Possibility Seen of Peace for China as Communist

Negotiator Picks up Dealings SHANGHAI, (CP)-Renewing hopes of peace for China, General Chou En-Lai, Communist negotiator, agreed at the weekend to return to Nanking for negotiations which thereupon resumed today.

Previously Chou had notified the government that, if Kalgan, Chahar provincial capital, was taken from the Communists, negotiations were to end and civil war to the finish would be inevitable.

TIES AIR LINES

NEW YORK-A strike of 1400 pilots and co-pilots is tying up the operations of one of the country's most important transcontinental airlines.

The American Federation of Labor pilots employed by Trans-World Airways struck today for higher pay, crippling operations along the company's world-wide 23,270-mile system.

It was the first walk-out of pilots in the history of commercial aviation. The union demands salaries

ranging up to \$1,187 monthly for test pilots.

Ninety flights were cancelled today and 3,000 passengers left stranded.

KEEPING UP FAITH

THERE ARE MANY people in Prince Rupert and through the north who sneer at words and assurances that the authorities such as those of government and railway give in the reiterations of their active interest in the development of this area which has been so long deferred. We shall be the last to blame the conscientious old-timer for doing so. For it is all too true that promises made these many years have been broken, causing many an aching heart among loyal supporters of former administrations. And many whose lives and talents have been devoted to the building up and pioneering of the North have lost their faith and have given way to cynicism and disillusionment. Others, unfortunately, have left the country in despair or gone to their graves.

But we shall sling our stones at those newcomers and upstarts in politics who snigger and jeer. For these are they who know nothing and care less of the early struggles of these communities to rear themselves from the primitive state to producing and distributing centres.

They damn the people and the government for not having a paradise here awaiting their illustrious arrival. They envy and curse the workman who became an employer by starting some production others were disinterested in, and the artisan who by his skills, thrift and enterprise became the head of a business.

These are they "of little faith." They are the modern distrustful "Doubting Thomases" of biblical lore who must needs thrust their swords—even in the side of a friend.

But those who have not lost heart; those whose indomitable faith in this northern land has given them resolution and courage to continue the struggle and fight for its development will be encouraged.

OPPORTUNITY IN NAVY

THE Royal Canadian Navy, opening a campaign this month for 3,000 recruits for the permanent force and 16,000 for the Royal Canadian Navy (Reserve), is offering young Canadians unprecedented opportunities for service at sea or in the air. Here in Prince Rupert the recruiting for the newly reopened H.M.C.S. Chatham is of particular interest.

In equipment, the Navy has been stripped down to its peace-time requirements, retaining its newest and best ships and aircraft as the foundation of its post-war fleet. In personnel, less than 400 of the more than 100,000 "hostilities only" officers and men who joined for service during the war remain. This small group will have been demobilized by the end of the year.

The new pay rates, which came into effect on October 1 and which are in line with those paid in the other services, represent an increase over the pay received by new entries before the war.

The Navy also announces that the new training allowance paid to reserve personnel for drill at divisional headquarters will represent an increase over pre-war rates.

The pay for divisional drills performed ashore at a Naval Division or afloat in a training craft which is tender to a Naval Division will be based on the pay of rank or rating and, in the case of men, will include pay of the Trade Group for which they have qualified. The full daily rate will be given for drill lasting six hours or more and one half the daily rate for drills of lesser duration, but exceeding two hours.

Officers and men of the Reserve are required to undertake 14 days full-time naval training each year and are paid at the full daily rate for this.

Daily News:

A great deal of newspaper space is being utilized in telling the world how the 11 Nazi leaders met death after the terrible disaster suffered by the world through the finance furnished them by and through outside agencies. In my opinion there are many on the opposite shore of the North Sea who stand equally guilty of that titanic crime against humanity. Another line that makes sensational reading is that all the 11 men but Rosenberg returned to religion. If the news we have been fed on for years is true, the high priests in the Nazi party were pagan. And that the pagan religion furnished the pattern for Christianity none can deny. • Yes, this is Monday. "Next week" is here, sure enough. There's something important you were going to do today. Why, of course-you were going to buy your Canada Savings Bonds! How much? Well, they are issued in units of \$50, \$100, \$500 and \$1000. You can buy up to a total amount of \$2000. The best plan is to buy all you can. Then if you should need the money at any time, you can cash your Canada Savings Bonds at full face value, with interest, at any branch in Canada of any chartered bank.

But please remember this point. These are "Serve Yourself" Bonds. This time there are fewer salesmen. They will not be able to call on everyone. So it's up to you to take advantage of this fine investment opportunity-without delay.

You can buy them at any bank; authorized investment dealer; stock broker; trust or loan company-for cash or by the Monthly Savings Plan. Where your employer offers a Payroll Savings Plan you can buy Canada Savings Bonds by regular deductions from your pay.
