Safe With Aircraft Near Grande Prairie After Flight From Prince George

PRINCE GEORGE—J. J. Hawkins, Seattle pilot, who took off from here last Saturday for Grande Prairie and became missing, was located yesterday beside his plane in a small meadow eighty miles southeast of Grande Prairie. A searching aircraft found him. As far as could be observed, Hawkins was unhurt and his plane undamaged. Emergency rations were parachuted to him and arrangements are now being made to fly in a rescue craft which would land either in the meadow or on a lake nearby. Hawkins, flying a light plane, was on a mission to pick up two other Seattle men who are stranded on a lonely Alberta air strip. It was a Royal Canadian Air Force search plane that found Hawkins northwest of Whitecourt, Alberta.

Worthington, the Dominion's Western Army commander, in his charge to the expedition, bluntly said it was designed "as a start in getting us thinking in terms of defence of our country."

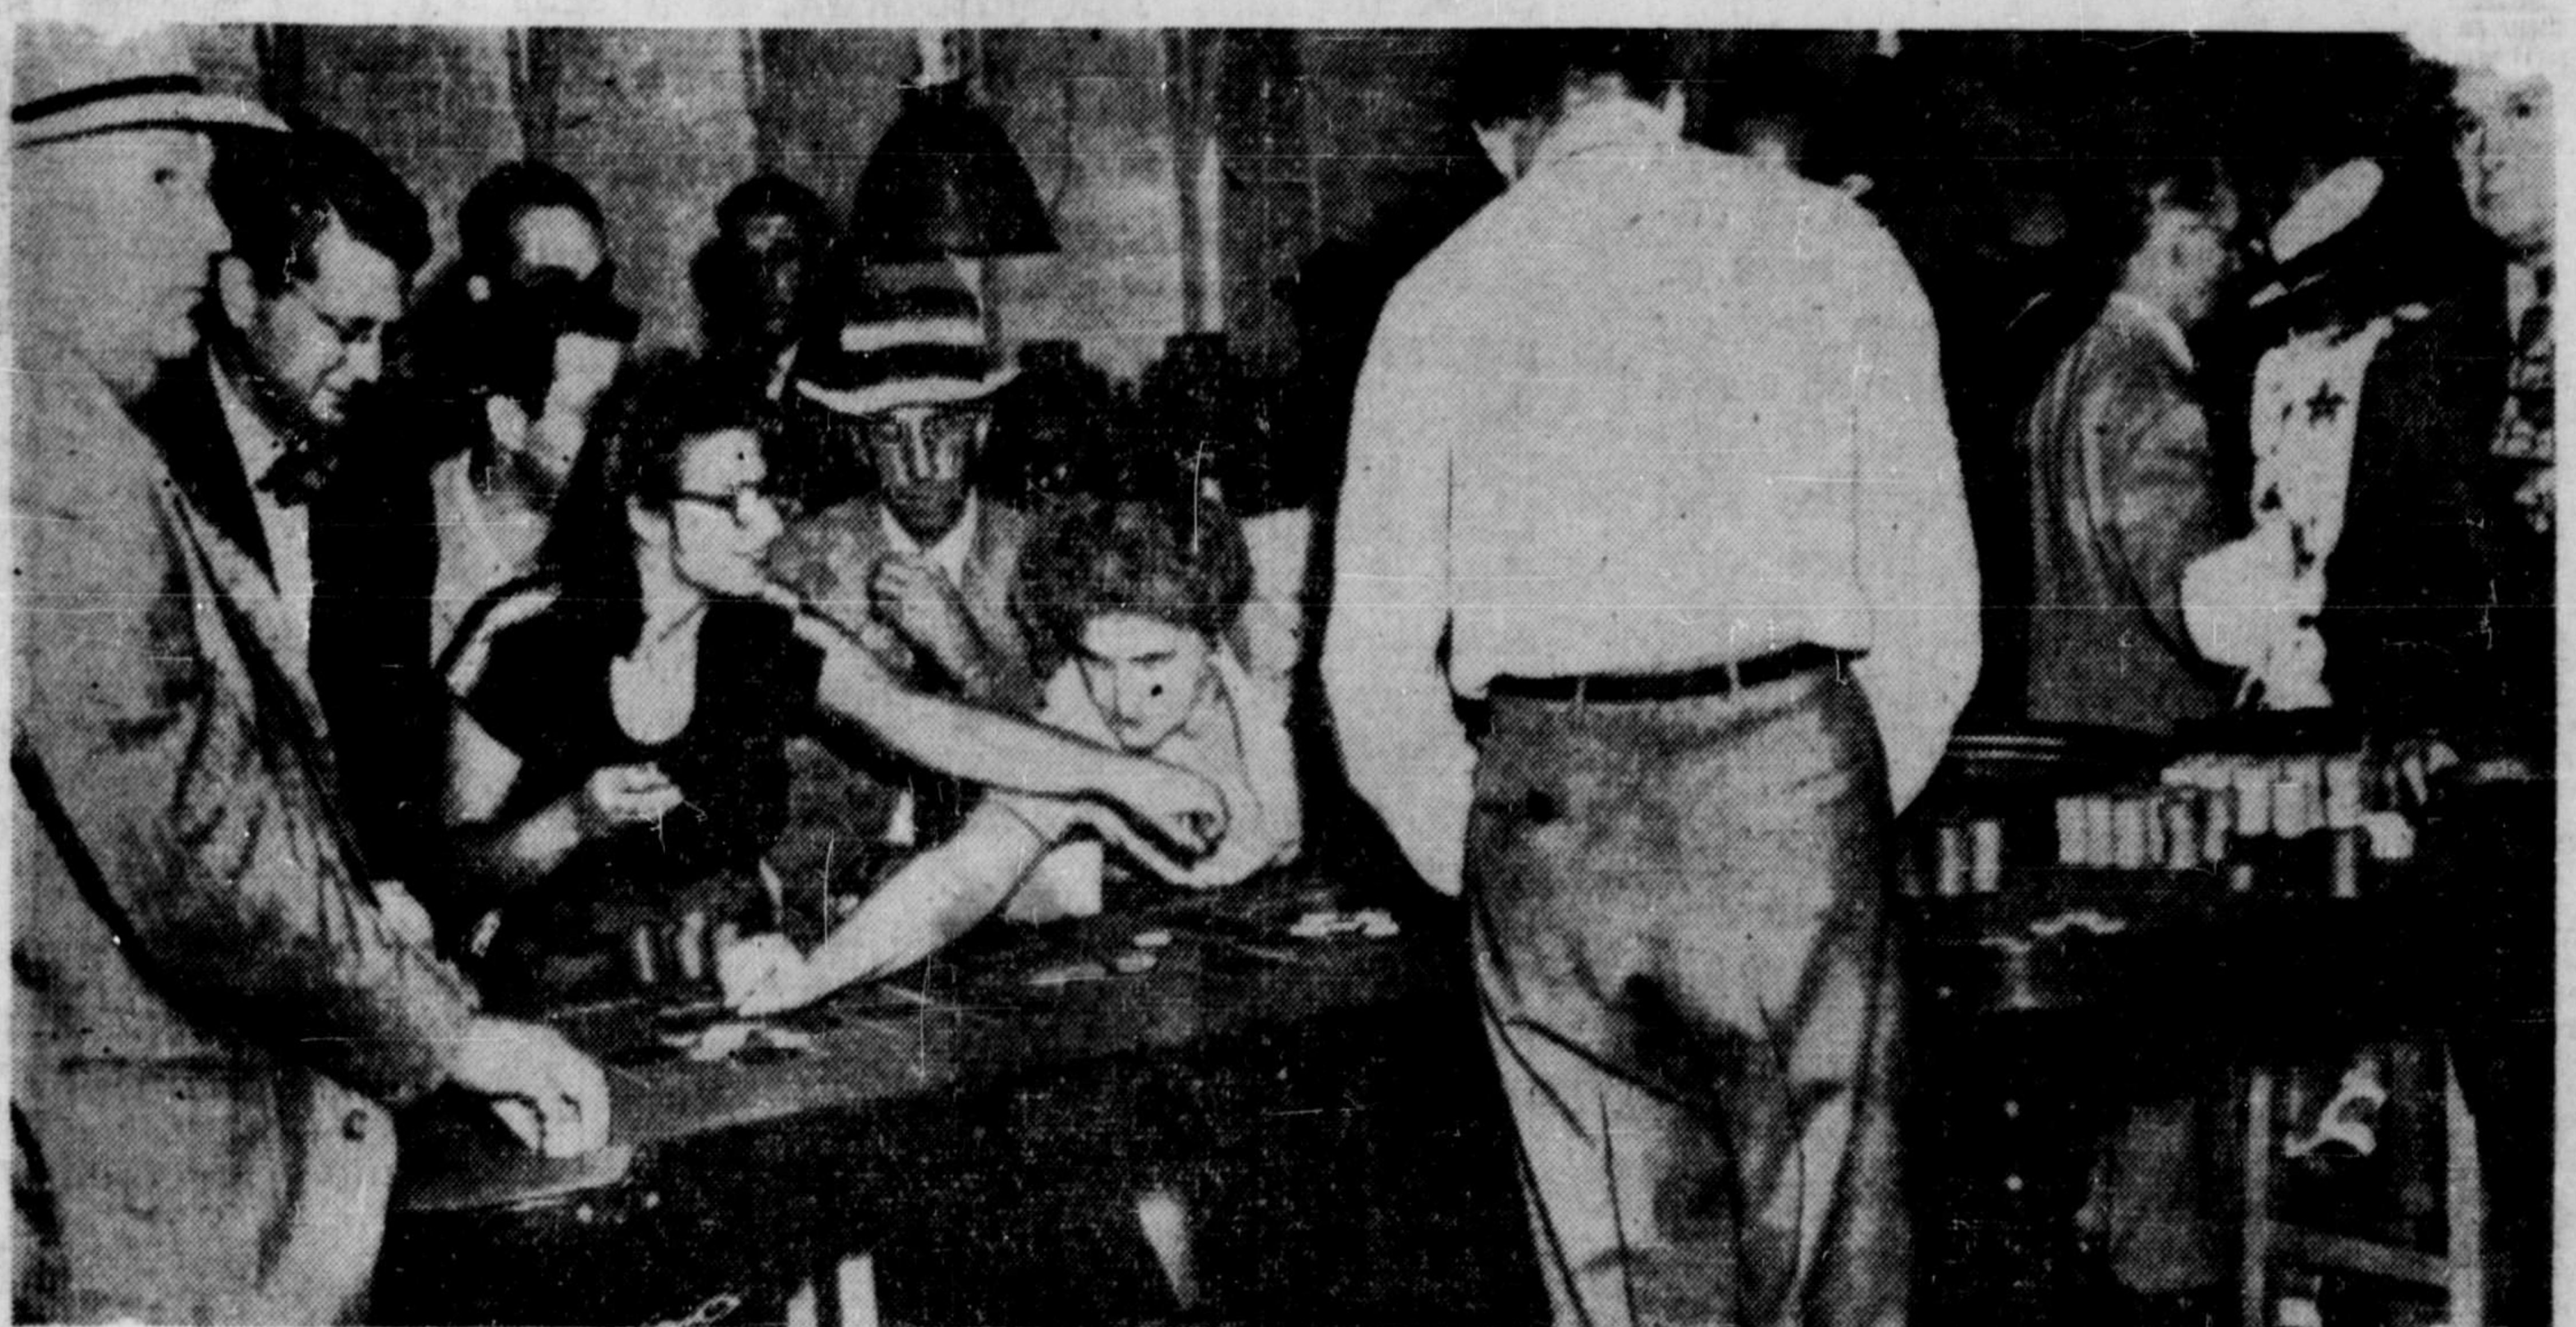

**PASSING OF AID. COREY**  
VANCOUVER — Aid. Henry Lyman Corey, prominent in civic politics during the past decade, died Tuesday night following a four-month illness. He had been confined to bed at his home in West Point Grey since May. Sixty years of age and born in Quebec, Mr. Corey for thirty years was a member of the composing room staff of the Vancouver Province. He first entered municipal politics in 1935 when he was elected alderman for West Point Grey. He was re-elected in 1938 and had since been an alderman continuously. He headed the polls six times.

