# ALL OUT FIGHT IS ON IN ITALY

## Terrific Aerial Assault Launched by Allies; Aim To Protect Bridgehead

German High Command Claims Penetration With Capture of Railway Station—Fierce Battle Inside Cassino.

SITUATION "TOUGH"—Roosevelt

WASHINGTON, Feb. 11 (CP) — President Roosevelt today described the situation of the Allied forces on the new beachhead south of Rome as "very tough" but, on the whole, the Allies were in control by sea and air and were "praying for fine weather."

LONDON, Feb. 11 (CP)—The Allies have launched a terrific aerial assault to protect the Anzio bridgehead on the west coast of Italy, using almost every available plane and pouring tons of bombs on German positions. Allied artillery is using "time craters" to rout the Germans from positions.

The German High Command claimed that Nazi troops had penetrated into Carroceto in the Anzio-Nettuno bridgehead ten miles north of Anzio, capturing a railway station. Picked panzer forces are being used by the Germans.

Within the town of Cassino, where fierce battle is raging, the Allies have made some gains. Rainy and snowy weather is holding the Fifth Army on the Adriatic down to patrol operations.

### SOUTHWEST PACIFIC—

## Victory In New Guinea

Australians Have Joined Up With Americans After Five-month Campaign.

ALLIED HEADQUARTERS IN SOUTHWEST PACIFIC, Feb. 11 (CP)—Victorious conclusion of the New Guinea jungle campaign which trapped 14,000 Japanese and wiped out the great bulk of them was announced today by Allied headquarters. The Australians climaxed a five-month drive over Huon Peninsula by joining the Americans near Saidor.

## Car Licence Fee Cut Gets Third Reading

VICTORIA, Feb. 11 (CP)—The Legislature yesterday gave final approval to a bill authorizing a 20 per cent reduction in 1944 passenger car licence cost. The rebate becomes effective tomorrow.

## CHAPLIN INDICTED

Former Moving Picture Comedian and Six Others Cited by Los Angeles Grand Jury.

LOS ANGELES, Feb. 11 (CP) — Charles Chaplin, former moving picture comedian, was indicted Thursday by a federal grand jury on charges of violating the Mann Act and defrauding Joan Berry, his former protegee, of her civil rights. The jury also returned indictments against six others in connection with Miss Berry's arrest last summer on a vagrancy warrant.

### RUSSIA—

## Germans Sewed Up

President of Soviet Republic Says All Germans Will Be Out of Red Territory This Year.

MOSCOW, Feb. 11 (CP)—President Kalinin of Russia expressed the belief today that 1944 would see the Germans driven out of all Russian territory. This statement was made as seven Russian spearheads in the Dnieper Bend were reported retreating to Korsun which may prove one of the bloodiest spots since Stalingrad.

The escape corridor for the Nazis has narrowed to five miles width in fifteen miles length with ten Nazi divisions inside numbering up to 150,000 soldiers. Premier Joseph Stalin, in a special order of the day today, announced the capture of another railway station twenty-seven miles from the Polish border.

## BOMBING FINLAND

Kotka, East of Helsinki, Attacked by 150 Russian Planes

LONDON, Feb. 11 (CP) — The German radio broadcast a Finnish communique today that 150 planes, presumably Russian, attacked Kotka, east of Helsinki, for two hours last night.

POSTMASTER GENERAL TESTS AUTOMATIC MAILING MACHINE — Postmaster General William P. Mulock is shown here mailing a letter to Prime Minister Kings in the 'Mailmat,' a coin-operated machine that stamps letters with the amount of postage desired by the mailer, then stacks and mails them for him. The machine, which adds speed and efficiency to the postal service, went on trial in the lobby of the general post office at Ottawa when Mr. Mulock mailed this letter. Watching the Postmaster General is P. T. Coolican, Assistant Deputy Postmaster General.

### BOMBING GERMANY—

## Bombing Germany

These Are Principal Targets of Royal Air Force Attack.

LONDON, Feb. 11 (CP)—American heavy bombers hit Frankfurt, Germany, today, while other Allied bombers attacked the northern French coast for the fourth successive day. Royal Air Force Mosquitoes set sirens howling in Berlin for the ninth assault on the Reich this month. Canadians laid mines in enemy waters.

## MEETING OF JR. CHAMBER

The shrinking mooring facilities for fishing craft on the Prince Rupert waterfront, conditions of city streets and thoroughfares, the civic centre project with reference to the issue between a swimming pool and skating arena, contributory hospitalization scheme and the community social survey were among matters which came up for discussion at a lengthy meeting last night of the Junior Section of the Prince Rupert Chamber of Commerce.

