No Hint Strike Off

Negotiations Are Still Continuing Under Guidance of Chief Justice

VANCOUVER, (CP) — Negotiations in the nine-day old strike of 32,000 coastal lumber workers today entered the third day under the chairmanship of Chief Justice Gordon Sloan with no hint of any settlement which would send them and another 4,000 laborers in British Columbia back to work.

Representatives of logging and sawmill workers and operators continued discussions over the union's demands for an 18 cent hourly wage boost, 40-hour week and union security for coastal district workers.

There was no sign of any progress towards settlement of the strike by workers in northern and central interior districts.

Booked for Slaying Of Six Persons

LOS ANGELES (AP) — Ralph P. Bauman, aged 21, was booked on suspicion of murder today after questioning in connection with the slaying of six persons recently in the Texarkana area of Texas.

Strike Is Orderly At Pr. George

A chance is being offered small operators to sign up today with the union so they may continue their operations.

The strike call-out was made to 20 certified operations engaging a reputed 1000 union workers in the district which gives direct work to 4,500 men and provides a further 3,000 with subsidiary employment. Of the 200 operations, 60 are within 35 miles of this city.

Union leaders declared they looked for no violence. "We did everything within our power to get the conditions necessary for this area," declared Range. He pointed to rising costs of living.

The big operations came out promptly yesterday, Range continued. Smaller ones had to be persuaded as the industry must be completely tied up.

Range hinted that fellow-unionists would assist the strike by viewing lumber shipments from here as "hot" cargoes.

"No lumber will move out of this northern country," he emphasized. We are not looking for violence, he assured.

Range urged unionists to stay in camp, maintain orderly conduct and observe picketing.

At last night's union rally H. Ekblad of nearby Giscome, president of Local 1,424, I. W. A., reported most operations had shut down on schedule.

Freyling declared "Our protest is not only against local operators but is against the government and the Canadian Manufacturers Association." He accused the government of failing to realize and to make provision for our demands.

He appealed to Prince George citizens to provide accommodation in their homes for unionists coming in from mills and camps.

IMPRESSED BY CIVIC CENTRE

"The people of Prince Rupert are among the most fortunate in British Columbia in having this magnificent community building, the like of which I cannot remember having seen anywhere in British Columbia," H. G. Perry, former minister of education, told the Gyo Club at luncheon yesterday when called upon for an impromptu talk following an inspection of the building in the cafeteria of which the service club assembled for the first time, enjoying a splendid cold meal appropriate to the warm early summer day which was prepared under the direction of Mrs. Philip M. Ray. "I certainly hope that you will be able to arrange to meet your operating expenses. I can see here a unique opportunity for you people to render a wonderful service to adults but more especially to the young people in interesting recreational and cultural activities and to play a great part in the betterment of the life of the community."

Speaking both for himself and for the Prince Rupert Daily News, of which he is president, Mr. Perry promised that anything that could be done to further the development of the civic centre would be gladly done.

Mr. Perry, who, as minister of education, helped to initiate the revival of organized recreation and physical education at Prince Rupert last year by arranging the first provincial government grant of \$50 per month.

Mr. Perry spoke after hearing an initiation ceremony by Dr. R. G. Large when two new members—Robert McKay and Allan Armstrong—were formally inducted.

Operators, with some seven or eight men, were loading poles on trucks near Kitsumalum Lake when some 30 or 35 picketers proceeded to unload the poles. One truckload was thrown back on the ground while the contents of the second truck were placed back on the skidway.

Police officers took the names of the picketers but there was no further action at the time.

Transportation Tie-Up Menaces United States

WASHINGTON, D.C. (CP) — The answer as to whether railroads of the United States would be tied up by strike rested this afternoon on the outcome of eleventh-hour conferences at the White House. President Truman met with heads of the two Brotherhoods after which representatives of the railway companies

FRANCHISE PLEA BEING HEARD

A hearing of the city's application for approval of its proposed agreement to allow Black and White Transportation Co. an exclusive bus franchise in the city was begun before the B. C. Public Utilities Commission this morning in the City Hall. Opposing the application are the trustees of Arrow Bus Lines, which operates a city bus line without franchise at present.

Arguments were heard this morning by Dr. W. A. Carrothers, commission chairman, and Commissioners J. G. McDonald and R. M. Taylor from T. N. Youngs, trustee for the estate of R. L. Griffiths, former Arrow Bus Line operator, and from City Clerk H. D. Thain, who appeared for the city.

