ST OF STAFF HOUSES TO BE TURNED OVER TO ASSETS SHORTLY

Wartime Housing's Number Two Staff House and Dry Dock commissary, which have been operated more than a year by the Prince Rupert Dry Dock, will be turned back to Wartime Housing at the end of the month, the Daily News was informed today. Mr. Callaghan, Wartime Housing manager, said that

Atom Test Postponed

Big Bombing Experiment in Marshall Islands Put Off for Six Weeks
WASHINGTON — President Truman has officially announced a six-week postponement of the atomic bomb tests at Bikini atoll in the Marshall Islands. He said Congress is too busy at present to hold the tests on May 15 planned, as many members would be unable to witness them. Mr. Truman's press secretary, Charlie Ross, said he personally had no reason to believe there were any international implications in the de-

RUSSIANS OUT APRIL FIRST

Peking — Russia has announced to withdraw all Soviet troops from Manchuria not later than the end of April. Foreign Minister Wang Shih-Chieh told the People's Political Council today. Wang said this information was in a note from the Russian government.

COURT TO TEST LEGAL RIGHT OF COUNCIL ORDER

Ottawa — Justice McRuer directed that Squadron Leader Frederick W. Poland, in the espionage investigation, be brought before him next Friday by the Royal Canadian Mounted Police with all documents and evidence to show why Poland's name first came out in this investigation when his lawyer, filed a habeas corpus petition which, in effect, became a test of the court's right to order in-council under which 14 Canadians have been taken into custody as alleged links in a spy ring. The petition charged that investigation of Poland had been delayed, that he had not been allowed to see his counsel, that the order-in-council was unconstitutional and that further detention was unnecessary.