It was decided to wire to the minister of fisheries stressing the importance of immediate attention to the matter of providing moorage here for the fishing fleet. Unanimous approval was given to the action of the central executive of the civic centre in going ahead with plans for the swimming pool. It was a dinner meeting held in Reid's Cafe where an unusually fine spread was served, being enjoyed by one of the largest turnouts the Junior Chamber has had for some time. In the absence of President L. M. Felsenthal, who is on a business trip East, Vice-President C. F. McCarthy was in the chair.

Another feature of the evening's proceedings was the showing Hugo Klaupner of two interesting reels of moving pictures—one of the Royal Visit to Canada in 1939 and the other of the sinking of the German pocket battleship Graf Spee in the River Plate.

## CRASH OF AIR LINER

MEMPHIS, Tennessee, Feb. 11 (CP)—An American air liner with 24 persons on board was reported to have crashed in the Mississippi River today, disappearing after an explosion. No trace of the plane was found in the swollen river.

## MEETING OF JR. CHAMBER

LONDON (CP)—Miss Christine Grey, who was made chief receptionist at Prestwick Airport with formation of the R.A.F. Transport Command, was awarded the British Empire Medal in the New Year's honor list.

## COUNCIL HELPS WITING MEN

and Other Allied Soldiers Given Valuable Aid Through Cultural and Educational Lines.

SYDNEY GRUSON, Press Staff Writer, Feb. 10 (CP)—The British Council is simply to make British thought better understood. The Council has been doing so since 1934 and, particularly succeeding most in the years of war when British thought have changed, even if temporarily. German-locked Europe and Japanese-held lands are of the Council's influence. Many of British achievements in science, art, literature, and engineering, to but a few, is being told through the rest of the world by radio.

Books, films, magazines, and pamphlets are used wherever English is not the Council through its sponsor lessons in the language. The results are tangible. For instance, there now are five times as many pupils learning English as all other foreign languages together in Turkey. Only a few years ago there was a bad third to English and German. In Madrid, the British Institute has increased membership by 50 per cent. Figures for Latin America show a similar increase.

Since the war brought the nations of the United Nations together, the Council has moved to promote cultural and industrial understanding between the British and the Allies on the scenes of the lessons could be most vividly.

TESTS  
 It is too much to ask the Council for a service. A Belgian paratrooper to study the electrolytic reduction of zinc ore from a concentrate of zinc ore. He studied an expert on mineral research at the Imperial Institute. An American colonel who studied the English of negligence was quickly accommodated. Thousands of Canadians have taken advantage of the Council's facilities to, as a Council member in military camps says, "find your leave reviving pre-war interests and see what is done in your line in Britain."

## CANADA'S NAVAL LEADERS

By John Leblanc (Canadian Press Staff Writer)

### REAR-ADMIRAL L. W. MURRAY

Boss of a vast stretch of the North Atlantic is a man with an easy smile and the build of a football player who is Canada's first commander-in-chief—any service or any war—to have full operational control in a vital war area. As Commander-in-Chief, Canadian Northwest Atlantic, the responsibility of Rear-Admiral L. W. Murray extends well out toward the Atlantic—exactly where it ends is a naval secret. In this field, he controls the combined operations of the R.C.N. and the R.C.A.F., and the ships of all the Allied nations in the arena, with their merchant shipping, sail under his orders.

The map-hung room at Combined Headquarters in Halifax is the nerve centre of the battle of the western Atlantic. Over his desk comes a stream of up-to-the-minute reports on the war against the submarines. Orders go out for the ships, and the air Force take up their tasks in accordance with his plan of action. The installation in this position meant he had to

## Compensation Is Extended

Workmen's Compensation Act Hospital Against Tuberculosis.

Commencing this year the Workmen's Compensation Board is being extended to cover employees of hospitals in British Columbia against tuberculosis incurred during the carrying out of their institutional duties. Provisions include that employees must have general medical examination and x-ray of the chest once every twelve months and that histories be kept. The local hospital board, at its meeting on Wednesday night, decided that the employees of the institution should be covered for this compensation.

## Bolivian Gov't Out

SANTIAGO, Chile, Feb. 11 (CP)—The newspaper La Hora has an unconfirmed report that the recently established nationalist government of Gualberto Villarroel in Bolivia has been ousted in a counter revolution and the leaders jailed.

## GRIEVANCE IS AIRED

City Firemen Before Trades and Labor Session Last Night

Members of the Prince Rupert fire department, who at Monday night's city council meeting disputed the council's action in giving Earl Becker, city fireman, the position of Deputy Fire Chief, the post formerly occupied by W. H. "Buster" Hill, brought their grievance before a meeting of the Trades and Labor council last night, and were received by the council. A committee was appointed to interview the city utilities committee, with the view of having the subject re-opened. Appointments to the committee were August Wallin, P. A. Bond and John Mulrony.