The hearing is continuing this afternoon.

Seeking approval of the city's plan to grant a five-year franchise to Charles Pustak, Neil McDonald and Stewart Johnston, Black and White operators, Mr. Thain outlined the background which had led up to the signing of the agreement. The matter had risen originally, he said, with the application of Arrow Bus Lines for a franchise. Later the city called for bids, favoring one by Pustak, McDonald and Johnston which offered an increase in bus service and a contribution to the city of seven per cent of the gross receipts of the company.

Mr. Thain read the proposed agreement, signed by the Black and White partners, which is subject not only to approval by the commission, but also to approval of a plebiscite of ratepayers.

It includes provision for a \$1,500 bond by the company, contribution of seven per cent of the company's gross receipts to the city; establishment of a permanent arbitration board, and reduction in bus fares.

Alderman Robert McKay, chairman of the civic committee which investigated the tenders for a bus franchise, said that "all tenders were gone into thoroughly and we believe we decided in the best interests of the city when we recommended the Black and White tender."

Alderman T. N. Youngs, trustee for Arrow Bus Lines, charged that the city had paid no attention to an offer by his bus line that "Arrow Bus Lines would pay any license that the city deemed necessary to impose."

He asserted that the payment of seven per cent of the company's gross receipts was "ill advised" and labelled it an "unfair tax."

"If the receipts are sufficiently high, then the fare structure should be revised and reduced, thus giving the saving directly to the passengers," he declared.

In reply to Alderman Young's submission that "Arrow Bus Lines would pay any license that the city deemed necessary to impose," Mr. Thain said that "the maximum fee chargeable as licenses by the city were \$10 per six months period per bus—just double the present license cost."

An effort by T. W. Brown, counsel for Black and White Transportation Co., to have the profits of Arrow Bus Lines introduced as evidence, was denied by Chairman Carrothers as irrelevant.

Strike On Local Fish Is Affected

The United States railway strike commenced this afternoon, local C.N.R. offices were advised. Twelve cars of halibut for United States are in transit. What disposition will be made of this fish is not known but it is definite it will not be handled by American railroads. Four cars of fish prepared for shipment today are being held for new instruction.

Threaten Fisheries

WASHINGTON, D.C. (CP) — Congressmen from fish-producing states, particularly New England, sought today means of averting what they term a growing threat to the domestic fishing industry representing in vestments of \$521,540,000. They presented to Undersecretary of State Acheson figures showing imports of fresh and frozen filets from Canada, Newfoundland, Iceland and Labrador had increased more than 450 percent from 9,426,285 pounds in 1939 to 43,169,000 pounds in 1945.

For the first three months of 1946, the rise over the same period in 1945 has been sixty-three percent.

House of Representatives members said that, unless some immediate steps were taken to curb mounting imports, the United States fisheries along the Atlantic, Pacific, Gulf and Lake Coasts would soon be put out of business.

Want of confidence was voted in the government as a result of its handling of price stabilization.

CHANGCHUN RECAPTURED

NANKING, (CP) — The central Nationalist government announced today that national troops had formally recaptured Changchun, capital of Manchuria, after having engaged "Communist remnants remaining in the city in sporadic fighting."

The Communists had seized Changchun in mid-April. They had been seen withdrawing from there yesterday.

There is no immediate indication as to why the Communists had left.

VICTORIA DAY

TOMORROW Canada celebrates the 127th anniversary of Queen Victoria's birth — first full-dress Victoria Day since its removal from the list of statutory holidays in 1942.

The Turkish ambassador at Queen Victoria's coronation in 1838 who is said to have stood amazed, muttering "all this for a woman!" would have marvelled even more had he lived to see the birthday of the "Good Queen" marked as a national holiday more than 100 years later in a dominion thousands of miles away.

The birthday was observed for the first time in Canada in 1838 under inauspicious circumstances as some militia units paraded in their drill grounds while others patrolled the United States border to guard against raids from New York state by sympathizers of the exiled William Lyon Mackenzie whose rebellion had been crushed six months before.

Canada alone in the British Empire honors the day as a separate public holiday in honor of Victoria. In other dominions and colonies and in Britain itself it is merged with Empire Day, which also originated in Canada and is celebrated here on the school day immediately preceding the 24th.

