Landings On

Good Beachhead Established—2nd Army Takes Hertogenbosch

LONDON, Oct. 27 (CP) -British troops, supported by Canadians, have landed on the Netherlands island of South Beveland, north of the Schelde River estuary, and are pressing thousands of trapped Germans against other Canadians sweeping in from the east. The surprise landing on Thursday reinforced Canadians struggling on both sides of the Schelde to open Antwerp.

A seven-square-mile beachhead was established.

The Germans claimed that another attempt to land several thousand Canadian troops at Hansweert to the east of the bridgehead was broken up

ing to land on the south coast | Recording Secretary. of the flooded Dutch island of Walcheren where big German guns guard the approaches to Antwerp. Such a landing would trap an estimated 11,-000 Germans between the beachhead and the Canadians pushing west of South Beleland Peninsula.

Nazis Yield in Holland

LONDON-The Germans gave ground all along the 50,mile front from Bergonnopzoom to Hertogenbosch as the Allies drove to clear the water way to the Port of Antwerp. The British have cleared the Nazis from two-thirds of Hertogenbosch but street fighting continues. The rest of the western front from the North Sea to the Swiss Alps is relatively quiet.

MOSCOW - Russian troops have beaten back German counter-attacks in East Prussia. These Soviet troops are understood now to hold a 15-mile strip of secondary rail line running northwest to the city of Tilsit from the junction of the main line between Konigsberg and Kaunas. The Germans have announced the evacuation of civilians from the communications centre of Gumbinnen. In the north, Russian troops driving through Finland have captured six localities in the Petsamo area. On the southern front, Russian troops have enveloped two-thirds of the former Czech province of Ruthenia which was annexed to Hungary.

Eighth Meets Resistance

ROME - British Eighth Army troops continue to meet the fiercest German resistance to their drive up Italy's Po Valley toward Bologna. At present, the Nazis are trying to hold their positions two miles east of the communications centre of Forli.

Canadian Airmen in Burma

OTTAWA-Ten Canadian airmen are doing their bit to drive the Japanese out of Burma. An R.C.A.F. press release discloses that they have been credited by the British Army with helping to drive the Japanese back in the Imphal area. The Canadians are attached to Royal Air Force dive-bomber squadron which has completed more than 2,000 sorties in the Arakan and Assam sector of the Burma front. It was this squadron which dropped the first Allied bombs of the war in a raid on Whilhelmshaven on September 4, 1939.

Yanks Improve Positions

MacARTHUR'S HEADQUARTERS, Philippines-Allied invasion forces have established firm positions along a 40-mile front on the Philippine Island of Leyte. Fifteen more communities on the island have been liberated by Allied troops.

However, Whole Story Not Yet Told Nipponese People

AMERICAN LOSSES

WASHINGTON, D.C. - American losses in defeating the Japanese Navy in the Battle of the Philippines total six warships. They were the aircraft carrier Princeton, two escort carriers, two destroyers and a destroyer escort. No details are yet available of the circumstances of the loss of the ships which probably carried a total of about 3,900 men.

PEARL HARBOR, Oct. 27 (P)-Tokyo is at last admitting that the Japanese have suffered in the naval battle off the Philippines. The whole story is not being told the Japanese people but Tokyo has admitted the loss of six Nipponese warships, including one aircraft carrier and one battleship. In addition, the broadcast admits the loss of two Japanese cruisers and two destroyers and says that one Japanese carrier and one battleship have been substantially dam-

There is a sufficient conjunction with continued deflow of water in Bob Creek for velopment." domestic and mill consumption. There is on the nearby creek slopes an ample growth of timber suitable for mining and construction purposes.

A fair amount of development work has been completed upon the property. This consists of surface stripping, open cuts and the driving of a number of short adits to follow or intercept some mineralized shearings which abound within the oxidized area.

