Nazis Extend Stranglehold

Strength Now Unified

By Louis V. Hunt
Canadian Press Staff

LONDON, March 23 (CP)—Air power organized in the light of lessons learned in the Mediterranean in the co-ordination of land, air forces, and the first significant change in the Air Defence of Great Britain. The change, announced in the House of Commons by Air Minister Sir Archibald Sinclair, foreshadows others, in the opinion of qualified observers. It was the first time the established pattern of the R.A.F. Command organization in Britain had been upset. The immediate prospect is that a series of operational commands with strictly defined duties and equipment, such as fighter or bomber, will be abolished.

They would be replaced by strictly operational commands each a complete air force within itself, with fighter, bomber and other specialized equipment, and designed for short-range tactical or long-range strategic duties. Fighter Command and Army Co-operation Command of a year ago have been combined with the American Ninth Air Force under Air Chief Marshal Sir Trafford Leigh-Mallory, formerly chief of Fighter Command.

Within the framework of the A.E.R.F. are the Second British Tactical Air Force commanded by Air Marshal Sir Arthur Coningham and the American Ninth Air Force under Maj.-Gen. Lewis Brereton and they will be available for the support of operations on the European continent.

RESPONSIBLE FOR DEFENCE

The Air Defence of Great Britain force, under Air Marshal Sir Roderic Hill, is responsible for the day and night defence of the United Kingdom. In the words of Sir Archibald Sinclair: "We have thus separated and defined the offensive and defensive function while at the same time unifying them at the highest level for the great and intricate battles ahead."

The Second T.A.F. absorbs much of the fighter and fighter bomber strength of Fighter Command, all the medium and light bombers based in Britain and the whole of the Tactical Air Force originally established within the operational framework of Fighter Command, under Air Marshal John d'Albiac. The force is much bigger than the entire R.A.F. at the outbreak of war, and its equipment, ranging from large bombers like the Marauder, specialized ground-attack machines and high-flying fighters, will allow the operational variety which characterized the use of air power in the Mediterranean.

New Teachers at Island School

Filling a vacancy on the staff of the Skidegate Inlet United Superior School, at Queen Charlotte City, Miss Constance McFarlane, of Calgary, has been employed as teacher of the senior division. It was learned from Inspector of Schools B. Thorsteinsson. The position has been vacant since Christmas time. A qualified teacher, whose name is not available, has also been obtained to fill the vacancy in the junior division staff created by the recent resignation of Miss May Parker. Mr. Thorsteinsson reports that the Port Essington school, the teacher of which resigned at end of the year, has been unable to locate a new one.

Asquith's Daughter In Big Job

Lady Bonham-Carter President of Party Organization in Britain

LONDON, March 23.—Lady Violet Bonham-Carter has accepted the invitation of the Liberal Party's executive to succeed the late Lord Meston as president of the party organization. The Liberal Party has women among its vice-presidents, but Lady Violet will be the first woman president and is expected to take a prominent part in the party's affairs.

Thus the daughter of Rt. Hon. H. H. Asquith, Britain's prime minister from 1908 to 1916, becomes leader of the party of whose policies her father was so long an outstanding exponent. The Daily Express expressed satisfaction at the party's choice and noted that "in this country women form a majority of the electorate and will play an increasing role in the constituencies, in parliament and in the government."

Lady Violet is generally recognized as the best woman speaker that any political party has so far introduced to public life. Said the Daily Express: "Lady Violet has inherited her father's gift of a devastating logic in political exposition."

VANCOUVER, March 23.—Material has been released for several hundred individual houses which are to be erected in Vancouver with federal assistance to relieve the housing shortage.

PLAN NEW COVENTRY CATHEDRAL

Big Edifice to Have Central Altar and Inter-Denominational Centre.

By SYDNEY GRUSON
Canadian Press Staff Writer

COVENTRY, March 23.—Rev. Neville Gorton, Bishop of Coventry, has envisioned a new communal Christian centre of religion and learning to rise like a phoenix from the pinkish rubble of this blitzed city's old cathedral.

Two striking innovations have been planned for the new cathedral, designed by Sir Giles Gilbert Scott, a Roman Catholic. There will be a central altar, instead of the conventional placing at the eastern end of the building, and an inter-denominational centre of service in full partnership with the Free Churches. A special chapel of unity, belonging to the Anglicans and Free Churches together, will connect the centre to the cathedral.

