PRICE FIVE CENTS

### Record of Achievement Political Progress Choice for the People

#### Have Freedom of Action or State Socialism; Prosperity or Chaotic Experimentation

PRINCE RUPERT, Sept. 14 — "From the day the coalition government at British Columbia was formed to this very hour, we have endeavored, as your servants, to give the kind of government you wanted," Attorney General R. L. Maitland in an address here tonight. "Our policies have been your policies, your policies have been our policies."

to making full contribution to our war effort—planning, maintaining and enforcing our standard in labor legislation — what we could afford to do — saving what we could save and keeping the administration of public works above the selfish interests of any party.

You may well ask: Has this government—less partisan than we have ever had—justified its existence?

Public opinion will write our record and all I hope is that the record will be that we have done our duty during difficult times.

Our task is not easy. I know of no problem of moment which we have not considered and tried to deal with. In more than a hundred and one ways we have co-operated with the Dominion.

We have tried to carry out our orders. We have a constitution in this province that divides governmental responsibility between the Dominion and the province.

When you have a war you have only one head to the north, and in Canada, that head must be the Dominion Government.

The constitution and common sense tell us that in no other way can our war effort be effectively carried on.

The War Measures Act gives the Dominion Government the fullest power to do everything they think necessary to prosecute the war.

"Now let me make this clear—the responsibility of making these orders is theirs—to obey them and help to carry them out."

In this course we have carried ourselves willingly. It is amazing, however, that many people (particularly in this province) have not.

### Hard Hit— Let Up Allied Blows

#### From Skies in Port of Great Invasive by Land

PRINCE RUPERT, Sept. 14 (CP)—The Allied offensive, in support of the land drive which is being the Reich, continued overnight with Royal Air Force mosquitoes blasting with two-ton bombs for the fourth night in a row while other planes flew in support of the land drive into Germany. It was the thirty-first raid on the capital since June 6. Two planes were lost in the Berlin raid.

