PITTSBURG (CP)—Bitterly indignant American Federation of Labor United Mine Workers today indicated that the government-levied fine of \$3,500,000 would do little toward ending the 15-day-old coal strike which is slowly paralyzing American economic life. The robbers took \$125 in cash from the till, a wallet containing \$625 from Ransden's pocket, \$1,150 worth of cheques, a \$2,500 diamond ring from the proprietor's finger and a \$300 diamond and pearl stickpin from a tie.

Food Racketeers Remain Threat In Europe Today

By ROSS MUNRO
Canadian Press Staff Writer

STARVATION AVERTED IN EUROPE BUT MILLIONS STILL GO HUNGRY; U. N. R. R. A. A TREMENDOUS HELP

ROME (CP)—Widespread starvation has been averted in Europe and the food situation generally is improved compared with a year ago; but millions still go hungry from Cherbourg to Istanbul in the stupifying economic maladjustments of the continent.

There is as good food in Europe, at a price, as you can get in Canada or the United States. There is far greater variety than Great Britain has seen for seven years. Yet hunger haunts many in practically every country.

In the small-place, uneven recovery of Europe, food distribution everywhere has been handled badly. Black market operators and food racketeers are doing a tremendous illicit trade. They fleece the wealthy and the middle classes—and the poor get no break at all.

Worst over-all food situation is in Germany, under four-power occupation and control. Several times during the last year there were food crises, particularly in the British zone, which took all the ingenuity of the control authorities to overcome.

Austria, also under similar control, seems to be next worst. In both countries there is widespread undernourishment. There is some actual starvation but it has not reached any high proportion. This winter is again a testing time.

Salvation of many countries undoubtedly has been the United Nations Relief and Rehabilitation Administration, to which Canada was the third largest contributor.

VALUABLE CONTRIBUTION
In Italy, Greece, the Balkans, Poland and Austria this humanitarian organization—with all its faults the most successful international undertaking of the post-war period—has been of tremendous help.

Some U.N.R.R.A. food got into the black market. Some was poorly distributed. But all in all the organization, through the last year particularly, helped a vast number of people to bridge the food gap between war and peace.

U.N.R.R.A. is folding up and its disappearance will leave a vacuum in Europe. Countries such as Greece desperately hope the United Nations will rapidly take over many of U.N.R.R.A.'s essential services.

In countries such as Italy and Greece there are great disparities, depending on how much money the buyer can spend. Regular banquets can be obtained in restaurants in Rome and Athens for a goodly sum, yet distribution is so faulty, that the majority of people are on the borderline for rations.

Switzerland eats remarkably well, as she has all along in her neutral position, and in Belgium

The candidate who are being invited are those seeking election as mayor, to the five aldermanic seats and to the five school board seats which are open.

Chairman of the meeting will be Neil Ross, Civic Centre director.

SEEKING FEED GRAIN BONUS

OTTAWA (CP)—Payment of an "adequate" acreage bonus for land seeded to barley must be made to Western Canada farmers if feed grain production is to be increased and production of livestock and dairy products maintained, the Dominion provincial agricultural conference agreed Wednesday. SCHOOL BOARD TO ARBITRATE WAGES

Will Ask J. T. Harvey to Act as Arbitrator in Salary Problem With Teachers

Prince Rupert and District School Board agreed last night to place its salary dispute with the Teachers' Association before an arbitration board, after a discussion in which Board Chairman Dr. R. G. Large criticized the method in which the salary negotiations had been handled by representatives of the teachers.

The Board decided to ask J. T. Harvey, local barrister, to represent it as arbitrator with provision that, should Mr. Harvey be unable to act, further appointment be left in the hands of the School Board's salary committee.

Exception to the manner in which the teachers' request for arbitration had been brought to the attention of the Board was expressed by Dr. Large, who told the meeting that he had assumed that the Board's offer to pay the B.C. Teachers' Federation salary scale had been acceptable to the teachers.

