RUPERT GETS BETTER RATES

Ketchikan Claims Freight Much Higher to Territory Per Mile Than on B.C. Coast
KETCHIKAN—In the vigorous campaign which is being waged here against the move of shipping interests to have already high shipping rates to Alaska further increased, the favorable rates which Prince Rupert enjoys as compared with what Alaska has to suffer have been cited. Studies show that freight costs to Alaska are much higher per ton mile than from San Francisco to Hawaii or from Vancouver to Prince Rupert. Typical of Canadian rates contrasted to those into Alaska are those on cement and general freight. General freight costs \$7.50 per ton mile or 133 cents per ton mile from Vancouver to Prince Rupert by water compared to \$13.20 per ton from Seattle to Ketchikan, or 174 cents per ton mile. The Canadian haul is 545 miles and the Alaskan is 757. Cement costs \$4.50 per ton in car lots to Prince Rupert and \$11.20 to Ketchikan, the per-ton rates being 0.83 cents on the Canadian lines and 1.48 cents on the Alaskan.

The Paris Conference

To Russia the disintegration of the political and economic system of capitalistic Europe does not perhaps matter. To the United States and Britain it matters very greatly.

That is why Russia's bargaining position on treaties for Italy, Hungary, Rumania, and Bulgaria has been strong. Rather than compromise, Russia can wait. But delay means to the United States and Britain an ever more difficult task in the reconstruction of Europe. It may even mean chaos and communism. That is, by tactics of delay Russia might yet win control of most of Europe.

This is the background, starkly simplified, of the contest now getting under way as the American, British, French and Russian Foreign Ministers meet in Paris. The issues frankly hinge on the clash of Big Power interests. The defensive attitude of America and Britain is obvious.

Between the Titans the small peoples stand helpless, hungrier, shabbier, and bearing a heavier load of despair than they ought to bear, because the question of the relative power of the Anglo-American and the Russian blocs cannot be resolved to the satisfaction of either. Because the giants fear each other, all Europe, and the world, fear for the future.

This is a moment of tremendous import. Words like "intransigence" and "despair," which harry the

cables from Paris, show how great is the need to do more than stand firm in one's own position. The need is to build a bridge and then take the first step on it to meet one's neighbors. The peoples of the world may well pray that that bridge building and those steps will be taken at Paris. Not much progress has so far been made.

Let's Help Mr. Kenney

Hon. E. T. Kenney has been named by Premier Hart B.C. chairman of the second cross-Canada clothing drive in June. Mr. Kenney is known as a go-getter. When he puts his hand to the plough, the job is a success.

Mr. Kenney, in his job, however, is going to require the help of each and every one of us. We're going to have to dig deep in cupboards and chests for clothing for the near-naked people of Europe. Old clothes aren't going to be sufficient. We're going to have to donate some good clothes. In other words, the time has come when we're all going to have to make some real sacrifices, as far as clothing is concerned. The world just hasn't the textiles at the moment to cover the back of millions in starving Europe.

The eyes of a hungry and cold world are turning to this continent for help. This is the North American age. Because of it, Canadians and Americans have a great responsibility. We in Canada and the United States will fail the world in its hour of need unless we dig way down and give generously, cheerfully, willingly, even if it means less for ourselves. —Vancouver News-Herald.

UNITED NATIONS MEETING AGAIN

Expected Iranian Question Will Be Disposed of This Week

NEW YORK—The United Nations security council will meet again Wednesday when the Iranian question will be brought up. It is hoped the Iranian delegation will report the Russian withdrawal from the country complete, opening the way for the complaint to be formally withdrawn from the agenda. It is possible the Palestine situation may be brought before the council.

MALARIA DROPS

NEW DELHI —The year 1945 was the healthiest on record as far as malaria was concerned. Of a population of 1,050,000, only 3.09 percent fell victims to the fever. Much of the credit for this low figure is due to the combined civil services anti-malaria drive last August, which used D.D.T. to keep mosquito breeding at a minimum.

