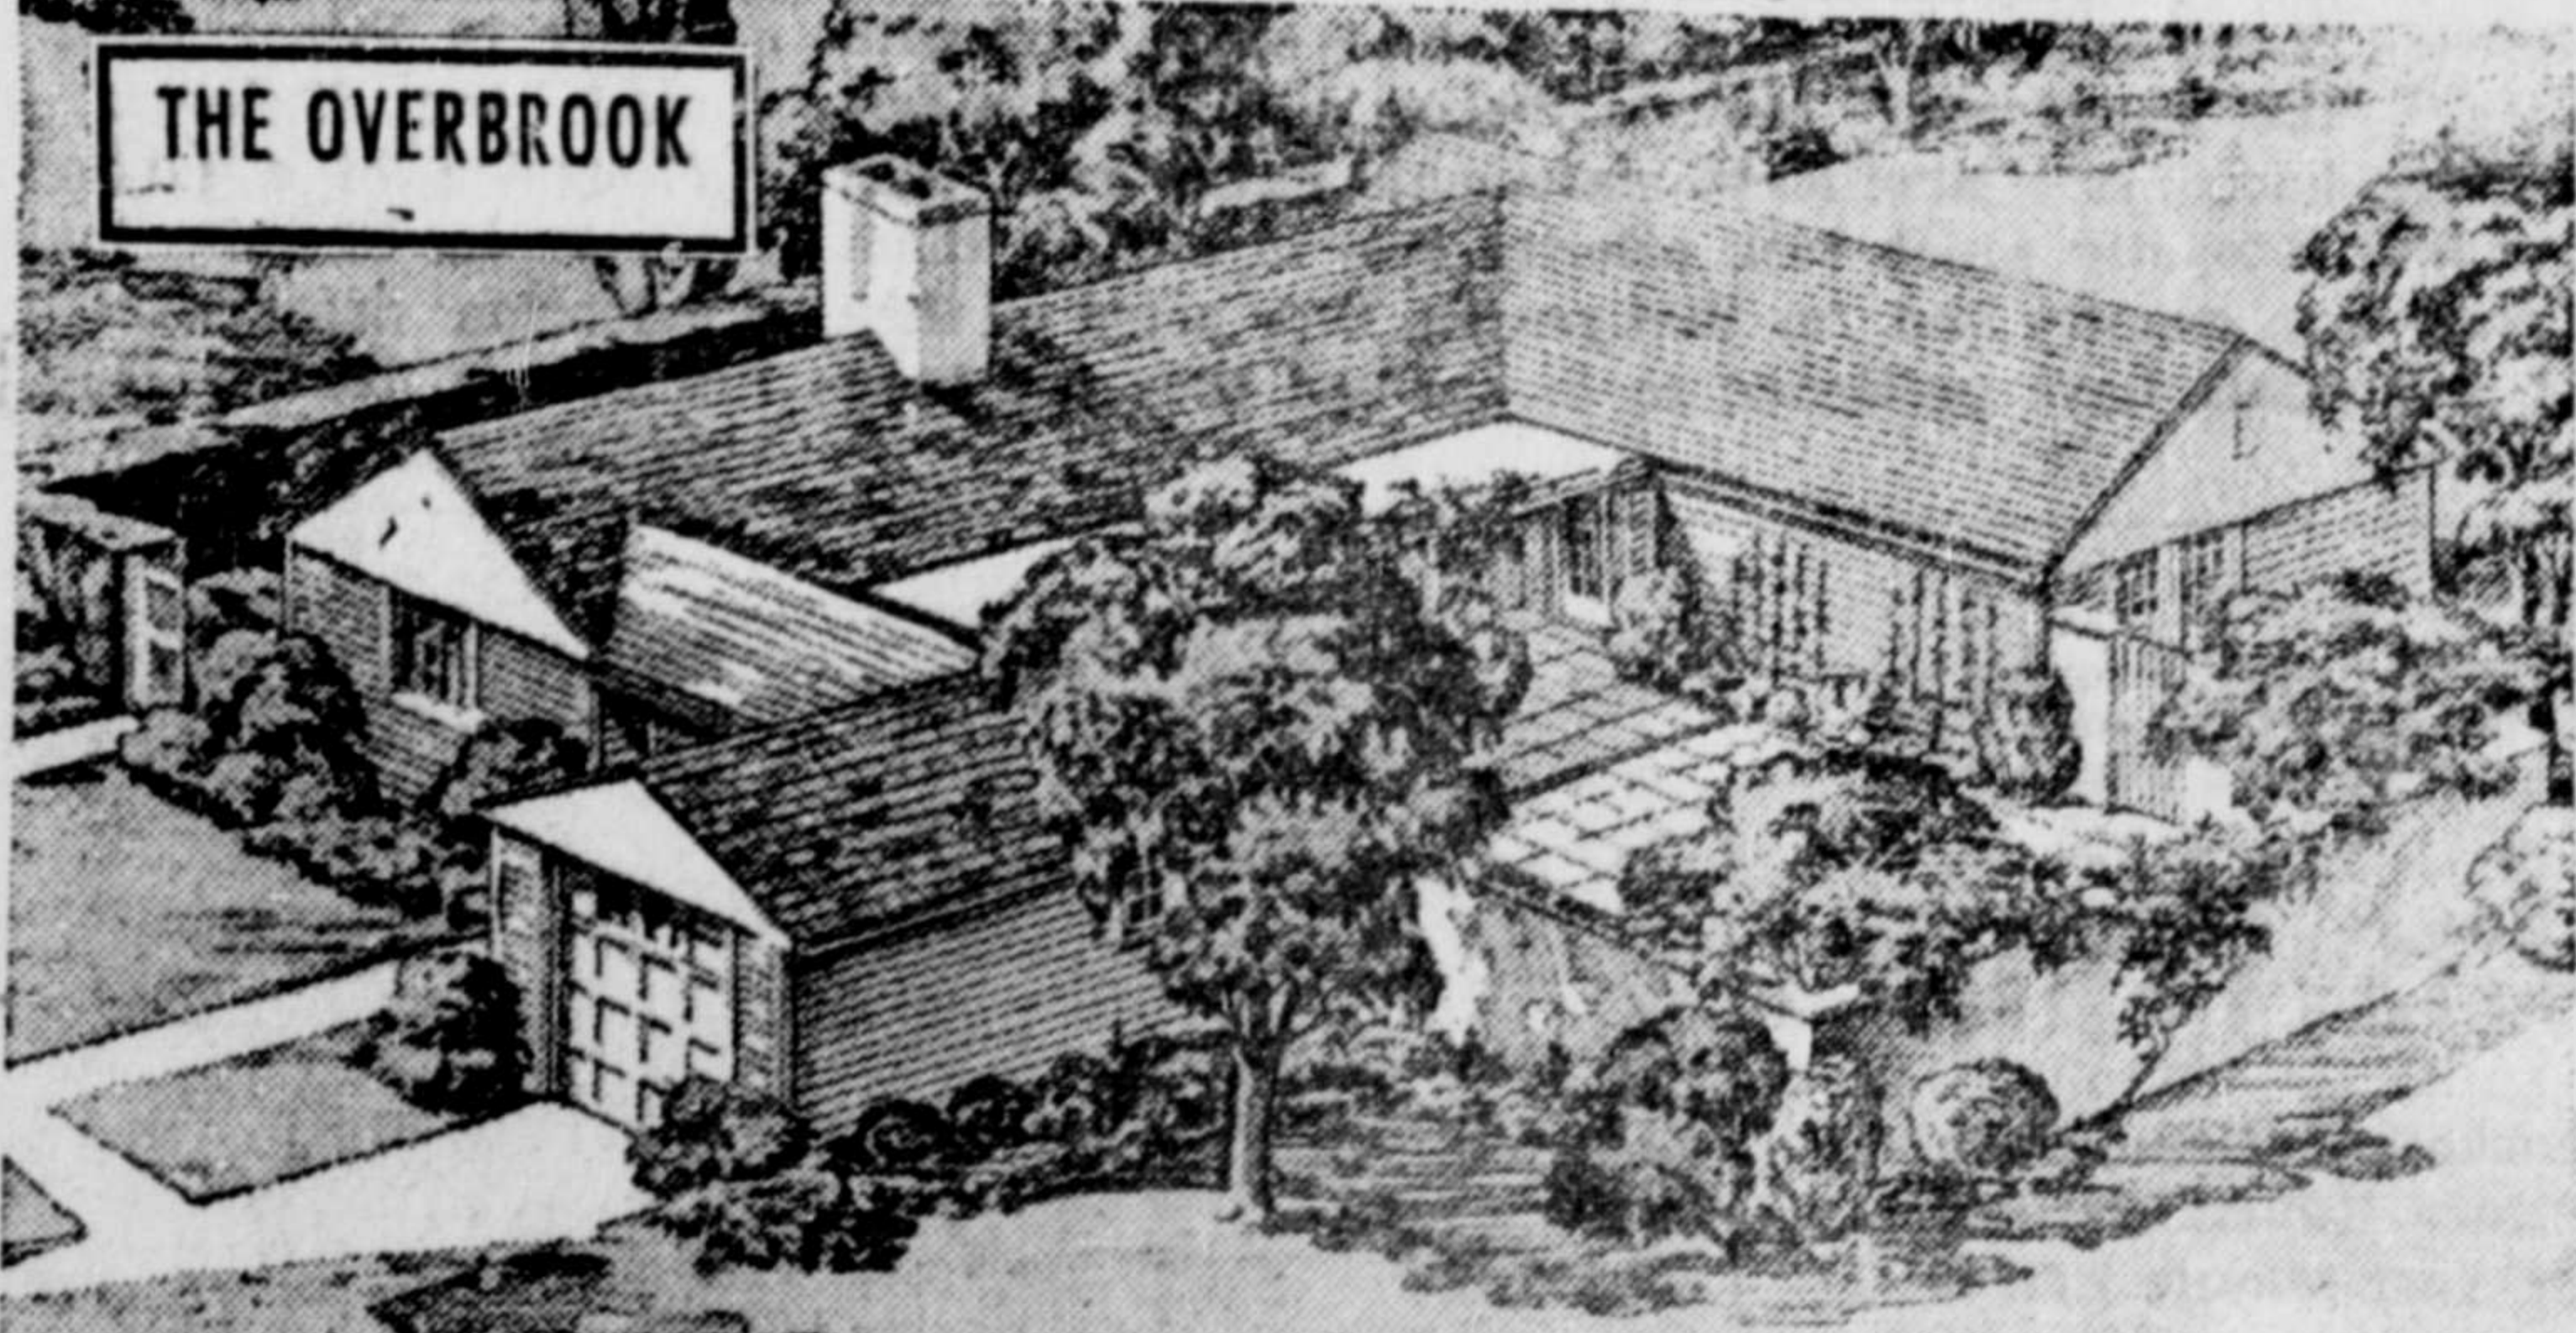

Blairmore, Alberta, collieries have been able to undertake the filling of an order to export thirty thousand tons of slack coal, dump residue, to China and the first cargo is now on its way from Seattle to Hong Kong. Recently, the Bulkley Valley Collieries at Telkwa had the opportunity to export a similarly large amount of coal over a period of time and was ready to make an experimental shipment but the whole deal fell through because there were no coal handling facilities at Prince Rupert. The Telkwa colliery lost the business and the port of Prince Rupert lost the traffic.

There can be a lot more coal exported from Canada in the next few years and one of the important factors will be the terminal facilities for handling it. Such facilities are one of the few things that Prince Rupert now lacks as an up-to-date and well equipped world port. Were they here they could be used not only for the exporting of coal from this immediate district but also from at least as far away as Alberta which we see today shipping its export coal through Seattle.

