# Conterence government on Proposed

This Is Proposed by Byrnes to Consider Peace Treaties

PARIS (CP) - State Secretary Byrnes of the United States was said by a British informant today to have proposed to the foreign ministers' conference that a 21nation conference be held in Paris beginning June 15 to discuss the European peace treaties.

The informant said that it was conceded that the foreign ministers of Britain, Russia, France and the United States could not agree at the present conference.

There was no immediate acceptance of Byines' proposal but the other three foreign ministers were said to have accepted another Byrnes proposal that their deputies draw up a list of points on which they have agreed, and another on which they have disagreed.

It was conceded that the lists would show the United States and Britain opposed to Russia on every point with France sometimes siding with Britain and the United States and occasionally taking a position halfway between that of the western allies and the Russians.

It was reported that the foreign ministers would break up and go home after the next meeting on Thursday.

# Prince George to Bering Strait by Railway Line

SEATTLE (CP)—A wartime survey for a railway line between Prince George and Teller, Alaska, which would make possible rail shipments to a port within sight of the Russian-Siberian coastline was disclosed today by the Seattle district office of the United States Army engineers.

Previously, reports have been made on the survey for a rail line of 1,440 miles between Prince George and Fairbranks but the engineers said that this was the first announcement of the 730-mile survey from Fairbanks to Teller.

Plans for the railway included the proposed construction of a large port at Teller for the transshipment of goods across the strait to an extension of the trans-Siberian railway.

# COMMONS FAVOR First Anniversary of LOAN TO BRITAIN Official Declaration Sees Shattered World

By JOHN M. HIGHTOWER Associated Press Diplomatic Reporter

The world observed the first anniversary of Victory in Europe today without war anywhere but also without peace. In fact, the best estimate of diplomatic authorities in Washington is that it may be several years before real conditions of peace are restored among the countries of the world. Prospects even for this, they say, have been darkened by evident failure of the foreign ministers' conference in Paris to make progress on European peace settlements.

### Egypt

There were, of course, important changes to be made under the revision of the Anglo-Egyptian treaty of 1936 and possibly the order for the withdrawal of all British armed forces may not be considered so drastic after all in spite of the

Churchillian fuss and feathers.

Because British forces have been maintained in Egypt for many years is no reason why they should be kept there in perpetuity. Egypt is one of the countries which, while it may lack military security, seems to have proven capability of governing itself autonomously.

The British Labor government, in this as well as other actions of late, has been exhibiting an attitude of compromise and tractibility which, if adopted by some of the other nations, might more quickly lead to the condition of liberty, peace and security which is democracy's goal in the world. The safety of Suez may be protected by the proposed mutual assistance pact.
