Delinquent Parents . . .

New York City is plowing new ground with special classes for "delinquent parents." This delves at Navy and their guests at the Garrett. Junior Hostesses will the problem of badly behaved children nearer its roots than most methods do.

A woman widely known for her successful work with "problem" children declared recently that there were no delinquent children but only delinquent that it is so organized that every dancing class for the Elevent's parents. Her view coincides with that of nearly all one will have a chance to see Avenue boys last Monday night workers in this field.

The Chinese have always held parents respon- carrol, a wizard of a magician sible for the misbehavior of children. Chinese-American children appearing in New York City courts average only two in ten years.

This new program which the New York 18th Precinct Committee for the Physical and Moral Welfare of Children has inaugurated is surely built on a sound basis.

Seems like it always works out this way: watch the face of the clock and you'll never be more than one of the hands.

What Will He Come Home To? . . .

Will our boys return to a land of freedom and opportunity where a man may be rewarded according to his own initiative, his industry and ability—or will they find themselves hampered by a combination of strange new 'isms and political ideas?

Will they come back to a land where a man's courage and ambition can transform poverty into comfort and wealth - or will they find that our standards of living are being forced down to a common level? Will they come back to a land where anyone, rich or poor, may climb to great positions of honor and influence? Will they come back to a land where government is the servant of the people and not the master?

Will they come back to a Canada where freedom of opportunity provides the greatest happiness for the greatest number of its people-where the standard of living is the highest in the world -- where anyone can get an education if he wants to-where anyone can own property through thrift and a willingness to work-where a man is free to work for others, to to start his own business-to worship and talk and read and do as his conscience dictates as long as he stays within the laws that he has helped to make-where invention and ingenuity still pay off

off than he is, can still be satisfied. That is the true Canada—it is up to us to keep it

-and the burning desire to see his children better

for the day when our boys come home.

Where there's always uniform opinion, you'll find that part of the crowd isn't thinking.

Try New, Improved Ovaltine

If your child lacks a zest for food, it may be that his diet is short in very important food elements which, science has discovered, everyone needs for health. His growth may be stunted or impaired and he may be an easy victim to prevailing sickness.

As a "protecting" food-drink, New, Improved Ovaltine adds to a child's meals the essential food elements most likely to be deficient in his chet.

Three servings of New, Improved Ovaltine furnish a child with a significant portion of his daily requirement of Vitamins A, B1, and D, and the minerals Calcium, Phosphorus and Iron-alse quick food-energy elements and high quality proteins-all for building sturdy bodies.

So-if your child eats poorly, is thin or under par, why not start giving him New, Improved Ovaltine regularly? Get Ovaltine at your drug or food store

FOOD FOR THOUGHT

THE REXALL STORE

And everywhere that Mary went

The grocer did declare

He'd sold his quota for that day, So what did Mary do?

Why-she resolved right then and there That she'd be early too.

If you've tried to buy "Royal City" Canned Fruits and Vegetables without success, don't run away with the idea that you can't buy them at all. With restricted quotas, your grocer has just so much and no more, and when you arrive too latewell, it's just too bad. "Royal City"

Canned Foods sell quickly and you have

to be on the alert to get them. So put

them on every shopping list.

Bringing Home the Bacon:

Her fellow passengers didn't mind her bringing home the bacon but when it came to that armload of groceries, they had a right to kick. They knew that it would delay the bus, get them home a little later, leave people standing in the rain, and put more grey hairs in the driver's head.

Please, Folks, do not take large parcels on the bus during rush hours.