Held in the Carpenters' Hall, the meeting lasted more than two hours and dealt with a variety of subjects. There were expressions of elation over the announcement of Prime Minister Mackenzie King that wage control order P.C. 9384 was to be amended.

Good results were reported from the committee in charge of the union membership drive at the dry dock. Prospects, it was said, indicated that there would be complete organization of all crafts in the near future. J. S. Black reported that he had received a number of directives from the western Labor Board in response to his application that the 44 hour week replace the 48 hour week among Canadian craftsmen and mechanics working for American agencies here.

## ON INTIMATE TERMS

To this square-jawed man of the sea, the ships and the men in them are the bone and sinew of the service. He knows every one of his ship commanders intimately. He keeps up a measure of direct contact with merchant seamen by going to the Dockyard for convoy conferences that precede sailings. And he has a standing rule that he sees no one (Continued on page 4)

## Local Hospital Is Free of Debt

The Prince Rupert General Hospital Association is now clearing off the balance of bonded indebtedness which was incurred in the building of the present hospital during the past year. Profits made from the sale of hospital during the past year have to large extent contributed towards making it possible to clear off the standing bonds. So that they may be retired immediately, the hospital board, at its meeting Wednesday night authorized the borrowing from the bank \$8,000 pending the receipt of ample income which is now due and payable.

## "Appropriate Action" Taken

No further word on the action taken by the American military authorities against the three men allegedly involved in the assault on Monday night of Alderman James S. Black and G. W. Rudderham was obtainable by the Daily News this morning. For reasons governed by military regulations, Colonel T. J. Weed, local United States area commandant, refused to discuss the matter for publication, saying only that "appropriate action" was being taken.

The three American soldiers were arrested at midnight Monday by city and United States military police following the assault on the two aldermen and a third man, Toni Peterzyson. Under international agreement Americans who offend the Canadian laws can be tried and punished by American military courts.

