PRONOUNCEMENT MAY PREJUDICE NEGOTIATIONS ON PALESTINE

LONDON (CP)-An official spokesman for the British Foreign Office said tonight that Britain regretted President Harry Truman's new pronouncement on Palestine and felt it would prejudice further negotiations on the Holy Land's future.

An Arab statement, Bey El Khourt, said Britain had promised there would be no Jewish immigration into Palestine while the conference for Palestine's future is recessed until December.

SLAUGHTER OF INNOCENTS

LIAS THERE BEEN a slaughter of innocents in Canada?

We might almost come to the conclusion after studying the record of loss of life of children by fire as contained in the statistical report of fire losses in Canada, 1945, prepared by the Dominion fire commissioner.

It is not implied that parents deliberately slaughter their children in this way, but the results are the same. We find that over the 10year period, 1936-1945, 1,231 children have lost their lives by fire in Canada. In 1945, 146 suffered this cruel rate. Twenty-one died when their homes caught fire in the absence of their parents. Ten died as the result of playing with matches. Seven were burnt to death when their clothing ignited from stoves. Eight received fatal burns when gasoline was used to light the fire and fourteen when kerosene was similarly used. Fourteen died when trapped in burning buildings and ten more by smoke and gas suffocation. And the gruesome story continues until the total of 146 is made up.

Who are the responsible parties in this "Slaughter of the Innocents"? Fire preventionists point an accusing finger at the parents and say if they had been more careful with fire, if they had taught their children the elementary principles of fire prevention, if they hadn't gone out and left little children alone - in fact, if they had applied plain common sense or had fulfilled their responsibilities as parents shouldmost of these children would have been alive today. Granted that "accidents will happen in the best regulated families", there is no need for this appalling loss of life among helpless children. Let us hope that Canadian fathers and mothers will awaken to their responsibilities and put a stop to this march of death. Parents, the remedy is in your hands!

MAKE IT SUBSTANTIAL

TAG DAY APPEAL of the Parent-Teacher Association should be well supported Saturday by Prince Rupert residents.

For the past several years the P.T.A. has raised finances annually for the purchase of sports equipment and library books which are distributed among the four city schools for the use of 1250 children.

One-fifth of Saturday's tag day proceeds will be retained by the P.T.A. for its own programs, while the remaining four-fifths will be turned over to the schools for use as they see fit. It is expected to be used for purchasing reference material, text books, sports equipment and reels of movie film for education.

Therefore considerable money is required. It is the responsibility and privilege of all to participate in this worthy program.

Your contribution Saturday for a tag will be put to good use. Make it substantial.