"The Board assumed that it had met the demands of the teachers, then we read in the newspaper that the teachers have asked for arbitration," he remarked. "I think the teachers' actions have been reprehensible. They certainly haven't shown consideration for the Board or the taxpayers."

Position of the School Board in the recent salary negotiations was outlined by Schools Secretary Mrs. M. M. Roper who said that the present annual payroll for the 44 teachers employed is \$39,344, which includes one salary increase totalling \$6,576 already this year.

The present salary scale, Mrs. Roper said, includes a range of \$1,200 to \$2,200 for elementary school teachers, and from \$1,500 to \$3,000 for secondary school teachers.

The B.C. Teachers' Federation scale, which the Board offered to pay but which was rejected by the teachers, allowed salaries of from \$1,300 to \$2,400 for elementary teachers and from \$1,600 to \$3,000 for secondary school teachers.

Demand by the teachers for a salary schedule of from \$1,500 to \$2,600 for elementary teachers and from \$1,800 to \$3,200 for secondary teachers, which is \$200 above the B.C. Teachers' Federation scale, would cost the Board an additional \$8,800 above the

Recommendations Of Mine Workers

VANCOUVER (CP)—The annual convention of the Mine, Mill and Smelter Workers' Union resolved that in future agreements with employers, the 40-hour week with no reduction in take-home pay, and provincial health insurance should be included. The recommendations were included in the officers' report at the fourth annual convention of the union.

HARMONY ON ARMS CUTTING

LAKE SUCCESS (CP)—United Nations efforts to set up worldwide arms limitation machinery started off with a note of harmony today when a sub-committee agreed unanimously to accept the United States plan as a basis of discussion. Russia has agreed that any inspection and control agencies to enforce the arms-reduction program must be free of the veto.

Oakland Is Free Again

OAKLAND (CP)—The city of Oakland and A.F.L. leaders today reached agreement to end the general strike which has strangled commerce in the area east of the bay cities for two days.

City Manager John Hassler announced that a return-to-work order had been issued at 11 o'clock.

A union statement confirmed an agreement based on conditions that the police not be used for breaking picket lines and that city officials remain neutral in dispute.

BRIDE SHIP HEADS WEST

LIVERPOOL (CP)—The bride ship Empire Brent sailed for Halifax early last night in its second attempt to leave the Mersey with 900 wives and children of Canadian servicemen. Two weeks ago the 10,000-ton ship rammed a smaller boat in a fog and had to return for repairs.

RATION OFFICE NEEDED

PRINCE RUPERT BUSINESS INTERESTS—wholesale and retail have taken stock of what the situation will be if the local rations office is actually closed down as from the end of this month as it has been announced it will be. They have come to the conclusion that it will cause severe inconvenience in connection with the distribution of rationed food goods in this area, slowing up business all around and, quite probably, causing hardship and loss.

Instead of being able to get almost instant action from an office conveniently located in this principal distributing and administrative centre of all northern and central British Columbia, closing of the office would mean reference to the Vancouver office five hundred miles away and requiring two days at least to reach in each direction.

Prince Rupert should be the last place in British Columbia to have its ration office closed with the possible exception of Vancouver and Victoria. To close down Prince Rupert while such an office as Kelowna remains open seems quite unreasonable.

Possibly, if a strong enough protest were made in the proper quarters, pointing out the true situation here, necessary reconsideration of the move could be obtained.

IMMIGRATION

CANADA MUST HAVE a vigorous immigration policy immediately. This country needs and can support a very much greater population and the present opportunity may be the last in which we can freely choose the immigrants who will fill our thinly populated country.

Canada was built by the energy, skill and initiative of immigrants and her future growth will be accelerated by bringing in those with technical and scientific skills and experience as well as those prepared for labor on the farms and in the factories. Today as perhaps never before there are men of skill and experience with the capacities to establish new employment—creating industries, who are footloose in Europe and seeking opportunities in countries where they will be welcomed.