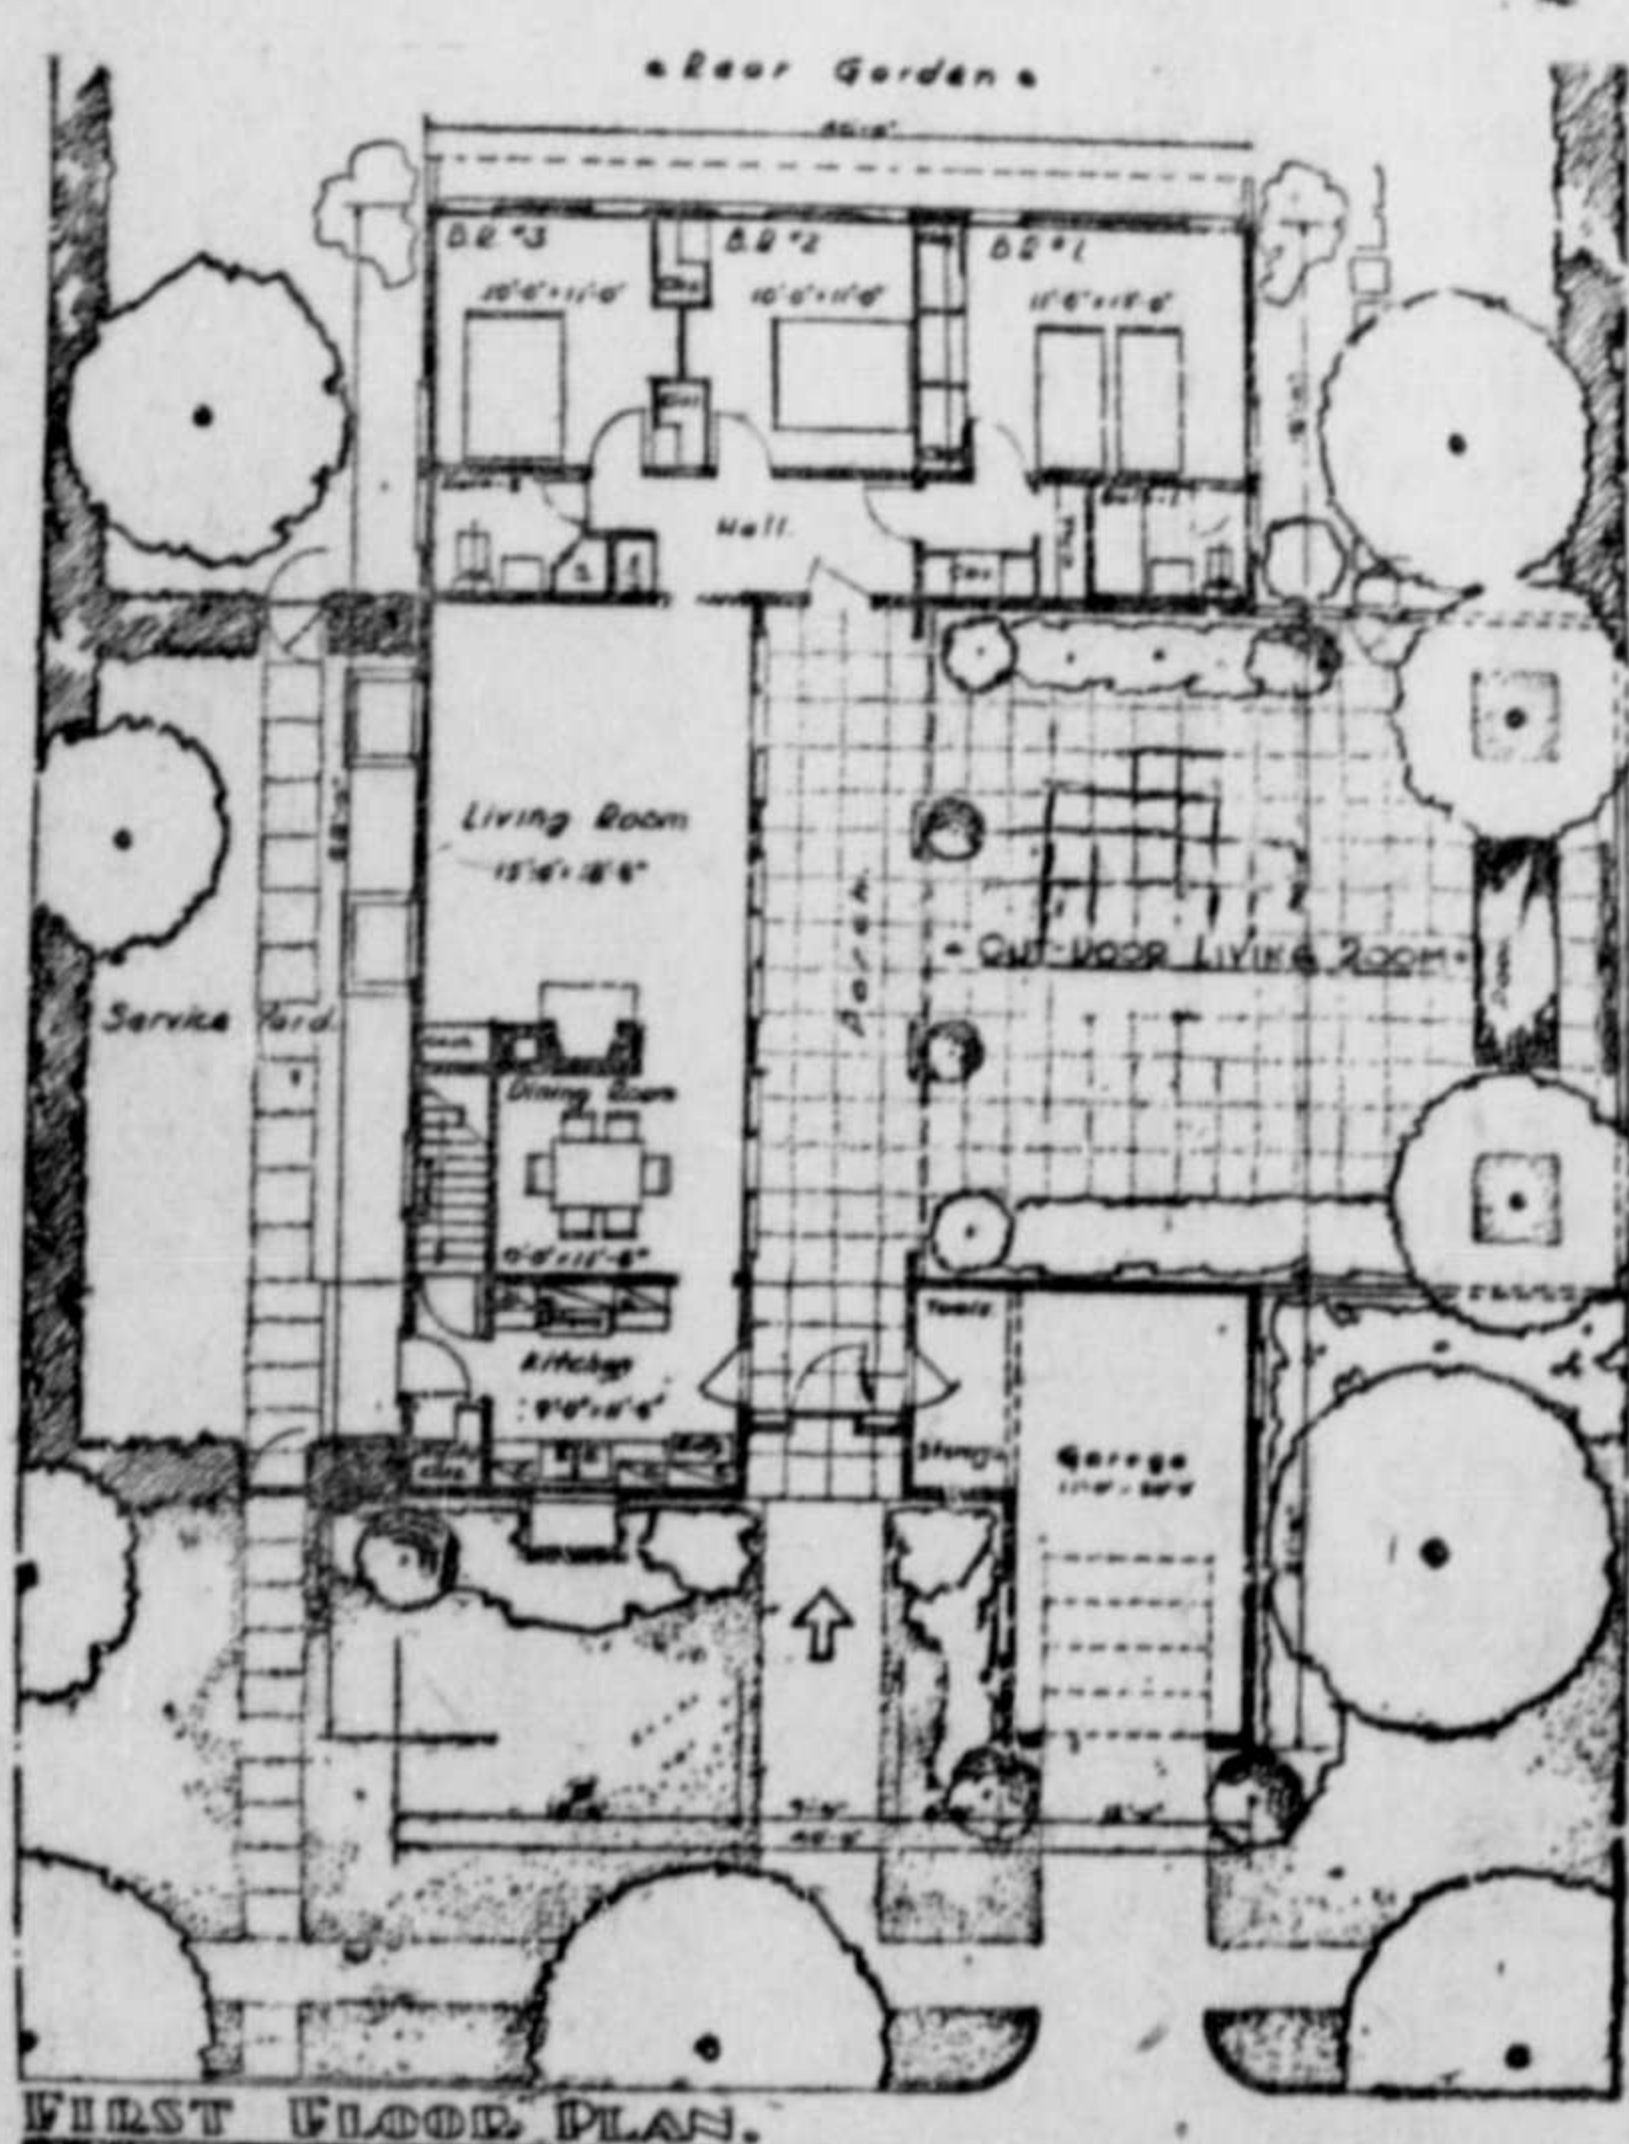

It is to be noted that the possibilities of coal export from the district which would be opened up by the continuation of the Pacific Great Eastern Railway through Prince George to the Peace River loom rather large as in justification for the undertaking of such new railway construction. Neither should be forgotten those vast fields of superlative coal lying further west in the Groundhog country and one of the greatest natural resources of the hinterland back of Prince Rupert which one fine day must be opened up with this as the coast outlet port.

Newspapers containing the text of the U.S. State Department's blue book on Argentina commanded premium prices in that country where a controlled press enslaves public opinion.

New Home Plans

Picturesqueness is outstanding in this low, rambling ranch style structure. Of course, it requires a lot of room. The three structures efficiently separate three living units: kitchen, storage and garage—living and dining room, porch and outdoor living room—sleeping quarters. Six rooms in all with two baths, seven closets and a utility closet. The kitchen has one porch entrance and one side service entry leading to the basement stairs. All have bedroom picture windows; the garage has overhead doors; and a recreation room is provided under the living room.

US RAID SHELTERS
LONDON, (AP)—By using materials salvaged from demolished air raid shelters, the Housing and Public Health Committee hopes to save between \$225,000 and \$250,000 on its first post-war housing program.

"Newspapers are the best medium for carrying the retail hardware dealer's selling message to his buying public," states Fred R. Olmsted of the National Retail Hardware Association.

PLYMOUTH, England—First steps in the rebuilding of the blitzed heart of Plymouth—a cost of £9,000,000 (\$40,000,000)—have been taken by the city council.