The edifice has been planned to run north and south, in the shape of a rectangle, and the bulk of the old cathedral whose scarred walls still stand will form a cloister joining the 15th-century tower to the new cathedral.

"This is my conception," Bishop Gorton told visitors. "There"—and he pointed toward the tower—"lies the body of our Lord, and here"—he opened his arms wide to north and south in the line of the new building—"these are the outflung arms of Christ."

The idea of the central altar, he said, goes back to the earliest days of the Christian church. "The altar does not belong to the clergy, it belongs also to the people. Therefore, set it in the middle of the church and gather round it."

The inter-denominational centre has been planned to help bring closer together the people of the various sects.

"Eighty per cent of Coventry are without membership of church or chapel," the bishop said. "We cannot tackle this 80 per cent in isolation." Dr. Gorton does not contemplate any opposition from the people towards the plan to pool so much with the Free Churches. He told of one man who had worshipped in St. Michael's chapel in the old cathedral for 30 years, and the Sunday after the blitz went into the unclean rubble and read the service over to himself.

"Men with such an intense affection for the cathedral may tend to resent so close a union," he said. "But the scheme will go through."

Smoke Eaters Moving Ahead

REGINA, March 23.—Trail Smoke Eaters enhanced their chances of reaching the Western Canada junior hockey finals by displaying offensive power and defensive ability last night to defeat Regina Commandoes 6 to 5 to take a one-game lead in the Western semi-final best of five series here.

Big Navy Show Is Coming Here

LONDON, March 23.—A German propaganda agency broadcast was heard here denying that Hungarian Premier Horthy was being held prisoner. It did not confirm another rumor that Horthy had joined a government set up by Hitler in the recently invaded country.

GRATEFUL FOR WORK

Major Okell Acknowledges Assistance of Local People to Auxiliary Services.

Major Stanley H. Okell, auxiliary services officer of the Canadian Army for Pacific Command, who has been in the city for the past few days on official duties, has been taking every possible opportunity while here to express acknowledgement of the splendid work that local citizens, especially the women, have been doing to assist the Young Men's Christian Association, Young Women's Christian Association, the Knights of Columbus, Salvation Army and Canadian Red Cross Society in entertainment and activities generally on behalf of the men and women of the forces during their leisure time.

"We just could not have got along without these voluntary workers," said Major Okell to the Daily News this morning. "They have been doing a wonderful job and we trust that they will continue to give their services in this way as long as the war continues."

Major Okell spoke to volunteer workers at the Knights of Columbus Hut last night and was also at the Empress Hall of the Y.M.C.A. yesterday. The major said that the future of auxiliary services, here is linked up with the proposed new Y.M.C.A. building and it is hoped that its construction may get under way in the near future.

Major Okell leaves tonight on his return to Vancouver.

Germans Move In Haste To Head Off Great Russian Campaign In Balkans

Soviet Forces Take Further Important Points Both In Bessarabia and Poland—Enemy Defences Cracking.

LONDON, March 23 (CP)—With Hungary occupied and a puppet government established, Germany is reported to be extending its stranglehold over neighboring satellites in a feverish rush to construct a defence against the Russians surging westward and other Allied threats. The Nazis have followed the plunge into Hungary by penetrating Bulgaria, Rumania and Slovakia in a plan for general mobilization of all south-western Europe.

The Red Army drove today to within 25 miles of the Prut River, border of Bessarabia and Rumania, south of the fallen German bastion of Mogilev-Podolski.

The German High Command said fighting was going on inside Kovel and northwest of that centre in the eastern part of pre-war Poland.

The Russians on Wednesday had crumbled the German line at the Nazis' easternmost extension in Russia, capturing Pervomaisk, important fortified railway junction.

A Soviet communique said that detachments of two German guards divisions were annihilated when reserves attempted a counter-attack at Podzamche in pre-war Poland. Hundreds of Germans were drowned in the Bug River when the Russians cracked German defences around Pervomaisk.

The Russians are closing in on the Black Sea port of Nikolaev and are now only five miles away.

SAFE FROM ICE FLOE

NEW YORK, March 23.—G. N. Zaubin has been appointed Russian ambassador to Canada, the Moscow radio announced Wednesday night.

JAPS HAVE MORE SEA WAR LOSS

ALLIED HEADQUARTERS IN SOUTHWEST PACIFIC, March 23.—A Japanese destroyer and two small merchantmen were sunk by Allied bombers off New Guinea northwest of Weiwak, Japanese base, headquarters announced today.