TAVERN HOURS EXTENDED, MORNING THIRSTS CAN NOW BE QUENCHED

Prince Rupert citizens who develop a morning thirst can now have it conveniently quenched. The city's eight beer parlors are back on their pre-war business hours of from 10:30 a.m. to 11 p.m.

Under the new liquor control board ruling, which became effective in Prince Rupert today, the thirsty can also purchase bottled beer to take off the premises at beer parlors—a practice that definitely was "out" during the drought-ridden war years.

The ruling extending the hours of sale for hotel taverns was declared effective throughout the province as of May 1, but local hotel keepers unanimously waited for official information to that effect to arrive from Victoria. The word was received here Monday afternoon.

During the war beer parlors throughout B.C. were allowed to remain open only between the hours of 2 o'clock p.m. and 11 p.m. Most of them closed during the supper hour from 6 o'clock to 7 o'clock.

Many taverns remained open for even shorter hours as their beer quotas were not sufficient to keep up with the demand. Local hotel men say that now, however, their quotas are sufficiently large to allow them to take advantage of the longer hours.

"Actually, it won't make any difference for us from the standpoint of sales," one hotelman said. "But it will be an increased service for the public."

This particular hotelman said that he had just received a telephoned plea from a person asking if he could now take bottled beer from the premises.

"I told him that he most certainly could. He said he would be around immediately. I'm sticking around to see the transaction. It's the first beer I've sold off the place for four years," he exulted.

As the purchaser came in a few minutes later and shouldered two cases of beer, the hotelman patted him benignly on the back. "If the police stop you," he said cheerfully, "you just send them around to me. Tell them that I sold it to you."

According to word received from Vancouver, slender beer quotas are responsible for tavern keepers there not taking advantage of the extended business hours. They will continue on the same basis as before.

ALBERT AND McCAFFERY

Why the collection of INCOME TAXES from co-operatives, crown companies, government and municipally owned enterprises would put MONEY IN YOUR POCKET

If all businesses in this country paid Income Tax on an equal basis, it would mean a good many extra dollars in the pocket of every Canadian. The sharing of the Income Tax burden by co-operatives and businesses operated by governments and municipalities, would either bring about a big cut in the personal Income Taxes which you pay or a reduction in the price of goods and services you buy from these Income Tax exempt concerns.

exempt organizations, the total would amount to as much as 125 millions of dollars annually.* The government could then, without decreasing its revenues, reduce the Income Tax by an average of \$50.00 annually on every Canadian Income Tax payer.

You would profit either way

If Income Tax were levied on the profits of co-operatives, crown companies and corporations operated by governments and municipalities, these Income Tax free organizations could follow either one of two courses:

1. They could reduce the price of their goods and services to the point where they would have no profits. They would therefore have no profits on which to pay Income Tax. The public would benefit by paying less for the goods and services which it bought.
2. They could decide to maintain their prices and to pay Income Tax on their profits. If Income Tax were thus collected on the profits of all such tax-

It is thus quite apparent that the collection of Income Taxes from co-operatives, and corporations owned by governments and municipalities, would mean extra dollars in the pockets of Canadians, no matter what course such presently tax-free organizations might take.

Revision of The Income War Tax Act, insofar as it concerns co-operatives, will come before the current session of Parliament. It is of the utmost importance that such revisions shall bring tax equality to all groups. We urge that the income tax payers of Canada insist that their elected representatives in the House of Commons see that the heavy burden of Income Tax is shared by co-operatives and other presently tax-exempt businesses.

The Income Tax Payers Association has no objection to the principles of co-operative trading. It should be the right of every Canadian to trade as he desires. Our objective is to ensure that no section of business unloads its share of income taxation and cost of the war on other businesses or on individual income tax payers.

HOW CAN I ???

By ANNE ASHLEY

Q. How can I save time when making mashed potatoes?
A. When preparing mashed potatoes, slice the potatoes in thin strips (the same as for French fried), instead of leaving them whole, or merely cutting them in half, and both time and fuel will be saved.

Q. How can I make new stockings wear longer?
A. They will wear much longer if they are allowed to soak in warm water for about fifteen minutes, then dried slowly, before wearing.

Q. How can I make prune custard?
A. By cutting stewed prunes into quarters, and adding lemon custard, topped with the white of an egg. It will make a delicious dessert.

