Wage Earners Get \$78 Million More Than in 1942

VICTORIA, Sept. 9 — British Columbia wage earners received almost \$400,000,000 in 1943, according to figures released today by the Provincial Department of Labor. The figure is \$78,000,000 more than in 1942. Average weekly rate for workers in the province was \$37.19, nearly \$2 per week higher than in the previous year. Highest paid group was jewelry workers, who received an average of slightly more than \$41 per week. Shipyard workers averaged \$40 per week. There were 55,000 women working throughout the province, 10,500 more than in 1942. Their average weekly rate of pay was \$15.

MOSCOW, Sept. 9, (CP)—The Russian offensive through Bulgaria, coupled with combined operations of Marshal Tito's partisans and Allied commando units in Yugoslavia, appeared likely today to free the Balkan Peninsula entirely of Germans in less than a week. The Russians, driving through Transylvania, pushed to within 123 miles of the Hungarian frontier. No hostilities jarred the Russian advance across Bulgaria as Russia accepted Bulgaria's request for an armistice. Meanwhile the Berlin radio said that the Russians had opened a new offensive in the area of Przmysl, 55 miles west of Lwow, Poland and Krosno, further west. A Reuter's News Agency dispatch said Russian patriots had crossed into East Prussia and returned with prisoners.

YANKS NEAR GOTHIC LINE

Germans Fighting Savagely to Prevent Casualties
 ROME, Sept. 9 (CP)—Near the western end of the Italian front, the Americans have advanced to within two miles of Pistoia, last important city south of the Gothic Line remaining in Nazi hands. Meanwhile a savage battle still is raging for Rimini and the gateway to the Po Valley without substantial change in positions, headquarters announced today. Heavy casualties are being suffered by both the Germans and the British Eighth Army. Gambling to prevent a breakthrough that would enable the Allies to sweep into northern Italy and envelop the whole Gothic Line, the German commander threw heavy forces into counter-attacks yesterday.

 ROME, Sept. 9 (CP)—The Americans, driving northeast from Besacon, have reached a point less than twenty-five miles from the Belfort Gap route into southwestern Germany, headquarters announced today. PROVINCE GREETES NEW ROAD

Prince Rupert has been too long an isolated seaport to most British Columbians says the Vancouver Province in commenting on the opening of the Skeena River Highway. From the south it was approachable only by a roundabout railway route and a series of disconnected highways. With the opening of the Skeena Highway, all that country in Northern B.C. is made accessible by a continuous motor road which is at once a commercial highway and a thing of beauty.

Now has been made possible a motorist's pilgrimage from Vancouver through the Cariboo, along the fringe of the Fraser and the Skeena Rivers, over the mountain passes and the exquisite lake country of the north, through Prince George and Terrace to Prince Rupert. From thence the return trip can be made at choice by ocean steamer back to the Lower Mainland and Vancouver Island.

The lived-in habitat of the agriculturist, the regions of mining and forest wealth, the lonelier haunts of the sportsman and the tourist, all these things are threaded on that long ribbon of road. We are reminded again of the diversity and richness of the province that is ours.

So there is a special significance in the formal ceremony on Labor Day which invited us all, as soon as military restrictions can be lifted, to make use of this fine utility. Parts of the road are still under supervision of the military; parts require considerable improvement.

One of these will be attended to shortly, we are promised, by the Dominion Government. Other parts, such as the stretch between Kitwanga and Hazelton, call for the attention of the Provincial Government. It is to be hoped that there will be no delay in Victoria to recognition of this obligation.

Salmon Pack in This District is Still Mounting — American Halibutter Wrecked Down Coast

The total salmon pack for the Naas and Skeena River districts up to the end of last week had reached a total of 338,966½ cases as compared with 239,310 cases last year at a similar date. Indeed the pack so far this season in the two areas contiguous to Prince Rupert on the north and south has been the largest in five years. The increase is due to a heavy pack of pinks which has been put up, totalling 189,011 to date as compared with 114,347 cases in 1943. The chum pack is also developing and up to the end of last week was 27,408 cases. Fall varieties are bringing up this year's total, the sockeye pack to date having been 93,652½ cases as compared with 51,167 cases in 1943.

The well known American boat *Majestic*, which sank near Namu last week, has been successfully salvaged by a crew from Namu Cannery under the personal direction of Manager H. V. Morehouse. The vessel's stem was badly smashed and there was considerable difficulty in raising her. Logs and empty oil drums were used in the operation. After having been temporarily patched up on the beach, the *Majestic* was taken to Ocean Falls.