HIGHWAY MESSAGE

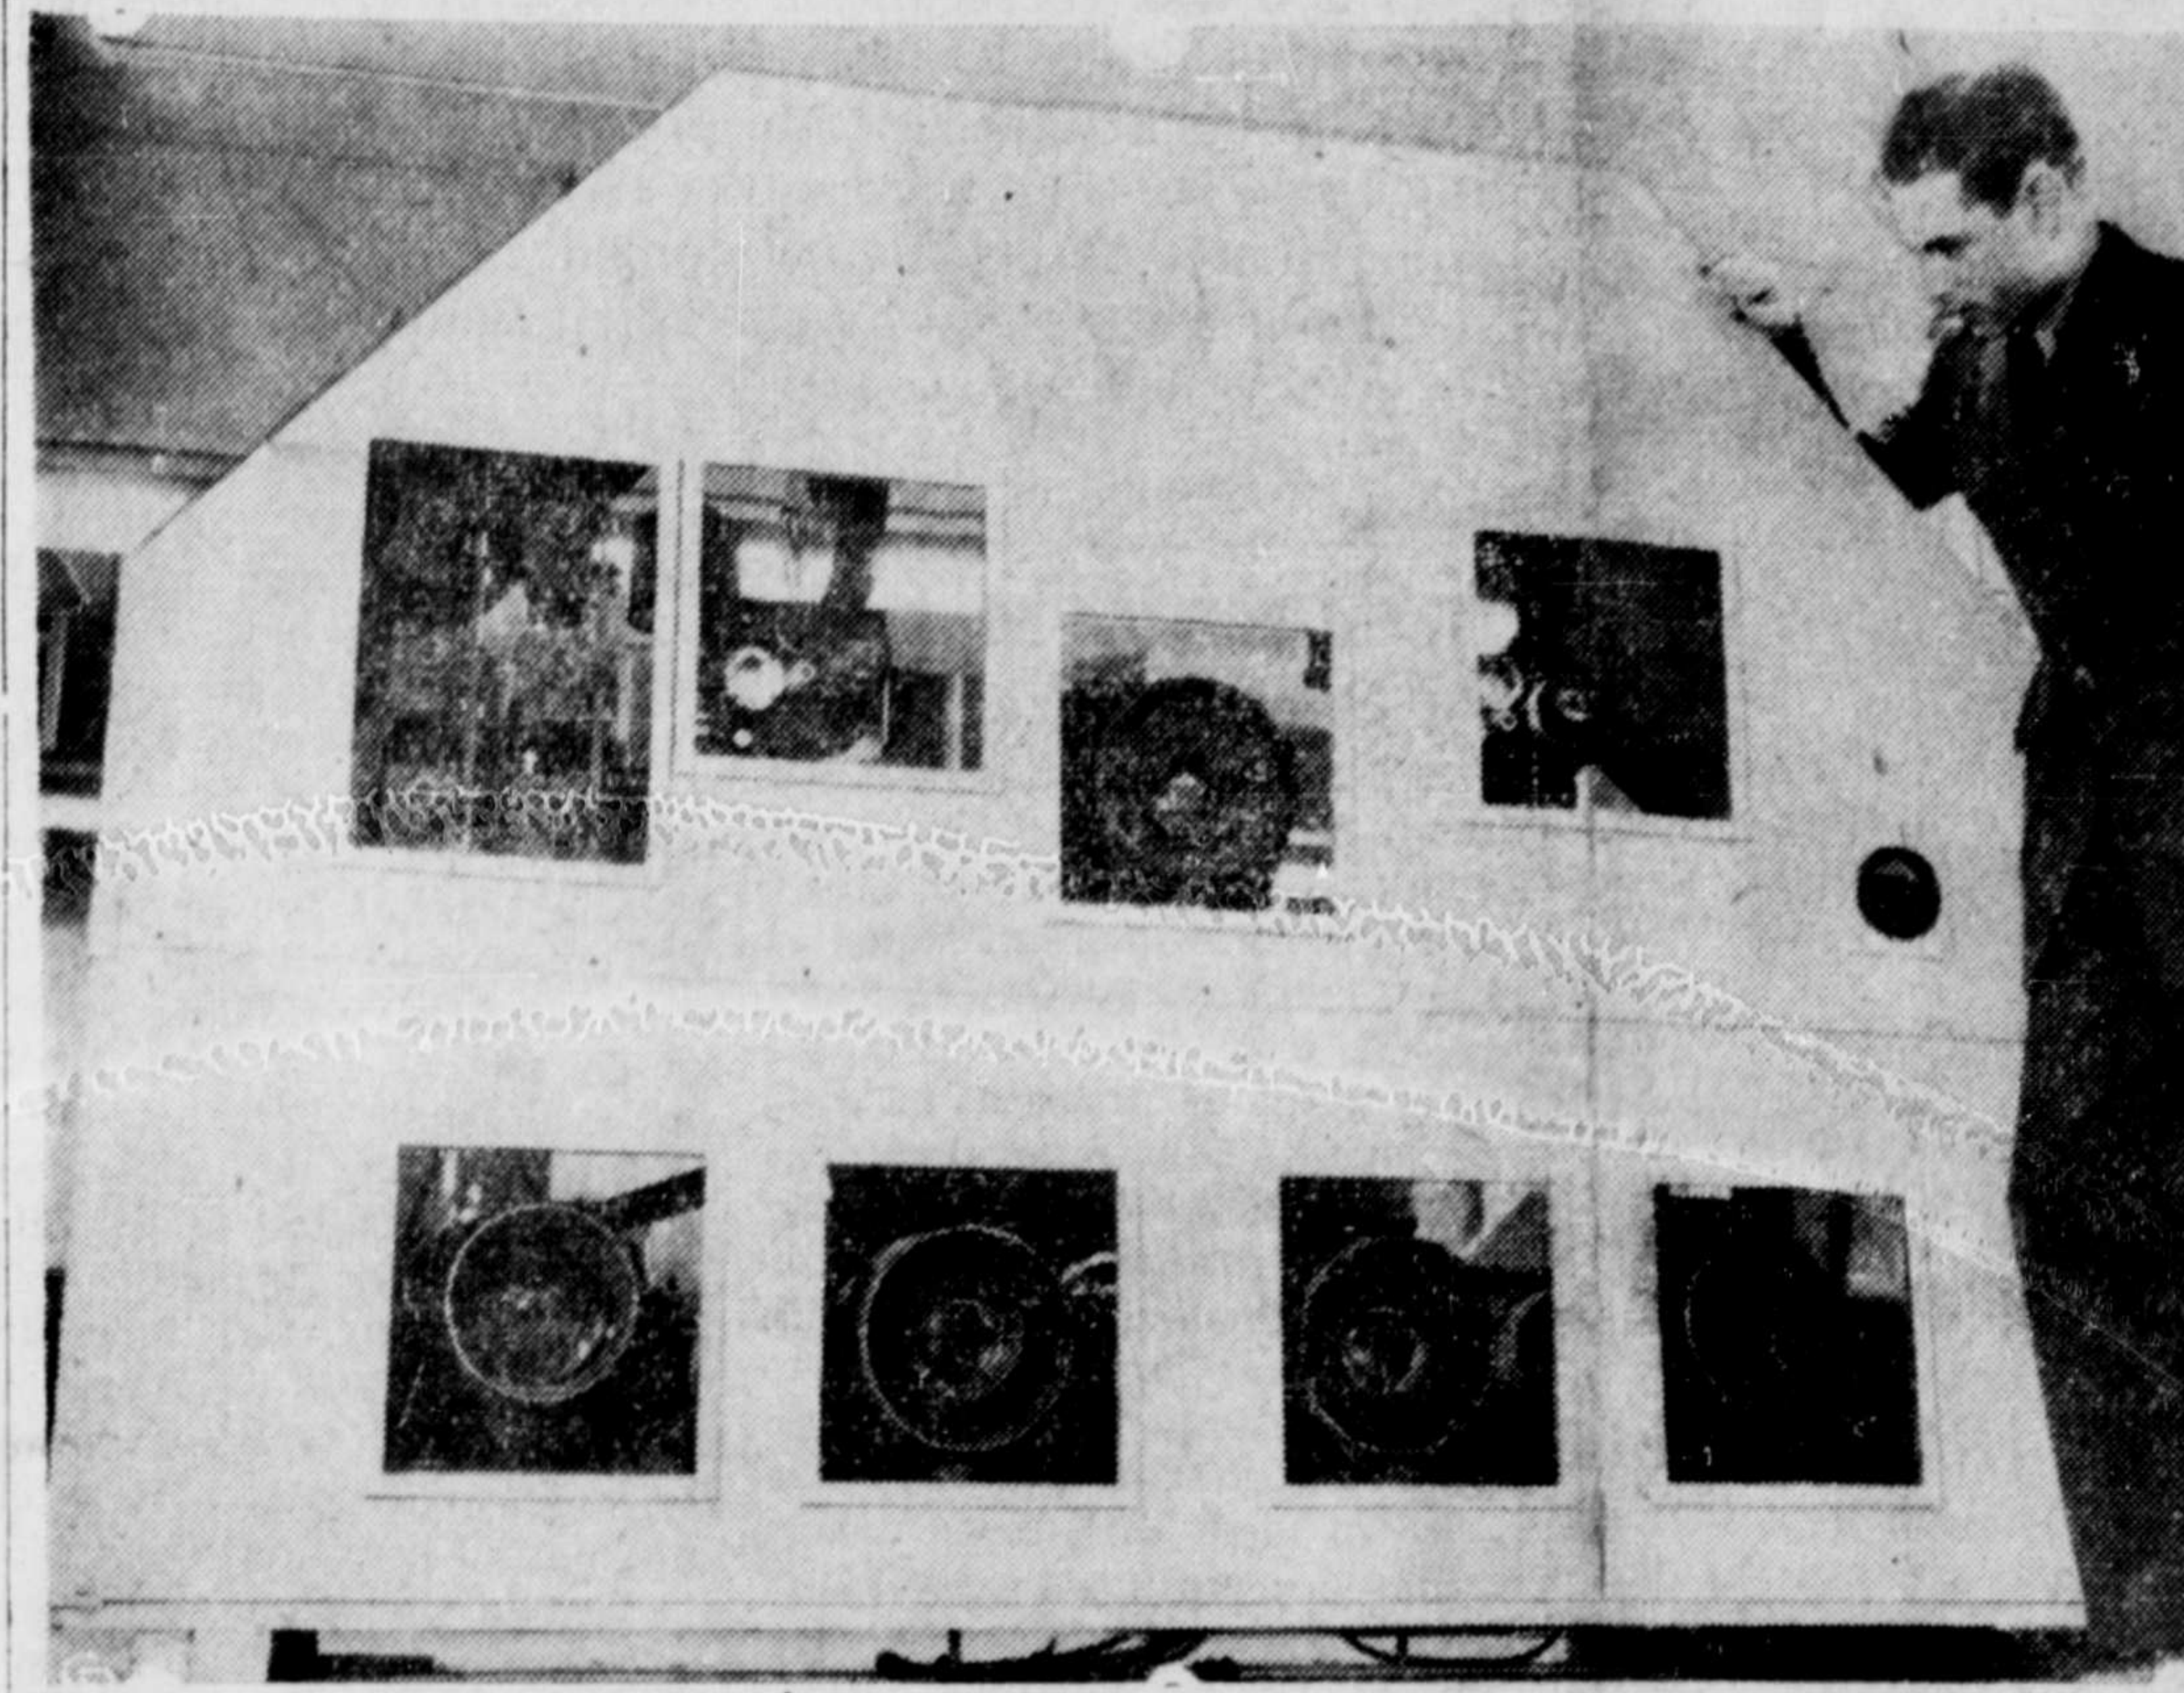

An "important message" from Hon. Herbert A. Brown, provincial minister of highways, regarding the Prince Rupert Highway situation, was received by George MacAdams of Terrace, vice-president of the Associated Boards of Trade of British Columbia, who has been on a trip to Vancouver and Victoria, will arrive in the city tomorrow night. He will meet with the executive council of the Prince Rupert Chamber of Commerce on Monday afternoon before returning that evening for Prince Rupert.

GOV'T POLICIES BEING CRITICIZED

Ottawa — Three of the Dominion government's policies are under heavy fire in the House of Commons yesterday. Opposition members from the west joined in with opposition to criticize the government's employment, housing and financial measures. One of the critics was Angus McInnis of Vancouver East.

Spy Ring Operations Are Detailed

PREPARE TO PHOTOGRAPH ATOMIC BOMB BLASTS

At the Fairchild Camera and Equipment Co. in Jamaica, L.I., Lt. Robert L. Warner, U.S.N., examines one of the camera units that will be used to photograph the blasts when atomic bombs are dropped on a guinea pig fleet of warships at Bikini atoll in the Pacific in early July. The unit is made up of a number of cameras, all of which will be operated by remote control. The units will be set up on steel 100-foot towers ringing the warships, and controlled from a "magic box" by radio on a warship outside the danger zone. Cameras are, left to right (top), nest of 6 gun cameras; 35-mm. motion picture camera; F-56 8 1/4-in. aerial camera; Mitchell 35-mm. Bottom, left to right, F-56 40-in.; F-56 20-in. and F-56 40-in. The small circular opening at the right is the "magic eye" which will operate all the cameras by the flash of the bomb itself, should the radio remote control fail to work.

Lt. Howard Chamblin, U.S.N., who will record photographically for posterity what goes on when atomic bombs are exploded at Bikini atoll in the Pacific next July. He is shown here with the "magic box" he will use in doing the big job.

FINE RECORD IN ATHLETICS

Mrs. H. A. Taylor, Vancouver, Visiting Here, Excusably Proud of Soldier Son
Trooper Hugh Taylor, who is attending Khaki University in London, England, now after serving in the Canadian Army as a trooper, is an athlete of no mean sort and his mother, Mrs. H. A. Taylor of Vancouver, at present concluding an extended visit here with her sister, Mrs. H. F. Glassey, is exceedingly proud of him. A collection of some 15 medals which Mrs. Taylor has with her are ample proof of Hugh's prowess.

Probably the highlight trophy is a handsome silver mounted plaque which was presented to Trooper Taylor at Nijmegen, Holland, last August from no less a person than Field Marshal Sir Bernard Montgomery. It represented the interservices championship in high jumping covering Army, Navy and Air Force.

DUTCH TROOPS IN INDONESIA

MOSCOW — The Moscow radio charges that the landing of a new contingent of Dutch troops in Java has further complicated the tense situation in Indonesia. The Russian commentator declared that the situation in Java still remains a threat to world peace.

Solution For Iran

Premier Quavam Hopeful That Settlement on Russ Evacuation Is Near
TEHERAN — Premier Ahmed Quavam expressed confidence today that a satisfactory solution would be found to Iran's dispute with Russia and suggested that settlement would probably come soon.

THE WEATHER

Forecast
Prince Rupert — Overcast with continuous mixed rain and snow. Southeast gales 40 to 50 miles per hour, strong southerly by late evening. Sunday — Cloudy with showers, becoming clear in afternoon and evening; northwest winds, 20 to 25 miles per hour, decreasing to 10 to 15 miles by evening. Prince Rupert high temperature, 43; low, 33.

More Names Revealed in Rose's Espionage Hearing

Documents Are Introduced Suggesting Conspiracy to Obtain Secret Information From Canadian Scientific Sources

MONTREAL (CP)—A series of documents, one dealing with "G. Lunan" and another headed "Plan of the Organization," in which names were shown, were introduced today by F. Philippe Brais at the preliminary hearing of Fred Rose, Labor-Progressive Member of Parliament for Montreal-Cartier, charged with unlawfully communicating information to Russia. Igor Gouzenko, cipher clerk in the Russian embassy, was called again today.

Details of secret information sent to the Russians by Canadian agents were revealed in a document introduced by Mr. Brais. The document was signed by "Back," previously identified as "G. Lunan." The body of the letter said "The general approach to work your written instructions are understood and some preliminary work has been accomplished on the specific tasks set."

CHARLIE PHILLIPS DIES SUDDENLY

Charles Phillips, pioneer barber of this city and one of Prince Rupert's best known old-timers, was found dead today at his residence. Eighty-one years of age and a veteran of the French Navy, he had been here for many years. He apparently expired during the night.

NAZIS ARE CONDEMNED

Perpetrators of "Death March" in Island of Borkum to Be Hanged
STUTTGART — Five of fifteen Germans charged with forcing seven American fliers into a death march on the Baltic island of Borkum in August, 1944, were sentenced by a military government court today to be hanged. One former German Army officer was sentenced to life imprisonment. Eight other Nazi officers and civilians received prison terms of from two to 25 years.

ISLAND CAMP IS REOPENED

Powell River Co. Starts Operations at Cumshewa Inlet
Having acquired the assets of Aero Timber Co., who operated two logging camps on the Queen Charlotte Islands, one deep in Massett Inlet and the other at Cumshewa Inlet on Moresby Island, the Powell River Co. is now opening up the Cumshewa camp. Fallers are already at work and riggers are now being engaged. Men are being engaged at Prince Rupert for work in the Cumshewa camp. Some men, who have been employed in war work here, are finding it advantageous to retain homes in the city while working on the islands instead of moving south.

