Here's your magic wand for making milk!"

SAYS ELSIE: "It doesn't matter when you live -you can still have milk! Just add KLIM Powdered Milk to water, whisk with an eggbeater and presto! You have exactly the amount you need of creamy, nourishing milk for every purpose where milk is required."

More reasons why you'll like KLIM:

- KLIM is pasteurized whole milk-powdered. Only the natural moisture has been removed. All the cream is left in.
- KLIM keeps fresh indefinitely in its vacuum-sealed container. Even after opening, KLIM keeps fresh and sweet for a long time. (Be sure to replace lid
- KLIM is light, easy to carry. Saves space. Ready for immediate use. Just follow the simple directions printed on the can.

KLIM is a vital product required in large quantities for our fighting forces everywhere. Naturally the amount for civilian use is restricted. However-for infant feeding-if you have difficulty in getting a sufficient supply have your dealer get in touch with us.