Mrs. R. G. Sutherland 'phoned in to the waterfront department yesterday afternoon to tell us that crawfish, one of which was found by a couple of girls near Galloway Rapids at the end of last week, are very common in the streams of Oregon. They are, indeed, regarded as an appetizing delicacy. Mrs. Sutherland wonders if the crawfish, like other fishes, are also showing a tendency to move their habitats northward.

The records of the International Fisheries Commission show that for the period from April 16 to August 31, 1944, the following total amounts of halibut have landed in Pacific Coast ports from Area 3:

U.S. Fleet	17,217,000
Canadian Fleet	1,361,000
Total	18,578,000

In 1943, the Area 3 landings from April 16 to August 31 amounted to:

U.S. Fleet	23,669,000
Canadian Fleet	1,385,000
Total	25,054,000

In 1944, landings commenced more than a month later, due to delay in departure of all fleets, and are not directly comparable with the 1943 landings to the same date.

For the month of August, 1944, the following amounts of halibut were landed:

Preparations to make the Royal Canadian Navy one of the most prolific developers of boxing talent in Prince Rupert are being made at H.M.C.S. "Chatham."

Gordon Sullivan, a veteran mitt-slinger, has three men training who have had ring experience in this city. They are Art Lamoureux, of Winnipeg, Man., Jim O'Neill, of Hamilton, Ont., and Jackie Owens, of St. Thomas, Ont.

Still to make their boxing debuts are Gord. French, of Toronto, and Al. Eastman, of Nipawin, Sask. Sullivan has even been instructing Bandmaster G. Noakes, P.O., in workouts.

"I want more boys who are interested in boxing to come down to the Drill Hall," Sullivan declared today. "Even if 50 come I can take care of them," he added.

FOUR BALL GAMES ON WEEK-END CARD

Four softball and baseball games will be played at the Acropolis field tonight and Sunday in a schedule which should satisfy the most eager fans. Tonight at 6 o'clock Rangers will meet 9th Ack-Acks in a play-off game which will decide what teams will enter the Canadian Army finals, first game of which will be played Sunday night at the same field.

It is possible that winners of the army final two out of three series may have the opportunity to compete for the Pacific Command championship, although there has been no definite word along this line.

At 1 o'clock Sunday two Allied teams will meet in the Acropolis station softball finals and at 2:30 Acropolis Browns will tangle at baseball with the Prince Rupert All Stars.

Instruction in the many art is carried on three afternoons a week, and high hopes are held for a successful season this fall and winter.

LETTERBOX

QUEBEC IN POLITICS

Editor, Daily News:

Listening to the other evening to the speech of Elliott Little on behalf of John Bracken and the Progressive-Conservative party, I was astounded to hear the Mackenzie King government accused of being responsible for the state of affairs in Quebec. As one who knows something of the political history of Canada during the past fifty years, I would say that the people may judge who has made the greatest contribution to the Quebec situation as it exists today.

It is the privilege of Mr. Little or any citizen to express preference for Mr. Bracken over Mr. King or for free enterprise as against socialism or the policy of the C.C.F. but history should be allowed to condemn or defend the past.

The situation in Quebec is the same today as it has been as long as I can remember. The force that developed and perpetuated prejudices and senti-

ments in Quebec I do know but I imagine its roots lie in the Plains of Abraham.

Let us review the political history of the last 48 years in Canada and see if the good old loyal Conservative party has done anything to eradicate Quebec's policy of isolation. Was it an appeal to prejudice or national responsibility in 1896 when an attempt was made to make a national issue of the separate school question in Manitoba? What was the attitude of the Conservative party when Sir Wilfrid Laurier sought permission from Parliament to proceed with the development of a Canadian Navy in 1910? The Conservative party, under the leadership of Robert Borden, said "No, we in Canada cannot build ships. What we can and should do is make a cash contribution to the Mother Country to build and operate the ships." Sir Wilfrid's reply was: "We shall learn by trying." In 1911 when the Laurier government sought re-election on the issue of reciprocity with the United States, the Conservatives raised in Quebec the spectre of conscription of the

sons of Quebec to man the Canadian Navy. Then the Conservatives came into power during War I, instituted conscription causing virtual civil war in Quebec. Now in World War II we find the attitude of the same as in 1915-1918 in the name of conscription how can Mackenzie King be responsible for the state of mind in Quebec?

In my opinion strong leadership is the leadership through to the end of the without getting into the with the whole head. Strong leadership is through a balanced mind that is what Canada needs.

Laurier's dream of a navy has been fulfilled. The navy has given a fine of itself in this war, though it was torpedoed by the Conservative party.

I do not agree with you in the street who is to "damn" the Mackenzie government.

GEORGE B.

It's always dependable!