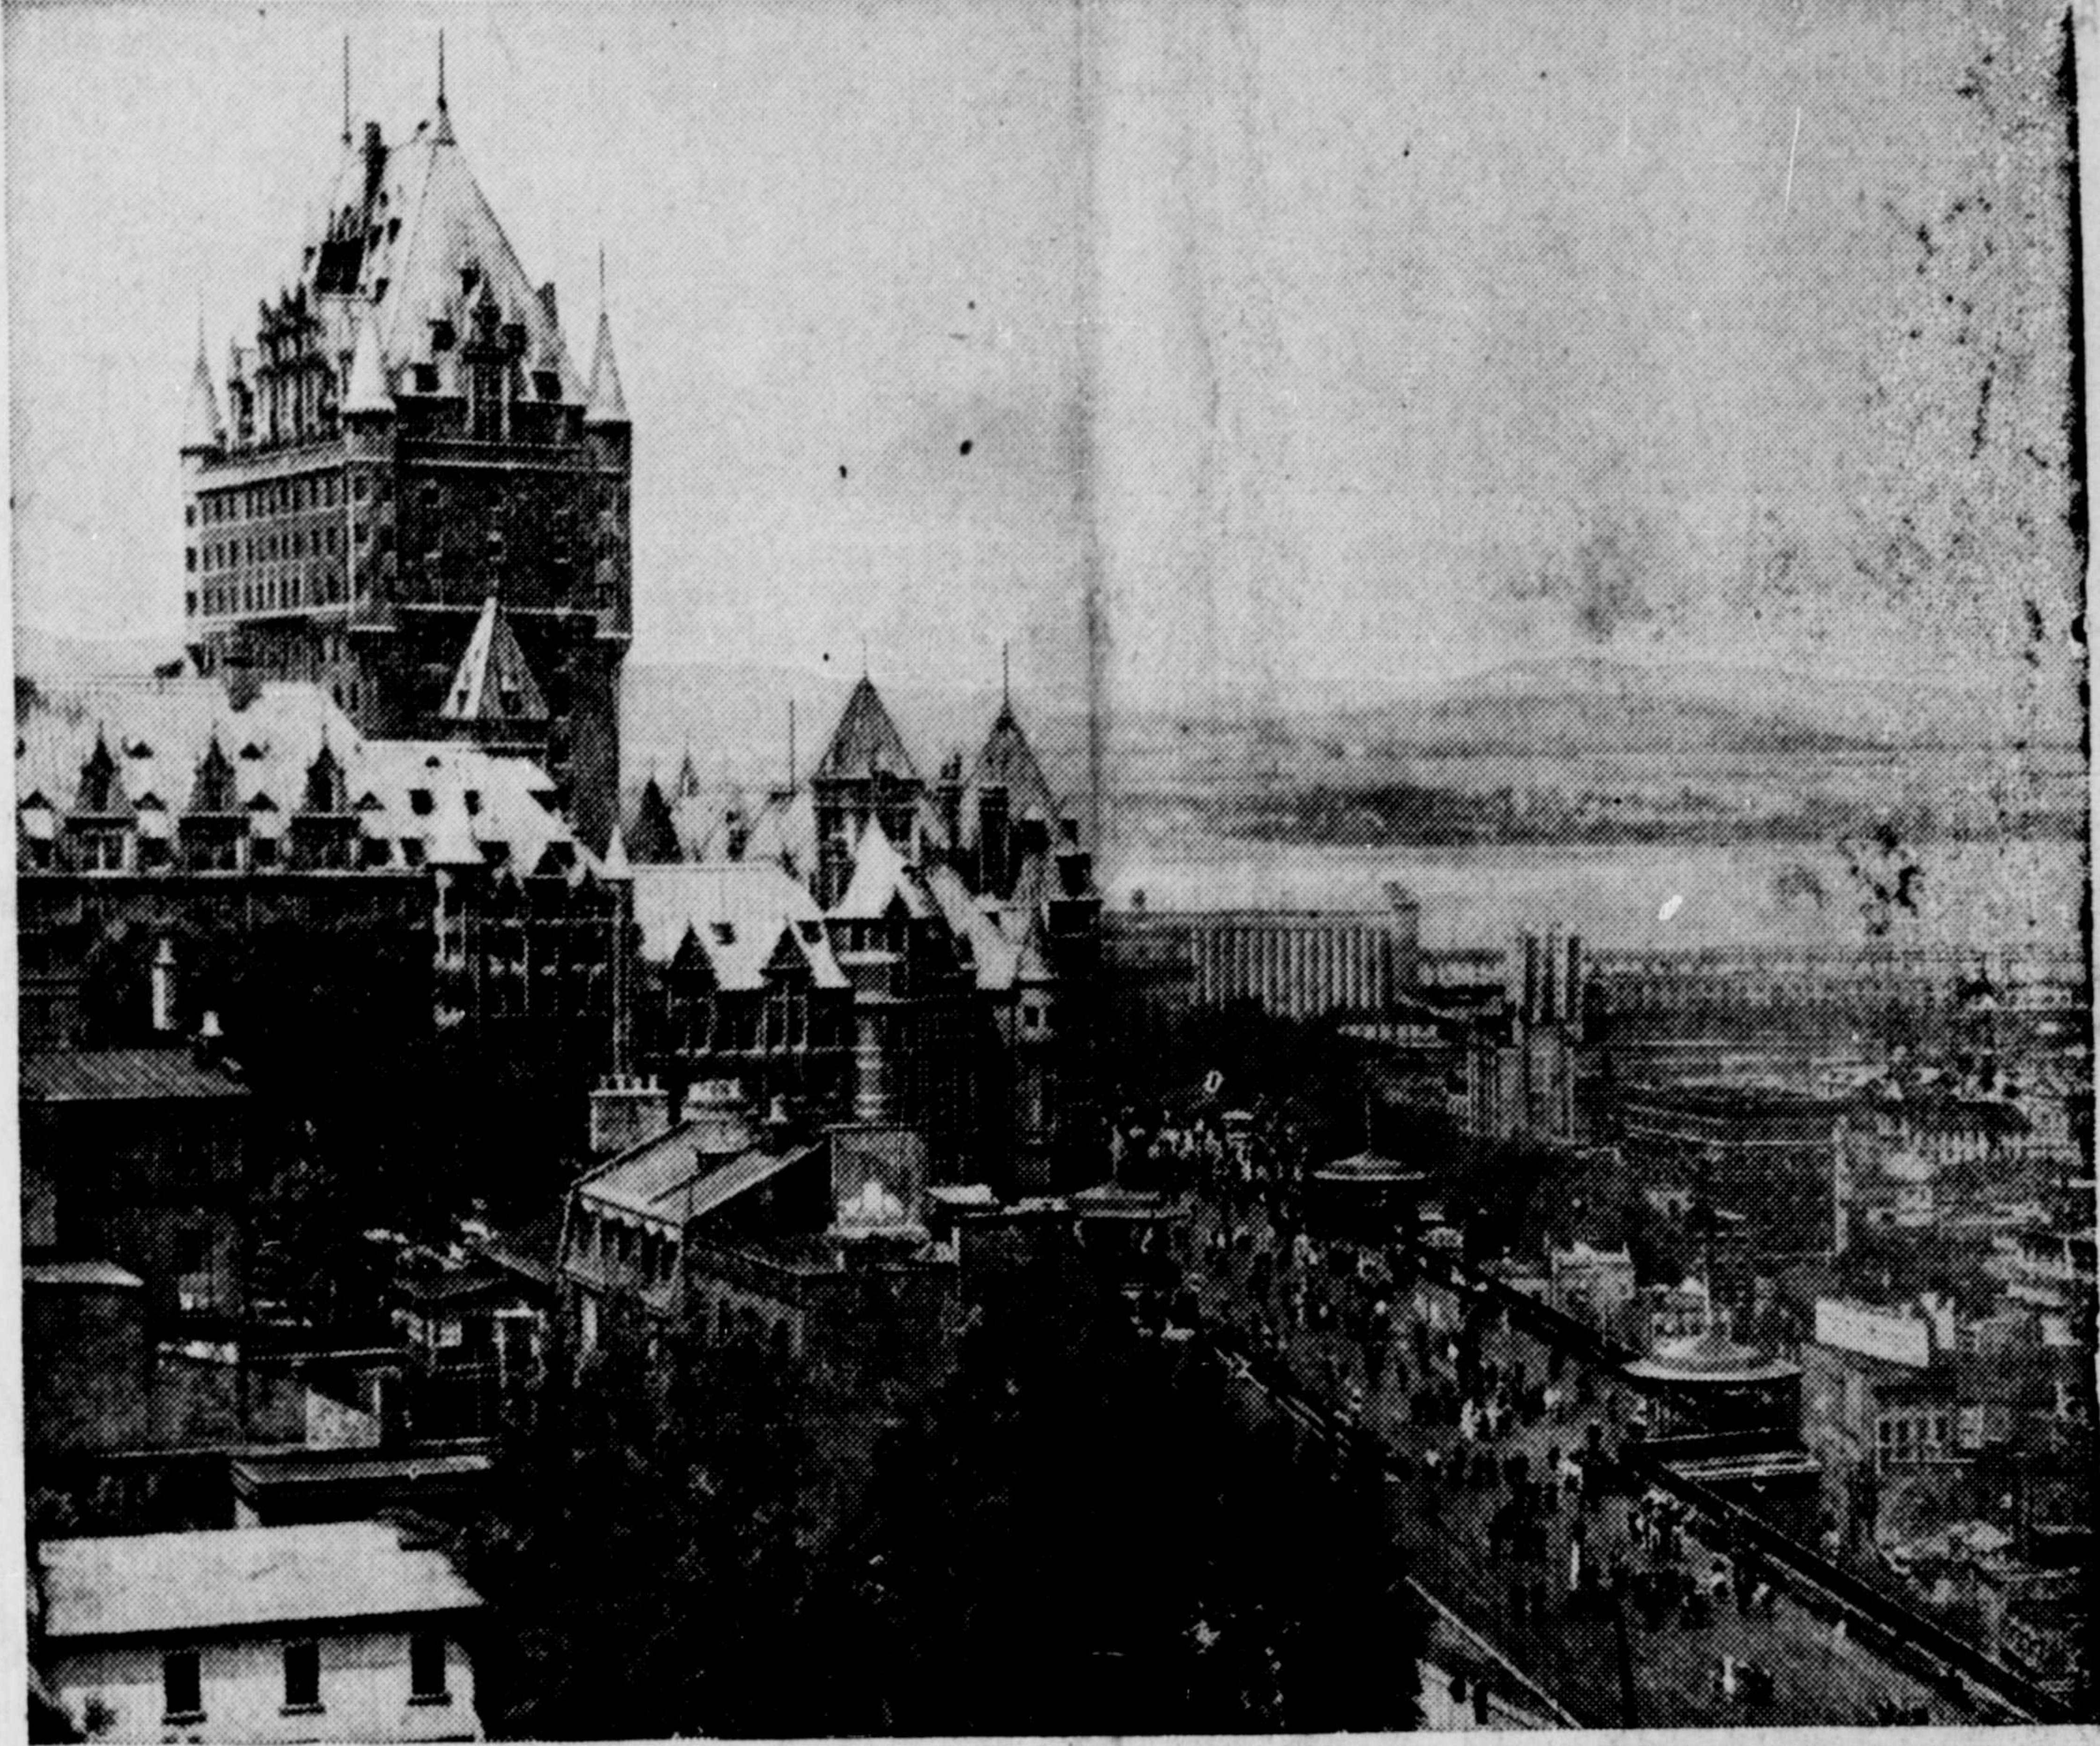

Reports disclosed that aircraft, operating from bases alone, have destroyed at least 347 enemy planes in six days. Allied losses in the period totalled 105 fighters and 25 heavy bombers.