McEWEN INDIGNANT

VANCOUVER — Tom McEwen brands as an "outright forgery" the statement of Igor Gouzenko at the Rose trial in Montreal that the Communist party is the base for Russian espionage operations in Canada. The I.P.P. has no connection with espionage which it does not condone.

ALBERTA PLANS SOCIAL SECURITY PENSION SCHEME

EDMONTON — It is when the plan of Alberta's Social Credit government to put its political philosophy into practice is approved by the legislature and the courts, every unemployed citizen from 19 to 60 years of age, and those of 60 or more who have retired, will be entitled to a "social security pension" of not less than \$600 a year.

The program is contained in an act introduced in the legislature by Premier E. C. Manning. It proposes the establishment of a five-man board of credit commissioners to evaluate Alberta's economic resources to maintain balance between the purchasing power of the people and the estimate of collective prices of goods and services in the province.

An eligible pensioner would be credited by the government with a cheque or voucher for the amount of the pension. This would be deposited in the treasury of a co-operating bank and the pensioner would draw on this for his purchases.

FLIGHT TO NORTH POLE

American Machines Will Test New Navigational Devices
EDMONTON — Three United States Army B-29's based in Edmonton soon will start on a flight over the North Pole. The three American planes, equipped with new navigation devices, will make the flight to test the radically different equipment.

The United States flight over the North Pole will be the first since a British Lancaster plane, the Arles, flew over the pole about a year ago, flying from Edmonton to Whitehorse and then across the pole back to Britain.

New Cars In Rupert

Creating Interest in Local Showrooms—Deliveries Expected to Be Stepped Up Soon
First of the new postwar automobiles are now being shown by all Prince Rupert dealers, one having had four of the new models so far while the other two have had one each. Deliveries are expected to be stepped up in April and May with full supplies by June or July.

The local dealers all have long lists of orders for new cars. Much interest is being shown by the motoring public in the new models which are attracting many visitors to the showrooms.

NEW GERMANIC CARDINAL DIES

HAMBURG — British occupation authorities announced today that Clemens August Cardinal Count von Galen died at his home in Muenster yesterday afternoon. The cardinal recently returned from Vatican City where he was elevated to the purple. He was 68 years old. He underwent an operation for peritonitis on March 19.

Von Galen was the second of the new cardinals to die since the recent Vatican consistories. Cardinal Glennon of St. Louis died in Dublin March 9.

What Next?

If the evidence of Igor Gouzenko, the Russian cipher clerk, at the trial of Fred Rose, Member of Parliament, charged with espionage conspiracy, is authentic, the ramifications of Soviet espionage activity would appear to be more widespread than most of us would have suspected. The government has already taken drastic precedent-shattering steps in its investigative measures to bring the espionage activity in the country to light. We have been told that a very serious situation exists. This would lead us to believe that more damage has been done by fifth columnists and spies than has so far been revealed.

There is evidence now that espionage has been connected with certain political activities which seemed bordering on the subversive but which were tolerated under our conception of freedom and democracy. Treachery had hardly been suspected. If the authorities have acted correctly thus far, it would appear that even more drastic action may be anticipated and it quite possibly may produce further surprises.

Nationally known educators, public school teachers and business men are loud in their praises for the training and experience gained by carrier boys in newspaper sales and delivery. Governor Thomas E. Dewey of New York, the late Governor Alfred E. Smith and Joseph P. Kennedy, former ambassador of the United States to the Court of St. James, were carrier boys in their youth.

Immigration

The time is about here when someone will raise a hue and cry about immigration. That's a natural development since Canada is a sparsely settled country with huge undeveloped natural resources whereas the European countries are overcrowded, short on everything that Canada has and the outlook for many a citizen of Europe is definitely not bright.

Whether or not Canada should embark on an ambitious immigration program at all is a question which our economists, statesmen and citizens generally must decide after full consideration of all the factors.

One thing seems clear. We should only permit those to enter our country who have the intention and the ability eventually to become true Canadian citizens. By this we mean those people who possess a willingness, when they have remained a sufficiently long period of time to serve their country "all out" in time of war and peace and with a general desire to be a useful citizen and to fit into the customs and practices of the country.

Further, we should restrict immigration to those who can do the work which is necessary in our type of country. We do not want slum dwellers. Rather we want woodsmen and the farmers and the artisans from the countries which have active and progressive economies.

We do not want citizens with a lingering fondness for communism, fascism or nazism. We want new citizens who are imbued with a desire to become members of a democratic society where all men have equal opportunities and a desire to make use of them.

If we are going to admit new members to our family, let us only let in those who will soon work side by side with us to make Canada worthy of the future which lies in store for her.

MISTRUST DEPLORED

French-Canadian Author Returns from Tour of Communities in U.S.

MONTREAL, Q.—Luc Rochefort, French-language author from Three Rivers, Que., said in an interview here on his return from a tour of the United States that French and English-speaking Canadians must not mistrust one another and should learn to make mutual allowances.

Mr. Rochefort, whose trip took him to American centres where large populations of French origin are to be found, said that French-speaking citizens of the Dominion must come to realize that in learning English they will not be endangering anything in their social heritage but that they will benefit.

"We have been isolated for 150 years," he said. "Our leaders have told us that if we are not, we will lose our Catholic religion and our cultural integrity."

"I went to New Orleans, where we have the descendants of the Americans who migrated from Nova Scotia in 1775. They have not lost their religion and they still speak French, though all also speak English."

Mr. Rochefort also spoke of the former Canadians of French language in New England, saying that "they are prospering in all walks of life and they have not lost their religion or their traditional culture."

"This shows that our fears in Canada have not been well grounded," he added.

Local Buyers Take Skunk Hollow Cabins

Tenders for 22 former American residence cabins in Skunk Hollow—part of the C.N.R. park—have been accepted by War Assets Corporation from local buyers, Ken Chivers, War Assets sales manager, announced Friday afternoon. The prices, he said, were fairly close to the appraised value of the buildings. The cabins, used during the war to house American civilian personnel, were sold to five local individuals and to a local company which took the greater portion of them.

SATURDAY SERMON

MARY'S WAY, OR JUDAS?

By REV. T. B. WETMORE, Pastor, First Baptist Church

"Matt. 26. 7-8.—There came unto Him a woman having an alabaster box of very precious ointment and poured it on His head as he sat at meat. And when His disciples saw it they had indignation, saying to what purpose is this waste, this could have been sold for much and given to the poor."

Such was the scene in the lives of those gathered around Christ in the past. Some responded to Heaven-born impulses, to glorify Christ and, in trying to do so, they themselves received undying glory, some denied to be in turn denied.

Some were ruled by the spirit, and some ruled by the flesh, some to win and some to fail.

The background of this story

Hotel Menus May Be Simple Again

REGINA, Q.—Some of those fancy names on hotel menus are going to be simplified if Ernest J. Eetli, catering supervisor of the Canadian Pacific Railway, has his way. But he adds quickly it won't be practical or even possible to eliminate them entirely because the language of food is a world-wide language. Potage Parmentier might quite well become just plain potato soup on menus of the future while Giget D'Agneau Bretonne—leg of lamb with baked beans—may become just Leg of Lamb Breton Style and Getes De Oeu Rcties may be just plain Roast Prime Ribs of Beef. However, he said, many of the high-sounding names would be too lengthy for menus in Anglicized form. And besides, what of the European tourist who won't be familiar with the Anglicized form. Something he will recognize will have to be left on the menus.

is the death of Lazarus. There was only One that ever changed the course of death. But He had come too late. Lazarus was dead and buried four days and the tomb sealed with a great stone. The Lord came and did something greater than stop death. He undid all that death had done, a forecast for those who take Jesus as their Savior and Lord. That in like manner will He do for all who have loved and lost awhile.

Oh that cold, defiant grave in Bethany! Jesus stood, He wept, He prayed, He spoke. And wherever Lazarus was, however far dissolution had advanced in the mortal body, however strong the power that holds those who have passed hence, all such was not beyond the sound and sway of that voice which said "Lazarus Come Forth." The same that one day will call again "And all that are in the grave shall hear His Voice and shall come forth."

It was great revelations like these that filled Mary's heart as they met that day in the house of Simon, the leper, who had been healed and Lazarus there brought back from the dead. As her own soul rejoiced in such a Savior, Mary realized that nothing could equal what Jesus meant to all mankind. What was anything in comparison and, looking on all the evidence of Christ's, available for all mankind and He right there one of the number.

Mary let her heart speak. She let conviction live. And we have passed down to us this bit of a heart's response to Christ that makes a real union with Him possible.

Using this story as a comparison. Notice what Christ plans to mean to us and what our attitude toward Him should be. It is His best and all as we give Him our best and all.

Uncalculating response to Christ was Mary's attitude as great heavenly impulses swept her soul.

This is the way every soul finds Christ. The sailor does not wait for the wind to blow from a certain quarter. He launches his boat and lets sail to the breeze that blows. It's the set of the sail, not the course of the gale that determines the way we go. "So is every one born of the Spirit" and "Born again."

This act of Mary's was not needed by Christ as much as it was needed to be done by Mary. Mary and all of us need to let our souls respond in a similar way.

