Mr. Churchill Speaks . . .

8 Columns, 12 ems.

Mr. Churchill is realistic again. One thing we can never accuse the British Prime Minister with is the error of overoptimism. So it is in the latest of his war reviews which he presented to Parliament yesterday.

The Prime Minister has also been almost uncannily accurate in prognostications he has made in regard to events to come. It is, however, interesting to note on this occasion his suggestions that aerial warfare shall be on in increasingly intensive scale, that the Nazis may be preparing for a renewed attack upon the British Isles, that the war in Europe may not end in 1944 and that an Allied invasion of Western Europe is still contemplated.

Mr. Churchill is in a position to know the situation and what may be expected. He has long since proven that when he speaks he speaks the truth without any endeavour to gloss over the realities.

Mr. Churchill, in his own characteristic manner, again gave us plenty to think about yesterday and much to help us form our own conclusions as to at least some of the things we may be in some measure safe in expecting in a war which, like all wars, must be unpredictable.

Beachhead Morale . . .

If the beachhead below Rome is supplying a testing ground for Allied invasion tactics, it is also furnishing a useful preparation for home-front morale. The reassurances of Prime Minister Churchill and the generals dispel premature gloom.

In wartime, the home front owes a certain support and confidence to its fighting men. It knows it fighters are not cowards, it must also know that its generals are not fools. It must redouble its confident prayers in the wisdom and might of its cause when reversals are asserted.

The pattern of events in Italy is now more clear. Both sides were deadlocked in the hills south of Rome with about equal forces. The Allies were able to bring in some French troops. These were put in the central line while sufficient British ad Americans were drawn off for the run around left end. It was presumed the Germans would pull men out from the central line to meet this threat.

Instead, the Germans gambled high by pulling additional forces down from the north. Who knows whether this may not work to the ultimate advantage of the Allies? Evidently Churchill thinks it will.

It's no time to sell the Alies short.

A Serious Situation . . .

A serious situation again exists as far as Prince Rupert's water supply is concerned. There is scarcely any pressure in the higher levels of the city and it is stated that the proper amount is not being maintained in the reservoir. The city is well justified it pressing in any proper quarter that everything should be done to keep a safe supply of water on hand. It is annoying for some of the residents to be unable to get water in the upper parts of their houses but the most serious aspect is that of the fire hazard in the city which is more perilous today than it ever was owing to greatly increased population, living congestion and stepped-up activity generally. It is not hard to imagine what might happen if fire got really under way on one of these days when the water supply is so depleted. A great part of the city, under certain conditions, might quite easily be wiped out.

Water is one of the utilities which we must do everything in our power to keep intact and ready at all times. It is one of the last things we should take chances on being without.

TO PAY TAXES PROMPTLY

War-time taxes are necessarily so heavy as to be a financial problem for every Canadian. It is advisable to save money to pay taxes promptly, but if through unforeseen circumstances you find yourself without sufficient cash to meet them when due, a bank loan is probably the best solution to your problem. A loan may actually save money for you by enabling you to avoid penalties for overdue taxes.

Our policy in making personal loans is to help Canadian wage-and-salary-earners, professional men and women and business executives to keep financially fit. We therefore make such loans—at very low rates and on easy terms of payment. Do not hesitate to talk over your needs in confidence with the manager of our branch in your own locality.

The cost is low, and the terms are fair:

Only \$3.65 for a \$100 loan repayable in 12 monthly instalments; smaller and larger loans at proportionate cost.

Your Assistance Invited

The Daily News is compiling a Roll of Honor which it is hoped may contain the name of every man and woman of this city to serve with the armed forces at sea, on land and in the air. To make this list complete, it is essential to obtain the co-operation of the public as a whole in submitting the names.

It is impossible for the Daily News or any one person to compile the list complete so we are asking YOU to be responsible for the submission of the name of YOUR boy,

YOUR girl or YOUR friend. The following is the information we would like you to fill in and send to-

Cooking Is Easy For British Waafs

LONDON, Feb. 23 (7) - The R.A.F. has made a start on converting its uniformed Waafs into postwar housewives. On air stations throughout England, off duty classes in cookery are being organized to teach the girls who now man control towers and operations rooms how to plot a course in a kit-

The R.A.F. educational officers and the home economics teachers who have organized the classes say that the girls turn to cooking, ironing and sewing as a relief from service duties.

The surplus is held due entirely to extra revenue resulting from war conditions here. It will be of use in building up a reserve to take care of such exigencies as the purchase of the military hospital after the war, the making of necessary improvements, increased overhead and payment for undelivered equipment.

SERVINGHUMANIT Since 1099 A.D.

The Venerable Order of St. John is the oldest Order of Chivalry in the world. In 1099 A.D. members restored the old hospital of St. John in Jerusalem and provided a body of men, called the Brothers of the Hospital of St. John of Jerusalem, to attend the sick. Later, the Order became a fighting Brotherhood and consisted of Knights to defend the Hospital and the sick, as well as Brothers to nurse them.

Always the Order lived up to its motto-"Pro Utilitate Hominum"-for the service of mankind. Today the Order of St. John, which

controls the St. John Ambula Association and Brigade, still sen humanity. Through the Associate it teaches the science of First Alda Home Nursing; through the Bright its members put this instruction practical use rendering a First and Nursing Service through Canada and the British Empire

Gibraltar May Lift Obstacles

GIBRALTAR, Feb. 23. 3-The ban on married couples living in Gibraltar, imposed when Italy entered the war, may soon be lifted, if negotiations, now under way in London, are completed.

Under present regulations as soon as romance blossoms into marriage, either husband or wife must leave the fortress. The rule was maintained rigidiy. Recently when an army dental surgeon married a Wren the officer was (47) transferred two days later, and although his transport vessel stayed in the harbor a week, he newly married couple, with or wasn't allowed to go ashore and his wife could only shout at him from a small boat alongside.

Evacuated wives must go at least 60 miles away and many live at Malaga, Spain, just outside the forbidden zone. Only ., British women on Gibraltar are Wrens and army nurses.

"Just one-quarter inch of frost-Turn off the current-save the cost! your food will keep this easy way And you'll have smaller bills to pay!"

Yes, Madame!

The thicker the frost on your freezing unit, the higher the cost of operation. Defrost regularly for better use. And here are a few "don'ts" to follow:

1. Don't open door more often than is necessary -- close door quickly.

2. Don't put bot dishes in the refrigerator - wait until they cool.

3. Don't store canned goods in the refrigerator -- they keep just as well in the

4. Don't "stifle" your refrigerator by over-

loading - let air circulate.

Here's a Quick, Easy ECONOMICAL WAY to defrost:

Turn off current. Remove ice-trays. Replace trays with a pan of boiling water. By the time you have removed foodstuff from the refrigerator and washed interior with baking soda and warm water, defrosting will be finished and unit can be wiped dry, all ready for re-frosting.