## BUSINESS BOOMS ON GAMBLING SHIP

A view of a section of the huge gambling room aboard the Lux—formerly the Bunker Hill—gambling ship opened by Tony Cornero six miles off the California coast at Long Beach. A crowd of nearly 2,000 patronized the ship on the opening night. Among them were "observers" sent by District Attorney Fred N. Howser, to gather evidence with a view to taking action against the gambling ship. Women formed a goodly percentage of the premiere crowd. Roulette is the game being played.

**BIG WENATCHEE FIRE**  
WENATCHEE—This central Washington city has had its worst fire—an early morning \$750,000 blaze which started in the warehouse of J. D. Hamilton Co., and fanned by wind, spread to a furniture store and offices of a transfer company. Exploding drums of oil sent flames leaping high into the sky. Guests of two hotels were forced to flee although the hotels were saved.

W. T. Moodie, general superintendent, Canadian National Railways, for British Columbia, is paying a visit to the city today in the course of an official inspection trip. He arrived on last night's train from Vancouver, accompanied by C. A. Berner, divisional superintendent here, and will leave this evening on his return south.

The parade was headed by one thousand striking war veterans who carried banners one of which read: "Picket lines are front lines now." There were no signs of the Royal Canadian Mounted Police and provincial police reinforcements who came here to aid the city police. No violence marked the incident.

## Calgary Firm Interested In Rupert Warehouse

**Representatives of Northwest Salvage Co. Are Visiting Here On "Little Deal"**  
While no inkling of the future of the former American overseas warehouse and the ocean dock at Prince Rupert has been forthcoming from War Assets Corporation since bids were opened for the installations in July, the interest of one of the bidding companies—a Calgary firm—has been shown by a visit of the firm's proprietors to Prince Rupert.

**RUSSIAN ENVOY LEAVING GREECE**

## MODERN TEMPERATURE RECORD SET IN PRINCE RUPERT THIS AFTERNOON

A modern high temperature record for Prince Rupert was set up at 2:30 this afternoon when the Dominion meteorologist at Digby Island announced that the thermometer had reached a reading of 86 under a blistering sun projecting its rays from a cloudless sky. A hasty glance at Daily News weather records showed that in July 1934 a reading of 86.5 was recorded.

**MR. HOWE ADMITS**

AT LAST we seem to have found a friend at Ottawa. It is Mr. Howe, minister of reconstruction, who says right out in meeting that Prince Rupert needs coal bunkers, for which we have been agitating this while back, and that serious consideration will be given applications that have been made for them. This is an encouraging change from the sort of evasive replies we have been getting lately when we have presented cases on various matters. And it is good coming from the businesslike and progressive-thinking Mr. Howe who, as every one knows, is one of the real active powers in the federal government and not just another politician.

Mr. Howe knows something about Prince Rupert too for it was his firm that planned the local grain elevator and superintended its construction. That was in the days before he entered public life to which he has now ascended to high and influential rank.

When a man like Mr. Howe admits that Prince Rupert needs coal bunkers, it is making progress on the way towards getting what are one of the few things still lacking to make this as well equipped a port as any on the coast.

**LIBERALISM: WHAT IS IT?**

HISTORY TELLS US WHY. Every great war—and most certainly the greatest of all wars—blasts the old order out of what we believed was a sort of stability. Not only nations but social and economic classes are forced into new relationships, and people find themselves not only moved on the map but up or down the ladder and sharing the interests of groups strange to them before.

Such change sharpens the differ-

ences and widens the gulf between those who welcome and would hasten it and those who fear it. The ardor of the one group and the defensiveness of the other only serve to push them both farther and farther into extremes.

It is not too difficult to recognize the real extremists. Some of them have been speaking for themselves of late. Those to the far "left" would burn down the house to get rid of the rats. To those on the far "right" change looms as an evil in itself. They yearn for "the good old days."

The day can be saved, and will be saved, by those who neither fear change nor worship it, but who seek to understand it and to guide it toward constructive ends. We call them liberals. But just what is a liberal? Most everyone except the extremist thinks he is one.

The New Republic asked nine in public life who so class themselves for definitions of liberalism. Their replies serve only to confirm further that liberalism, like democracy, defies precise definition. But they likewise suggest that while we may find it hard to define concepts of such breadth and depth of meaning, they are less difficult to describe.