It was just 75 years ago tomorrow in Beaverton, Ont., that a neatly-dressed school choir, gathered to celebrate the queen's 52nd birthday, sang a patriotic song composed by their teacher for the occasion. The song, "The Maple Leaf Forever," by Alexander Muir has been sung in thousands of schools since and has won recognition as a Canadian national song second only to "O Canada."

Victoria Day was not recognized as an official holiday until after the queen's death in 1901, when Parliament passed a motion by Sir Wilfrid Laurier that May 24 be designated as an annual holiday to commemorate the late queen. In 1906 it appeared in the Revised Status of Canada under the official designation of Victoria Day.

CITY SCHOOLS OBSERVE EMPIRE DAY WITH I.O.D.E.

More than 1,000 elementary and high school students observed Empire Day today at gatherings sponsored by the I.O.D.E. at which they heard speakers emphasize the past glory and modern significance of the British Commonwealth and Empire, and at which they took part in patriotic exercises and drills as school classroom units.

At a gathering of elementary school pupils in the Capitol Theatre at 10 o'clock this morning, more than 600 children heard Bishop J. B. Gibson deliver an address in which he pointed out the nobility of patriotism, not only to Canada, but to the family of British-inspired nations of which it is a part—the Commonwealth. Representing the city at the same gathering was Alderman Nora E. Arnold, who also spoke.

Mayor Mel Thompson of Teen Town and members of the Teen Town aldermanic board took part in the afternoon function.

Bishop Gibson, in the address of the day referred to the great British inheritance of liberty and justice. All the people of the British Commonwealth were joined together under the King in invisible but indivisible bonds of unity. "What are you going to do with your great inheritance of Empire and Dominion?" the Bishop asked the children. He urged them to be loyal, truthful, honest and faithful to high ideals.

Mrs. Stuart appealed to the fortunate children of Canada to think of the starving millions of boys and girls in the world and do anything in their power to help them. Thus would peace be won as had been the victory of arms.

THE RIGHT TO CHOOSE

THAT Englishman's much-vaunted personal liberty is in as much danger today as when Hitler's armies were poised across the channel, is the opinion of some thinking Britons. St. John Ervine, distinguished playwright, put the threat of nationalization in this picturesque language to a mass demonstration in London:

"These are times when the Englishman's home, which was once his castle, is in danger of becoming his concentration camp. I fully expect every morning to find in the paper news that some citizen has been arrested because he was found in possession of private property. If the Wise Virgins were alive today they would be arrested for hoarding petrol and their lamps would be confiscated and given to the Foolish Virgins.

"Sometimes I think, when I survey my country and look at the queer things it is doing, that we are all like a pack of greyhounds running after a faked hare which we have not any hope of catching, and if we could catch it, it would not be worth catching.

"If I were asked to say what liberty is, I would say shortly it is the right of choice—to make a choice. If I cannot choose whether I shall stay here or go there, but must be directed there or directed to stay here, I am a slave.

"A slave is a very secure person, but he has no rights. The safest, the most carefully guarded, the securest people in this city today are in Wormwood Scrubs. They are well looked after; they are given free meals, not any worse than those we get outside. They are given improving literature, literature carefully chosen for them. They are doctored; they are clothed and they are housed. Strong and able-bodied men are so determined to take care of them that they carry rifles. They are absolutely secure, but they are in jail, and that is the fate which is being prepared for you by the people in power."

MODERN SAILING SHIP DUREBAN, South Africa, ☉—A recent showpiece in Durban harbor was the Swedish sailing ship Albatross, most modern vessel of its type afloat. The four-master, now being used as a training ship, has a wireless telephone with a range of more than 2,000 miles, and the crew is charged 65 cents a minute to call up relatives ashore.

SHOCKED BY CEMETERY

Visitor Wonders Why Something is Not Done About it

"Your cemetery is certainly in a deplorable condition and I wonder that your Board of Trade or service clubs do not try to get something done about it," says Russell Smith, sales manager of Westminster Cannery, who is visiting the city on business. Mr. Smith is a son of the late Mr. and Mrs. John Frederick Smith who lived in Prince Rupert a quarter of a century ago. His mother died here in February 1921 and was interred at Fairview Cemetery. Mr. Smith, when he went to the cemetery to make arrangements for the reconditioning of the grave, was shocked to observe the dilapidated condition of the cemetery. Mr. Smith's father was clerk at the Prince Rupert Hotel here and died in New Westminster in 1922.

You MAY NEVER SELL GAS TO U. S. TOURISTS
but...
CANADA'S TOURIST BUSINESS IS YOUR BUSINESS TOO...