Canada has raw materials together with power and transporta-

tion, irrigation projects have opened up for intensive cultivation formerly waste lands and increased industrialization provides new job opportunities. Production will be increased, the standard of living raised and employment expanded if selected immigrants are encouraged to come to Canada to assist our people develop these opportunities. Canadians should think of immigration policies with confidence that, the more there is produced the more there is to share, and not on the old basis that, the fewer the people the more for each.

The Canadian Chamber of Commerce does well to urge the government to immediately adopt a positive long-term policy of encouraging the movement to Canada of desirable immigrants from abroad. Such a policy must be based on Canada's economic needs and the maintenance of an appropriate balance between our agricultural and industrial requirements.

An interesting autobiographical talk by a Prince Rupert-born member, James Parker, featured the program at yesterday's weekly luncheon of the Prince Rupert Gyro Club, President W. D. Lambie was in the chair and there was a good attendance of members with one guest in the person of Ivan Cameron. W. F. Inadvertently omitted from the last list of donations to the Leonard Campbell Fund was a sum of \$72.25 from the Canadian Fish & Cold Storage Co. employees which, added to an additional \$17 already acknowledged makes a total of \$89.25.

SHORT SPORT

There is a Canadian horse called Five Minutes to Midnight and when he went into retirement recently at Portland, Oregon, it was a public ceremony before 10,000. This small, shaggy, dark horse had one credo: "If it's on my back, it's got to be bucked off." Most western horsemen say there never has been such a bucker. For better than two decades cowhands have been trying to stay aboard him. Owner Verne Elliott, Platteville, Colo., estimates better than 2,000 tried. He says that 14 succeeded for the required 10 seconds. Few of these still were up at 11 seconds. And even fewer at 12. Elliott adds that even the 14 who made it once were pitched off on other rides.

"He's the greatest I've ever seen," says Elliott, who runs a string of buckers for rodeos from Madison Square Garden to the west coast, and has seen them all for more than 20 years. "But he wasn't the most dangerous." Elliott continues. He gives that honor to Midnight, a feared man-killer of early rodeo days, whose grave on Elliott's ranch is virtually a cowboy shrine. "You can lead Five Minutes to Midnight around like a pup, just so long as no one tries to get on his back," Elliott says. "But I never saw another horse that could put so much into bucking. Tain't his size. He stands only 14 hands. Average bucker is at least 15 hands, weighs 1,000,

maybe 1,300. Five, he was only 1,040 at top, now he's about 975. He's always been skittish and wild. Not mean, you know. Just wild. He's hurt hardly a one of his riders. Lets them down easy, sort of. But he never could stand anything on his back."

Elliott first heard of Five in 1924. It was a story from Canada — of a wild horse, bought for \$3, who was pitching all comers out of the lot. In 1927 Elliott bought him at Calgary. He named him after the great Midnight. Then started Five's tours. He scattered cowboys from here to London, appearing in every major show a number of times. The London appearance perhaps was his biggest sensation, for they'd never seen such a horse. Few Americans have either. W. T. Johnson, San Antonio, Tex., once offered \$10,000 for him — a record for a bucker. Elliott refused it, but promptly insured Five for \$5,000, also a record.

For 19 years Five travelled with Elliott, bucking them off. Plus the three years he bucked in Canada, that makes 22 years — a long time to be a champion. Now Five goes on pension for life — the run of the Elliott ranch at Platteville, soft, green grass when he wants it and grain when his now-ailing teeth can't handle grass. But a great horse requires a final tribute. So they brought Five to the Pacific International Livestock exposition at Portland for a farewell ceremony.

set in Eldorado" and Penny Singleton and Arthur Lake in "Blondie's Lucky Day."

December 25 and 26 — John Hodiak and Lucille Ball in "Two Smart People."

December 27 and 28 — Randolph Scott and Ann Richards in "Badman's Territory."

December 29 (Sunday midnight) — Marjorie Weaver and John Hubbard in "Murder Among Friends" and Joe Kirkwood and Leon Errol in "Joe Palooka, Champ."

December 30, 31, and January 1 — Jane Powell and Walter Pidgeon in "Holiday in Mexico."

