Naval Base of Brest Finally Taken; Many Further Siegfried Line Breaks

Robots Come Again-

Off Planes

Attack With Terror Weapons On London

Germans hurled robots at the STARGET counties today for the first time since August 31, giving emphasis to warnings from the government that the menace of Hitler's terror weapon had not passed. Damage and casualties were reported. Some people said that the bombs appeared to be the type discharged from aircraft. This type can be carried from air fields in the heart of Germany.

The Canadian Army is overrunning the most of the coastal regions from which the flying bombs were first launched but the Germans still hold Calais, Boulogne and Dunkerque.

Aachen Appears to Be Toppling-Americans Liberate City in Holland

Buzz Bombs LONDON, Sept. 16 (CP)—Allied troops have made advances in two sectors of the European front within the last 24 hours. The Paris radio said today Russians Are that the French naval base of Brest, in Brittany, has been captured, with an estimated 12,000 Germans Over Vistula taken prisoner. Earlier in the day the Berlin radios said that Brest was in flames.

Fighting is continuing. Mean-

GETTING INTO HIGH . . .

A revival and expansion of the activities of the Junior Chamber of Commerce is being sought by its active members. Leaders of the group point out that it is an association of young business men whose sole interest is to work for the advancement of the Cariboo, Oak Bay, Delta, North community.

However, they feel that they are too few in num-student and in percentage ber and that, to be most effective, they must have savers. the energetic support of a greater proportion of the membership, and also more new members.

A good point in this regard was brought out by Norton Youngs in meeting Thursday night.

"Prince Rupert has been good to a number of found but to tell a policeman young men. Surely they ought to be able to spare a little time and effort to support a group whose objective is the betterment of the city," he told the meeting.

That this is solid thinking is proven by the Chamber's record of activity for the last year. Outstanding monument to the season's labor was the anti- bec, oldest war plant in Canada, V.D. campaign which turned the spotlight on a con- is one of the largest, employing dition needing correction in a manner which won at peak, 12,500 workers, 60 perapproval throughout the country.

Sponsorship or support was given to such enterprizes as the Civic Centre Carnival, the ambulance committee, and the highway committee.

Leaders of the Junior Chamber feel that, while these accomplishments were worth while, they might have wrought even more fully had they been more actively supported. Anticipating big things for the coming year, they are prepared to prod passive members into action and hang out a "Welcome" sign for new members.

TWENTY-EIGHT YEARS A LONG TIME

Twenty-eight years is a good long time for any legislator's term of service and it is our pleasure to congratulate him and extend our congratulations and best wishes to T.D. Pattullo, former Premier and still Member of the Legislature for Prince Rupert, on achieving a political record for British Columbia. It is a record possibly for any Legislature in Canada.

We look back over the time since the fall of 1916 when the vigorous and very personable young exmayor of Prince Rupert won his first provincial election in Prince Rupert and say with confidence of general agreement that his record of service during those many years is appreciated as one of distinction, good value and achievement not only for his riding but for the province as a whole.

Mr. Pattullo expresses appreciation of the confidence that the people of Prince Rupert have so consistently imposed on him through these many years. The people who elected him may conversely feel that their confidence has been well placed.

We do not know what Mr. Pattullo's plans for the future may be. Quite possibly he may feel that the time has now come when he might quite gracefully retire from public life after this long and useful career as our good servant. Whatever he may decide, we can say that he may thus far feel no regrets over a lengthy and honorable tenure. We are also sure that the people of Prince Rupert can have no regrets over the merits of the record period of service he has devoted to their interests.

AIRPORT BADLY NEEDED . . .

A few months ago we were told by the federal government that the establishment of an airport at Prince Rupert for land machines could not be considered on account of excessive cost and lack of manpower. We were inclined to accept that edict for the time being but the feeling is again gaining ground here that Prince Rupert should not be put off in such a way from its right to be properly equipped to handle air traffic which is due for great development not only while the war lasts but after it is over, particularly in view of our important position in the Pacific theatre. It would be well therefore, that we should resume the campaign locally for the establishment in some way or another of an airport.

The large flat area in the Hays Creek basin back of the city and this side of Mount Oldfield has been for years mentioned as a possible landing field site. It had been said that air currents and down drafts caused by proximity to the mountain might make this site unsuitable. However, things are changing in the way of aircraft handling and development. It is declared by experts that the day is now here when the great long landings strips will not be essential and aircraft will not be so greatly affected by air currents and drafts.

The Hays Creek basin may yet be a suitable site. In any case, an airport is essential to Prince Rupert's future development and we should continue the campaign to obtain it.

WAR SAVINGS RECORD MADE

The B. C.-Yukon school war term last year.

It is estimated that 40 percent half speed we travelled. of war savings stamp sales in B. C.-Yukon comes from schools. The average per pupil investment in the province last term was \$3.32 as compared to Ontario's reported \$2.96, Manitoba's \$2.60 and P.E.I.'s \$1.47.