General Douglas MacArthur announces that 227 Japanese cargo ships have been sunk in south and central Pacific waters since the first of the year. The communique reported another unopposed raid on isolated Rabaul, New Britain, during which 133 tons of explosives were dropped.

United States Marines, it was stated today, are mopping up Japanese following landings on two islands of the St. Matthias group, the closest point to Truk which has so far been taken.

Gyro Club Stag Party Enjoyed

At the home of W. J. Scott, Fourth Avenue West, members of the Prince Rupert Gyro Club assembled last night for one of their periodical stag parties. It was an event of enjoyment to all, the evening being spent in card playing with excellent refreshments being served at midnight. Gordon Bryant was in charge of the organization of the affair with the assistance of W. F. Stone, C. G. Ham and other members. The hospitality of Mr. Scott was suitably acknowledged by the president, Frank Skinner.

Indian Tuberculosis Problem . . .

Canadians generally have a lively interest in the problem of tuberculosis among the Indians. Most of them feel, properly, a peculiar responsibility for the havoc the disease causes, for it is something which our people unwittingly foisted on the Indian, an evil he never knew until our forefathers appeared.

Because of this the public as a whole is glad that a good bit has been done to check tuberculosis among the Indians and would endorse the expansion of the work. This as it should be for in spite of what has been done much more needs to be done.

It is the duty of the Canadian people to see to it that the facilities for treatment are available, both from the standpoint of protecting the Indians and of preventing the spread of infection to the white population.

The scattered nature of the Indian population presents a problem to the department. It has been found that the Indian will accept treatment perhaps as well as his white brethren. The question of how far from home a patient has to go has always been a factor in treatment of the disease. White patients have been loathe to go far, and the Indian is if anything more reluctant to go among strangers. For this reason the department wishes to give special attention to providing treatment near home, to the end that the Indian will not be required to go into exile to be cured.

Schoolteachers' Salaries . . .

The Financial Post discovers that there are 17,492 school teachers in Canada receiving salaries of less than \$537 a year.

The Post also finds that the average cost of keeping a prisoner in jail is \$536.55 a year.

So if we put all these 17,492 schools teachers in jail it would cost the country practically the same amount of money as to maintain them in their teaching jobs—except possibly the extra cost of enlarging the jails.

This is a situation that constitutes a national disgrace. How any school teacher can exist on such a small salary is a deep mystery. Why they should be compelled to even try, when they are admittedly performing one of the very most important public services, is something that no reasonable person can understand.

Education is a deterrent to crime. If we can pay \$536.55 to keep a man in jail, surely we can afford to pay teachers more than a like amount to help keep men out of jail.—Guelph Mercury.

ACTIVITIES OF Y.M.C.A. and Y.W.C.A.
(By DOROTHY GARBUTT)

Well, well, well! So us girls in the Service Wives' Club have gone and earned ourselves a leather medal! And are we proud of ourselves? Not 'alf, we ain't! It seems that the boys over at Chatham have awarded it to us, according to the current issue of their lively little news bulletin called "Chatham Chatter" which says—

"Leather Medal Award—This month we nominate for our own special leather medal award Mrs. Garbutt and her Service Wives' Club . . . The club was formed early after the outbreak of war by Mrs. Dorothy Garbutt genial—(oh, boys, modesty forbids the rest, but thanks just the same)—Y.W.C.A. hostess after her appointment to Prince Rupert.

"The wives of the Service men meet regularly in the "Y" Hut and engage in sewing, mending and knitting for the men of the armed services. In appreciation of the interest shown in naval personnel the club members were guests of Commander Cree at a picture show in the Naval Drill Hall on February 3. So to you Mrs. Garbutt and fellow Service Wives members we award this medal for your untiring efforts and sacrifices in making the lot of the service men in this area—a happier one . . . Ed."

Well, boys and Mr. Editor, thank you very much indeed. We accept this medal gratefully and proudly and will try to keep on keeping up with the 3. and words that went with it.

And by the way, where are the boys from the patrol vessel who wanted us to make a sweater for their mascot "Teddy"? We've heard no more from them and I've found a grand pattern for a dog's knitted sweater and we're all set to start in if you're still in these parts or if Teddy hasn't jumped overboard and a-drowned of himself.