## HOUSE ADOPTS THRONE SPEECH

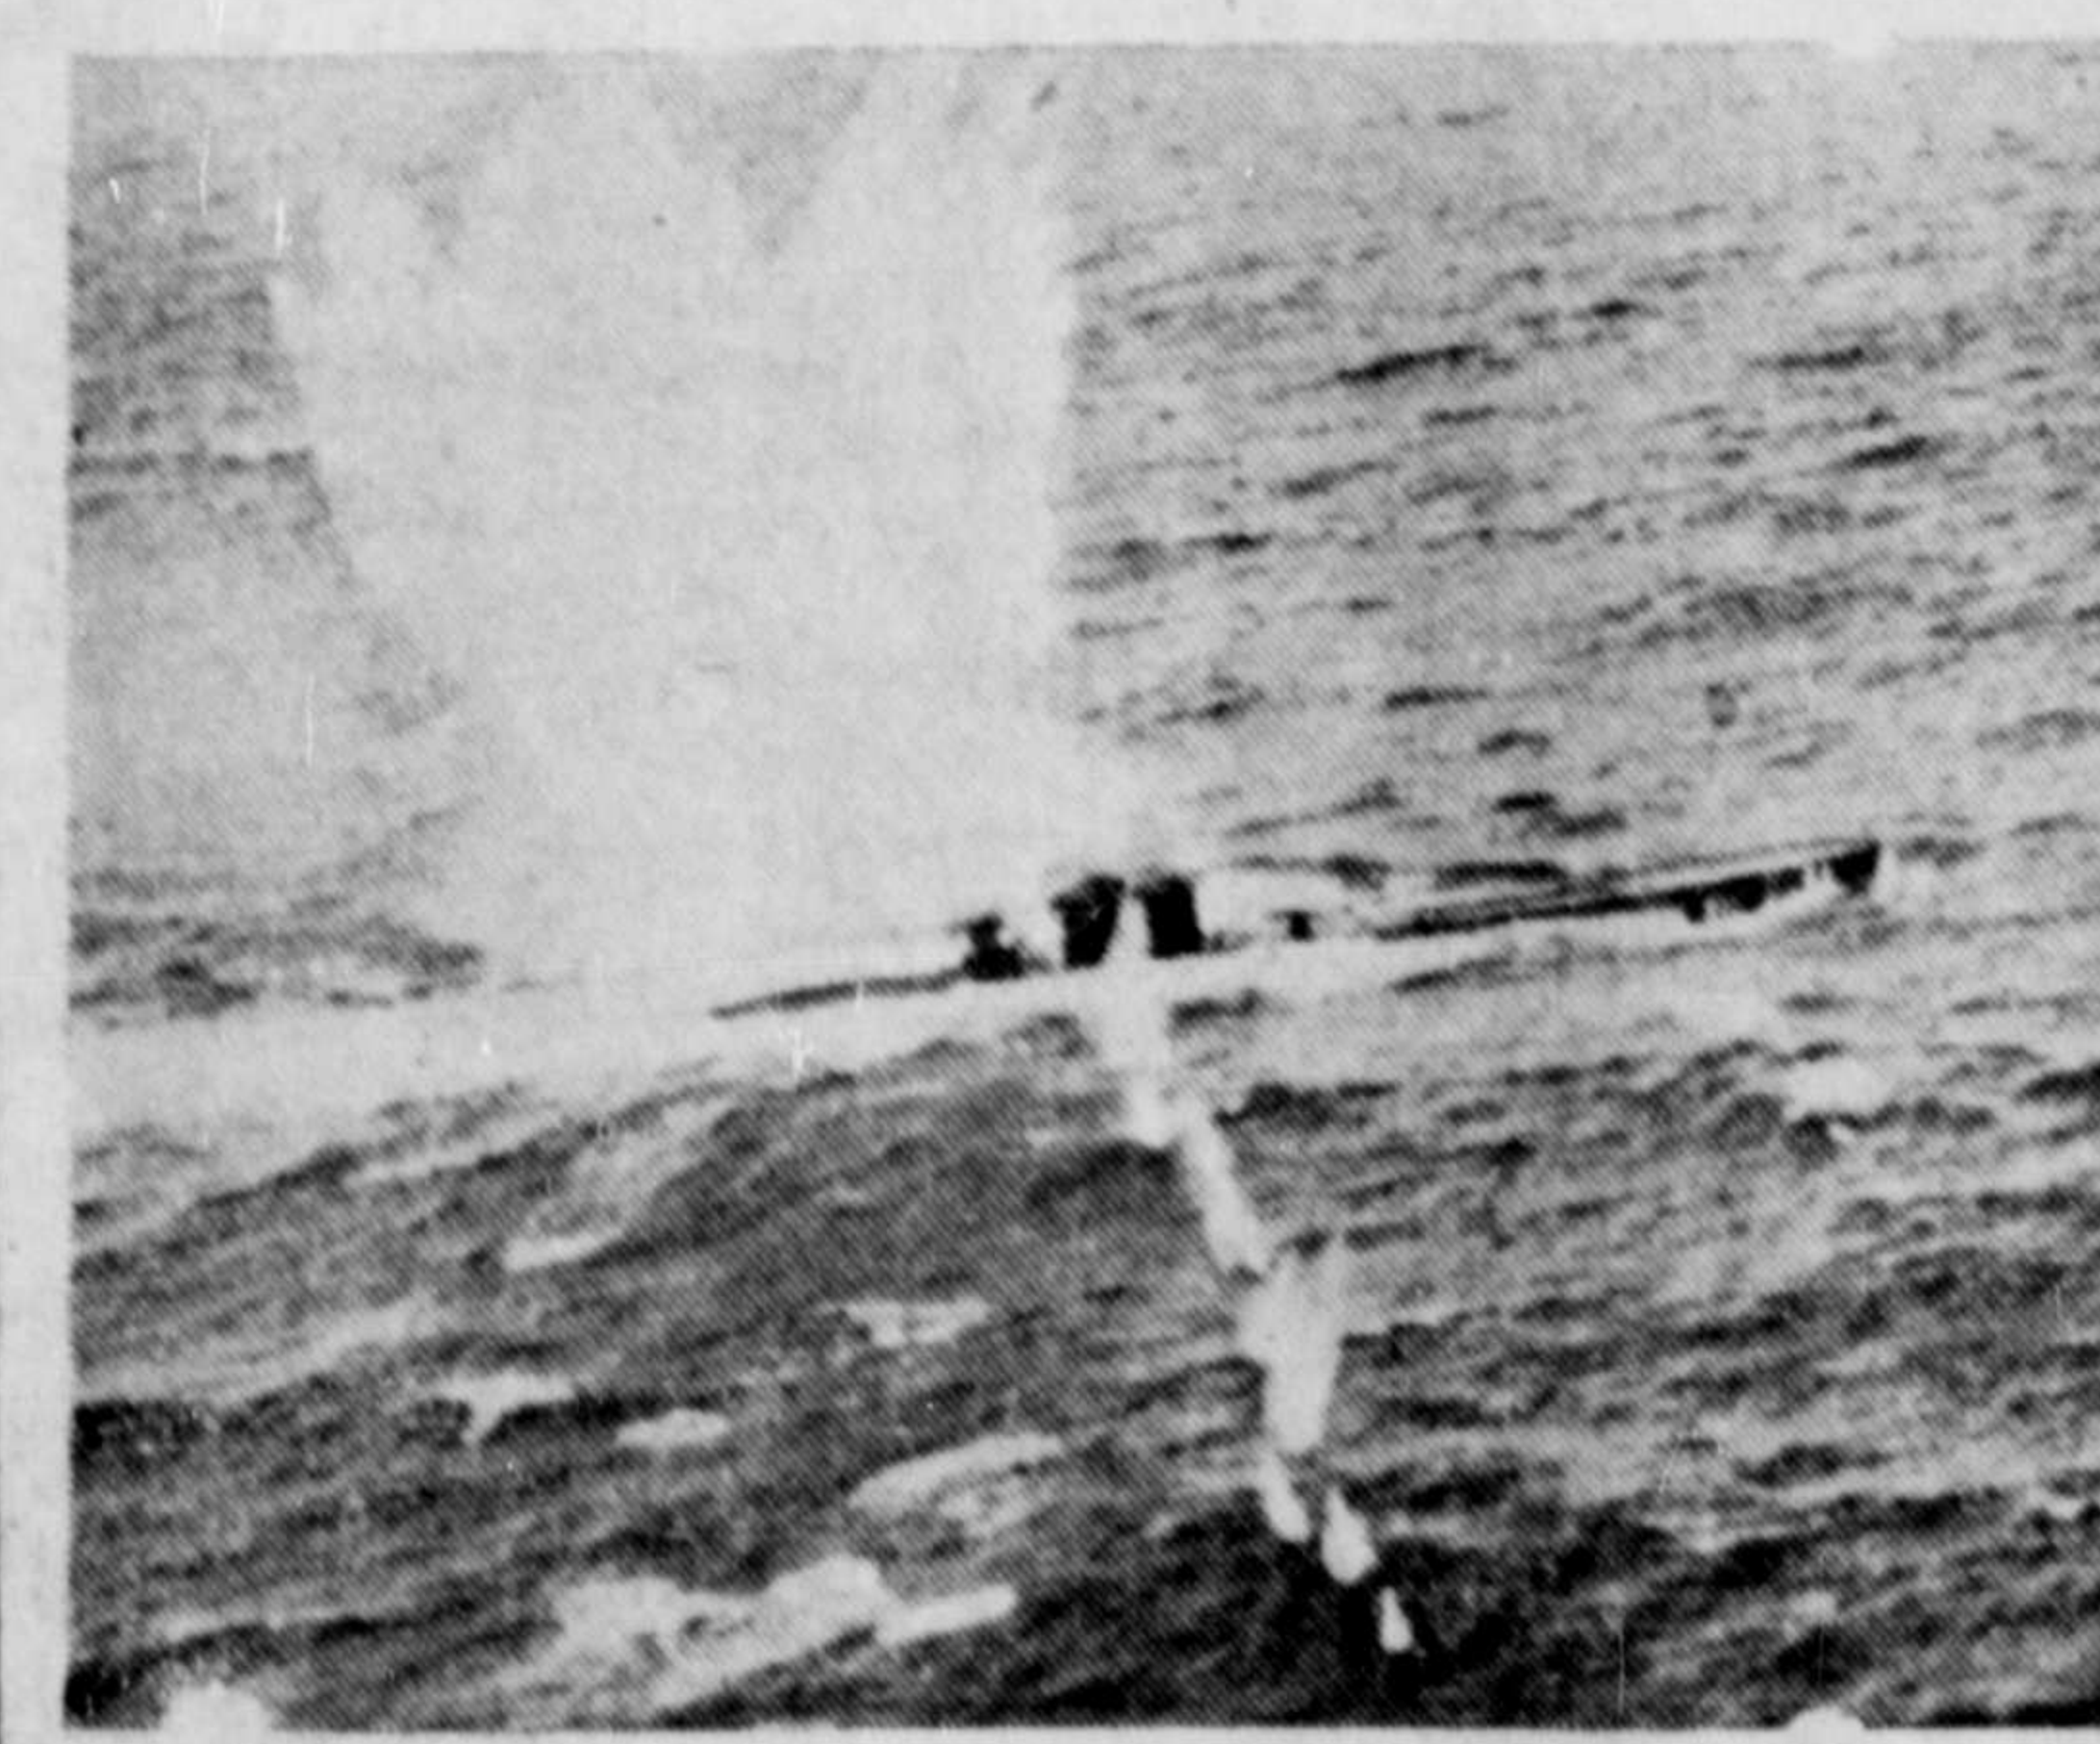

Ottawa, Feb. 11 (CP)—The House of Commons Thursday night placed approval on the principle of family allowances and other legislative measures outlined in the Speech from the Throne when it was adopted by a vote of 146 to 21. The House defeated Conservative and C.C.F. amendments.

