Morrison, 33, bludgeoned Const Borg, 66, fellow-worker to death and then climbed to the top of a 175-foot incinerator chimney where he placed a noose about his neck and leaped into the chimney, hanging himself. In reporting the murder-suicide, police said Borg's body was found at the base of the chimney. They said the possible motive for the murder was Borg's attempt to halt a previous suicide attempt by Morrison.

# Assails Trieste Treaty

PARIS (CP)—Foreign Minister Molotov of Russia assailed the Italian peace treaty draft plan for the future free state of Trieste as "undemocratic" and a means of keeping a strategic Adriatic area under British-American control. He said Trieste would be a semi-enemy supervised territory under the control of Anglo-American forces. Molotov claimed the presence of British and American forces in Trieste was responsible for present trouble. He called for the setting of a definite date for their withdrawal. It is reported here that this demand had been rejected by the two nations.

# Curfew In Palestine

Terrorists Spreading Land Mines on Main Roads  
JERUSALEM (CP)—British military authorities clamped a strict house curfew on Jerusalem suburbs and on two Jewish border settlements today after a mine explosion killed two soldiers and wounded an officer and two other occupants of an army truck. A possible attempt on the lives of Sir Alan Cunningham, British High Commissioner for Palestine, and other officials, was seen in the discovery of five unexploded mines on the road to government houses. An unsuccessful attempt was made by terrorists to blow up a troop train near Tel Aviv. A search by British soldiers uncovered caches of 84 land mines and arms.

# RUSSIA HAS EYE ON ISLANDS OFF FORMOSA COAST

WASHINGTON — The Russian plan to stake a claim to the highly important Ryukyu chain of islands between Japan and Formosa—among them Iriomote—was frankly anticipated in American diplomatic quarters. It was indicated the United States will oppose the expected move on the grounds the islands—if transferred from Japanese ownership at all—they should go to China.

GREECE WELCOMES RETURN OF KING—King George of the Hellenes is back in Athens and the palace staff is busy furnishing the royal palace for his use. The palace, overlooking Constitution Square, in Athens, is a modern, simple building, devoid of both historical or artistic interest. The interior, however, is being arranged in fitting style, as shown in this exclusive photo. Palace servants are shown carrying the king's portrait up the marble staircase to a reception room.

# THREE KILLED AND SCORES HURT IN LABOR TROUBLE

ROME (CP)—Demonstrating workmen, homeless war veterans and refugees fought police and troops for three hours today before the Viminale Palace, seat of Italy's government, and at least three persons were killed and scores were injured. Thousands of workmen from the public works department, due to be discharged Saturday, headed a throng of demonstrators estimated to number between 20,000 and 30,000.

# U. S. Merchandise Acutely Short

NEW YORK — A sharply-etched picture of shortages of meat, soap, sugar, toilet tissue and other key living items, worse in many instances than during the war days—was disclosed today in a survey of 50 United States cities. Forty cities reported little meat and an acute shortage of sugar. Reports were received of minor disturbances in a dash to capture scarce items in some areas. In Columbus, Ohio, some housewives were reported to be bribing a butcher with gifts.

# STATEHOOD FOR ALASKA VOTE LIKELY TO CARRY 2 TO 1

JUNEAU, Alaska (CP)—The capital city of Alaska endorsed a proposal for statehood for Alaska by a 7 to 6 margin in yesterday's election, while scattered returns from other sections indicated the proposal would carry by almost a 2 to 1 margin. # World Air Police Force Considered

WASHINGTON — A fleet of B-29 planes may be sent around the world by the United States Army in the next few weeks, a spokesman for the secretary of air office said. The department wishes to ascertain whether it is possible to equip and maintain an air force capable of carrying out assignments to any point in the world. Final approval for the project is uncertain as it is feared Russia might make propaganda capital of any such flight.