If Mary had acted on the advice of others how different her future would have been? The world would not have her inspiring example of the way to fellowship with Christ.

Mary would never have gained that higher spiritual life into which she had just entered.

The ointment would have been idle, or put to a meager use. Jesus would go and that opportunity pass. I think she would despise the treasure when she would remember the use it might have been put to.

So it is with us all—convictions not followed die; impulses suppressed do not rise so high again. Love unexpressed perishes.

How much we need to answer when He calls!

A HOUSEWIFE.

A young man said to Jesus, "Lord I will follow you. But first let me go to bury my father." Jesus said, "No, follow me first. Because, if you start putting anything first before Me, you will keep on always finding something more that you want to do first and no man ever follows Christ unless he puts Christ first. Such is our peculiar construction Christ knows us, takes the only way that is left whereby we may be with Him.

Notice the reverse attitude and where it leads! The unconstrained, the criticizing, accusing Judas. Jesus had appealed to this man but all the time His Lord became less and less and his selfish heart more and more.

At first Judas trying to cover up his inner life by pretending he was anxious for the poor. Later at the Last Supper he was told of his evil and he went out unchanged.

Again in the garden, as he came to betray his Lord, Jesus said: "Friend, why have you come?" still holding such a one in the circle of His friends—and even this failed.

I have Mary who answered the appealing call of Christ and Judas who began refusing and unconstrained moved in the opposite way. How far apart they are at the last.

How small decisions with Christ lead to tremendous conclusions. It is finally Mary's way as with the precious ointment, or the Judas way—with the thirty pieces of silver.

If life and our best is dedicated to Christ, He will invest that life as we never could. I will associate this gift of Mary's with the body that will defeat sin and death. Jesus said He would give this act a place in the world-wide gospel and more I will give her Myself—all this Judas missed.

Letters to the Editor

DEPLORABLE CONDITIONS EVENTIDE HOME; APPEAL IS MADE FOR ACTION

Editor, Daily News:
This is a letter to bring to the attention of the general public of this city of the conditions that prevail in the Old Men's or Eventide Home.

This Local Union of the United Association Plumbers and Steamfitters has for some time past been

STARTS WORK IN JUST 2 SECONDS

ASPIRIN

RELIEVES ACES AND PAINS OF COLDS

GENUINE ASPIRIN IS MARKED THIS WAY

deeply interested in the welfare of these aged and ailing men and we appointed a committee to investigate.

We would like to draw your attention some of the highlights as they were presented to our members on Friday night. They found seven beds in a room 20 by 24 feet, with four windows, occupied by seven old men. In other room of 8 by 10 feet there are three beds. One other room of about the same size is used as a sitting room in which was

a chesterfield and 'one easy chair.
The outlook from these rooms is most depressing! One side overlooks an old chicken house, the other overlooks who seems to be a dumping ground for any surplus garbage. One old chap, who is confined to his bed, told our committee that there was only one place ahead of him and that was Fairview, and that he prefers that at any time instead of living any longer under the present conditions.

A writer in the daily press said on Thursday: "So many of our retiring citizens leave the city. Why? Is it because they take one look at the cemetery and get heart failure? And can you blame them?"

Now, sir, imagine what the thoughts of this poor old man are when he would prefer to go to that floating city of the dead than still live for his allotted time in this beautiful northern country.

We were also informed that when one of these men dies, the other occupants of the room must eat their breakfast beside the body of their dead comrade. They usually die during the night and, until the undertaker arrives to pick up the remains, they must share the same room. What a cheerful situation! And we have the audacity to call ourselves Christians. Or, at least, we claim this is a Christian country and we are content to sit back snugly in our comfortable homes. There is something rotten somewhere.

Of course, we know there is a fund to provide a HOME for these people. We dug in the same as the best of decent people to help provide it. What we would like to know is when are these people going to get this home? Or do we intend this batch to die in that hovel?

Now, sir, we as working men do not wish to criticize without doing our share and we have given the sum of \$200 to our committee to furnish some of the most essential things that will help to bring some degree of comfort to these senior residents in their hour of need. NOW.

We are wondering if the merchants of this city will co-operate with us by selling these things at cost which would stretch our money considerably.

Why, oh why, are we content to sit back and enjoy to the full all the benefits of a bountiful Creator and not be concerned about these things? Surely it is more blessed to give than to receive!

For the caretakers, we have the greatest praise in the way they are carrying on in a very difficult task.

What Prince Rupert wants is, first of all, to realize to the full her duty to ALL of the citizens, especially those who cannot help themselves.

We have the Civic Centre, which is an excellent thing and can be of great service to old and young alike, but surely it is our duty to think of these others who in all probability

pioneered in their country to help make it what it is today.

There is no need to pauperize any one in this fair Canada of ours. There is plenty here for all if we will just put out the helping hand to the other fellow once in a while.

It is said that comparisons are odious but sometimes it pays and brings out the truth. Within a stone's throw of this hovel and so-called home can be found some of our finest homes, filled to overflowing with every material comfort. Yet for these helpless people we see the very opposite.

Death is surely the great leveler. Please remember, you can't take it with you when you are planted out yonder in Fairview. Therefore, let us be wise and redeem the days that are left to us.

One man remarked in my hearing: "Why bother with a dying man. Give each one \$5 and forget it!"

God will surely repay the same man for that kind of talk someday.

The chairman of our committee is J. G. Patrick, who will be furnished with the proper credentials from this local union if he or his committee should wish to make any purchases. We ask for your co-operation.

GEO. S. WEATHERLY,
Secretary.

Local 180,
U.A. Plumbers and Steamfitters.

DISTRIBUTING NYLONS

Editor, Daily News,—

I would like to say a few words in connection with the distribution of nylon hosiery for the benefit of not only myself but also for those who cannot shop every day.

Everyone should have a fair chance of one pair and this present card system is wholly inadequate.

Regardless of the fact that cards are issued, even at unspecified times, no record is kept of the purchaser. There are those who at present have six or seven pairs while others have found it impossible to even buy one pair of service weight hose without a card.

If all the distributors were to employ the far more satisfying method of writing down names and having them checked off by numbers, as and when the purchases are made, this, I believe, might help to eliminate hoarding.

A HOUSEWIFE.

GIGANTIC AUCTION SALE MARCH 28 and 29

CONTINUING UNTIL ALL GOODS ARE SOLD
2:30 p.m. to 5:30 p.m. — 7 p.m. to 9 p.m.

NORTHERN GATEWAY

(By ALEXANDER McEWAN)

I ain't no Bobby Service and I ain't no Rudyard K. But some things I'd like to mention in my own benighted way. The interests of those to come in the memory of those gone, you're not punching nearly hard enough, don't seem to know your worth.

Took a foreign power from the land of Uncle Sam To show Canadian people they didn't even know their land. In the interests of those to come in the memory of those gone, we've got to show Canadians the Pacific set-up is wrong.

You proved your worth in time of war, now no one gives a hoot. The war is won, you're smugly set aside like an old boot. There's an Empire in the Northland, how rich God only knows. But they're lacking the facilities, these people of the Snows.

War or peace this port of ours could well mean our salvation. We've got to be road-minded if we're going to be a nation. Let's get in a-punching, don't let the Northland down, let's make Prince Rupert a seaport, not just a fishing town.

so he SAYS... but how can you be sure?

Don't think for a minute every asphalt roof you see is a Duroid roof, just because the trade-name "Duroid" is so well-known.

That is not so. There is only ONE Genuine Duroid roof, and it's made exclusively by Sidney Roofing. Only the highest quality rag-felt goes into Genuine Duroid roofs... that's why Duroid roofs will greatly outlast any other type of asphalt roof.

Don't be satisfied with any roof other than a Genuine Duroid roof... accept no substitute. Look for the Sidney Seal of Quality on every bundle.

DIGESTED BALANCE

BARNSTAPLE, Eng. — A little girl handed over 10 shillings (\$240) worth of savings stamps and asked for a 15-shilling savings certificate. The five shillings balance, she explained, had been eaten by her pet rabbit which she offered unsuccessfully to the authorities.

HOW CAN I ???

By ANNE ASHLEY

Q. How can I toughen new china and glassware?

A. Place it in cold water and slowly bring to a boil. Allow it to boil for three or four hours, and then let it stand until cool. If this is done, hot water will never crack it.

Q. How can I soften butter when desired for spreading on bread?

A. Add a few drops of hot water or hot milk and work in until the butter is soft. By using this method the butter is smoother than it is after melting.

Q. How can I give a better appearance to grass rugs?

A. Worn grass rugs will be renovated if they are given a coat of orange shellac.

WHAT'S DOING AT PRINCE RUPERT RECREATION COUNCIL GYMS
BY JIM NAST

CIVIC CENTRE PROGRAM—A tentative activity program has been drawn up for the Civic Centre and it will be enlarged and altered during the next few

days. A definite part of the schedule includes classes for junior boys and junior girls to be held in the afternoon from 4 p.m. to 5 p.m. Junior girls will meet on Monday and Thursday afternoons and junior boys will meet on Tuesday and Friday afternoons.

A full program of evening activities has not been definitely outlined as yet but will be within the next few days. However, on the coming Monday night the intermediate boys' class will be held from 7 to 8:30 p.m. Following this class there will be an informal evening of volleyball for men over 17 years.