The engineer's report says that favorable structure is characterized by the existence of a number of semi-parallel and steeply dipping shearings which vary in width from two to 10 inches. These shearings tend to occur in groups and there are strong indications that individual shearings tend to converge at depth. and will probably unit not far below the surface:

occurs throughout the country rock but normal occurrences of strongly mineralized vein matter occurs in the shearings encountered in the adits. This vein matter consisting chiefly of zinc blende carries gold values up to one and one-couarter ounces per ton over narrow widths as evidenced by the size of the shearings so far encountered. The adits were driven at creek level which allows the lowest possible elevation for such work.

WOMAN TELLS OF NIGHTMARISH LIFE IN NAZI PRISON CAMP

Took Risks to Aid Allied Fliers; Found Belgian Women Magnificent in the Face of Nazi Ruthlessness By RUTH COWAN (Associated Press Writer)

TO OTHERS WHOARE EARNING MORE THAN EVER BEFORE

ASK YOURSELF THESE QUESTIONS

Am I doing everything possible to help win this war?

When the war is over and the boys come back from the battle front, can I look them in the eyes, unashamed and unafraid of criticism?

Am I willing to deny myself and buy bonds to the limit to give them what they need to bring speedy and complete victory?

Am I passing up an opportunity of the safest possible investment, paying a good rate of interest?

Am I some day going to regret that I did not take this method of providing the means to buy the things, or do the things, that are postponed for the time being?

CAN ANSWER THESE QUESTIONS

But remember—your purchase of Victory Bonds will help bring Victory nearer. It may help to save a life—possibly of one you hold dear. Buy all you can for cash then all you can to be paid for out of income during the next six months.

VEGETABLE CONSCIOUS -Why aren't Canadians more vegetable conscious? Vegetables are in plentiful supply in most localities and the price is usually reasonable. In spite of this, many Canadians fall below their daily quota of three servings, a country-wide survey shows.

Investments in vegetables mean dividends in health and the wise Canadian housewife knows this, buys varieties which will appeal to her family. Imagination, an eye to color and the combination of favorite standbys with new varieties many transform a commonplace course into something special. Careful preparation saves important vitamins and minerals too.

The Nutrition division recommends three servings of vegetables every day one serving of potatoes, one serving of leafy green or yellow vegetables and one serving of any other variety.

CEREAL NEWS: Perhaps your family doesn't care for whole grain cereals for breakfast . . . but that's no reason why you cannot guarantee that they will get their daily quota just the same. So often we think of whole grain cereals in terms of brown bread or morning cereal only. However, the home economists of the Agriculture Department Consumer Section say there are numerous delicious recipes using cereals from soup to dessert in their recipe folder "Cereals and Their Use." (For a free copy of this folder send your name and address to the Dominion Department of Agriculture, Publicity and Extension Division, Ottawa).

SERVICE SOCKS-Our fighting men in northern war theatres need warm socks, just as civilians at home need socks for winter sports . . . and both kinds are more popular if they wear for a while without developing holes. If you are knitting socks, combine linen thread with the wool when knitting the heelsocks thus reinforced wear months longer than those knit in the ordinary way. For a personal touch you could use strands of your own long hair . . . it's been done.

SNOW TIME IS COMING-By the time that the snow flies, there'll be many a youngster in Canada cosy in the snowsuit his mother made for him. And it's not such a big job either.

The travelling wardrobes assembled under the direction or the Prices Board's consumer branch contain planty of ideas for source materials for these outdoor garments - old winter coats and heavy velveteen dresses, to name a couple.

WRINGER HINT-Run pillow cases seam first through a washing machine wringer and you'll save the force of water from tearing out the seam and make the cases last longer.

sit at home!

We sit at home where it's nice and safe while our young men face death hourly. They fight with their blood, their lives, for every inch they gain in occupied countries. Not very fair, is it?

So how about squaring up the score a bit? How about doing without and making do with what we have to back them with every last dollar.

Let's turn our savings into Victory Bonds today; then buy an extra bond and pay for it by instalments every pay day. It's little enough to deas we sit at home!