# BRITAIN TO TAKE CANADA'S BEEF

OTTAWA — Britain and Canada have signed a new beef contract providing for the purchase by Britain of a minimum of 120,000,000 pounds of Canadian beef in 1947 and a maximum of 120,000,000 pounds in 1948, the department of agriculture disclosed today.

# CABINS FLOOD AS VESSEL GROUNDS

STEWART — Creeping through a dense fog, the mail boat Catalyst, plying between Hyder and Ketchikan, went aground on the mud flats at the mouth of the Salmon River recently, flooding her staterooms on the rising tide, but suffering no other damage before she was pulled free. The Catalyst lay on the mud bank for more than 12 hours, in spite of repeated efforts of the crew to get her afloat. She finally was floated by the utility boat Rose Mary, owned by Gold Drop Mines, which put a line aboard the grounded vessel and pulled her from the clinging mud. The Catalyst operates a scheduled mail run between Ketchikan and Hyder. She is owned by McKay Transportation Co. of Ketchikan.

# MAY HAVE COLLAPSED

Jacobsen is said to have suffered heart trouble, and it is believed that he may have collapsed from the exertion of walking in the rough bushland. He was sought by his three partners for three days before Gunderson was able to bring word here of his disappearance. A storm on Saturday and Sunday made a voyage to Prince Rupert impossible for Gunderson's small boat Gopher. Tuesday afternoon a Queen Charlotte Airlines seaplane piloted by Ken McQuaig, made a two-hour search of the area but saw no sign of the missing man.

### FILM BOARD PICTURES ARE FORUM BASIS

A dozen National Film Board films of a new series have arrived in Prince Rupert for use as basic for film forums and the pictures will be shown in the Civic Centre at weekly intervals, beginning Thursday night. Preview of the films was held last night and was attended by representatives of several city organizations.

The films are being handled by M. J. Harper, chairman of the Junior Chamber of Commerce film committee, and will be loaned to interested organizations for instructional and educational use.

Following the Civic Centre showings, film forums will be held during which the topics or ideas inspired by them will be discussed.

According to Mr. Harper, the important factors in making a film worth while are:

1. A film that gives concrete information
2. A new stand on the subject, and impetus to learn more and do something about it.
3. To hear various points of view, and to have the opportunity to express an opinion.
4. Contributes to making people think.

### WEDDING DAY HONORS PARENTS

Choosing the 37th wedding anniversary of her parents, Mr. and Mrs. David E. Murphy, Winnipeg, Man., and formerly of Prince Rupert, for her own wedding day, Miss Marie Helen Louise Murphy became the bride of Albert Joseph (Mike) Kelpin, youngest son of Mr. and Mrs. Charles P. Kelpin, 1116 Princess Avenue, Victoria, on September 26. Vases of white chrysanthemums and tall standard baskets of delicate pink gladioli and chrysanthemums decorated St. Andrew's Cathedral for the ceremony.

Entering the church with her father, the bride wore a pearl white satin gown, fashioned with sheer net yoke outlined in satin roses, short sleeves, complemented with satin cuffs, ending in lily points over the wrists, fitted bodice and full skirt, slightly in train. Her veil of French illusion net was held by a scalloped headband, and she carried an ivory prayerbook with ribbon markers tied with pink moss rosebuds.

Her only attendant, Mrs. George Patt, was maid of honor in a gown of turquoise crepe with tiny hat of rose color, trimmed with matching ostrich plumes. She carried a rose ostrich plume fan banked with sweetheart roses.

G. W. LaCroix was groomsmen and Jack Maltman, Hugh F. Russell of Vancouver and George Patt were ushers.

Following the marriage vows, a nuptial mass was celebrated by Father Roland Roberts of Vancouver, during which Schubert's "Ave Maria" and Caesar Franck's "Panis Angelicus" were sung.