TEEN AGE PLANS—The Civic Centre staff has outlined the possibilities of organized Teen Age activities and the rooms that would be available for their use. The responsibilities and privileges of intermediate members were enumerated. Following this, the teen age representatives (Vickie Meuffels, Frank James, Don Hartwig and Rupert Holkestad) then stated their ideas on the organization and operation of a teen club. It was pointed out that the membership in such a club should include all teen agers in town and not be restricted to students only. Until a permanent teen club is formed, it was decided to equip and maintain the common lounge of the Civic Centre as a teen age games and club room. The representatives showed a fine spirit of co-operation and it is felt that a good start was made towards well organized teen activities.

ORCHIDS—A former judge of gymnastics at the Olympic Games of 1908 paid us a very fine compliment last evening. "I wish to congratulate the leaders of Rup-Rec for the marvellous performance they gave on the parallel bars," he stated. Coming from this well known resident of Prince Rupert, who was for many years president of the Scottish Gymnastic Association, this is a fine tribute indeed.

MEMORIAL FUND BENEFITS BY LOCAL PICTURES

Colored movies of local and Queen Charlotte Islands scenes and of the fishing industry drew a capacity crowd to the I.O.D.E. Hall last night. The display was sponsored by Hill 60 Chapter, I.O.D.E., and proceeds of the silver collection will be used for the I.O.D.E. National War Memorial Drive which has an objective of educating the children of casualties of World War II.

The audience entered eagerly into the spirit of a community singing period which was led by J. A. Teng during an intermission between the films.

The first film shown by George Peters depicted colorful local scenery and sport fishing in coastal waters. It was followed by films by Barney Elyofson of local and Queen Charlotte Islands scenes, and striking pictures of the halibut and salmon trolling fisheries, taken from boats on the fishing grounds. Chairman of the meeting was Lloyd Morris.

VITAMIN BOOST

The juice of two lemons in hot or cold water, the first thing after rising, is a good vitamin boost.

SENIOR HIGH SCHOOL DANCE

Happy Affair at Knights Of Columbus Hall

Knights of Columbus Hall was the scene of a happy dancing party last night by Senior High School pupils, the affair being sponsored by Grade XII. Music was provided by Andy McNaughton, and John Kennedy, class president, was master of ceremonies.

A brief entertainment program included vocal trio by the Misses Vickie Meuffels, Lorraine Youngman and Joanne Langridge, and solos by Mrs. Oakes. Refreshments were served.

Special guests included Mr. and Mrs. W. W. C. O'Neill and Mr. and Mrs. James Clark. Peter Good and Eddie Ciccone were at the door.

LEAGUE BASKETBALL GETS FUTURE PERMANENT VENUE AT CIVIC CENTRE

Arrangements which should assure for a more stable and brighter basketball future in Prince Rupert were made when basketball players, managers and coaches got together at the Civic Centre last night and decided to commence league activities in the gymnasium there on March 30 with a surprise novelty game to be held on March 27.

Time on the gym calendar was allocated to the Basketball Association for practices and games and plans were laid for future basketball league games.

The responsibility and control of basketball will rest solely in the hands of the Basketball Association. Time for basketball practices will be allotted by the association, through the secretary, Bud Timmermeister, and team practices will be arranged through these channels.

For the remainder of the season, league games will be held on Tuesday and Saturday evenings in the Civic Centre gym.

Present at the meeting were Don Fitch, William Noble, Alex Bill, S. P. Woodside, Bud Timmermeister, Walter Johnston, Mel Holkestad, Nick Pavlikis, Nick Hogan, Herb Morgan, Ed Gladding and Wally London. Don Forward and George McGregor of the Civic Centre staff were also at the meeting.

COLOR LINE STOPS GAME

Montreal-Jersey City Game Called After Negroes Banned

JACKSONVILLE—The controversy over the participation of two Negro ball players for Montreal Royals in their exhibition game against Jersey City in Jacksonville, Florida, has resulted in cancellation of the contest.

The controversy developed after it was disclosed that the regulations of the Jacksonville playground and recreation board prohibit white and Negro athletes from playing together on their facilities. The players are Jackie Robinson and John Wright.

CAUSE OF STAGGER

Ducks waddle because their legs are placed so far back on their bodies.

Today in Sports

SHORT SPORT

The bantamweight champion of the world, Manuel Ortiz, says he will soon retire from boxing. Ortiz announced his intentions yesterday while resting at his El Centro, California, ranch, following his 15-round draw Tuesday night with the California featherweight champion, Carlos Chavez.

The promoter of America's richest golf tournament is willing to back Byron Nelson with a \$50,000 bet against Dick Burton or Dais Rees of Britain. The offer came from George S. May, who promotes the \$45,000 Tam O'Shanter tourney. In announcing his offer May grinned and said: "I have quite an interest in Nelson. I have paid him \$41,000 in prize money."

After this month no amateur golfer in Canada may participate in any competition in which bonds, war savings certificates or stamps are offered as prizes. This ruling has been reached by the Royal Canadian Golf Association and the Canadian Ladies' Golf Union. The action cancels a wartime concession which allowed such prizes to be accepted. Any infraction of the new rule will result in the loss of the player's amateur standing.

The regulations of the Jacksonville, Florida, playground board will prevent Montreal Royals' Negro second baseman,