IN THE QUIET of a little Canadian town a Ford "Red Cross" truck pulls up in front of a hall, school or church. Trained technicians hurry sterile equipment into the building, and soon the townspeople and folks from the surrounding farms are giving blood to save the lives of the boys overseas. Then, right on schedule, the truck is on the way to the next town or village. This is the Mobile Blood Donor Service of the Canadian Red Cross, which collects the blood of thousands of eager donors living far from the permanent clinics in the big cities.

To the deafening roar of our artillery, our men advance behind a protecting wall of fire. Close behind them come Ford military ambulances, pushing forward along shell-torn roads on their missions of mercy.

Swiftly the wounded are given first aid, or snatched from the jaws of death with life-saving blood serum from Canada.

Whether on the battlefield or on the home front, these trucks must get through on time. Their drivers have complete confidence in the famous Ford V-8 engine. It's the engine proved by millions in peacetime . . . tried and proved again by war's cruel tests on the frozen fronts of Russia, in the swirling sandstorms of North Africa, in the mud and mountains of Italy and the battlefields of France. More than 300,000 Ford military vehicles, serving under every Allied flag, have told the same wonderful story of the Ford V-8 Engine . . . "It's always dependable!"

The Experts Say...

By the Canadian Press

COLD COMFORT—There's no chance that electric refrigerators will be released for domestic use for some time to come; hospitals have a priority on new ones. Now, says the Prices Board, there are only 225 left in stock in Canada, the number produced in one day in normal times. If you have an electric refrigerator take the best possible care of it, for when firms return to civilian production it will be from six to nine months before the refrigerators appear in the store again.

EXTRA GOODIES—The little extras—cake, cookies and doughnuts—are appreciated by factory and office workers and school children for whom lunch boxes are packed, nutrition services says. And every lunch box should include either meat, fish, eggs, cheese or dried beans, plus a fruit, vegetable, other than a potato, and milk. The nutrition experts point out that cold or hot milk drinks or cream soups carry well in a thermos, and milk puddings and custards pack milk into the lunch box too.

APPLE A DAY—Here's a recipe for apple ice cream that is certain to please six persons, for whom the serving is planned. It requires two cups of grated apples (four medium apples) one-half cup of fruit or fine granulated sugar and half a pint of whipping cream. Grate the unpeeled apples, and after grating a small amount of apple measure and sprinkle with part of the sugar to prevent discoloration. Continue grating until two cups of apple are measured. Whip the cream, fold into the apple mixture and freeze.

The same recipe may be used for apple charlotte, but the charlotte requires one and one-half tablespoons of gelatine, soaked in one-quarter cup of cold water dissolved over hot water, folded in with whipped cream. The charlotte should be chilled until firm. It will serve six to eight people.

CONSERVE CAREFULLY is the word these days, and here are a few hints on how to practise it. Don't throw the oil in a tin of fish down the drain. You paid cash for good food value, so why throw it away. Again, don't buy more than you need, and use up what you buy. Be sure "bargain" foods are really bargains. Don't leave what you have to spoil—there's a place to store everything and its not always the refrigerator. Leave the cold air for foods that must be refrigerated, and don't throw out left-overs; think of an interesting way to serve them again.

CRIME CONTROL Regular courts and judges have existed in Ireland from pre-historic times.

BURNS LAKE FAMILY DRIVE HERE TO SHOP

An advance indication of the benefits which this city will receive from the new Skeena highway was experienced by one local merchant this week.

On Tuesday, a car carrying a family and showing signs of a long journey, stopped in front of the Wee Tots Shoppe on Third Avenue. A woman entered who made a sizeable purchase. She told Mrs. M. Lundstrom, proprietor, that the family had motored from Burns Lake to take in the opening celebration at Terrace and had continued to Prince Rupert.
Baby clothing such as was on display in the store was practically impossible to get in the interior, she told Mrs. Lundstrom.
"She said she had enjoyed the trip greatly, and looked forward to making it again," Mrs. Lundstrom said.

Melodrama of Old West Here

Vigorous action melodrama produced on a large scale and featuring well known screen entertainers is promised in an exciting new picture "Frontier Badmen" which comes to the Capitol Theatre here next Monday and Tuesday. Robert Paige, Anita Gwynne, Noah Beery, Jr., and Diana Barrymore appear in colorful roles of old west characters while other notables include Andy Devine, Leo Carrillo, Tex Ritter and Thomas Gomez. Also prominent in the cast are the celebrated William Farnum and Lon Chaney, Jr.

"Frontier Badmen" delves into that roaring period of western history when Texas cattlemen drove vast herds overland to the markets in Kansas. Paige portrays a stalwart Texan who encounters and destroys a gang of swindlers which has been preying on the cattlemen. Spectacular scenes include a cattle stampede and an attempted lynching by lawless mobs.