Mrs. Murphy and Mrs. Kelpin assisted the bridal party in welcoming guests at a reception held in the lounge of the nurses' residence, St. Joseph's Hospital. The bride's table was centred

### Her Majesty Takes Helm on Elizabeth

REENOCK RENFREW, Scotland, ♀—Queen Elizabeth Tuesday took the wheel for a few minutes aboard her namesake liner, Queen Elizabeth, as the 83,000-ton vessel did better than 30 knots in speed trials preparatory to returning to the Atlantic as a luxury liner.

with a three-tier wedding cake flanked with ivory tapers and decorated with white swansonia and double pink heather.

G. W. LaCroix proposed the bride's toast and J. Webb of Vancouver proposed a toast to Mr. and Mrs. Murphy.

A honeymoon will be spent at points on the island. Mrs. Kelpin changed her wedding costume for a brown two-piece dress of silk faille, chic brown hat with white wine feather quill trim, chocolate brown accessories and a rose beige topcoat with light lynx collar. A corsage bouquet of Talisman roses completed her costume.

The young couple have taken up residence in Victoria. The bride is a graduate of St. Joseph's Hospital.

### City Pipes Water Across 350 Miles

KALGOORLIE, Aust. ♀—This West Australia city of 12,000 inhabitants, built around the richest goldfield in Australia, has its water supply pumped through a pipeline 350 miles long from the Mundaring Reservoir near Perth, west of Kalgoorlie.

The pipeline is the longest in Australia, and the scheme the most outstanding water conservation project in the Commonwealth.

The goldfields city is dependent entirely upon the pipeline for water. It is just on the fringe of some of the most arid desert areas in Australia, and natural water sources are negligible. Rainfall averages only 10 inches a year, and there are no rivers from which the city could draw water.

The pipeline provides Kalgoorlie with 5,000,000 gallons of water a day, pumped through eight stations, and delivered at a level of 1,290 feet above the reservoir. It is a steel pipeline with a diameter of 30 inches. The project cost nearly \$20,000,000 to build.

## DONATE MONEY FOR RESEARCH

A sum of \$6,126, representing the unexpended funds of the British Columbia Salt Fish Board have been donated to the British Columbia Research Council for research in fisheries, it is announced jointly by Leslie H. Eyres, chairman of the council and newly appointed commissioner of fisheries, and Hugh Dalton, ex-chairman of the Salt Fish Board.

Under conditions of the donation, funds will be used for investigation of markets and market extension work in connection with dried salt herring or such other fisheries research as may be recommended by the council's technical advisory committee on fisheries.

### RESEARCH CO-OPERATION

Commenting on the donation, Mr. Dalton stated that this was another example of how industrial groups in the province were co-operating with the British Columbia Research Council in order to implement a research program for the benefit of particular industries.

### OF GREAT BENEFIT

Mr. Dalton stated this was the most practical application to which the unexpended funds could be put and felt sure that results from the council's research would be of great benefit to the fishing industry.

## TINY STEEL BALLS, 7,000 TO OUNCE, WORTH FOUR TIMES THAT OF GOLD

PHILADELPHIA — High-precision steel balls half the size of a pinhead and four times more valuable than gold are being produced now for industry. It was announced by Richard H. He said the minuscule balls, 1-millimeter in diameter, were designed especially for new-type fountain pens, but that they also will be available for delicate instrument bearings and other applications.

### 54,000,000 Bushels Of Wheat For Sask.

REGINA—Wheat production in Saskatchewan is expected to total 216 million bushels this fall, an increase of 54 million bushels over 1945. Oat production is estimated at 126 million bushels, down 17 millions from last year; barley, 49 millions, down five millions; rye, 3,688,000, up 1,068,000; flax, 4,050,000, up 250,000.

Cutting of wheat and coarse grains up to the week ended Sept. 21 was nearing completion in southeastern, Regina-Weyburn and east-central districts and only 15 per cent to 20 per cent remained to be cut in other districts. Taking the province as a whole, 87 per cent of the wheat and coarse grains and 26 per cent of the flax acreages have been cut.