Air Force tactical units, mainly in support of the Canadian Army, claimed six, twelve barges, two motorized vessels, two launches and several other boats.

The sixth successive day of radio warnings, reaching Allied bombers in France and Italy.

# Shipping Boom For Rupert

### CHATEAU FRONTENAC AGAIN WORLD WAR CENTER

Within the massive walls of the Chateau Frontenac and nearby Quebec Citadel, plans were laid over a year ago for the events which this year resulted in the invasion of Europe and its subsequent sweeping victory of France. Prime Minister Winston Churchill and President Franklin D. Roosevelt, along with their chiefs of staff both military and political, conferred with such success in Canada's oldest city that now they are meeting again, just a little over a year later. Today's plans have to do with final crushing of Nazi Europe, and the stepping-up of the next great task, elimination of the Japanese Empire as a world force. During these days, the eyes of the world, United Nations, our enemies, and hundreds of thousands of peoples in still-bondaged occupied lands, are focused on Canada and the figures which are shaping the world's destiny. It is a tribute to Canada and its people that this country has been chosen for a second conference, and the civilized world will await with patience and confidence the benefits that must surely accrue.

## EIGHTH ON MOVE AGAIN

### Capture Ridge Which Held Them Up—Fifth Pounds Gothic Line

WITH THE CANADIAN CORPS ON THE ADRIATIC FRONT, Sept. 14 (CP)—The Canadians and British on Wednesday captured a 1,000-yard long ridge that for a week and a half has halted the British Army's Adriatic thrust for the Lombardy Plains.

Meanwhile the Allied Fifth Army cracked through German outposts all along the front between Pistoia and Kucca and is battering at the forward fringe of the main Gothic Line.

## Building Men Due

### Important Party to Pay Visit Here Sept 27

Marking a new epoch in construction history in Canada, H. C. Nicholls, president of the Canadian Construction Association; John W. Gooch, president of the National Construction Council; and F. Page president of the Architectural Institute of Canada, have combined forces in order to make a tour of the principal centres of western Canada, this month.

Purpose of the tour is to obtain on-the-ground facts and views which will guide the future building activities of the three organizations. The impending visit takes on added importance in view of the large postwar construction boom pending which will require fullest co-operation between architects, general trade contractors, supply houses and employers.

The forthcoming visit will permit the presidents of the various organizations to meet members of local branches and discuss matters of general interest to the construction industry. Subjects due for discussion are apprenticeship training; vocational training for returned men; rehabilitation and reconstruction; existing government controls and release of controls; supply of materials when the war is over and construction ethics in the building industry.

The party is due to arrive in Prince Rupert from Vancouver September 27 and will return east by way of Jasper.

Others making the trip are: W. C. McGolpin, president, Brick and Tile Manufacturing Association of Canada; Ernest Ingles, international vice-president, International Brotherhood of Electrical Workers and second vice-president of the National Construction Council; J. E. Greenland, past chairman, trade contractors section, C.C.A.; G. E. Treloar, president, Toronto Engineers Club; L. L. Anthes, treasurer, National Construction Council; George C. Abbott, president, George C. Abbott, Limited, and J. Clark Reilly, manager, Canadian Construction Association.

### RESTRICTIONS LIFTED

OTTAWA — Some footwear restrictions are being lifted by the Wartime Prices and Trade Board. Ladies in new styles after January may have two-tone shoes and bows.

The Misses Laurel and Ariel Armstrong of Vegerville, Alberta, are visiting Mr. and Mrs. Milton Hauser, Thompson st.

## North Siegfried Line Is Threatened

### Two New Thrusts Into Holland Made By Allies

ALLIED SUPREME HQ., Sept. 14 (CP)—Two new thrusts into Holland, one by the British Second Army and the other by the American First Army, together with the Canadian First Army crossing of Leopold Canal, just south of Belgium, Netherlands frontier, today threatened the north end of the Siegfried Line. Meanwhile headquarters reported capture by the American First Army of several small German towns within 10 miles of Aachen, great German communications centre.

Headquarters again imposed a security sentence on the progress of American thrusts but a Brussels broadcast said that American troops were within four - and - one - third from Aachen.

The Germans said the Americans were advancing in a large scale offensive in the whole area around Aachen to Maastricht in Holland to the German frontier near Eupen in Belgium.

The American Third Army broke into open ground around the French city of Nancy in a gain of at least 30 miles to Charves on the Moselle River.

Meanwhile other Americans smashed inside the long besieged port of Brest.

### HALIBUT SALES

American  
Thor, 58,000, B. C. Packers, 15 and 13½.  
Canadian  
Antler, 35,000, Royal, 18½ and 16½.

## YANKS ARE AT AACHEN

### Established on Commanding Hill—Enemy Falling Back

LONDON, Sept. 14 (CP)—United States troops have established themselves on a hill overlooking the German city of Aachen, key point on the Siegfried Line. American tanks and infantry yesterday broke through primary defences in the Roetgen area and were assaulting anti-tank obstacles and pill boxes just beyond the town. The Germans are putting up unexpectedly light resistance and indications are that the enemy may fall back on the Rhine River.

Armored spearheads of the American Third Army, crossing the Moselle River in force, advanced eight miles in two hours under fire yesterday.

## Armistice Is Now Signed

### Terms Between Russia and Rumania—Reds Get Navy, Army and Air Force

MOSCOW, Sept. 14 — Russia and Rumania reached armistice terms yesterday. The armistice was signed here.

The 1941 border between Russia and Rumania is restored, North Bukovina and Bessarabia going to Russia and Transylvania being returned to Rumania.

Rumania will pay \$300,000,000 in goods over a six-year period to Russia as reparations.

The Rumanian air force and navy will come under Russian command and 12 Rumanian army divisions will go to the Red Army.

Finnish and Bulgarian peace delegations are still in Russia.

## TWENTY-FIVE LOSE LIVES IN COLLISION

TERRE HAUTE, Sept. 14 (CP)—At least twenty-five persons were killed and about sixty-five were injured today in a collision of two Chicago and Eastern Illinois Railroad passenger trains near here. Nearly all of the dead and injured were soldiers. The trains crashed head-on during a fog.

## AERIAL ATTACKS ON PHILIPPINES

ALLIED HEADQUARTERS IN SOUTHWEST PACIFIC, Sept. 14 (CP)—Allied bombers attacked Galea and hit air fields on strategic Halmahere Island south of the Philippines while attack planes bombed and strafed an airdrome on an island stepping stone to the Philippines.

South of Halmahere 125 tons of explosives were dropped on Ceram and Boerco islands.

Pearl Harbor reports that United States carrier - based planes destroyed at least 200 Japanese planes in action against the central Philippines. The United States losses in the action are not yet announced.

## JAPANESE ADVANCING

CHUNGKING, Sept. 14 (CP)—Japanese troops pushing down the Hunan-Kwangsi Railway are twelve miles northeast of Chuanhsien and fierce fighting is in progress as the Chinese attempt to block an enemy drive aimed at Kweilin, key defence city in Kwangsi Province.