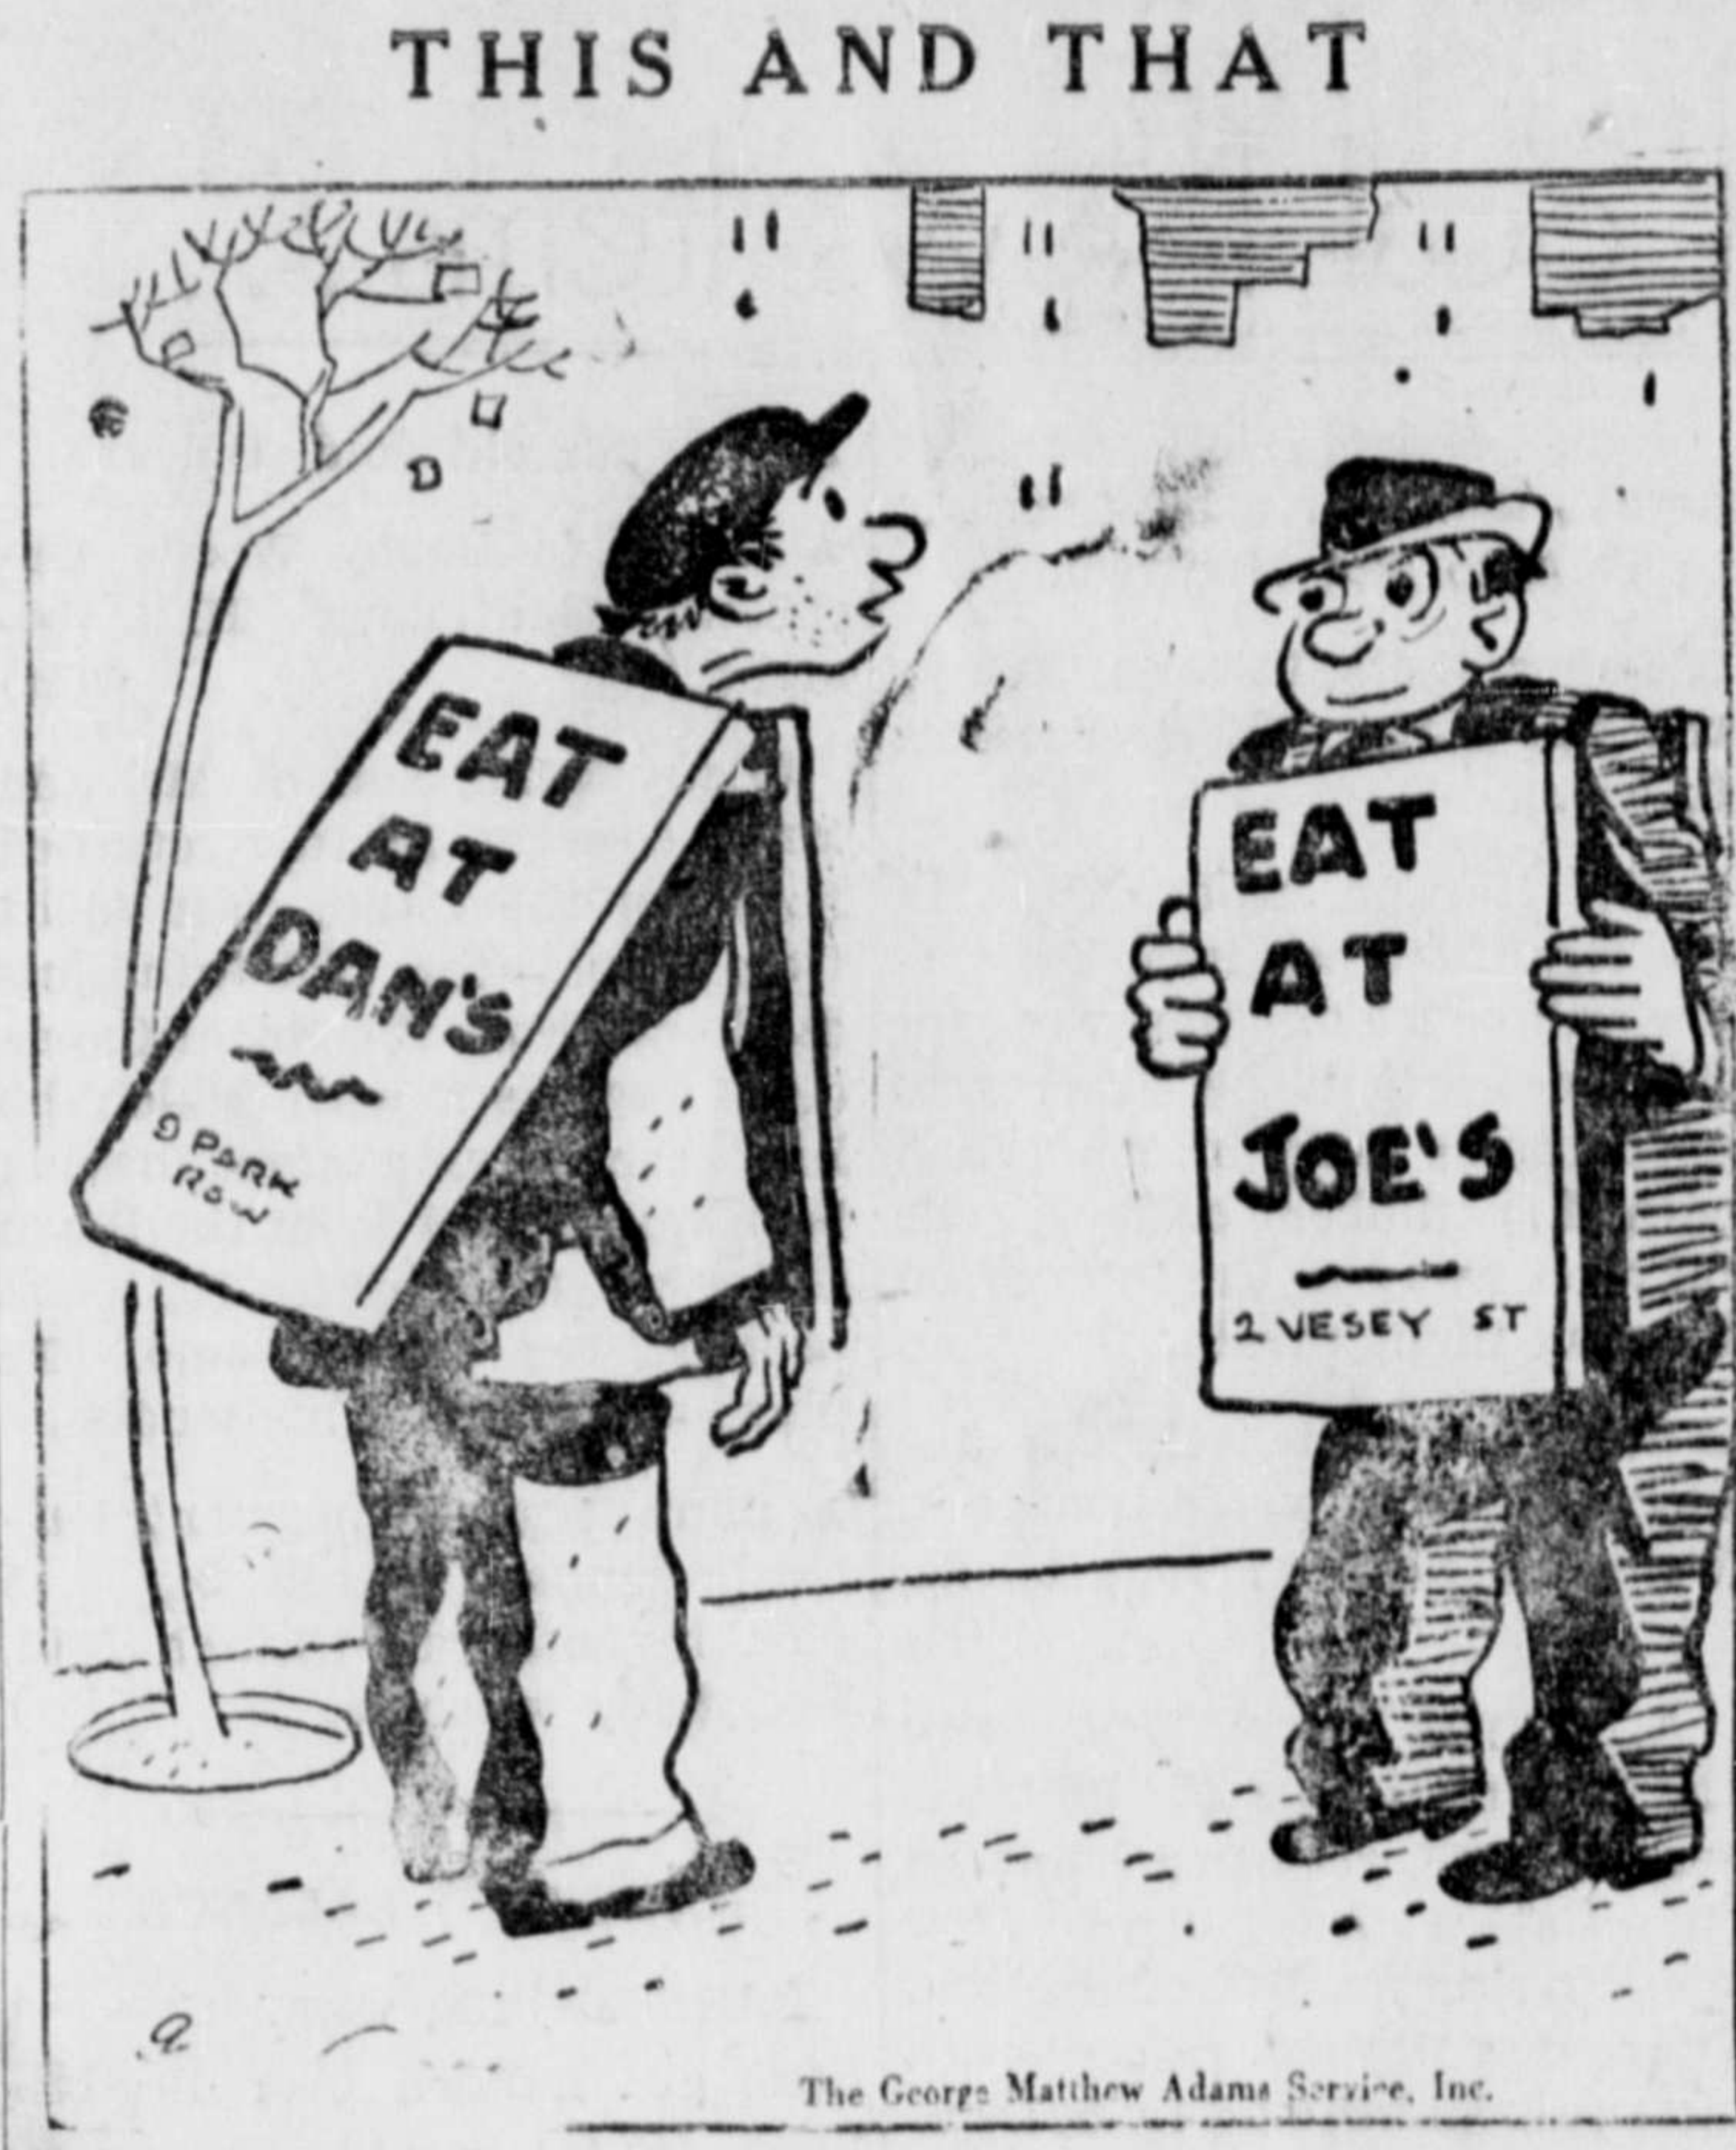

TIPPY LARKIN GETS DECISION

NEW YORK—Tippy Larkin of Garfield, New Jersey, last night gave Nick Moran of Mexico City a boxing lesson in their bout at Madison Square Garden in New York. Tippy out-punched and out-boxed the Mexican to take a ten-round decision. He piled up an early lead which was enough to give him the nod despite several spirited rally attempts by the Mexican fighter.

There were 10,000 fans on hand for the hard-hitting bout.

Jackie Robinson, from playing in the Royals' exhibition game in Jacksonville on Sunday. The Royals are scheduled to meet Jersey City. George Robinson, executive secretary of the board, said: "The rules, regulations and policies of the Jacksonville Playground and Recreation Board prohibit mixed contestants in athletic events on their facilities. This means that white and negro athletes cannot play together." The official added the regulations had been in effect for years.

The Mexican Baseball League opened its season Thursday and a crowd of 33,000 fans somehow got into Mexico City's Delta Park, which seats 23,000. A former New York Giants' luminary, Danny Gardella, slammed a two-run homer to lead the Vera Cruz Blues to a 12-5 win over the Mexico City Reds. Luis Olmo, formerly of the Brooklyn Dodgers, hit a four-bagger for the losers.

GOOD SEASON FOR TERRACE

Sawmilling to Be Active and Farmers Will Be Getting An Early Start

Terrace district is looking forward to a good year in 1946 both in timbering and farming, according to George Little, who has been spending a few days in the city. He arrived on Thursday night's train and will return to Terrace Monday night.

There is still a very active market for cut lumber and timber products, says Mr. Little.

On the land there should be an early start on spring work as snow around Terrace is all gone

FOLDING PROTECTION

Plastic rainwear weighing only about six or eight ounces is foldable into a size that can be carried in a pocketbook.