ONE OFFICER, THREE MEN IN U.S. ARMY HERE

The American Army in Prince Rupert lost 20 per cent of its strength last night with the departure of T/5 George Nagy for Seattle where he will receive his discharge. Strength of the property disposal force here is now one officer and three enlisted men.

Lieut. Herman G. Lamphere, disposal officer, said this morning that he and his remaining men would probably leave the area by the end of the month.

The U. S. Army property disposal office here also employs 15 civilians, some Canadian and some American.

T/5 Nagy, who sailed last night on the Princess Adelaide, comes from Elizabeth, Pennsylvania.

JEEP GOES OVER SLIDE

Crossing of Kwinitsa Highway Obstruction, However, Considered Dangerous

Prince Rupert's automotive barrier to the outside world has been cracked but not yet broken. A vehicle has been driven from Prince Rupert to Terrace, traversing the 1,000 foot snowslide which has lain across the road at Kwinitsa since early last winter. Nevertheless, warning is issued that it is dangerous to attempt to drive across the obstruction.

The vehicle making the crossing was an army jeep which went from Prince Rupert to Terrace and back on Sunday. According to Capt. Edwards, Army Service Corps officer here, the two men in the jeep reported a "terrific" time crossing the slide.

A second vehicle, a private automobile, is reported to have crossed the big slide coming from Terrace but this rash deed could not be confirmed.

The highway on both sides of the slide is reported to be in fair shape, without snow, and fairly well maintained, although no official reports on its condition were available this morning at the office of Public Works Engineer J. C. Brady. Mr. Brady is a present in Terrace in the course of an inspection tour of the road. He is expected back in the city tonight.

The Kwinitsa snowslide is said to have become packed "as hard as ice," affording a solid, though slippery footing for vehicles. Public Works Department highway equipment is said to be already at work on it.

It is understood that black powder is being made available by the Canadian National Railways to the department of pub-

CHAMBER BACKS CIVIC CENTRE

The Prince Rupert Chamber of Commerce has put itself squarely in support of the Prince Rupert Civic Centre. At the suggestion of Dr. R. G. Large, the Chamber last night decided to become a patron of the centre, involving the payment of a subscription of \$50. It also accepted an invitation to name a member to the executive of the Prince Rupert Civic Centre Association, this to be one or the other of the Chamber's recreation committee which comprises W. J. SHORT SPORT

The Canadian Amateur Hockey Association has turned down an offer from the National Hockey League of \$20,000 a year for all amateur players turning to pro ranks.

Apparently the owner of Wee Admiral and the horse's trainer did not get together before the Kentucky Derby Saturday. Owner R. S. McLaughlin of Oshawa, Ontario, says he was completely surprised that Wee Admiral ran in the race. He says he gave definite instructions to trainer Arthur Brent that the horse was to be scratched because the animal was too valuable to risk on a muddy track. However, the horse did run because trainer Brent says he thought it was up to him to decide and he wanted to run him. The winner was Assault, a big chestnut from Texas, while Wee Admiral finished sixteenth.

The Pittsburgh Pirates are minus their star pitcher, Rip Sewell, for a few days. Sewell collapsed in the clubhouse at Forbes Field, Pittsburgh, Sunday, shortly after the end of the double-header between the Pirates and the Brooklyn Dodgers. Hospital authorities say the ball-thrower is suffering from an intestinal disorder and will have to remain in hospital from three to ten days.

Ontario Boxers Won Seven Bouts

MONTREAL—Five of the seven bouts in the Canadian amateur boxing championships in Montreal last night were captured by Ontario pugilists. Ottawa battlers were the most impressive with three wins of their four bouts. The meet completes Wednesday night and decides the Dominion championships in eight classes ranging from flyweight to heavyweight.

Brooklyn Prexy Takes Action Because His Players are Being Lured Away

BROOKLYN—President Branch Rickey of the Brooklyn Dodgers is determined to get the scalp of the Mexican League executives. He says federal action against the down-south league is only the beginning of his attempts to stop the circuit from luring players away from his club. Says Rickey: "This thing continually happening upsets boys considerably, affects their motion and thinking. It isn't good for the club and I don't like it."