Certain adjectives and phrases stand out from these nine responses: "human sympathy . . . receptivity to change . . . willingness to follow reason rather than fixed ideas . . . objectivity . . . respect for individual dignity."

One reply stressed that liberalism is more an attitude than a doctrine or a platform—which, we think, just about hits the mark.

**FREE PORT POSSIBILITY**

THE JOURNAL OF COMMERCE sees the possibility of the establishment of a free port resulting in the development of Vancouver into the largest port on the Pacific Coast. Benefits of the free port would be far-reaching, it being claimed, for example, that establishment of a free port at Quebec would attract industrial development worth \$50,000,000.

The Journal of Commerce points to Vancouver's "excellent harbor facilities, ideal climate and geographic advantages" to support its free port claims—all of which constrains us to ask what Vancouver has that Prince Rupert has not got?

**REPORTS ON CADET CAMP**

Navy League Hears From Officer Who Was in Charge—Was Great Event

At the regular meeting of the Prince Rupert Navy League last evening a comprehensive report of the local corps' activities at the summer camp held recently at H.M.C.S. Discovery was presented by Lieutenant E. John Wilson who was commanding the Corps at camp. In addition, Mr. Wilson was camp executive officer and, in that capacity, his organizational and executive accomplishments were the subject of favorable comment from the officers of the permanent forces at the camp.

Mr. Wilson referred to the accident to Cadet Toderas. It had been a most unusual occurrence. Every attention had been given to the cadet who was now back in the city and was suffering from no ill effects although at one time grave fears had been felt regarding his possible chances of recovery.

The Captain Cook Corps bugle band was the only one at camp and its playing was much appreciated.

Regular parades had occupied the cadets every day and in their off hours ample provision had been made for their entertainment. Sailing, swimming, shooting, movies and sports were fully organized. Arrangements had been made for the cadets to see the famous sailing ship Pamir and the visit had greatly impressed the young seamen. They had also enjoyed a visit

to the Seamen's Club where they saw a wrestling match.

The executive passed a vote of appreciation to Mr. Wilson for his report and for the successful record of the corps.

The secretary reported that J. M. Clark of the local high school, an ex-naval officer with a fine war record, and Corporal A. T. Lashmar had consented to join the local Navy League executive and would attend future meetings.

Arrangements will be made to provide suitable float accommodation for whaler and cutters now owned by the corps. The arrival of a 12-pounder gun was announced. It has been set up in the drill hall. The failure of the cadets to enter a crew in the whaler race for a trophy presented by the Women's Auxiliary of the Navy League was explained. The only whaler had been damaged and it had been impossible to enter a crew. The thanks of the league were expressed to the women for their presentation of the trophy.

Plans in connection with the forthcoming visit of H.M.C.S. Uganda and Crescent on September 13 were discussed. The senior officer of the Uganda had expressed the wish that entertainment on this occasion be more of a personal nature than a city-wide character.

Present at the meeting were S. P. Woodside, chairman, Mrs. J. R. Elfert, Mrs. A. L. Holtby, Lt-Commander F. Eddy, Lt-Commander A. S. Mitchell, J. S. Wilson, Orme Stewart, T. Forman, and E. T. Applewhaite, secretary.

**WARK CHANNEL FISHING GOOD**

There is at least one bright spot in the salmon fishing picture in Prince Rupert area. That is the Wark Channel region where, according to Fish Packer Johnny Clausen, the run has been better than he has seen it for years and is continuing so. Trollers there are still taking good catches of sockeye. As is already known, the run has not been so good elsewhere.

**YES... BUT WHAT IS IT WORTH?**

Little you care how much silver is contained in the 50c piece you take into a store. What you want to know is what it will buy.

Well, that depends very much on yourself, ourselves, and the millions of others like us. If free and careless spending brings inflation, your 50c piece will buy less and less as prices rise . . . how much less, no one can say.

You can guard against inflation . . . and, if you are a No. 1 citizen, you will. How? . . . By conservation in your personal finances . . .

Here are five ways you can fight inflation:

- Hold on to your Victory Bonds
- Buy only those goods which are in fair supply and save your money for the day when goods now in short supply will be readily available
- Avoid black market purchases
- Keep up your insurance
- Build up your savings account

This means wise spending and wise saving.