Mr. Little, who returned to Terrace recently after spending a few months visiting at San Diego, California, with a brother-in-law, Frank Lazelle, formerly of Terrace, and at Glendale with a brother, expects to leave Terrace in about two weeks for Yellowknife, N.W.T.

now and there is no frost in the ground. In Terrace town some garden digging has already started.

FULL OF FUN
The porpoise and the panda are most playful animals.

Showy Flowers—

A really wonderful showing can be made with half a dozen annual flowers. Cosmos, marigolds, zinnias, petunias, portulaca, nicotina, spider plant, calendula, alyssum, stocks, etc., are easily grown almost anywhere in Canada. Some of the larger flowers can be used in the place of shrubs. Seeds should be started early and in finely prepared soil. Plants are transplanted to permanent quarters when they are well established with several sets of leaves. Ready started bedding plants can be bought from the seed store or greenhouse man. For husky growth, tall things like cosmos, gladioli, dahlias, giant marigolds and zinnias should have about two feet each way—petunias and similar things need about a foot.

shrubbery is planted in irregular clumps around, but not too close to, the house, with biggest groupings at the corners and around the front porch. Variety may be added by the odd climbing vine.

Improving Soil—While a natural, rich, open loam makes the best garden soil it is possible to make practically any type suitable. With both clay and sand cultivation, plus the incorporation of rotted vegetable matter will work wonders. One of the best treatments of course, is plenty of barnyard manure, but this is not always available and especially so in urban locations. Good substitutes are vegetable refuse like tops of beets, carrots, pea pods, lawn clippings, etc., or specially sown green oats, rye or clover dug or plowed under. With clay this opens up the soil and makes it more easily workable, less inclined to bake. With sandy ground, the manure or vegetable material adds strength and helps it retain moisture.

Early, Medium and Late—Most Canadian vegetables divide themselves into three main planting groups. In the first are the hardy sorts. These are planted just as soon as the soil can be prepared regardless of the weather ahead. They will stand a little frost, and for best results they must make their first growth while the weather is still cool and wet. In this class are peas, the first onions, carrots and beets, radish, spinach and lettuce. Make the first planting just as soon as the soil has worked up nicely and is no longer muddy. Experienced gardeners, however, don't stop with one seedling. They make a practice of sowing beets, radish, spinach, beets, etc., at least three times, about two weeks apart. Next there are the semi-hardy things like potatoes, the first corn, beans and cabbage. These will stand cool weather but very little frost. At the end of the line are very tender plants that can stand no frost at all such as melons, cucumbers, tomatoes, pumpkins. There is no object in planting these until both soil and air are warm.

General Layouts—An informal layout of flower gardens, lawn and shrubbery about the home almost always gives the best results. The formal garden where there are straight rows, straight paths and everything is just so is a matter for professionals and large estates. With the average lot in town or country there are too many straight lines in any case like driveways, foundation walls and fences. The main idea in gardening is to break these and soften them. To do this

Local Ford Dealer Happy Over The Finest New Car in 14 Years

Happiest man in Prince Rupert today was Stan Parker, in whose showroom on Third Avenue the new 1946 Ford car went on display for the first time this morning.

"There's no doubt about it," enthused Mr. Parker, "compared with their immediate predecessors these cars pack more style, engine and chassis improvements than we've seen in any model year since they first introduced the V-8's back in 1932."

Examination of both the De Luxe and Super De Luxe lines shows two classifications under which these first new Ford cars of the war are being manufactured—reveals 20 important improvements have been made in their V-8 power plants alone," Mr. Parker.

In addition, new ride controls are featured, including a rear air stabilizer which results in greater steadiness and steering ease, especially on curves.

Pointed also to sweeping changes in body styling and interior appointments.

"You get a sense of greater overall body length and width from the bolder styling element which begins with the new front bumper, full-width three-bar grille, and new 'mental nameplate,'" said Mr. Parker. "Fender and hood styling strips heighten this impression."

The De Luxe and Super De Luxe lines are mounted on 114-wheelbase chassis and both powered by the improved 90-horsepower motor. The De Luxe is manufactured in Tudor and Coupe models with the more extensive Super De Luxe line includes, besides the new three, a Sedan Coupe, Convertible Coupe and a Station Wagon.

Chassis refinements common to both De Luxe and Super De Luxe include multi-leaf springs, thinner, more numerous leaf providing not only a smoother ride but also a level clearance under full passenger load. A shortened main leaf adds the element of maximum spring life. Another feature of the springing is the in-

roduction of synthetic rubber spring shackles, which are oil resistant and have greater longevity.

Quiet, self-centering hydraulic brakes will require less frequent adjustment but when such becomes necessary, the adjustment operation has been simplified by new design.

A flexible radiator mounting in a new support yoke, which in turn is flexibly mounted to a special cross-member, relieves the radiator of all strains.

Many Fine New Features Seen

Experience gained through the production of over 400,000 military vehicles, utilized in every theatre of the war, has resulted in many of the new features of the V-8 power plant installed in these first new peacetime Fords. Carburetion, for instance, has been refined and balanced with a view to greater economy and efficiency; new four-ring aluminum pistons and a rear main bearing oil seal are economy features while longer engine life is promised by such provisions as a new oil bath type carburetor air cleaner, oil bath type engine breather cap, a new oil filter of the replaceable cartridge type and a 30 per cent larger oil pump which improves lubrication by the development of 50 per cent greater pressure.

Mr. Parker explained the presence of new locked-in connecting rod liners, shot-blasted and rust-proofed valve springs and a new generator rear bearing which replaces the customary bronze bushing, as other improvements made with a view to greater durability.

Also developed under battle conditions and now introduced for the first time in the new peacetime V-8 engines are centrifuge type sediment traps at each crank-pin—especially valuable during the initial running-in period of the engine.

Another eye-catcher for the motorist who looks under the hood before buying is the calibrated pressure-valve radiator cap, designed to permit higher engine operating temperatures without loss of coolant. Part and parcel of the cooling system is

STUDY OF WILD LIFE

Manitoba Issues New Booklet Describing Game Birds and Animals

WINNIPEG — Along the waterfowl flyways of the American continent millions of game birds fly each year to breeding grounds in northern Canada, making it a paradise for naturalists and hunters.

Great flocks of ducks and geese come from the south following the central, Mississippi and Atlantic flyways to the breeding grounds. The paths lead directly through Manitoba.

Sportsmen, conservationists and students of natural history all have displayed interest in the game birds and animals here and to supply them with data the Travel and Publicity Bureau of the Manitoba Department of Mines and Resources has published a 47-page, color-plated booklet. It is titled "Game Birds and Animals of Manitoba."

Illustrated in natural colors, it carries descriptions of the famed Canada goose, the aristocrat of the migratory bird world; the brilliant plumaged wood duck, pheasant and mallard, the teal and canvas-back, a table delicacy.

The forest regions of Manitoba provide big game hunting, and the booklet gives detailed descriptions of moose, white-tailed deer, mule deer, elk, barren grounds caribou, and woodland caribou.

The foreword to the booklet is by Resources Minister J. S. McDiarmid who explains there has been a marked increase in the study of wild life in the last two decades.

"Our young citizens who will be tomorrow's sportsmen, natural scientists and conservationists may find in this book an introduction to the fascinating world of wild life that awaits their exploration," he says.

"Stressing the need for conservation, he added:

"If, in indicating the extent of our game resources it also plants firmly in the reader's mind the resolve that these resources must not be wantonly destroyed, that on the contrary, they must be protected, maintained and wisely used, it will have made a significant contribution to the life of the province."

WASTE LAND

Nearly half of the world's land area is largely uninhabitable because of deserts, mountains, ice or tundra.

The new high-efficiency fan with wider blades which have been relocated and re-pitched while the cylinder head gaskets have water holes calibrated to produce uniform temperature throughout the engine block.

Cylinder heads now are interchangeable—a feature which appeals to the mechanic, while another new feature is the installation of an aluminum timing gear.

Such improvements are all in addition to the many Ford features tried and proved to the public's liking on previous Ford models.

WHAT Prince Rupert Needs

(Being one of a series of suggestions by readers of the Daily News for the betterment of this city).

"Prince Rupert? Where is Prince Rupert?" or "Oh, yes, I've heard of that place. You go around in rowboats instead of automobiles" or "Isn't it too bad you are frozen in up there for nine months out of every year? And tell me, do you get along well with the Eskimos?" These are only a few of the comments and questions you hear when you go outside the boundaries of British Columbia. We are unknown a few miles from our own city. What Prince Rupert needs first of all is publicity. We must put ourselves on the map. Secondly, we need the kind consideration of the provincial government. When any prizes are handed out we in Prince Rupert find ourselves left out while larger cities come in for the lion's share. There is much talk at present of "good neighbor" policies and relationships between various countries but it might be a good idea to start right at home and establish a good neighbor policy with our friends and neighbors to the south. See if we can't get them to stop knocking our weather for a start. It isn't any worse than any other place but we have the name for being a web-footed population and somehow, no matter where you go, that untruth persists.

Now, in order to put ourselves on the map, we must attract visitors from the outside. Our highway is the link and, at present, not a very sound one. Repair and maintenance of the road must be a first consideration. Once the visitor comes here, Prince Rupert will speak for itself. We have any number of attractions and possibilities of more. Our Salt Lakes could be made into a summer resort. A little capital would set up a camp, on the same lines as, say, Jasper Park, but on a smaller scale. A ferry service could be operated between here and the mainland for the transportation of passengers and freight. We have a group of young people hard at work just now, rousing interest in skiing on the mountains at the back of our city. They are on the right track and, with financial assistance and moral support, they should go far to make their dreams a reality.