SPORTS

Just three years ago this week Joe Louis successfully defended his world's heavyweight title for the 15th time, knocking out Abe Simon in the 13th round of a 15-round bout at the Olympia in Detroit. The giant Simon fought a sensational battle for 13 rounds but finally wilted under Louis' savage punching power.

Syl Apps, high-scoring Toronto Leaf forward, was chosen as the best rookie of the 1936-37 National Hockey League season seven years ago yesterday in a poll conducted by The Canadian Press. The Calder trophy, offered by the late president Frank Calder to the best newcomer each season, was awarded the Paris, Ont., playmaker, who is now in the Canadian Army.

World's Heavyweight Champion Jimmy Braddock turned down Max Schmeling's guarantee of \$350,000 for a heavyweight title fight in Berlin. It was seven years ago tonight that Braddock made that decision and instead elected to meet Joe Louis in Chicago. He lost his crown when knocked out in the eighth round of the bout with the Brown Bomber.

GIFT OF ST. CATHARINES

LONDON ☉ — Gift of St. Catharines, Ont., a mobile kitchen was presented to a Gloucestershire Rural District Council A.R.P. by Frederick Hudd of the Canadian High Commissioner's Office. YARDLEY RIDGE, Eng. ☉—Dr. Samuel Galbraith, medical health officer of this Kent district, made a hobby of racial studies. When he died he left a will requesting his three dark-haired, fair-skinned blue-eyed boys to "marry into good, healthy golden-haired, blue-eyed British stock."

GARDEN 'NOTEBOOK

First Vegetables

Both vegetables and flowers divide themselves into three main planting groups. In the first are the hardy things—those that one plants just as soon as the soil can be prepared, regardless of the weather ahead. These will stand lots of frost and, in fact, for best results they must make their first growth while the weather is still cool and wet.

In the vegetable line these very early things are garden peas, the first onions, carrots and beets, radish, spinach and lettuce. Experienced gardeners say that these can be planted just as soon as the soil has worked up nicely and is no longer muddy.

Spread Out Sowings

But they advise strongly against planting them all at once. They make a practice of sowing beets, radish, spinach, beets, etc., at least three times, about ten days apart. By spreading over the sowing in this way so is the harvest, and one has them coming on in successive crops of the tenderest vegetables imaginable.

One can spread out the season, till more by using an early, late and medium variety. This sort of spreading is particularly advisable with those vegetables which must be sown very early in the spring.

In the second group of vegetables the semi-hardy things which can stand a light frost but would prefer none would be early potatoes, the first beans, cabbage and, at the end of the line, the real tender plants that can stand no frost at all.

Flower Groupings

Flower groupings are similar. There are very hardy things that sometimes seed themselves, such as marigolds, cosmos, sweet peas, petunia seed, pansies, etc. One can plant them just as soon as the ground is ready. In the intermediate category

would be nasturtiums, bedding plants and, at the far end of the list lilies, dahlias, gladiolus, etc., semi-tropical plants that cannot stand frost at all. The degree of hardiness, of course, will be mentioned along with the variety in any good Canadian seed catalogue.

Nursery Stock

Nursery stock is the name that covers all the sort of thing one gets from a nursery, everything from perennial flowers and strawberry plants to ten foot ornamental trees. This year, due to the shortage of labor, gasoline and imported foundation stock from Europe, the Canadian supply is not plentiful, hence all the more reason for taking care of what one can buy.

All nursery stock should be planted just as soon as after purchasing as possible. With large plants and trees it is especially necessary to give roots plenty of room and press firm soil firmly about them. Cultivation for some time is advisable and also watering when first planting and if the weather is dry. It is essential, of course, to protect roots from wind and air generally in unpacking and planting.

BEARS ARE HOT STUFF

Three Polar Cubs on Way From Arctic to St. Louis Zoo.

WINNIPEG, March 23 — Hot stuff are three Polar bear cubs from Hudson Bay which arrived in Winnipeg yesterday by Canadian National Express from the north on their way to the Zoological Park in St. Louis, Missouri.

Two of them were captured 25 miles north west of Nelson by an Indian trapper after a fierce fight between the moose bear and the trapper's harnessed dogs. The Indian killed the

bear and his own lead dog with one shot, stopped the fight and took the cubs to the railway in sacks with their heads sticking out. They are about two feet high and weigh 25 pounds.