BOSTON TAKES MIKE'S STAR

HAZELTON NINE BEATS KISPIOX

HAZELTON—Hazelton defeated Kispiox in an exhibition baseball game recently when Howard Wale knocked a double in the final minutes of the ninth inning to break a three-all tie. Wale's hit to centre field brought in another player who had been lurking on second base with two down in the ninth inning. In a football match which followed the baseball, Kispiox and Hazelton were unable to break a one-all tie.

Smiles'n Chuckles

The former office lad had just been demobbed from the Air Force and, thick with honors and rank upon him, called to see his prewar boss.

"My boy," said the boss, "I am very glad to see you, and in appreciation of your grand record I am promoting you to chief clerk. What do you think of that?"

"It's frightfully good of you, sir, and I am much obliged, but if you don't mind I would much prefer to have my old position back—in charge of the petty cash!"

He was rather small, and had been used to sleeping with a night light in his room, but his parents had decided that he must start sleeping in the dark. When his mother put out the light, he asked plaintively:

"Must I sleep in the dark, Mummy?"

"Yes, darling," was the reply, "you are getting a big boy now."

"Well, may I say my prayers over again—more carefully?"

A man who was keen on his garden was justifiably proud of his lawn. But one year the lawn had a heavy crop of dandelions. He tried everything he had ever heard of to get rid of them, but without success.

At last he wrote to the Minister

of Agriculture. He gave a list of all the remedies he had tried, and ended his epistle with "What shall I do now?"

In due course came a reply.

"We suggest you learn to love them."

"What, fish again?" growled Peck. "We're always having fish."

Well, John," said the wife, "it's good for you. It feeds the brain."

"Bosh! Why should you think my brain needs so much feeding?"

"Well, didn't your mother give you fish before you got married?"

"No," he hissed, "I wish she had."

A distinguished visitor to a lunatic asylum went to the telephone and found difficulty in getting his connection. Exasperated, he shouted to the exchange:

"Look here, girl, do you know who I am?"

"No," came back the calm reply, "but I know where you are."

The English lane was dark and deserted and Jones was suddenly accosted by two men the bigger of whom said politely:

"Excuse me sir—I wonder if you could oblige me with the loan of a penny?"

"Why—er—yes, I think so," replied Jones. "But may I ask for what purpose you require it?"

"Oh, certainly," replied the other. "My mate and I wish to toss the coin to decide our little argument as to which one of us shall have your watch and which your wallet!"

A sugar planter in Hawaii took a friend from the States to the edge of a volcano.

"That crater is 70,004 years old," he explained.

"How do you get the exact age?" asked the newcomer. "I can understand the 70,000, but how do you calculate the four?"

"Well, I've been here in the islands for four years, and the crater was 70,000 years old when I arrived."

In a little wayside station in Alabama, an old Negro shuffled to the ticket agent.

"A wants a ticket to Trivinia," he said.

The agent consulted the time table and the company records. Finally he asked: "Where is Trivinia? I can't find it."

"Why," said the Negro in amazement, "dar she am, standing right over there."

LONDON, ©—Field Marshal Viscount Montgomery is writing his second war history—"Normandy to the Baltic." His first book, "El Alamein to the River Sangro," was distributed only to officers of the 8th Army.

CADETS PREPARE FOR BIG PARTY

Naval Drill Hall Busy Place as Weekly Parade is Held

One of the busiest places in Prince Rupert last evening was the Navy Drill Hall where the weekly parade of the Captain Cook Corps of the Royal Canadian Sea Cadets was taking place. The cadets were getting ready for their big dance on Friday evening.

The floor of the drill hall is

large and it had to be swept. The duty division was soon organized and working in echelon. The floor was tackled systematically and in a short time was swept and well swept. The decorations called for careful planning. It was there. Flags were soon strung and hoisted aloft. And the hall began to look attractive. Then a whaler that had been recently painted was manhandled onto the centre of the deck, the mast stepped and sails raised. The nautical atmosphere was assuredly set.