THE MONEY SPENT by American tourists flows to you—to every Canadian. Last year alone the revenue from the tourist traffic amounted to more than one hundred and sixty million dollars. Think of what that extra income meant—filtering directly or indirectly into every community. Think, too, to what proportions this tourist industry will grow in the years to come if this summer, in spite of prevailing difficulties, we make our American guests truly welcome. Let's send them home singing the praises of Canada as a holiday land and of us as a friendly, neighbourly people.

Here's what we're telling OUR GOOD NEIGHBOURS... Your Canadian Travel Bureau, formed to protect and promote your interests in Canada's tourist industry, is running advertising in leading U.S. newspapers reminding American readers of the beauty and diversity of Canada's tourist attractions. At the same time it is tactfully reminding them that in view of travel and accommodation difficulties this summer, they will be wise to make reservations ahead.

Give them a friendly CANADIAN welcome!

THAT first green shoot in the spring is a Big Event in Mr. McTrowell's life because he makes his living growing vegetables. And the earlier he gets them to market the higher the price he'll receive.

Mr. McTrowell knows the answer to that one too. He borrows the money from the Royal Bank. He has learned that bank credit is a useful "tool" in his business

... just as much as a spade or hoe. He could hardly operate without it.

Flowers that bloom in your Dreams

Do you ever see images of flowers in your dreams? The oracles say these flowers have these meanings:

DANDELIONS ♦ —happy unions
ROSES ♦ —long life
TULIPS ♦ —abundance

If you must dream, say it with flowers! But why not sleep soundly every night? Dreaming may result from over-stimulated nerves. They may come from the caffeine in tea and coffee.

Drink Postum! It's the beverage with a full-bodied flavor all its own! Caffeine-free—contains nothing that can upset nerves or stomach. You make it right in the cup, with boiling water or hot milk. Enjoyable at any hour! Costs less than a cent a serving! The beverage for the whole family!

SHORT SPORT

Captain Robert C. (Bobby) Petre, 33-year-old Scots guard officer who piloted Lovely Cottage to an upset victory in the Grand National steeplechase this year, has decided to turn professional. In an interview at Tunworth, Hampshire, he said he would apply for a licence as a trainer under National Hunt rules for next year. "I also intend to continue riding, but as a professional trainer I should not be allowed to ride as an amateur. I shall therefore apply for a licence as a professional rider."

Although hundreds of wagers were laid on Derby County to win the English football cup, some backers lost their money. Many bookmakers stipulated 90 minutes' play and at the end of regulation time, the score was tied 1-1 with Charlton Athletic. Therefore, as bookmakers declare, Derby did not win in 90 minutes and the "punters" are losers.

Leslie Barry, 40-year-old professional, has been chosen to captain Leicestershire county cricket club this season. He is the county's opening batsman and scored more than 1,000 runs in each season from 1933 to the outbreak of war.

MADE GOOD IMPRESSION

Gus Lesnevich Such a Terror That He Scares Sparring Partners Away

LONDON, — Lightweight champion Gus Lesnevich made quite an impression on British boxing fans and sports writers when he stopped England's Freddie Mills in 10 rounds at Harringay Arena here.

Geoffrey Simpson, sports writer of the London Daily Mail, who spent a day in the American's training camp at Brighton shortly before the fight said the American was "such a terror in the gym that he scares sparring partners away." Only two of four boxers engaged to box with Gus turned up one day and one ended up on his knees with the wind knocked out of him.

About his boxing, Simpson says: "Lesnevich is a grand boxer, with a neat, close style and as good a left jab as any student of English boxing could wish to see. He shoots it out straight and true and lands—hard—with the knuckles.

"He can also shorten and turn the punch into a hook, so that any boxer who tries to rush him is likely to find trouble."

"I got the impression that Lesnevich is a worthy champion of America and possibly of the world."

Q. How can I brighten and sharpen the knives of the food chopper?

Q. How can I brighten gold chains or similar articles?

A. Dip them in a solution of one part ammonia to three parts of water.

Q. How can I remove a screw that has rusted into the wood?

A. By placing a hot iron on its head. Use the screwdriver while the head is still hot.

LOCAL RED CROSS BRANCH DID GREAT WORK DURING WAR YEARS

After achieving a record of wartime and post-war voluntary production which would have done credit to a group of highly paid workers, the workroom of the Prince Rupert branch of the Red Cross Society closed its doors last week. Rightfully secure were its workers in the feeling of a job well done.