The third cub was captured on the coast of Hudson Bay between Nelson and Churchill when his mother was shot by another Indian trapper. He put up a fight before he was taken. A little more than two weeks old he stands 22 inches high and weighs 20 pounds.

The young bears were shipped in a specially built metal lined crate and the express men crated them with respect.

The Egyptians brewed beer from barley as early as 3000 B.C.

PLEASURE DRIVING... 1905

WHEN YOU WENT MOTORING IN 1905, you carried a full kit of tools. You needed them. No one knew what would go wrong next.

Down through the years manufacturers competed with each other to give you a better car. Each strove to outdo the other to give you a smoother, more powerful engine, stronger brakes, a more luxurious body. And each year you got a better car for your money.

Under our free way of life business competes with business to give you new and better products, more efficient service. This is true of the company that builds your car, of The Royal Bank of Canada, of the little store on the corner.

What is PRIVATE ENTERPRISE?
It is the natural desire to make your own way, as far as your ability will take you, an instinct that has brought to this continent the highest standard of life enjoyed by any people on earth. It is the spirit of democracy on the march.

THE ROYAL BANK OF CANADA

PLANES UNPOPULAR
There was so little demand for airplanes after the First Great War that a new plane, never uncrated, could be bought for about \$75.

USED AS PRESERVATIVES
Spices still are used to preserve food in parts of China and North Africa.

GOLD ANGEL
A gold coin weighing four pennyweights, used in the reign of King Henry VI of England, was called an angel.

OARS HELPED ROGUES
Among the first to supplement sailing ships with oars were Mediterranean pirates, who overhauled becalmed victims.

SLOW MOTION
Moth eggs hatch more slowly in winter than in summer, often taking as long as four weeks in cold weather instead of four to eight days.

BUTTONS PROHIBITED
Buttons covered with cloth were prohibited in England in 1671.

MEASURE IS INADEQUATE

Native Leader Says That Paying Fares of Venereal-Infected Natives to Prison.

KITWANGA, March 23—Harold Sinclair, president of the local branch of the Native Brotherhood of British Columbia, speaking at a community meeting here, said that while he was appreciative of the action of the Indian Department in assuming responsibility for paying the cost of transporting natives infected with venereal disease to the south, he believed that, at best, the action was only a half measure.

He said that simple, uneducated natives, coming to Prince Rupert, should have the active protection of the Indian Department and other authorities against the actions of certain elements of the white population, whom, he believed, were largely responsible for the high rate of venereal disease among the natives.

Furthermore, Mr. Sinclair declared, lacking such protection, the provincial government should share with the Indian Department the cost of transporting and curing infected natives.

Mr. Sinclair added that he had only good will for the white people, but he was convinced that a state of good health among the native people was a contribution to both the natives and white people alike and necessary for the welfare of future generations.

Commenting on a story which appeared in the Prince Rupert press concerning venereal disease among natives in the city, during the recent anti-venereal disease drive, Mr. Sinclair said that he was willing to meet the city council as head of a delegation to clear the matter up.

Briefs From Britain

HEMEL HEMPSTEAD, Eng. ♀—This Hertfordshire borough council has an organized cookery course for men during the summer with the object that they share in home life.

LONDON ♀—Since Dunquerque, the British post office has sent 20,000,000 parcels to British prisoners of war in Europe. The parcels go to Lisbon where the Portuguese post office arranges, free of charge, their forwarding to the prisoners.

DITCHINGHAM, Eng. ♀—The trunk of a 400-year-old tree which crashed here provided a Suffolk sawmill with its biggest job. One section of the trunk was six feet in diameter.

COLNE, Eng. ♀—Here there is a man of 65 who has no fears of a short life. He applied to be admitted as an "apprentice" at the annual meeting of the Colne Oyster Fishery Board. Apprentices must serve for seven years as dredgers before becoming "freemen."

LONDON ♀—Since the renewal of air raids on London, 20 additional deep tube stations have been opened all night as shelters. This makes a total of 68 such stations available for shelters all the time and another nine opened during alerts.

LONDON ♀—They couldn't hear the music, but about 100 deaf and dumb young men and women attended a dance here recently and never missed a beat. They watched other people's legs to get the time and then relied on their own sense of rhythm.