This is conservation—the first requisite for personal security—the first attribute of good citizenship.

## HOW CAN I ???

By ANNE ASHLEY

Q. How can I prevent loosening the latch on the refrigerator door?

A. Do not slam the door of the refrigerator. Lift the latch to close the door. Slamming may weaken the latch so that in time it will fail to fasten the door securely.

Q. How can I clean clothes brushes, whisk brooms and hat brushes?

A. Dip them up and down in warm water, to which a little soda has been added. Dry in the sun.

Q. How can I keep parsley and mint fresh?

A. Keep parsley or fresh mint in airtight mason jars and it will keep fresh for several days.

## ELECTRIC COOKING is something to sing about!

Cooking is really a pleasure on an electric range. There's no need to worry as to how baking and roasting will turn out, thermostatic control of heat eliminates tiresome peeks in the oven which take up valuable time and mean many trips to the kitchen. Electric cooking is clean cooking. An electric range cannot create soot or smoke to stain its shiny enamelled surface or blacken pots and pans. Furthermore, the kitchen does not get overheated with electric cooking—and that is a blessing any time of year!

Plan now to buy the new electric appliances as they become available.

**Fastball Play-offs Drawing Interest**

This evening at Gyro Ball Park 99 Taxi will meet General Motors in the first of a best-of-five play-off series for the city fastball championship.

General Motors won the league championship. 99 Taxi won the play-off series for the remaining teams of the league and so qualified to meet the garagemen in the final play-offs. There has been a great deal of interest shown in fastball during the season and the meeting between 99 Taxi and General Motors have been the most talked-of matches, so tonight's should be a feature exhibition.

**Moose Fall Before Savoy**

**One-Sided Game Ends in 9-1 Score**

With their morale high after downing Waits and Niekerson to win their second victory of the season Sunday afternoon, the Moose baseball team felt the sustaining power of their recent win for three innings on the Roosevelt Park field last night and then succumbed to a 9-1 defeat at the hands of their implacable chasteners, Savoy's.

The fraternal brothers started off in inspiring manner with a triple by Victor Dell off the first pitched ball. However, neither right fielder Dell nor his teammates could support the promise of that first hit. Dell's was the one and only Moose score of the six inning fixture, even though they fielded 12 players in a mighty effort.

Savoy, on the other hand, started late. It was not until the third inning that they got on the board with a run scored off a single by pitcher Don McDonald. For the next three innings, however, they kept the tally mounting.

The game was well larded with good hitting. While Moose marked upon two hits against pitcher McDonald, both were three-baggers. In addition to Dell's initial blow, Moose pitcher Stu Henry unclosed another triple in the second inning. However, he was left on third when the side went down.

Behind their nine runs, five of which were brought in in the sixth inning, Savoy's chalked up 13 hits. First baseman Joe Davis slammed a triple in the sixth, and Miner Simundson swatted a double in the third. Despite these lusty blows, however, both batters found themselves left on base.

Don McDonald, Savoy's unpredictable toiler put in his best performance of the season at both ends of the groove. He shut out six batters, allowed two hits, and passed two on balls. At bat, he came through with three hits

in three times at bat, and incidentally, scored two runs.

Moose pitcher Stu Henry remained on the mound for five and a half innings, after which he was replaced by Hector McKinnon. Henry struck out five batters, allowed six hits, and passed no balls. During McKinnon's period on the mound, which he entered after a brief session at centre field without a warm-up, he struck out two batters, and allowed seven hits.

In the gathering darkness of the sixth inning, Savoy's went on their spree which netted them five runs off five hits.

**THREE SCHOOLS WILL OPERATE**

Teachers Obtained for Stewart, Premier and Alice Arm

STEWART—There will be three schools in the Portland Canal district, reports the Secretary of the Board, Mrs. B. C. A. Lees—the Stewart Superior School, Premier School and Alice Arm School. The Board has been successful in finding teachers of a high calibre for all of them. R. M. Sweeney of Vancouver will be principal of Stewart Superior School with Miss Jo Sharpe returning to her duties with the junior grades. R. E. Allen, also of Vancouver, will be the teacher at Premier school and J. K. Schunaman of Vancouver will be in charge of the Alice Arm school.