Although no individual in the city apparently is able to supply the total number of garments which the Red Cross ladies produced with their busy knitting and sewing needles since the workroom opened late in 1939, it is safe to say that it would constitute a mountain containing scores of thousands of articles.

Only annual record available from Red Cross secretary Harry

Breen was for 1941 which, according to Mr. Breen, can be considered fairly representative of the work accomplished by the ladies in the later years. That year, Red Cross work groups turned out the huge total of 9,283 garments, knitted and sewn, for the armed services and civilian war relief.

Produced Over 50,000 Articles
Considering that an equal amount was turned out from the workroom and by auxiliary Red Cross groups in subsequent years, it would suggest a total of more than 50,000 articles. Value of this work has been set to the neighborhood of \$100,000.

However, the dollar and cents value of their handiwork meant little to the ladies whose contributions of time and labor were aimed primarily and relieving distress and creating comfort for servicemen and war-struck civilians during the war's dark days.

Prince Rupert embarked in support of the Red Cross early in the war—11 days, to be exact, after Canada declared a

state of war with Germany. The first meeting of the groups was held in the office of Commissioner Alder in the city hall on September 21, 1939 with 10 members present. Following a second meeting three weeks later, efforts were made to find suitable quarters for a work room. On October 27, the organization decided to use a building at the corner of Sixth Street and Second Avenue as a workroom.

Tag days, dances and other activities were undertaken to raise funds to buy equipment and furniture for the room and, as soon as order was created, the ladies contacted Col. S. D. Johnston regarding comforts needed by the local troops which he commanded.

This policy of supplying comforts to troops stationed in the area was continued throughout the war, and committees regularly visited the service hospitals, carrying cigarettes, chocolates and other comforts to the men.

As in all organizations, there was in the workroom group a number of ladies whose faithful service began at the first, and continued throughout, or until circumstances made it impossible for them to take part. Among these was Mrs. C. H. Elkins who took a leading part during the six years that the workroom was in op-

eration and whose personality and efforts did much to hold it together. Other faithful workers were Mrs. Wearmouth, who, although she lived across the harbor, came to the city scores of times in bad weather and good to contribute. Mrs. Wearmouth did much of the secretarial work. There was Mrs. R. J. D. Smith, who had charge of sewing. Mrs. E. J. Fitzpatrick, who led the Catholic ladies' group, and Mrs. Alex McKee, who directed the preparation of surgical dressings.

Workroom conveners over the years were Mrs. Eve, who was also responsible for organizing the Wartime Housing group, Mrs. J. D. Fraser, Mrs. F. A. McCallum, Mrs. J. D. Low, Mrs. R. M. Winslow, Mrs. C. H. Elkins, Mrs. Jessie Jacobs, Mrs. James Gillett and Mrs. Finnie.

Mrs. Gillett and Mrs. Finnie were in charge of the examination of knitted goods for three years. Branches of the workroom were organized in different sections of the city. There was the Wartime Housing unit, organized by Mrs. W. F. Eve, and led by Mrs. Robert Cameron, Baptist Anglican and Lutheran groups. St. Peter's evening branch, the Good Neighbor, Eden and Catholic groups.

Port Simpson and Massett Helped
There were two native groups in outlying centres, whose work was cleared through the Prince Rupert depot. The Port Simpson group specialized in knitted seamen's socks while the Massett group drew high commendation. Incidentally, the Massett group is still carrying on.

Outstanding work in quilt making was done by Mrs. J. Fred Ritchie of Prince Rupert, who worked with the Catholic group.

In the dark days following Pearl Harbor, \$20,000 worth of emergency hospital disaster and relief supplies were sent to Prince Rupert under the care of the local Red Cross branch. Fortunately they were never required to be used, and have since been sent back to provincial headquarters.

A notable effort by the Red Cross here was the salvage campaign which was carried on under the chairmanship of P. C. Miller, who gave large amounts of his time to collection, sorting and shipping. With a collection centre in the basement of the Helgerson Block, the Red Cross sent large quantities of salvage material to Vancouver, often by

**Luxury Fittings
In Cheap Houses**

LONDON. — Ten housewives who rented government experimental homes at Lee Green, southeast London, are able to regulate the temperature by pressing a switch.

Rented at \$4.50 a week, the two-storey houses are prefabricated dwellings but have all the fittings normally found only in luxury flats in Britain.