Wheat yields are turning out fairly well in the eastern half of the province, on the heavy land in the west-central districts and in the extreme north-west areas; elsewhere the out-turns are only fair to poor. About 15 per cent of the threshed grain is grading No. 1 Northern and 61 per cent Nos. 2 and 3.

## KEEP LABOR FREE OF POLITICS TO MAINTAIN PEACE

WINNIPEG — Political interest must be separated from labor-management disputes if industrial peace is to be permanently restored, H. Grenville Smith of Montreal told the annual meeting of the Canadian Chamber of Commerce today.

### HITS TAX POLICIES

At the opening session Tuesday, the chamber heard sharp criticism of federal tax policies by C. Gordon Brodie, Vancouver, who declared Finance Minister J. L. Isley's budget last June was "so discouraging there was no incentive whatsoever for private enterprise to proceed with expansion."

Today Smith warned against permitting unions to usurp too much authority, contending the right of the employee to determine whether or not he wished to affiliate himself with any labor organization.

### "PSEUDO PROSPERITY"

In his presidential address, C. Gordon Coekshutt of Brantford said Canada must increase production in order to stem the trend toward "pseudo prosperity" of the post-war period.

### "I fought off a pack of hungry shoppers to bag this package of crisp, crunchy, delicious Grape-Nuts Flakes!"

"Bravo, Sir Archibald! And I'd believe you if you said you fought through a jungle full of lions for that malty-rich, sweet-as-a-nut flavor of Post's Grape-Nuts Flakes!"

"And of course, Gentlemen, we must remember that Grape-Nuts Flakes are not only marvellously delicious—they supply carbohydrates for energy; proteins for muscle; phosphorus for teeth and bones; iron for the blood; and other food essentials."

"Those two golden grains wheat and malted barley are combined in Grape-Nuts Flakes. They're specially blended, baked and toasted for flavor, crispness, easy digestion."

"Let us repair to the breakfast room and shoot a giant economy package."

**Chile Orders 250 Buses in Canada**  
MONTREAL—A British United Press dispatch from Chile quoted the Chilean Development Corp. as saying it had accepted a bid from a Canadian firm to supply 250 trolley buses. Delivery of 20 a month is to begin in mid-1947.  
An official of the Canadian Car & Foundry here said he did not believe his was the company referred to, although it had been reported that Canadian Car had been negotiating with Chile on buses. Early last week Canadian Car had not received official notification that any bid it may have tendered had been accepted.

**ENGLISH CHILDREN OFF ON SWISS VACATION**—Children from Birmingham and Coventry, England, who have more than their share of the ordeals of war smile again as they leave London for a vacation in Switzerland. The children, 130 of them, were housed overnight in an air raid shelter in London. This shelter has been converted into a hostel for "stayovers" in the capital. The vacation was arranged under an agreement between the children's welfare section of the Swiss Red Cross and the British ministry of education.

**URGING TO PURCHASE BONDS**  
MONTREAL—"Let us, the largest group of industrial workers in Canada, set the pace for the rest of the country," said R. C. Vaughan, C.M.G., chairman and president of the Canadian National Railways, in a circular addressed to all officers and employees of the system.  
He solicited their support in the Canadian savings bond issue. "There will be no patriotic call, no mass meetings, no objective to meet," the C.N.R. president's message said.  
**CONVENIENT SAVING**  
"You may go on saving in the convenient way you learned during the war and every employee of the Canadian National will be given an opportunity to subscribe."  
Mr. Vaughan congratulated the railways' employees on their response during the war to the Victory Loans in which they subscribed more than \$93,000,000 and pointed out that the new loan actually acknowledges the requests of eight out of ten Canadians who in a nation-wide poll declared their wish for the continuation of the government's saving plan in peacetime.

"If we, through indifference and laziness, do not face up to our personal obligations, if we return to the slots of the past, God help Canada," concluded Cockshutt. "We can govern our own destinies and assist the less favored nations of the world through individual cooperation in the contact between Canada and west, north and east, labor, farmers and business."