The Stewart school has been undergoing renovation under M. Schon, the janitor.

It is estimated that there will be over fifty scholars enrolled at the Stewart Superior School and the members of the board are looking forward to a very successful year.

The phenomenon of a lunar rainbow, of which certain districts in United States and elsewhere in Canada have boasted of late, occurred recently at Lake Kathleen, popular resort for summer campers near Smithers, and among those who observed it were a number of Prince Rupert people. **STEWART BOY RISES FROM SICK BED TO KILL 500-POUND BEAR IN YARD**

STEWART—A marauding black bear got his quietus when he attempted to raid the chicken house of Lou Behnsen on Tenth Street. Bobby Behnsen was in bed with a bad cold when his mother shouted out to him to get the gun as a bear was trying to get into the chicken house. Bobby got into his bathrobe and came downstairs with the gun and, although shaking with his cold and excitement, he managed to dispatch Bruin. The bear weighed about five hundred pounds, it is estimated.

A picture was taken of the bear and the young hero. Bobby is only 14 years old and is rather proud of his exploit.

MEET AND MIX FROM COAST TO COAST IN CANADA

**The Kootenays**

BRITISH Columbia's East and West Kootenay districts with their glorious lakes, mountains and broad valleys, thriving cities and towns attract many thousands of tourists each year.

Forests and farms, mines and harnessed waterfalls, no part of British Columbia offers more rugged scenery than the Kootenays.

Big game abounds on every hand in this paradise for the hunter, and ardent anglers from everywhere return again and again to its unmatched fishing haunts. Summer water sports and winter skiing are unsurpassed in this magnificent Interior vacationland.

Because British Columbia is at its beautiful best in the late Summer and Fall the tourist industry will be greater than ever this Autumn. We can all do our share to make our visitors come back again and again—for tourists are good business for us all.

**JOCK MCGREISH INJURES FOOT**

Local Sports Enthusiast Suffers Fracture in Accident

All sports followers and bowlers in particular will hear with regret of an injury to Jock McGreish. While at work in the local shipyard a small steel door fell on Jock's foot and an X-ray shows a fractured bone. This will mean that he will be out of action for some weeks.

Apart from the effect that the injury will have in preventing Jock from carrying on with his work he is disappointed that he will not be able to continue his bowling activities. He has become a most enthusiastic bowler in the last couple of years and, in various competitions this year, has had a very successful record. His next engagement would have been in the doubles final. He has always been noted for his spirit and fighting qualities, and one of his first remarks on learning that his foot was fractured was that they would have to move the bowling green up to the hospital or to his home. All will join in wishing him a speedy and complete recovery.

**SMITHERS AND TELKWA BECKON FOR LABOR DAY WEEK-END**

Bulkley Valley towns of Smithers and Telkwa are beckoning to the whole country between Prince Rupert and Prince George to converge thereon for the two big attractions of the year—Bulkley Valley Fall Fair at Smithers this Friday and Saturday and the thirtieth annual Telkwa Barbecue on September 2. Indeed the celebration program will extend all the way from Friday through Saturday and Sunday to Monday so it will really be four big days.

Horse racing will feature both Smithers Fair and Telkwa Barbecue programs with the Bulkley Valley Derby and Labor Day Derby as major events. Rodeo events will be another outstanding attraction at Telkwa.

For the baseball fans there will be plenty of action with Telkwa, Smithers, Prince Rupert, Terrace and Usk all vying for honors which will culminate in the Bulkley Valley championship final at Telkwa on Labor Day afternoon.

At the annual Smithers Fair, featured Saturday afternoon, there will be a full display of agricultural and household economies as well as showings of native crafts and school work. Baby show on Saturday afternoon and bathing beauty contest in the evening will be feature events.

Nightly dances will be staged for the benefit of the socially inclined.

Judging from the full program which has been planned, there will be never a dull moment from bright and early Friday until dawn breaks Tuesday morning over the scenic mountains into the lush Bulkley Valley.

Mrs. Walter Smith left on Monday night's train for Toronto where she will pay a two-months' visit. While away she will attend the wedding of a sister.