FASHION THEME FROM FRONTIER

CANBERRA ©—Latest fashion craze with Australian women draws its inspiration, not from Paris, New York or London, but from Australia's frontier country, the Northern Territory, where men are still men, and women few and far between.

Slim-hipped, casual trousers of hard-wearing cotton, topped by easy, open-necked, checked shirts, long sleeves rolled above the elbow, near-uniform of the outback stockrider have been introduced to the city, and are making friends fast.

Belts with pouches of solid, lasting leather, trimmed with silver and reminiscent of long and carefully polished saddles leave hands free, while plaited kangaroo skin, soft and supple, makes belts to accentuate the positive waistline of wide, cow-girl skirts, flared and then pleated. Handbags are being modelled on the flap-over saddle-bag, while shoes seek the elegance of soft, shining brown riding boots.

Colors are based on brown, with clear desert yellow, and the grey-green of the salt-bush topping the popularity.

Ernest Portman, Canada Railway News agent here, has returned to the city from a trip to Vancouver, Victoria, Seattle and Kamloops for the benefit of his health which is now much improved following a recent illness.

Iain MacRae arrived in the city Wednesday on the Prince Rupert from Vancouver and was in attendance at the funeral yesterday of his mother, the late Mrs. J. A. MacRae.

Rev. Peter Kelly of the United Church mission boat Thomas Crosby, who has been in the city for the past week following the Native Brotherhood of British Columbia convention in Port Simpson last week, will be visiting Port Simpson again over the coming week-end and expects to return to Ocean Falls next week. Mrs. Kelly is remaining in the city to receive medical treatment.

HOW CAN I ???

By ANNE ASHLEY

Q. What is an easy method of scaling fish?

A. Place the fish in a large vessel and pour boiling water over it. Take it out quickly and plunge it into cold water. With this method, only a little rubbing is needed to make the scales come off easily.

Q. How can I clean aluminum?

A. By applying a mixture of ammonia, borax and water with a soft cloth. Then wash it in warm, soapy water, allow it to dry and polish with whiting.

Q. How can I open a clogged sink?

A. Pour through a clogged sink or drain a heaping tablespoonful of copperas, dissolved in one gallon of boiling water.

"LITTLE NUN" FIRST U.S. SAINT—Jean Mullins says a prayer before the statue of Mother Francesca Xavier, Cabrini, whose approval by the college of cardinals virtually assures her of becoming the first American citizen to achieve sainthood. Her body rests in the chapel of Mother Cabrini high school, New York, where this picture was made. Several miracles have been attributed to her. She died Dec. 2, 1917; was beatified in 1933.

Seasonable Ideas for Housekeepers

Cheese Dishes Help To Stretch Food Dollars For Housemaker

To stretch her food dollar as far as possible and yet give her family all that is required for daily, happy living, is the goal of every enterprising housemaker. Her best friend in this regard is cheese. It is a concentrated and truly economical food, with which there need be no waste, for every crumb is edible.

From time to time an appetizing tangey cheese dish is welcomed as the main course served at luncheon, supper and even dinner. Canadian cheese has a characteristic flavour, which appeals to most people and makes easy the preparation of meatless dishes.

There are many different ways in which cheese may be incorporated into the daily menus. Home economists suggest that it be used in sauces, croquettes, omelets, souffles, escallops, rarebits and other supper dishes as Cheese Fondue or Macaroni and Cheese.

To off-set the concentrated nature of cheese it should be served with bulky foods such as fruits, green leafy vegetables, bread and cereals. To retain that fresh flavour and texture, store cheese in a cool, dry place—either in a covered container or wrapped in heavy waxed paper. Never allow cheese to freeze.

In cooking, use only low heat, sufficient to melt the cheese. Excessive temperatures will give a toughened product.

Potato Cheese Souffle

- 1 cup grated cheese
- 2 cups mashed potatoes
- 1/3 cup milk
- 2 tablespoons melted butter
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 1/8 teaspoon mustard
- 2 egg yolks
- 2 egg whites

Mix grated cheese with potatoes and blend thoroughly. Add milk, melted butter, and seasoning. Beat until mixture is smooth. Beat egg yolks until thick and lemon-coloured, add to first mixture. Fold in egg whites, which have been beaten until stiff, but not dry. Turn into a well-greased baking dish and bake in a moderate oven, 350 degrees F., for 40 minutes. Serve with a crisp salad. Six servings.

Macaroni Souffle Ring

- 1 cup macaroni, in 1-inch lengths
- 1 tablespoon mild-flavoured fat
- 1 cup soft bread crumbs
- 1 cup top milk
- 1 cup grated cheese
- 1/2 teaspoon salt
- 3 egg yolks
- 3 egg whites

Cook the macaroni in boiling, salted water until tender. Drain. Melt fat and add with bread crumbs, top milk, cheese, salt and slightly beaten egg yolks, to the macaroni. Beat the egg whites until stiff, but not dry and fold into first mixture. Pour into a greased casserole and over-poach in a moderate oven, 350 degrees F., for 1 hour. Serve with a well-seasoned Tomato Sauce. This mixture may also be cooked in a ring mould, and the centre filled with creamed mixed vegetables. Six servings.

When a green salad is served

for luncheon or supper, Luncheon Cheese Cakes, as an accompaniment make a substantial main course.

Luncheon Cheese Cakes

- 2 cakes compressed yeast
- 1/2 cup lukewarm water
- 1 tablespoon sugar
- 1/4 cup shortening
- 1 teaspoon salt
- 2 eggs
- 1 1/2 cups grated cheese
- 1 1/2 teaspoons dry mustard
- 1 3/4 cups all-purpose flour

Dissolve yeast in lukewarm water and add sugar. Cream shortening and salt together. Add eggs unbeaten, one at a time, and beat well after each addition. Add grated cheese and beat until thoroughly blended. Add dissolved yeast. Sift together the mustard and flour and add gradually to first mixture. Beat well. Drop a heaping teaspoon into greased muffin pans or onto a greased baking sheet, allowing about 2 inches space between each. Let rise until light and spongy, about 1 hour. Bake in a moderately hot oven, 375 degrees F., for 20 minutes. Makes 24.