The Japanese have advanced to a point within ten miles of Paoching in fighting west of Hengyang.

Mr. and Mrs. B. McCafferty and family returned Tuesday night from a trip to Winnipeg.

## Shift of War to Pacific Seen As Conference Outcome

### Impending Defeat of Germany Expected to Change Whole Pattern of Conflict

QUEBEC, Sept. 14 (CP) — Sharp increase in shipping activity along the Pacific Coast — both naval and merchant — which would bring boom conditions to ports like San Francisco, Seattle, Vancouver and Prince Rupert is expected to be one of the immediate results of the Quebec conference of Prime Minister Winston Churchill and President Franklin D. Roosevelt. With the impending defeat of Germany resulting in full emphasis on the Pacific war, transfer of British and Canadian warships from Atlantic and European waters to the Pacific and an upsurge in flow of men and munitions to the Far East as the campaign against Japan develops would mean new business for western United States and Canadian ports.

A great shifting and reorientation of the Canadian war effort is likely to result from Pacific war plans being shaped at the conference. There will be a change in emphasis from army to navy and air force and from the Atlantic to the Pacific coast.

Canadian cabinet ministers and chiefs of staff have come to Quebec prepared to provide full Canadian co-operation and support of joint plans for final stages of the war with Japan.

Canadian and British chiefs of staff are getting down to the job of planning the division of work among Canadian and other Empire and associated forces.

As Roosevelt and Churchill began the fourth day of their meetings there were indications of a speed-up of military plans for operations against Japan on the assumption that the European war will end soon. These plans are nearly complete and attention is being given to some war and post-war economic problems.

A sudden announcement today that Foreign Secretary Anthony Eden is expected to arrive in Quebec almost immediately caused speculation that the conference may see a shift in emphasis of discussions to European political problems.

Last night, in a statement on behalf of President Roosevelt, Stephen Early, secretary to the United States executive, said that the conference had made such "splendid progress" that the business of the conference might be concluded by the end of the week.

## All-Out Offensive—

### Stalin To Commence Big Push

LONDON, Sept. 14 (CP) — The Berlin radio announced today that the Russians, assaulting Warsaw, fought today into the streets of Praga, industrial suburb, with other Russians reaching the Czechoslovakian frontier. Patrols are believed to have crossed the border into the Kosice area, advancing five miles beyond the toppled Narwe River bastion of Lomza.

Still other Russians drove to within fifteen miles of East Prussia.

Enlivened activities all along the eastern front prompted Moscow reporters to cable that there were indications that Premier Stalin has resumed an all-out offensive toward Germany.

Meantime Marshal Tito's Yugo Slav partizan headquarters said that his troops had made contact with the Russians.

## Dry Dock Mishap—

### WOMAN HURT IN 25 FOOT FALL FROM SCAFFOLD

Two hours after she had begun work at the local dry dock Wednesday morning, Anne Robinson, age 27, fell 25 feet to the ground from a scaffold on a ship construction berth, sustaining injuries to her back and head.

She was taken to Prince Rupert General Hospital where this morning her condition is reported fair.

The accident occurred at 10 o'clock when Miss Robinson, who was about to begin work as a rivet passer, stepped from the deck of an unfinished ship onto a staging platform. Apparently unused to high places, she lost her balance and fell over the side. Her fall was seen by several workmen.

Miss Robinson was discharged last January from the Canadian Women's Army Corps after a year's service as a motor transport driver. Prior to going to work at the dry dock Wednesday she was employed as a driver by the United States Post Utilities here. Her home is in Ontario.

**EDITORIAL**

**GETTING THE RECORD STRAIGHT . .**

The Attorney General of British Columbia made a speech last night. We have given the speech considerable space today and, in view of the amount of space we have devoted to the critics of the government, we regret that we could not have given more. Mr. Maitland gave an account of some of the good work that the coalition government of British Columbia has been quietly carrying out in the way of assisting in the war effort, improving conditions in British Columbia as far as the exigencies of war would permit and, equally important, formulating plans to meet the problems which will arise after the war in a province whose place in the sun as the Pacific border of Canada will be more prominent than it ever was before.

Mr. Maitland rightfully pointed out that the government of which he is a member has been working steadily at its job while some of its opponents have been concentrating their time and efforts at home and abroad on political activity. It is this statement of Mr. Maitland's that leads us to suggest that it is about time the coalition government was taking effective steps to inform the people of the province, who are long will be passing judgment upon it, of its undoubted good works and accomplishments so that the people may weigh the record against the tempting blandishments of perennial political orators and propagandists who recklessly promise an economic utopia but who have consistently failed to give us the practical prescription of how they are going to bring this about in this realistic and very human world of ours.

The coalition government of British Columbia, undoubtedly, has a record of which it may well be proud. If it has failed in any way, it has been in failing to tell the people of its excellent stewardship. We hope that the speech of Mr. Maitland's is but the commencement of a program of publicity to inform the people of what has been going on at Victoria in their behalf. Such enlightenment is something to which the public is entitled so that it may be possible to form a true judgment of the record. The opposition may be depended upon to dig up the faults and tell the public about them. But the public is entitled to hear both sides of the argument and it is up to the administration to see that its very worthy case is properly and widely presented.

**TO COL. AND MRS. EVITT . . .**

Yesterday's news columns brought announcement of the impending departure from Prince Rupert of Col. and Mrs. C. V. Evitt—a departure which will be the cause of regret to the legion of friends they have gathered around them during their period of residence here from the very earliest days of the community.

Older residents will recall "Charlie" 35 years back as a youthful sawmill bookkeeper and his good wife as a charming young bride. They were an engaging couple in those days and the years have made no change in the wide measure of esteem and popularity which they have so consistently enjoyed.

Successful businessman and community worker as he has been, Col. Evitt will, however, be better remembered as a good soldier who enlisted early in the First Great War, served overseas, became prominent in the local militia on his return here and went at once into active service at the outbreak of the present conflict, winning important rank and command and, in due course, going on the retired list a few months ago.

Mrs. Evitt will be remembered for her active participation with her husband in church work and various community activities.

The Evitts have been good citizens, the like of which all of us must agree we can ill afford to lose. We are happy to wish them Godspeed with the hope that they may be spared for many years to frequently revisit us.

**YANK CORRESPONDENT SEES A CANADIAN BREN**—A quintet of Canadians in a war-ravaged French village take time out to show Jam's Cassidy, an American war correspondent, fine points of the Bren gun, that "sweet little baby plays such an important part in street fighting." They have had lots of street fighting; in France, every hamlet being a haven for snipers long after the main body of Hun troops have retired. Handling the Brens are Spr. John Teperto of Winnipeg and Spr. Ed. Kube of St. Thomas, Ontario.

**JAPS BEING DRIVEN BACK**

**KANDY, Sept. 14**—Japanese have been driven from strategic ridge positions in Mayu range, southwest of Buthe-daunk in the southernmost section, after four days fighting, aided by fighter bombers, and have moved into the Arakan area.