END OF A NAZI SUB—A terrific depth charge breaks the water into a fountain of spray as it explodes on the port side of a Nazi submarine spotted in the Atlantic and sunk after a five-and-one-half hour battle by five Allied planes recently. Note the white line of small splashes marking strafing from the Navy Liberator as it pulled away from its victim. The sub eventually exploded.

**The Meat Situation . . .**

Two of the cabinet ministers at Ottawa state that the meat situation in Canada is such that it may be possible to lift the rationing. Then the Wartime Prices and Trade Board comes along in a corrective sort of way stating that "all present regulations will remain in force so long as needs of the United Kingdom continue and provision for necessary transportation arrangements can be carried out." All of which makes one wonder who is running the country and making the authentic announcements—the responsible ministers or the bureaucratically-inclined departments. It is not the first incident of this sort of thing where officials almost seem to be overriding the government. The people object to it and feel that the announcements should properly come from the ministers—not the ministers making suggestions and the officials seeming to sagely contradict them.

As for the meat situation, with warehouses in the country jammed and all the shipping space taken up, it would seem that an amelioration of the ration might well be in order—better than let the meat go to waste or the market become demoralized with too much product while the public is anxious but unable to buy because of bureaucratic obstinacy.

"Now life moves so fast we have to run to keep up with it."—Eleanor Roosevelt. Well, well! And we had been thinking that Mrs. Roosevelt had to slow down betimes and let life catch up with her.

**A Crisis In Italy . . .**

With the Nazis seemingly cracking to pieces before the Red Army's onslaught in Russia, the war situation in Italy, as far as the Allies are concerned, seems to be in something of a critical phase. The Germans are throwing everything they have into the attempt to drive the British and Americans back into the sea from the Anzio-Netturno beachhead. The next few days will probably tell the tale. Evidently it is a desperate stand the enemy are making there and well may it be as the fate of the city of Rome depends upon it.

The hardest battles have often heretofore in this war gone just before our greatest victories. That was the case before El Alemein in North Africa, it will be remembered, and history may repeat itself in Italy. Meantime, it is a critical battle which we on our side are quite justified in watching with some anxiety. But we may trust that our campaign was well planned and will be followed through with skill and valor.

Many a person who falls in love at first sight does so because of an optical illusion.

 By DOROTHY GARBUTT

Yesterday afternoon Miss Amy Leigh, assistant supervisor of welfare for the Department of Public Health, addressed a meeting of local women in the Odd-fellows' Hall. Her talk was most interesting. She used the term "combined operations" to stress the need of a unification of effort among every type of welfare club. Miss Leigh said the home front morale must be kept up in order that the returning soldier may come back to a world he recognized as his own. And the home front morale was only kept up by society as a whole meeting its problems as they arise, the most urgent problems at present being juvenile delinquency and the need for a supervised recreation among the younger population.

Miss Leigh complimented the Women's Association of Prince Rupert for the very excellent help they gave to the aged residents at Christmas and said that the newspaper publicity given to this effort had been more widespread than perhaps the association imagined.

Thanks to Syd Thomson we are now in possession of a fine large office desk which I have promptly taken for my own use. We have always been short a desk here and now everyone is happy and the Y.M.C.A. typewriter which generally had to sit around on chairs while the other desk was in use is now ensconced in state on the top of my former desk. Our thanks, Mr. Thomson.

**NAVY AND YANKS WIN**

Coast Battery and Fortress Losers in Basketball Last Night

With three minutes of play left in the game, Carlisle scored a basket from close range to break a 24-all tie in favor of Navy and the sailors in the end defeated Coast Battery 27 to 25 in an Area Basketball League tilt last night at Little America.

In a second game Fortress had to borrow a player in order to field a team and suffered defeat as the Yanks won their twelfth game in a row.

Due to players being on leave, both Navy and Coast Battery were short of spares.

The Army quintet started well rolling up an 8 to 2 lead at the end of the first quarter. By half time the soldiers were trailing 12 to 10 but they forged ahead at the end of the third quarter 20 to 19. The decision was in doubt until the last minute.

Martin headed the Navy scorers with eight points, followed by Carlisle and Thorburn, with six each. Leading snipers for Coast Battery were Huston, with eight counters, and Lamonde with six.

The win was Navy's sixth of the season as against seven defeats. Coast Battery has won four and lost eight.

Lineups:  
 Navy—Martin 8, Wallace, McLeod 2, Kelly 3, Carlisle 7, Thorburn 7.

Coast Battery — Calderoni 4, Huston 8, Sterritt 4, Lamonde 6, Fredachuk 2.