Regiment W.A. Forms Gym Class

Women's Auxiliary to the Prince Rupert Regiment (M.G.) is forming a gym class which so far consists of 15 members. The class was organized at a meeting of the W.A. held Wednesday in their new committee rooms to which they moved immediately prior to the meeting. It was decided to send parcels to former members of the regiment still overseas. A social for members of the regiment and W.A. was planned for March 30. Two new members were introduced. Refreshments were served.

Freddie Mills Seeks Crack At Lesnevich

LONDON—The British light-heavyweight boxing champion, Freddie Mills, was demobilized from the R.A.F. yesterday. His manager, Tom Broadbitt, says he would like to match Mills against Gus Lesnevich of Cliffside, New Jersey, in London some time in May. Lesnevich is recognized as world's champion in the light-heavyweight division.

PHILLIES WIN OVER MACKMEN

MIAMI—At Miami Beach yesterday the Philadelphia Phillies edged out their intra-city rivals, the Athletics, 1 to 0 in a training schedule game. It was a pitcher's duel and five of them saw action. Al Hodkey, Al Jurisch and Ken Raffensberger worked three innings each for the Phillies. Toronto's Dick Fowler of no-hit fame and Jesse Flores labored for the Athletics, with Fowler being touched for the lone run in the last of the third.

OUTFIELDER JEFF HEATH INJURED

MIAMI—Outfielder Jeff Heath of the Washington Senators may be kept from active training for 30 days because of a strained muscle in his right leg. The native of Fort William, Ontario, developed the leg injury as he rounded first base after hitting a home run in Wednesday's game with the Cuban All-Stars.

Beats Crime With Sport

F.B.I. Head J. Edgar Hoover Says Games Combat Delinquency

WASHINGTON (AP)—Sports long have been close to J. Edgar Hoover's heart and now he has turned to the athletic world to take the lead in combatting juvenile delinquency and "a growing crime wave."

The Federal Bureau of Investigation chief thinks this disturbing problem can best be tackled by such an approach because "every youngster in the country is interested in some phase of sports or recreation."

More than 600,000 persons—one out of every 23 in this country—have police records, "affecting everyone directly or indirectly," says Hoover.

More youngsters of 17 were arrested last year than offenders of any other age. Correcting this condition is no job for "any one group or segment" of the population, Hoover says.

"It's an over-all problem for all of us. We've simply got to take time out to help, business and professional people as well as all others. No one has a corner on the solution of this problem."

Hoover's convictions about the leadership that sports can play are born of his personal experiences and observations.

"Watch the youngsters who pick up a daily paper or magazine and what do they read—the sports page," he says. "Nothing appeals to a boy more than something virile like athletics."

"One of the troubles has been that too many were spectators; not enough were participants. "Now this condition should be

Montreal Wins Title—

CANADIENS CLINCH NATIONAL HOCKEY LEAGUE CHAMPIONSHIP

MONTREAL (CP)—The Canadiens clinched the National Hockey League championship last night. They did it by tying the Maple Leafs in Montreal 2-2 while the Red Wings whipped the Black Hawks in Detroit 7-3.

The Canadiens came from behind to split the

points with the Leafs. Toe Blake fired the tying goal with less than four minutes to play in the final period. The Leafs opened the scoring in the first period on Gus Bodnar's goal but before the period ended Maurice Richard tied it up for Canadiens. The Leafs went out in front again in the second period on a goal by Bob Goldham. They held that one goal lead until Blake's tying tally in dying minutes of the game.

In the Detroit-Chicago game, Bill Quackenbush paced the Wings with two goals. The other Detroit goals were split between five players, Jack Stewart, Adam Brown, Flash Hollett, Fernand Gauthier and Pat Lundy. Max Bentley served up assists for the three Chicago goals which were scored by Clint Smith, Bill Mosienko and Doug Bentley.

switched around. Our war experiences should help us accomplish this. Millions of men came out of the army as potential sports leaders.

"This is the time for them to jump in and act as leaders of the youngsters through the various veterans' groups. If we don't do this right away, it may be too late a few years from now when these men will have lost some of their interest in such activities."

Idle time on a boy's hands is one of the principal reasons for delinquency and crime, Hoover says.

"The answer is that keeping youngsters healthfully occupied is a 24-hour proposition," Hoover asserts. "You can't close up on them as if you were operating a store or shop, quitting every day at five or six o'clock."

"What happens in a city like New York? After school, thousands of youngsters have to play in the streets simply because the janitor doesn't stick around to keep the playgrounds open."

Professional sports as well as amateur, school, college, church and local groups must back up a program "properly and intelligently directed" to keep the youngsters occupied.

He believes newspapers, "a great moral influence in every community," should pay more attention to the youngsters. Baseball Commissioner A. B. (Happy) Chandler's plan to "give the game back to the kids" is a step in the right direction, Hoover thinks, but all sports will have to join hands.

W. & N. DEFEAT GYRO IN JR. MELON PLAY

In the junior league opener to last night's hoop schedule, Watts and Nickerson defeated Gyros 20-15 in a slow starting game which gradually increased in momentum. In the Intermediate League Macey's downed Savoy's 36-31 and Bo-Me-Hi edged out Co-op by a single point to win 36-35.

High man in the junior play was W. & N.'s Skog with eight points.

In the Bo-Me-Hi—Macey tussle, the play was evenly matched throughout. Half-time score was 18-17 for the students. During the second half the score saw-sawed back and forth until the final minute of play when Bo-Me-Hi achieved the one point edge.

Frank James of Bo-Me-Hi and Boyo Gurvich of Co-op tied for top scoring honors with 15 points each.

Lacking four of their players who are currently on the All-Star team on tour at Ketchikan, Savoy went down in defeat before Macey's by a score of 36-31. However, they still put up a good fight and maintained a close score all the way.

Teddy Arney showed outstanding form on behalf of Savoy but, in spite of his 18-point total, his team failed to make the grade. Arney was high scorer of the evening.

Individual scores: Watts and Nickerson—Skog 8, Flaten 2, Interneta 2, Nordgaard 2, Davidson 6, Graham.