CO-OP DEAL RESCINDED

Two weeks ago the city council decided to make a water connection to Waterfront Block A where the Prince Rupert Fishermen's Co-operative is erecting a new establishment, the city to pay the \$800 cost of the connection. The matter was reopened at this week's council meeting by Ald. Norah Arnold, who was not present at the meeting before, and after some discussion, the council reconsidered its decision and referred the matter to a special committee consisting of Ald. Arnold, Ald. James and Ald. Thomas Elliott for investigation and report. Reconsideration was moved by Ald. Arnold and Ald. Elliott and agreed to unanimously.

Ald. Arnold said that, after Valentin Dairy last year had been required to pay the entire \$1300 cost of a water connection, it did not look like justice to her that the co-operative should get off without paying. She was not singling out the co-operative for criticism but would say the same no matter who might be involved in inconsistent treatment.

Ald. Black agreed that "it doesn't look right to me." Was

there any difference between the two applicants?
Ald. Rudderham said he had not been aware of what had been done last year. Possibly a mistake had been made in changing for a connection then.
Ald. Alex Sinclair said he had not been aware of the case last year. However, there might be some difference in circumstances. It would be a great convenience to fishing boats to have this water connection on the waterfront. However, he was agreeable to reconsider the whole matter.

Ald. T. H. Sorensen felt that it might well be taken into consideration that this waterfront connection would be of much value for boats refilling. The water would be on meter and would have to be paid for by the co-operative according to what was used.

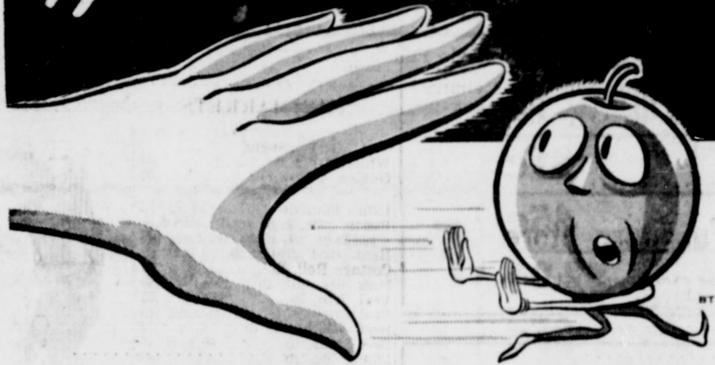

Ald. Black felt the co-operative should be responsible for at least a portion of the cost of the connection.

In the course of discussion, City Engineer G. S. Hanes expressed the opinion that it was usual to extend water connections to the property lines of companies which carried on from there.

After further discussion, the decision to refer the matter to a special committee was rescinded.

PERISHABLE FRUITS

Handle with Care!

Fresh fruits are precious these days—fresh vegetables, too. There's a shortage of labor in the fields and orchards and there are transportation restrictions. Then, huge quantities of these vitamin-packed, health-promoting foods must go to the armed forces both here and overseas. What's left for civilian use must be carefully conserved. So when buying fruits don't pinch and bruise them, don't toss vegetables around. Handle with care, remembering that the ones you don't buy must be used by your neighbors.

Food Fights for Freedom! Here are TEN FOOD-SAVING RULES For Wartime

- PLAN FOOD BUYING CAREFULLY**
Buy only the foods you know your family will eat. Calculate quantities so that there are no left-overs.
- PLANT A VICTORY GARDEN**
Help to increase Canada's food production by growing your own vegetables and fruits. Raise chickens and any other stock you can.
- AVOID WASTE IN PREPARING**
Measure all ingredients. Wash vegetable and fruit peelings—peel them thin. Cook potatoes in skins.
- COOK FOODS PROPERLY**
Follow your cook book carefully so as to avoid waste and retain maximum food values.
- SERVE SMALLER PORTIONS**
Start a Clean Plate Club in your home! Don't urge second helpings—let them ask for more.
- SAVE LEFT-OVERS**
When you do cook too much, save meat and vegetable remnants for stews, bones for soups, bread-crumbs for stuffings.
- SAVE SURPLUS FATS**
Use what you need in your own cooking. What's left over turn in with your other salvage.
- DO NOT HOARD**
Canada has a sufficiency of all the foods you need. Don't hoard or buy foods for the sake of saving up your ration coupons.
- ENCOURAGE OTHERS TO SAVE**
Share with your friends any food saving tips you hear or read. Don't spread gossip about "shortages" or tips that may start runs on unrationed foods.
- REDUCE YOUR FOOD BILL**
Choose economical foods—those with concentrated nutrients. Try to keep down and reduce your total food bill.