Canada has 952 public civilian hospitals.

**SPORTS**

Jot down the Falcons as the team most likely to sweep through to the Canadian Army Overseas hockey championship. Here's why: Led by a former Toronto Maple Leaf, the club features former professional and senior-calibre players. In topping the Canadian Reinforcements League the Falcons were unbeaten in six games. They scored 38 goals and only allowed six to drift into their cage.

A couple of dashing lieutenants make up the first-string defence in Lex Chisholm of Oshawa, last season with Toronto Maple Leafs, and Moé Swords of Ottawa, an Ottawa Army team stalwart last winter. Other rearguards are Pte. J. E. Callum of Pembroke, Ont., formerly with Pembroke Lumber Kings, and Pte. J. B. Brown of Medicine Hat, Alta., once of Kimberley Dynamiters.

The forward lines show plenty of skill and speed with such names as Ptes. Fred Giesbrecht of Pembroke, another Lumber King; Vince Germann of Regina, who has worn the colors of Hershey Bears and New York Rangers; Tommy Dunn of Medicine Hat, late of Trail Smoke Eaters, and Andy Bruce, who started with the Elks of Brandon, Man., and later performed with Montreal Army.

Among others are Lieuts. George Hood of Gananoque, Ont., Queen's University and Kingston Hockey Club, and Chappie Chappel of Oshawa, an Olympic hockeyist with the English team

**A Chartered Bank is ONE WHICH COMPETES WITH NINE OTHERS for your business**

*These ten competing banks are:*

- Bank of Montreal
- The Bank of Nova Scotia
- The Bank of Toronto
- The Provincial Bank of Canada
- The Canadian Bank of Commerce
- The Royal Bank of Canada
- The Dominion Bank
- Banque Canadienne Nationale
- Imperial Bank of Canada
- Barclays Bank (Canada)

A chartered bank is the custodian not only of your money on deposit but also of your secrets concerning that money.

A CHARTERED bank is an institution where the details of your bank account are kept secret.

It is called "chartered" because its permission to do business and the conditions and restrictions under which it may do business, are contained in a charter granted and kept up-to-date by parliament, the finest democratic free institution of government that man has yet devised. This charter is an Act of Parliament laying down all of the conditions which safeguard your money.

Ten competing chartered banks are the very opposite of a State Monopoly such as would come about if all the banks were rolled into one by nationalization. Under State Monopoly, if you failed to get accommodation at the one bank, you could not go to any one of nine others to seek it. You can today.

**LIFE ASSURANCE FIGHTS INFLATION**

Policyholders' savings important contribution to War Effort and Post-War Reconstruction

One of the many distinctive services performed by Life Assurance in these urgent times is the mobilization of the people's savings against the insidious but none the less devastating enemy — inflation. Thus millions of men and women, advised by a worthy and highly-trained group of their fellow-countrymen who "sell" Life Assurance, withhold their savings from the luxury market and set them aside to secure protection and well-being for themselves and their loved ones in the unknown days to come.

In the past year alone, the million policyholders of the Sun Life of Canada have set aside \$112 millions of their savings in the form of Life Assurance premiums.

During the war years there has been a marked increase in the basic service rendered by Life Assurance—personal and family protection in the time of greatest need. The Sun Life of Canada, since September 1939, has paid out 365 million dollars to policyholders and beneficiaries, a really significant contribution to the stability of national family life in time of emergency.

**HE IS SEEKING MINING PARLEY**

VICTORIA, Feb. 11 @—Speaking in the Throne Speech debate in the Legislature yesterday, Hon. E. C. Carson, minister of mines, said he had asked the Dominion government to call a conference of provincial ministers of mines and mining industry representatives to consider means of removing present restrictions so the industry may take its place in postwar rehabilitation plans.

**To Co-operate With Hospital Service Plan**

The board of directors of the Prince Rupert General Hospital, at the regular monthly meeting on Monday night, decided to co-operate with the new Associated Hospitals Services of British Columbia which has set up a group hospitalization scheme under sponsorship of ten hospitals in the south and with endorsement of the British Columbia Hospitals Association and the British Columbia Medical Association whereby hospitalization is provided for members paying 60c in the case of single persons and \$1.50 for married persons with up to two children.

The local board decided that the hospital here should accept patients for treatment under this scheme which pays regular public ward rates.

The sponsoring hospitals including leading institutions in Vancouver, Victoria and New Westminster.

**Many Friends At Service Of George Cripps**

High Regard of Community Was Manifest at Service Last Night; Body Sent to Vancouver for Interment.