**STRONG POLISH POINT IS TAKEN**

**LONDON, Sept. 14**—Premier Joseph Stalin announced last night the capture of Lomze, 20 miles south of East Prussia, one of the strongest German positions in North Poland.

**First Ladies Are Speakers**

**QUEBEC, Sept. 14**—Mrs. Franklin D. Roosevelt and Mrs. Winston Churchill both made radio speeches from Quebec last night speaking in French as well as in

English. They joined in paying tribute to Canada's war effort and mentioned how the work and sacrifices of women had contributed to the impending glorious victory.

Buy War Savings Stamps.

**Listed Killed, Wounded in Army**

Recorded as killed in action while serving overseas with the British Columbia Regiment is Pte. William Joseph Hawley, whose father, Fred Hawley, lives at Grassy Plains, near Burns Lake. Pte. Harold Sanders Odegaard, son of Hans Odegaard, of Bella Coola, is listed as injured while serving with the British Columbia Regiment.

**LEGION DONATES \$100 TO P.T.A.**

A donation of \$100 to the Prince Rupert Parent-Teachers' Association tag day fund was received by the local branch of the Canadian Legion at its regular meeting last night at Legion headquarters. Appreciation of the work the association is doing in raising funds to assist city schools to purchase sports equipment and modern educational books for school libraries prompted the donation.

There is a general increase in Legion membership as members of the forces in the present war become qualified to join. Eight new members were admitted at last night's meeting. "New Vets" seem anxious to carry on for their generation the good work done for ex-servicemen in the past, it was felt.

Dr. R. C. Bamford, president, was in the chair, and there was a good attendance of members.

The usual Poppy tag day will be held in November at a date to be announced later.

Make Your Own Chocolate Syrup with **FRY'S COCOA** IDEAL FOR CHOCOLATE MILK, ICE CREAM AND DESSERTS

Take 1/2 cup of FRY'S COCOA and 1/2 cup of sugar. Mix well together dry. Slowly add 1/2 cup of boiling water, stirring meanwhile. Boil for one minute. Then pour into a clean dry glass jar. Cover and let cool. Keep this tasty chocolate syrup handy in the jar box, ready for instant use.

**UNSUBSTANTIAL COVERLET**  
A white mist which often covers the top of the 3,550-foot Table Mountain overlooking Cape Town, South Africa, is called "the tablecloth."

**BY ANY OTHER NAME**  
"Camel's hair," used in making brushes, comes from a species of squirrel.

The club is providing a welcome sign to Prince Rupert just within the city limits of Skeena River Highway. The Rotary Club has enlisted and permission of the city will be sought.

chasing will be handled by general purchasing branch of the department.

**FRESHER, CHEAPER FOOD for your table**  
*by men who think of tomorrow*

**TOMORROW'S EVERGROWING GARDENS . . .** Why should garden-fresh vegetables be available only in summer? Why should rich, ripe strawberries be a luxury in winter? Men who think of tomorrow are doing something about it. In Scotland, where seasons are short, it has been possible to grow six to eight crops of vegetables a year by heating truck gardens with underground steam pipes—under glass in winter, open to the air in summer.

**MEN** who think of tomorrow are planning to feed the world better than it has ever been fed before, to make it healthier than ever before. It is a glorious future to which we may look . . . but only after this war is won!

Are you working at your "war job" as hard as you can? Are you saving and turning in wastepaper to help meet the serious shortage this country faces in the manufacture of containers for war materials?

Are you collecting and turning in every last drop of fat from your kitchen to help feed the hungry machines that turn it into TNT?

Are you heeding the Government's plea to curtail your personal travel so that troops and supplies can move freely over our already congested transportation systems?

Have you added your blood to that of millions of others to provide life-saving plasma for our wounded?

And have you increased your purchases of War Savings Certificates and Victory Bonds to the limit of your ability . . . and are you holding on to them?

Only by working hard at these and scores of other "war jobs" can we be sure of Victory . . . and the ever-ripening fruits of Victory. Let us all be **MEN WHO THINK OF TOMORROW!**

**\* THE HOUSE OF SEAGRAM \***

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol to help speed the war to a victorious end. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Compasses, Drugs and Medicines and many other wartime products.

**RECORD OF ACHIEVEMENT**  
(Continued from page 1)  
ly during by-elections) either through ignorance or misrepresentation pick out the orders that bring discomfort or interfere with personal enjoyment or cause hardships, and not only exploit the situation, but visit the authorship upon the provincial government.

"It is very easy to do because we are nearer to home and closer to the people but whether it be the rationing of tea, coffee, rubber, gasoline or beer, we not only have nothing to do with it but we are not even consulted about it.  
"Within the limits of such powers as our own we have advanced in every direction.  
"I would like you now to go back with me to the opening of the last session of parliament in this province because I think something occurred on that day, rare indeed in parliamentary procedure.  
"Seldom, if ever, before did the people of this province or any province, receive such a full and frank forecast of legislation to be introduced; such a list of things to be done.  
"Our program was within your knowledge the day the House opened, and our forecast of that program was followed by action.  
"Let me detail some of the things we did in that one session.  
"Old Age Pensions were brought up to \$30 a month.  
"We increased Mothers' Pensions.  
"We set aside one million acres of the best lands available in the province for returned soldiers under the Dominion Re-establishment Scheme.  
"We rebated land taxes to those in the services while so engaged.  
"We remitted succession duties, and we pledged preference to returned men for government jobs.  
"We reduced motor licence fees by 20 per cent.  
"We gave the farmer exemption on improvements—another step toward making the way of life on the farm a little easier—a little more secure.  
"We continued the farmer's right to work out his taxes on the roads.  
"During that same session we looked to the North and the great possibilities of the Peace River Block—to those lands tapped by the Alaska Highway—and we looked upon them as something to be made a real part of this province.  
"We have provided the money necessary to link that part of British Columbia up with our highway system.  
"This northern trade belongs to us and your government intends to open up these opportunities.  
"Anticipating the change from war to peace, we have already planned an extensive building program involving millions of dollars as part of a practical, realistic rehabilitation plan.  
"By that I mean something you can look at and not talk about.  
"We increased the list of free text books in the schools and made substantial grants in order that rural school teachers might get an increase in salary.  
"These things I have mentioned were immediate things.  
"But we were looking to the future.  
"We set up a commission to thoroughly examine and report upon rural electrification. This commission is now at work.  
"We did this because we wanted all of our people to have every advantage that electricity brings in this age, its great economic value, its efficiency, its comfort, its contribution to every kind of development.  
"Looking ahead again, we thought we should modernize our laws regarding the free staking and development of minerals, coal and oil.  
"People who are willing to bring and to risk their money in the development of these things in this province may still do so.  
"That we will encourage and welcome, but after this they will do it as operators and not as speculators.  
"And again looking to the future, we provided money to grubstake prospectors who were free to find new mineral wealth in this province.  
"We gave relief to the prospector who was holding mineral claims but is engaged at war work and therefore unable to do his annual assessment work.  
"We gave assistance to the establishment of our new flax industry in the Fraser Valley, which we hope will become another major industry.  
"We set aside money to be