We have done our utmost in past years to attract industries to Prince Rupert. We have the natural resources that lend to the development of factories, pulp and paper mills and other similar industries. However, with the exception of the Prince Rupert Dry Dock and Shipyard, which was an industrial paradise during the war years, we have failed to interest sufficient outside capital to make our city an industrial centre. Let us forget about the larger businesses and concentrate on smaller ones—any number of which have been mentioned in former articles in the "What Prince Rupert Needs" Contest. It just needs a beginning. Small businesses need young men and women to operate them. What attractions have we here for young people? Any person with capital to invest likes to have assurance that the city they are settling in is one with a future. There is no future for any town or city if the young people leave for greener pastures.

"All work and no play" is a fine slogan but not a practical one. Social activities play an important part in any city. Community life is important. There has been talk for years of a swimming pool for Prince Rupert. So far, it has only been talk. Now is the time to get busy and make it a fact.

Basketball is coming back into its own since the end of the war, and is meeting with approval. Why not try badminton, tennis, bowling on the same lines as the basketball? Invite outside competition! It is a well known fact that any person visiting Prince Rupert leaves with many pleasant memories. The fact that they enjoyed themselves while in our city and found the people friendly does more to make us known than anything I know. The question of the weather doesn't enter into it if there is plenty to occupy their time.

Then, of course, we have our scenic grandeur. We have an ideal setting—a clean town nestled at the foot of towering mountains. Our beautiful harbor is dotted with tiny islands, easily accessible by small boat. Hunting, fishing, hiking, picnics, swimming and skiing are only a few of our outdoor pleasures. Just to stand and watch one of

VARDEN SINGERS CONCERT WAS WELL RECEIVED

A program of secular choral music, rounded off by vocal and instrumental solo works, charmed an audience of 125 who attended the Varden Singers concert in Booth High School Wednesday night. The program was directed by Peter Lien, conductor of the Varden Singers.

The nine numbers presented by the choir were sung partly in Norwegian and partly in English, five being in the Norwegian language. The choir work was well received by the audience, and expressed sympathetic interpretations of the works of Norwegian and English composers.

Mrs. Henry Lindseth, soprano, sang "Whispering" and a Norwegian song which had an enthusiastic audience response. Bernhoff Pedersen, tenor, sang an English translation of a Norwegian song, "I Cherish Thee With Tender Devotion" and "Volga."

So well received was the keyboard mastery of John Frankey that he was called back to the piano a fourth time to play Gunnar Varfeldt's violin renditions of "Solweig's Song" from Greig's "Peer Gynt Suite" and Schubert's "Serenade" were also greatly enjoyed.

Chairman and commentator for the concert was Paul Tarranger.

Waterfront Whiffs

Netmen's Strike Called—New Method of Loading—Alaska Cod Fishing Gets Body Blow

Only a few native netmen on the Skeena River are affected by the strike called by the United Fishermen and Allied Workers' Union (A.F. of L.), the most of the workers on nets having yet to reach jobs in this area. The strike of the netmen was called in support of a demand that the companies and Regional War Labor Board come to an agreement before the men get scattered to the fishing grounds. The union is seeking an increase in wages as well as the establishment of an eight-hour day or 208-hour month.

George Howe, who recently purchased the 50-foot seiner Wales Island No. 7 at Vancouver, is fitting it out for halibut fishing, and is reported also to be planning to go seining after the close of the halibut season.

During the next month, the waterfront will see a considerable increase in activity at halibut men begin to prepare their gear for the season which is scheduled to open May 1.

Mariners are advised that Fog Rocks light, Fisher Channel, is not burning, but will be relighted at the earliest opportunity.

A new method of cargo handling on coastwise ships may be built into a projected vessel for Union Steamships Ltd. The principle is designed for speedier handling of cargo and to reduce handling costs. Instead of being swung out of the ship's hold on portable platforms as at present, cargo, by the new principle, will be hoisted from it by an elevator which will not only rise to the level of the hatch coaming but above it. The elevator, it is understood, will be able to hoist a load of cargo to the level of the wharf, from which a gangway can be connected. Longshoremen then will be able to take it directly off the ship either by hand trucks or mechanical freight handlers. For cargo handling at low tide, the arrangement seems ideal but how it will work at tide levels which bring the ship's side up over the level of the wharf is something that will have to be seen. It is likely that the present sling method will have to be used then.

A surprise move by the American Fish and Wild Life Service which set back the opening date for the American black cod season in inside Alaska waters from March 15 to May 1 is causing Alaska black codders to fish outside the three-mile limit and deliver their catches to Seattle. It is also causing quite a stir in Ketchikan. Protests have been sent to Washington in a volume reminiscent of Prince Rupert's recent Clivic Centre and Highway telegram bombardments. The arguments advanced by the Fish and Wild Life Service that the postponement is a conservation measure are falling on deaf ears in Ketchikan. Said Emil Gregerson, skipper of the black codder Garland: "There is something dirty afoot. I am taking my gear and ice aboard and heading south where I can fish." A second blackcodder, Agne Blendheim of the Alice, announced similar action. Canadian and U.S. continental waters are open to black cod fishing.

Most of the boats in Prince Rupert's halibut fleet lying at their winter berths are being made ready for the opening of the fishing season. In addition to minor hull repairs which have been going on all winter, some major changes have been made in a few of the vessels. Notable among these is the rebuilding of the halibutter Selma H., owned by Jack Strand, which has been lengthened seven feet to a new length of 48 feet. The Anker A., owned by Otto Jerstad, has had a new pilot house installed and the Atli, William Bussey, recently came off the Co-op grid after having a larger wheel installed. She also has a new engine. The Larry H. has been standing on a grid at Cow Bay undergoing minor hull repairs. The Rodney P., owned by Kalen Industries, has been in process for some time of receiving a complete new upper works, which includes a new pilot house and deck. The Louise, E. Skogmo, has been receiving minor hull repairs at Cow Bay. Other vessels, too, have been getting the necessary amount of attention to keep them shipshape for their heavy summer work.

Additions to the fleet this year include the 48-foot Five Princes, built during the winter for Jack Prince at the Cow Bay Boat Works; a 45-footer just completed for Chris Viklin by Edward Wahl of Digby Island, and possibly a 45-foot halibutter for Elmer Anderson, which is now building and may be completed in time for part of the season.

MOVE Y.M.C.A. MEN FROM INDIA

Already One Former Prince Rupert Man Is There

To assist in post-war emergency work with British, American and Indian troops, three Canadians have been appointed to India by the international committee of the Y.M.C.A. They will work under the Indian National Council of the Y.M.C.A.

The three secretaries are Arthur H. Peacock, Oshawa; Lind-

sey B. Bagot, Islington, and Alfred G. Morris, Toronto.

Mr. Peacock joined the Canadian Y.M.C.A. War Services in 1943, and served in Canada before going overseas as a supervisor in 1945. Mr. Bagot has been with the Y.M.C.A. since 1943 and was senior supervisor with the Fourth Canadian Armored Division overseas before returning to Canada. Alfred Morris was connected with the 23rd Canadian Field Regiment, R.C.A. overseas.

Three additional Canadian Y.M.C.A. men, Jack Dunderdale, Robert Gibson (formerly supervisor at Prince Rupert) and Jack Purves are doing Y.M.C.A. War Services work in India.

Ski Scenes Motif For Club Dance

Ski scenes of nearby Mount Blain and cartoons depicting the winter sport were the motif for the Mount Blain Ski Club's dance held in the Oddfellows' Hall last night. More than 130 attended the function, dancing to music by Jean De Carlo's orchestra. Ingver Morse was master of ceremonies and Bob Eby was chairman of the general committee which also included

FORCES CRAFT SHOP MAKES FALSE TEETH

Hobby Interest Roused in R.C.A.F. and Army Overseas

AURICH, Germany — Craft shops in the R.C.A.F. and Canadian Army are rousing interest of men in hobbies which later may become their livelihood and also serving as a centre where the men repair all sorts of personal equipment—boots, false teeth, or cameras.

One of the men responsible for crafts shops in which the occupational forces take their recreation is Y.M.C.A. Crafts Adviser R. D. (Bob) Wallace, former English teacher at Brantford Collegiate in Toronto.

Bob came to Germany early this year after setting up shops at the Canadian Reinforcement Units area in England. First interested in crafts at Taylor Station's camp Ahnek in Algonquin Park, Ontario, in 1938, he has since left a trail of shops at Camp Borden, Petawawa, Kingston, Barriefield and the R.C.A.F. station at Rockcliffe, near Ottawa.

His job is to set up craft shops in old horse-stables, jails, garages or whatever accommodation is available.

He says the shops have filled a great need among service personnel and "many have gone back to civvy street determined to make room in their homes and their lives for a craft which will make their lives happier and themselves better men."

The crafts program in England reached such proportions last year that a central supply depot was set up in Farnborough, Hampshire, to handle the various requirements of 60 shops operating in the Canadian Reinforcement area and serving more than 6,000 men.

Outstanding among articles produced was a model steam engine, produced in the Barriefield shop. Ornamental cedar chests, laminated skis, radio sets, handbags, bows and arrows, ornamental jewelry and beaten copper ash trays are also among the handcraft products.