December 31 (New Year's Eve) — Bob Hope and Bing Crosby in "Road to Singapore."

DOUBLE TAX IS OPPOSED

Prince Rupert Chamber of Commerce Supports Kelowna On Three Resolutions

Three Resolutions from the Kelowna Chamber of Commerce won the support of the Prince Rupert Chamber of Commerce when offered for endorsement at Monday night's meeting.

One of the Kelowna resolutions expresses opposition towards any system of dual taxation by Dominion and province on personal and corporate income, urging Premier John Hart of British Columbia to reach a satisfactory financial agreement with Ottawa at the earliest possible date.

Another Kelowna resolution urges the increase of the exemption of married women from income tax, holding that the new regulation whereby husbands whose wives earn more than \$250 a year lose their married

status has had the effect of causing lack of essential labor in primary industries. The effect of this new regulation is to cause labor shortage in the fruit packing industry in the Okanagan and the fish packing industry on the coast.

The third resolution from Kelowna urged the provincial government to make a "considerable increase" in the physical education and recreational grant which now amounts to \$50,000 per year.

NEW TEXTILE PRESERVATIVE

ROCHELLE, N.J. — A new washable fibre made from nylon which will resist musing, moths, fungi, mildew and alkali should reach the market next year, a textile specialist told the American Association of Textile Chemists and Colorists here recently. Specialist Dr. L. L. Larson said the new fibre should have a "fundamental influence" on the textile industry. Now produced experimentally, the fibre combines dimensional stability with durability, and is both light and warm.

The Experts Say - -

By KAY REX
 Canadian Press Staff Writer
SUGAR AND BUTTER PROBLEM—Just about now mother watching the family savings of ration coupons dwindle before her eyes as she puts every extra bit of butter and sugar she can lay her hands on into the special goodies which go to brighten that Christmas season just around the corner.
 Plum puddings, mincemeat, and Christmas cake, probably already are underway as they must be given at least a month to "ripen." Good housekeepers claim ripening brings out the rich flavor of the spices, raisins, peel, nuts, brown sugar, and molasses.
 Some of those precious cake ingredients may be still in short supply this year, but for the most part many that haven't been seen since early in the war will re-appear. For instance a few choice walnuts from Manchuria will show on grocery shelves for the first time since 1939.
 This year such Christmas baking "musts" as spices, peel, dates, and so on have been removed from under the price ceiling, in accordance with the Prices Board policy of gradual decontrol where goods are in fair or plentiful supply.
SHORTBREAD — Lucky this season is the mother with a family of non-butter-eaters. It means so much more of that rationed ingredient may be put to holiday use—such as into the making of that favorite festive shortbread.
Short bread Ingredients: 1/2 pound butter; 1/2 cup icing sugar; 1/2 teaspoon vanilla; 2 1/2 cups pastry flour.
 Roll out thin and cut with small cutter. The recipe makes approximately six dozen cookies.
PLENTY OF CRANBERRIES—Whether your holiday menu announces turkey or chicken this year, nevertheless with cranberries in such plentiful supply there still will be plenty of sauce on the side.
 For a new cranberry sauce recipe try: four cups cranberries (one pound); two cups water; two cups sugar. Boil sugar and water five minutes and then add berries which first have been washed and examined. Boil five minutes without stirring and then boil five minutes longer, stirring slightly.
CARROT PUDDING—On the dessert side here is a well-tried recipe for Carrot Pudding guaranteed to top off your Christmas dinner on a high note.
 Carrot Pudding: 1 1/2 cups flour; 2 cups grated carrots; 1 cup currants; 1 cup suet; 1 cup potatoes; 1 teaspoon soda; 1/2 cup milk.
 Carrots, potatoes and suet should be well ground. The pudding must be allowed to steam two or three hours.

MRS. R. B. MORGAN PASSES AWAY

 City police Sergeant L. A. N. Potterton provided the entertainment feature at today's Rotary Club luncheon meeting. Sgt. Potterton showed colored films of the Kootenays and Burns Lake country.