Outside the bugle band was practicing. And they were not wasting time. They looked very smart. Also outside a squad with rifles was adding the finishing touches to their rifle drill. They were getting little pampering from an instructor who knew what he wanted and was determined to get it. The lads responded and turned in a good job.

Elsewhere the Wrennettes were busy. Places were being dusted and things were being shined. There was the "tap tap" of many typewriters as envelopes were being addressed by some white others were getting particulars for an apparently very complete filing system.

Everyone from the commanding officer to the newest member of the "tender" squad and even including the president of the Navy League was making sure that everything would be ready for the big dance.

C. A. Kellett left on last evening's train for Terrace whence he will take to car for one of his periodical business trips to various interior points as far as Vanderhoof.

KIN DRIVE UNDER WAY

Service Club Anxious to Get Lakelse Camp Established—May Queen Contest Starts

"Our fight will not be won," declared Jack McRae, chairman of the Kinsmen summer camp committee, at a pre-drive rally, "until we have purchased a site on the shores of Lakelse Lake and the first group of Prince Rupert boys are encamped there. We will not stop until the children have opportunity to have a real summer holiday away from the city streets with swimming, hiking and a score of other sports!"

The drive will be officially opened tomorrow morning when the first tickets will go on sale for the five queen candidates selected from the city's schools. "It is believed," said President Bill Jamison, "that this is the first summer camp to be established by the Kinsmen in Canada—another first for Prince Rupert!"

Yesterday afternoon, Beverly Matson, Margaret Strachan, Sonja Sorensen, Lydia Ponich and Pat Stuart, five young princesses vying for the honor of being crowned Queen of May on May 24, posed for photographers in the Canadian National Park. Pictures of the girls will appear in the press at a later date.

DAVE MacPHEE BOWLING HEAD

The C.N.R. Lawn Bowling Association elected David MacPhee president at the annual election of officers last night. He succeeds Roy Nichols, who is president of the C.N.R. Athletic Association, parent body of the lawn bowling club. Vice-president is George Hills, who succeeds G. P. Tinker.

No one was elected to succeed as secretary or treasurer J. S. Irvine who has resigned after filling both positions for a number of years.

Executive members are Dr. R. C. Bamford, Neil Cameron and Bert Morgan.

Greens Committee—J. A. Frew, Jack Judge and J. McGreish. Match Committee—D. MacPhee, J. Paul and W. J. Rance.

It is hoped to have the season under way by May 24, although it is likely that only half the greens will be used, giving the other half opportunity to get in first class shape during the summer.

G. E. McAdams, of Terrace, vice-president of the Associated Boards of Trade of Central British Columbia, had a report before the Prince Rupert Chamber of Commerce at its regular meeting last night on a recent regional committee meeting of the Canadian Chamber of Commerce in Vancouver which he attended. The report told how efforts were being made to interest farmers fishermen and primary producers as well as business men in Chamber of Commerce matters.

Nelson Young, local manager of the Standard Oil Co. of British Columbia, was welcomed as the latest new member of the Prince Rupert Chamber of Commerce at the regular monthly meeting last night. W. P. Elkins and Walter Smith were present as representatives of the Junior Chamber of Commerce. P. M. Ray, another former member, was welcomed back after several years absence while serving with the Navy. A guest was Norman Nelson, well known canneryman from Vancouver.

Modern Etiquette By ROBERTA LEE

A. A note, an appropriate card, or a few flowers will suffice.

Q. Is it correct to tell the week-end guests when they are expected to leave?
A. Yes, the hostess has this privilege.

DAYLIGHT TIME IS VOTED DOWN

Chamber of Commerce Not in Favor of Proposing It to City Council

When the question of daylight saving was raised at the monthly meeting of the Prince Rupert Chamber of Commerce last night by W. J. Scott, who advocated that it be adopted here for the summer, the members of the Chamber divided, a show of hands indicating eight members in favor and ten against.

Mr. Scott's proposal was that the city council be asked to go into the matter of instituting the summer time here. The proposal was voted down so will go no further.

Mayor H. M. Daggett recently announced that it was not the intention of the city to institute daylight saving here.