used, in conjunction with the University of British Columbia and industrial concerns, each contributing their share, for a research council.  
"It is intended to apply the results to the creation of new industries.  
"There is a great field for this in British Columbia.  
"As you know, there are two schools of thought in your legislature.  
"We on the government side believe in freedom of choice, freedom in this country to do things and to make things without undue and constant governmental interference.  
"The Opposition, the C.C.F. party, believe in state socialism.  
"If they mean what they say, it is a system that will regulate your every action by the government.  
"It will, in truth, ration your very lives.  
"What did you hear from this Opposition when your government was in action?  
"They mention improved old age pensions, but they do not mention what age nor what amount.  
"They would increase mothers' pensions. They do not say how much, nor do they say that we did increase them from \$35 a month to \$42.50.  
"They mention a comprehensive Health Insurance Scheme, but whether it is in competition with, in addition to or in lieu of, the Dominion scheme, they do not say.  
"I search and search in vain for any reference to returned soldiers in their provincial policy.  
"There is no suggestion there of preferential treatment of war veterans in government jobs.  
"They never thought of our contemplated one million acres being set aside for the returned man.  
"There is not a word about the land in the Fraser Valley formerly held by the Japanese being turned over to the veterans.  
"They never suggested a rebate of taxes or succession duties to returned soldiers.  
"They do not mention any rebate on motor licence fees, nor the giving of any tax exemption to farmers.  
"There is no visualization of the Peace River road, nor the finishing of the P.G.E.  
"I have pulled this policy of theirs—this mobilization of generalities—out of the clouds and down to earth in order that you may compare it with the realities which we have faced and

grappled with.  
"Compare it with the improvements we have brought in and the things we have done.  
"Yes, we have been working during these two and a half years.  
"We have not had time for organizing and broadcasting and talking politics in this province or adjoining provinces.  
"We have been doing this job for you.  
"We have been trying to maintain for you a war government which you can be proud of, and at the same time not fail you in post-war matters.  
"The facing of post-war problems will be easy for us because our credit is as high, if not higher, than any province in Canada.  
"For this I pay great tribute to the Honorable the Premier who is also minister of finance.  
"We have great chances in this province — far better than in most countries.  
"We start with a high standard of living.  
"Capital and labor are on such good terms that our strike record is easily the best in Canada.  
"I am proud of the contribution British Columbia has made to our war effort.  
"Our resources are such that industry can be made to flourish and prosper.  
"The markets of the world are open to us.  
"There can be available for investment here millions to farm and mine and log and fish and manufacture and build.  
"But it won't be available under state socialism.  
"But remember this, every time you frighten away a million dollars the worker pays for it—it robs his payroll.  
"Sound government by experienced men can bring these things here, and at the same time can progress in social legislation as we have done for fifty years.  
"We can safeguard the worker; we can be fair to capital; we can maintain our prosperity, and at the same time our individual freedom. On the other hand, we can turn to the experiment of the inexperienced—we can listen to the noise of the opportunists—we can turn to state socialism.  
"Some people say, why worry about the policies of the C.C.F. Party—they cannot do these things—they won't work.  
"Well, I know this.  
"They can try, and in trying they can bring chaos and irreparable damage to the orderly progressive prosperity of this province.  
"In one session they could

smash our credit, the very life-blood of this province.  
"They could kill payroll after payroll by erecting a wall against the millions that would otherwise come here.  
"They could kill freedom of choice and individual initiative.  
"They could kill the way of life which has made our Empire great, our Canada great, our way of life which won this war.  
"The decision for the future is not mine.  
"It is yours.  
"The future of our province, the future of your province is in your hands, and you will soon have to decide which you want—freedom or socialism.  
"If you favor the course we have followed it is for you to say.  
"If you wish it to continue, then you must prepare before it is too late."

**FOR THAT Morning Freshness...**  
Try this at bedtime tonight  
Put an end to those restless, uneasy nights when sleep comes slowly or is light and unrefreshing.  
Try taking a cup of warm Ovaltine at bedtime. It helps to relieve that feeling of nervous tension.  
Its special food elements, processed for easy digestion, and its rich supply of Vitamins A, B, and D and the minerals Calcium, Phosphorus and Iron, help to replenish worn out muscle, nerve and body cells.  
You'll find Ovaltine an aid to sound, refreshing sleep. See if you don't wake up fresher and more buoyant. Get Ovaltine at your drug or food store.  
**NEW, IMPROVED OVALTINE**

**YOU CAN ALWAYS BORROW ON YOUR VICTORY BONDS**  
Any branch of The Royal Bank of Canada will immediately lend you money on your Victory Bonds at special low rates. It's an important extra reason for buying all you can.  
That post-war car—or radio, or home—may never materialize should you decide to "cash in" now on the Victory Bonds you have been buying so faithfully.  
Your need for ready cash may be urgent: for taxes, or a sudden illness, or one of a hundred other emergency situations. But if you sell, you not only reduce your share in the financing of the war... you also reduce your chances of ever owning what you had planned to buy, after the war.  
So don't sell your Victory Bonds. Instead, use them as security for a bank loan. Pay off your loan by convenient instalments... and get your Bonds back when the loan is repaid.  
**THE ROYAL BANK OF CANADA**

**I ALWAYS GET CLEAN, QUICK SHAVES WITH BLUE GILLETTE BLADES**

**CLEM MCCARTHY**  
—Ace Reporter on Gillette's "Cavalcade of Sports"—says:

"A TRIP through the Gillette factory showed me why I always get clean, quick shaves with Blue Gillette Blades. I saw steel hardened in automatically-controlled electric furnaces... saw the blades sharpened in grinding machines weighing several tons—yet so precise that they are adjustable to 1/10,000 of an inch. So my advice to any man who wants to enjoy shaving is to use Blue Gillette Blades."

PARISIANS FREE THEIR CITY—The historic Arc de Triomphe in Paris through which the Nazis marched in triumph after the fall of France a few years ago, is no longer under German domination, as hundreds of thousands of Frenchmen free their city.

### MECCA FOR PEDAGOGUES

#### No Difficulty in Getting Teachers Here This Year, Inspector States

Opinion about Prince Rupert as a place to seek a job is apparently favorable if the number of teachers who sought placements in this school inspectorate this summer can be taken as an indication.

Applications this year were greater than the number of jobs available, according to B. Thorsteinsson, inspector of schools. This is a situation unique in the province, he says. Most other districts had difficulty finding teachers to fill the positions offered.

A number of the new teachers in this inspectorate came from the prairies where in places critical shortages exist. "Prince Rupert must have been the subject of favorable publicity for we certainly had less trouble getting teachers

this year than last year," he commented.

Mr. Thorsteinsson mentioned higher salaries made possible through government assistance as a probable influential factor in attracting teachers from the east.