Gyro—Sunberg 6, Pierce 2, Haugan 1, Shier 2, Laurie, Mostad 4, Forbes, Moore.

Bo-Me-Hi—Forman 4, Hartwig 4, J. James 4, F. James 15, Ciccone 5, Thompson, Lavigne 4, Miller.

Co-op—Gurvich 15, Viereck 4, Shepherd 4, Sharpe 2, Menzies, Peterson 10.

Macey's—Haugan 12, Murray 5, Pierce 4, Arnsten 3, Cruikshank, Teng 3, Menzies 2, Olafson 2.

Savoy—Arney 18, Pavlikis 8, Leland 5, Simundson, Scharff, Scherk, Flaten.

SHORT SPORT

Defending the world light-heavyweight boxing title he had won from Bob Olin at St. Louis the year before, John Henry Lewis outpointed Jack McAvoy, British challenger, in 15 rounds at New York ten years ago. McAvoy, rated Britain's greatest pugilistic product since the First Great War, was outclassed throughout the fight and won only three rounds.

Hamilton Tigers went on strike after winning the National Hockey League championship 21 years ago yesterday. The club executive refused a bonus to players who were to meet Victoria in the Stanley Cup final.

Frankie Frisch, former manager of the St. Louis Cardinals baseball club, signed a contract seven years ago to broadcast play-by-play descriptions of all home games of the Boston Bees and Boston Sox, during the ensuing season. A loophole was left in the contract that Frisch might resign if given the opportunity to manage a major league club.

TO REVIVE PORT DAY

Prince Rupert's pre-war waterfront gala known as Port Day may be revived this summer by the Junior Chamber of Commerce which last night appointed a committee to look into the feasibility of bringing it to life again.

Considered to be a particularly fitting celebration for the seaport city, Port Day was also highly popular. It was discontinued during the war. It was strongly supported by the fishermen and boat owners who took part in its halibut gear setting contests, rowing and power boat races and other aquatic sports.

TELKWA FARM HOUSE BURNS

Anton Good, Swiss Settler, Loses His Place

SMITHERS—The farm home of Anton Good, Swiss settler between Telkwa and Smithers, was completely destroyed by fire on Tuesday night. Mr. Good has been living on the Raymond farm, going to his own place daily to feed stock. He lit a small fire in the house on his own place and, when he left after having fed the stock, the fire was only a bed of coals. When he went back to the farm on Wednesday morning he found the building completely destroyed. It is partly covered by insurance.

Terrace Alarmed

Opinion of Minister of Public Works Protested

TERRACE—Alarmed at the expression of opinion as voiced by Hon. Herbert Anscomb, minister of public works, that the Prince Rupert-Hazelton Highway should be a federal rather than provincial responsibility, recently the village commissioners have dispatched a wire to the minister expressing this feeling. The wire is as follows: "Your recently expressed attitude regarding Prince Rupert-Hazelton Highway is causing in-

dignation and dismay among the citizens of Terrace district. Many residents have moved in since the completion of the road to Prince Rupert. Provincial highways already built are linked by the new road. We think, therefore, this is a responsibility which cannot be evaded. In view of great tourist and colonization possibilities a way should be found by which province and Dominion could open the road for traffic without delay."

DARTFORD, Kent, England—Mrs. May Davis said her husband, recently returned from the war, talked in his sleep of a girl he had been friendly with in Italy. Her separation order was refused.

Many Present At Mrs. MacRae Funeral
First Presbyterian Church was filled yesterday afternoon by the congregation which assembled to pay final tribute to the late Mrs. John A. MacRae whose death occurred suddenly at the end of last week. Rev. A. F. Macdonald officiated and Mrs. E. J. Smith presided at the organ to accompany hymns which were "Abide With Me" and "Unto the Hills." Following the church service, interment was made in the Riverside Cemetery. Honorary pallbearers were Alex Macdonald, George Mitchell, George Hill, Neil Macdonald, C.S.M. Percy Bond and Lieut. J. P. Carr, the last-mentioned representing Prince Rupert Machine Gun Regiment. Active pallbearers were John Munro, Roderick Mc-

What's In It?

WELL, a food chemist would say . . . almost 8% butterfat, about 6% protein, about 10% milk sugar, about 2% minerals . . . and that's fully twice the amounts you would find in regular milk. For Carnation Milk is regular pasteurized milk with enough of the natural water taken out to double its food values. And it has a big extra share of "sunshine" vitamin D. So whenever you want more food value, use Carnation as it pours from the can; for regular milk use, add an equal quantity of water. Carnation is Canada's largest-selling brand of evaporated milk.

PLYWOOD IS JR. CHAMBER FILM TOPIC

A colored film showing the manufacture of Douglas fir plywood from the time the wood stands in the west coast forests until it is applied for a multitude of construction purposes as broad, smooth sheets, was shown to the Prince Rupert Junior Chamber of Commerce at its monthly meeting in the Commodore Cafe last night.

With 50 members and guests present, the meeting was the largest in recent months and was described as "encouraging" by President Clifford Ham.

The meeting moved to hold the Junior Chamber dance, postponed on tonight on account of unsettlement in taking over the Civic Centre building, on April 5. It will be held in the Civic Centre auditorium.

Colin McCarthy, chairman of the health committee, reported that an anti-rat drive is being prepared in conjunction with the city health department and that the campaign will include an effort to clean up unsightly vacant lots and rat breeding places in the city.

Disatisfied with its previous attempt to have the C.N.R. station waiting room removed from the second floor of the building to a more convenient ground floor location, a special committee headed by L. M. Felsenthal will take the matter to W. D. Moodie, C.N.R. general superintendent for British Columbia.

ORGANIZATIONS WILL "POLICE" CIVIC CENTRE

The four parent bodies of the Civic Centre Association—Gyro and Rotary Clubs, Sons of Norway and Junior Chamber of Commerce—have been asked to supply men to "police" the new Civic Centre building while it is open on week-nights.

The appeal was put forward in the belief that, until the public is educated into feeling individual responsibility for the welfare of the building, some sort of disciplinary control will be necessary. Each club will be asked to take charge of the "policing" for a period of not less than one week and to supply two members each night.