The front hall opens into a lounge-dining room with windows at either end and a big dining alcove, serves directly from the kitchen through an opening in the wall. The cutlery drawer opens in either kitchen or dining room.

In the kitchen a neat, enamel coal boiler provides constant hot water and central heating in winter. In summer an elec-

trict water heater serves instead.

The boiler is raked twice daily and one bucket of anthracite keeps it going 24 hours.

Mrs. J. L. Kingsley who, with her husband and two daughters, moved into one of the new "prefabs" last March, said it costs them \$2.75 a week less than the inconvenient smaller home they left in south London.

The new houses cost \$3,825 to build and take 600 hours to erect with semi-skilled and skilled labor. The government has 2,400 on order.

SEVENTIETH BIRTHDAY
FRANCOIS LAKE—One of the Lakes Country's best known characters, Barney Mulvaney, celebrated his seventieth birthday on May 17. He is still vigorous and takes an active part in community affairs.

LONDON. — All clocks on the London, Midland, Scottish and London North Eastern Railways now show correct time. The practice was to keep clocks outside the stations two or three minutes fast, to hasten tardy travellers.

Aussie Legislators Strong On Metaphors

CANBERRA, (AP) — Metaphors ran wild in the Australian House of Representatives one day recently during debates on housing and the price of ice cream. Housing Minister H. P. Lazarini—"Housing is a political football which the opposition is trying to kick around the coun-

try to catch a few more votes... They will find it is a cock that won't fight at the elections."

Country Party Leader Arthur Padden—"I am prepared to table the letters on the floor of the House."

Labor Member H. C. Barnard from Tasmania—"The ice cream company is robbing the kids to feed the fatted calf."

SEA CADETS ARE LAUDED

Inspecting Officer is Well Pleased with Local Corps

"I want to take the opportunity to congratulate you all on your showing tonight. Your neat appearance and smart drill would be a credit to any unit." So said Lieutenant-Commander H. Grant, R.C.N. (R), at the conclusion of the annual inspection of the Captain Cook Corps of the Royal Canadian Sea Cadets last evening in the Navy Drill Hall.

The schedule had begun with the inspection of the corps in the hall. The guard with rifles, the divisions, the wrennettes, the band, had all been closely inspected. Then followed the march past, the reviewing officer taking his stand on the Court House steps, accompanied by Lieutenant-Commander Eddy and Lieutenant A. S. Mitchell, officer commanding the local corps. The later stages of the inspection included observation

of groups taking seamanship, boat pulling and sailing, lead and line; a squad on the rifle range under Instructor Theo M. Fortune, signalling including semaphore and wireless, and the band. Also included was a showing of moving pictures with the assistance of M. R. Harper, the films being one on anchors and cables and a health one on "Water, Friend or Enemy," a Walt Disney production.

There was a large number of parents and friends with quite a good number of ex-sea cadets on hand. The showing of the corps was very impressive steady on parade and smart in their movements. Commander Grant referred especially to the wrennettes division. The wrens had established a splendid record during the recent war and the local Wrennettes were certainly upholding that fine record. The marching, counter-marching and playing of the bugle band were exceptionally good. He hoped that all cadets would be able to attend the camp to be held at Gambier Island. This camp belonged to the Sea Cadet Corps and, speaking from his own experience, he was sure there could be no finer one. He looked forward to seeing the "Prince Rupert Cadet Corps" doing very well at camp and hoped that they would be able to show interior units how boats should be rowed or sailed.

In charge of the corps under their commanding officer Lieutenant A. S. Mitchell were Lieutenant E. John Wilson, executive officer, Lieutenant Walter Smith, training officer; Lieutenant Ned Tobey, paymaster; and Midshipmen James, Mel Thompson and W. Cruickshank with Petty Officer L. Barbe in charge of the Wrennettes division.

Following the remarks of the inspecting officer the very impressive ceremony—sunset—was carried out with fine precision.

NEW WATCH TESTING DEVICE IN RUPERT

John Buiger Ltd. have just purchased one of the new electronic watch testing machines developed by the Bell Telephone Co. of New York and made by the Western Electric Co. This is the second instrument of this kind to come to B.C., the other being in Victoria.

Designed to take the guesswork out of the watch business, it operates by amplifying the beats or ticks of a watch until they are strong enough to print a record. Each variation in performance makes a different picture on a chart, making it a simple matter to know when a watch is perfect.

It is expected this will be a great help to customers in buying a new watch as all new watches are to be tested before going out.