C.W.A.C. PIPE BAND COMING TO PRINCE RUPERT-Members of the Canadian Women's Army Corps Pipe Band which will visit Prince Rupert this week-end in connection with the Seventh Victory Loan campaign. The band will parade in the business section of the city on Surday afternoon to the Post Office green where the mayor will extend a civic welcome. In the evening there will be a public concert in the naval drill hall with the United States Army Band and the Dry Dock Male Choir also participating. On Monday there will be a civic luncheon and that night the band will leave for Vancouver. From left to right are: sitting, Marion Gee, Prince Albert, Sask.; Nellie Forrest, Prince Albert, Sask.; Frances Laframboise, South Lancaster, Ont.; Jessie Hodgson, Edmonton, Alta.; Flossie Ross, Montreal; Doris Macdonald, Courtney, B.C.; Dorothy Holloway, London, Ont.; Pipe Major Lillian Grant, Victoria, B.C.; Loretta Trowbridge, Chatham, N.B.; Catherine Chalmers, Vancouver; Beverley Macdonald, Vancouver; Jean Tyerman, New Westminster, B.C.; Peggy Hain, London; Joan Turner, Vancouver; Lenie Stephen, Port Alberni, B.C.; Isabel Rodger, Winnipeg; Bernice Magness, Sand Springs, Okla.; Marie Genniver, Port Alberni, B.C.; Isabel Henderson, Fort William, Ont.; Pipe Corporal Lorna Doull, Vancouver. -(Canadian Army Photo)

FROM NEAR EAST

brother, L. H. Kenney, now of in Canada—is enthusiastic over the glass industry. Conservation. THE HOME FRONT! SERVES CANADA

CANADIANS have learned the art of conservation. Through the years of war, things which could not be replaced have had to be protected. The stitch in time has reached a new high in public estimation.

Through the magic of chemistry, improved paints and other finishes have been produced to preserve vulnerable surfaces. Wood and metal have been protected against the hand of time and the effects of the elements. And with this has come new beauty in colour and in surface effects.

Specializing in this field, the Paint and

Varnish Division of Canadian Industries Limited has cooperated with various manufacturing groups in evolving for them suitable finishing materials. The best types of paint for ships, for industrial buildings for vehicles, for aircraft and for the exterior and interior of homes have been developed by intensive study and continual experimentation.

In this way the Paint and Varnish Division has made a contribution to the industrial and domestic development of Canada, and the familiar C-I-L trademark has become a recognized symbol of service protection throughout the land.

Members of the Loyal Order told of the work done at "Mooseheart, the children's city" by reme Governor, at a banquet observing the thirty-first anniversary of the founding of that institution held in the staff house dining hall last night.

Mr. Hockley's address followed gram. About 150 attended. Mooseheart, a home institution

for children of deceased members of the Moose order, is situated near Chicago, and has facilities for 1500 children. Its 160 buildings, spread over 1,200 acres of park land, are fireproof and modern, the speaker said. The care received by the child-

to Steve Salonski and Stanley ren, who range in age from 11 Veitch, also for bringing in new months to 17 years, is the best that modern knowledge and an open heart can provide. About 700 are there at present. "Undoubtedly Mooseheart is

in the world," Mr. Hockley declared. Mooseheart also holds the best health record for any institution in the world. There have been no deaths there is 10 years,

one of the happiest institutions

he added. The training received at the home accents high moral character and useful skills. As the children develop they have the choice of taking any type of training for which they are inclined.

When they graduate they are equipped to enter their line of work without apology for any lack of skill. "Graduates say that their

ncreasing Leadersh

ALMOST 45 years ago, the first Carnation evaporating plant started work, producing a few hundred cans of Carnation. Now there are 65 evaporating plants and receiving stations located in the finest dairying sections of Canada and the United States, producing daily millions of cans of Carnation Milk. To win leadership . . . to hold and improve it . . . indicates that there has been a steady growth in the quality of Irradiated Carnation Milk - the evaporated milk used by