Here's a Real Home Economy Tip!

USE QUICK-SERVE BEANS OFTEN

HOME-BAKED BEANS WITH TOMATO JUICE

Try this recipe for Old-Fashioned Home-Baked Beans, to your own taste... ready in only 30 minutes!

1 cup chopped onion
1 tablespoon sugar
1 teaspoon pepper
1 teaspoon salt

1/2 to 1 tsp. dry mustard
1 1/2 cups Van Camp's Tomato Juice
1 1/2 cups boiling water
1-12 oz. pkg. Van Camp's Quick-Serve Beans

METHOD: Cut bacon into pieces, fry. Remove bacon and cook onion in remaining fat, or in the 2 tablespoons bacon dripping. Mix sugar, salt, pepper, mustard and blend with a little of the tomato juice. Add to onion and fat in which it was cooked, along with the remaining juice and water. Bring to a full boil. Turn beans into a casserole, add boiling-hot mixture, stir, and sprinkle with cooked bacon. Cook, covered, in a sprinkler over 300°F., 25 minutes. Remove cover and cook an additional 5 minutes. (Remove lid earlier if you prefer beans with less sauce.)

NUTRITIOUS HOME-BAKED BEANS IN JUST 30 MINUTES...

Use Van Camp's Quick-Serve Beans and enjoy ruddy brown, appetizing, home-baked beans to your own taste! Your family will like them! Easy recipes with every package. Get Quick-Serve Beans at your grocer's tomorrow.

U.S.-Canadian Service Wedding

Private Jean Fraser, C.W.C.A. Becomes Bride of Noel Sant, of Idaho, U.S.A.

A wedding of international interest took place on Wednesday evening at 8 o'clock in the lounge room of the C.W.C.A. barracks when Private Jean Fraser, Canadian Women's Army Corps, became the bride of Noel Sant, Army Transport Service, of Idaho. Acting Senior Chaplain Rapson officiated.

Given in marriage by Master Gunner W. Pittendrieh, the bride wore dress uniform and was attended by Private Kay Bergen C.W.A.C.

Groomsman was H. G. Cowling, of Seattle, Washington.

The bride entered the lounge room, which was filled with guests, to the strains of the wedding march, played by Sgt. S. Meggie, C.W.A.C. and, at the completion of the vows, Sgt. Major Clive, C.W.A.C., sang "O Promise Me."

At a reception held in the barracks writing room following the ceremony, a massive decorated wedding cake was cut by the bride and bridegroom. There were toasts to the bride.

Immediately after the reception the happy couple left on a honeymoon trip to Alaska.

LONDON — The Daily Express, paying editorial tribute to the men who man the isolated searchlight posts which dovetail with London's ack-ack barrage said: "their war has been much boredom, little glory... They are the Gentlemen with the Lamps."

LONDON — Hospital authorities had warned the porter, but Wilfred Smith, 29, couldn't resist taking doses of nitrous oxide (laughing gas) because it gave him such "agreeable sensations." A short time later he was found dead.

ALL THE Extra VITAMINS AND MINERALS... SHE NEEDS

Authorities say the difference between husky children and those who are poor eaters, underweight, and nervous is often simply a matter of proper nourishment, especially an adequate supply of vitamins and minerals.

But don't worry about vitamins and minerals! Children who eat 3 average-good meals including fruit juice, and drink 2 glasses of Ovaltine each day, are getting all the extra vitamins and minerals they need.

In addition to its well-balanced food values, Ovaltine adds significant amounts of Vitamins A, B₁, and D and the minerals Calcium, Phosphorus and Iron. So, if your child is not developing normally, remember this rule:

3 good meals plus 2 glasses of Ovaltine every day.

THEY BOILED—LITERALLY
Boiling to death was made a capital punishment in England in 1531.

IN STRICT TRAINING
Candidates for athletic games in ancient Greece did not eat meat but lived on new cheese, dried figs, and boiled grain with warm water.

DO THIS! To relieve discomforts, one of the best things you can do is put a good spoonful of home-used Vicks Vaporub in a bowl of boiling water. Then feel welcome relief come as you breathe in the steaming medicated vapors that penetrate to the cold-congested upper breathing passages! See how this soothes irritation, quiets coughing, and helps clear the head-bringing great comfort. FOR ADDED RELIEF... Rub throat, chest and back with VapoRub at bedtime. Vicks Vaporub works for hours—2 ways at once—to bring relief from distress. Remember, it's Vicks VapoRub you want.

