OR a long time now, John Bull, Unele Sam and Johnnie Canuck have been doing business together. Today, more than ever, we are united in a common purpose.

Side by side, Canadians, Americans and Englishmen march along the road that leads to final victory. On the hot sands of North Africa, on the slopes of Sicily and Italy, our men have fought well together . . . given strength one to the other. Now, we look forward to the peace . . . and the ways in which we can preserve it.

Future world security rests to a large extent upon continued co-operation between the British Commonwealth and the United States. Of all nations, Canada is best situated to assure such co-operation. For we, of Canada . . . a major member of the British Commonwealth, have long been a close friend and neighbour of the United States. We know and like them both so well, we are the common meeting-ground for mutual understanding. Thus will Canada help the world to Win the Peace!