All schools throughout the district are operating this year with the exception of Copper City, which, paradoxically, is closed not because it could not get a teacher, but because it lacked by one the number of pupils required to justify a government grant.

At Terrace it has been found necessary to open additional rooms and a hall in the centre of the town is being used as a classroom. The number of high school students has also grown. Mr. Thorsteinsson said that it is "possible" that an Indian day school may be opened at Port Edward.

Suttee, abolished by the British in 1929, was an Indian custom of a widow burning herself on the funeral pyre of her husband.

### Pulpwood and Newsprint Is Now Easing Up

OTTAWA, Sept. 14 (P)—Canada will be able to maintain the current rate of newsprint and wood pulp shipments to the United States during the fourth quarter of 1944, the Wartime Prices and Trade Board announced last night. Canada now supplies the United States with 200,000 tons of newsprint and 1,100,000 tons of pulpwood a year.

## SPORTS

### Tourney Finished—RANGERS WIN IN SOFTBALL

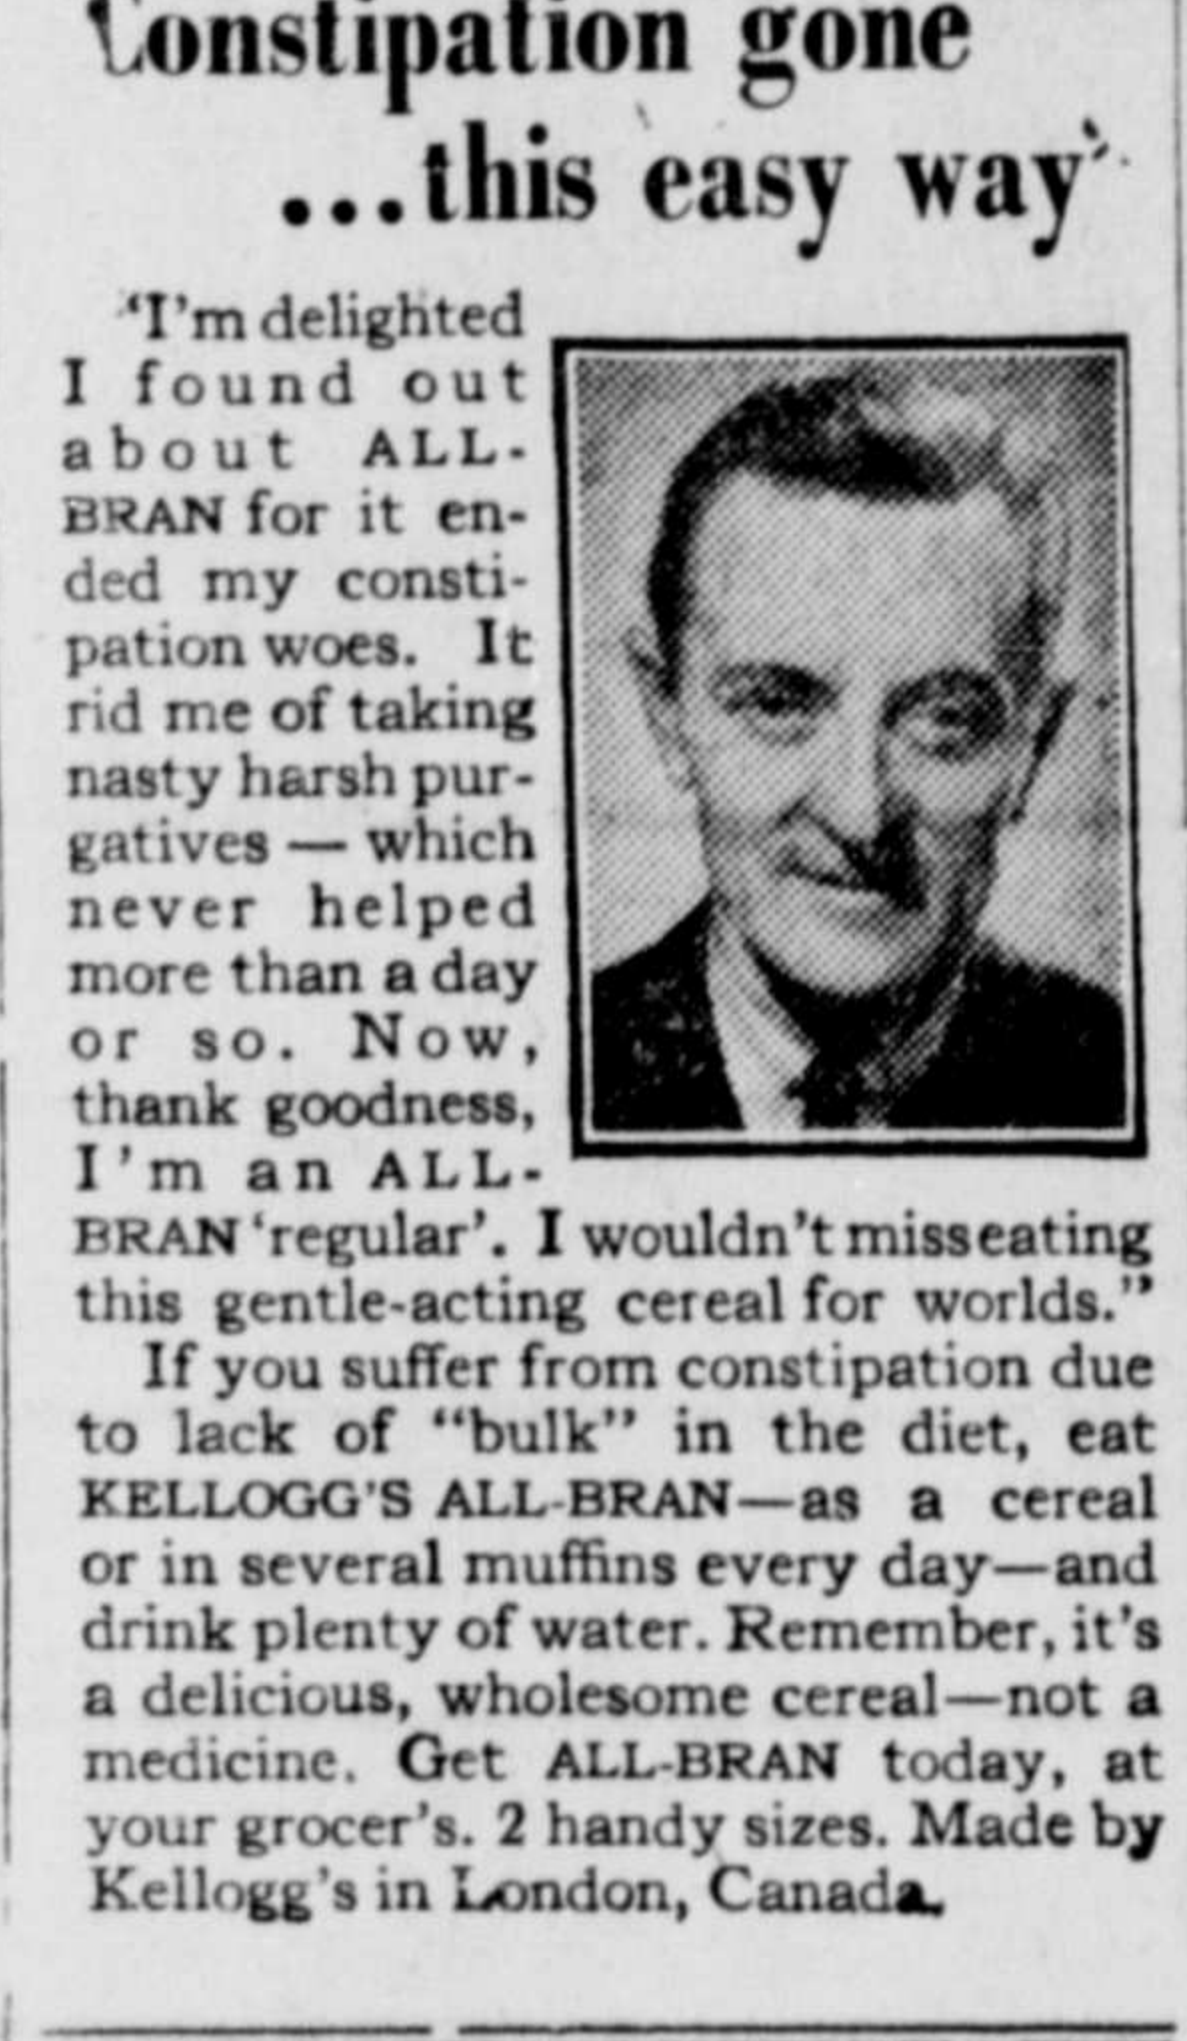

Rangers defeated Coast Regiment 4-1 last night on Acropolis Hill to win the Prince Rupert military softball tournament. The fixture was the second of the final round.

Maynard was again on the mound for the winners and he chalked up his fourth triumph of the series by holding the opposition to only one hit.

Hertzman pitched for the Coast Regiment and also turned in a good performance.

The softball season is not yet completed, however, since there will be an exhibition tilt staged at the opening of Algoma Park Sunday.

### Constipation gone...this easy way

'I'm delighted I found out about ALL-BRAN for it ended my constipation woes. It rid me of taking nasty harsh purgatives which never helped more than a day or so. Now, thank goodness, I'm an ALL-BRAN regular, I wouldn't miss taking this gentle-acting cereal for worlds.'

If you suffer from constipation due to lack of "bulk" in the diet, eat KELLOGG'S ALL-BRAN—as a cereal or in several muffins every day—and drink plenty of water. Remember, it's a delicious, wholesome cereal—not a medicine. Get ALL-BRAN today, at your grocer's. 2 handy sizes. Made by Kellogg's in London, Canada.

### SEA CADETS EXPANDING

Just as the Royal Canadian Navy has undergone great expansion, so the Prince Rupert Sea Cadets' members have been considerably increased since their inception.

The Sea Cadet Corps started with only 20 ratings but this group has since been enlarged eight-fold to 160 under the guidance of Lt. Cmdr. A. S. Mitchell, officer commanding.

A glowing example of the Sea Cadets' enterprise is their bugle band. When funds were needed to equip this organization early in the war, a tag day was held and the proceeds amounted to \$900. Of course, all the Sea Cadets' tag days have not been as successful as that one but the unit is firmly establishing a fine reputation in this area.

### FOOTBALL RESUMING

Resumption of activity in the Prince Rupert Area Soccer League is expected next Tuesday after a lull of several weeks. Teams from the Navy, Signals and Reserves will compete in a play-off series.