Nazis Making Workers Slaves

LONDON, March 23 — The Germans, so the House of Commons was told, are using foreign-born workers as slaves, whipping them to death on British territory—the Channel Islands.

Maj. Vyvyan (Cons. Leeds W.) read this extract from a Briton

"I've found I can give up dosing!"

"I've found a far better way to correct constipation! One that gives me the kind of lasting relief I've always wanted, and never got, from harsh pills and purgatives. I've tried ever so many, but it's KELLOGG'S ALL-BRAN regularly for me from now on."

Such a happy experience is just one of thousands among people who have tried KELLOGG'S ALL-BRAN for constipation due to lack of "bulk" in the diet. ALL-BRAN corrects the cause of stomach trouble, by supplying "bulk-forming material" needed for easy, natural elimination! If this kind of constipation has plagued you, try eating KELLOGG'S ALL-BRAN regularly, or several ALL-BRAN muffins every day. Drink plenty of water. See if you don't praise its welcome relief! Get ALL-BRAN at your grocer's! 2 convenient sizes. Made by Kellogg's in London, C.

Marriage Service Along New Lines

Anglican Prelate Suggests Renewal of Vows by Long-Separated Couples.

YORK, England, March 23. — Dr. C. F. Garbett, Archbishop of York, writing in his diocesan leaflet, has suggested a new type of marriage ceremony—a rededication service with a renewal of marriage vows for married couples re-united after long-separation.

Such a service, Dr. Garbett has said, would help husband and wife make a fresh start. "Where there has been unfaithfulness on one side or the other, the Christian must refuse to accept the position as hopeless," he said. "There must be readiness to forgive."

Clergymen of some other denominations were not quite in agreement with the archbishop. Dr. Scott Lidgett of the Methodist Church said: "I should be against such a service if it seemed to suggest that the church expected or condoned falling in affection or respect between married people. If the service was to be one of thanksgiving for reunion, I should heartily approve."

PREHISTORIC IMPLEMENTS

JOHANNESBURG — More than 600 fine specimens of ancient implements — quartzite assagel heads and stone tools—have been discovered near here. Archaeologists believe they are of the Middle Stone Age 60,000 to 10,000 B.C.

BUILDING GETS LIFT

BATHURST, Gambia — It has been found that good bricks can be made from West African clay and the public works department of this territory anticipates considerable interest in building to result.

KAY KYSER IS STARRED

Gay Musical Film This Weekend at Capitol Theatre.

A tuneful well-rounded film of Kay Kyser's newest screen effort called "Swing Fever" is coming this Friday and Saturday to the Capitol Theatre. Kay's band is given ample support from such performers as the blonde, torch-singing Marilyn Maxwell, glamorous Lena Horne, wise-cracking William Gargan, and comic Nat Pendleton.

The film revolves around the adventures of a mild-mannered musician who comes to New York to publish a symphonietta he has written. He is given the run-around by the group of prizefight promoters he accidentally falls in love with when they learn that Kay possesses a hereditary evil eye which has the power to immobilize its victims.

They plan to get Kay to use his eye on the opponent of their fighter, in order to win the match. To do this they get him a job leading a night club band and set Marilyn Maxwell as the bait. Things boomerang when Marilyn falls in love with Kay, which is not according to plan. She tells him the plot but Kay still loves her and both are happy in the romantic finish.

Lovely Miss Maxwell, who was last seen as Wallace Beery's daughter in "Salute to the Marines," sings, dances and acts in "Swing Fever." Kay Kyser, long familiar to movie and radio audiences, turns in an able comic performance. As the crooked promoter, William Gargan stands out not only as a comedian but as a straight dramatic actor.

QUICK ON THE JOB

ACCRA, Gold Coast — Within six months after the establishment of new potteries in West Africa, 6,000 water-coolers had been supplied for use of the West African Forces in canteens, hospitals, etc.

LONDON — Late workers in central London will soon have more street lighting to guide them around in the blackout. Gas lamps are being installed in a number of badly-blitzed streets.

DANCE! SING! IT'S JOYOUS!

The Professor himself—hop and pop! Lovely Marilyn Maxwell—verse and chorus! A grand cast of fun-makers, musicians in a jamboree of joy and jive!