Duties of these men will be those of building supervisors, watching for rowdiness and vandalism throughout the building. They probably will wear armbands designating their job.

The Gyro Club has volunteered to take over the supervision job next week and the Junior Chamber of Commerce at its monthly meeting last night undertook to supply supervisors for a month. Responses are also expected from the Rotary Club and Sons of Norway.

The supervisors will have no instructional duties in connection with classes but will be there solely for the protection of the building.

In making the appeal to the clubs, Civic Centre Association Chairman T. N. Youniss recalled that recently vandals committed a considerable amount of wanton vandalism in the laboratories of the building. He warned that this sort of thing would have to be guarded against until the public learned to respect the building as their own property.

WHAT IS HOME WITHOUT A GARDEN?

Make Sure They'll Grow—There are a lot of beautiful flowers and shrubs that will grow well in the Southern States or in the mild climate of England that will not do so well in Canada. One wastes money, time and work in trying them here. Our climate, soil and other conditions are not suitable, just as their conditions do not suit certain things that thrive abundantly here. To guard against the discouraging efforts to produce these tender plants here one is advised to stick to those flowers, shrubs and vegetables that are specially recommended for Canadian conditions. The latter are the varieties and types listed in the Canadian seed catalogues. These have all been tested under Canadian conditions and they are the only ones recommended by the Canadian authorities.

Columnists have poked some good-natured fun at the glowing pictures and descriptions in the seed catalogues but, as a matter of fact, those listed and pictured in Canadian publications are based on actual fact. The pictures are invariably actual photographs and any gardener of reasonable experience can reproduce them faithfully in his own backyard. In addition, there will be found in most Canadian catalogues a lot of useful information regarding season, time of flowering or, in the case of maturity, time of reaching maturity. Experts advise all beginners to get a good Canadian seed catalogue and possibly some of the government bulletins covering local conditions. Armed with this literature and good seed, satisfaction is guaranteed.

According to Plan—Seeds and shrubs or plants from the nursery are such little things that it is hard to realize just what will happen when full growth has been developed. The beginner almost invariably plants far too close together. Certain things like the small annual flowers and vegetables like lettuce, beets or carrots take up little room—two or three inches between and rows about a foot apart are all that are necessary. But there are other things that will need much more room. Tall, bushy flowers like cosmos, or zinnias for instance, need a foot or two each way. In the vegetable line, corn, potatoes, peas, tomatoes, melons, cucumbers and such require plenty of room. If crowded there will be little space for the gardener to wield the hoe or cultivator.

JOHN CONNERY SUCCUMBS HERE

A well known Prince Rupert railroad man and cannery worker passed away this morning in the Prince Rupert General Hospital at the age of 62 years. He was John McDowell Connery, a resident of this city since 1929.

Born at Maryhill, Glasgow, Scotland, the late Mr. Connery came to Canada with his parents at the age of four. He lived in this country until 1913 when he returned to Scotland. He married Miss Ethel McKinley in Belfast, Ireland. They came to Canada in 1919, where Mr. Connery was employed with the C.P.R. and C.N.R. Mr. Connery continued in the employ of the C.N.R., working at the dry dock and railway until his health failed two years ago. He also did considerable work at the canneries.

During the war he was employed at light work for the Americans. He was confined to his bed six months ago.

Surviving are his widow, who is at present in hospital here, two daughters, Mrs. Edith Hicks of Nelson and Mrs. Isabele Heatherington of Prince Rupert, and two grandchildren. There are two sisters, Mrs. J. Mackie of Winnipeg and Mrs. Scott Pyan of Bellingham, Washington and a brother, David, at Winnipeg.

Canadian Artists Form New Council

TORONTO (P)—The newly-formed Canadian Arts Council recently elected Ernest Forsberg of Ottawa as its honorary president. Herman Voaden of Toronto was elected president.

The new organization, composed of representatives of 16 Canadian cultural groups, was formed to continue the work of the temporary Arts Reconstruction Committee.

Claude E. Lewis, secretary said: "It is the purpose of the Canadian Arts Council to give assistance to all persons or organizations interested in the cultural development of Canada."

The Council would interest itself in any projects which serve the cultural development of Canada or give aid or inspiration to Canadian artists.

Veteran Chief Engineer Reminiscences Before Prince Rupert Gyro Club

Reminiscences after thirty-five years of steaming on the British Columbia coast, particularly about personalities he had met, made the subject for a delightful, informal talk before the Prince Rupert Gyro Club at its weekly luncheon Wednesday by A. S. Munroe, chief engineer of the steamer Prince Rupert.

In commencing, Mr. Munroe disclosed the interesting fact that his ship—the Prince Rupert—was now on her 1502nd voyage. During her career of 35 years since June 1910, she had steamed no less than two million miles or a distance equal to eighty times around the world.

Coming as a stranger to Prince Rupert in those very early days, it had been a coincidence to meet on his very first call here a man who had been a friend of his father in Scotland. The man was Tom Reid whom a few old-timers may recall as having been the "rat catcher" here about the time the city was incorporated.

Glancing around the luncheon table yesterday he saw members of the club whom he had known here as small boys—Bill Lambie, Joe Scott, Alex Hunter and Bill Stone.

Mr. Munroe concluded his talk with reference to experiences in connection with the destruction of the steamer Prince George by fire at Ketchikan last September. He paid deep tribute to the United States Coastguard, the Ketchikan fire department, the American Red Cross and the citizens for the way in which all had rallied to extend every assistance and hospitality possible to the stranded crew. It was indeed a wonderful exposition of international friendship. As for the Coastguard it had again exemplified its great service in connection with the rescue work at the wreck of the steamer Yukon.

"And I saw at Ketchikan what the Red Cross does when disaster befalls and I can heartily commend it to the utmost of your support when it makes its forthcoming annual drive," Mr. Munroe said.

Guests at yesterday's luncheon, beside Mr. Munroe, were Dr. N. MacSweyn, Ira Dilworth, and R. S. Greig.

It was arranged at the request of W. F. Stone, that members of the Gyro Club should assist in policing duties after the Civic Centre is opened next week. James Parker made an appeal for support of the Red Cross drive.

President W. D. Lambie was in the chair over a good attendance of club members.