In July the Signals won the Dominion Day Cup and Navy gained the Gihuly Cup for the second successive season. The Mobley Cup and the Stuart Shield were captured by Air Force last season but this year the Flyers will not be able to form a team to defend these awards.

League Secretary Sid Woodside, who referees all the games, was troubled with arthritis for some time but it is hoped that he will be able to take up his duties again.

This soccer series will fill the gap between the softball and basketball season and should be most welcome to sport fans.

### Cross and Cole Are Winners in Shuttle Play

P. O. Writer Cross and Ldg. Proj. Cole won a badminton tournament of six twosomes when they defeated Lt. Cmdr. Astbury and Lt. Haddon in the finals last night in the Naval Drill Hall. The two final games resulted in identical scores, 15-5.

The losers had received a bye to the finals while Cross and Cole defeated Cpl. Law and OD. Boam in the semi-final 21-6.

In the first round Cpl. Law and OD. Boam downed Ldg. Sig. Register and Lt. Brown 21-8; Lt. Cmdr. Astbury and Lt. Haddon overcame Chiefs Fanning and Stewart 21-9, and P.O. Writer Cross and Ldg. Proj. Cole defeated Paymaster Sub-Lt. Hansen and Sub-Lt. Hobbs, 21-7.

The tourney was the Navy's second of the season.

### BASEBALL SCORES

### SERVICE CENTRE PROVES POPULAR

All day Sunday visitors milled through the new United Services Organization recreational centre, the occasion being an "open house" for public inspection. Frank Finnerty, supervisor, and Eva LaPierre, the hostess, had a busy day and were given yeoman assistance by young women in the service of the United States government who acted as hostesses to assist in showing the visitors around.

### RED CROSS CARRIES ON

#### Workers Needed for Hospital Supplies and Children's Clothing

The Red Cross executive resumed regular monthly meetings on Tuesday night and reports from various committees showed that all branches of the work had been carried on during the holiday season. Mrs. J. D. Fraser occupied the chair.

Mrs. Winslow, for the work room, stated there was still an urgent demand for hospital supplies and children's clothing. The branch is requesting all former workers to again attend at the work room and to bring as many new workers as possible.

President Arnold Platen and Secretary H. A. Breen were delegated to attend the organization meeting of the "Welcome Home" committee to meet returning servicemen and their dependents.

A Red Cross tea and sale of home cooking is to be held in the workroom as soon as arrangements can be made, with Mrs. C. H. Elkins as convenor.

The resignation of J. R. Blackburn as branch treasurer was accepted with regret. A receipt of cash donations from Mrs. A. H. Perkins and Mrs. Emma Davis of Port Essington was acknowledged with thanks.

Letters of thanks were received from the Nursing Sister in charge of the Prince Rupert Military Hospital for Red Cross supplies and from Archie Kerr of Montreal acknowledging receipt of a Red Cross message from Shanghai.

**SCARCE ELEMENT**  
The maximum proportion of radium in the very old minerals of the earth's crust is believed to be about three-tenths of a gram per ton.

**SUPERSENSITIVE ORGAN**  
The human eye is said to be 300,000 times more sensitive to dim light than the thermopile, the most sensitive physical instrument devised.