Men and women from all walks of life gathered in St. Andrew's Cathedral at 8 o'clock last night to pay their final respects to the late George W. Cripps, O.B.E., provincial assessor, who passed away on Sunday.

The large gathering heard Very Rev. J. B. Gibson, dean of the cathedral, pay tribute to Mr. Cripps as a man whose love of country and his fellow men found expression in leadership in community activities, particularly in the organization of patriotic displays and demonstrations.

"His love of country sustained him beyond the field of battle, where he so distinguished himself," the Dean Gibson declared. "It permeated his everyday life, and made him a leader in patriotic activity."

Members of the Masonic order and veterans, fighting comrades of the last war, attended in a body, and following the service, marched in procession to the wharf whence the body was taken to Vancouver where burial will be made with Masonic rites.

The full cathedral choir under the direction of Peter Lien, choirmaster and organist, were in attendance, leading the singing of the hymns "Abide With Me," and "Hark, Hark, Angelic Voices."

Honorary pallbearers were C. H. Elkins, N. A. Watt, Col. A. Guttman, Aronld Platen, W. L. Coates and Frank Dibb.

Active pallbearers were J. G. Garrett, C. C. Mills, H. W. Birch, G. P. Tinker, D. G. Borland and W. M. Watts.

*To the Health Seeker*

Perhaps, a "Belief" exists that "everything has been tried and failed"? Has "faith" subsided to the low ebb of accepting as a fact, the belief that a disease is incurable? Meanwhile, a vague misgiving persists that: Somehow, somewhere there must be an answer to incurability.

Chiropractically, the greatest handicap to health restoration is: So many cherish a traditional faith or belief to the bitter end. Meantime, a simple disease descends into an indefinite and complicated realm of incurABILITY. Thus faith and belief hinders, and denies, the natural self-curABILITY within themselves the rightful duty to remedy (meaning: to cure again).

Such statements, of disease, special or general are verified by an exhaustive survey. Over 93,000 persons turned, when disillusioned and disappointed, to Chiropractic (Nature) as a LAST resort.

Some 410 qualified Chiropractors raised no question as to the merits of faith, belief or, the competency of any remedy, to cure again. Nature had preordained that everything was incorporated within. Nature's OWN Remedy substituted incur-ABILITY for cure or marked improvement in 79,000 cases; or, 85% of tiresome, intangible disease names.

A critical reader may question this astonishing record. For the needy there are two basic considerations: The belief that a condition is obstinately incurable, as against the Chiropractic record with thousands of varied, incurable cases. Both cannot be right.

When faith and belief fails to move mountains, Mahomet must go to the mountain. Possibly, the earnest Health Seeker discerns, by the mountainous record, that everything has not been tried; that, high odds yet remain in his favor.

As Mahomet would resolve: If Chiropractic eventually, why not ... NOW!

**NAVAL LEADERS**  
(continued from page 1)

except commanding officers of ships newly in from the sea during the first half of his morning.

Rear-Admiral Murray has had a long career aboard the ships themselves. He was a sea-going officer when the U-boat menace was at its peak in this war, and served at sea through the First Great War. He has sailed in as great a variety of craft as any man in the R.C.N. As senior officer among the graduates in the first class of Canada's old Naval College, it has usually fallen to him to explore any new developments contemplated by the Navy.

His anti-sub experience goes back to the early days of the First Great War. A member of the staff of the Commander-in-Chief of Britain's North American and West Indies Station, he helped organize the first troop and trade convoys on this side of the Atlantic.

Before the United States entered the war, he worked in the British-Canadian patrols responsible for intercepting attempts of Germany to run the blockade.

"Never saw a German flag until the day their first surrendered," he confesses with a smile.

That is in line with his concept of an expert officer's job—to keep his convoys where there are no submarines rather than hunt for U-boats to kill.

**KIT AFTER SUBS**

At the outbreak of this war, Admiral Murray was Canada's Deputy Chief of Naval Staff. Earlier, in 1934, he had been the first Canadian naval officer to command the Halifax Dockyard, up to then under civil control.

A year after this war broke out he became commodore in command of seagoing forces operating out of Halifax. Soon afterwards, when the western approaches to the United Kingdom were a hotbed of U-boats, he took most of his ships across the Atlantic to fight them out of British ports.

When the subs came preying farther west, he was dispatched to Newfoundland to organize and command the anti-sub activities out of that country as Flag Officer, Newfoundland Force. The naval strength available there was scanty then, under his direction facilities had to be improvised in large measure.

In September, 1932, he was appointed Commanding Officer, Atlantic Coast at Halifax. The appointment brought him back to his native province. He was born at Granton, N.S., 47 years ago.

While Deputy Chief of Naval Staff, he served as one of the original members of the permanent Canada-U.S. Joint Defence Board.
